MR. CHARLTON'S BILL

To Stop the Practice of Corruption in Elections.

THE DEBATE WAS VERY WARM

Finance Minister Made a Suggestion For a Non-Partisan Special Committee of the House to Consider the Subject, But the Opposition Gave No Response—Premier on Redistribution Schedules.

Ottawa, April 3.—The debate in the House upon the second reading of Mr. John Charlton's bill to amend the Dominion elections act, 1900, yesterday afternoon was animated and at times decidedly breezy. The object of the bill is to make it so perilous for those who seek to engage in corrupt practices, by placing them at the mercy of those they seek to corrupt, that the practice will be stamped out. The debate traveled somewhat beyond the limits set by the rules, with the result that mutual recriminations were indulged in regarding the improper practices alleged to have been resorted to by both political parties to carry elections in South Ontario, West Elgin, Brockville, West Huron and other constituencies.

Special Committee Suggested.

Hon. W. S. Fielding suggested that it would be in public interest to appoint a special committee of representative men from both sides of the House with a view to drafting legislation which would be effective in stamping out corruption in elections. The suggestion did not meet with a response from the Opposition benches.

Redistribution Schedules.

Mr. Borden, before the orders of the day were called, asked Sir Wilfrid Laurier if the Government was prepared to present to the House the schedules that he had been led to believe had been prepared for the purpose of working out the details of the redistribution bill. He had no desire to question the fairness of the proposition made by the Government to the Opposition for a committee, but it was evident that for the Government to prepare the schedules and not hand them to the Opposition would do injury to his side of the House.

Sir Wilfrid replied that for his part he could say he had received as many as twenty schedules from different constituencies asking that divisions should be made along certain lines. Perhaps Mr. Borden had received some also; if not, he was less favored than the Premier.

The ground had been taken by the Government in regard to redistribution not to be committed to any schedule beforehand. The Government's representatives would go into the committee perfectly freehanded, and it was desired willing to take up the details of every constituency in Canada.

Inquiry Into Railway Wrecks.

Mr. Blair informed Mr. Clark that the Government was starting an inquiry to ascertain how many lives have been lost in railway accidents during the past three years. Since Oct. 1, 1902, there had been fourteen separate and distinct railway accidents. One hundred and seventy-nine lives had been lost, 38 of them in collisions. The Government was considering the advisability of appointing some person to make a rigid enquiry into the cause of these accidents, but nothing definite has been decided on.

To Stop Corrupt Practices.

Mr. Charlton presented his bill to amend the Election Act for a second reading. He spoke in general terms of the prevalence of corruption throughout Canada in elections. One party was as bad as the other, but that many ridings were corruptible was well known.

It was a crime of the first magnitude to allow electoral corruption to go on. All parties should unite to put an end to corrupt practices in elections, and Canada would be blessed. If an electorate was for sale the very foundations of the stability of free institutions would be swept away. In his mind, a man who would purchase votes would likely take steps when elected to reimburse himself. Election corruption was spreading rapidly, and was manifesting itself in other circles till the best interests of the country were alarmed.

The object of his bill was to adopt

BAN ON GOWNS IN THE PULPITS.

Methodist Church Court of Appeal Gives Decision.

Declares That Pastors Should not Wear Robes in the Church.

The appeal of Rev. Dr. Rose of the Dominion Methodist Church, Ottawa, against the decision of the president of the Montreal Conference, condemning his action in wearing the gown in his pulpit, was considered by the Court of Appeal of the Methodist Church yesterday morning. After considerable debate it was decided that the appeal entered by Dr. Rose be dismissed and that the decision of the president of the Montreal Conference be upheld. The decision of the court is upheld in the following words:

"That this court declare the wearing of the Geneva gown illegal on account of the wearing of gowns being against the general usage in worship, as set forth in the model deed, which sets forth that all worship shall be ducted in harmony with the discipline and rules and usages of the church."

The following members constitute the Court of Appeal: Justice Britton, N. W. Rowell, K.C., Judge Chesley, M.A., R. J. McLaughlin, K. C.; J. J. McLaren, K.C.; J. Mills, LL.D.; Rev. W. J. Shaw, D.D.; Rev. J. S. Ross, D.D.; Rev. T. G. Williams, D.D.; Rev. S. F. Hiestis, D.D.; Rev. A. Langford, D. D.; Rev. J. C. Antliff, D.D.. Justice Britton and Judge Chesley were the only members who were absent.

The first place where the gown was worn was old St. James' church, Montreal. For a long time the pastor of this church has enjoyed the distinction of being the only gowned preacher in the Methodist Church in Canada. If he had continued to enjoy that distinction the subject might never have come before the church courts. The Rev. Dr. Rose, however, after leaving St. James' and going to Dominion church, Ottawa, introduced a gown there also. The origin of the custom in St. James' is popularly supposed to be in some condition attached to some donation many years ago. This, however, is not the case. The gown, it seems, was introduced one Sunday many years ago, when Dr. Ritchie was the pastor of the church, which was upon St. James' street, the second edifice on that site. It was learned that the Governor of Canada proposed to attend the church on a particular Sunday, and some of the ladies of the congregation, it is said, suggested that in compliment to His Excellency, Dr. Ritchie should wear a gown. Being introduced in this casual way, it remained, and has become a distinction much prized by the people of Great St. James'. Now the whole subject being up before the church St. James' sees its gown challenged as if there were no tradition behind it. In connection with innovations, too, there is the question of surpliced choirs, as introduced recently into the Sherbourne street Methodist church.

Dr. Rose wore the gown when the pastor of St. James' in Montreal, and recently decided to follow the same custom in his church in Ottawa. A section of the members of the church endorsed him and others objected. Hence the consideration on Thursday.

A CASE OF IDENTITY.

"Shakespeare Not Bacon" Says Dr. Murray.

For some years past there has been considerable controversy as to who wrote the "Shakesperian Plays." A large majority of people hold the belief that Bacon, was the so called Shakespeare. Dr. Murray, editor of the English Dictionary, says the Globe, remarks that while Shakespeare uses fifty-four verbs with "out" as a prefix, Bacon uses only two. Ben Johnson uses them almost as freely as Shakespeare. This is a striking proof that, whoever else Shakespeare may have been, he certainly was not Bacon.

Wall and Window Wants.

All this week, at The Peterborough Bookstore we will make a specialty of wall paper, window shades and cornice poles. Everyone who has saw our designs and colourings in wall paper concede the fact that we have the daintiest wall paper ever shown in Peterborough, and the prices are within the reach of all. In window blinds our lace effects and lace insertions are all new this year and make very effective window decorations. We are in a position to show you the newest in oak and cherry cornice poles and trimmings in silver, also gilt trimmings, and our prices, as usual will be as low as the lowest. Pictures and picture framing. A. H. Stratton & Co., 417 George street.

FRIDAY, APRIL 3, 1903.

FAIR REDISTRIBUTION.

From a point of view of what is known as "practical politics," Sir Wilfrid Laurier is not taking advantage of the opportunity which redistribution of constituencies, consequent on the decennial census, affords. He is treating the subject as a responsible statesman, not as an opportunist politican. The redistribution scheme he presents is eminetnly fair in its suggestion, and the means to determine the details should result in a rearrangement of constituencies which will not present, to put it mildly, the anomolies that were presented by the redistribution brought about by previous Governments, which engendered "gerrymanders" and not fair and equitible rearrangement of constituencies. His proposal to submit the redistribution details to a Committee of the House, composed, as nearly as may be, of an equal number of Government and Opposition supporters, is a fair arrangement, at least the object aimed at is fairness, and if the result is not reached it will be the fault of the committee itself. At any rate the proposition has disarmed Conservative criticism, especially in the case of those who are not purblind party fault-finders. The leader of the Opposition, Mr. Borden, recognizes the fairness of Sir Wilfrid Laurier's redistribution proposition, and gives him credit for honest intentions, a tribute which is especially valuable to a statesman in an age in which the tendency is always to impute sinister motives to opponents, and to see in the most obviously honest proposition, merely the integument of some deep, underlying, crooked scheme. By the way, Sir Wilfrid has by his upright and straightforward career, earned such a tribute, which is to be regarded not as a compliment, but a consequence. The Montreal Gazette ,a Conservative of the Conservatives ,says of Sir Wilfrid's Redistribution proposal, that "it is to be regarded with satisfaction, and that for the good will shown the Government deserves credit." The Montreal Star, a merciless critic of the Government, like the pugnacious Hibernian at the fair, hitting wherever a head appears, says that "the proposition is an eminently reasonable and proper one." Apart from the confidence which Liberals feel in Sir Wilfrid's integrity, as a statesman and a party leader, it is pleasing to know that he has in the redistribution matter justified expectations and extorted praise from critics.

EDITORIAL NOTES

Britain is to spend on the navy this year $179,184,205, and on the army $170,000,000. It's a costly business.

Once nearly half the immigration coming to the United States was from Ireland. Last year of the 648,-743 immigrants only 29,138 were Irish; That, the Hamilton Times thinks, looks hopeful for Ireland.

In commenting upon the Gamey charges, the London, England, Chronicle holds that the Ontario Government is right in insisting that these shall be tried by a judicial commission. Our English contemporary must have a lot of courage thus to defy the Toronto Mail and Hamilton Spectator.

By the act of 1867, Ontario had 82 members in the House of Commons, Quebec, 65; Nova Scotia, 19; and New Brunswick, 15. In 1872, Ontario got 88 members, Nova Scotia, 21; New Brunswick, 16; British Columbia, 6; and Manitoba, 4; and in 1873, Prince Edward Island got 6. In the course of time Ontario's representation went up to 92. After the redistribution Ontario will have 86, Quebec 65, Nova Scotia 18, New Brunswick, 13, British Columbia, 7, Manitoba, 10, and the Territories, 10. Ontario is still the predominant partner.

GREAT INCREASE OF IRON PRODUCTION.

Interesting Figures of World's Production.

An Increasing Consumption of Iron Products.

Wall Street Journal.

Our imports of iron have reached such importance that the production of other countries, as well as our own, have some bearing upon the present and future prospects of that important metal.

In 1895 the world's production of iron was 29,000,000 tons. Then commenced a remarkable increase of at least 2,000,000 tons per annum, reaching its climax in 1899, with a gain of 3,500,000 tons, and a total of 40,000,000 tons. The next two years the output was stationery. Although the United States gained nearly 2,000,000 tons, other countries declined to the same extent, owing to the depressed conditions of Europe.

In 1902 there was a general increase in production, as will be seen from the following comparison of the output of the principal iron producing countries in 1901-02. The output of several countries, from which reports have not been received, are stated the same for both years. The returns are given in long tons.

Countries—	1903	1901.	Increase.
United States	17,822,860	16,978,360	1,842,860
Germany	8,403,600	7,787,437	616,763
Great Britain	8,236,000	7,791,830	465,170
Russia	2,776,000	2,511,405	276,595
France	2,429,000	2,402,000	26,000
Belgium	1,193,010	785,438	227,490
Sweden	564,460	538,375	26,085
Canada	319,597	244,876	74,721
Other countries	3,331,517	2,231,517	.....
Total	49,614,244	40,468,900	3,466,344
Decrease.			

When the unreported countries are heard from, it will probably be found that the increase in production in 1902 was equal to the unparalleled gain of 3,500,000 tons in 1899.

The output was gaining largely in the closing months of last year in most of the European countries, and continued to gain in January of this year, while our own furnaces in January and February, according to the Iron Age, reported an output of 2,927,-913 tons, or 159,353 tons ahead of the same months last year, a gain of 8 per cent. This was very favourable considering the railway blockades.

The increased consumption of iron in the United States has exceeded 3,000,000 tons for both 1901 and 1902. Had it not been for the increase in imports a famine might have resulted. All indications now point to continued increase in our own consumption, which the new furnaces and an improvement upon present railway services, even without further gains in imports, should amply meet, both in the current year, and 1904. Should the outside world, however, resume its normal demand for iron and lessen the supply of imports, we face the prospects of an increase in the demands from our own furnaces that may cause prices to advance to a point that may check the demand.

THREE WILL DIE.

Balloonists' Machine Broke Away While Being Inflated and They Fell.

Budapest, April 3.—Three balloonists, ex-Deputy Ordody, Lieut. Kral and M. Kubik, a brother of the member of the Diet, were fatally injured in a balloon accident yesterday. While the balloon was being inflated it suddenly broke away with the car containing the men mentioned and Capt. Tolnay of the navy. M. Ordody fell out of the car to the roof of a factory, and Lieut. Kral punctured the balloon, which descended with great velocity, striking with such force that he and M. Kubik were horribly injured. Capt. Tolnay was less seriously hurt.

North Grey Election Protested.

Toronto, April 3.—The election of Mr. T. I Thompson, Conservative member for North Grey in the Dominion House, has been protested. The document will be filed at Osgoode Hall to-day.

To Cure Grip in 2 Days Take Laxative Bromo Quinine Tablets E. W. Grove on every box. 25c

An Old-Time Sale.

CHINA HALL will begin on SATURDAY, APRIL 4th, one of its old-time Clearing Sales—the first in four years—when the public may expect greater reductions than ever before in all classes of Goods carried.

CHINA HALL'S policy has never been to hold sales often, but always to make them genuine bargain-giving events. The present sale will be no exception. The stock of

Crockery, China, Glassware, Lamps, Etc.,

is the largest and finest in Ontario, and the whole collection is now offered for the next few days at reductions that must prove interesting. Over 500 Dinner, Tea and Toilet Sets to choose from. Lamps of every kind, Glassware, Fancy China, etc, all the newest and prettiest goods at almost your own prices during this Sale. The Sale will begin Saturday, and last until the amount is sufficiciently reduced for stock-taking. This is a great opportunity. You know the class of Goods, you know the reduction you may expect, you know you can save money by being among the first to take advantage of this offer.

SATURDAY, APRIL 4th, AND FOLLOWING DAYS.

Established 1892. Importers.

LIBERAL INTEREST LABOUR LEGISLATION.

Hon. Mr. Latchford's Bill in the Legislature.

Sir William Mulock's Bill—The Dominion Parliament.

Hon. F. R. Latchford, has given notice in the Ontario Legislature of a bill to provide for the establishment of a court of conciliation and arbitration. The Province already has a Bureau of Labour for the settlement of differences between capital and labour, and the proposed measures will provide additional facilities for the attainment of that end. It calls for the appointment of three commissioners. One of these will directly represent the labour interests. The commissioners will sot either as a board of conciliation or board of arbitration, as the parties at difference may desire, but they shall not be called upon to act as mediators until the agencies already existing by virtue of earlier legislation shall have failed. The bill calls for compulsory investigation in all disputes affecting public utilities, in this particular following upon the lines laid down in Sir William Mulock's bill, which is now before the Dominion Parliament.

The problem of inventing effective legislation to deal with labour disputes has, the Montreal Hearld says, not yet been completely solved, but there is increasing acceptance of the view that compulsory investigation, and publication of the facts of the dispute, offers the nearest approach to a satisfactory solution that has yet been found. Previous legislation in this and other countries, designed to settle differences between capital and labour, has not been wholly successful. Compulsory arbitration has been proven a failure in New Zealand, and on the American continent there is such a strong opposition to the method that no Government would adopt it. Conciliation, while sometimes sufficient to bring about a settlement of strikes, fails in a much larger number of cases. The Fernie miners' strike, for example, still goes on, although the conciliation committee came to an agreement more than a week ago. The miners refused to endorse the agreement, although their own representative on the committee was a party to it. Under such circumstances conciliation boards are virtually powerless. In the recent report of the anthracite coal commission a clause was inserted providing for the compulsory investigation of future disputes between the operators and miners. This was the finding of men who had spent months in studying the conditions that prevailed in the mines. It should point the way to the adoption of the same principle in British Columbia, which is having such a long and costly experience with miners' strikes.

LIVE LAKEFIELD.

(From our own Correspondent.)

Mr. R. Johnson leaves on Friday for a visit to Toronto on business.

Mr. Graham, of Toronto, was in the village on Tuesday.

A load of young folks from the village drove out on Monday evening to Mr. Robt. Garbutt's, in Smith, where they were made welcome by Mr. and Mrs. Garbutt and a most enjoyable evening was spent.

Mr. John Purser, of Buckhorn, is running the stage between that point and Lakefield, as Mr. Shearer, the regular stage driver is in quarantine owing to the illnes of his son.

Mr. Clancy, of the Queen City Oil Co., was in the village yesterday oiling the merchants.

The many friends in the village of Master Roland Northcott, who went up to the Sick Children's Hospital, Toronto, some time ago, will be sorry to hear that his trouble has developed into spinal meningitis.

Miss Nellie Cox has resigned her position on the public school staff of the village and accepted a similar position in Moose Jaw, N.W.T. Miss Cox, accompanied by her sister, Miss Ada, leaves for the West on Friday. By Miss Cox's change our local teaching staff sustained a severe loss, as her services were highly esteemed by the board.

Mrs. (Rev.) Legott is in Alliston visiting her brother, Mr. C. Knight, of that place.

Mr. R. P. Davidson, manager of the Traders' Bank spent Sunday in Toronto with his parents.

Miss Lightfoot spent Sunday in Peterborough with her mother.

MR. CHARLTON'S BILL.

(Continued From 1st Page.)

drastic remedies to stop the corruption that at present disgraced Canada. It would increase the number of offences and the severity of the penalties. It added two more offences to those already named, and increased the penalties so that if a man were convicted it would be a serious matter. It would mean loss of money and imprisonment. Its aim was to make the crime so odious that men would shrink from committing it. He laid special stress on this section:

"A person offending against any provision of the next preceeding section of this act is a competent witness against another person so offending, and may be compelled to attend and testify on any trial, hearing, proceeding or investigation in the same manner as any other person testifying. A person testifying shall not therefore be liable to indictmen, prosecution or punishment for the offence with reference to which his testimony was given, and may plead or prove the giving of testimony accordingly, in bar of such indictment or prosecution."

This would be a substitute for three sections in the present act, and was more easily understood. It would place the briber at the mercy of the bribed, and, in his mind, put an absolute quietus to the whole business of buying votes. This was taken from the New York State law.

Another section was taken from the Pennsylvania law:

"Any person who, while a candidate for the House of Commons, either before or after nomination day, is guilty of bribery, fraud, or wilful violation of any election law, shall be forever disqualified from holding an office of trust or profit under the Government of Canada, and shall be disfranchised for the period of seven years next after his being so found guilty."

The Discussion.

Dr. Sproule believed the state should take on itself the responsibility to look into corruption in elections. The present method shut the door on guilt. The charges were simmered down to one by the judges, and the result was that the impression was given the public that there was no extensive corruption. The judges did this to shorten the trial. They were paid a specific sum for each trial, whether long or short. The true story of corruption was not revealed because the petitioners were not financially able to carry on the investigation to the limit. The Crown should pay the court expenses for the petitioner. He thought Mr. Charlton's bill would not strike at the root of the matter, because it made no provision for publicity of corruption.

He said that the system of political corruption that had grown up was a disgrace. So widespread had it become that he thought he was justified in believing it was having an influence even on judges. This led him to instance the interference of Judge Morgan in the recent bye-election in North York.

Mr. Cowan (South Essex) said he thought the virtuous lecture came with bad grace from Dr. Sproule, for he was the man who had gone to South Ontario and called on the Conservatives of that riding to rally around "a self-confessed criminal in the person of William Smith."

Mr. W. H. Bennett, as a friend, warmly resented the reference to Mr. Smith, who, he said, stood to-day endeared to the hearts of the people of South Ontario, irrespective of politics, as an honest and truthful man at all events. Mr. Bennett reviewed the circumstances of the election contest between Hon. John Dryden and Mr. Charles Calder.

Mr. Ingram asked the Minister of Justice why he had not proceeded against William Smith if he was a criminal.

Mr. Cowan declared that the statute of limitation prevented the prosecution of Smith. The "notorious Pritchard" had said that a warrant for his arrest had been taken from him by one of the present M.P.'s for Hamilton.

Mr. Barber declared that if any man asserted that he had done such a thing that man told an absolute falsehood.

Mr. Borden, speaking generally, said that in his opinion an officer of the Government should be appointed, as was the Auditor-General, to look into every corrupt act in an election. This might be necessary in the future if corruption continues to spread.

As a further remedy for the system of bribery prevalent, he would enact a law so that any man failing to vote without a good excuse should lose the right to vote for a certain length of time. The bill was given second reading, and the House went into committee of the whole on it.

Mr. Clancy objected that no provision was made to have the intimidation of a voter, by saying the ballot was not secret, made a misdemeanor.

To this Mr. Fitzpatrick said the present act covered Mr. Clancy's objection.

Mr. Bennett criticized the wording of the bill, and declared the Minister of Justice should be responsible for all legislation brought in. There was danger that the present bill, if passed, would be a subject of laughter.

Mr. Fitzpatrick said he was anxious to have the bill discussed fully. His opinion of the bill was that the present act provided for all that the bill aimed at, and for many things the bill overlooked. The section relating to the giving of evidence was much better covered in the Canada Evidence Act, while the section referring to the effect of corrupt practice by a candidate went too far, and would fail of its purpose altogether.

Jabel Robinson moved an amendment that was lost, asking that a provision be added to the bill making a man who subscribed to a corruption liable to a fine of $500 and six months' imprisonment.

The bill was read a second time and was at once taken up in committee.

Mr. Fielding's Suggestions.

Mr. Fielding said that it had been his view that a committee of both sides of the House should try to work out an understanding on the election law, so as to avoid many of the conditions now existing. They had to recognize the fact that the election courts disclosed corruption in public affairs that must cause regret to good men on both sides, and if they approached it in a dispassionate manner, with a desire on both sides for improvement, something might be done. He thought the courts should take cognizance of an election immediately after it was held, without waiting for a petition. He thought the Judges might properly be called upon to investigate these matters within a month or two after an election, when the transactions were fresh in the public mind. A better investigation could be had then than later on. The present system was open to objection. In the first place it was wrong to fine a man $1,000 before he could have a petition. If there was corruption in an election there should not be difficulties placed in the way of an investigation. He suggested an attempt in a non-partisan spirit to approach the subject, and go beyond Mr. Charlton's bill, and try to work out conditions that would make for purity of elections and for good government.

Mr. Ingram suggested that a resolution should be brought in and a committee appointed this session.

Mr. Fitzpatrick replied that Mr. Ingram's suggestion was certainly worth consideration.

After dinner there was a very small attendance of members, and in view of this fact Mr. Charlton moved that the committee report progress and ask leave to sit again. The motion was agreed to.

Mr. Monk's Bill Thrown Out.

Mr. Monk moved the second reading of his bill to amend the interpretation act, which provides that possession of a Dominion charter shall not exempt the holder from liability incurred under any Provincial law or the common law. The bill is intended to remove the exemption enjoyed by railway companies for damages from fire caused by sparks from engines.

Mr. Fitzpatrick considered the bill both serious and dangerous.

The bill was thrown out on the second reading, and the House adjourned at 10 o'clock.

The House Proceedings.

Col. Thompson introduced a bill yesterday respecting the Canadian Pacific Railway in reference to its bond issue.

Ralph Smith (Vancouver) presented his bill to promote the safety of railway employes.

Sir Frederick Borden introduced a bill to amend the Militia Pension Act so that civil servants becoming permanent militia officers could transfer the time they had paid into the superannuation fund to the pension fund.

Sir Wilfrid, answering Mr. Borden, said that the papers relating to the Alaska boundary treaty would be brought down soon. There were certain secret despatches among them, and though he had asked permission of the Imperial Government to make them public ten days ago, yet he had received no answer. He would ask again, as he was anxious to have the papers before the House. The Bond-Hay treaty papers would be handed down Monday. The Government had no report of the colonial conference other than the one published in the British blue book.

To Abolish Tonnage Dues.

Sir Wilfrid told Dr. Sproule that he expected a deputation to wait on the Government shortly to ask for abolition of tonnage dues in shipping passing through the canals.

Mr. Monk was told that communications were going on between the trans-Canada Railway and the Government, but nothing definite has been arrived at.

Mr. Scott continued the debate on the grain weighers resolution, and Hon. Mr. Bernier replied, denying that he had been negligent, and promising to have the grievance removed.

Mr. Monk's bill to amend the Interpretation Act was debated at length and lost on division.

Mr. Cowan's bill respecting drainage across the property of railway companies was given a second reading.

The House will take up the estimates to-day.

The adjournment was made at 10.15 p.m.

FRENCH CONVOY CAPTURED.

An Eight-Hour Hand-to-Hand Fight With Tribesmen.

Algiers, April 3.—News has been received here of an attack by a body of 150 tribesmen on a French convoy, escorted by detachments of Algerian infantry, the foreign legion and Spahis, at a village of southern Algeria. The fighting lasted eight hours, with varying fortune. The French troops exhausted their cartridges and then fought a hand-to-hand encounter. Finally the tribesmen were victorious. The French had nine killed, thirteen wounded, including an officer, and two missing. The tribesmen suffered heavily, carrying away their dead and wounded on 40 camels which they captured from the French convoy.

The Czar's Reforms.

St. Petersburg, April 3.—In pursuance of the policy enunciated in the recent manifesto of the Czar, an Imperial ukase issued yesterday relieves a large number of the rural communities of the joint liability heretofore existing for the payment of direct State, zemstvo and communal taxes, levied by the Provincial Councils and village authorities.

SLATER SHOE
IMPORTED BRANDS BUT MANY AT THIS TO SUIT
SLATER SHOES
A SES SHOE SUCKERS AINT ALL DEAD YET BUT THAT
"SLATER SHOES" IS REAL UP-TO-DATE SHOES BILLY
GOODYEAR WELT

"Genuine Imported"

How many "phony" brands of shoes think you are made in Canada to supply the demand for "genuine imported."

A stamp costs less than $5.00 so it is not difficult for one shoe factory to make half a dozen different "brands" and so dodge responsibility, and also catch the gullible "imported-shoe" faddist.

In the "Slater" Shoe Factory there are two brands—one is "The Slater Shoe," the other, well no matter—

One is the stamp of genuineness—of sterling shoe worth. The other is used when a shoe has lost its right to be classed, sold or worn as a "Slater," when its antiquated shape has passed into oblivion and its "Slater" brand is replaced by one which may or may not be represented by some enterprising dealer as a "genuine imported shoe."

Get the real made-in-Canada.

The "Slater Shoe"

Made in Canada 40 Years.
For Men and Women, $3.50 and $5.00.
For Boys, $2.50 and $3.00.
Sold in 15 "Slater" Stores and 200 Agencies.
"Slater Shoe Polish" is made to preserve "Slater Shoes."

ROME IN KING'S PROGRAM.

Reaches There End of April and Will Visit the Pope.

Rome, April 3.—Prince Colonna, Mayor of Rome, has been officially informed by the Italian Government that King Edward will visit Rome at the end of this month. Monsignor Stor, Canon of St. John Lateran, the highest English prelate here, has been entrusted with the negotiations to arrange a visit of King Edward to the Pope. It is proposed that the King go either to the English Ecclesiastical College here, or to the residence of Prince Massimo, whom he met when here as Prince of Wales, during the lifetime of Pope Pius IX. From either of these places King Edward will start for the Vatican, not in a carriage of the King of Italy, but in a private vehicle.

England and Portugal.

Lisbon, April 3.—The interview between Their Majesties, King Edward of England and King Carlos of Portugal, on board the Victoria and Albert lasted an hour and a half, after which a procession was formed and the two Kings went ashore. The historic galley occupied by the Kings led the way. It was followed by a flotilla of various craft. Their Majesties progress was accompanied by salvos of artillery, and the sailors of the warships again manned sides. On landing, King Edward and King Carlos were greeted with tremendous enthusiasm.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

TO-NIGHT

In St. Andrew's Lecture Hall

HARRY DeWINDT

Giving his popular lecture—"Paris to New York Overland." The most famous traveller and lecturer that has yet visited Peterborough. Admission only 25c

Free Lecture.

The Peterborough and Ashburnham Horticultural Society have much pleasure in announcing that Mr. T. H. Race, of Mitchell, Ont., one of the popular lecturers sent out by the Ontario Department of Agriculture, will deliver two lectures on Friday, April 3rd, on "The Social" and Moral Influence of the Home Surroundings," in the Sons of England Hall, in the afternoon at 4.15; and at 8 in the evening. All are cordially invited to be present. 4d76

The undersigned has received instructions to sell by public auction on the premises, No. 571 Water street, the household effects of the late F. A. Walden, on Wednesday, April 7th, at 1 p.m. JOHN MACCART, Auctioneer.

THE LATE MR. WALDEN.

His Funeral Took Place Yesterday Afternoon.

The funeral of the late Mr. F. A. Walden took place at 2 o'clock yesterday afternoon from the family residence, No. 571 Water street, to Little Lake Cemetery. The funeral service was conducted by the Masonic Order, of which the deceased was a member. The Woodmen of the World and Canadain Order of Foresters were also represented. The funeral was very largely attended by many of the deceased's friends from town and out of town places. The service at the house was conducted by Rev. J. G. Potter, of St. Andrew's, assisted by Rev. Dr. Torrance. Rev. E .A. Langfeldt conducted the Masonic service.

The following gentlemen acted as bearers: W. E. Conway, W. H. Bradburn, F. E. Dixon, Alex. Gibson, W. F. Francis, W. H. Brundrett.

Amongst those from a distance in attendance at the funeral were, Mr. A. E. Walden, of Newstead, brother of the deceased; Dr. Parker, Guelph; Dr. Reid and Mr. Mills, of Toronto, brothers-in-law; and Mr. Wenger, of Ayton, with whom Mr. Walden was employed before coming to Peterborough.

The many floral tributes testified as to the kindly esteem in which the deceased was held. Amongst the very handsome and appropriate rememberances were a pillow from the Dickson Company, wreaths from the Woodmen of the World, the Canadian Order of Foresters, Clifford Lodge, A.F. and A.M., Ayton, (with which the deceased continued his membership until his demise); the employees of the Dickson Company, and his late fellow employees at Ayton. Beside these ther were many private floral rememberances.

It is announced that Mrs. Walden will leave town very shortly to reside in Western Ontario.

LADIES!
Don't miss the Opening Event To-night, At Miss Delaney's Millinery Showrooms.

When a beautiful display of newer and strikingly original conceptions will be made representative of the latest and most correct headwear for the season.

Ladies will be extended a cordial welcome THIS EVENING.

MR. DAN. CONNORS' FATAL ACCIDENT.

Fell From a Car and had His Leg Crushed.

Limb was Amputated at St. Joseph's —The Unfortunate Man Died This Morning.

A most sad and unfortunate accident resulting in death occured about five o'clock yesterday afternoon at the Cereal Works siding, a result of which, Mr. Dan Connors, an exemplary unmarried young man of 28 years of age, living in Toronto, but working in Peterborough as a brakeman for the C. P. R., was very badly injured and has since died. The freight train of which Mr. Connors was brakeman, was shunting and while descending from the top of a car the employee fell on the line, the car almost taking off his right leg above the joint.

The ambulance was immediately summoned, and the injured young man taken to St. Joseph's Hospital, where he was attended by Drs. Gray, Young and Carmichael, who found the right leg in such a horribly mangled condition, that it was amputated about four inches below the thigh. The young man must have suffered terrible agonies for the bone was crushed to atoms and the tissues of the muscle, below the knee, was reduced to a mass of pulp.

The deceased has a brother, Hugh, who is employed by the G.T.R. at Lindsay, and was formerly a conductor on the Peterborough street railway. Mr. Connors' death took place from shock, shortly after 10 o'clock this morning.

The remains will be taken to Barrie for interment.

NEW ORGANIST

Of St. Andrew's Church, Entertained Last Night.

Mr. Lloyd, the newly appointed organist and choir master to St. Andrew's church, was last night tendered a reception by the ladies of the church. The choir, managers and, sessions and their wives were also entertained.

Speeches relating to the work of the choir were excellently made by Rev. Mr. Potter and Messrs. A. McFarlane, J. D. Tully and Wm. Campbell.

Mr. Lloyd, in a short speech, expressed his appreciation of the reception tendered to him.

Rev. J. G. Potter, and Messrs. Morgan, bass soloist, and Lloyd sang, for which they were heartily applauded, after which the assembly dispersed.

POLICE COURT NEWS.

A Warning to Physicians Who do not Report Contagious Diseases.

At the Police Court to-day, a local physician was charged with not reporting a scarlet fever case within the required limit of 24 hours. The accused pleaded not guilty. Police Magistrate Dumble said that it was the duty of every physician to report such cases and to see that the house itself was placarded, and completely isolated. Judgment was reserved.

A man was charged with neglecting to support his wife and family and being fully able to do so. The accused pleaded guilty. During the course of his wife's evidence it transpired that they had been married for 34 years and that for the last three months accused had been drinking heavily, thus creating a very unpleasant home for his wife and children, of which latter he has eight.

In spite of a promise to sign the pledge and thereby always abstain from strong drink, the Police Magistrate found him guilty and sentenced him to one month's imprisonment with hard labour.

The court then adjourned.

SOCIAL AND PERSONAL.

THE ROYAL COMMISSION MET

But the Conservatives were not Ready to Proceed..

An Adjournment Made to Enable Witnesses to Come From Manitoulin.

(Special to the Examiner.)

Toronto, Ont., April 3.—The Gamey investigation held its first meeting this morning. E. F. B. Johnston, K. C., W. R. Riddell, K.C., and J. M. McEvery appeared for the Government and S. H. Blake, K.C., W. D. McPherson, K.C., and C. H. Ritchie, K.C., for the prosecution. Mr. Johnston told the Court that his side was ready to proceed on Monday or Tuesday. Mr. Blake, however, after consulting his assistants, said that on account of the difficulty in getting evidence from Manitoulin it would be impossible to proceed before the 13th. Mr. Johnston offered to supply steamers to bring down Manitoulin witnesses but this was not considered of much use. Finally an adjournment till the 13th was decided upon. Meantime the Court ordered both sides to produce and deposit with the registrar all documents in the possession of either, which it is intended to put in.

Student's Easter Rates.

The Grand Trunk will issue to students and teachers of schools and colleges, on surrender of standard certificate, signed by the Principal, return tickets at Single Fare and One-third; going April 4th to 11th, inclusive. ALTERNATIVE PROPOSITION RE LIGHTING

Were Submitted Last Night to Council in Writing.

STREET RAILWAY QUESTION.

The Otonabee Power Company's Three Propositions.

The Council in Committee of the Whole Decided to ask for Further Information—Correspondence.

The Town Council met in Committee of the Whole last night to discuss the proposition of the American Cereal Company for the revival of the street railway and lighting the town for the next ten years, as well as the proposition of the Otonabee Power Company for the contract of lighting the town for the same period.

His Worship Mayor Roger, occupied the chair, and there were present Aldermen H. Best, J. Corkery, R. Clinkscale, J. Batten, R. F. McWilliams, D. O'Connell, H. Rush, M. A. Morrison, B. Shortly and Jas. Edgecumbe.

There were no representatives of the Cereal Company, or the Otonabee Power Company, present, but their respective offers were submitted in writing.

Committee meetings are supposed to be strictly private, press representatives not being permitted to be present. It is understood, however, that the committee took no definite action in the matter, but adjourned until Monday night, when they will further consider the propositions of Mr. Stuart, of the Cereal Company, and the Otonabee Power Company. It is stated that the committee did not consider the propositions as already sent in as specific enough to form a real comparison. There are certain points that the council would like made plain before they take any definite action one way or the other. As a member of the council said to the Examiner this morning, "We want to find out what bonus we will actually be giving the Cereal Company for the resurrection of the road."

* * * *

Since the above report of last night's meeting was in type, the correspondence in the matter has been given out. Mr. Dennistoun's letter, and the Town Council's reply, and the Otonabee Power Company's letter, and the Council's reply thereto, are as follows:

MR. DENNISTOUN'S PROPOSITION.

To the Mayor and Council of the Town of Peterborough,—

Gentlemen, — I am instructed by the Peterborough Light and Power Company, Limited, and the Peterborough Radial Company, Limited, to make application for a thirty year franchise and right to build and operate a street railway in the town of Peterborough, upon terms and conditions to be settled in detail.

The amalgamated companies will build and equip at least five miles of railway in the town. It is proposed to run over the old line, to extend it to the river Otonabee, to build on Park street, and to extend a spur line to Jackson Park.

As a part of this proposition my clients request a renewal of the street lighting contract which they now hold for a period of ten years from the first day of January next. They are prepared to operate the railweay just as soon as the details can be arranged and equipment procured.

I have the honour to be, sirs,
Your obedient servant,
R. M. DENNISTOUN.

Peterborough, Canada, April 1st, 1903.

THE TOWN'S REPLY TO MR. DENNISTOUN.

R. M. Dennistoun, Esq.,
Town.

Dear Sir, — With reference to your letter of yesterday respecting the street railway and street lighting, some of the members of the Council understood on Monday night last that your proposal included the renewal of the street lighting contract at the rate of $60 per lamp per year. Your letter yesterday does not bear that out, as in it you ask for a renewal of the present contract under which $65 is paid for 53 lamps. The committee wishes you to make this point clear so that there can be no misunderstanding, the minimum to be 100 lamps and to include Ashburnham, in case of union, or other additions to this municipality if desired by the Town. The Committee will meet again on Monday night next, and wishes to have your reply then.

Yours truly,
(Sgd.) S. R. ARMSTRONG,
Town Clerk.

Peterborough, April 3rd, 1903.

Town Clerk's Office,

THE OTONABEE POWER COMPANY PROPOSITION.

Otonabee Power Company,
Limited.

Peterborough, Ont., April 2, 1903.

G. M. Roger, Mayor and the Members of the Town Council, Peterborough, Ont.

Gentlemen, — In compliance with your request, we beg to submit in writing for your consideration, the following three propositions, either one of which we are prepared to carry out, and we will satisfy you of this in any reasonable way that you may desire.

1st. We are willing to supply, equip, and maintain, one hundred lamps, or such larger number as you may from time to time require, of the capacity of 2,000 candle poer each, and of the latest design and efficiency, for the purpose of lighting the streets of the town all night for the term of ten years, at and for the sum of thirty-five dollars ($35) per lamp per year, to be paid quarterly.

2nd. Or, in the event of the town of Peterborough taking over all the poles on the streets, and leasing them to different power companies, we beg to state that if the town will give us the right to use the necessary poles for stringing all our wires for power, light and heating purposes, we will supply, equip and maintain one hundred lamps, or such larger number as you may from time to time require, of the capacity of (2,000) two thousand candle power each, and of the latest design and efficiency, for the purpose of lighting the streets all night for the term of ten years at and for the sum of thirty dollars ($30) per lamp per year, to be paid quarterly.

We make this second proposition in view of the strong feeling which seems to exist among a number of the citizens of Peterborough, that the town should own all the poles on the streets, and should have the control and regulation of the use of them, and thereby prevent, as far as possible, the duplication of pole lines.

It is further contended that the town would receive a sufficient rental for the use of the poles to pay the expense and outlay of the town in connection therewith.

3rd. Or, in the event of the town of Peterborough taking over and owning all the poles, wires and lamps for street lighting purposes and equipping, maintaining and operating the same, we will supply the town of Peterborough for the term of ten years sufficient electrical horse power to operate a complete street lighting service at the sum of ten dollars ($10) per horse power per annum, payable quarterly, such electrical horse power to be delivered at our company's sub-station, situate on their premises lying south of Simcoe street, immediately west of the Otonabee River.

As the above propositions are made to you at an extremely low price we will expect that the Town shall not impose upon us any tax or rent upon our sub-station, and electrical equipment or upon our poles, wires and transformers, etc., upon the streets of the town, at present or hereafter erected.

In the event of the town accepting any of these propositions we are willing to have reasonable and fair terms introduced in the contract for our mutual protection, and to give the town every facility to ascertain from time to time that they are being supplied with a proper quantity of light, etc.

We do not desire to make any proposition to you which would involve the operation of an electric street railway. It is admitted on all hands that electric street railways in towns similiarly situated as Peterborough is and of equal population have been financial failures as well in the United States as in Canada. That being the case, you can readily understand with what reluctance the shareholders of our company would desire to enter into any scheme which, instead of being a paying business proposition on its own merits, would be doomed to financial failure, though perhaps it would not be a financial fail to our company if the ratepayers of the town were extravagant and reckless enough to give us a bonus, say, of $35,000 to make such a costly experiment.'

The proposition which Mr. R. M. Dennistoun made, on behalf of the Cereal Company, and which I presume he will submit to you in writing, involved the Town of Peterborough paying to the Cereal Company $60.00 per lamp per annum for a period of ten years. Under our first proposition the Town could obtain from us identically the same light for $35.00 per lamp for the same period.

If the Town were to reject our proposition and accept the Cereal Proposition, it would cost the ratepayers of the Town of Peterborough $25,000 more for their street lighting than we are are prepared to supply it for, and in addition to that this amount might be increased from $25,000 to $40,000 if the town would comply with the reasonable demands of the ratepayers to have more lamps placed on the streets.

We also contend that the surest way to create a lighting monopoly in this Town would be to join the lighting franchise and the street railway franchise in one proposition, and thereby give the consolidated company an undue advantage over its competitors, and at the expense of the consumers of private light.

As we are making such a substantial reduction in the cost of the street lighting of the town and enabling the ratepayers to obtain more and better light for a great deal less money, and as we have already been the means of reducing the cost of lighting one half to citizens using electric light in their stores and private houses, which in the aggregate will save them thousands of dollars per year, we trust that our proposition will receive your most favourable consideration, and that you will see your way clear to accept it.

Yours respectfully,
Otonabee Power Co., Limited.
W. H. MELDRUM,
Managing Director.

THE TOWN'S REPLY TO THE OTONABEE POWER COMPANY.

Otonabee Power Company, Town:

Gentlemen,—The Committee to which the verbal proposals of your company and that of Senator Cox and Mr. Stuart were referred, received the written propositions last evening, and the committee desires to have the propositions in as clear a form as possible so that their effect can be accurately ascertained. For that purpose you are asked to conform your offer for the street lighting for ten years to the terms of the contract at present existing between the Town Council and the Peterborough Light and Power Company, a copy of which I enclose, and to be without any reference to exemption from taxes or any similar conditions, and to be for a minimum of 100 lamps and to include Ashburnham in case of union or other additions to this municipality if desired by the Town. The Committee will meet again on Monday night next, and wishes to have your reply then.

Yours truly,
(Sgd.) S. R. ARMSTRONG,
Town Clerk.

OBITUARY.

Sad Death of Mrs. Levi Fowler, of McLeod, N. W. T.

The sad death of Mrs. Levi Fowler, (nee Bella Fowler,) took place last night at McLeod, N.W.T. The deceased was the second daughter of Mr. Jas. Fowler, of Concession street, Ashburnham, and was only 20 years of age. She left Peterborough about two years ago and married Mr. Levi Fowler, of McLeod.

The Examiner extends its sympathy to the deceased's husband and parents in this their time of bereavement.

OBITUARY

The death occurred at No. 8, Simpson avenue, Toronto, on Tuesday evening, of Elizabeth Young, wife of Rev. J. McP. Scott, pastor of St. John's Presbyterian church, of that city, after a short illness.

The deceased lady was a native of Scotland, coming to Canada after her marriage about seven years ago. She leaves to mourn her loss, one son, four years of age, who with her husband will have the sincere sympathy of many friends in Peterborough and elsewhere.

Sweet Peas and Nasturtiums.

I have just received a large quantity of Burpee's ever-relaible Sweet Pea and Nasturtium seeds, direct from the grower. They come freshly packed in sacks and in excellent condition, and will be sold by the ounce, or in any quantities. None too soon to sow these seeds now. Joseph H. Cobb, Aylmer street Greenhouses. The New Baby

From the moment a child is born the question of nourishment becomes of great importance. A right start avoids a lot of trouble later on; it's so easy to begin right, too.

Many women cannot or will not—chiefly will not—nurse their children. The best thing to do under the circumstances is to help the bottle babies all we can—they're at a big disadvantage at best. We know positively that nothing will do them more good than Scott's Emulsion—a few drops in the bottle. It seems to furnish just the right quantity and the right kind of nourishment needed for babies and growing children.

The women who are willing but unable to properly nurse their children will find Scott's Emulsion a great help—a two-fold help in fact. It has a direct and immediate effect, not only feeding and sustaining the mother, but insuring also a flow of rich, nourishing milk for the baby.

Thus Scott's Emulsion strengthens the mother and goes naturally through the milk and strengthens the child.

We'll send you a sample free upon request.

SCOTT & BOWNE, 55 Front St., W., Toronto.

CATTLE MARKETS.

Cables Steady—Montreal Prices Are Slightly Easier.

London, April 2.—Live cattle steady, at 12c to 12¾c per lb. for American steers, dressed weight; Canadian steers, 11¼c to 12½c per lb.; refrigerator beef, 9¼c to 9½c per lb. Sheep, 12¾c to 13c dressed weight.

TORONTO LIVE STOCK.

Receipts of live stock were 89 car loads, composed of 1369 cattle, 269 sheep and yearling lambs, 110 hogs and 115 calves.

Export Cattle—Choice loads of heavy shippers are worth $4.50 to $4.75; common light exporters, $4.25 to $4.30.

Export Bulls—Choice heavy export bulls sold at $3.75, light export bulls, $3.50.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1075 to 1150 lbs each, are worth $4.25 to $4.40; loads of medium butchers', $3.75 to $3.85; loads of good butchers' at $3.85 to $4.20; common butchers', $3.25 to $3.50; rough, $3; canners, at $2.60 to $2.90.

Short-keep Feeders—Good steers, 1100 to 1150 lbs. each, are worth $4.00 to $4.35 per cwt.

Feeders—Steers of good quality, 900 to 1000 lbs. each, are worth $3.50 to $3.80 per cwt.

Stockers—One year to two-year-old steers 400 to 700 lbs. each, are worth $3.50 to $3.75 per cwt.; off-colors and of poor breeding quality of same weights are worth $2.75 to $3 per cwt.

Milch Cows—Milch cows and springers are worth $30 to $60.

Calves—Calves sold at $2 to $10 each, or from $4.50 to $5.50 per cwt.

Yearling Lambs—Lambs sold at $5 to $6.50.

Sheep—Prices, $4.25 to $4.75 per cwt. for ewes, and bucks at $3.50 to $4.

Hogs—Best select bacon hogs, not less than 160 lbs nor more than 200 lbs each off cars, sold at $6.50 per cwt.; lights and fats at $6.25; sows, $4.50 to $5 per cwt.; and stags $3 per cwt.

MONTREAL LIVE STOCK.

Montreal, April 2.—About 900 head of butchers' cattle, 1000 calves and 80 sheep and lambs were offered for sale at the East-end Abattoir yesterday and to-day. Nearly half of these cattle and two-thirds of the calves and sheep were sold yesterday. Prices of cattle have a downward tendency, and to-day's market was rather dull. A choice lot of 17 cattle, introduced for the easter market, were sold at 5c per lb.; prime beeves at from 4½c to 4¾c; medium cattle at from 3½c to 4¼c, and the common stock at from 2½c to 3¼c per lb. The calves on the market to-day were nearly all scarcely fit for human food, and these sold at from $1 to $2 each, while a few good calves sold at from $5 to $9 each. Shorn sheep sold at from 3½c to 4c per lb.; and a lot of choice unshorn yearlings from Toronto sold up to 6½c per lb. Spring lambs sold at from $3 to $5 each. Fat hogs sold at from 6¼c to a little over 7c per lb., weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, April 2.—Cattle—Receipts, light; unchanged. Veals—Receipts, 100 head; steady; tops, $7 to $7.25; common to good, $5 to $6.90. Hogs—Receipts, 3100 head; active, strong, 5c higher; heavy, $7.70 to $7.80; mixed, $7.50 to $7.60; Yorkers, $7.45 to $7.55; pigs, $7.25; roughs, $6.75 to $7; stags, $5.50 to $6. Sheep and lambs—Receipts, 4700 head; sheep steady, 10c to 15c lower; top native lambs, $6.10 to $6.15; culls to good, $5.50 to $5; Western, $5 to $6.10; yearlings, $7 to $7.25; ewes, $6 to $6.50; sheep, top mixed, $6.25 to $6.50; culls to good, $3.25 to $6.15.

NEW YORK LIVE STOCK.

New York, April 2.—Beeves—No receipts; no sales reported. Calves—Receipts, 54; steady for good grade; veals, $5 to $8. Sheep and lambs—Receipts, 3063; top grades both sheep and lambs rated steady to firm; common and medium sheep steady; common and medium lambs slow and easier; unshorn sheep, $4.25 to $6.90; clipped do., $5, with a few head for export at $6.50; unshorn lambs, $6.75 to $8.25; clipped do., $6.25 to $6.50; state spring lambs, $5 to $4.50. Hogs—Receipts, 4597; firm; state and Penna. hogs, $7.60.

Fire Threatens All Brougham.

Brougham, Ont., April 3 (3.30 a. m.)—A big fire is raging at the present moment here in the west end of the village. At the moment the fine new residence of Mr. J. H. Wagner, of the Wagner & Co., butchers, Pickering, is a mass of flames. The public schoolhouse is in great danger, and will not likely be saved, as the woodhouse and outbuildings are now burning. The stable on Mr. Mead's property is now on fire. A stiff, variable wind is blowing from the west, causing sparks to fly and drop over the village. Bucket brigades are doing good work on the buildings, and villagers have their hands full keeping down small fires.

Escape of Grain Ticket Forger.

Winnipeg, April 2.—L. S. Patterson, charged with forging grain tickets at Brandon, and Chater, and who was brought from Detroit, Michigan, by detectives, cleverly escaped from the Pacific express here Tuesday night and is at large. He had shackles to his feet when he escaped. Patterson is described as good looking, 27 years of age, five feet eleven inches in height, clean shaven, fair complexion, weight 160.

A Menacing Manifesto.

Madrid, April 2.—The Catalan party at Barcelona has issued a menacing manifesto against the Government which has produced an extraordinary sensation. The disorders continue in Valencia, where the chief of police has been dismissed.

FOOLED BY AN INDIAN GUIDE.

Laughable But Vexatious Experience of New Yorkers in Nova Scotia.

While the desirability of licensing guides has been urged by many in the province of Nova Scotia, who think that forest fires are frequently caused by careless hunters, a party of three from the domain of Uncle Sam has reached a similar opinion, though from a somewhat different cause. Briefly, they consider themselves, as they express it, to have been "done" by an Indian, who takes first rank as a guide and, to put it mildly, is, seemingly, something of a practical joker as well.

With their rifles, ammunition and a week's grub and sundries, they set out for the haunts of the lordly moose. Knowing nothing of the country, they were, of course, led entirely by their guide. This individual kept their flagging spirits up to the necessary notch by pointing out hoof marks, which he assured them were made by moose that must be nearby, but day after day passed without their ever seeing even the tip of a vanishing tail, while "heads and antlers" were about as plentiful as they should be in suburban New York.

The week passed, the grub vanished, and the guide having been paid off, followed suit. The disgusted huntsmen unloaded their rifles, threw away the ammunition, and, surrendering promising beards of a week's growth to the conventionalities of civilization, left for home. Just at the station, however, they met a Digby man who has tramped every mile of the "hunters' paradise" in western Nova Scotia, and knows it like his own back yard. He asked them of their luck and the locality they had hunted in. The former was not difficult to express; it sounded like "nit"; the latter they explained at some length and ended by referring to the numerous tracks their guide had pointed out. The local white is a polite man, but in spite of his self-control he smiled, and his smile is expressive. "What's your joke?" asked the disgruntled foreigners. "Nothing, oh, nothing," he replied, "only you've been hunting in Morgan's pasture. Those tracks were made by cows." A few days later the guide with stolid countenance remarked to the gentleman who had exposed his duplicity, "I received a very insulting letter today."

TO CURE A COLD IN ONE DAY

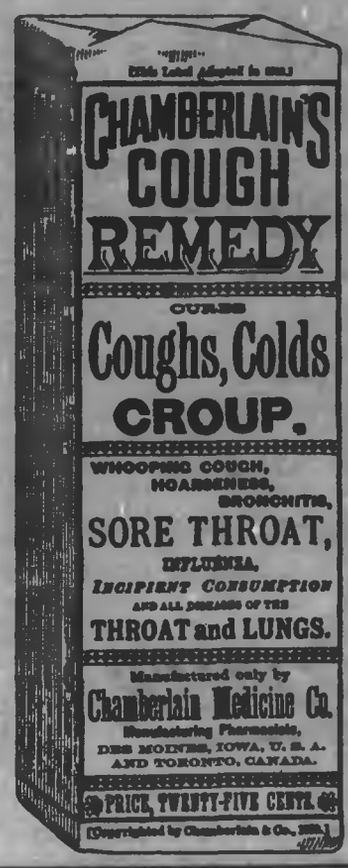
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

For the New Ontario Fair.

Toronto, April 2.—Premier Ross, Hon. J. M. Gibson, Hon. Frank Latchford and Hon. J. R. Stratton yesterday received a deputation of New Ontario promoters. They asked for a grant of $800 a year for the Fort William and Lake of the Woods District Agricultural Society, and $1,000 for the Northern Poultry Association, the idea being to form these associations at once and amalgamate with the West Algoma District Agricultural Society, the whole to be known as the New Ontario Industrial Exposition. The Premier said he thought the demands were reasonable, but he would consult with Hon. Mr. Dryden before he would announce the decision of the Government.

Every Bottle Warranted

Every bottle of Chamberlain's Cough Remedy is guaranteed, and the dealer from whom it is purchased will refund the money to anyone who is not satisfied after using it.



The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult.

WEDDING CAKES.

Rich, delicious and ornamental; your guests will be our best patrons when they take home a box to sleep on.

Our layer cakes, fancy and fruit cakes are the acme of deliciousness. For weddings, parties and receptions we furnish you at moderate prices.

HUNTER STREET WEST

TAPS FROM THE WIRES.

D. H. Duncan, late general manager Merchants Bank of Halifax, is dead, aged 60.

Ebenezer Butterick, the originator of the tissue paper dress pattern, is dead, at his home in Brooklyn, N. Y. He was 76 years of age.

The statement is authorized by county officials, that Judge Henry T. Mason, of Troy, N. Y., has been missing since Monday, and that no knowledge has been obtained of his whereabouts.

The brother of Mlle. Emma Touret was wounded in the forearm in a duel fought with M. Marcel Prevost, the novelist, at Neuilly, France, Wednesday. Mlle. Touret fired two shots from a revolver on Monday at M. Prevost. Her brother then sent his seconds to the latter.

President Roosevelt started on his western trip at 9 o'clock Wednesday morning, under the most favorable auspices. Notable precautions were taken to insure the safety of the President. The journey, as planned, will occupy nine weeks and three days, and the party will travel a little more than 14,000 miles.

While despondent from sickness, Henry Miller, a New York pressman, twisted a towel around his neck and hanged himself to a hook. His 12-year-old son raised his father's feet to a window sill, whereupon Heller kicked the child in the side. While the boy lay breathless upon the floor, the father strangled to death.

DO YOU KNOW

That it's no use Eating Unless You Digest Your Food—That if Your Stomach Won't Digest it Dodd's Dyspepsia Tablets Will.

Do you know that the stomach is the seat of health as well as the root of disease? Do you know that if the stomach is out of order the whole body is affected, is unable to do its regular work, is unable to resist any disease that may be floating around, and is all the time working toward disease on its own account?

This is only natural. The man who can't get food for his stomach grows weak and ill. If the stomach is not in shape to pass the food along to the various parts of the body, the food might just as well never be eaten. That's why dyspeptics are worn out and dispirited. They are just like people who have been starved for a time.

Dodd's Dyspepsia Tablets are made just to fit such cases. They digest the food themselves, and thus while the body receives its natural nourishment and thrives, the resting stomach gradually recovers its natural powers. That's why Dodd's Dyspepsia Tablets cure as well as relieve. That's why Ademard Coderre, of St. Jasques de L'achigan, Quebec, is able to say:

"I certify to having suffered two years with Dyspepsia, caused by inflammation of the stomach. I took three medicines without relief. I became discouraged, until one day seeing an account of cures performed by Dodd's Dyspepsia Tablets I bought two boxes. By the time I had finished taking them I was completely cured, and I have stayed cured ever since."

Boxers in Toronto.

Toronto, April 3.—The arrival of Jack McClelland from Pittsburg today completed the list of boxers that will contest in the Crescent Club's opening show of the year on Saturday night. Billy Ryan, his opponent, having arrived yesterday from Syracuse. Besides the 20 round bout, Dainty of England vs. Tompkins, Quebec, meet for 8 rounds, and McKenzie vs. Snider, both of Toronto, for three.

McArthur in Centre Winnipeg.

Winnipeg, April 3.—The Liberals of Centre Winnipeg nominated Dr. McArthur as candidate for the Legislature last night.

Family Quarrels.

How many serious family quarrels, marriages out of spite and alterations of wills, might have been prevented by a gentle dose of pills." With the liver and kidneys sluggish and torpid, digestion is impaired and temper is ruined. But Dr. Chase's Kidney-Liver Pills by invigorating the action of these organs ensures good digestion and sound health. One pill a dose; 25 cents a box.

The Twinging Pains of Rheumatism

And Sciatica, Distressing Headaches and Dizzy Spells, Made Life Wretched—Doctors and Medicines Availed Nothing but Cure Came With the use of

DR. CHASE'S KIDNEY-LIVER PILLS.

Instead of giving you reasons why Dr. Chase's Kidney-Liver Pills should cure you, we prefer to quote from the experience of the cured ones. This case of Mr. Haines was unusually serious because it was of twenty years' standing, and had resisted the efforts of two physicians and all sorts of treatment. It is merely another illustration of how Dr. Chase's Kidney-Liver Pills reach the seat of disease and cure when other means fail.

Mr. William Haines, farmer, of Thorold Township, near Port Robinson, Welland County, Ont., states: "I have been subject to severe and distressing headaches since boyhood, and in later life this became complicated with rheumatism and sciatica, and altogether my life was made miserable. The headaches were accompanied with dizziness and vomiting, and I was for days and often weeks unfit for anything. As the trouble advanced I became reduced in flesh, and was wrecked in health and spirits.

"After undergoing treatment by two doctors and trying many domestic remedies and patent medicines, I almost gave up in despair, as none of these did me any good.

"Fortunately I began using Dr. Chase's Kidney-Liver Pills, thinking that if I were only benefitted it would be a wonder. However, I persisted in using these pills until the time came when the bad symptoms of nearly twenty years' standing disappeared. I had gained nicely in flesh, and began once more to enjoy life. For this great change all the credit is due to Dr. Chase's Kidney-Liver Pills, and I shall never cease to recommend them whenever the opportunity offers.

Dr. Chase's Kidney-Liver Pills have attained their enormous sale because they succeed where others fail. One pill a dose; 25 cents a box; at all dealers, or Edmanson, Bates & Co., Toronto. 8

A LAND OF SUNSHINE

CLIMATIC GLORIES OF THE CANADIAN DOMINION.

Director Stupart, of the Canadian Meteorological Service, Delivers a Stirring Address—The "My Lady of the Snows" Idea a Myth—Our Correspondence With Those of Southern France, Northern Italy and Spain.

At a recent Canadian club dinner in Toronto, Mr. R. F. Stupart, director of the Canadian Meteorological Service, gave a most interesting address on the climate of Canada.

"I am pleased to speak on this subject," he began, "for I am sure that climate is one of the most important characteristics of a country. The population which this Dominion can support depends largely on the climate, as agriculture depends on temperature, sunshine and moisture. Canada must feed her own people, and, as years pass, will do more toward feeding the people of the Mother Country. I am inclined to think that prolific wheat fields such as we possess in the Northwest Territories and Manitoba are the richest assets a country can possess.

"The first question a would-be emigrant from the Old Land considers when choosing a new home is, what sort of a climate have they out there? Is it because there is a too prevalent idea among the masses in Great Britain that Canada is buried under a snowbank for the larger portion of the year, that emigrants have in the past chosen Australia, the Argentine Republic, and the United States in preference to Canada; and Canadians, to a certain extent, are to blame for this.

"My Lady of the Snows."

"We send to England each Christmas too many pictures of winter-scenery. Our pictorial papers find it pays to publish pictures a la Esquimaux, with snowshoes slung over the back, and our British relatives think that Canadians must be very near the North Pole. It seems to me we ought all to make a point of trying to show them the truth, that the most salient feature of our Canadian climate is not the severity of the winter, but the perfection of our summer and autumn.

"In Canada, stretching from ocean to ocean and at one point from latitude 41 to the Arctic Ocean, the climate is so varied, and dominating climatic influences differ so materially, that the more salient features can be best summarized, perhaps, by taking each Province separately, and endeavoring in a few words to give an idea of the normal weather conditions of the several seasons.

"I wonder how many Canadians have realized that Toronto is 550 miles farther south than London; Montreal 418 miles, and Halifax 478 miles. A large portion of Ontario is as far south as Southern France and Northern Spain and Italy; and Southern Ontario is farther south than Rome. Also, parts of the Northwest Territories, 70 miles in width, including districts of Manitoba, Assiniboia, and Alberta, are farther south than any portion of England.

'Neath the Rockies' Shade.

"None of Canada's present wheat fields in Manitoba and the Northwest Territories lie as far north as Scotland, but I believe that in the not distant future some of the choicest land of America will be found further north, under the shelter of the Rocky Mountains.

"The Chinook winds are mainly responsible for the phenomena of rapid changes in short intervals in Alberta. The Chinook is a wonderfully warm, drying wind, which occasionally blows on our western prairies. A vast variety of explanations as to whence comes this wind have been advanced. Some have thought it was a California wind, deflected north by the mountains, others that it got its warmth from the Japan current, and a dozen other theories have been advanced, all of which are erroneous. The air of the Chinook is Pacific Ocean air, which has been warmed by the condensation of its moisture on the western slopes of the mountains and dried by compression and accompanying rise of temperature as it descends the eastern slopes.

Summer in the Arctic.

"The climate of the territory which lies immediately to the east of the mountains is one of peculiar interest, presenting features in countries near the sea and away from the mountains. Among the marked features are rapid changes in temperature, which frequently occurs in short intervals of time, and the fact that the summer season in the Great Mackenzie Basin, just under the Arctic circle, is nearly as warm as in Alberta.

"While in Alberta the winter months are in some cases excessively cold, scarcely a month goes by without one or more breaks, when the temperature exceeds 40 above, and at times upwards of 50. The highest temperature at Calgary in January, 1902, was 58, on the 23rd, and at Edmonton, on the 22nd, 1902, 52.

Fairy Tales.

"The stories we have been accustomed to, of temperatures frequently more than 50 below zero, and, occasionally, 70 or 80 below, are fallacious. To find such temperatures common, one must go to Siberia; they are not to be found in Canada. There are only two instances of 70 below in all our records; 60 below is very infrequent; and 50 below only occurs very occasionally.

"Regarding the Klondike, the average annual mean temperature is about 22; the mean of the three summer months is about 57; and of the three winter months, 16 below zero, with January 23 below. Spring opens towards the end of April. Market gardeners near Dawson grow a large variety of garden produce, and the belief is warranted that the hardier cereals might be a successful crop in parts of the Yukon and in the far northern districts of the Mackenzie Basin.

West of the Rockies.

"Vancouver Island occupies somewhat the same position in relation to the American continent that Great Britain in the Atlantic does to Europe, lying between nearly the same parallels of latitude. The climate, as in all other parts of British Columbia, varies much. The annual rainfall along the exposed western coast is great, generally exceeding one hundred inches, but in the more eastern districts it is less than half that amount. On the eastern side of the Straits of Georgia, the summer is decidedly warm. At Agassiz, on the Lower Fraser, 70 miles from Vancouver, the lowest temperature on record is 13; and the highest, 97. Frosts seldom occur in May, and there is no record of any during summer months. In the Yale and West Kootenay Districts, the summers are warmer and the winters are colder. In the mountainous region of East Kootenay the winters are colder again, but even the summers are warmer, and the winters not so cold as in St. Petersburg.

Climate of Ontario.

"The climate of Ontario, especially the peninsula of Ontario, lying between Huron, Ontario and Erie, has one of the finest climates in the world. Between the middle of May and the middle of September the whole of this district is influenced by the same isotherm as the greater portion of France. The summer months, proper, are distinctly warmer than in England, but in few districts does the mean temperature exceed 70 degrees, hence the heat is by no means excessive.

"The whole of Canada, with the exception of territory near the coast of British Columbia, is favored with more sunshine than any portion of Great Britain, Germany, Holland or Northern France. Nearly all parts of the Dominion have an annual percentage of over 40, and a summer percentage of between 58 and 59, whereas it is only in the more southern parts of England that a normal annual percentage of 36 is reached, and the summer figures, while in a few instances up to 50, are more generally between 35 and 45. It is only the southern parts of Europe that have more sunshine than Canada."

Bribery in Elections.

Bribery in elections is an ancient if not an honorable custom. This is shown in the case of Shrewsbury, England. An extract from Parry's "Parliaments and Councils of England" of a case of bribery, with its punishment, in 1571 shows how long the pernicious custom has been in practice: "Thomas Long, 'a very simple man and unfit' to serve, is questioned how he came to be elected. He confesses that he gave the mayor of Westbury and another £4 for his place. They are ordered to repay this sum, and a fine of £20 is to be assessed on the corporation and inhabitants of Westbury for their scandalous attempt." One can imagine the indignation of those inhabitants of Shrewsbury who received no bribe having to pay a fine for those who did.

Queer Looking Worms.

New Zealand, Australia, the Samoan and the Solomon islands, as well as portions of the Hawaiian group, are the homes of various species of worms with thick, heavy bodies and with a well defined neck connecting the body with a head that is a startling reminder of that of the monkey. In the Sandwich Islands they are called "me-ta-luki," which means "creeper with a child's head." An old New Zealand legend says that at one time they were of immense proportions and threatened the extinction of all human life on the islands.

Dodd's Kidney Pills are the only medicine that will cure Diabetes. Like Bright's Disease this disease was incurable until Dodd's Kidney Pills cured it. Doctors themselves confess that without Dodd's Kidney Pills they are powerless against Diabetes. Dodd's Kidney Pills are the first medicine that ever cured Diabetes. Imitations—box, name and pill, are advertised to do so, but the medicine that *does* cure

Diabetes

is Dodd's Kidney Pills. Dodd's Kidney Pills are fifty cents a box at all druggists.

Mother's Girl.

There exists often a very beautiful companionship between the mother and her daughter. The intimacy is frank, free and sympathetic. But some day the mother feels as if something had chilled this intimacy. The child is silent and sad, and seems to shun her mother instead of seeking her.

This change very often occurs when the young girl is crossing the border line of womanhood. She is morbid, nervous, fearful, as she enters upon this new experience.

The use of Dr. Pierce's Favorite Prescription at such a time will do more than restore the normal balance of mind and body. It will establish the womanly function upon a basis of sound health, as well as improve the appetite, nourish the nerves, and promote the general physical health.

"Two years ago my daughter's health began to fail," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170—the picture of good health, until about the age of fourteen; then in six months she was so run down her weight was but 120. I felt I could not give her up as she was the only child I had, and I must say, Doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave today. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

Could Not Lie On Her Left Side.

WAS TROUBLED WITH PAIN IN HER HEART FOR SIX YEARS.

Expected Her Friends Would Find Her Dead.

Mrs. C. Bondreau, Campbellton, N.B., was completely cured by

MILBURN'S Heart and Nerve Pills.

She tells of her experience in the following letter: "I was troubled with a pain in my heart and weakness for six years. Most of the time I could not lie on my left side. I consulted a doctor but got no relief and was completely discouraged. I did not think I would live long and expected my friends would find me dead. A friend brought me a box of Milburn's Heart and Nerve Pills and I took them to please her, not thinking they would do me any good. I had not used half the box when I commenced to feel myself getting better and by the time I had taken two boxes I was completely cured and can recommend them to all sufferers from heart trouble."

Price 50 cts. per box or 3 for $1.25, all dealers, or

DOING THE GRAND ENTRY.

How a Circus Horse Enjoys His Part of the Performance.

The experiences of a farm horse that unexpectedly joins a wagon show circus is described by Sewell Ford in "Horses Nine." Calico is the name of the horse. At night he has a hard time pulling the band wagon over the country roads, but he thoroughly enjoys his part in the performance under the main tent. The author describes Calico's feelings as follows:

Ah, that grand entry! That was something to live for. No matter how bad the roads or how hard the hills had been, Calico forgot it all during those ten delightful minutes when, with his heart beating time to the rat-tat-tat of the snare drum, he swung prancingly around the yellow arena.

It all began in the dressing tent with a period of confusion in which horses were crowded together as thick as they could stand, while the riders dressed and mounted in frantic haste, for to be late meant to be fined. At last the ringmaster clapped his hands as a sign that all was in readiness. There was a momentary hush. Then a bugle sounded, the flaps were thrown back, and to the crashing accompaniment of the band the seemingly chaotic mass unfolded into a double line as the horses broke into a sharp gallop around the freshly dug ring.

The first time Calico did the grand entry he felt as though he had been sucked into a whirlpool and was being carried around by some irresistible force. So dazed was he by the music, by the hum of human voices and by the unfamiliar sights that he forgot to rear and kick. He could only prance and snort. He went forward because the rider of the outside horse dragged him along by the bridle rein. Around and around he circled until he lost all sense of direction, and when he was finally shunted out through the dressing tent flaps he was so dizzy he could scarcely stand.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 3c

Prudence and Prevention.

The following quaintly worded notice is posted outside the offices of one of the street car companies of Paris: "We beg to inform burglars that we do not leave money or valuables in any of our depots during the night. You are requested to make known this fact among the confraternity, so as to avoid unnecessary trouble and loss of time." The newspaper which publishes the above adds, "Prudence and prevention are the two mothers of safety."

A Natural Mistake.

He had recited to his class the story of Abraham entertaining angels unaware. Feeling that the children might not know the meaning of the word "unaware," he asked them if they did. One little hand went up promptly, and the smallest girl in the class said:

"The thing you wear next your skin."

A Ready Deduction.

Waggaby—So De Wruyter says he wrote ninety-nine poems last year, does he?

Naggaby—I understood him to say "better than a hundred."

Waggaby—That's what I meant by ninety-nine. I've read his poems.

Messrs. W. F. Dever & Co., Stock Brokers, Toronto, write us as follows:—

New York, April 2nd. — London sold a few stocks this morning, and our market opened slightly under the closing prices of yesterday. The session has been an extremely dull one with the exception of the declines in the Gould issues, C.F.I. and Penna. Professional opinions as to the future of the market at present are largely governed by consideration of the probable money situation in the summer months and the varying estimates placed upon the extent of the genuine buying power that may be exhibited after the short interest that has accumulated in the last two months has been reduced to normal proportions. Undoubtedly the great force that is relied upon to relieve the money situation is the expected release by the Government in early summer of 50 millions caused by the purchase of exchange bills on account of the Panama canal construction. Wall street confidently expects that the Secretary of Treasury has decided to take all this money out of the treasury vaults proper so that it will not disturb the 152 millions of the Government surplus now deposited with the National banks. The recent tendency of the Government surplus to diminish rather than to increase is not a favourable omen.

After 2.15 p.m. to-day the market again turned weak and sold off fractionally till the close but without any particular feature and no activity.

Chicago.—Wheat again strong to-day, selling up to 78 5-8. A good deal of buying was covered by shorts. Would rather sell than buy on these levels. Corn did not share in the upward move, May advancing but little. Closing prices — Wheat May 74 1-4; Corn May 43 1-4; oats May 33 7-8; pork May 17.92 1-2; lard May 10.00 a 02 1-2.

Hyslop Bicycles, Sundries and Tires of all makes are now on sale at Metheral's Bicycle Works. The Hyslop is the best this year. Call and let us explain our terms.

LATEST IN SPORTING CIRCLES

CRICKET.

It is with a large tear drop in his left eye that the sporting editor takes up his pen to again exhort the good people of the town to organize a cricket club. Lindsay expects to have a very strong club and there was a time, and many citizens can remember that time, when Lindsay cricketers looked upon their Peterborough rivals with admiration, not to say, awe. As mighty empires rise and fall, so do cricket clubs. The Peterborough Cricket Club rose, and in rising to too great a height, the fall was too sudden and complete. Shattered health is recuperated in the spring, so also must shattered greatness be recuperated. There is no doubt that a really first class club, one which will keenly rival the clubs in this district, could be organized in town. It is the sincere hope of many cricketers that a club will soon be organized. Should such organization take place it is a matter of certainty that the club will be as widely known, and as greatly esteemed as of yore.

BASEBALL.

The Shamrock Baseball Club met last night and elected the following officers:—

Patrons—J. Hughes-Charles, H. LeBrun, George Graham, J. O'Toole, M. Tooley.
Hon. President—J. Maher
President—T. J. Begley.
Vice-President—W. Jayes.
Secretary—R. Duncan.
Manager—F. Derocher.
Captain—A. J. Quinlan.
Executive Committee — Manager, Captain, M. Sharpe, F. Craig and L. Allo.

The Shamrocks have collected a fast bunch of players, and prospects are bright for a good season. The management is anxious to arrange a game for Good Friday with some local team. Last year the Shamrocks were very successful, winning not less than sixteen out of eighteen games.

WATER RATES.

The Water Rates for the quarter beginning April 1st are now due and payable at the Town Buildings and the bills are being delivered. If paid by April 15th 20 per cent. discount will be allowed.

ADDRESS AND PRESENTATION

Central Smith Handsomely Remembers Mr. G. A. Gillespie.

A Departing Resident Addressed and Presented.

Tuesday night will be a long-remembered night by those who gathered at the Temperance Hall, Smith. The occasion was used to signalize the departure of Mr. George A. Gillespie and family to reside in Peterborough. Mr. Gillespie has for some time been associated with the firm of White & Gillespie, Peterborough, grocers and dairy supplies, but he intends removing to Peterborough, and devoting his whole time to the business. Mr. Gillespie has for the past five years been the cheese and butter maker for the Central Smith Dairy Company, and has given excellent satisfaction in that capacity. The occasion of the definite severance of business relations was taken advantage of to give an expression to the esteem in which Mr. Gillespie and family were held.

The Temperance Hall was filled, and in connection with the evening's programme and oyster supper was served. The chair was then taken by Mr. Thos. D. Young, President of the Central Smith Dairy Company, who introduced the following interesting programme:

Dairy quartette... .....Messrs. Graham McGregor, Gillespie and Campbell
Chairman's address..... ....
Instrumental trio... ... ...Miss Scott and Archer Bros.
Recitation... ... ...Irene Young
Address... ... ...E. M. Elliott
Illustrated song, "Every Man has a Flag but the Coon"
Recitation... ... ...Lillian Scott
Duet... ...Messrs. Campbell and Gillespie
Reading ... ... Miss Courtney
Instrumental... ... ...Miss Scott and Archer Bros
Song... ... ...Graham and McGregor

As far as the programme was concerned, the best of the wine was kept till the last of the feast. Mr. Gillespie was presented with an address, read by Mr. T. H. Graham, as follows:

Mr. George Gillespie:

Dear Sir,—We, the members and patrons of Central Smith Dairy Company, feel that we cannot allow the present opportunity pass without expressing our appreciation of your diligence, skill, and courteous manner during your five years of labour amongst us. You have always been ready to do anything that would promote the welfare of your patrons, and add to the prosperity of our company. The good feeling existing between us, is largely due to your affectionate heart, carressing manners, and uniform kindness, therefore it is not surprising that we very much regret your departure, and as an expression of our good wishes for your future welfare as well as our own thankfulness for past favours, we present you with this chair, hoping that you may live long and spend many happy hours while resting in it.

While we shall long remember you with pleasure, none the less do we respect and esteem your gentle partner in life, and hope that she may enjoy life none the less while sitting in this chair, which we have the greatest pleasure in presenting to her as a seal to the good wishes we bear and a bond of friendship existing between us. We would not like to let the evening pass without also remembering the little fellow who has brightened your home and delighted us all by his innocent face, happy frolicksome pranks and good behaviour. May his life be far too long to ride so small a tricycle, but we hope he may enjoy many joyful rides, and when it is cast aside, may he add honour to a good name, and be a pleasure and comfort to his parents.

We sincerely wish you long life, prosperity and a happy home at last.

Signed by the Directors of Central Smith Dairy Company, on behalf of the patrons.

T. D. YOUNG,
T. H. GRAHAM,
R. J. EDMISON,
C. D. MOORE,
A. MACGREGOR.

With the address was presented an easy chair to Mr. and Mrs. Gillespie each and a tricycle to the little boy.

Altogether a most enjoyable and interesting evening was spent.

Good Health for Capital.

Maintaining good health is to the majority of people the most vital question in the world and nature affords no more efficient strengthener for the system and restorative for the nerves than Dr. Chase's Nerve Food. Naturally, gradually, and certainly it forms new, red corpuscles in the blood, creates new, healthy, nerve cells, and puts into the system the snap, energy and vitality that defies disease.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 30

NEWS NUGGETS.

Reliable Watchmakers and Jewellers, 391 George St.

OBITUARY.

The Sad Death of Mr. John McKim, of Napanee.

The sad death of Mr. John McKim occurred about two o'clock yesterday afternoon at the Nicholls Hospital, after an illness of about three weeks. The cause of his demise was appendicitis.

The deceased came here from Napanee about six weeks ago, and was employed at the Canadian General Electric Works. His death came as a shock, as he was reported to have been much better yesterday morning. His father arrived here yesterday and remained with his son during his last moments.

The late Mr. McKim was a young man of only 19 years of age. He was a member of the Methodist church and Sunday school, as well as of the Y.M.C.A., and has a host of friends, especially in Napanee, where the news of his death will be greatly felt. The interment will probably take place at Napanee.

THE TRENT CANAL.

Port Hope Guide Says the Minister has Views.

The Port Hope Guide contains the following despatch from Ottawa:

"It is believed here that Minister Blair is favourably disposed to the Port Hope route of the Trent Valley Canal. The deputation that lately waited on him impressed him with the advisability of personally inspecting the two routes, which he will do this summer."

New York Pattern Hats

With the characteristic New York style about them. Patterns that gave New York's greatest milliners some 1903 ideas.

New York Hand Made Suit Hats

for street wear, pretty nearly stunning enough for dress occasions—a smartness in their style—original satin plaited braids are in the construction of some.

New York Ready-to-wears

Probably not so pretty to look at as some hats but that style on the head—that gives a woman credit for good taste and judgment.

New York Hand-made Fruit

You'd think it California Fruit, to look at it — the difference is the latter is perishable, and the former is not—though "teeth watteringly" luscious in appearance.

Pop into our Millinery Department and have a look round.

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES.

GAMEY COUNSEL WAS NOT READY TO PROCEED

The Government Counsel Wishes to go on at Once.

BUT GAMEY'S ADVISERS WERE UNWILLING.

Offer of a Steamer to Bring Witnesses Rejected on Behalf of the Opposition—Government's Efforts Towards Immediate Investigation Hindered by Gamey's Counsel.

Toronto, April 4.—Several distinct steps of progress were made at the organization meeting of the Gamey Commission yesterday, but at the request of the prosecution the commencement of the taking of evidence was deferred until a week from Monday next. At first Mr. Gamey's counsel appeared ready to go on early next week, as Chancellor Boyd suggested, but on second thought they asked for an adjournment until the 13th inst. Mr. Johnston, for the accused, was ready to meet the Judge's suggestion, but gave way to the representations of Mr. Blake, on whom, as Chancellor said, the onus rested.

An order was, however, made for the production by both sides of all papers in the case by Monday next, and, following this, Mr. Blake will formulate his charge definitely and Mr. Johnston will prepare his reply. The order will, of course, call for the production to the Registrar of the court of the shorthand notes taken in the Crossin Piano Factory, and other documents which the prosecution are said to have in reserve.

There were no members of the Legislature present from either side, not even Mr. Gamey.

Great Array of Counsel.

There was a distinguished array of counsel on both sides.

For the Conservatives appeared Hon. S. H. Blake, K.C., Charles H. Ritchie, and Mr. W. D. McPherson. Mr. Sam. Price, barrister of St. Thomas, is also associated with the accusing forces.

For the Liberals appeared Messrs. E. F. B. Johnston, K.C., W. R. Riddell, K. C., and Mr. J. M. McEvoy, the well-known criminal lawyer of London.

When the court was ready for business Chancellor Boyd said—"We have called this preliminary meeting to arrange as to the method and manner of proceeding. It is desirable that we should proceed with expedition. I suppose it is intended the proceedings shall be closed by the 21st of the month, I hope much sooner than that, and therefore the proceedings should go on de die in diem. Our suggestion is we should commence next Monday with the working session of the court, the examination of witnesses and so on, and we suggest that the time be from 10 o'clock in the morning until four in the afternoon, with an intermission of one hour."

Anxious For Speed.

Mr. Riddell—As regards the time, we are quite desirous and anxious to get on as soon as possible consistent with getting all the evidence out. I do not know what my learned friends prosecuting have to say about that.

Mr. Johnston—We are ready, my Lords. We like the other side, have had two weeks, in which no doubt there has been a good deal of preparation made both on behalf of the accuser and accused, and foreseeing the fact that it will be necessary to proceed with very great diligence if the House is to assemble on the 21st April, we are therefore in a position to go on at such times as may suit your Lordships' convenience.

Mr. Blake—We have no desire, my Lords, to prolong the matter. I should certainly like a copy of the commission, which we have not yet had, and I should like an order to produce all the documents, and should like a reasonable time to consider the answer that may be made to that order and the documents that may be produced under it. I should like an opportunity of seeing the commission, so as to present the charges in as intelligible a shape as we can to your Lordships. Whatever time may be necessary for that, I presume, will not be something granted as a matter of any indulgence on our request, but as something which will be absolutely necessary in order to the due investigation of the matters.

The Onus of Proof.

Chancellor Boyd—I understand the onus is on you; you have your own time to prepare; you initiate the proceedings, I suppose.

Mr. Blake—I am in the hands of the Commission.

Chancellor Boyd—The charge being laid by the gentleman you represent, you necessarily will open the matter.

Mr. Blake—We want to proceed in whatever way would meet with the consent of the Commission. Your Lordships will understand we had no notice of this meeting to-day at all, I did not know until ten o'clock that it was expected we were to meet here, but I have had a hurried conference with my learned friend, Mr. Ritchie, who is with me, and the first step is to procure the production of the many documents and matters in connection with the commission.

Chancellor Boyd—I suppose mutual production will be asked?

Mr. Johnston—Oh yes, my Lord.

Mr. Blake—And then the verification on the part of each of the persons interested in it, verifying the production.

Chancellor Boyd—Mutual production on both sides is the usual order.

Mr. Riddell—I will hand my learned friend one copy of the commission.

To Formulate Charges.

Mr. Blake—We do not want anything unreasonable. It being indicated whence the documents can be secured, we can get them. Then in regard to the question of presenting the case upon the Commission, in presenting the charges signed by Mr. Gamey in what we thought to be a proper form under the commission—

Chancellor Boyd—You mean additional charges?

Mr. Blake, K. C.—No, I mean to put the charges in such a shape that they will be presentable. There is a long statement there, and your Lordships will understand——

Chancellor Boyd—You mean to formulate them?

Mr. Blake—Yes. Then I did not know when we could get these documents which are to be produced, and I suppose it would take a couple of days to consider those, and we could then prepare our charges and be ready to meet your Lordship.

Chancellor Boyd—How soon can you make that production, Mr. Johnston?

Mr. Johnston—We can make it at once. We can let my learned friend have that, complying with the terms of the order which your Lordships are making, by to-morrow. We will file that affidavit before your Lordships with the registrar.

Satisfy Everybody.

Chancellor Boyd—This should be a general production, so as to satisfy everybody.

Mr. Riddell—We can do that to-morrow.

Mr. Blake—When can we have the documents?

Mr. Johnston—To-morrow.

Mr. Blake—And a copy of the commission we can get at once.

Chancellor Boyd—A copy of that will be furnished.

Mr. Johnston—I will give my learned friend a copy now, if he desires it, of the commission supplied to me by the Government.

Chancellor Boyd—When will you be able to furnish your productions, Mr. Blake?

Left With Registrar.

Mr. Blake—I think on Monday. As to the documents that are produced, for the purpose of their being seen, I do not know whether those for our inspection should be produced by my learned friend at his office, and the documents for his inspection at ours?

Mr. Johnston—I will leave the documents for my learned friend's inspection with the registrar.

Mr. Riddell—Let all the documents be left with the registrar.

Chancellor Boyd—Then the productions on Monday and the case in such shape as you wish to present it, when?

Mr. Blake—I should hope on Tuesday.

Chancellor Boyd—Would you begin on Tuesday?

Mr. Blake—It would depend on what investigation we need to make in regard to the documents. I am trying to give the earliest possible day.

Mr. Blake at this stage held a conference with his colleagues, after which he stated that Monday week would be the earliest day at which they could proceed owing to the difficulty in getting their witnesses from the Manitoulin islands, and also in connection with other matters.

A Special Witness.

Mr. Johnston—We appreciate the difficulty of reaching the island at this time of the year, but provision will be made by which a special boat will go to the island at once for the purpose of bringing down all the witnesses that may be required on our side; it will be sent at once for that purpose, and that means of communication will be open to my learned friend's witnesses.

Chancellor Boyd—Will you send two boats?

Mr. Johnston—We will send two boats if any question arises out of that. We will endeavor to get transportation.

Mr. Blake—I do not know anything about the intricacies of it or how far the ice is out of the bay. There are practical difficulties in the way. It is all very well to say we will have a boat up there and a boat down.

Mr. Riddell—I suppose it is somewhat probable that the examination and cross-examination of the person who is making the charge will take one or two days at all events, and possibly while that is going on the witnesses may be brought down from Manitoulin.

The Earliest Date.

Mr. Blake—It is not as to the possibility or probability. If your Lordship asks me as to the first day, that is the first.

Chancellor Boyd—Monday.

Mr. Blake—Yes.

Mr. Johnston—When do we understand the productions are to be made?

Mr. Blake—On next Monday, if that is convenient?

Mr. Johnston—Oh, yes.

Mr. McEvoy—Saturday would suit us better.

Mr. Riddell—It may be necessary for us to have other witnesses from the Manitoulin than those attending at the present time.

Mr. Johnston—My learned friend thinks the charges will be ready on Wednesday next and we accept that.

Chancellor Boyd—Do you object, Mr. Johnston, to the commission being asked now until Monday week?

Would Rather Go On.

Mr. Johnston—We would rather go on, but we are in the hands of your Lordships, and Mr. Blake's statement as to his inability to proceed next week is unanswerable.

Mr. Blake—I will have the charges ready on Wednesday, if possible, and if not, on Thursday.

By direction of the commission the hearing was then adjourned until Monday, April 13, at 10 o'clock a.m., in Court room No. 1, in the City Hall.

YESTERDAY'S ACCIDENT.

Mr. Alex Trotter Injured by Jumping From an Engine in Motion.

Mr. Alex. Trotter, a South African veteran, and well known in Peterborough, has of late been a fireman on a freight train running between Lindsay and Belleville. The veteran thought discretion the better part of valour last night, but notwithstanding this, he was taken to the Ross Memorial Hospital, Lindsay, suffering from severe injuries.

His engine and another engine were ordered to proceed to a point below Keene to pick up some gravel there. When near Keene Trotter's engine broke its driving shaft and began to make things interesting. The fireman jumped, and received somewhat serious injuries.

LECTURE FOR CHILDREN

Given in Sons of England Hall, Yesterday Afternoon.

A very interesting lecture on Horticulture, was given to the children yesterday afternoon in the Sons of England Hall. There was a very large number of children present, in fact the hall was too small to satisfy factorily accommodate the children who were present.

Through the praiseworthy efforts of the Peterborough and Ashburnham Horticultural Society, Mr. H. Race, one of the popular lecturers sent out by the Ontario Department, occupied the platform, his subject being "The Social and Moral Influence of the Home Surroundings." Mr. D. W. Dumble presided and introduced the lecturer to what he hoped would be a most attentive audience. The lecture was couched in plain, simple language, adapted to the capacity of his audience, and enforced most important lessons.

Mr. Race in the course of his remarks said that it is the people that make the country, and it is the culture of the people which makes the country great. A horticultural society is for beautifying the homes. As a flower is the development of the bulb so is the man the development of the child. If any worm got into the bulb the flowar is not perfect; so if anything gets into the homes of children, such as drunkenness on the part of the parents, the manhood will be imperfect. Then if the homes are beautiful the happiness of the children will be more complete. The foundation of every country's greatness is the home.

Inspite of the promise of the children to invite their parents to attend the lecture to be given yesterday evening, very few indeed turned out. In fact so few were present that the lecture was abandoned for a more lighter source of amusement.

Rubber Balls, Footballs, Golf Balls and Tennis Balls at Sadlebury's.

SOCIAL AND PERSONAL.

Mr. C. F. McCabe, B.A., of Toronto, was in town yesterday renewing old acquaintances.

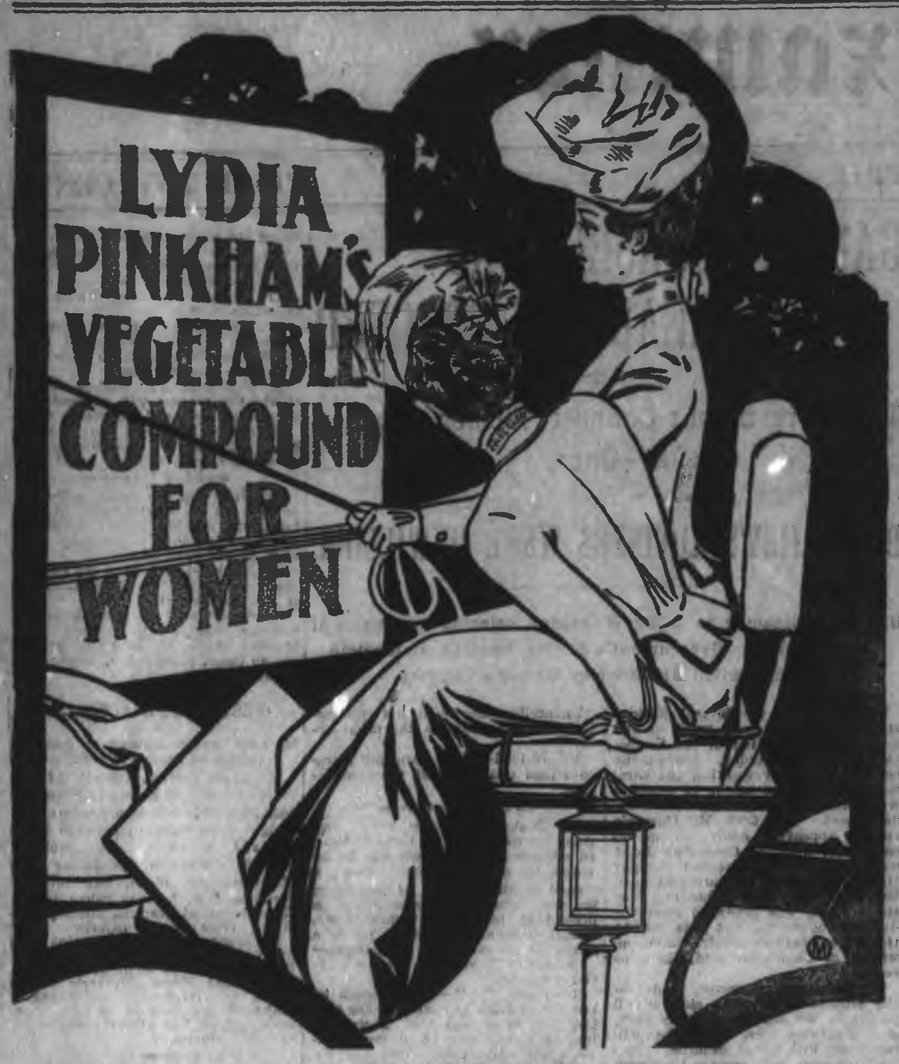
Mr. E. W. Squires, who has been in the employ of E. Neill for a number of years, leaves for Winnipeg to-day.

Mr. George E. Revell left last night for Seven Islands, Quebec, where he will be engaged in engineering work for the next seven or eight months.

Mr. Justice Lount, who went to Bermuda some months ago for his health, returned to Canada about a fortnight ago and rested at St. Catharines for several days. He arrived in Toronto a few days ago and is lying ill at the Queen's Hotel. During his visit to Bermuda he met with an accident by which his leg was broken, thus retarding his recovery.

Hon. J. R. Stratton was in town to-day, and left for Toronto this evening to meet Mr. W. A. Stratton, who will reach Toronto to-morrow from the Pacific Coast. The latter left Peterborough for British Columbia about three weeks ago on business. Upon his arrival there he was taken suddenly ill, and upon the advice of his physician, is returning home. Mr. A. H. Stratton left for the Coast on Wednesday last, but met Mr. W. A. Stratton at Winnipeg. A message to-day says that he has greatly improved, and that, with a short rest, he will be restored to his usual good health.

There are very few cleansing operations in which Sunlight Soap cannot be used to advantage. It makes the home bright and clean. 13



"Saved My Life."

"Lydia E. Pinkham's Vegetable Compound cured me when all else had failed. I suffered a long time with female troubles."

"Mrs. Pinkham's advice and medicine saved me from a surgical operation. Doctors said an operation was necessary."

Thousands upon thousands of women throughout this country are not only expressing such sentiments as the above to their friends, but are writing letters of gratitude containing just such expressions to Mrs. Pinkham until she has more than a million from women in all classes of society who have been restored to health by her advice and medicine after all other means had failed.

Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is performing such remarkable cures, assisted by Mrs. Pinkham's advice.

If you are asked by a druggist to take something else, demand the medicine which you know is best—the medicine which has made the greatest number of cures—the medicine whose record is unequalled by any other medicine, exclusively for women, in the world,

Lydia E. Pinkham's Vegetable Compound.

SATURDAY, APRIL 4, 1903.

EARLIEST IN THIRTY YEARS.

Steamboat Men Make a Record, but not the "Best Ever."

Str. Manita Arrived From Bobcaygeon Friday Morning With Passengers.

(Lindsay Post.)

Navigation opened last year on the Kawartha Lakes on April 8th, when the Str. Ogemah, of the Trent Valley Navigation Co. fleet, first ventured a passage through the ice floes on Sturgeon Lake. The date was very early—the earliest for many years, in fact,—but this season Capt. Johnston, of the Manita, has beaten it out of sight by wheeling the Manita up to the town wharf at 10.30 today, April 3rd. About a dozen passengers were on board, and as the weather was raw, and a snowstorm threatening, the trip was not highly enjoyable.

The Company's tug, Ajax, was really the first craft to make this port. On Wednesday the Ajax and the Manita steamed up from Bobcaygeon as far as the mouth of the river, which they found blocked with a large field of thick ice forced in by the heavy wind. The vessels returned to Bobcaygeon, and yesterday the Ajax repeated the attack, having been fitted with an ice-cutting attachment. Capt. Smith found that most of the ice had, by a change in the direction of the wind, been blown back towards the mouth of the Fenelon River, where the Rathbun Co's tug, the Marie-Louise, which passed down the evening previous, was imprisoned with a tow of logs. The Ajax came to Lindsay after a couple of empty scows, and some hours later the Marie-Louise came puffing into port with her tow of logs, having forced her way through the ice-field.

Capt. Crandell, on being interviewed by a Post representative as to the date of the earliest opening of navigation in his recollection, said he remembered very clearly that between 25 and 30 years ago the Str. Anglo-Saxon, owned by Bigelow & Trounce, lumbermen, of Port Perry, made her first trip through Lindsay to the lower waters on St. Patrick's day, and Capt. Macdonald tacked a bunch of green ribbon to the bowsprit in honour of the event.

BRIDGENORTH NEWS NOTES.

Personal Mention and Other Happenings of Interest.

Milder weather.

March went out windy.

The roads to town are quite dry.

Mrs. R. E. McKee and daughter, spent Friday in the village.

Miss Blewett, of Lakefield, is visiting with Miss McEwen.

Capt. Scollard, of Young's Point, was in the village on Tuesday.

Mr. Wm. Geraghty is home again after a week's holidays in Buffalo.

W. H. Rackham is one of the first arrivals at the park. He is staying with Mr. Pope.

Miss Blewett spent Sunday with her sister, Mrs. J. W. Kelly.

Mrs. McMann, of Cobourg, is visiting with Mrs. Quinn.

Gordon Robinson spent Sunday at his home in the village.

Mr. and Mrs. Reid have taken up residence in the village.

Mr. Sam Clegg came up on Friday to see the wreck down at the bridge.

Navigation has opened on Mud Lake, as the Telford Bros. came in to harbour on Tuesday the 26th, with their fleet.

Mr. Fife, weather prophet, is confined to his room. Dr. Morgan is in attendance.

Mrs. Forsythe has returned home after spending a few days with her son, Mr. S. H. Forsythe.

Mr. Bob Scott came nearly losing a finger last week, while engaged at some work in Mr. N. G. Bill's shop.

Ross Nicholls, son of Mr. Pete Nicholls, received a bad cut on his ankle last week from an axe, which was being used by a chum by the name of Cullen.

Capt. Billy White came up from Peterborough last Friday to see his friend, Mr. N. G. Bell, on business.

John Turner spent the past week visiting friends in Lakefield, Peterborough, Toronto and Niagara Falls, Ont.

Mr. W. J. Hopwood and his son, Jack, came up to the village on Tuesday evening. His island is covered with water, but the cottage is still in sight.

Miss Montgomery, of Buckhorn, is visiting with her sister, Mrs. W. Gillespie.

Thos. Cullen, Sr., has taken a position with Mr. J. H. Mann for the summer.

Noble Kelly left on Tuesday morning, March 24th, with a gang of men for the drive.

Mrs. S. Morrison's many friends will be pleased to know that she has recovered sufficiently to be able to go out for a drive.

The old wharf was slightly hoisted on Tuesday of last week, with the ice jams.

Mr. W. B. Kelly has purchased a floating island for what purpose we are not prepared to say, but at present it is lying at anchor just opposite the saw mill.

A number of Bridgenorthites went down to Peterborough on Monday and Tuesday. Several called in to see their tonsorial artists and got their last 15c. hair cut, as the new price list comes into force April 1st. This is something of an April fool.

Mr. and Mrs. Wm. Corbett, who have been residents of the village during the past year, left on Monday for Fenelon Falls, where they will reside in future, Mr. Corbett having secured a good position in that town.

Mr. Gillespie, of the Fourth Line Factory, was tendered an oyster supper on Tuesday night, March 31st, by the patrons of the factory. Mr. Gillespie is removing to Peterborough, where he is going into business.

The new floating bridge, which was put out of business on Tuesday last, will be open for traffic on and after April 1st. Mr. O'Leary has a gang of men at work and is losing no time in getting it pulled together.

A GUARANTEED CURE
For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

SPRINGVILLE.

(From Our Own Correspondent.)

Springville, April 1.

The Misses Grandy of Millbrook, are spending a few days with Mrs. J. Cathcart.

Roy Smith, the little son of Mr. Jonathan Smith had the misfortune to have his leg broken on Saturday.

Miss Cullen of Peterborough, is visiting at Mr. T. Browne's.

The masons arrived on Monday to work on the foundation of the new manse.

Miss Trew was visiting friends in the village last week.

SOME HARD FIGHTING

1,000 Troops Killed or Wounded in the Okhrida District.

AN UPRISING OF BULGARIANS.

Three Thousand Men, Inhabitants of Thirty Villages in the Okhrida District Join the Insurgent Bands—Dynamite Is Being Used in the Campaign—Fighting in the Philippines Still Goes On.

Constantinople, April 4.—Official advices from Monastir say the Bulgarian inhabitants of thirty villages in the Okhrida district, totalling three thousand men, and supported by the Bishop and a number of revolutionary bands, have risen against the Turks. They surrounded a small detachment of Turkish troops in the mountains northward of Okhrida, but the troops succeeded in cutting their way out, after sustaining considerable loss.

Another dynamite outrage at the town of Mustapha Pacha has led to the discovery that the revolutionary committee is supposed to be responsible for the attempt to wreck the Oriental Express early in the morning of March 31, when the bridge of the Turkish Oriental Railroad, between Adrianopole and Mustapha Pacha, was blown up by an infernal machine.

Using Dynamite.

Salonica, Turkey in Europe, April 4.—The railroad bridge over the Angista River, near Drama, was blown up by Bulgarians during the night of April 1. All the telegraph wires in the vicinity have been cut. Drama is about thirty miles from Seres, Macedonia.

1,000 Men Killed or Wounded.

Berlin, April 4.—A despatch from Constantinople to The Lokal Anzeiger, dated noon yesterday, announces that the Bulgarian bands and Turkish troops in the Okhrida district have fought a battle, and that 1,000 men were killed or wounded.

Outbreak Imminent in China.

Shanghai, April 4.—Advices received here from Fou Chang, Province of Hu Pei, says that a large detachment of Hunanese troops arrived at Fou Chang by water on March 12 on their way to Sian Fu, Province of Shen Si. This is regarded here as being a confirmation of the rumors that Prince Tuan and General Tung Fuh Siang have sent an ultimatum to the Dowager Empress, insisting on the deposition of the Emperor and the enthronement of Pu Chun, formerly heir apparent, and that otherwise they will make the Provinces of Shen Si and Kan Su a separate kingdom, with Sian Fu as the capital.

Fighting Around Manila.

Manila, April 4.—A force of troops and constabulary, commanded by Capt. Perry, overtook and routed, on the shore of Lake Mainit, March 31, the band of convicts and Ladrones who recently attacked, and, for a time, held possession of Surigac, Island of Mindanao.

Spanish Students Rioting.

Madrid, April 4.—Bands of students made a demonstration yesterday in front of the Ministry of the Interior, as a protest against the occurrences at Salamanca. The carriage of Senor Maura, Minister of the Interior, was stoned, and, subsequently, when Premier Silvela and Senor Maura were driving together, they were subjected to a hostile demonstration. The police dispersed the rioters. Eight policemen, and a number of students, were wounded in the fray, and several of the disorderly students were arrested.

Disfiguring and Troublesome Diseases Result from Impure and Poisoned Blood.

Paine's Celery Compound
Is the Great Blood Purifier and System Renovator.

Eczema, salt rheum, scrofula, shingles, ringworm, boils, pimples, itch, and a score of other disagreeable troubles, result from sluggish, impure and poisoned blood. All these common afflictions cause serious disfiguration to face and complexion, and demand our instant attention. Do not resort to outward treatments or applications. Common sense and and the experience of your friends will at once suggest a blood purifier and system renovator like Paine's Celery Compound. This marvellous medicine soon multiplies the number of vital red corpuscles, and fills the arteries with a health stream that produces clean, solid flesh, and firm, well-braced nerves. Mr. M. D. Arthur, of Cholmsford, Ont., says:

"I was laid up with sores all over my face and neck, the result of blood poisoning. While in that condition, I could not sleep at night, I had no appetite, and could not attend to my work. I tested the skill of all the doctors in the district, and used their medicines but was not benefitted. My aunt advised me to use Paine's Celery Compound, and I did so to please her. I bless the day I commenced with the medicine. In two weeks I was so much better that I could go out, and in three weeks I was able to resume work again. I cannot say sufficient in praise of Paine's Celery Compound; I would not be without it if I were obliged to pay ten dollars a bottle for it."

Blew His Brains Out.

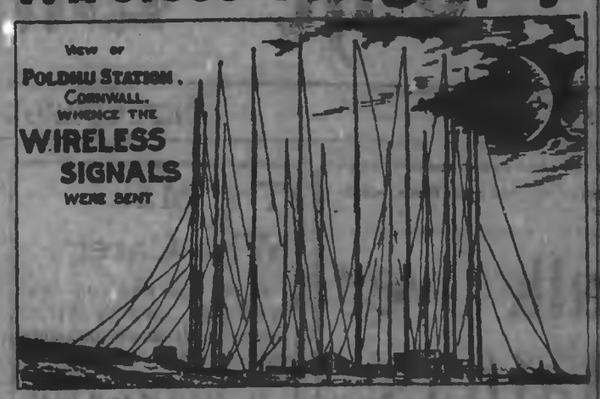
London, Ont., April 4.—James White, a retired Caradoc farmer, 75 years of age, committed suicide a day or two ago. Early in the morning he took his gun from its usual place and blew out his brains. He had lived in Caradoc and Ekfrid for 40 or 50 years, was in good circumstances, and no cause is assigned.

A Good Word for Chamberlain's Cough Remedy.

"In December, 1900, I had a severe cold and was so hoarse that I could not speak above a whisper," says Allan Davis, of Freestone, N. Y. "I tried several remedies but could get no relief until I had used Chamberlain's Cough Remedy, one bottle of which cured me. I always speak a good word for that medicine." For sale by all druggists.

Laxative Bromo Quinine Cures a Cold in One Day, Grip in 2 Days E. W. Grove on every box. 25c

Wireless Telegraphy.



The man in the moon
Will want to know soon
Where he can buy ALABASTINE.
Marconi will say
It is made in Paris, Canada,
And is the wall-coating everlasting.

The people on earth
Know its great worth
And use it from Maine to Alaska
A wall coating they tell
That makes home look "swell"
Is Church's Cold Water Alabastine.

Marconi's experiments on land and on sea
A great boon to mankind are surely to be
He should have full credit, and be helped to succeed
Because he is a boomster indeed.
The same as the man, who in the wall-coating line,
Invented, developed and manufactured
Church's Cold Water ALABASTINE.

ALABASTINE is made in twenty beautiful tints and white.

Sold by hardware and paint dealers everywhere. Never sold in bulk.

Ladies, send us your address, and get by return mail our "Housekeeper's Reminder." It is both useful and ornamental. Address

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $300,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

H. P. LINDSAY,
District Manager

OFFICE—326 Market Arcade Peterborough.

Why Don't You Get Well?

If you'll ask for health you can have it.
I'll supply the treatment—all the risk is mine.
I am curing thousands while you are waiting.
It is your turn to get well—write me to-day.

My Remarkable Offer.

I am making an offer to sick ones which no other physician will make.

The offer proves that I have wonderful faith in myself—and in you. It proves that I have learned how to cure, for the offer would ruin me if I did not succeed.

The offer is this:—

Simply send me this coupon or write me a postal, stating which book you need. I will then mail you an order on your druggist for six bottles Dr. Shoop's Restorative. You may take it a month on trial. If it succeeds, the cost is $5.50. If it fails, I will pay your druggist myself. And your mere word shall decide it.

I do that to convince you who hesitate—you who doubt all men's claims. I have what millions need, and I want the sick ones to have it. So I make an offer so fair that the sick can't neglect it. That offer has been accepted by nearly 550,000 people, and 39 out of each 40 have paid gladly because they were cured.

The Remedy That Cures.

My Restorative differs from all other treatments. It is the result of my lifetime's study in learning how to strengthen the inside nerves. This remedy always brings back the nerve power which alone operates the vital organs. The result is like giving an engine more steam; the organ has power to do its duty.

The common way is to treat the weak organ—to tide over the dificulty till nature restores the nerve power. But it the trouble is deep-seated, those methods fail. And in any trouble—whether trifling or severe—the right way and quickest way is to rectify the cause—to bring back the nerve power that is weak.

My Restorative always does that.

CUT OUT THIS COUPON.

For we all receive to send for something, but forget. Mark the book desired and mail this with your name and address to

Dr. Shoop, Box 47 Racine, Wis.

Book 1 on Dyspepsia | Book 4 for Women.
Book 2 on the Heart | Book 5 for Men (sealed).
Book 3 on the Kidneys | Book 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles. At all Druggists.

Dr. Shoop's Restorative on Trial.

KEENE.

(From our own Correspondent.)

Keene, March 31.

A number of our young men left on Tuesday for the Northwest. Among the number were J. R. McIntyre, F. Eason and P. Shearer.

The hockey boys were presented on Saturday with a beautiful gold locket each as a souvenir of their season's work.

Death has claimed two aged residents this week, Geo. Read, a life-long man of influence, and Jas. Rennie, who was well known in this district.

Mr. Thos. Lang is in Toronto this week attending the funeral of his aunt, Mrs. Kay.

Miss Lizzie Powell of Trinity University is here attending the funeral of her grandfather.

Miss T. McNeil of Bethany, is here on a visit to her sister, Mrs. R. Skinner.

There was an exciting runaway on Front street on Monday, when Dr. McWilliams' horse made a dash for liberty. Little damage was done.

Miss Campbell of Peterborough, spent a few days of last week with her friend, Miss Harrison.

Wm. Weir of Lang, has returned from a trip west. He has purchased a quarter section in Manitoba.

D. Eason, C.E., left on Wednesday for Pittsburg.

Jack Miller spent a few days here last week previous to his return to the west.

Family Quarrels.

How many serious family quarrels, marriages out of spite and alterations of wills, might have been prevented by a gentle dose of pills." With the liver and kidneys sluggish and torpid, digestion is impaired and temper is ruined. But Dr. Chase's Kidney-Liver Pills by invigorating the action of these organs ensures good digestion and sound health. One pill a dose; 25 cents a box.

Retort.

Husband (irritably)—It isn't a year since you said you believed our marriage was made in heaven, and yet you order me around as if I wasn't anybody.

Wife (calmly)—Order is heaven's first law.—New York Weekly.

You will find that the mere resolve to be useless and the honest desire to help other people will, in the quickest and most delicate ways, also improve yourself.

For consumption, bronchitis, weak lungs, and throat troubles, Angier's Petroleum Emulsion is unequalled. It is pleasant to take and agrees with the stomach.

It is a combination of healing Petroleum, nerve-strengthening and tissue-making hypophosphites, and other curative agents well known to physicians. Angier's Petroleum Emulsion heals diseased membranes, allays irritation and inflammation, improves nutrition, regulates the stomach and bowels, and relieves diarrhœa and night sweats.

I was told by three doctors that I had quick consumption. Angier's Petroleum Emulsion was prescribed and agreed with me perfectly. Within six months I had gained fifty-nine pounds in weight. My cough was cured, and I had no more night sweats or hemorrhages. I am now in perfect health. —E. H. Walton, Medford, Mass.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and refuse an imitation. Angier's. Large size, 25c., 50c., $1, 50c.

ANGIER CHEMICAL COMPANY, BOSTON, MASSACHUSETTS, U.S.A.

B.C. LABOR TROUBLES

Welfare of Pacific Province Seriously Impaired.

MR. RALPH SMITH'S SPEECH.

The Miners Organized a Union and the Men Were Then Promptly Dismissed by Wellington Coal Company, Which Got a Grant of Land and Which Retains It Without Any Control by Parliament.

Ottawa, April 4.—Friday is usually a dull day in the House, but yesterday afternoon an important and interesting discussion took place on the labor troubles in British Columbia. Mr. Ralph Smith brought to the attention of the House the seriousness of the situation created in British Columbia by these troubles, which threaten the progress, if not the national life, of the Province. He suggested that this was a case where the Government ought to have power to stop in, and asked for the appointment of a commission to investigate the conditions which exist and make a report in order that the influence of public opinion might be brought to bear in the interests of a settlement. Mr. Macpherson (Burrard) and Mr. Puttee (Winnipeg) supported Mr. Smith's request. Sir William Mulock, after reviewing the position of labor legislation in Canada, promised prompt and careful consideration of the proposal to appoint a commission of inquiry. Good progress was made in supply, and the House rose at 11.15.

Election Writ Issued.

Mr. Monk's motion that a writ be issued for a new election in St. James' division, Montreal, was presented and carried.

The following bills were introduced. To incoporate the Bank of Winnipeg (Scott.) Respecting Canada Northwest Land Co., Limited (Thompson.) Respecting the Brandon and Southwestern Railway Co. (Morrison.)

Sir Wilfrid's motion that: "From this date to the end of the session, Government orders have precedence on Thursdays immediately after questions to be put by members" was carried.

Provincial Representation.

Mr. Borden read from a St. John paper a statement made in the Legislature of New Brunswick by Hon. Mr. Pugsley, in which he read a telegram from Mr. Blair, stating that the Federal Government was prepared to co-operate with New Brunswick to get a decision in the Supreme Court on the provincial contention, that, as it was one of the original provinces of Confederation, its representation should not be changed by the Redistribution Bill.

Sir Wilfrid said that the delegations from Prince Edward Island and New Brunswick to press home this contention had been told that the Government was firm in the belief that it was sound to carry out the redistribution of seats on the lines laid down in 1882 and 1892. But the Government had promised to submit or aid in submitting a case to the Supreme Court, though the Redistribution Bill could not be delayed.

Unauthorized Statements.

Mr. E. F. Clarke asked the Premier whether the despatch in The Globe of yesterday in reference to Canada undertaking to maintain three cruisers was correct.

Sir Wilfrid Laurier, in reply, said he had no explanation to offer, as the statement was unauthorized.

Sir Wilfrid's bill giving effect to the resolution increasing the capitation tax upon Chinamen coming into Canada to $500 was given first reading.

Labor Grievances.

Ralph Smith, M.P., asked that the Minister of Labor should appoint a commission to investigate the serious condition of affairs in British Columbia owing to differences between capital and labor.

Mr. Smith declared the business interests of British Columbia were seriously interfered with by conflicts between labor and capital. He cited the strike at Fernie, the C.P.R. strike at Vancouver, and the strike at the Wellington coal mines on Vancouver Island. He called special attention to the last named strike. The miners had organized a union and the owners of the mines then discharged the officers of the union, closed down the mines and disorganized a community of over 4,000, who depended absolutely on coal mining for a living.

Mr. Smith thought the Government should intervene in this case where men were deprived of a livelihood because they organized a union—a right that was endorsed by public opinion. If miners were not organized they could not object to the dangerous conditions of mines with effect. If another reason was needed for his bringing this matter to the attention of the House, he would mention the enormous privileges given by this Parliament twenty years ago to the Wellington Coal Company. It was given 1,900,000 acres of land and freedom from taxation on the Island of Vancouver, besides $750,000 to build a railway seventy-two miles long. Yet in spite of all this, the Government had no control over the operations of the company.

He suggested that a commission be sent out to that province and find out the cause of the disastrous state of affairs and report to the public through Parliament. In his opinion, public opinion was the only power that could effect a settlement.

Lesson of Recent Strikes.

Mr. John Charlton thought the Government could gain instruction by viewing the action of the United States Government in the recent coal strike.

Mr. McPherson (Burrard) backed up Mr. Smith's remarks, and testified that the British Columbia labor problem threatened the existence of the province, for it was kept from progress by them. He favored the appointment of a committee.

Mr. A. W. Puttee (Winnipeg) had little faith in a commission. In all the strikes in the west there was one common feature in which all hinged, that was the stubborn refusal of employers to recognize unionism. This was the whole point, yet at the same time the employers were forming a union among themselves.

Sir William Mulock.

Sir William Mulock said that this was a most important and far-reaching question. For some little time there has been an industrial disturbance, which had been referred to, owing to their labor troubles. He referred to the difficulty Governments had found in dealing with this question, and touched briefly upon the experience in connection with compulsory arbitration in New Zealand. The member for Vancouver was desirous of appealing to public opinion through the medium of a royal commission, which would bring to the notice of the public the facts in the controversy.

Sir William Mulock pointed out that the lands at Nanaimo were granted to the company 20 years ago, and because of the liberality of the Government in granting these concessions it looked as if the company should be fair and generous towards their employes. The proper time to secure the right to interfere would have been when these lands were granted. A year ago a strike occurred at Nanaimo, and the Deputy Minister negotiated a truce which was to last for some time, but apparently it had been broken, although the Government had received no notice of it except from Mr. Smith. Some time ago the department was asked to interfere in the Crow's Nest strike, but the company refused to accept any intervention, and there was no law whereby intervention could be forced on a company, and it was a question if public opinion would sustain a compulsory measure for interference in the ordinary disputes arising between private employes. Mr. Charlton had very properly referred to strikes in coal mines as of a special character, and Sir William agreed with him. Coal was a necessity of life, was found in very few places, and coal mining was an industry of a monopolistic character, and possibly public opinion would approve of special legislation dealing with that class of industry, just as he thought public opinion approved of the proposal that Parliament should intervene to try and maintain the running of railways. The Parliament of Canada was only making a beginning in labor legislation. A great deal of educational work was being done at the present time, and he thought that an arrangement could be come to finally by which there could be friendly intervention between employes and employers. He had been asked to extend the principle of the railway labor bill to other industries, but he thought it better to leave that bill on the statute books for some time; it seemed to him unwise to force legislation to that effect, as it was possible to go too fast in legislation. He promised the immediate and careful attention of the Government to the suggestion that a commission should be appointed to inquire into the subject.

Mr. Borden asked if there was not a Pennsylvania arbitration law that was invoked in the coal strike, but no one could give him the information.

At 4.15 the House went into supply on public works items.

Bills Read a Second Time.

The following bills were read a second time and referred to their proper committees: To incorporate the Grand Trunk Pacific Railway Co.; respecting the Kingston and Pembroke Railway Co.; to incorporate Joliette and Lake Mannan Colonization Railway Co.; respecting the Canada Permanent and Western Canada Mortgage Corporation; respecting the Central Ontario Railroad; to incorporate the Quebec, Saugenay and Gulf of St. Lawrence River Company; respecting the Niagara Grand Island Bridge Company; respecting the Edmonton Street Railroad Company; respecting the Winnipeg Western Land Corporation; respecting the Ontario and Qu'Appelle Land Co.; respecting the London and Port Stanley Railway Co.; respecting the Mutual Life Company; to incorporate the Brockville and Western Railroad Company; to incorporate the Northwest Coal and Coke Railroad Co.; to incorporate the MacLeod Cardston and Montana Railway Co.

In Supply.

The House went into Committee of Supply. The estimates for western public buildings went through with little objection.

The House adjourned at 11.30, after getting through estimates, aggregating a quarter of a million or more.

The Railway Committee.

Yesterday the Railway Committee put this business through:

To amend Railroad Act (Lancaster)—Made first order for April 16.

Respecting the Canada National Railway and Transport Company (Campbell)—Reported.

Respecting the Grand Trunk Railway Company of Canada (Geoffrion)—Held over to be amended by Minister Blair.

To incorporate the Kootenay, Cariboo & Pacific Railroad Company (Morrison)—Held over.

To amend authority in granting railway subsidies (Charlton)—Reported.

Conservative Caucus.

Ottawa, Ont., April 4.—The Conservatives held a caucus yesterday morning and named R. L. Borden, F. D. Monk and Hon. John Haggart as their committee to work with the Liberal committee on the redistribution bill.

HUSH! THESE MAIDS KNOW

that the long agony of female weaknesses, the torture of their more mature sisters, may be all avoided by the use of the great

South American Nervine Tonic

which gives impulse, power, vigor and vim to every vital organ, thus producing or preserving BEAUTY of FACE and FORM by feeding the nerves directly until they put the system in order.

Edward Purrey, of Sydney Centre, British Columbia, states: "My wife was taken down with nervous prostration which later developed into paralysis of one side. Three bottles of SOUTH AMERICAN NERVINE worked wonders for her. We cannot speak too highly of the remedy."

Dr. Von Stan's Pineapple Tablets digest the food in the stomach without the aid of the stomach, giving the stomach a rest.—They heal the stomach by the best cure—the rest cure.

Price, 35c. 21

M. B. F.

Three initial letters, mystical to some, but quickly recognized by a vast number who regularly use Malt Breakfast Food.

One lady when asked by the writer what the above initial letters properly referred to, answered quickly, "My Breakfast Friend."

To-day thousands of people in Canada look upon Malt Breakfast Food as their best breakfast friend. A hot steaming dish of this delicious food every morning affords an energy, vim and strength that contributes to true health and physical robustness.

The secret of the success of Malt Breakfast Food and its fast increasing popularity is due to its easy digestion and superior nourishing virtues. The doctors will tell you that no other food is half as good. Every grocer sells M.B.F.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1150 to 1200 lbs each, are worth $4.25 to $4.40; loads of medium butchers', $3.75 to $4.05; loads of good butchers' at $3.65 to $4.20; common butchers', $3.25 to $3.50; rough, $3; canners, at $2.00 to $2.50.

Stockers—One year to two-year-old steers 600 to 700 lbs. each, are worth $3.50 to $3.75 per cwt.; off-colors and of poor breeding quality of same weights are worth $2.75 to $3 per cwt.

Milch Cows—Milch cows and springers are worth $30 to $50.

Calves—Calves sold at $2 to $10 each, or from $4.50 to $5.50 per cwt.

Yearling Lambs—Lambs sold at $5 to $5.50.

Sheep—Prices, $4.25 to $4.75 per cwt. for ewes, and bucks at $3.50 to $4.

Hogs—Best select bacon hogs, not less than 180 lbs nor more than 200 lbs each, off cars, sold at $6.25 per cwt.; lights and fats at $6.00; sows, $4.50 to $5 per cwt.; and stags $3 per cwt.

Children's Kidneys.

Dr. Pitcher's Backache Kidney Tablets are the Most Successful Treatment for the Kidney Weakness of Children.

Mothers know what distress and anxiety they have when the little ones cannot retain their water properly or have any trouble with their kidneys.

For the weakness of the kidneys, bladder or urinary organs of children, Dr. Pitcher's Backache-Kidney Tablets, which are the prescription of the eminent specialist, Dr. Zina Pitcher, are the most effectual remedy known to science.

Mrs. W. M. Glovar, Pearl street, Brockville, Ont., says: "One of my children that had been suffering from sluggish kidneys read about Dr. Pitcher's Backache-Kidney Tablets, and procured a bottle. They removed the whole difficulty promptly. That depressing pain over the kidneys stopped, dizziness and headaches ceased, and there was a general invigourating of the system. There is no question regarding the merits of those tablets for the back and kidneys. We have great confidence in them and recommend them highly."

Dr. Pitcher's Backache-Kidney Tablets are 50 cents a box at all druggists. The Dr. Zina Pitcher Company, Toronto.

Corticelli SPOOL SILK

Admitted by dressmakers to be the best sewing silk made. As Corticelli costs you no more than poor silk, why don't you buy it? Ask for "Corticelli" and politely, but firmly, refuse all substitutes, which some clerk may say are just as good.

Corticelli Belding Bros. & Co. Rhode Island Dyes Wash Silks

IN PATENT HOLDERS.

The colors are fast—the silk the best. Put up in Patent Holders, which prevents waste by tangling or soiling—keeps each shade separate, and automatically measures a correct needleful.

Recommended as the only proper way to put up Filo and Floss Silks, and used by art societies everywhere. Over 400 different shades of silk to select from.

Corticelli .....Skirt..... Protector

Peculiar Wearing Qualities and Perfectly Straight Selvage.

Corticelli Skirt Protector is of firm and even texture. When soiled a sponge or brush makes it clean again, and no damage done. Corticelli Skirt Protector is a great favorite with fashionable and careful dressers.

☞ If you are not already a subscriber to Corticelli Home Needlework Magazine, become one now. Full information on application to Corticelli Silk Company, St. Johns, P. Q., or any other Corticelli office.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Foreign Work.

Mr. J. L. McPherson, Provincial College Secretary of the Y.M.C.A., will be the speaker at the Y.M.C.A. on Sunday at 4 o'clock. All men are invited. Every director, committeeman, and active member should be present. Mr. McPherson will speak on work for young men in non-Christian lands.

Sunday Reading.

Don't forget your Sunday reading at the Peterborough Bookstore to-night. The April illustrated magazines and newspapers are all in. In addition to the usual attractive selections of daily, weekly, and illustrated papers, we have some rare snaps in books, worth coming for. A. H. Stratton & Co.

An Old Timer.

China Hall announces in another column, one of its old-time clearing sales—the first in four years. The public will remember these sales, and the genuine bargains given at them, and will not be slow to take advantage of this opportunity to get first class goods at low prices. The sale begins on Saturday, April 4th. 4dlw

Annual Auction Sale of Magazines, Y.M.C.A., Saturday, April 4th, 7.30 p.m.

Obituary.

One of Ennismore's oldest and most highly respected residents passed away yesterday in the person of Mr. John Collins, father of Mr. Patrick Collins, clerk of Ennismore. The deceased was 86 years of age. The funeral will take place at 3 o'clock on Sunday afternoon and proceed to St. Martin's church, and from thence to the Ennismore cemetery for interment.

Sweet Pea Seed.

My selections are from the finest strains of American growers, and include the improved large-flowering varieties of recent introduction. They are remarkable for their wide range of colour, brilliancy and profusion of bloom. The seed should be sown now. Also nasturtium seed—many beautiful sorts—so ornamental that they deserve a place in every garden. Sweet pea and nasturtium seed for sale by the ounce or in any quantities. Jos. H. Cobb, Aylmer Street Greenhouses. Open till 10 o'clock at night. 'Phone 132.

The undersigned has received instructions to sell by public auction on the premises, No. 571 Water street, the household effects of the late F. A. Walden, on Wednesday, April 7th, at 1 p.m. JOHN HAGGART, Auctioneer.

FIRST PARADE

Of the 57th Regiment Takes Place Next Week.

Additional activity in local military matters may be expected from now onwards, as will be seen by the following order announcing the first parade of the Peterborough Rangers:

Headquarters, Peterborough.
April 3, 1903.

Orders by Lieut.-Col. J. W. Miller, commanding 57th Regiment, Peterborough Rangers.

The regiment will parade at the drill shed on Tuesday April 7th, at 8 p. m., and on each subsequent Tuesday at the same place and hour, until further notice.

By order,
D. WALKER, Capt.,
Adjutant.

THE AMBULANCE

In Memory of Dan Spence is Almost Ready.

Mr. Joseph Succee, who is a member of the committee appointed to look after the Dan Spence Memorial Ambulance, has received word from the manufacturers that the ambulance is in the finishing room, but that it will be several weeks yet before it can be delivered in Peterborough.

Hyslop Bicycles, Sundries and Tires of all makes are now on sale at Metherall's Bicycle Works. The Hyslop is the best this year. Call and let us explain our terms.

Student's Easter Rates.

The Grand Trunk will issue to students and teachers of schools and colleges, on surrender of standard certificate, signed by the Principal, return tickets at Single Fare and One-third; going April 4th to 11th, inclusive. Valid returning until April 21st, 1903. Further particulars in another column of this paper, or from W. Bunton, C. P. & T. A., Peterborough. 10d74

Baseball Goods at Salisbury's.

We Must Move Them.

If you have any idea of the trouble and expense of moving granite and marble monuments and tombstones, you will understand our anxiety to sell what you see standing in our yard rather than have to move them to another stand. Our landlord is preparing to erect a new brick block on our corner, and rather than move our stock, we are asking but a fraction of what our monuments are worth to save moving. The Moore Monumental Company.

AN 18,000 MILE JOURNEY

From Paris to New York via Bering Straits.

A Thrilling Tale by Mr. Harry DeWindt - Many Views of Scenes En Route.

Mr. Harry DeWindt, a Fellow of the Royal Geographical Society, and a world-renowned traveller, delivered a lecture in St. Andrew's church lecture hall last night to a large audience. The lecture was entitled "From Paris to New York Overland," and was given under the auspices of the Young Men's Guild of St. Andrew's church, to which body of young men much credit is due for their enterprise in supplying high-class attractions and entertainments of genuine merit. Rev. J. G. Potter occupied the chair, and the lecturer was introduced Rev. J. C. Davidson, who had the honour of a previous acquaintenship.

Mr. DeWindt began his lecture by stating the object of his long journey, which was to ascertain as to the feasibility of a railway from Europe to America, by way of Bering Straits, Alaska and British Columbia, a railway which the lecturer considered feasible, but not commercially practicable. It was a tale in which admiration for a persistence rarely equalled and disgust at the low order of humanity and human comfort revealed strangely fought for supremacy in the mind of the listener. Gold, Mr. DeWindt says, exists in Siberia in large quantities, but a country beyond the tree line, inhabited by Eskimos and abandoned exiles, and under a temperature of at least 50 to 70 degrees below zero most of the time, possesses little attraction as a tourist resort or even as a land route to America.

Mr. DeWindt to the accompaniment of many excellent views, a large number of which were beautifully coloured, the conducted the audience from Paris overland through Europe, Siberia, the Bering Straits, Alaska and the United States to New York. His route lay by rail to Irkutsk, from Moscow to the latter place being by the Trans-Siberian Railway. The next stage of 2,000 miles to Yakutsk was by reindeer sled. The next stage ended at Verkoyausk, which Mr. DeWindt says has the doubtful honour of being the coldest place in the world, with an average winter temperature of 51 degrees below zero. From here he proceeded to the Arctic Ocean, and thence along the coast to East Cape, and across the Bering straits to Alaska, from which the outlet via Dawson City was easy. The journey occupied 248 days, from December 19, 1901, to August 25th last, during which time 18,000 miles were covered. The latter part of the Siberian journey was made amid inconceivable difficulties; reindeer and dogs died in turns; drivers bolted; wood was sometimes undiscoverable; natives when encountered often unfriendly; winter was almost unbearably cold, summer of annoying heat and flies a great trouble; stillness enough to induce insanity, and snow and snow induced blindness, while the habits of the natives were so repulsive as to make their presence tolerable only when life depended on gifts of their seal meat or frozen fish. Yet all this the wiry little Englishman withstood to accomplish his end, and also, as he frankly admitted, partly because to turn back would have offered no better prospect.

At the conclusion of the lecture a hearty vote of thanks and appreciation was tendered to Mr. DeWindt, on motion of Mr. D. W. Dumble, seconded by Mayor Roger. After the singing of the National Anthem the audience dispersed.

NEWS NUGGETS.

—In regard to the downfall last night—it's snow joke.

—The watering cart was out last Saturday and the snow plough was out to-day.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 190.

—The snowfall of last night and the drop in temperature, has revived interest in the coal bin.

—The Chief has a coat that was picked up a day or two ago at the corner of Harvey and McDonel streets

—No. 8 Company of the 57th Regiment, commanded by Lt. A. W. McPherson, will meet on Monday evening to re-continue fitting out.

—Four applications for office assistants have been received at the Business College this week, two from Detroit, one from C.P.R., at North Bay and one from Oshawa.

—The free horticultural lecture last night was abandoned, for on account of the inclemency of the weather and the number of other attractions, the audience was not a very extensive one.

—No. 8 Company of the 57th Regiment, commanded by Lieut. A. W. Pherson, met in the drill shed last night for the purpose of fitting out. No. 7 Company, commanded by Lieut. R. F. McWilliams will meet this evening with the same object in view.

—Read Holmes & Christie's list of reduced prices in groceries for one week. The item, "3 1-2 lbs. cleaned raisins for 25c.", which was printed in their advertissement by mistake yesterday, should have been 3 1-2 lbs. cleaned currants. Now is the time to lay in for your Easter supplies.

—Andrew Stuttaford, late of the city of Toronto, who died on the first of March last, left a will, appointing the Trusts and Guarantee Company, Limited, Toronto, executor. His will has not been probated. The estate is one of considerable value and consists of real estate and personal property.

—The Lindsay Post says: Last year the amount of $147,393 was collected by the customs officials of Peterborough. This the Examiner claims, was more than the combined collections at Lindsay, Belleville, Port Hope and Cobourg. We'll not dispute the assertion. Still, we ship more poultry and pickled eggs to the British market any one day during the season than Peterborough does in a twelve month, and on a nice winter day one of our hotel yards contains more hardwood than can be seen in Peterborough hotel yards in a year.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds, and croup. I have ever used in my family. I have not words to express my confidence in this remedy. — Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

CRESSMAN'S GRAND RE-OPENING DISPLAY.

The Store Again Ready for Patronage.

Has Been Thoroughly Renovated From Top to Bottom.

"Phoenix rising from its ashes," may not be an over-worked metaphor to describe the manner in which Mr. Cressman's store has been completely renovated, both within and without. Barely two months ago, Mr. A. W. Cressman's drygoods and millinery store was the scene, it will be remembered, of a serious, not to say, almost fatal fire, when practically there was nothing left undamaged, either by fire or smoke. Afterwards the store was put into a somewhat rough and ready state for the fire sale, which in the annals of "crowds," will stand in a foremost place. Since that time the larger part of the store has been completely renewed, and a fresh stock of the best millinery and ready-to-wear goods has been obtained from New York, and still continues to come in weekly shipments.

That such a state of affairs should exist in so short a time after the outbreak of the fire, is next to marvellous. This new production is the result of almost ceaseless toil, for passers-by could, at any hour of the day, hear the "ripping" of the saw, the noise of the hammer, and the bustle of the workmen as they worked for the early completion of the store.

THE STORE.

One of the down-stairs departments —the north one—is not as yet completed, but is expected to be within the short space of from a week to ten days, while the southern store is now a department, for the perfection of which money, care and thought have been lavishly expended. The elevator is now in working order, and a trip to the second story is one of really great pleasure and surprise. Up here are the millinery and ready-to-wear clothing departments, which it is Mr. Cressman's boast, and one would easily imagine a very excusable and correct boast, that "these departments are the largest ever opened between Toronto and Ottawa."

Branching off the "ready-to-wear" clothing departments are the dressing rooms for ladies, but these are not as yet completed.

Artistically decorated with mirrors, small drawing tables, on which were placed ferns and flowers, the new store reminded one more of a Parisian drawing room than a millinery department.

Then, behind the scenes, the workmen are fitting out workrooms, larger and more convenient than before. These will be finished in a short time, if the work is pushed ahead as rapidly as heretofore.

Throughout the store is "finished off" in the most luxurious style, and it is a great treat to enter and view the premises, and all are made welcome by a genial staff of assistants, who willingly show people round, the now very elegant and really handsome store.

LATEST IN SPORTING CIRCLES

BASKETBALL.

Albert College, Belleville, defeated the local Y.M.C.A. Harriers, last night in Belleville, to the extent of 21—11. The checking was very close and some pretty baskets were scored by both teams. The boys report having been used "tip-top." The Harriers win the round by one point.

LACROSSE.

The T.A.S. Lacrosse Club met last night, and it was resolved to hold a minstrel show, in the course of a few weeks, for the benefit of the team. Considerable enthusiasm is being shown in the team, and the grounds are being levelled and got into playable condition.

* * * *

Mr. Thomas Buck of Toronto University, a former Lindsayite, and a first class player will be home next week for his holidays, and we understand, will get into the game, says the Lindsay Post. Mr. Walter Resor another star player, has signified his intention of being on the team this year. Besides these we have the following other material who will be in the game: Messrs. Cameron, H. White, P. White, F. Stanton, Mr. Gillespie, N. McWilliams, A. McWilliams, F. Martin, F. Taylor, Geo. Ewart, F. Fobert, W. Baker, J. Davis, Mr. Halward, W. Silver, J. O'Leary, J. Killen and J. Doris.

BASEBALL.

Already about $300 has been subscribed to place the Ponies on a footing in the new Eastern International Baseball league, and by to-morrow the $1,000 will no doubt be reached. It has been figured that the expenses of the Ponies in making the round trip to Montreal, Rutland, Burlington and St. Albans would be $275, or $300 at the most.—Kingston Whig.

FOOTBALL.

The Millbrook Football Club reorganised on Thursday last and have entered a team in the Midland Football Association. The following officers were selected:—

Hon. President—J. L. Fair.
President—D. Hampton.
Vice-President—J. Grey.
Manager—Rev. D. L. Wight.
Captain—N. M. Henry.
Secretary-Treasurer—W. A. Forsyth.
Managing Committee—W. Fisher, F. Gibson, W. McClung, W. Henry and W. Armstrong.

For a bilious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all druggists.

LATE REV. CHARLES ROUX.

Father of Mrs. T. A. S. Hay of Peterborough.

The many friends in Peterborough of Mrs. T. A. S. Hay will regret exceedingly to learn of the death of her father, Rev. Charles Roux, formerly professor of Modern Languages at Bishops College School, Lennoxville, Quebec. At the time of his demise Rev. Mr. Roux was a resident of Saxton's River, Vermont, U.S.A.

The deceased gentleman was a native of France, but came to Canada when a young man, settling in Quebec. He was 78 years of age at the time of his demise, and had been twice married. By his first wife the late reverend gentleman leaves four daughters, of whom Mrs. Hay, of town, is the oldest, and by his second wife he leaves one son and a daughter. It is not known in Peterborough as yet where the remains will be interred. Mrs. Hay left for Saxton's River, Vermont, on Wednesday night.

James Potter Keough, of New York City, will teach in Peterborough, giving a special course in voice culture during spring and early summer. Illustrations for lady pupils by Alice Killin Keough. Apply at studio, 220 Brock street (Mrs. W. J. Hall's) for circulars, terms and appointments.

Piano Tuning.

Any make of piano tuned and repaired by R. A. Shaw, tuner from Heintzman & Co., Toronto. Orders may be left at C. B. Routley's this week. 2eod

BIRTHS.

GRISDALE, — At Peterborough, on Friday, 3rd of April, 1903, to Mr. and Mrs. W. J. Grisdale, a daughter.

DIED.

ROUX.—At Saxton's River, Vermont, U.S., on April 2nd, 1903, Rev. Charles Roux, aged 78 years and 6 months, formerly Professor of Modern Languages at Bishop's College School, Lennoxville, Que., father of Mrs. T. A. S. Hay.

COLLINS.—At Ennismore, on Friday, 3rd of April, 1903, John Collins, aged 86 years.

The funeral will leave the family residence, lot 8, in the 2nd concession of Ennismore, on Sunday, April 5th, at 3 o'clock, p.m., and proceed to St. Martin's church, thence to the Ennismore Cemetery, for interment.

KILLIN-KEOUGH CONCERT COMPANY

Gave a Most Successful Entertainment Last Night.

A Scene From "Faust" was Given in Costume—Miss Agnes Paterson Assisted Members of the Company.

The Killin-Keough Concert Company, of New York City, last night gave an entertainment of more than usual interest to lovers of classical music, and although the weather was most unpropitious, a large audience turned out to greet the performers, in the Y.M.C.A. Hall.

The Company consists of Mrs. Alice Killin-Keough, prima donna soliat; Mr. James Potter Keough, basso, and Miss Maude Brown, pianiste, and were assisted by Miss Agnes Paterson. Miss Maude Brown, in her capacity of accompanaiste, should be especially mentioned. All of those who took part showed the result of excellent training, and, in spite of the somewhat unsuitable auditorium, the various items on the programme left but little to be desired.

The programme opened with a duet by Mr. and Mrs. Keough, which was succeeded by a solo from Mr. Keough, entitled "A Dream." In this the singer received the merited encore of the audience.

Mrs. Killin-Keough then sang from Verdi's popular opera, "La Traviata," which was enthusiastically encored.

Miss Brown most successfully played a valse (chromatique 5th) which in itself was a proof of her skill as a pianiste.

One might mention as a specimen of sweet and nicely shaded singing "The Old Canoe," a duet, which was itself followed by another entitled "Estudiantina." The next two songs, "Four-Leaf Clover" and "An Open Secret," were sung by Mrs. Killin-Keough, with remarkable pathos and consequent success.

Miss Agnes Paterson gave an inimitable recitation entitled "How the Frenchman treated John Bull," and as an amateur, her work bids fair to establish for herself a reputation, enviable by that class of local performers.

What was perhaps one of the best songs of the evening was sung by Mr. Keough, entitled "What the Chimney Sang," the words of which were written by Bret Harte. The success of this song was followed up by another, that of the song entitled "Big Ben," a song of the great bell in the House of Commons, London, England.

The next item was a scene from "Faust," which was given in costume by Mrs. Killin-Keough. The small stage was a novel place for a scene from such a world-famed opera, but the audience was most demonstrative in its approval. The scene given was the one in which Marguerite, returning from church, goes to the bower and spins, singing an old song, which is interrupted with thoughts of Faust, whom she met by the way. She then discovers the bouquet left by Siebel and the casket of jewels left by Mephistopheles on behalf of Faust. She adorns herself with the jewels while singing the aria.

This was followed by a duet from "Don Munio." This work is based upon a legend of the Spanish and Moorish Wars, told by Washington Irving. The scene of the duet was in the castle of Don Munio. He received an order from the sovereign to proceed to battle, and took leave of Donna Maria.

More than passing mention should be given to the work of Mrs. Killin-Keough. To an attractive platform presence she adds the artistic use of a soprano voice of great sweetness and large range; even in the highest register it shows no sign of strain or weakened calibre. She made an especial success of the jewel song from Faust, and her rendering of the Traviata selection was very brilliant, vivid vocal colour being given to the florid passages which mark the Italian school of opera. Her fine voice has evidently been carefully trained and she knows how to use it, and any learning singer would be fortunate in acquiring the secret of her effective method.

The concert, which, as can be easily imagined, was a most classical one, was suitably brought to a close by the singing of "God Save the King."

$1.25 Corsets for 89c at Sutcliffe's To-day

and until sold. Nearly 400 pair of up-to-date Corsets.

THE NEW CHARTER

For the Havelock Electric Light Company.

The charter of the Havelock Electric Light and Power Company, Limited, has arrived from the Government, and the provisional directors, Messrs. Jas. Bryans, Wm. Mathison and Dr. Holdcroft, will call a meeting of the shareholders to elect officers of the company, as soon as the stock books arrive and the shares are issued. Tenders will be asked shortly for the construction of the water wheel and for getting out the poles and other materials.

Y. W. C. A.

The Gospel meeting to-morrow at 4.15 will be led by the secretary. The subject will be "Sitting Still," All young women are invited.

"77" FOR GRIP

At Druggists, 25 cents, or mailed.
Humphreys' Med. Co., Cor. William & John Streets, New York.

GENERALLY SPEAKING

CREDIT where credit is due is fair. We sometimes sharply criticise our city fathers on the head of the condition of our streets, but when we compare them with those of Lindsay we might thank our street authorities on our knees. A gentleman who was in Lindsay last Sunday speaks of that town floundering in a wallow of mud. So serious was the condition of the streets with hub-deep mud that the hotel 'busses were withdrawn and travellers had to find their way to and from the Grand Trunk station as best they might. The country roads were similiarly horrible. Some persons who started to drive from the country into town to church, had to abandon the idea and walk; their horses simply could not drag the buggies through the great depth of glutinous mud. By comparison we have splendid streets in Peterborough. At the same time Lindsay was floundering through streets knee-deep in mud, we were having the use of streets in splendid condition, dray and, even, dusty, with wheels in common and pleasant use.

* * *

CREDIT AGAIN, where credit is due. If Lindsay has much mud, it has compensating good qualities, in some lines of enterprise, which should be an example to Peterborough. While our own Collegiate Institute for effective educational work, and efficiency of staff, is among the best in the country, Lindsay seems to lead the way in, so to speak, affiliated means of stimulating mental vigour, and creating an alma mater esprit de corps. The entertainments, literary and others, in connection with Lindsay's Collegiate Institute have secured a provincial reputation, and Peterborough, through the medium of the Fortnightly Club, is only obtaining a good start. In another way, the Lindsay Institute is showing an enterprise, which is not only a challenge to our Institute, but shames the sporting spirit of the town at large. The Lindsay Collegiate Institute has not only organized a cricket club, but has gone to the expense of importing a professional coach from England. Fas est et ab hoste doceri.

* * *

CREDIT where it is due again. At the Y.M.C.A. convention here a few weeks ago, there was a brisk discussion as to the best means of making Association meetings for men successful. While many plausible theories were suggested, the management of the local Association have shown the way to do it, by doing it. They have succeeded in arranging and effecting a series of remarkably successful "meetings for men." These meetings have been attended by, on an average, of 500 men each Sunday afternoon. They have been made bright and interesting, and have commanded the attendance and attention they merited. They have been successful in point of attendance, and, it is to be hoped, in point of the higher results aimed at, but in this latter sense, the measure of success will only be revealed at the grand audit, when the value of the assets secured from human effort will be rightly appraised. These meetings have been successful through good business management, and efficient and tactful advertising; because good judgment has been used in the choice of speakers, who were attentively and, it is hoped, fruitfully listened to, because they had a message for men, telling of something that men felt the need of. The success of these meetings is creditable to the industry, tact, energy and industry of the General Secretary and his assistants, whether stipendiary, volunteer or directorate. Their success is also creditable to the men of the town, who have shown in an age of material aspirations and fleeting enjoyment, that they appreciate the importance of moving upon a higher moral plane and of a higher standard of living, of a higher good than mere material betterment—that food and raiment and the satisfaction of sensual needs, though proper in themselves, have a moral and spiritual complament necessary to the constitution of noble manhood and good citizenship.

* * *

SPEAKING of advertising, it may be stated that advertising is a fine art—the two principal media being in this town, especially, the press and the pulpit. The press is the legitimate medium and the pulpit the—other. It is the function of the press to teach and advertise. It is the function of the pulpit to teach and preach the gospel. Apart from other considerations, the success of a church service depends upon the extent to which the devotional attention of the congregation can be concentrated. Anything that breaks or interrupts the devotional spirit is obviously undesirable. A local minister was heard to deplore the distracting effect of an anthem, more spirited than spiritual, following a very solemn discourse—it tended to destroy the impressions of his sermon. What, then, must be the distracting influence of a dreary catalogue of "announcements" interjected twice every Sunday into the most solemn services—meetings of Ladies' Aid Societies, Sewing Circles, Young Men's Guilds, Girls' Guilds, "Tea fights," lectures, etc., ad infinitum, to be held morning, noon or night, details which pass out of the mind as fast as read, and interrupt devotional spirit; or what is to some equally serious, the critical survey of the rig of a neighbour's bonnet? This is from the point of view of the pew and not the pulpit. These voluminous announcements from the pulpit may be necessary. But would they be required if the persons to whom they are supposed to appeal, took enough interest in the church activities they represent to remember the dates of meetings; if their interest does not extend this far, then participation in the meetings themselves cannot be expected to be of the greatest value.

* * *

GREAT BODIES move slowly. By this standard our civic body is great. The deliberation in respect of very important matters is unfortunate. The proposed conference on sanitary matters between the Council and the Board of Health, which cannot come any too soon, will, it is to be hoped, result in something. As yet nothing has been done, so far as made public, regarding a proper plumbing bylaw, something, when considered in relation to the public health and consequent prosperity of the town, more important than radial railways or street lighting, important as these things are. We can worry along in a slow sort of a way, without these things, but unless the conditions affecting the public health are of the best possible, we can never have the best prosperity, nor hope to attract population and develop the growth our natural facilities make possible. The capitalists concerned will compel the authorities to action, but what will force the authorities to definite action in regard to the health problem? The epidemic of last winter brought a little spasmodic spurt of interest, but its effect seems to have passed away.

* * *

ANOTHER THING demanding the attention of the Council is the necessity of providing a proper supervision of electric wiring of houses. As in all other things, there is a right and a wrong way to do this, and we should have the right way established at once by civic statute. There is every reason to believe that defective wiring of houses has led to fires, of otherwise mysterious origin. In cities provision is made for expert inspection before a wiring job is covered. No good and honest workman, who uses right methods and good material need object to a rigid inspection; it is only slop work, and cheap material that need fear the light. If there is a recognized and proper way to secure safe wiring it is the duty of our Aldermen to see that that way is employed. A proper bylaw and strict inspection is a way and no time should be lost. An addition of a few cents to the insurance rate spread over the town is equivalent to a large increase of taxation.

* * *

LACK OF INTEREST is a deadly influence upon civic activities as upon all other activities. We take a perfunctionary interest in most momentous matters, which is too often crowded out by some triviality. A few persons take an interest in beautifying the town with trees and flowers, but they are met with a dead weight of public apathy. Some members of the Horticultural Society secured the presence of Mr. Race to give two addresses on the importance of beautifying our homes. One address to school children was given at four o'clock. The Sons of England Hall was crowded with children, so uncomfortably crowded, that the best of order was not observed. We have forty or fifty public school teachers but of all these only one was present to maintain order or to show the children that they had any interest in the important subject which effects the beauty of our town. And here is the crux of the difficulty of creating a general and healthy public sentiment in regard to improving and making Poterborough attractive. Beginning in the home and extending to the teachers, the children find that development of their finer instincts is not encouraged. In the school there is reason to fear there is too much apathetic contentment with the dull routine of the study table. Little heads are so crammed with abstract knowledge that there is no room for expansion of mind, no time to cultivate higher ideals, no time for education in its wider and higher sense. In this material age the instinctive love for the beautiful, born at the bottom of every little soul, is too much overlaid with a sordid mass of purely material drift. Lands and stocks, trade and gain-getting are not all of life—are not "the be all and the end all here." This idea must be ingrained from childhood, if we wish the rising generation to be one with higher ideals and a greater regard for higher standards of action. The more beautiful we can make our town the more attractive it will be, and in this sense beauty has a business value.

AN OPEN LETTER TO MOTHERS.

We are permitted to make public the following letter, which is a fair sample of hundreds written by mothers throughout Canada praising Baby's Own Tablets:

Dunbar, Ont., March 18, 1903.

Several weeks ago my baby was very cross and ill owing to troubles common to children when teething. A correspondent highly recommended Baby's Own Tablets, saying she would use no other medicine for her baby. I sent for a box, used them according to directions and must say that I have found them the best medicine for a teething child I have ever tried. One Tablet every other day keeps my baby well and I am sure of my rest at night. I echo the words of my friend and say "they are just splendid."

Mrs. Charles Willard.

Baby's Own Tablets will cure all the minor ailments of children, and may be given with absolute safety to even a new born baby. These Tablets are the only medicine for children sold under an absolute guarantee to contain no opiate or harmful drug. Sold by druggists or sent by mail post paid at 25 cents a box by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

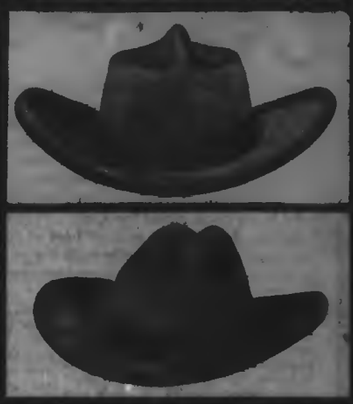
AT LECH'S

JUST WHAT YOU WANT.

THAT EASTER HAT

"The best Hat Values are at Lech's." We borrow that phrase from customers, who know the merit of our offerings.

In Lech's Hats there are not only style, but first-rate quality. The new shapes are becoming to the average young man. Nobbiest English and American Spring Blocks, wide, medium or narrow brims, mediums or high crowns.



WM. LECH & SONS
Oldest Established and Leading Fur Manufacturers, 443 George Street.

THE CHURCHES.

ALL SAINTS' CHURCH.

Holy Communion at 8.30 a.m., Sunday. The fifth and last of the series of sermons on "The Prodigal and his Brother" will be preached to-morrow evening, the subject being "The Brother, a Prodigal of the Church." Rev. W. L. Armitage will preach at both services. Bible Class and Sunday School at 3 p.m.

MURRAY STREET BAPTIST.

Rev. J. Bastow will preach at both services. In the morning he will speak on "The Church Covenant," and in the evening on "Spiritual Freedom." In the morning a large number of new members will receive the hand of fellowship, and the Lord's Supper will be administered. The public are cordially invited.

GEORGE STREET METHODIST.

Rev. D. O. Crossley, of Bowmanville, will preach in the George street Methodist church to-morrow. Mr. Crossley was pastor of Charlotte street Methodist church for five years, and all who possibly can, should take this opportunity of hearing him again. Rev. Mr. Wilson, of George street church, will preach Educational Sermons in Bowmanville.

ST. LUKE'S CHURCH.

The Holy Communion will be administered to-morrow at the 11 a.m. service. The rector will preach in the morning on, "Christ, the Comforter of them that Mourn," and in the evening on "Worldliness."

ST. ANDREW'S CHURCH.

The morning service in St. Andrew's to-morrow will be of a memorial character. Mr. Potter will speak on "Lessons from the Life of Frank A. Walden — A Message to Clerks." Phil. 1; 21. At the evening service the subject will be "The Best Easter Furnishings." The choir will sing the anthem "I Lay My Sins on Jesus," Miss Florence Miller taking the solo. Mr. Morgan, late of Broadway Tabernacle choir, Toronto, will also sing. Strangers very cordially invited. Seats are all free.

The Junior Guild of St. Andrew's church met last night and arranged for their annual concert to be held on Thursday, April 23rd, in St. Andrew's Lecture Hall. The services of Owen A. Smiley, humourist, have been secured. Mr. Smiley has promised to give the Junior Guild two hours entertainment.

CHARLOTTE STREET CHURCH.

To-morrow morning there will be a reception service, followed by the Sacrament of the Lord's Supper. In the evening the Rev. Mr. Jolliffe will deliver his second special sermon, subject—"Is Future Punishment in Harmony with the Mercy of God?" All are welcome.

ST. JOHN'S CHURCH.

The apostolic rite of confirmation will be conducted in St. John's church on Thursday, June 25th. Classes in preparation for the service will be commenced after Easter.

Holy Communion will not be administered at St. John's church to-morrow at 11 a.m., owing to the following Sunday being Easter Sunday.

Catarrh

After the Grippe frequently comes Catarrh, and after Catarrh, Consumption. You can prevent each and every one of these maladies by the judicious use of Powley's Liquified Ozone. You can cure them with the same infallible remedy. By destroying the germs to which Catarrh is due, Ozone quickly and permanently eradicates every trace of the disease. The following extracts taken from letters written by persons, who have been cured by Ozone, prove what it has done for others. It does not matter how chronic your case may have become, it will do equally well for you:

W. A. MOODY,
Fairbank P.O., Ont., writes: "I am pleased to say I found Powley's Liquified Ozone all you claim for it. It cured my Catarrh and also built up my general health. I took two advertised remedies before trying Ozone, but they did me no good."

WALTER D. KEW,
23 Maplewood Avenue, Toronto, writes: "My employer, John H. Palin, 196 Davenport Road, advised me to use Powley's Liquified Ozone for Catarrh, as it had cured his son. I did so with the most satisfactory results, as I am now entirely well. My father also used it with equally good results in a bad case of stomach trouble."

MISS CORA REID,
46 Borden St., Toronto, writes: "After suffering from Catarrh for five years, during which time I tried many advertised remedies without results, I commenced to use Powley's Liquified Ozone. I have used several bottles, and am now in better health than I have been in years."

A. J. FORGUE,
St. Constant, La Prairie, Quebec, writes: "For fifteen years I suffered from Catarrh. Two years ago the discharge from my head tainted my lungs, which became very weak. I was treated in the hospital and by our family physician, besides taking several advertised remedies sent from the States; but did not receive any benefit. I finally tried Powley's Liquified Ozone. The first bottle helped me wonderfully, and after taking three more bottles my appetite had become excellent, there was no vomiting, my lungs were strong and the Catarrh had entirely disappeared."

M. F. JOHNSON,
postman, 396 Rivard Street, Montreal, writes: "I had Catarrh of the head and stomach for eight or nine years, during which time I tried all kinds of Catarrh remedies, snuffs, washes and Sarsaparillas, but they gave me only temporary relief. Finally tried Powley's Liquified Ozone. Before the first bottle was half used I found it was doing me good, and continued to get better until I had used seven bottles, when I was entirely cured, with not a trace of the disease left."

JAMES A. PATTERSON,
20 Main Street, St. John, N.B., writes: "I have used three bottles of Powley's Liquified Ozone for Catarrh, and have been wonderfully benefited."

JAMES L. SCHOTT,
27 Voyer Street, Montreal, writes: "I have been afflicted with Catarrh for the last thirty years, during which time my entire system had become impregnated with it. I tried every remedy I could hear of but without success. Finally I decided to try Powley's Liquified Ozone. I have now used six bottles. It has stopped the bad odor that arises from Catarrh. I have no headaches or pains, and I am better than I have been in years. To those afflicted I cannot recommend Ozone too highly."

V. BESSEY,
43 Elgin Street, Hamilton, writes: "I suffered from Catarrh for four or five years, and was annoyed by a constant dropping in my throat to such an extent that I could scarcely get to sleep. In the morning I would feel as tired and sleepy as when I went to bed. I tried different snuffs and patent medicines, but got no relief until a friend of mine told me he was positive that Powley's Liquified Ozone would cure my Catarrh. I bought a bottle and before I had used it found it was helping me. I have now taken six bottles. I can go to bed and sleep. The dropping in my throat has ceased entirely, and when I wake in the morning I feel as if my sleep had done me good and I am ready for my breakfast. I strongly recommend Ozone to anyone troubled with Catarrh."

FREE We have a new laxative touse in connection with Powley's Liquified Ozone, in cases where a laxative is necessary. We believe it to be as nearly perfect as it is possible for a laxative to be. In order that our customers may more speedily become acquainted with the merits of this remedy we will send a regular 25 cent box free of charge to any customer who will cut out the accompanying coupon and mail it to us.

This Coupon is worth 25 cents.

I am afflicted with

Name of Disease.

and have decided to give Powley's Liquified Ozone a trial. Kindly mail me, free of charge, a full 25 cent box of Powley's Laxatives to use in connection with Powley's Liquified Ozone.

THE BRIBERY CHARGES.

Court Will Convene in Toronto and Adjourn Till Tuesday Next.

Toronto, April 3.—To-day Chief Justice Falconbridge and Sir John Boyd will begin the investigation into the Gamey bribery charge. The hour for the opening of the sitting is 11 o'clock. Counsel for the accuser and accused will ask for subpoenas for witnesses required. There will be a large number called, just how many could not be learned last night. The investigation will be conducted in the Non-Jury court room at the City Hall.

After the preliminaries are arranged to-day it is probable there will be an adjournment until Tuesday, when the taking of evidence will be begun.

Gamey Evidence Printed Daily.

Toronto, April 3.—An effort is being made by the Government to arrange with the King's Printer that the evidence taken in the Gamey inquiry may not only be transcribed daily, but also set up in type and printed, so as to be in the hands of the Judges and counsel each morning for the previous day.

Liberal Candidate in Russell.

Metcalfe, April 3.—At the Liberal convention for the County of Russell, held yesterday, Dr. Wallace of Metcalfe was selected as their candidate to fill the vacancy caused by Mr. Edwards being appointed Senator.

How to Ward off an Attack of Rheumatism.

"For years, when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Jamie Macdonald, of Man, Logan County, West Virginia. "I tried everything with no relief, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment. For sale by all druggists.

LAND BLUEJACKETS.

Fifty U. S. Sailors Will Protect Consulate at Santo Domingo.

PIERCE THREE HOURS' BATTLE

Russia Sends Bulgaria a Peremptory Notification to Beware of Interference With the Powers' Reforms—With Turkish Sultan to Have Opportunity to Carry Them Out—First Fight in Somaliland.

Cape Haytien, Hayti, April 3.—The situation in Santo Domingo City is very critical. The commander of the United States cruiser Atlanta, which has arrived at Santo Domingo from this port, Wednesday landed a detachment of 50 blue jackets to guard the United States Consulate General in that city. A shell fired last night by the Dominican cruiser Presidente, which is on the side of President Vasquez, fell on the German Consulate. The damage done, however, was purely material, as the projectile happily did not burst. A battle lasting three hours took place yesterday morning between the Government troops and the revolutionists on the banks of the River Ozama, which flows into the Caribbean at Santo Domingo. A hundred men were killed or wounded. President Vasquez demanded the surrender of Santo Domingo City, but the revolutionists are disposed to resist up to the last moment.

RUSSIA IN BULGARIA.

Czar's Government Sends the Little Power Stiff Notification.

Paris, April 3. — An official despatch announces that Russia has given Bulgaria a definite and emphatic notification that in case the resistance of the Bulgarian settlers in Turkey to the Sultan's reforms brings on a Turkish-Bulgarian conflict Bulgaria must not count on any support, moral or material, from Russia. This is considered to be further evidence of the purpose of the powers not to interfere with the Sultan's plans, so long as he is carrying out in good faith the powers' project for reforms.

Albanian Shot Russian Consul.

Constantinople, April 3.—Details of the attack on M. Stcherbina, Russian Consul at Mitrovitza, show that it was made by an Albanian soldier, a relative of whom had been killed in the fighting at Mitrovitza. The Consul, who was accompanied by a Turkish escort, was on his way to inspect the batteries which finally repulsed the Albanians who attacked Mitrovitza, when a sentry at the powder magazine deliberately shot M. Stcherbina in the back. The bullet traversed the renal region and inflicted a serious wound. The sentry also fired at the Consular Kavass (military courier), but missed him. The other soldiers of the guard then hurried up and shot the Albanian sentinel, inflicting mortal wounds.

SENATOR VILLARI'S FORECAST.

Declares U.S. and Russia May Necessitate European Union.

Rome, April 3.—Senator Villari, in an address delivered yesterday before King Victor Emmanuel and Queen Helena at the opening of the International Historical Congress, said Europe is shut in between two great, powerful countries, Russia on the east and the United States on the west. The latter, from a population of 30,000,000, has risen to 80,000,000, and no one knows what number its population will eventually reach. These two forces, acting on Europe, are likely, he said, to render necessary a union of the different European countries, which may completely change the geographical situation to the universal advantage of Europe. He added that the twentieth century will, perhaps, see the solution of many problems.

FIGHTING IN SOMALILAND.

British Kill Many and Have Themselves No Casualties.

Aden, Arabia, April 3.—The first fight of any importance in the recent operations in Somaliland, East Africa, occurred March 20, when a British column encountered a force of Somalis south of Damot. The natives made an obstinate resistance and lost 27 men killed and many wounded before they retired. There were no casualties on the side of the British. During the "driving operations" recently the British killed 40 of the Mad Mullah's followers and captured 1,400 camels.

DO YOU KNOW

That it's no use Eating Unless You Digest Your Food—That if Your Stomach Won't Digest it Dodd's Dyspepsia Tablets Will.

Do you know that the stomach is the seat of health as well as the root of disease? Do you know that if the stomach is out of order the whole body is affected, is unable to do its regular work, is unable to resist any disease that may be floating around, and is all the time working toward disease on its own account?

This is only natural. The man who can't get food for his stomach grows weak and ill. If the stomach is not in shape to pass the food along to the various parts of the body, the food might just as well never be eaten. That's why dyspeptics are worn out and dispirited. They are just like people who have been starved for a time.

Dodd's Dyspepsia Tablets are made just to fit such cases. They digest the food themselves, and thus while the body receives its natural nourishment and thrives, the resting stomach gradually recovers its natural powers. That's why Dodd's Dyspepsia Tablets cure as well as relieve. That's why Ademard Coderre, of St. Jasques de L'achigan, Quebec, is able to say:

"I certify to having suffered two years with Dyspepsia, caused by inflammation of the stomach. I took three medicines without relief. I became discouraged, until one day seeing an account of cures performed by Dodd's Dyspepsia Tablets I bought two boxes. By the time I had finished taking them I was completely cured, and I have stayed cured ever since."

BEECHAM'S PILLS

CURE BILIOUS and NERVOUS DISORDERS, CONSTIPATION, SICK HEADACHE, INDIGESTION, DYSPEPSIA, And all STOMACHIC TROUBLES.

BEECHAM'S PILLS

REMOVE WIND and PAINS in the STOMACH, AROUSE SLUGGISH and TORPID LIVERS, ENSURE PROPER ASSIMILATION of FOOD, STRENGTHEN THE STOMACH.

Rich, delicious and ornamental; your guests will be our best patrons when they take home a box to sleep on.
Our layer cakes, fancy and fruit cakes are the acme of deliciousness. For weddings, parties and receptions we furnish you at moderate prices.

LONG BROS. TWO STORES—Nos. 356 and 514 George St

ODD RUSSIAN CUSTOM.

An Annual Assembly For the Promotion of Matrimony.

In compliance with an ancient Russian custom all the young men and women of the mercantile class in St. Petersburg assemble on Whitmonday, the former to stare and the latter to be stared at. The young girls, dressed as richly as their means will allow, are arranged in long rows by the sides of the flower beds in the summer garden, with their mammas standing behind them. The wardrobes of their mothers and grandmothers are laid under contribution, and everything bright and gaudy is carefully brought forward to enrich the drapery, the headdress or the girdle.

Some of the young ladies are so covered with gold and jewelry on these occasions that their natural charms are altogether concealed; indeed the ludicrous excess to which this sort of decoration is sometimes carried goes beyond what has ever been attempted elsewhere. Thus bedizened the blushing damsels are drawn up in mute rows, while the papas, in flowing caftans and curling beards, parade their sons up and down. Here and there the papas and mammas try to lead the young folks into conversation with one another, in the course of which certain little looks and emotions may arise, pregnant with future circumstances. Eight days or so after this bridal exhibition private family meetings take place, at which those whose hearts are captivated at the grand show are more formally affianced to one another by their parents and relatives.—"Sketches of St. Petersburg."

Kindergarten and Citizenship.

The kindergarten offers a special advantage—namely, the opportunity for practice of citizenship before real civic duties present themselves. Theory is a necessary preliminary to performance, even when the doer is not sufficiently enlightened in his work to be aware that he holds a theory. But practice is the test of theory. Right here in the kindergarten our six-year-olds are unconsciously testing theories of life through problems which will arise, willy nilly, even in a child's life, as soon as that child begins to come in contact with other children. The children solve these problems for themselves. But the wise eye is upon them, the suggestive word awaits their need, the helping hand adjusts conditions and provides the material for the children to act against. The master mind of the kindergarten—for such it ought to be—permits mistakes, it is true, but at the same time it prevents the fumbling apprentice from the discouragement of the unnecessary stumble.

Too Stingy.

Casey—Av all the close fisted ould misers that iver Oi see Dolan's the worst.

Cassidy—Oh, 'tis the family trait wid him.

Casey—The family trait? Nonsense! Shure, he'd niver trait wan man, let alone a family.

Vacancy Yawns For Him.

"Why don't you have a sponge to moisten your stamps?" queried the man from across the street who had dropped in to use the lawyer's telephone.

"Good idea," answered the disciple of Blackstone. "Do you want the job?"

There Was a Difference.

Sockson Buskin—How did you like my Hamlet?

Olde Stager—Oh, it was your Hamlet, was it? Well, I did not recognize it as Shakespeare's.—Brooklyn Life.

Echoes of Argument.

Dick—Do you ever get the last word with your wife?

Charles—Oh, yes, but I have to say it to myself when I get out on the street.—Detroit Free Press.

THE TARIFF ISSUE.

U. S. Senator Lodge Discusses Canada's Attitude.

RESPONSIBLE FOR FAILURES.

Futility of Former Negotiations Because We Would Not Do Just What the Other Nation Wanted Us to—Canada's Desire For British Preference Stands in the Way of Successful Endeavor.

Boston, Mass., April 3.—Following is an abstract of the speech of United States Senator Lodge of Massachusetts at the Home Market Club banquet at Boston last night:

"A phase of the tariff question is Canadian reciprocity. A statement of facts will show that the Republican party and Republican parties alone have done all that has been done to bring about Canadian reciprocity, and that the failure of negotiations since 1888 has in every instance been due to the attitude of Canada.

"I hope that the commission which is to meet again to consider our differences with Canada will be able to make a reciprocity arrangement beneficial to both countries, but I do not propose to mislead anybody by painting bright visions of the prosperity which is to pour in upon us under such a treaty.

"I was told this winter by a leading member of the Canadian Parliament that Canada would never make a reduction on manufactured products, for she desired to continue her preference to England, that all Canada wanted was reciprocity in natural products.

"In the Hay-Bond treaty the price which we pay to Newfoundland for the concessions which she is supposed to make to us is at the expense of a single industry. If we should get the entire value of all the Newfoundland imports it would not much more than cover the value of the fisheries of Gloucester, Mass., alone, and the value of the product of the fishermen of the United States is $46,000,000. We want to think carefully before we endanger an industry whose annual product is $46,000,000 in seeking a market where we now sell only $2,000,000, and to which this treaty opens no additional door."

The Monroe Doctrine.

Chicago, April 3.—Six thousand persons gave enthusiastic greeting to President Roosevelt when he stepped upon the stage of the Auditorium last night. The President spoke at length upon the position of the United States on the continent of America, the Monroe Doctrine, and the policy of the United States in the matter of the Panama Canal. The Monroe Doctrine, he said, has become accepted as the cardinal feature of the United States' foreign policy.

Pneumonia More Fatal Than Smallpox.

Statistics Show a Rapid Increase of Deaths from Pneumonia — Prevention and Cure Found in

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE.

Ten times as many people die of pneumonia as of smallpox and yet the fear of smallpox is so great that many people almost forget that there is such a disease as pneumonia.

Health authorities are spending hundreds of thousands of dollars to stamp out smallpox and ignore the conditions that cause pneumonia. Damp, unventilated houses, dirty alleys and streets, stagnant pools of water, insufficient food and clothing—all these things cause pneumonia.

Any one who is in a weak and run down condition and contracts a cold is liable to have pneumonia, and, therefore, the object of every person should be to keep their health at high water mark by the use of such a blood builder and nerve restorative as Dr. Chase's Nerve Food.

Should you find yourself the victim of a cold that has fastened itself on the bronchial tubes causing difficult breathing, pain in the chest or lungs when coughing or other indications of approaching pneumonia, there is no preparation that will help you so promptly as Dr. Chase's Syrup of Linseed and Turpentine.

No off-hand prescription from a doctor, hastily written and hastily compounded in a drug store, can be compared to this great treatment which has so firmly established itself in the homes of this land.

Dr. Chase's Syrup of Linseed and Turpentine is mother's favourite remedy for croup, bronchitis, whooping cough, coughs and colds, and is wonderfully effective in relieving and curing asthma. Twenty-five cents a bottle, at all dealers, or Edmanson, Bates & Co., Toronto. 9

OIL IS KING,

and will make you money if you buy stocks that are paying dividends. Stirling Oil can be bought to-day for 10 cents a share paying 5 p. c. dividend every two months which is 30 per cent per year on your money invested. Buy some of this stock at once.

$10 buys 100 shares.
$50 buys 500 shares.
$100 buys 1,000 shares.
$500 buys 5,000 shares.
$1,000 buys 10,000 shares.

This company has two wells producing 1,000 bbls. per day, and are drilling more Buy if you want to make money.

Which leave the Grocer a larger profit than

"SALADA"

Ceylon Tea, but for marked value and delicious flavour it has no rival. Sold only in lead packets. 25c, 30c, 40c, 50c and 60c. per lb. Black, Mixed or Green. By all grocers.

Tommy's Quick Answer.

"Tommy," said an uncle to his precocious nephew, "your mother tells me she has to give you pennies to be good. Do you think that is all things should be?"

"Of course it is," replied Tommy. "You certainly don't want me to grow up and be good for nothing, do you, uncle?"

Quite Fabulous.

"That foreign gentleman is said to have fabulous wealth."

"That's what it is," answered Mr. Cumrox; "fabulous wealth. I don't believe $50 of it is genuine."

KILL OR CURE

Killing the nerve doesn't cure the toothache; it merely stops the pain by destroying vitality.
The pain can also be stopped by morphine.
Cathartics do not cure Constipation—they give temporary relief—but they weaken the bowels and usually make the trouble worse.

What DOES Cure is a Gentle Laxative of a Tonic Character

DAMAGED BY A LANDSLIDE.

Washington Street, Roseland, B.C., Viaduct Destroyed—Freight Train Derailed—Within 100 Yards of City's Centre.

Roseland, B. C., April 3.—A serious landslip occurred Wednesday within a hundred yards of the business centre of the city. A section of Leroi avenue, west of the intersection of Washington street and overlooking the C. P. tracks, slid some feet, blocking railroad tracks and damaging Washington street viaduct hopelessly. The first slip took place at 3 o'clock in the morning and a freight train passing soon after was derailed. At noon another slip took place and further trouble is expected. The viaduct will require rebuilding. No residences were injured. The excessive stoppage of surface water caused the trouble.

THE ELECTRIC FLUID.

Barn With Twenty-Five Cattle and Four Horses Burned.

Elora, April 3.—A violent thunderstorm passed over this section early yesterday morning. A large barn, a short distance from here, owned by Mr. William Ewing, was struck by lightning about 2 o'clock and was burned to the ground with all the contents, which, besides, included twenty-five fat cattle just ready for shipping to the English market and four horses. Mr. Ewing's loss will not be less than $5,000. Insurance $2,000 on building.

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is

TWO BURNED TO DEATH.

A Little Girl's Brave But Unsuccessful Attempt to Rescue a Helpless Old Man From Death by Fire.

New York City, April 4. — Two lives were lost and several persons hurt in a fire yesterday in a six-story Henry street tenement house. Firemen found a dead body on the top floor so terribly burned that they could not tell whether it was a man or woman, but later it was identified as that of Harris Rothstein, 84 years of age. The body of a woman was also found. Twenty-four families were in the building, and one woman, 60 years of age, jumped from the second story. A fireman attempted to break her fall, but her legs were broken and she was badly injured. A fireman was also severely hurt while carrying a woman and child down a ladder.

Heroic Child's Ordeal.

A fatal fire, attended with similar scenes, occurred on Livingston street last night. The property loss was $8,000. When the cry of fire was heard there was only a 14-year-old girl and the invalid man on the third floor. The little girl dragged the old man, her cousin, up three flights of stairs, and was attempting to get him up the ladder leading to the roof when, scorched by flames, and choking with smoke, she was forced to abandon him. Men and women passing on their way to safety took no notice of their appeal for help.

Miners' Lives Threatened.

Wilkes-Barre, Pa., April 4.—An explosion of gas occurred yesterday afternoon in No. 5 mine of the Lehigh and Wilkes-Barre Coal Company, situated in this city. As soon as the news was circulated the greatest excitement prevailed, for this mine is one of the most gaseous in the Wyoming Valley.

Officials near by who had heard of the explosion hurried to the spot, and at once began to muster all the volunteers they could obtain. Later they went to the assistance of the men working in the mine when the explosion occurred. When they reached the foot of the shaft they made their way to that portion where the men were supposed to be. They were met by some of the mine bosses and informed that there had been an explosion in the No. 3 slope, in the third east gangway of the mine.

An investigation began at once, and it was found that the explosion was caused by a naked light, carried by a miner, igniting a body of gas, and the only damage done was the blowing down of several doors and mine brattice. There were, however, 100 men working in that portion of the mine, and for a time it was feared they were lost. The rescuing parties soon found them all, and none were burned or in any way injured.

Rock Wrecks a C.V.R. Train.

Northfield, Vt., April 4.—A mass of rock which has fallen upon the tracks of the Central Vermont Railroad, one mile south of Northfield, caused the wreck of the northbound express running from Boston to Montreal yesterday. The locomotive and three cars plunged over an embankment 40 feet high. Only one person, Fireman O'Neil of Northfield, was killed. All on board the train were violently shaken, but none of the train hands or passengers were injured, beyond a few slight bruises.

Man Cut in Two.

Gloversville, N.Y., April 4.—Emerson Hill, aged 25, an engineer, was instantly killed at his father's saw mill in Caroga, near here, yesterday. He was adjusting a belt on an engine when he slipped and fell on a saw, which cut his body in two and severed both legs.

Five Men Lost.

New London, Conn., April 4.—The barge Fitzpatrick sank off Long Island Thursday night. The boiler exploded as she went down and five men were lost. The wreck was reported by a tug which put in here yesterday afternoon.

Eight Men Killed and Fourteen Entombed.

Gleiwitz, Prussia, April 4.—Eight men are known to have been killed and fourteen entombed as the result of an explosion of gas Thursday in the Koenigin Luise mine at Ostfield.

Barn Struck by Lightning.

Bothwell, April 3.—During the electric storm which prevailed in this section for about an hour yesterday, the barn of Mr. John Stuart was struck by lightning and entirely destroyed, together with the contents; loss $1,800.

THE AX of toughest steel becomes dulled by constant use and must have a new edge if it is to do good work. Constant work dulls a man as it does an ax, makes him sluggish of body and dull of mind. He needs a tonic, something that will restore the keenness of mind and activity of body.

Dr. Pierce's Golden Medical Discovery puts new life into weak, worn-out, run-down men and women. It strengthens the weak stomach, purifies the blood, and effectively stimulates the liver. The whole body is built up with sound, solid flesh by the use of "Golden Medical Discovery."

"I was confined to my bed for four months from January 1st, 1899, and commenced to take your medicine January 25th, 1899," writes Mrs. Sallie L. Shepard, of Poplarbluff, Mo. "I took eight bottles of Dr. Pierce's Golden Medical Discovery, four of 'Favorite Prescription,' two vials of 'Pleasant Pellets,' and one bottle of Doctor Pierce's Compound Extract of Smart-Weed, as a liniment. Indigestion, chronic constipation, and hardening of the liver was my trouble. I am at this time able to do almost any kind of house work. Your medicine saved me from my grave. Thanks to you for the benefit. My case was hopeless when I began taking your medicine."

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery," is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Biliousness is caused by the use of Dr. Pierce's Pleasant Pellets.

Burdock Blood Bitters

Has No Rival as a

Spring Medicine

It has been used by thousands **FOR OVER A QUARTER OF A CENTURY** and has never failed to give the utmost satisfactioon. At this time of the year when spring is approaching, you feel dull, tired, listless, and have that all-gone, no-ambition feeling----After the hard work of the winter, the eating of rich and heavy foods, so necessary to give the body warmth during the cold weather, the system becomes clogged up with waste and poisonous matter, and the blood becomes thick and sluggish. The cleansing, blood-purifying action of **B. B. B.** eliminates all the pent up poison from the system and makes it

Burdock Blood Bitters

WITHOUT EXCEPTION

The Best Spring Medicine.

KNOWS CANADA.

Mr. W. L. Griffith, the New Secretary to Canadian High Commissioner, Lord Strathcona, in London.

In Mr. W. L. Griffith, the newly-appointed Secretary to the Canadian High Commissioner in London, this country will have at what is really her Consulate in the metropolis, a gentleman who knows Canada better than do most Canadians, says The News, Toronto. Mr. J. G. Colmer, who has retired, was a painstaking and courteous official, but his visits to this country had been few and short. His successor was for five or six years a farmer in Southern Manitoba, near Morris, and there he laid the foundations of a comfortable fortune. During his incumbency of the position of Canadian Government agent at Cardiff he had one stock statement that must have greatly impressed the Welshmen who thought of coming to Canada to take up land. "When I went to Manitoba," Mr. Griffith would say, "I paid three dollars an acre for my farm. When I sold it, I was paid twenty dollars an acre." Many an immigrant finally decided to come here when he heard that concrete example of the chances which Canada gives the industrious immigrant.

Mr. Griffith has seen a great deal of the world, for he is not a man to be content to remain long in one place. He likes to have headquarters, but he also likes travel. Last year when the members of the unsuccessful Welsh colony in the Argentine Republic were brought to Canada, it was Mr. Griffith who convoyed them to their new home in the great West.

In 1899 Mr. Griffith came to Canada in company with D. Lloyd George, M. P., and Mr. T. Rees, the latter steward of one of the largest landed estates in the principality. The two envoys had been invited to Canada by the Minister of the Interior, with a view to their inducing Welsh emigration to the Canadian West. In company with Mr. Griffith and Mr. W. J. White, of the Department of Interior, they visited several sections of the great prairie land, but while both Mr. Griffith and Mr. Rees were much taken with several proposed sites for a colony, Mr. David Lloyd-George turned out to be a pretty hard man for the Minister to deal with. He is a fiery Welsh Radical, one of the fiercest fighters in the House of Commons, as Mr. Chamberlain and Mr. Balfour well know. Usually completely influenced by his prepossessions, Lloyd-George is not the man to allow mere argument or even proof of the incorrectness of his judgment to convince him that he is wrong.

One of the fixed ideas that he brought to Canada was that the only satisfactory way in which a Welsh colony could be established was to have it as completely as possible segregated from the other dwellers in the country. Lloyd-George would be by no means satisfied to have the colony Welsh in name only; it must be Welsh in truth. Welsh must be its only language, save, perhaps, when some outlander should enter within its borders. And its customs could not be other than Welsh. To us Canadians, accustomed as we are to the successful assimilation of Icelanders, Germans and Scandinavians, not to mention the other folk whom we are now digesting, this talk of Lloyd-George seems naught but arrant nonsense, and arrant nonsense it was. The trouble was that the rather cock-sure Welshman believed it to be common-sense of the most pellucid kind.

When Mr. Sifton told him he could not and would not guarantee that English-speaking settlers would keep away from the borders of the Welsh reservation, Lloyd-George ceased to take any interest in the project. Mr. Sifton pointed out that it would be impossible to have the Welsh colony cut off from the outside world by a sort of natural belt of unsettled land—our good prairie soil, as the Minister remarked, is too valuable for that sort of waste. Mr. Griffith saw eye-to-eye with the Minister, but the Welsh M.P. was obdurate. He could not have his own way; so he had no way at all.

That colony never came, but, thanks to the efforts of Mr. Griffith, some hundreds of Welsh have entered Canada since 1899. It is said, and, judging from his record, it is probably true, that nothing can keep Lloyd-George out of the next Liberal Cabinet when the time shall have arrived to form one. He may make a good Minister, but, from the point of view of the ordinary subordinate civil servant, there are several other men on earth who would make more desirable heads of departments. Mr. Lloyd-George is always ready to bet on Mr. Lloyd-George's infallibility, and that sort of personage, one would think, must be an undesirable superior in a Government department where so much detail frequently has to be rushed through within a very short time.

Spain's Migratory Sheep.

There are about 10,000,000 migratory sheep in Spain, which each year travel as much as 200 miles from the plains to the mountains. They are known as transhumantes, and their march, resting places and behavior are governed by special regulations, dating from the fourteenth century. At certain times no one may travel the same route as the sheep, which have the right to graze on all open and common land on the way. For this purpose a road ninety yards wide must be left on all inclosed and private property. The shepherds lead their flocks, which follow after and around. The flocks are accompanied by provision mules and by large dogs to guard against wolves. The merino sheep travel 400 miles to the mountains, and the total time spent on the migration there and back is fourteen weeks.

Dr. Chase's Ointment

BREAKING IT GENTLY.

He Shewed the Widow Why It Was Too Late to Mourn.

After the ship which had come from New Zealand was tied up at the wharf Larry O'Brien was told off by his shipmates to call upon Mrs. McCarthy and break the news of the death of her husband, which had occurred on shipboard the preceding summer. The Brooklyn Eagle tells how he did it:

"Good morning, Mrs. McCarthy!" said he. "Is Denny in?"

"Denny?" said the surprised woman. "My Denny? No, he's not in. Is the ship here?"

"Sure it is. And Denny's not got home yet? That's quare—unless something has happened him."

"What would happen him?" Mrs. McCarthy asked anxiously.

"There's plenty of things can happen a man," said Larry delicately. "He might have got hurted or he might have took sick with the fever. But there's one comfort, as Father McGinnis said once, and that is that time heals iv'ry grief."

"What do you mane, Mr. O'Brien?"

"I mane that if anything happened to Denny you wouldn't feel as bad about it a few months after it happened as you would right at the time, would you?"

"I suppose not," said Mrs. McCarthy. "I mind when I lost me first husband I thought I'd never get over it. But, as you say, in a few months it was aisier to bear."

"Then, Mrs. McCarthy, you'll be glad to know that it's now four months—nearly five—since Denny died. Sure, it can't grieve you now as much as it would if you'd known it at the time."

Against Blinkers.

London has started a movement against blinkers for horses, which in most cases are useless and harmful to the sight of the animals. Most of the great railroad companies and one of the tramway lines have done away with them, so that now, it is stated, 30,000 horses are working without blinkers.

SINFUL HABITS IN YOUTH

MAKE NERVOUS, WEAK, DISEASED MEN.

THE RESULT of ignorance and folly in youth, overexertion of mind and body Induced by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Others fade and wither as an early age, as the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all walks of life—the farm, the office, the workshop, the pulpit, the trades and the professions. Nervous Debility and Sexual Weakness are guaranteed cured by our Method Treatment or No Pay. You run no risk. 25 years in Detroit. Bank security.

CURED WHEN ALL ELSE FAILED. No cases need without written consent.

"I am 31 years of age and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's Disease. Married Life was unsatisfactory and my home unhappy. I tried everything—all failed till your treatment from Drs. Kennedy & Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. They treated me six years ago. They are honest, skilful and responsible financially, so why patronize Quacks and Fakes when you can be cured by reliable doctors."—W. A. Bolton.

Messrs. W. F. Dever & Co., Stock Brokers, Toronto, write as follows:—

New York, April 3rd, 1903. — London came some lower this morning, and our stocks opened lower. A severe bear raid was made on the whole list right after the opening, Penns., St. P., S. P., U. P., sugar and A. C. P. Another cut in the advance of refined sugar being announced. Lower prices for the metal accounted for the drop in A. C. P. The market was dull and heavy until 1.45, when a violent rally took place carrying the entire list up from the low, from 1 1-2 to 3 per cent., and which continued to the close. Call money continued firm all day, loaning as high as 9 per cent. There was considerable presure on C. F. I., which touched the lowest point on this break. Dissatisfaction on account of the authorisation of 7 million new bonds on Colo., and Wyo. R. R., which is controlled by the Fuel Co., 4,500,000 of which, it is supposed, will be issued shortly, was the present cause assigned for the liquidation in C.F.I. While the weakness of both S. P. and U. P. attracted a good deal of attention ,no particular reason could be assigned outside of the developments in the court proceedings to restrain the U. P. from voting its S. P. holdings. There was no evidence that the Harriman interests intended to carry the fight into the stock market. The lending of S. P. stock at an high premium at one time to-day was regarded as an artifice to scare the shorts, but it did not cause a recovery in the price. The decrease of 705,000 in the net earnings of the Eastern Penna. lines for February, caused a decline in that stock to-day, caused a great deal of regard to earnings of Railroads generally.

Chicago.—Wheat and corn held well to-day, would rather sell than buy wheat above 74 cents. Closing prices; wheat, May, 73 3-4 a. 7-8; corn, May, 43; oats, May, 33 5-8 a. 3-4; pork, May, 17.72 1-2; lard, May, 980.

PETERBOROUGH MARKETS.

Owing to the inclemency and the sudden change in the condition of the roads, the market this morning was very small. Eggs sold for 12c. per dozen, turkeys $1.50 to $2; chickens, 75c to 90c; butter 25c.

Wall and Window Waste.

All this week, at The Peterborough Bookstore we will make a specialty of wall paper, window shades and cornice poles. Everyone who has saw our designs and colourings in wall paper concede the fact that we have the daintiest wall paper ever shown in Peterborough, and the prices are within the reach of all. In window blinds our lace effects and lace insertions are all new this year and make very effective window decorations. We are in a position to show you the newest in oak and cherry cornice poles and trimmings in silver, also gilt trimmings, and our prices, as usual will be as low as the lowest. Pictures and picture framing. A. H. Stratton & Co., 417 George street.

MATTERS MILITARY OF LOCAL INTEREST.

More Than Ordinary Interest in 57th Regiment.

Hon. Mr. Borden on Sharp Shooting—Notes of Interest.

There appears to be a general revival of military enthusiasm in Peterborough this spring ,and the indications are that the Peterborough Rangers will be in excellent condition by the time of their annual inspection. The addition of the two new companies with the consequent additional demand for more men, has aroused the commanding officers of the various companies to a high degree of activity in their efforts to secure recruits. It is stated, however, that the ranks are filling up in a satisfactory manner and that the regiment will be the strongest numerically that it has been in many years. However, the 57th Regiment should be over-strength in a town like Peterborough. Every young man in town should belong to it, and a law compelling young men to serve three years with a volunteer regiment would meet with as hearty approval as the suppression of cigarette smoking.

* * * *

Lieut. Alf. Shaw of the 3rd Dragoons, is taking a special course of instruction at the Royal Military College, Kingston.

* * * *

Last week order were received in Cobourg from Ottawa, giving authority to purchase the land for the rifle ranges. The new ranges, it is understood, will be situated on the Dr. Mallory farm, the Kingston Crossing. The Government engineer will be sent here, and work will be commenced as soon as possible.—Cobourg Sentinel-Star.

* * * *

The Cobourg Garrison Artillery Company intend giving a minstrel show in the opera house of that town at an early date. The proceeds will be given to charity.

* * * *

More than once the Examiner has endeavoured to arouse interest in the people of the town towards securing a new stand of colours for the 57th Regiment. The matter does not appear to be any further ahead than it was some fifteen years ago, when a sum of money was raised towards the procuring of the new colours. The people of Belleville are out with enthusiasm with a scheme to raise a sufficient sum of money with which to secure a new stand of colours for their regiment, and at a concert recently held, a handsome sum of money was raised for that purpose. Peterborough's military enthusiasts should wake up.

* * * *

A special course of instruction for cavalry officers will be commended at Stanley Barracks, Toronto, on the 18th of May, and continued for six days. The two senior officers of each cavalry regiment of three or more squadrons and the senior officers of each cavalry unit having less than three squadrons, are authorized to undergo this course, or if they are unable to attend, the next senior officer.

* * * *

General Dundonald has rearranged the dates of his visit to Western Ontario cities as follows:— London, April 6; Sarnia, 7th; London, 7th; Woodstock, 8th; Windsor, 9th; and Guelph, 10th.

* * * *

Tuesday last was the anniversary of the Harts River engagement, and the occasion was marked throughout Canada by the assembling of the heros of that engagement and re-unions in general. The names of those from Canada who were killed in action are still fresh in the minds of all Canadians. Amongst the number were:

Pte. D. H. Campbell, Foss, Ill.
Pte. C. U. Evans, Port Hope, Ont.
Pte. M. G. Huston, St. Mary's, Ont.
Pte. W. P. K. Milligan, Clarke, Ont.
Sergt. John C. Perry, Galt, Ont.
Pte. W. G. Peters, London, Ont.
Pte. A. W. Sherritt, Brantford, Ont.
Pte. W. Vollrath, Armstrong, B. C.
Pte. A. West, Montreal, Que.
Pte. T. B. Day, Shallow Lake, Ont.
Corp. W. A. Knisley, Selkirk, Ont.

* * * *

The Minister of Militia has spoken. He has given his opinion as to the military needs of the day, and it is, in essence, that Canada does not need a great army or militia force as some have contended for. Addressing the militia men, of Toronto, on Friday evening, at a banquet, he said:—

— "Canada to-day is a name known over all the earth, a name to conjure with. Our soldiers have proven themselves men of bravery and honour; there remains, therefore, a serious duty on the government, a duty to see that these men are equipped in such a manner as to be able to defend themselves in case of emergency. The only way to prevent catastrophe is to be prepared. My sole hope and object while I occupy my present position is to equip Canada's soldiers in the best manner possible. I am no advocate of a system of militarism, and I believe that we should not exceed the financial means at our disposal.

"My idea as to the proper method of securing an effective defensive force is, first, to have educated and brainy officers who will serve as a nucleus; second, an abundant supply of rifles, rifle ranges and cartridges."

A voice—It's up to you!

"With a strong force of officers who know their business, and a population having every possible opportunity to perfect themselves in rifle-shooting, we would have a defending force that would be amply sufficient for any occasion that might arise." (Applause).

Dr. Borden's conclusion is that if men knew how to handle a gun, if they have had practice in shooting, and can hit the mark at long distance, they have the first qualification of a soldier. The drill is a secondary matter, and men drop readily into the field movements when in active service. That was the experience in South Africa, where the Boers knew nothing about war, or war training, but because they were shooters, were skilled in the use of the rifle and horsemen, proved foemen worthy of the British. Canada has certainly won a proud position by the conduct of the men she sent to the field, and what they lacked, if anything, was rifle practice. How will they get it now? The youth of our land can join rifle clubs if they will. But suppose they do not, how are they to become marksmen?—Kingston Whig.

An Old-Time Sale.

CHINA HALL will begin on SATURDAY, APRIL 4th, one of its old-time Clearing Sales—the first in four years—when the public may expect greater reductions than ever before in all classes of Goods carried.

CHINA HALL'S policy has never been to hold sales often, but always to make them genuine bargain-giving events. The present sale will be no exception. The stock of

Crockery, China, Glassware, Lamps, Etc.,

is the largest and finest in Ontario, and the whole collection is now offered for the next few days at reductions that must prove interesting. Over 500 Dinner, Tea and Toilet Sets to choose from. Lamps of every kind, Glassware, Fancy China, etc, all the newest and prettiest goods at almost your own prices during this Sale. The Sale will begin Saturday, and last until the amount is sufficiciently reduced for stock-taking. This is a great opportunity. You know the class of Goods, you know the reduction you may expect, you know you can save money by being among the first to take advantage of this offer.

SATURDAY, APRIL 4th, AND FOLLOWING DAYS.

Reliable Watchmakers and Jewellers, 391 George St.

A VENERABLE BIBLE.

One with an Interesting History.

All Bibles are per se venerable, but some have associations that render them more interesting. Mr. R. W. Errett has shown the Examiner a Bible 121 years of age—printed in 1782. In Dublin, Ireland, in the year 1820 this Bible was presented to Mr. Wm. Lumsden, an uncle of Mr. Errett, by Mrs. George Taylor, wife of George Taylor, the author of the well known history of the Irish Rebellion of 1798. She was in her maiden days, Miss Grattan, a sister of the celebrated Irish orator and statesman, Henry Grattan. The print of this Bible, which is of pocket-size, is clear, and the binding done with the characteristic solidity and good conscience of the workmanship of other days, when people took time to do good work and would be honestly ashamed of doing any other.

The Last Week of Lent.

We have a large shipment of the choicest fresh-caught fish arriving every day this week. You will be sure of the freshest and best if you order from S. A. OKE, 376 George street; Telephone 18.

New York Pattern Hats

With the characteristic New York style about them. Patterns that gave New York's greatest milliners some 1903 ideas.

New York Hand Made Suit Hats

for street wear, pretty nearly stunning enough for dress occasions—a smartness in their style—original satin plaited braids are in the construction of some.

New York Ready-to-wears

Probably not so pretty to look at as some hats but that style on the head—that gives a woman credit for good taste and judgment.

New York Hand-made Fruit

You'd think it California Fruit, to look at it — the difference is the latter is perishable, and the former is not—though "teeth watteringly" luscious in appearance.

Pop into our Millinery Department and have a look round.

BRAVERY TO BE RECOGNIZED.

Two Boys Will Receive Parchment Papers.

For Saving the Life of a Playmate on Little Lake Last February.

At the regular monthly meeting of the Peterborough town council, which will be held this evening, an interesting ceremony will take place, it being the occasion of the presentation of parchment papers in recognition of heroism to two Peterborough boys.

The following letter received from the president of the Royal Canadian Humane Society, speaks for itself:

I have pleasure in forwarding to you by this mail, the parchment certificates recommended to Percy Harold Johnston and Ernest Hamilton for presence of mind and courage in saving from drowning in the Little Lake on the 14th of February, 1903. Be good enough to have these parchments presented in as public a place as possible, and send me a copy of the report of the proceedings for filing.

Yours truly,
ADAM BROWN,
Pres. R. C. H. S.

In accordance with these instructions the Mayor will present the parchments at to-night's meeting of the council.

The president as well as the vice-president of the Board of Trade, have been invited to be present and notice has been sent to the public schools. The clergy of the town are requested to be present.

The action concerning which these parchments have been issued is worthy of the highest praise, and whilst the public may respect the modesty of the boys concerned, still the precedent in making a public award must be followed. The boys concerned were Messrs. Percy Harold Johnston, grandson of Mr. Jas. Johnston, Dublin street, Ernest Hamilton, son of Mr. R. D. Hamilton, George street, and Dickson Nicholls, of Dalhousie street. The first two mentioned were in a position of imminent danger, and have been awarded the parchments, although scarcely less credit is due to Master Dickson Nicholls, who assisted the others by every means in his power.

HOW IT OCCURRED.

The Examiner of February 16th, contained the following that was sent into the office for publication:

While a number of boys were enjoying a pleasant afternoon's sport on Saturday, February 14th, a young lad by the name of Walter Harris had a narrow escape from death by drowning. He and another lad were in advance of their companions, when Harris, to avoid getting into a hole in the ice, skated out to a thin spot, evidently where one had been cutting ice. The water being frozen slightly over the lad thought it was safe to skate over, but he went through. Percy Johnston, his companion, who was only a few feet behind, as soon as he saw Harris disappear through the hole, threw himself flat on the ice, at the risk of losing his own life, and bravely helped his companion to regain his footing once more. The act was done in the space of a few seconds, but young Harris went under water twice, before Percy succeeded in rescuing him from his perilous position, as no doubt the cold would have rendered him powerless to help himself. After getting him out young Wise and Johnston took him to the former's house, Mrs. Wise kindly attended to the boy's comfort. Young Percy Johnston is the youngest son of Mr. Jos. Johnston of this place, and the parents are to be heartily congratulated in possessing such a brave and heroic son.

Percy is a general favourite with all his young friends, and it is to be hoped that someone may reward this youthful hero on the courage displayed in the time of need.

SOME RIFLE SCORES.

Peterborough Gentlemen's Records at the D. R. A. Matches.

The Examiner is indebted to Dr. J. B. Pentland for a copy of the report of the proceedings of the Dominion of Canada Rifle Association, of which His Excellency, the Right Hon. Earl of Minto, is patron. The scores in the various competitions are published as well as the Bisley aggregate, which contains the names of 99 gentlemen who have a possible chance of becoming members of the Bisley team. The Bisley team is composed of twenty men, and the twenty men having the highest aggreagtes scores are the marksmen who are selected. Should any of the first twenty be unable to go the twenty-first man is chosen, and so on till the full allotment of twenty men is secured.

In the aggregate for last year, which contains the eligible men for the Bisley team for 1903, are the names of three Peterborough marksmen, viz., C. Curtis, D. Cameron and J. B. Pentland. Mr. Curtis is 46th on the list, making an aggregate of 355, Mr. Cameron is 59th, making an aggregate of 352, whilst Mr. Pentland, who comes 62nd on the list, has also a score of 352. The highest score was 372. Of course it is not even hinted that the three Peterborough gentlemen may go over on the Bisley team, but the showing that they have made is creditable to themselves, the 57th Regiment and the the town, and only goes to show the young men of the Peterborough Rangers the possibilities they have of obtaining that distinguished honour.

Foreign Work.

Mr. J. L. McPherson, College Secretary, Y.M.C.A., who is here visiting the local Association in the interests of the Foreign Work, of the Association, will meet the Directors and committee men in the parlour to-night, from 7.30 to 8. All workers should attend. He will address the Intermediate Gym. classes at 8.15 in the Gym.

A SIX PER CENT DIVIDEND DECLARED

By the Directors of the Central Milling Company.

At the regular meeting of the Board of Directors of the Central Milling Company, on Saturday last, a most satisfactory state of affairs was revealed by the annual reports. The Central Milling Company has been in operation for one year. During the first six months, owing to the fact that there was some difficulties to be encountered, the mill went behind $600. It pulled up at a remarkable rate, however, during the past six months. The Company has declared a dividend of 6 per cent. to the shareholders. The actual dividend for the year was 20 per cent. but 15 per cent. of this will go to the reserve account. The actual earnings of the mill for the past six months was 40 per cent., a remarkably good showing. The mill has been running night and day for some time past.

The Company will, this summer, erect a 50,000 bushel elevator to the west of their mill.

The above statements were given the Examiner by Mr. Mulhern, the manager, this morning. The President of the Company is Mr. D. Carlow, Warkworth; Mr. John Stothart is Vice-president, and Mr. George Wardo is secretary.

TWO MORE OFFICES ARE TO BE OPENED.

The Growth of Stock Speculation in Peterborough.

The growth of stock speculation in Peterborough during the past year has been wonderful, to say the least, and with two brokers offices in town the men who seek investment for their money in stocks, often express wonder how they ever got along without the accommodation that is now afforded.

As a matter of fact there has not been the amount of "dabbling" during the past four or five months that there was last fall when the market went to pieces and the boys wore long faces instead of long hats. The crash was general throughout the United States and Canada, and since then the market has been gradually settling to rock bottom. Business in the brokers' offices is looking up, and many new offices throughout the Dominion are being opened out. Peterborough is actually to have two new brokers' offices, making four offices in all in town. It is announced that Messrs. Cowan & Co., of New York, will open out very shortly in the offices formerly occupied by the C.P.R. telegraph Company, at the corner of George and Charlotte streets. Messrs. Dover & Co., of Toronto, so it is stated, on the street to-day, will open out on Simcoe street a short distance west of George street. Special wires are being laid for the accommodation of the new offices.

The present brokers' offices in Peterborough are Messrs. E. M. Pousett & Co., and Messrs. Haight & Freeze.

THE TAILORS TO RAISE PRICES.

An Advance of 15 per cent is Announced This Morning.

The local Tailors' Union sent a circular to the employers on Friday last, demanding a fifteen per cent. advance on the old bill of prices, to take effect to-day. The employers have all signed the bill willingly, and without any grievance, except that the notice given them was unjustly short. It is understood, however, that at a meeting of the Tailors' Union to be held this evening, this matter be reconsidered, and the date when the new prices come into effect extended.

The letter sent out by the Tailors' Union was as follows:

Journeymen's Tailors' Union of North America, Local Union No. 23.
Peterborough, April 2, 1903.

To the Merchant Tailors of Peterborough,—

Gentlemen, — In making our request for a fifteenth per cent. increase we feel that we are fairly and justly entitled to it. The present bill has been in operation for the past 17 years, and during such time no change or amendment has ever been suggested, a fact which speaks for itself of our desire to pursue our calling in peace and harmony with our employers. To-day house rent and the commodities which go to sustain life, have almost doubled in value to what they were a few years ago; whilst in the matter of wages there has been no benefit received to enable us to meet our constantly increasing expenditures. Therefore, do we ask you to grant us the increase asked for, feeling sure that when you take into consideration the facts now presented, it will be apparent to you that it is still our wish and desire that the same harmony and good feeling which has heretofore existed shall continue in the future. You will please return an answer to this our request, on or before ten a.m., on Monday, the 6th inst.

ED. HICKEY,
President.
JOS. BARRY,
Cor. Secretary.

There are very few cleansing operations in which Sunlight Soap cannot be used to advantage. It makes the home bright and clean. 1B

MONDAY, APRIL 6, 1903.

EDITORIAL NOTES

Some of these men just come from England to "hire out" with the Ontario farmers have, says the Toronto Star, brought with them cricket and rowing outfits, golf clubs, and tennis racquets. And the farmer stares at the new hired man, and and the new hired man stares at the farmer. There is room in Canada for millions of men who will work. We have enough of our own population given to play. The man who comes from the Old Land to Canada must make up his mind that till he wins the right to play he must serve an apprenticeship of hard, steady, honest work.

A FAIR REDISTRIBUTION.

The Toronto News, independent, but of strongly Conservative leanings, thoroughly approves the provisions of the Liberal Redistribution Bill. It says:

The terms of the Redistribution bill are particularly satisfactory. Sir Wilfrid Laurier had every opportunity, every temptation and perhaps some measure of excuse to play a partisan game. He has chosen to play fair. The decision of the Dominion Government is the most creditable action which Canadian politics have seen for a long time. It is to be earnestly hoped that it will kill the gerrymander in Dominion politics.

The gerrymander of 1882 must take rank as one of the meanest episodes in Canadian political history. It is something of which every Canadian should be thoroughly ashamed. The worst thing about it was that the official heads of the Conservative party felt that they could afford to be open in breaking the rule of fair fighting and the principle of majority rule. The Conservative party supported them in their meanness. Sharp practice was openly made a party creed and a great party accepted the doctrine. The Redistribution Act of 1892 betrayed no disposition to give up the advantages gained by such unfairness ten years before. What is worse, the Conservative party has shown no satisfactory sign of penitence since then. In 1899 it fought bitterly against the remarkably fair measure introduced by the Liberals. Its journals have awaited the details of the present bill with undisguised trepidation, it is true, but also with the air of believing that the Conservative party has vested rights in the present scandalously unfair distribution. Any measure which will improve the position of the Liberals in the constituencies they have denounced in advance as a gerrymander.

Yes, the gerrymander of 1882, was certainly a mean episode, the Brantford Expositor points out, and that of 1892 was like unto it, and yet no Conservative of prominence, if we except the late Mr. Dalton McCarthy, has ever apologized for it. The Liberal party would have had a good excuse for retaliating in kind, but instead, it has restrained its hand, and presented a statesmanlike measure which promises inviolate county boundary lines and leaves the details to a committee of seven, on which the Opposition will have three members.

Nor is this the only occasion on which Liberals have refused to take advantage of an opportunity for gerrymandering. The Provincial Government could have done something of the kind last session when it increased the representation in the Legislature by four members, but it held back, and gave the additional representation in such a manner that even Mr. Whitney could find nothing to complain of.

WIDE TIRES.

In the New York Legislature the Senate has passed a bill aimed ot banish anrrow tires by providing that after a certain date only wide tires shall be sold in the State. It is expected that the bill will pass the Assembly and become law.

Wide tires are a necessary concomitant of good roads. Wide tires save roads, pavements, save horses, save time and practically increase the capacity of vehicles by making it easier to propel them.

Ottawa, says the Ottawa Journal, had a good wide-tire bylaw, but backed down. After the ratepayers have spent a few hundred thousand dollars more on the streets, which narrow tires spoil rapidly, the city may get back to that wide-tire bylaw.

A NEW LINE TO TORONTO.

C. P. R. Reported to Back a Scheme

For Building From North Bay, in Order to Obviate the Use of the G. T. R. Northern Division.

(Globe.)

The C.P.R. has never been entirely satisfied with its arrangements with the G.T.R. for reaching Toronto from the northwest over the northern division of the G.T.R., and, in fact, a few years ago, during the war of rates, threatened to build a connecting line of its own. An application just made to Parliament looks as if the project was revived. Mr. L. T. Barclay of Whitby and others are applying for authority to construct and operate a railway or tramway from a point at South Bay, on Lake Nipissing, in a general southwesterly and southerly direction, to some point or points on the Georgian Bay; thence to Lake Simcoe, and a point on the C.P.R. in the Counties of Dufferin, Peel or York; also from the Georgian Bay to a point or points on the C.P.R. between Myrtle and Peterborough; also from South Bay, via Callendar, to North Bay. A glance at the map shows that the plan is really to connect the C.P.R. main line at North Bay with the Ontario & Quebec division near Peterborough, by which easy access would be had to Toronto. It is reported at Ottawa that the C.P.R. is behind the application of Mr. Barclay. He also gives notice that application will be made at the present session of Parliament for an act to incorporate a lumber, power and navigation company, for carrying on in Parry Sound district, and also throughout Canada and elsewhere, the business of lumberers and manufacturers of all timber and pulp products, operating and dealing in mines and minerals, and also generating electricity for light and power purposes.

MARCH WEATHER.

Some Facts Concerning Past Month—Central Ontario Especially Favoured

Although the weather in Peterborough and surrounding country was particularly fine for a month which is generally associated with cold blustering winds and snow storms, this part of the Dominion was much more favoured than other portions. Between Toronto and the Ottawa River the daily temperature was 12 degrees higher than average, farther east, in Quebec, it was 8 degrees higher; while in the Maritime Provinces it was but little above the average. West of Ontario, in Manitoba and the Territories, the weather for March, was actually colder than usual, and in the more western portions 12 degrees below the average.

The total precipitation of the month was less than average over the larger portion of British Columbia, and even on the coast a portion of it was snow. In the Northwest Territories and Manitoba, where it was almost wholly snow, there was no pronounced difference from average. In Ontario there was practically no snow, except along the north shore of Lake Superior, and the rainfall was in most localities a little short of the average, especially in the more central counties. In Quebec there was little or no snow, and the rainfall, which was just average at Montreal, was somewhat above average farther east. Over the larger portion of the Maritime Provinces the precipitation was considerably in excess of the average. There is still a considerable covering of snow in Northern Alberta and in Saskatchewan, and the prairies of Southern Alberta and Assiniboia are not entirely bare, and even in Manitoba it was only during the last few days of March that the sleighing disappeared. In Ontario, except in the extreme east and north, the ground was bare early in the month. In Quebec there is still snow on the ground from Quebec City eastward, and considerable snow lies in the woods of northern New Brunswick.

Reports indicate that the harbours and rivers of Quebec are or are likely to be free of ice at an unusually early date.

The weather throughout the month in British Columbia was very cold; continuous northerly winds, accompanied by snow storms resulted in great suffering among live stock in the upper country. In Alberta it was a very cold month with a lower mean temperature than February. Farther east in Assiniboia and Saskatchewan, and also in Manitoba, similar conditions prevailed, nearly the whole month being cold and wintry. The weather has been unfavourable for range cattle as the wind and cold weather packed the snow very hard and fodder was difficult to pick up on the prairies. In Ontario the weather was moderately cold on the 1st, and then turning exceedingly mild it continued so to the end of the month. Hard frosts occurred occasionally at night, but altogether the weather was phenomenally mild. Reports regarding vegetation and agriculture are exceedingly favourable, ploughing being possible at a very early date, and wheat looking green and healthy. Plants were in bloom, and migratory birds also arrived two to three weeks earlier than the average date.

TOWN WITHOUT FIRE LOSSES.

What Care and Careful Inspection Can Effect.

Although in Great Britain it would be nothing surprising, on the continent it is a curiosity indeed to find a town with such a fire record as Salem, North Carolina. There, according to "The Investigator," there is fire ordinance providing for inspections of buildings for the purpose of suppressing dangerous heating appliances. The inspections are made in a most thorough manner, and as a consequence defective flues and unsafe stovepipes stand no chance of existing for any length of time. The proper disposal of ashes is also carefully seen to and no accumulations of rubbish allowed. The effect of these precautions has been remarkable. The town has a population of 3,700, is 137 years old, and during all those years has not only never had a conflagration, but has never had a fire where the loss exceeded $750. There was only one dwelling burned in 100 years, dating from 1,776, and there never was but one fire which got beyond the building in which it originated. On that occasion two buildings were burned, each worth $250. During the first 127 years of the town's history the total loss of property by fire was less than $2,000. The story goes that when a man boasted that in his 50 years of married life he and his wife had never quarrelled, his auditor remarked: "It must have been very monotonous." Of life in Salem, W. C., this may be said, a town without an occasional fire must be pretty dull. But Salem means "city of peace," so it has lived up to its title.

CANADIAN SHOES AND STOCKINGS.

In these days, when there is so much scare talk about British goods driving Canadian manufacturers to the wall, it is comforting to hear robust language from the latter. J. C. Holden, of Montreal, does not "expect to see the English manufacturers of shoes enter into Canadian trade to any extent. In fact it is the other way, for there are several Canadian concerns selling their goods in England. There is only one class of their goods that are imported to any extent," continued Mr. Holden, "and those are felt slippers. Of course, in the west, amongst a proportion of the population who are English and cling to their home ideas, there might be a certain demand for boots and shoes of English manufactur; but it would be a small item in the general trade."

Mr. W. J. Freeman, of the James Robinson Company, wholesale boots and shoes, says that Canada takes few boots and shes of English manufacture, and there is no demand for them. "We import considerable quantities of felt slippers, which are manufactured in England by Trickett, but aside from this, the English concerns do little here."

It appears to be precisely the same as regards hosiery. The wholesale dry goods merchants here are inclined to smile at the expectations of the Leicester hosiers that they may shortly do a large business in Canada, owing to the advantages conferred by the preferential tariff. One well-known buyer who is intimately acquainted with the hosiery trade of Leicester, said that the days when the manufacturers of that industrious English city could do a large trade with Canada are gone, never to return. Cashmere hosiery was the only line in which Leicester ever figured in the Canadian market, and our merchants bought these because they had to, not being able to buy cashmere here in Canada. But ever since the Penman people of Paris, Ont., the Kingston Hosiery Co., and the Universal Knitting Machine Co., of Toronto have been turning out a first-class article in this line, the Leicester trade has been doomed, and has gradually declined. It may be interesting to any person with feet to furnish to know that hosiery is one line in which American competition does not figure. We import no woollen hose at all from across the line, and only about one per cent. of cotton hose.

Good Health for Capital.

Maintaining good health is to the majority of people the most vital question in the world and nature affords no more efficient strengthener for the system and restorative for the nerves than Dr. Chase's Nerve Food. Naturally, gradually, and certainly it forms new, red corpuscles in the blood, creates new, healthy, nerve cells, and puts into the system the snap, energy and vitality that defies disease.

Gale on the Clyde.

Glasgow, March 31.—Owing to the fact that a gale was sweeping over the Clyde yesterday morning the Shamrock III., and the Shamrock I. remained at their moorings awaiting its moderation, thus again postponing the trial spin of the challenger.

NOTICE.

In the matter of the Stanley Piano Company, of Toronto, Limited.

Notice is hereby given that The Stanley Piano Company of Toronto, Limited, carrying on business as Piano manufacturers at the Town of Peterborough, in the County of Peterborough, have made an assignment under the Revised Statutes of Ontario 1897, Chapter 147, and and amending Acts of their estate, credit and effects to Robert Richard Hall, of the Town of Peterborough, in the County of Peterborough, for the general benefit of their creditors. A meeting of the creditors of the said The Stanley Piano Company, Limited, will be held at the offices of Messrs. Stratton & Hall, solicitors in the Town of Peterborough, on Tuesday, the twenty-fourth day of March, 1903, at the hour of two o'clock in the afternoon to receive a statement of the affairs to appoint inspectors and to fix their remuneration and for the ordering of the affairs of the estate generally.

Creditors are requested to file their claims with the assigne with proofs and particulars thereof required by the said Acts, on or before the day of such meeting.

And notice is further given that after the 28th day of April, 1903, the assigne will proceed to distribute the assets of the said The Stanley Piano Company amongst the parties entitled thereto, having regard only to the claims of which notice shall then have been given, and that he will not be liable for the assets or any part thereof so distributed to any person or persons of whose claims he shall not then have had notice.

R. R. HALL,
Assigne.

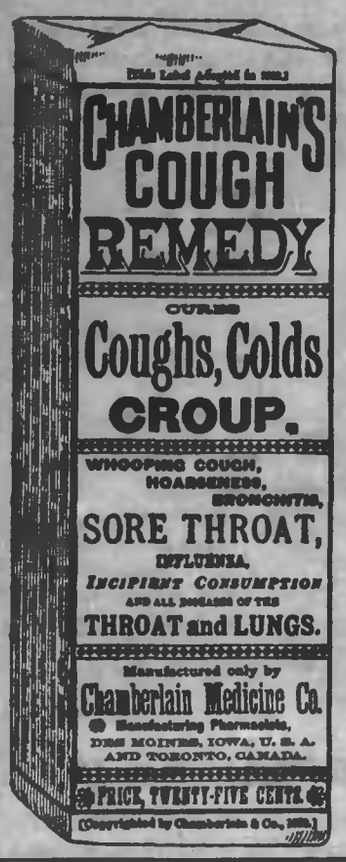
Every Bottle Warranted

Every bottle of Chamberlain's Cough Remedy is guaranteed, and the dealer from whom it is purchased will refund the money to anyone who is not satisfied after using it.



The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult.

NEW POSTAL RATES.

Third and Fourth Class Matter Both Affected.

Ottawa, April 6.—The Postoffice Department announced that on and after Saturday the rate of postage on third-class matter, except seeds, cuttings, bulbs, roots, bedding plants, scions and grafts, will be one cent for each two ounces or fraction thereof and on fourth-class matter one cent for each ounce or fraction thereof.

Rev. Dr. Rose's Gown.

Ottawa, April 6.—Rev. Dr. Rose of the Dominion Methodist Church in a dramatic manner yesterday morning discarded his gown that has been a source of discontent throughout the Methodist Church, not only here, but in all Canada. After the first hymn he paused in the services and read a declaration covering three pages of typewritten copy, stating his case.

One passage of the statement reads: "In view of this decision of the Court of Appeal, no course is possible save to lay aside the gown, which I now do."

At that point the Rev. Dr. Rose threw back his hands and dropped his gown to the floor beneath his feet.

Treasurer's Books Show Deficit.

Weston, April 6.—At a meeting of the Town Council on Friday night a letter from the Public School Board was read, in which it was stated that the Government auditor's report of the treasurer's books showed a shortage of $1,467.05, made up of sums varying from $20 to $300 The treasurer claimed that these were errors, and it is understood that the money has been or will be refunded.

CANADA'S GREAT GROWTH.

C.P.R. Has Had to Borrow 100 Extra Cars to Move Immigrants.

Ottawa, April 6.—The C.P.R. is finding some difficulty in moving the tide of immigration that has struck Canada. One hundred extra cars have been borrowed from United States roads to do the trick.

D. F. Burk, Port Arthur, who is here, declares the influx of immigration is tremendous and will continue. He complains, however, that it all passes Port Arthur. He is here to get the Government to aid him in putting a few off at his town and district.

Ask For Copper Bounties.

Ottawa, April 6.—A deputation of Vermont and New Hampshire capitalists waited on [illegible] Fielding Saturday and asked that a bonus similar to the bonus granted to the Dominion Iron and Steel Company be given to them for the output of the Iron Copper Smelter at Dorchester, N.B. Mr. Fielding said he would take the request into his serious consideration, but could not promise any tariff revision this session, as his Budget Speech was already prepared.

Family Quarrels.

How many serious family quarrels, marriages out of spite and alterations of wills, might have been prevented by a gentle dose of pills." With the liver and kidneys sluggish and torpid, digestion is impaired and temper is ruined. But Dr. Chase's Kidney-Liver Pills by invigorating the action of these organs ensures good digestion and sound health. One pill a dose; 25 cents a box.

Scaffold Gave Way.

Hamilton, April 6.—The workmen, who were repairing a crane on the premises of the Canadian Foundry Company, were seriously injured about noon yesterday. The scaffold on which they were working gave way, and they fell eighteen feet to the ground. Julian G. Smith, 16 Inchbury street, had two ribs broken, and Thomas Grant, 18 Magill street, had his head badly cut. The doctors say that both will recover.

Looks Like a Walk Over.

Ottawa, April 6.—The writ for the Russell bye-election, caused by the elevation of W. C. Edwards to the Senate, has been issued. Nominations will be held April 20, polling a week later, should there be a contest. Dr. Wallace of Metcalfe is the Liberal candidate, and from present indications he will be elected by acclamation.

Mystery Cleared Up.

Brantford, April 6.—The body of John Springle, who disappeared from his home on the Mohawk road more than four months ago, was found yesterday in Mohawk Lake, near the starch works. The body was badly decomposed, and was interred this afternoon in Mount Hope Cemetery.

"For four years I had a severe cough. I was so weak and exhausted from coughing that I was unable to attend to my business. After taking two bottles of Angier's Emulsion my cough was cured, and I was benefited in every way." A. MALLIGAN, Toronto, Canada.

ANGIER CHEMICAL COMPANY, BOSTON, MASS., U. S. A.

THE WABASH STRIKE

Company and Employes Settle All Their Differences.

ENTIRE REVISION OF RULES.

Main Bone of Contention Granted by the Railway—Big Victory For Organized Labor—Increased Wages Also Result From the Four Months' Controversy—Draft Bill of New Alien Labor Law.

St. Louis, Mo., April 6.—After four months' of controversy between the employes of the Wabash Road and the officials of that system, during which, at one time, a strike was imminent and was prevented only by an injunction restraining the employes from vacating their positions, and which injunction was dissolved last Wednesday, the differences were finally adjusted and the controversy effectually and satisfactorily settled Saturday night. Officials of the brotherhoods representing the employes declare the settlement is eminently satisfactory and is a sweeping victory for organized labor. The Wabash officials declare that all differences with the employes have been finally terminated in a satisfactory manner, and that their future relations in all probability will be most harmonious. The following are the main points embraced in the settlement:

Increases Granted.

Twelve per cent. increase for conductors, brakemen and baggagemen in the passenger service, and 15 per cent. for conductors and brakemen in the freight service over the rates which existed January 1, 1902, west of the Mississippi River.

For the firemen, increases were granted on the Canadian lines in accordance with the Canada Southern division of the Michigan Central. On the other lines in the United States material increases and improvements in the working conditions were granted the firemen. East of the Mississippi River the rates will be brought up to this standard when competing lines in the same territory shall grant similar increases.

The various yardmen receive a substantial increase, varying in different localities.

There is an entire revision of rules applying to all classes of train service. This was the main bone of contention, and was granted in its entirety.

READY-MADE BILL.

Cabinet Asked to Father Labor's Proposed Alien Labor Law.

Ottawa, April 6.—Twenty-five representatives of trades unionism from the Atlantic to the Pacific will wait upon the Cabinet this morning at 11 o'clock to press on the Government the desirability of advocating their proposed new alien labor law, which aims to strike all imported labor, not only from the United States, but also from every other foreign countries. A. W. Puttee, M.P. (Winnipeg), will introduce the delegation to the Premier; Sir William Mulock and Hon. Mr. Blair will receive it.

A drafted bill will be presented to the Cabinet. The first clause makes it illegal to prepay transportation, assist or encourage immigration into Canada of any person residing outside of the country, under contract or implied contract to perform labor. The labor men hope that this bill will shut out all foreign labor under contract, The present act applies only to the United States—to citizens of countries which enforce an alien labor act against Canada.

The chief provisions of the act are those that take the power of enforcements out of the hands of the Minister of Justice, and place it in the department of labor.

A Disagreement Already.

Philadelphia, April 6.—A disagreement between the mine operators and mine owners Saturday regarding the strike commission's ruling on the number of hours to constitute a day's work, resulted in the closing of numerous colleries throughout the anthracite coal region. The greatest dissatisfaction was expressed in the lower region and in Pottsville, Shamokin, Mahoney City and contiguous towns a majority of the mines were idle a portion of the day. At some of the colleries the men laid down their tools after they had worked eight hours, and at others they remained in the mine nine hours, but refused to work ten hours when requested to do so by the superintendents. The operators assert that they will pay the men only for the actual time worked, and the miners claim this to be a violation of the agreement.

Meetings of the local unions were held, and in a majority of cases the miners decided to return to work Monday and submit the question to joint consideration committees of operators and mine workers, as suggested by the commission. Officials of the union as such are not permitted to interfere in the controversy.

Can Retain Striker's Salary.

Vancouver, B. C., April 6.—Important decision was given in the County Court Saturday morning by Judge Henderson in the case arising out of the U.B.R.E. strike. Brown, clerk in the local freight office, sued the C.P.R. for wages, but the judge held that as he was a monthly servant and had left the company's employ without notice, the company was justified in keeping the back salary. He accordingly dismissed the case with costs against the plaintiff. This was a test case, as all the other strikers are in a similar predicament.

Ironworkers' Strike Ended.

Cincinnati, O., April 6.—The strike of architectural iron workers, which has been on since last Tuesday, was ended Saturday by an agreement with the Architectural Iron League. The 'outside men,' for whom the strike was declared, will get 40, 35 or 30 cents an hour, according to the class of work. Formerly 33 1-3 cents per hour was the highest.

Manufacturer Sued Union and Won.

Rutland, Vt., April 6.—The damage suit of the F. R. Patch Manufacturing Company against Protection Lodge No. 215, Independent Association of Machinists, was decided Friday, the jury returning a verdict in favor of the manufacturers. The company sued for $10,000 damages, alleged to have been sustained through a strike of the machinists. The jury awarded $2,500. The strike had for its object the recognition of the union.

BOOM FOR DAIRY INTERELT.

A Unique Situation Which Will Increase Canada's Dairymen's Prices.

Toronto, April 6.—The milk and cheese market in border sections of Canada is being disturbed by the sudden demand of an organization numbering 30,000 in New York for nothing but the Canadian product. It is a curious situation. It is the outgrowth of the boycott established against New York dairy products by the combined liquor dealers of that State. The move is in retaliation for the increased excise rate on saloons in New York State. Either free lunches among the 30,000 saloons of New York will be abandoned entirely so far as cheese, milk, butter and eggs are concerned, or that part of Canada adjacent to that State will be called upon to supply this vast market.

Already agents of the New York Liquor Dealers' Association are skirmishing through the rural districts adjacent to Toronto for supplies of this character. This sudden demand is expected to advance the price of dairy produce at once and keep it up as long as it lasts. The farmers of border counties will reap an immediate and substantial benefit from this source, because of the easy access by boats to this market from New York ports. It is a unique condition.

THAT WEARY SPRING FEELING

Is Quickly Disposed of by Dodd's Kidney Pills.

They Tone up the Kidneys, Ensuring Pure Blood, Good Circulation, and as a Consequence, Vigor and Energy.

Nearly everybody needs toning up in the spring. Some are altogether ill; others just feel fagged and worn out. They have little inclination to work and less to eat. They are simply useless.

Did you ever stop to think that there is a reason for all this, and that if the complaint is attacked intelligently it will yield readily, the lazy feeling will depart and in its place will come vigour and energy and appetite.

It is the Kidneys that are not doing their work. They need to be toned up with Dodd's Kidney Pills. Why? Because they are being overworked and need help.

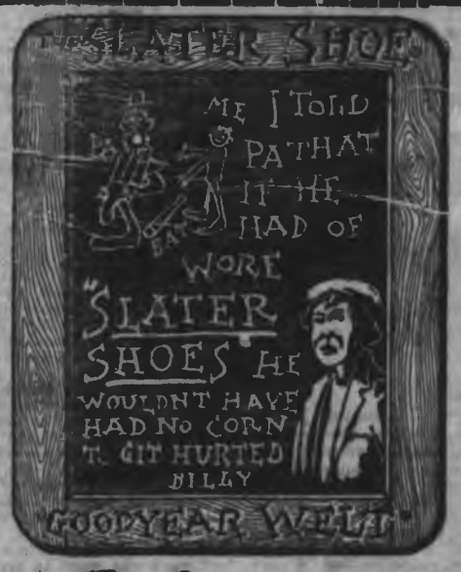
In the winter the body fortifies itself against cold. With the coming of spring it throws off this fortification, which consists of extra tissue, and additional waste matter is given to the blood to carry away. If the Kidneys are in condition to do extra work this waste material is quickly expelled from the body in the usual way.

But if the Kidneys are tired or worn out the waste remains in the blood, and the circulation is clogged. The remedy is simple. Dodd's Kidney Pills put the Kidneys in good working order. The Kidneys in good working order ensure pure blood and good circulation—ensure brightness and vigour and energy. Thousands of people will tell you so, can tell you so, but of their own experience.

TENTS AND LOTS.

In the scarcity of houses to rent, we can supply Tents of different sizes, divided off in rooms as required, from $5.00 a month upward.

LINDSAY & MIGHT
REAL ESTATE AND INSURANCE.
Under Market Hall.



Lasting

Corns usually begin in the lasting room of a shoe factory.

Lasts cost money, so most shoe factories run short-lasted. The shoes are on in the morning and off at night.

Consequently the leather retains all its original stretch and shrink, and corns result.

"Slater" shoes are left on the lasts long enough to take all the stretch and shrink forever out of the leather. So, if a "Slater Shoe" fits when it is tried on it will fit till worn out, and retain its shape.

The "Slater Shoe"

Made in Canada 40 Years.
Men's and Women's, $3.50 and $5.00.
Boys' $2.50 and $3.00.
Sold in 15 "Slater" Stores and 200 Agencies.
"Slater" Shoe Polish Prolongs Shoe Life.

—No. 8 Company, 57th Regiment, commanded by Lieut. A. W. McPherson, will assemble in the drill shed this evening to re-continue fitting out.

—Mr. Ernest G. Rooke, of the Winnipeg Telegram editorial staff, has resigned his position on that paper, and has purchased the Times of Port Hope.

—Collectors of rare stamps will be interested in noting that at a sale of the valuable collection owned by the late Mr. Wm. Masterson, County Court Judge, at Nottingham, Eng., (cousin of Mr. F. K. Begbie, town,) some remarkable prices were realized. The bids varied from £3 to £92, the latter figure being paid for a British Guiana four-cent black on blue, corners clipped, used on original and of extreme rarity. A similar specimen, says the Nottingham Post, was sold in 1890 for £35.—Lindsay Post.

Slaughter Sale of Footwear.

It will be to your interest to attend the unreserved sale of boots and shoes at M. Murty's store, on Hunter street. The entire stock must be sold. Slaughter prices will be the rule until the entire stock is disposed of. The stock is well assorted in men's, women's and misses' wear and all seasonable styles—suitable for all classes and the low prices make lively buying. 3d81

Student's Easter Rates.

The Grand Trunk will issue to students and teachers of schools and colleges, on surrender of standard certificate, signed by the Principal, return tickets at Single Fare and One-third; going April 4th to 11th, inclusive. Valid returning until April 21st, 1903. Further particulars in another column of this paper, or from W. Bunton, C. P. & T. A., Peterborough. 10d74

CLOSING GYMKHANA

Of the Classes of the Y. M. C. A. Gymnasium.

The closing exercises of the Y.M.C.A. Gymnasium Classes, will take place on Tuesday evening, April 7th, in the Y.M.C.A. Gymnasium.

These exercises will cover all the work which has been done during the past half year; that is to say, they will comprise fencing, marching, chorus, apparatus work, bag punching, wand and bayonet drill, relay racing and tumbling, etc.

The local Y.M.C.A. authorities expect a large number of people, either personally interested or otherwise, and all who intend going are advised to be at the gymnasium as early as possible. The gymkhana will commence at eight o'clock sharp.

SOCIAL AND PERSONAL.

Miss Washington, of Bethany, is in town to-day.

Mr. G. N. Brown of Belleville, was in town to-day.

Mr. W. F. Cairns of Lindsay, was in town yesterday.

Mr. Fred Peake of Campbellford, was in town yesterday.

Mr. George A. Anderson has registered at the National.

Rev. D. O. Crossley of Bowmanville was in town yesterday.

Mr. George Bradburn, of Parry Sound, is in town to-day.

290 GEORGE STREET

OBITUARY.

The Late Mrs. Thos. Barrie, Sr.

One of Peterborough's oldest residents passed away this morning in teh person of Mrs. Thomas Barrie, senior, mother of Mr. Thos. Barrie, at the venerable age of 84 years. She passed away at the residence of her son on Gilmour street. Death was due to paralysis and a general breaking-up of the constitution.

The late Mrs. Barrie's maiden name was Esther Deyell, being a daughter of the late John Deyell, one of the first settlers of Cavan. She was born at Centreville, where she continued to reside until 18 years of age. She was twice married, first to the late Thomas Ryan of Otonabee, and subsequently to Mr. Thos. Barrie, who predeceased her about 23 years. About 28 years ago Mrs. Barrie moved to Peterborough, residing at 38 Gilmour street. She was all her life a consistent member of the Methodist church, and for years took an active interest in its affairs, until about four years ago, when failing health compelled her to remain in doors. During the last seven years she has made her home with her daughter, Mrs. M. A. Morrison, and only last week she went to visit her son, where two days later she was taken ill and gradually sank until the end came.

Her surviving children are Mrs. A. P. Morgan, town; Mrs. W. Mann, Bridgenorth; Mrs. Alex. Hamilton, Warren, Ont.; Mrs. Kimball, Kansas; and Mrs. M. A. Morrison, town; Mr. John Ryan, town; Wm. R. Ryan, Michigan; Thomas Ryan, Atlanta, Georgia; and Thomas Barrie, of town.

The funeral will leave the residence of her son, Thomas Barrie, Gilmour street, at 3.30 o'clock, on Wednesday afternoon, and proceed to the Little Lake cemetery.

The Late Mr. William Fleming.

Mr. William Fleming, who has been a prominent figure around Peterborough for many years, died at St. Joseph's Hospital, on Friday last. He died at the mature age of 74 years, and in his younger days was recognized as a man of great physical strength. The deceased was a milk vendor by trade, and had obtained for himself a character for honesty and industry.

The deceased leaves a family of five children, who will greatly feel the loss of their late father.

The funeral took place this afternoon at 2 o'clock.

THE CHURCHES.

ST. PAUL'S.

At St. Paul's church, yesterday, Miss Effie Best sang very excellently Cowan's "Promise of Life."

ST. PAUL'S MISSION.

At St. Paul's Mission, last night, Mr. Lawrence sang an evening hymn which was highly appreciated.

ST. ANDREW'S CHURCH.

At St. Andrew's Presbyterian church, last evening, the choir sang in excellent manner, under the leadership of Mr. Lloyd, the anthem "I Lay My Sins on Jesus," Miss Miller and Mr. Morgan taking solo parts very acceptably. Mr. Morgan also rendered a solo. His rich bass voice was heard to good advantage.

ST. LUKE'S CHURCH.

The Holy Communion will be administered on Easter Sunday at 8 a.m.m and at 11 a.m. Special music has been prepared for the Easter services. The Easter Vestry meeting will be held on Easter Monday at 7.30 p.m. The Holy Sacrament of Baptism will be administered on Easter Sunday at 10 a.m.

ALL SAINTS' CHURCH.

At All Saints' church last night, Miss Mary Rush sang "The Palms," in her usual devotional style, and is to be heartily congratulated on the excellence of her voice.

Rev. W. L. Armitage preached the last of a series of sermons on "The Prodigal and his Brother." During the course of his very eloquent sermon the preacher pointed out that while the prodigal was wrong in leaving home, his brother, who was angry at the reception tendered the prodigal on his home coming, was by far the more contemptible of the two.

ST. JOHN'S CHURCH.

Yesterday having been Palm Sunday the services which were largely attended, both morning and evening, had special reference to the occasion. The music shared in this idea. In the morning Mr. Morphet sang as a solo, Parker's "Jerusalem." His usual finished and effective style of work characterized the rendering of the selection. In the evening at the offertory Miss Sherwood sang Faure's "The Palms," especially the second and third stanzas, after the passing away of a little nervousness, which marked the first stanza, in a very sweet, sympathetic and effective manner. In the "Story of the Cross" Mrs. Seward took, with fine voice and fitting expression, the first part, the rest being sung in chorus.

GEORGE STREET METHODIST.

In the absence of the pastor, Rev. Mr. Wilson, who was in Bowmanville preaching Educational Sermons, the pulpit of George street church was occupied yesterday by Rev. D. O. Crossley, of Bowmanville, formerly pastor of Charlotte street Methodist church. Large congregations greeted Mr. Crossley both morning and evening and listened to two very thoughtful discourses. In the morning Mr. Crossley took as his text the words, "Whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report, think on these things." The evening sermon was addressed more particularly to the young people on the subject of "Friendships."

The music throughout the day was of a very pleasing character. In the morning the choir sang the anthem "Nearer My God to Thee," and the offertory solo "The Cross is not Greater than His Grace," was given by Mr. Mulligan with chorus by the choir. In the evening the anthems "While the Days are Going By" and "Through the Day Thy Hand Hath Led Me," were given, Miss Bertha Parnell taking the soprano solo in the former.

WATER RATES.

The Water Rates for the quarter beginning April 1st are now due and payable at the Town Buildings and the bills are being delivered. If paid by April 15th 20 per cent. discount will be allowed.

S. R. ARMSTRONG, Sec.

ARM BROKEN.

Mr. Albert Hunter Met With an Accident.

Mr. Albert Hunter, of North Monaghan, the well known milk man, met with an accident on Saturday that will lay him off work for some weeks. Mr. Hunter, along with Mr. Aaron Cox, was looking at a horse in Mr. Cox's stable, when the animal let one of his hind feet fly, striking Mr. Hunter on the left arm breaking both bones. The injured limb was set and Mr. Hunter is resting easily.

VETERANS' CERTIFICATES.

Another Issue of 30,000 to be Sent out Soon.

It is expected that a new batch of veterans' certificates, numbering 3,000, will be sent out by the Crown Lands Department on April 15th. This will bring the total issue up to nearly 10,000 with several thousand more to be dealt with.

GOOD YEAR FOR LUMBER WOODS

This Year's Cut Better Than was Expected.

Advices to the Crown Lands Department, Toronto, show that the facilities for getting the winter cut of logs out of the northern woods were better than had been expected, and that not many will be tied up; in fact less than last year. The cut this year has been a heavy one.

The new Grocery in connection with R. A. Button's Fruit and Fish Store will be opened on Tuesday next, April 7th, with a full and fresh stock of Choice Family groceries.

BIRTHS.

CONNER.—At No. 5 Walton street, Peterborough, on Wednesday, April 1st, 1903, to Mr. and Mrs. W. A. Conner, a daughter.

PETERBOROUGH BOOKSTORE.

Richard Hall & Son

PETERBOROUGH'S MODERN STORE.

Easter Hats

Come as early in the week as possible and leave your order for your Easter Hat with our Milliners and save the rush and the crush of the last day or say, you will get better attention and better results. Our millinery is the kind that you want; exclusive styles, and moderate prices combine to make this store the centre for Millinery.

Easter Gloves

No doubt you will want a pair of new Kid Gloves for Easter. You can get **Perrin's** celebrated Kid Gloves at this store in nice new fresh goods and all the proper shades, and you don't have to pay any more for the best here than other people ask for ordinary gloves. REMEMBER you are perfectly safe in buying **Perrin's Gloves** for you have the maker's guarantee as well as ours.

Easter Ready-Made Suits

Select styles and the best workmanship combine to make our Suits and Skirts considerably better than the ordinary, we have to pay more than the regular price to have them tailored to our order, and you can see by a glance at our garments the difference.

We are daily receiving additions to our stock in this department, and will be pleased to have you compare our styles and prices.

Novelties for Easter

Our stock of Neckwear, Collar Tops, Belts and other novelties has been specially replenished for Easter and include some decidedly pretty new ideas.

DO YOUR EASTER SHOPPING HERE.

THE HORSES HAD THE MUD FEVER.

Something About the State of the Streets in Lindsay.

The Fenelon Falls Gazette says:—"We doubt whether any town as old, as big and as wealthy as Lindsay can boast, or feel ashamed of, as much mud. We were there on Monday, and can only do justice to the roads by describing them as a 'holy fright.' The hotel buses had discontinued their trips to the railway station, because, it was alleged, the horses were all laid up with mud fever, which Dr. Mason tells us is the correct name for 'scratches.' Some kind of a machine—probably a grader or cultivator—was being drawn along Kent street by four horses abreast; but what advantage it was supposed would result from their labour we could not conjecture. What they want in Lindsay is a breed of horses about thirty hands high, and we are surprised that punts are not substituted for wheeled vehicles during the spring and fall. The mud of Lindsay looks like dirty putty, and from its stickiness one would imagine that a little glue had, somehow or other, got mixed with it. Seriously, we think the people of our county town have made a mistake in dribbling out money for the improvement of their streets instead of spending a whole cart-load of it at once; but, of course, we don't pretend to be wiser than they are, and only express an opinion instead of making an assertion."

CRIMINAL INDIFFERENCE.

Traveller Affected With Small-pox, Distributed Samples.

The Provincial health authorities are incensed at the action of a commercial traveller, who is said to have recently started out from Lindsay with a well developed smallpox rash on his face, and travelled for a week in the northern part of Peterborough County. From this scattering of smallpox microbes outbreaks are said to have occurred in four or five places.—Globe.

An Old Timer.

China Hall announces in another column, one of its old-time clearing sales—the first in four years. The public will remember these sales, and the genuine bargains given at them, and will not be slow to take advantage of this opportunity to get first class goods at low prices. The sale begins on Saturday, April 4th. 4d1w

MINISTERIAL ASSOCIATION

Met in the Y. M. C. A. Parlours This Morning.

A meeting of the Ministerial Association was held in the Y.M.C.A. parlours this morning at ten o'clock. In the absence of the chairman, Rev. J. P. Wilson, Rev. Dr. Torrance was appointed to act in his stead. There were present, Revs. J. C. Davidson, W. L. Armitage, J. Kilgour, W. J. Jolliffee, J. G. Potter and J. D. Wilson. Rev. J. G. Potter, pastor of St. Andrew's Presbyterian church, read a most interesting paper on "Ignatius Loyola," which on its conclusion was laid open for discussion by those present. After this the meeting adjourned.

RELIGIOUS INSTRUCTION

In the Public Schools of the Village of Ashburnham.

For some time past Rev. E. A. Langfeldt, rector of St. Luke's church, Ashburnham, has been conducting a course of Bible study in connection with the Public Schools of the village. The children of all demoninations were given religious instruction for a half hour on Friday afternoon of each week. The examinations following the course of instruction were recently held, and prizes were won by Miss Lizzie Telford, who carried off 96 marks out of 100, and Miss Grace Hartley, who obtained 82 marks. These two young ladies were presented with handsome medals with the following inscription thereon:—"Awarded to ——, March, 1903. Reward for efficiency in Religious Instruction. A. P. S."

In the junior class Fannie Long and Willie Maneice were successful in carrying off 25 marks out of a total of 25.

The medals were obtained from Mr. Alex. Gibson.

COUNTY POLICE COURT.

County Police Magistrate Edmison at Havelock.

County Police Magistrate Edmison went to Havelock this morning for the purpose of holding a court there. The following cases come up before His Worship:

Jas. A. Lawrence, of Belmont, is charged with stealing fifty sawlogs, the property of Albert Nicholls, and bigamy. It is charged that about 18 years ago Laurence married Hannah Airbart, and while she was yet alive, married Sophrima Munro.

George Parcels appeared under two charges; these were wilful perjury, and obtaining money under false pretences.

Crown Attorney R. E. Wood, and High County Constable Coubrane also went to Havelock.

INLAND REVENUE RETURNS.

Large Increase Over the Figures of Last Year.

Further indications of Peterborough's prosperity are afforded by the Inland Revenue returns for Peterborough for the month of March, 1903. The collections this year amounted to $6,759.15, as compared with $4,408.75 for March of last year, an increase of $2,350.40.

Inland Revenue is largely derived from luxuries and the fact that luxuries have been more largely used, is an indication of greater prosperity on the part of the people.

James Potter Keough, of New York City, will teach in Peterborough, giving a special course in voice culture during spring and early summer. Illustrations for lady pupils by Alice Killin Keough. Apply at studio, 220 Brock street (Mrs. W. J. Hall's) for circulars, terms and appointments.

MEMORIAL SERVICE HELD YESTERDAY

For the Late Mr. Frank A. Walden.

St. Andrew's Church Honour a Departed Adherant—Pastor's Eloquent Address.

A very solemn memorial service for the late Mr. F. A. Walden was held yesterday morning in St. Andrew's church, of which place of worship the deceased was a conscientious member and an active worker. A large congregation was present to pay their tribute of respect to one, who for the last ten years has been one of their number.

The music was throughout most appropriate, the hymns, as suitable, and the eloquent sermon preached by the pastor, Rev. J. G. Potter, was, in silence, listened to, by an attentive and sympathetic congregation.

It was with profound regret that, the news of the late Mr. Walden's illness and subsequent death was heard in Peterborough. He was a young man, greatly beloved and respected.

The reverend gentleman took his text from the Epistle to the Philipians, 1st chapter and the 21st verse: "For to me to Live is Christ, and to Die is Gain."

Rev. Mr. Potter commenced his memorial by expressions of regret that, ministers were not always able to be with a sick man, during the point when life and death are balancing in the scales. Physicians are right in forbidding, the unwelcome intrusions of visitors, during this critical time, but often a man is not ready to die, he has not prepared himself for what we all know, as the inevitable, and when the time comes he finds himself unable to give an account of his earthly deeds. We ought not to fear death, for, as the Apostle points out, "To die is gain." If we were to live Christian lives, and walk before the face of the Lord, we should not fear death, we would look forward to the after life as a reward for faithfulness. Speaking of the one, who had so recently died, the preacher said, his life has been a life in every sense exemplary. He never sought to put himself before the eyes of every one, yet he earnestly sought devotion, and loyalty, and was in every way a true and independent follower of Jesus Christ. A man of fast integrity, genial, generous, benevolent; no appeal for the helping forward of the church's work had ever been made from this platform but that, he, in someway or other gave his help, no matter how small. This is a lesson that should be taken to heart; no matter how small the help is that you give, give it, and one day it will be rewarded. He recognized every work as the work of God, which He has given us to do, and did it, putting all his life and soul into so doing.

If ever a man was prepared to die, he was. His life in the office or in the home was ever the same; everywhere he was, he acted and thought as a true Christian should. He recognized, that, as a Christian he could not do a mean, underhand trick. This is a mistake made only too often nowadays. Men say because they are of such and such a profession they cannot be Christians. This is a mistake which often ends fatally. I have been told by commercial travellers that they often cannot sell their goods without they first "treat" their prospective customers to a drink. This is an unchristianlike action on the part of the traveller and is also injurious to the buyer. Yet never in all his life was Frank Walden known to do such a thing, yet, he was always faithful and ever made his master's interests his own. Day after day, night after night he made another man's interests his own, yet on Sunday he was always in his seat in church. Every Sunday afternoon, he might be seen with his little son, going to Sunday School to worship God. When he came to Peterborough some ten years ago, he found St. Andrew's church in need of help. That help he willingly gave, and it can be safely said that from that day to this he put his whole life into the work of the church. As persistently, as does the needle of a compass turn to the north did he turn his face towards his Creator, and was well prepared for the day, which at last has dawned. Well could he say: "I have fought the good fight of faith, I have laid hold on Eternal Life, whereunto I am also called." And now after years of earnest devotional work and prayer he has received the crown, which has been waiting for him in the Everlasting Kingdom of Heaven.

The service closed with the Benediction which was given by Rev. Mr. Potter.

The undersigned has received instructions to sell by public auction on the premises, No. 571 Water street, the household effects of the late F. A. Walden, on Wednesday, April 7th, at 1 p.m. JOHN HAGGART, Auctioneer.

Sweet Pea Seed.

My selections are from the finest strains of American growers, and include the improved large-flowering varieties of recent introduction. They are remarkable for their wide range of colour, brilliancy and profussion of bloom. The seed should be sown now. Also nasturtium seed—many beautiful sorts—so ornamental that they deserve a place in every garden. Sweet pea and nasturtium seed for sale by the ounce or in any quantities. Jos. H. Cobb, Aylmer Street Greenhouses. Open till 10 o'clock at night. 'Phone 132.

Wall and Window Wants.

All this week, at The Peterborough Bookstore we will make a specialty of wall paper, window shades and cornice poles. Everyone who has saw our designs and colourings in wall paper concede the fact that we have the daintiest wall paper ever shown in Peterborough, and the prices are within the reach of all. In window blinds our lace effects and lace insertions are all new this year and make very effective window decorations. We are in a position to show you the newest in oak and oberry cornice poles and trimmings in silver, also gilt trimmings, and our prices, as usual will be as low as the lowest. Pictures and picture framing. A. H. Stratton & Co., 417 George street.

THE SERVICES AT CHARLOTTE STREET.

Rev. Mr. Jolliffe Preached Second of Series.

On the Subject of "Eternal Punishment"—Large Congregation.

Both services at the Charlotte street Methodist church yesterday were of a particularly impressive nature. In the morning sixty-four, many of whom were young people, were received into communion with the church. The Rev. Mr. Kilgour spoke very earnestly to the elder portion of the congregation regarding their duty to the younger members, while the Rev. Mr. Jolliffe addressed more particularly the new communicants.

The evening service was well attended, and in point of interest was fully up to that of the previous Sunday. The sermon was the second of the series, and dealt with the question of eternal punishment. The discourse was founded on the passage found in Matt. xxv, 41, "Depart from me ye cursed into everlasting fire, prepared for the devil and his angels.

In introducing the subject, Rev. Mr. Jolliffe remarked that owing probably to the spirit in which men formerly approached this question, it was not so frequently discussed, and if ever a man needed a heart of love, it was in the presence of this subject.

The great majority of men believe in both a future state and a future punishment, but believe in a future state but reject a future punishment. Theodore Parker, the Unitarian, says that Christ taught eternal punishment, which he could not accept on the authority of Christ. We believe Christ taught it, and we do accept it on his authority. It is not surprising that men do not believe in future punishment. Criminals do not believe in the propriety of punishment, but we all believe in present punishment, especially if the injury come near to us. There are three views of the future state in addition to that of eternal punishment. First, Universalism, that everyone will be brought into a state of happiness; second, that there shall be some suffering, but a final restoration to happiness; third, that the wicked shall be annihilated. These three contradict one another and the teachings of Scripture.

The fire of eternal punishment is not material, nor for material things—it was prepared for the devil and his angels, and these are spirits. It is not purgatorial in its its nature; in the ages that have passed since the fall of Satan and his hosts it has not purified them. The hope of no future retribution is founded on the character of God. Men say that God is too good to condemn His children to everlasting torment. At this point Rev. Mr. Jolliffe quoted Bishop Butler to the effect that we make too free with the goodness of God, and that the aim of the Deity was not to produce happiness, but to make good, faithful, honest men happy. Divine love sought man, and tried to win him back, and if he is lost, it is a matter of choice with the sinner, not with the Judge. The argument advanced is worthless, because it argues only from one premises. God's character is only one factor in the present or ultimate state; ours is the other. Man is not only what God made him, but also what he has made himself, and as we cannot ascribe his present condition to the character of God, neither can we forecast His eternity from the character of God alone. If we suffer in the future it is because we will to do so. Rev. Mr. Jolliffe gave an exceedingly apt quotation from Dr. Parker, showing that punishment was a consequence and not a penalty.

Continuing, the speaker pointed out how man turned God's choicest blessings into curses, how some suffered physically all their lives because of ignorance or wilfulness. So in the spiritual life, sin is the disease, Christ is the physician and those who reject His healing must take the consequences, and as man's offence was like that of the devil and his angels, what more natural than that they should be consigned to the same place. A learned English Theologian was quoted to combat a second probation and the Beecher, to the effect that to doubt future punishment was to doubt the divinity of Christ.

Of the nature of this punishment the speaker wished to say but little. It was banishment from God's presence, into outer darkness, from the presence of God forever. It is written—"The wicked shall eat the fruit of their doings." their worm dieth not and the fire is not quenched. What then concerns man most then is to live right that his Eternity might be spent in the presence of the Father.

The music of the evening service was excellent. The voluntary, "The King of Love," was well rendered, the parts being nicely balanced and the solos effectively taken by Mrs. Pearse and Mr. Willison. Miss Bellegrem's voice was heard to advantage in the solo, "A Few More Years Shall Roll," while the quartette, "Guard While I Sleep," by Mrs. Pearse and Miss Belleghem and Messrs. Weir and Mitchell proved a most delightful part of the service.

The Beehive

"Whatever We Do, We Do it Well."

Advertising in The Examiner Pays

OVER-DRAWING THE ACCOUNT

Every hour in the day you are using up nerve force, body tissue, blood cells energy — everything that means health Always taking away, always borrowing— do you ever pay it back? The thin body and pale blood say no; the reserve force is about gone. There is a general weakness and the body is run down. You have overdrawn your account; you must make up the deficiency, but how?

Scott's Emulsion makes it up with interest. It will clear you of the debt you owe health and give you a working surplus of solid flesh, good blood and healthy tissues.

In Scott's Emulsion the necessary element of fat is plentifully supplied in the most palatable and easily digested form. It enters the system quickly and without effort. There's no tax on the digestive organs—no strain on any part of the body.

We'll send you a sample free upon request.

Residence—176 Harvey street Peterborough.

POVERTY OF OXFORD

FAMOUS UNIVERSITY SAID TO BE IN DIRE NEED OF FUNDS.

Generally Supposed to Be Rich—Correspondent Says the Holders of Rhodes Scholarships Will Marvel at Lack of Equipment—The Great Seat of English Learning Declared to Be Too Poor to Keep Abreast of the Times.

When Cecil Rhodes decided to found scholarships for American, German and colonial students at Oxford, he could not have been well informed as to the needs and financial condition of the historic university, says a London correspondent. Had he been so, he probably would have made still another bequest to provide his beloved alma mater with modern equipments, the lack of which is daily becoming a greater embarrassment and handicap to the famous institution. For, although Oxford has the name of being one of the richest universities in the world, it actually is too poor to afford a large enough staff, or even sufficient books and accommodation to enable it to keep abreast of other institutions of its class, to say nothing of outranking them.

It is now being said openly in England that when the Canadian holders of the Rhodes scholarships reach Oxford they are likely to be much less impressed with the beauty, age and stateliness of the classic university than by its lack of proper equipment. Simply because there is no money to provide them the celebrated Bodleian library at Oxford is practically without foreign works on philosophy or on political economy.

Its stock of books on modern history is so comparatively scant that it is no exaggeration to say that the scientific study of European history cannot now be carried on at Oxford. For the same reason there is no equipment at all for the study of mineralogy, a subject which, it seems likely, the holders of the Rhodes scholarships will be especially anxious to pursue. There is only one professor to teach geology, there is no mechanical laboratory, while the arrangements for the studies of electricity and magnetism were described by one who knows Oxford well as "nothing but a brilliant professor lecturing in a tin shed with scarcely any apparatus and on a scanty income."

The Assyrian language is now taught in almost every important university, but it cannot be studied at Oxford, and neither can rabbinical Hebrew, a tongue with an important bearing on the study of the Old and New Testaments. Though there are now millions of Buddhists under the British flag, Pali, the sacred language of that faith, is not dealt with in the Empire's most famous institution of learning.

Oxford is about the last place in the world which would strike the visitor as to the slightest extent in need of funds. Its buildings are impressive, and the ceremonials connected with them are stately. The great halls are decorated richly, and there is a general air of prosperity, if not luxury. The university has the reputation of being immensely wealthy, and so it is; but to-day its expenses almost equal its income. The different colleges all are well to do, but each one of them spends nearly all its income on its own needs and sets only a small percentage aside for the use of the university as a whole.

In Oxford's present state every additional student means an extra strain upon the university's exchequer. And Mr. Rhodes' scholarships will make an addition of one-seventeenth to the number of undergraduates.

Oxford is so poor to-day because she is supposed to be so rich. Huge gifts to colleges are not common in England, but there is no lack of rich men who would loosen their purse strings for Oxford's benefit quickly if they could be made to understand that the famous university is really hard up.

The Mother of a Sailor.

Mrs. Emma Haines walked from London to Plymouth, at the age of seventy-five, on a fruitless effort to see her sailor son. Mrs. Haines, with a very scanty store of money, started for London early in October, and for the best part of the first week she covered as much as twnety miles a day. In a little while, however, the poor old lady found her strength lessening, and soon she could only compass a few miles a day. As her funds grew scantier, she made valiant efforts to push on, whatever the weather, and for three consecutive days she toiled with weary steps through a heavy downpour of rain. Her greatest difficulty was to obtain lodgings suited to her means. In many villages she found this impossible, and had to stagger on to the next place. Dapite all these difficulties, however, she only rode the last nine miles of her journey, over which a gentleman gave her a lift in his cart. At Plymouth she was confronted with the staggering fact that the son on whose behalf she had tramped over 250 weary miles was posted as a deserter. Sick at heart, with her little store of money all but exhausted, Mrs. Haines set out on her dreary journey homeward. She got feebler every hour, and at last, at Tiverton, she quite broke down, and had to seek refuge in the workhouse, where she still is.

Fresh Egg Test.

A good way to tell a fresh egg is by the air bubble on the large end. The smaller the air bubble the fresher the egg. A fresh egg must be examined closely to see the air bubble.

A Weapon of Ill Omen.

A weapon of ill omen was the pistol used by Hugh Miller, the famous English geologist. While having a bath he shot himself with it, and it dropped into the water. It was sent to the gunmaker's to be cleaned. He took it in his hand, when it went off and killed him on the spot.

MARKET REPORTS.

Liverpool Wheat Was Firmer, But Chicago Prices Declined Saturday—Live Stock Markets—The Quotations.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.
Hall's Family Pills are the best.

North Grey Protested.

Toronto, April 6.—On behalf of the defeated candidate at the last election in North Grey for the Commons, Kerr, Davidson, Paterson & Grant on Saturday filed a protest against the return of Mr. Thompson, the present member. The usual allegations of bribery and corruption are made.

A LONG SENTENCE.

One That Discounted the Longest One Evarts Ever Uttered.

Abram S. Hewitt had a very nimble wit and dearly loved a joke. He was once a guest at a dinner which included Recorder Smyth and Senator Evarts. The recorder was poking fun at the senator and read from a newspaper clipping what purported to be a sentence from a recent speech made by the senator, but which was in reality wholly fictitious, as the senator knew quite well. At its conclusion the laugh was long and hearty at Mr. Evarts' expense, and no one laughed longer or heartier than the senator himself.

As soon as the laughter had subsided Mr. Hewitt suddenly leaned across the table and, looking rather sternly into the smiling face of the recorder, said in a well assumed tone of reproach:

"That certainly is a remarkable sentence, your honor, but criticism of it does not come well from you if today's newspapers are to be believed, for they contain a sentence of much greater length which is attributed to you."

"Why—why, how is that, Mr. Hewitt?" inquired the recorder, with considerable confusion.

"Because," said Mr. Hewitt, with the utmost gravity and that grim smile which always accompanied his best sayings, "you are there quoted as uttering a sentence that was to last through the whole life of the prisoner."

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

Wonderful Things In Heredity.

It is a fact well established by students of heredity that children are apt to inherit not only the physical, mental and moral traits of their parents, but to be influenced by their age as well. Children born of very young fathers and mothers never attain so vigorous a growth of mind or body as those of older men and women, while children of old people are born old.

One of the most surprising cases in medical history is that of Marguerite Cribsowna, who died in 1763, aged 108 years. When ninety-four, she was married to a man aged 105. Three children came of this union, but they had gray hair, no teeth, were stooped, yellow and wrinkled, decrepit in movement and could eat only bread and vegetables.

A Very Old Hat.

Among the treasures in the safe custody of Corpus Christi college, Oxford, is an old, old hat which was found in an Egyptian tomb and must date back at least 5,000 years.

Its simplicity of make has been its safeguard, for it has no nap or perishable trimmings, such as moths might corrupt. It is closely akin to what is now known as a panama straw hat and is of such excellent quality that it can be folded or crushed without any harm to its appearance. It is also quite as well adapted for practical use now as it was in the days of the pharaohs.

Keeping Track of Ships.

In the course of a year more than a dozen ponderous books are filled at Lloyd's with nothing but the names of ships, their captains and the dates on which they touch and leave port. Every known vessel in the world of more than 100 tons register has its record in them, and the underwriters can easily turn to the name of any British or foreign ship and tell approximately where she is at the moment.—London Tit-Bits.

Pneumonia More Fatal Than Smallpox.

Statistics Show a Rapid Increase of Deaths from Pneumonia — Prevention and Cure Found in

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE.

Ten times as many people die of pneumonia as of smallpox and yet the fear of smallpox is so great that many people almost forget that there is such a disease as pneumonia.

Health authorities are spending hundreds of thousands of dollars to stamp out smallpox and ignore the conditions that cause pneumonia. Damp, unventilated houses, dirty alleys and streets, stagnant pools of water, insufficient food and clothing —all these things cause pneumonia.

Any one who is in a weak and run down condition and contracts a cold is liable to have pneumonia, and, therefore, the object of every person should be to keep their health at high water mark by the use of such a blood builder and nerve restorative as Dr. Chase's Nerve Food.

Should you find yourself the victim of a cold that has fastened itself on the bronchial tubes causing difficult breathing, pain in the chest or lungs when coughing or other indications of approaching pneumonia, there is no preparation that will help you so promptly as Dr. Chase's Syrup of Linseed and Turpentine.

No offhand prescription from a doctor, hastily written and hastily compounded in a drug store, can be compared to this great treatment which has so firmly established itself in the homes of this land.

Dr. Chase's Syrup of Linseed and Turpentine is mother's favourite remedy for croup, bronchitis, whooping cough, coughs and colds, and is wonderfully effective in relieving and curing asthma. Twenty-five cents a bottle, at all dealers, or Edmanson, Bates & Co., Toronto. 9

TEACHER OF ART.

Mrs. L. McCARTHY will open a class in Oil and China Painting. Studio—405 Donegal street. Terms moderate.

Dr. Wood's

Norway Pine Syrup

Cures Coughs, Colds, Bronchitis, Hoarseness, Croup, Asthma, Pain or Tightness in the Chest, Etc.

It stops that tickling in the throat, is pleasant to take and soothing and healing to the lungs. Mr. E. Bishop Brand, the well-known Galt gardener, writes:—I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death. My wife got me a bottle of DR. WOOD'S NORWAY PINE SYRUP, and to my surprise I found speedy relief. I would not be without it if it cost $1.00 a bottle, and I can recommend it to everyone bothered with a cough or cold.

Price 25 Cents.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto • • The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

NEW BRITISH RIFLE

A Stumpy Weapon to Replace Lee-Enfield —Possible Defects Alleged of It in British Journals.

Some important and drastic alterations are being made in the Government small-arms factories consequent on the arrangement made by the War Office for the new pattern of rifle, the adoption of which roused considerable comments some months ago.

At Enfield Lock an extensive scheme of reorganization has just been commenced.

In the first place a recent order for 25,000 Lee-Enfield rifles has been canceled.

The newly adopted weapon is called the "Lee-Enfield Modified." Its mechanism, so it is claimed, is much less complex than that of the present Lee-Enfield; it is composed of a smaller number of parts, and is therefore turned out at less cost of time and material, and finally the "modified" is said to possess greater velocity of discharge.

The weapon, exclusively described some months ago in the columns of The Express, elicited some adverse comments.

The new rifle, it was urged, was stumpy in appearance, being the outcome of an idea to provide all branches of our service with a small arm of one uniform pattern. It is, in fact, really a compromise between a rifle and a carbine.

It is five inches shorter than the existing rifle, which would certainly suggest that the full effectiveness of the infantry arm is in danger of being sacrificed to the hardly equal advantage of uniformity.

For with a diminished length of barrel the backsight and foresight are brought much closer together, thereby increasing the possible angle of error in aiming, and causing a most regrettable loss of accuracy at the longer ranges so common at the present day.

The loss of reach in a bayonet fight also, should be a consideration.

Another novelty about the new weapon is provided by the barrel, which is entirely covered by a wood casing up to about an inch of the muzzle—an improvement which will undoubtedly be fully appreciated.

Some critics have dealt rather severely with the system of sighting. The back-sight, compared with the existing pattern, is somewhat clumsy to look at. The flap is large, and provides for adjustment up to considerable range without being raised, this only being necessary at extreme distances from the objective. Despite appearances, this arrangement is advantageous.

The backsight is practically the only portion of the barrel of the rifle which emerges from the wooden casing. This so thoroughly envelopes the barrel that heat radiation, which in the present pattern is disseminated over the whole exposed length, is likely to concentrate itself at the only outlet to be found—at the backsight and immediately in front of the eye of the firer. This is a possible defect which would minimize the accuracy of the arm.

The introduction of a hooded foresight is also open to objection as being unsuited to rough-and-ready conditions of active service.

For loading the carrier system is adopted.

In order to prepare the Enfield Lock factory for the manufacture of the new rifle, it is necessary that much of the machinery shall be altered and new machines laid down.

Engineers have this week commenced the work of conversion, but it was stated at Enfield recently that the Government does not intend to start the manufacture of the "modified" arm until about June next.

The same process of reconstruction is, it is understood, being arranged for at the Government small-arms factory, Sparkbrook, Birmingham; at the Small Heath small-arms factory, and at the works of the London Armory Company, Old Ford, E.

Considerable dissatisfaction exists at Enfield Lock that the Government should have chosen the winter for the change.

Restrictions of employment in regard to the machine-gun department are anticipated at Enfield and the Vickers-Maxim Company's works at Sheffield.—London Express.

Lumbago

is Rheumatism of the back. The cause is Uric Acid in the blood. If the kidneys did their work there would be no Uric Acid and no Lumbago. Make the kidneys do their work. The sure, positive and only cure for Lumbago is

Where Women Vote.

As the arrangements for the enforcement of the provisions of the Australian Federal franchise and electoral acts proceed, says The London Chronicle, the immense weight which the new female vote will exercise in future elections becomes increasingly apparent. Several sporadic estimates have been made as to the composition and distribution amongst the States of the full strength of an electoral roll, which will include the names of every adult person, male or female, who has resided in Australia and in a given constituency for six months, but until January nothing official had been advanced in anything but a tentative manner. Now, however, the Federal Government announces that its officers expect to enroll 1,826,000 persons, divided amongst the States thus:—

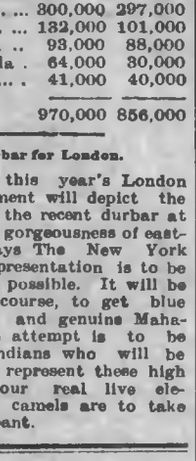
State.	Males.	Females.
New South Wales...	340,000	300,000
Victoria	300,000	297,000
Queensland	132,000	101,000
South Australia ..	93,000	88,000
Western Australia .	64,000	30,000
Tasmania	41,000	40,000
	970,000	856,000

Delhi Durbar for London.

A feature of this year's London military tournament will depict the military side of the recent durbar at Delhi in all the gorgeousness of eastern splendor, says The New York Herald. The representation is to be made as real as possible. It will be impossible, of course, to get blue blooded Princes and genuine Maharajahs, but the attempt is to be made to have Indians who will be dressed up to represent these high potentates. Four real live elephants and two camels are to take part in the pageant.

"To say a pleasant word to anyone was almost impossible."

"I was troubled with female weakness for eight years; and suffered more than I can tell," writes Mrs. Gust. Moser of Ovando, Deerlodge Co., Mont. "My disposition was affected to such an extent that to say a pleasant word to anyone was almost impossible.



"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and also followed the advice given in the Common Sense Medical Adviser.

"I continued this treatment for three months, and to-day am as healthy and well as a woman can be. I cannot thank Doctor Pierce enough for his kind letters to me."

Womanly diseases, as a rule, spoil the "disposition," because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription.

After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Moser to perfect health. This great remedy for woman's ills, establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

Had to Give up and go to Bed.

Several Doctors Attended But Did No Good.

Milburn's Heart and Nerve Pills CURED.

Read what Miss L. L. Hanson, Waterside, N.B., says: "I feel it my duty to express the benefit I have received from Milburn's Heart and Nerve Pills. A year ago last spring I began to have heart failure. At first I would have to stop working and lie down for a while. Then I got so bad I had to give up altogether and go to bed. I had several doctors attend me but they did me no good. I could get no relief until urged by a friend to try Milburn's Heart and Nerve Pills. Before I had used three quarters of a box I began to feel the benefit and by the time I had taken three boxes I was completely cured."

Milburn's Heart and Nerve Pills cure nervousness, sleeplessness, palpitation of the heart, skip beats, and all troubles arising from the heart or nerves.

Price 50 cts. box, or 3 for $1.25, all dealers, or

MAORI TATTOOING.

Tortures Which the Women Undergo During the Process.

English explorers and scientists have brought back a series of remarkable specimens of Maori tattooing from the interior of New Zealand. The most astonishing designs were found on the faces of the women.

The faces and bodies of the women are so covered with these blue marks that they look as if they had on a tight fitting chintz dress.

The instrument employed in tattooing to obtain the deep furrows is usually made of bone, having a sharp edge like a chisel and shaped in the fashion of a garden hoe. Another style is made of a shark's tooth.

The tattooing of the women is commenced when about the age of fifteen or eighteen and continues until they reach middle age. Most of the masters of the art are professionals, who go from village to village and are highly paid for their services. The pattern about to be engraved is first outlined on the face with a small stick dipped in powdered charcoal, after which the skin is gashed, and the coloring or pigment is introduced into the cut flesh with a stick dipped into the liquid.

The coloring material used is generally the resin of a certain tree, which is burned, powdered and converted into a fluid.

The First Measure of Time.

It was the moon and not the sun which first suggested to mankind the circle of the year as a measure of time. The sun exhibits no changes of appearance, and his light obliterates all the landmarks of the sky. A luminary which is the same yesterday, today and tomorrow might give rise to conceptions of perfection and eternity, but beyond the alterations of day and night it could suggest to men's minds no abstract measure of time. But with our humble satellite it is far otherwise. The regularly recurring phenomena of new moon and full moon are too marked to escape the attention of the most obtuse and unreflecting of savages.

The motion of the sun may be compared to that of the minute hand of a clock, sweeping on hour after hour without leaving much record of its comparatively vast journey. The progress of the moon, on the contrary, may be likened to that of the hour hand, which registers the movements of its companion and resolves them into twelve well defined periods.

Engraving on Opal.

On account of the thousand fissures of the stone engraving upon opals is always difficult and often impossible. A head of Sappho engraved upon a "presumable opal"—an antique—has been highly valued and carefully studied by experts in gem lore. It is catalogued, so we read, among the treasures of a princely home.

Small Sheep.

The smallest representatives of the sheep species are the tiny Bretons, natives of Breton, France. When full grown, they are not much larger than a rabbit.

How Fish Breed.

No wonder the fish crop is never "short." The flounder lays 7,000,000 eggs annually, several others from 1,000,000 to 8,000,000, while the turbot is credited with depositing from 11,000,000 to 12,000,000 during each breeding season.

Growing Pains.

There are no "growing pains." Growth is a normal process and, like other normal processes, is carried on in health without pain or discomfort. Pain, no matter when or where it occurs, is always a danger signal, a cry that something is wrong, and its warning must not be silenced by calling it names. There are two sorts of pain which are more commonly than others called "growing pains," often to the lasting injury of the child. The first of these is felt chiefly in the knee. The child is usually thin and pale and is likely to be tall for his age. Perhaps he limps at times without being conscious of pain. The suffering is frequently worse at night. This trouble may be a beginning of hip disease. The other common variety of "growing pains" is seen in healthy looking, well nourished, red cheeked, active children. In such cases the pains are usually in the muscles of the arms or legs, although sometimes in a joint. These are very often, if not always, rheumatic. A child should certainly not be encouraged to run to its mother with every little ache, but when it is evidently suffering from severe, persistent or frequently recurring pains it should be examined by the doctor.

Home Millinery.

Among the subtleties of dress that may mean much are the right and the wrong way of putting on millinery. The difference between the two methods is slight perhaps, but of the highest importance. It is noticeable that in the milliners' shops madam always poises her hats and toques on her customers' heads precisely as they should be worn. Should she perceive an alteration requisite in order that the profile may be improved or some defect remedied she makes the necessary change. What the home milliner should study particularly when she trims her hat is the side view. The front and back ones she does not usually neglect, but the side view of a hat made by an inexperienced person often reveals a curious hiatus, a blank that ought to be filled in either by the rippling hair or by a twist of velvet or taffeta or a clump of small flowers judiciously arranged. It is also a great mistake to let the lining show there, as it so often does, or to allow a tunnel to be suggested at the back for want of some softening chiffon or taffeta.

Talking About Canada.

In 1775 the loyalists of the American Colonies flocked to Canada. The same feeling is still strong. Even if England were disposed to trade off Canada for some American possessions, the Canadian people themselves would never consent. The ideal condition probably cannot be expected for hundreds of years. Probably the people of the United States would object strongly against union with Canada, just as Canadians themselves would object to an absorption by their greater neighbor.

On thing is particularly noticeable in this connection. American capital is flowing over the Canadian line much more rapidly than it is going to many of the older sections of this nation. American capital evidently has confidence in the stability of the Canadian and British Governments. Capital never goes as freely to the West Indies or the South American countries, where the natural wealth is so much greater, because of the inherent weakness of the Government and the low standards and the fickle political ideals of the people.—Worcester Spy.

STROUD TEA & COFFEE CO'Y

366 GEORGE STREET PETERBOROUGH. TELEPHONE 181.

DOMINION OIL CO,, LIMITED.

Chartered Under the Laws of Ontario and Operating Western Ontario Oil Fields.

This company has acquired since February 1085 acres additional of proven oil lands, including 500 at Thamesville, 360 in the Wheatley District, and 225 more in the Raleigh oil fields, and is now drilling on the Thamesville and Raleigh properties adjoining three new good wells just brought in.

These additions to the company's holdings give it a total

Increase of 70% in Assets.

It has now two drilling rigs running on its properties, and recently purchased and installed the finest drilling equipment in Western Ontario, which is now running night and day on the Thamesville property.

This company has paid dividends at the rate of 12 per cent. per annum ON PAR continually since its inception, thus netting the investor 24 per cent. return; and, in view of its rapid progress and substantial increase in assets, it has been decided to advance the price of stock to 60 CENTS per share, a very conservative advance, being an

Increase of Only 20 in Price.

Mr. D. C. Woodward, son of the president, recently discovered some NEW PETROLEUM DEPOSITS OF LARGE EXTENT IN ALBERTA, and the president starts to acquire these properties for the Dominion Oil Co. in the course of a few days.

As ordinary coal oil retails at 35c A GALLON in that country, owing to the heavy import duties and freight tariffs, and as there is a great demand for illuminating oil in the Northwest, through the newness of the country, there being practically no electric light or gas works, this company will find a ready market for its product at large profits by the installation of a refinery which the company purpose erecting after it has developed the production.

From the analysis made of this product by President Woodward, this oil is proved to be of great value also as a lubricant, to such an extent that the farmers have been using it for lubricating their harvest machinery and wagons.

President Woodward's experience of 35 years as one of the foremost oil operators and refiners of Western Ontario, erecting and operating some of the leading refineries, and subsequently the e management of large operations for English companies in Borneo and Russia, particularly qualify him for this new exploration and construction of a refinery in the great Northwest.

For the purpose of carrying on this development in the Northwest, the balance of the present allotment of stock is offered at 50 per cent. of par (par value $1.00, fully paid and non-assessable).

THE ADVANCE IN PRICE TO 60c

Will positively take place at the close of business on Saturday, April 11, and IMMEDIATE application is necessary to secure it at the present price, as NO STOCK WILL BE SOLD AT 50c PER SHARE AFTER THE ABOVE DATE.

Mail orders must positively bear date and postmark not later than Saturday, April 11.

Address all enquiries and make all checks, drafts and orders payable to the Fiscal Agents,

COLONIAL SECURITIES COMPANY, Manning Chambers, Toronto.

Messrs. Haight & Freese, Stock Brokers, submit the following:—

New York, April 4. — Present contions favour longsideof market. In a dull and sagging market pessimistic talk is always current and there has of late been discussed relative to the commercial condition of the United States and of a possibility of a turning point having been reached in our prosperity. Opinions to that effect are not based on facts, and there are no surface indications that there is to be any cessation in our progressive march. During the past seven years, we have assumed first place in the commercial world, we lead as exporters and are a potent factor in foreign trade. The continuance of excellent railroad and industrial earnings reflects most fully our commercial strength and gainsays the improbability of any recession in our national prosperity. Consequently there is no reason why the security market should not expand and with a reduction in money rates, bring about broad and active trading and create and foster bullish operations. A factor favouring a speedy restoration of higher prices, is the attitude of the Standard Oil interest. This interest is said to have at present time fully $30,000,000 available for sipck operations. A surplus of this size indicates how small commitments are, and it can be reasonably argued that a fund of this character must findimmediate improvement. During the reactions of the past week it was very evident that high grade stocks like N.Y.C., Penna., and St. Paul, were bought for investment account and that the floating supply of these securities is far less than is imagined. The future of the market hinges on the money question almost exclusively, and with a gradual increase in the movement of funds to New York, the way will be paved for brighter market possibilities, and a bull campaign of large dimensions will get under way. It is an opportune time to make purchases. The level is certainly low and there is no reason why the better grade of stocks should not be quoted at figures more consistent with their earning power.

Summary. — To-day's market was generally dull. Stocks opened off fractionally but soon assumed a steady tone. The buying of B.R.T., Manh. and Am. copper was well maintained, but there was hardly and feature worthy of comment. A poor bank statement brought immediate declines, but the market rallied as rapidly and was not adversely affected by the statement. As we have stated before we believe bearish efforts are about at an end and that it will require but very little to kindle bullish enthusiasm.

New York, April 5.—To-day is the day the decision in the U.P. suit to enjoin the voting of So. Pac. stock is looked for around noon. The market will harden. Bears have overdone the selling. The news is all better. Financial critics are not so pessimistic. Wab. strike will not take place. Big short interest in U.P., Atch., B.&O., Penna. and St. Paul and the standard issues generally. They should all be taken hold of for a substantial turn. The city National Bank people, Hanover Bank interests, Rockefellers and Gould are preparing to give the market substantial support. The Moores will take hold of R.I. Do likewise. Buy sugar, average point dip if necessary. Bull N. Y. C.

JOSEPH.

New York, April 6.—Wheat inactive; May and July 1-8 lower; corn quiet 1-8 lower Liverpool opening.

Best informed people are still at sea as to the S.P. decision, but there is good authority for saying that the bank interest most closely associated with the property have recently been good buyers of the stock.

New York, April 6.—The fact that the So. Pac. decision is to be made known about noon to-day will probably cause an unsettled condition in the stock market this morning. Developments otherwise favour improvement notwithstanding the unfavourable bank statement.

IN THE GAMEY CASE

Both Sides File Papers With the Court on Monday.

THE "PRODUCTION" SEALED.

Inconvenience to the Liberals From This Method of Procedure—The $1,500 Is Said to Be in the Traders' Bank—Gamey Wanted a Loan of $2,000 From Mr. Stratton — Many Letters.

Toronto, April 7.—The Gamey case developed several interesting features yesterday in connection with the production and filing of documents by both sides. The Conservatives' papers, which were the first to be handed in, included the large envelope which Mr. Whitney dramatically handed to Mr. Gamey in the House on March 16, and which is said to contain the $500 produced and the letters and documents read by Mr. Gamey at the time he made his charge. As a letter to the registrar accompanied these papers asking that the envelope be only opened in court, the Liberals feel that the "production" is scarcely worthy of the name, and they are greatly inconvenienced by not having access to these important papers. The other papers accompanying the production include a dozen letters previously referred to by Mr. Gamey, two of them being from Mr. Whitney to the member for Manitoulin. The first, written last September, draws attention to a report that Mr. Gamey intended to support the Government, and suggests that he write a letter to The Mail and Empire denying it. This is addressed to "My Dear Gamey." The second letter, dated January 31st, 1903, and addressed "Dear Sir," acknowledges in the most formal manner the letter announcing Mr. Gamey's intention to take an independent stand in the House. The other letters filed by Mr. McPherson as Mr. Gamey's solicitor relate to appointments to office and applications for timber lands and road grants. One of the schedules filed shows that the $1,500 alleged to have been received by Gamey from Sullivan in September was deposited in the Traders' Bank, Toronto, on September 11th last. A letter filed by the Liberals shows that on November 4th Mr. Gamey applied to Mr. Stratton for a loan of $2,000, but that no reply except a formal one from the Minister's secretary was ever sent. Mr. McPherson said yesterday he understood a boat had left Owen Sound in the afternoon for Providence Bay, on the south side of Manitoulin Island, and where the ice is free, to bring the witnesses for the prosecution. Owing to the incomplete production by the Conservatives, the Liberals are unable to decide what witnesses they may need from the island, and have not yet despatched their boat, which is in readiness.

Boat Leaves For Witnesses.

A boat was sent out from Owen Sound last night to attempt the passage to Providence Bay on the south side of the Island of Manitoulin. From this point to Gore Bay, on the north shore, is sixteen miles, which will have to be covered by wagon. The witnesses for the prosecution will be driven overland to the boat, and ought to reach Owen Sound some time on Wednesday. The defence have also sent a boat to Manitoulin for their witnesses.

Sealed Package Still Sealed.

The sealed package, with the three red seals on the back, which was returned to the member for Manitoulin by Mr. Whitney on March 16, during the long debate in the Legislature, was the first delivered to Charles Grant, Registrar, at Osgoode Hall at 4 o'clock. In it are the papers read by Mr. Gamey in the House on March 11, the $500 which formed part of the money alleged to have been used to affect a conversion of Mr. Gamey's political views, and a synopsis of the shorthand notes taken by the stenographers in the Crossin piano factory on the night of March 10, the date of the opening of the Legislature. The package has the name of R. R. Gamey and the date, March 16, written in two places across the flap, and is endorsed across the face as follows:

"This package contains the documents and money handed to me by R. R. Gamey, M.P.P., in the Legislature on the afternoon of 11th March, 1903.

"(Signed) J. P. Whitney."

The package containing the letters, money and synopsis of the stenographers' notes is not to be opened until the re-opening of the commission on Monday next.

Another package contains a passbook of moneys deposited in the Traders' Bank.

Mr. McPherson's Affidavit.

Accompanying the affidavit on production which Mr. McPherson filed is the following letter, which explains itself:

April 6, 1903.

Charles S. Grant, Esq., Registrar Royal Commission, Osgoode Hall, Toronto.

Re Royal Commission.
Re Order to Produce.
Re R. R. Gamey's Productions.

Dear Sir,—As directed by the order of the honorable the commissioners, made on the 3rd of April, I herewith hand you the affidavit on production of Mr. R. R. Gamey, likewise the productions therein referred to, with the exception of item 3, in the first schedule, being "Pass book from Traders' Bank, Sudbury." As to this book the same was forwarded to the manager of the bank at Sudbury some time since, for the purpose of having it entered up, and, altho I have written him requesting him to have it here not later than to-day, it has not yet been received. As soon as it is received I will have it deposited with you.

Packages Sealed.

The two sealed packets which I also hand you herewith contain, with the exception above mentioned, the productions referred to in the first schedule. As to the larger of the two packets, this is sealed on the back with three seals, and has the name R. R. Gamey with the date, 16th March, 1903, written in two places across the flap, and is in the same state and condition precisely as when re-delivered by Mr. Whitney to Mr. Gamey in the legislature on the 16th of March, ultimo. The packet is endorsed across the face as follows:

"This package contains the documents and money handed to me by R. R. Gamey, M.L.A., in the legislature on the afternoon of 11th March, 1903.

"(Signed) J. P. Whitney."

The other packet contains the passbook, item 32 in schedule 1, and is sealed on account of its containing a large number of other entries not relevant to the matters in question herein.

As to the larger of the two packets, I am instructed to say that counsel on behalf of Mr. Gamey take the position that this packet is not to be opened under any pretence whatever, except in the presence of the Honorable the Commissioners, at their next sittings, to be held on the 13th April.

Yours truly,
William David McPherson.

Copy of Protest.

A copy of the protest of J. M. Fraser against R. R. Gamey was also placed in the hands of the registrar of the commission. Then there are a number of letters which were not read by Mr. Gamey when he made his sensational speech in the Legislature. They include several letters from the Attorney-General, the Minister of Education, the Deputy Minister of Public Works, secretaries of the Ministers and two from Mr. Whitney.

Agreement With Sullivan.

Still another document was put in. It was the draft agreement between Frank J. Sullivan and R. R. Gamey, providing for the payment of money to Gamey for his support.

Production by Ministers.

Mr. Gamey and Mr. McPherson concluded their work, and at 4.32 Mr. Grant closed his vault and locked his door, the Conservative coterie moving down town. When Mr. Grant was leaving a few moments later he was met in the corridor by Mr. M. McEvoy, one of the Liberal counsel, who had driven post haste from the Parliament buildings with the Liberal documents. Mr. Grant returned to his office, and the papers, which numbered fifteen, were filed in the regular way. These were accompanied by Mr. Stratton's affidavit as the papers revealed by a search of the files of his department. It was physically impossible for the other Ministers to search their correspondence within the time, and it was stated last night that affidavits by them, accompanying any correspondence or papers they may have with reference to the charge against Mr. Stratton, will be produced this morning. Among the papers filed was the original signed interview given by Mr. Gamey to the reporter for The Globe. Another letter was that from Mr. Gamey to Mr. Stratton, dated November 4th, 1902, in which he asks for a loan of $2,000. This was some weeks after the alleged payment to him of $2,000. The letter offers to give notes as security for this loan of $2,000. Mr. Gamey explains that the reason he wants the money is that he has a chance to buy some timber lands at an advantageous figure, and has not enough ready capital. He says he will be able to pay the money back at the end of the season. The letter further states that the offer to sell the timber lands will be open for only one week, he therefore asks an answer in haste. The same letter asked for the appointment of Mr. E. W. Swanson of Whitefish as a Justice of the Peace. Mr. Gamey stated that Mr. Swanson was a Liberal, and been previously forwarded on his behalf. He recommended Mr. Swanson, as being held in high esteem by all classes.

In connection with this reference, a letter written by Mr. Stratton to Mr. Gibson, the Attorney-General, is produced. The Attorney-General has the appointment of Justices of the Peace, and Mr. Stratton in forwarding Mr. Gamey's recommendation points out that he says a petition had previously been forwarded on behalf of Swanson.

Letter to the Premier.

Another letter which has been frequently referred to, but which has not hitherto been published, is the letter written by Mr. Gamey to Hon. Geo. W. Ross, in which he promises to support the Ross Government. It is dated October 27th, 1902, and Mr. Gamey says he posted it from Gore Bay. Mr. Gamey says in it that he desires frankly to state that he will give the Government his support. He thinks its development policy will justify such an action. He adds that such being the case, he can be depended upon to support the Government on all motions of a want-of-confidence nature. And he requests that he be treated as if he had been elected as a supporter of the Government.

The letter is typewritten. Three additions are made in writing, apparently in the same hand as Mr. Gamey's signature at the bottom of the page. The first is at the top, where is written the words "strictly private and confidential." The second is where he first promises to support the Government, and these words are written in: "If you have a reasonable majority when the House meets." And the third is at a point where a second time he refers to giving his support, and he again inserts the words, "If you have a reasonable majority."

Mr. McEvoy also filed an affidavit made by Mr. Stratton, that he has produced all the "books, letters, documents," etc., that he has in his possession bearing on the case.

Makes Demands on Defence.

Mr. McPherson served Mr. Johnston with an affidavit on production, together with copies of all documents filed with the Registrar. He also served Mr. Johnston with a request (called in legal verbiage, a "demand") for copies of the latter's productions.

Affidavit of Mr. Gamey.

Mr. Gamey's affidavit accompanying the productions is:

IN THE MATTER of a Royal Commission, dated the 28th day of March, 1903, directed to the Honorable Sir John Alexander Boyd, Knight, and the Honorable William Glenholme Falconbridge, authorizing them to enquire into certain charges of bribery or attempts to bribe.

I, Robert Roswell Gamey of the Township of Campbell, in the District of Manitoulin, farmer, but presently of the City of Toronto, in the County of York, member of the Legislative Assembly for the electoral district of Manitoulin aforesaid, make oath and say as follows:

1. That I have in my possession or power the documents relating to the matters in question herein, or esteemed to be relevant thereto, set forth in the first schedule hereto.

Some Documents Gone.

2. I have had, but have not now in my possession or power, the documents relating to the said matters set forth in the second schedule hereto:

3. The last mentioned documents were last in my possession or power on or about the times and periods set forth in the third schedule hereto.

4. That the said mentioned documents, to the best of my knowledge and belief, are now in the possession, custody or power of the person whose name is mentioned in connection therewith in the said third schedule hereto.

5. In anticipation of the order to produce herein, I sent to my home at Gore Bay for all my other papers there for the purpose of submitting them to my solicitor to see if any of them are relevant to the issues herein contained, but have been advised by telegram that the parcel containing them is at Gore Bay, and that the mail carriers, on account of the bad state of crossing between Manitoulin and the mainland, have refused to take them over, but will do so as soon as the state of crossing will permit. If, after examination of the said papers, my solicitor esteems any of them to be relevant, altho I did not myself so esteem them, I hereby undertake to produce them forthwith on receipt and

(Continued on page 8.)

New York Pattern Hats

With the characteristic New York style about them. Patterns that gave New York's greatest milliners some 1903 ideas.

New York Hand Made Suit Hats

for street wear, pretty nearly stunning enough for dress occasions—a smartness in their style—original satin plaited braids are in the construction of some.

New York Ready-to-wears

Probably not so pretty to look at as some hats but that style on the head—that gives a woman credit for good taste and judgment.

New York Hand-made Fruit

You'd think it California Fruit, to look at it—the difference is the latter is perishable, and the former is not—though "teeth watering" luscious in appearance.

Mrs. Weisslitz, president of the German Womans' Club of Buffalo, N. Y., after doctoring for two years, was finally cured of her kidney trouble by the use of **Lydia E. Pinkham's Vegetable Compound.**

Of all the diseases known with which the female organism is afflicted, kidney disease is the most fatal. In fact, unless prompt and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—**Lydia E. Pinkham's Vegetable Compound**—was careful to see that it contained the correct combination of herbs which was sure to control that dreaded disease, **woman's** kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, **Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women.**

Read What Mrs. Weisslitz Says.

"DEAR MRS. PINKHAM:—For two years my life was simply a burden, I suffered so with female troubles, and pains across my back and loins. The doctor told me that I had kidney troubles and prescribed for me. For three months I took his medicines, but grew steadily worse. My husband then advised me to try **Lydia E. Pinkham's Vegetable Compound,** and brought home a bottle. It is the greatest blessing ever brought to our home. Within three months I was a changed woman. My pain had disappeared, my complexion became clear, my eyes bright, and my entire system in good shape."—MRS. PAULA WEISSLITZ, 176 Seneca St., Buffalo, N. Y.

Proof that Kidney Trouble can be Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I feel very thankful to you for the good your medicine has done me. I had doctored for years and was steadily growing worse. I had trouble with my kidneys, and two doctors told me I had Bright's disease; also had falling of the womb, and could not walk a block at a time. My back and head ached all the time, and I was so nervous I could not sleep; had hysteria and fainting spells, was tired all the time, had such a pain in my left side that I could hardly stand at times without putting my foot on something.

"I doctored with several good doctors, but they did not help me any. I took, in all, twelve bottles of **Lydia E. Pinkham's Vegetable Compound,** five boxes of **Liver Pills,** and used three packages of **Sanative Wash,** and feel like a new woman, can eat and sleep well, do all my own work, and can walk two miles without feeling over tired. The doctors tell me that my kidneys are all right now. I am so happy to be well, and I feel that I owe it all to your medicine."—MRS. OPAL STRONG, Dalton, Mass.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address Lynn, Mass.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

TUESDAY, APRIL 7, 1903.

SUITABLY REMEMBERED.

Miss Taylor Recipient of an Address and Presentation.

Upon leaving Belmont, Miss Gertrude Taylor of Keene, who has been teaching Union S. S. No. 1, Belmont, and No. 7, Dummer, during the past year and a part of this, was presented with a gold bracelet and an address. The address was read by Miss Estella Burgess and the presentation was made by Miss Mabel Elliott.

The address read as follows:

Dear Miss Taylor,—We, your school children, have learned with much regret and deep sorrow of your intended departure from us.

When we learned during the approach of Christmas that our worthy Trustees had re-engageed you as our teacher, we rejoiced in the prospect of another pleasant as well as profitable year under your kind guidance and ready sympathy; but now that you are about to remove from amongst us, we can only say in deep sincerity, that our sorrow is great.

We will miss you not only as a kind, sympathetic and forebearing teacher in our school, but also an ardent and earnest worker in our Sunday School, where you have so regularly and earnestly instructed us for our spiritual welfare.

We ask you to accept this bracelet as a small token of our sincerity in thus expressing our sorrow at your departure. May it now and then remind you of the links of affection which now exist and which shall always still exist between ourselves and you. We rejoice in the thought that your future situation is so near that we may sometimes see you again.

We now wish you every success.
Signed in behalf of the School.

Miss Taylor made a suitable reply. She leaves Belmont to accept the position of teacher in School Section No. 7, Otonabee, one of the most important sections in the county.

OF INTEREST TO STRIKERS.

How a Court Decision Deals With Influencing Employees.

Judgment in an important labour case was given at Osgoode hall recently by Justice Meredith. The action was brought by the H. Krug Furniture Company of Berlin, against Berlin Union, No. 112 Amalgamated Woodworkers' International Union of America, and was tried at Berlin. The company sued the union and certain officers and members thereof to recover $2,000 damages for wrongfully and maliciously procuring plaintiffs' workmen to break their contracts and cease working for plaintiffs, and $5,000 damages for conspiring against plaintiffs, and for an injunction restraining defendants from watching or besetting the railway station at Berlin or the works of plaintiffs or the approaches thereto, or the places of abode of the workmen employed by plaintiffs. The decision gives perpetual injunction against the defendants, from unlawfully besetting or watching plaintiff's factory, and for all wrongful obstruction of or interference with the plaintiffs in their trade and business and to damages against all the defendants, assessed at $100 with costs. In the course of his judgment His Lordship strongly condemned the boycotting practices which defendants had resorted to.

JUST WHAT YOU NEED.

Chamberlain's Stomach and Liver Tablets.

When you feel dull after eating.
When you have no appetite.
When you have a bad taste in the mouth.
When your liver is torpid.
When your bowels are constipated.
When you have a headache.
When you feel bilious.

They will improve your appetite, cleanse and invigorate your stomach, and regulate your liver and bowels. For sale by all druggists.

Buried Alive For an Hour.

Toronto, April 7.—Miraculous is the only word to fitly describe the narrow escape from an awful death that nearly overtook Thomas Cruttenden, the well-known east end builder, of 287 Sumach street, and a workman by name of Chas. Perryman of 26 Hazelton avenue, yesterday afternoon. Both men were entombed alive in a cave-in in a sewer, and Mr. Cruttenden was practically buried alive for an hour and fifteen minutes. Perryman was rescued a few minutes sooner. So far, indications are that neither men suffered serious injury.

A Girl's Horrible Death.

Maxwell, Ont., April 7.—Miss Annie Scutt, aged 19, daughter of William Scutt, was killed here yesterday. She had just driven her brother to Dundalk station, and while returning and within a mile of home the horse took fright, and threw her out of the buggy. She became entangled in the lines, and was dragged along the road for a mile, and her neck was broken.

Laxative Bromo Quinine Cures a Cold in One Day, Grip in 2 Days — E. W. Grove — on every box. 25c

LIBERALS CHEERED BY RYE ELECTION.

Eighth Serious Reverse for Balfour Government.

Conservatives in Great Britain Losing Their Grip.

The Rye Division of Sussex was the culmination of a long series of reverses against the Balfour Government that began with the Bury election in May last year, just after the grain tax had been imposed. Here is a list of the by-elections held since that date, with a comparison of majorities. It makes very interesting reading.

	Previous Majority.	Bye-election. Majority.
Bury	C 849	L 414
North Leeds	C 2,517	L 758
Stevenage	C 4,813	C 891
Devonport	L 80	C 28
Clevedand	L 1,436	L 2,736
East Toxteth	C 1,922	C 377
Newmarket	C 1,077	L 907
West Derby	C 2,886	C 2,304
Woolwich	C 2,805	L 2,229
Rye	C 2,489	L 534

It will be seen that when the Liberals last contested the seat the Conservative majority was greater than ever before. The Conservatives then polled more votes than ever, and the Liberals secured fewer votes than ever, the Tory vote being nearly two to one. Now Dr. Hutchison, who stood for the Liberal cause in 1900, has attacked the seat again, undaunted by his rebuff of three years ago, and has received the most notable victory in an English county division that has been recorded since the passing of the Redistribution Act of 1885.

C. G. E. CO'S NEW BUILDINGS.

What Buildings are Proposed to be Erected.

The Canadian Engineer has the following:—The new buildings, which the Canadian General Electric Co. are about to add to their works at Peterborough, will include one 450 ft. by 90 ft., two stories high, with a large crane 35 ft. wide for shipping purposes, that work now done by each department being centralized in the new building; one, 285 by 80 ft., with a new 40-foot gallery and a 40-foot crane, for the manufacture of heavy machinery; one, 140 by 40 feet, being an addition to the new building erected last fall. The company, it is said, has under consideration the advisability of moving some of the departments, where the smaller articles are manufactured, to Montreal or Toronto, in order that more room may be available at Peterborough. Should they not do this they will erect an extra building, 700 by 90 ft. The extensions will necessitate the employment of about twice as many hands as at present.

WM. MACKENZIE'S NEW YACHT

To Run on Upper Trent Waters This Summer.

Wm. McKenzie is having built at the Polson Iron Works, Toronto, a private yacht, length 70 feet, breadth 10 feet, with triple expansion engine of 110-h.p., boiler of the Yarrow type, to stand a working pressure of 200 pounds, and guaranteed speed of 14 miles per hour. The cost will be in the neighborhood of $12,000. She is to run on the upper Trent waters.

BATTLE WITH A BULL.

A Fergus Farmer Reached the Woodpile Just in Time.

Fergus, April 4th.—Recently J. Gibson had an experience with a bull he will never forget. While driving his bull into the stable the animal turned on him and knocking him down on his back, began to gore him. Mr. Gibson caught the animal by the horns and by pulling his head and nose close to his body managed to keep him from severely hurting him. In this position he was carried and pushed all around the barnyard, and was finally landed beside a woodpile on the lower side of the yard. Mr. Gibson, seeing where he was, suddenly let go his hold and scrambled up on the slanting woodpile.

Mrs. Gibson, who had by this time heard her husband's cries for help, came to his assistance, and while the bull's attention was directed on Mr. Gibson, ran past him, and got up on the woodpile also. She tried to drive the bull away by prodding him with a stick of wood, but failing in this called their dog, which was at the swamp with the hired man, and he heard and came and drove the bull away. Mr. Gibson had several ribs broken and is bruised in some places from being trampled on but his injuries are not thought to be serious. His escape was certainly a fortunate one.

It the child is restless at night, has coated tongue, sallow complexion, a dose of Miller's Worm Powders is what is required; pleasant, harmless. Sold by all druggists.

GALWAY COUNCIL MEETING.

Meeting of the Galway Council, March 27th. Members all present. Charles Coben, Reeve, in the Chair.

On motion of H. Beckett and Wm. Hunter, the minutes of last meeting be read and signed.

Moved by Wm. Hunter and H. Beckett that by-law No. 208, appointing pathmasters, pound-keepers and fence-viewers receive its several readings and be passed and signed.

Moved by Jas. Allen and Wm. Hunter that this council authorize the clerk not to have Mrs. John Scarlett, Mrs. Peter Clark and Mrs. John McMahon placed on the road list this year.

Moved by H. Beckett and Jas. Allen that the collector be notified to receipt Mr. A. Wright's tax-bill as he sustained a heavy loss through fire.

Moved by H. Beckett and Wm. Hunter that the auditors' report be accepted and the clerk is instructed to have 100 copies printed for distribution.

Moved by Wm. Hunter and J. Allen that the treasurer be authorised to withhold the sum of $12.63 from Union S. S. No. 7, Galway, Cavendish, Snowdon and Glamorgan, amount due to this municipality.

Moved by Wm. Hunter and H. Beckett that the council instruct the Reeve to notify Nicholas Chevers to pay to the treasurer $10.00 with interest for lot 23, con. 12, Galway, as per agreement of 1896, and all arrears of taxes in connection with said lot.

Moved by H. Beckett and Jas. Allen that the collector be authorised to have all rates collected at an early date and return the roll to the treasurer.

Moved by Jas. Allen and Wm. Hunter that the following accounts be paid:

P. Collins, registering B., M. and D.	$2 40
Mrs. Hartnett, use of house for nomination	4 00

Council adjourned until the first day of June, to meet as a Court of Revision.

Not Even Crazy People

would scour their faces with brickbats, but thousands of persons do things infinitely more foolish.

The skin of the face, though delicate, is rhinoceros hide compared with the mucous membrane of the stomach and bowels.

Yet these sensitive organs are constantly scoured with drastic medicines, to their incalculable injury.

The Cure for Constipation

is not a violent cathartic, but a mild and tonic laxative—which is another way of saying

IRON-OX TABLETS

IN FULL SWING

China Hall's "old time sale" is now in full swing and should be taken advantage of at once. Everything in the immense stock is reduced in price beyond your expectation. Dinner Sets, Tea Sets, Toilet Sets, Lamps, etc., almost at your own price.

Established 1882.

BREEDING HORSES

In Scotland, and the Methods Employed to Improve Quality of Stock.

The system of hiring Clydesdale stallions has prevailed in Scotland for many years. At first the plan was to hold a show of stallions in different centres up and down the country. The horses were passed on by a committee appointed by the farmers in each neighborhood and the horse approved of was retained for service in the district by the payment of a lump sum to his owner, with a guarantee of additional fees at service and when a mare was found to be safe in foal. Gradually it was found that there was a deal of unnecessary expense involved in holding so many little country shows, and it was agreed to hold one general hiring fair and show at Glasgow. The Glasgow Agricultural Society undertook all the expense of organization and advertising in return for which it was allowed the first choice. This plan proved admirable and was highly popular and instrumental in spreading many first class sires throughout the country.

The system above outlined still obtains to a considerable extent, but in 1882, it began to be modified.. The eagerness of societies to secure the best for their own districts and not to depend on taking what might be left after Glasgow had been served, led

AN ABERDEENSHIRE SOCIETY

to hire Lord Erksine (1744) in the autumn of 1882 for service in their locality during 1883. This method of hiring privately extended year by year, until it has reached the height in April 1902, of the horse Lapori (10791), for the season of 1903. Many horses are now hired at the Highland and Agricultural Society's show which is held in July, many are hired privately during the following winter, but the Glasgow Society still hires on the old system of holding a spring show, and a few societies follow its example. We have therefore in Scotland these systems of hiring:—

1. The Glasgow system already described, where the hiring of a horse is part of the ordinary work of an Agricultural Society organized for the general advancement of agriculture. The terms payable in such cases now may be about $400.00 premium, with service fees on contract of $10 at service of mare and $10 or $15 additional when the mare proves in foal. Mares sold or dispensed with before it can be determined whether they are in foal or not are charged for as if they were in foal.

2. The Scottish Central system. This is the case of a society of breeders resident at considerable distance from one another, clubbing together for the purpose of hiring a first-class horse. The horse is transported from place to place under this arrangement by rail, the railroad companies in Scotland giving special reduced transit rates for entire horses during the breeding season. The terms on which a horse may be engaged under these conditions vary greatly, but may be $500 premium, with a guarantee of 80 mares at $10 apiece payable at service, and $15 for a foal.

THE THIRD SYSTEM.

3. The third system may be designated the club system. A number of farmers in a district join together, say within a radius of 12 miles. They are enthusiasts in horse breeding, and may own rather high class mares. They desire to improve the quality of their stock and to this end secure the services of a particular horse. They each put down their names for so many mares, and when the requisite number is made up, say 80 mares, a few of their number are appointed to select a horse. In such cases an unusually good horse is aimed at, and he may be engaged under a definite guarantee of the 80 mares, at a fixed rate of not less than perhaps $50.00 a mare without regard to there being a foal or not. In such cases the horse owner is under obligation not to go beyond the 80 mares guaranteed, and the horse for the time belongs practically to the owners of the mares, who however have no responsibility for the horse, the groom in every case being employed and payed by the owner of the horse. It is customary, though not universal, in connection with horse hiring in Scotland for the farmers in the circuit travelled, to keep the horse and his groom gratis. There is a general understanding that the farmer who keeps them over night or over the week ends, should have one mare served without fee.

THE PURCHASE SYSTEM.

4. The purchase system has also been practised. A company of members of a society is formed with a capital and limited liability. The object is the purchase of an improved stallion for service in the neighborhood, with a view to the advancement of the breed. The capital is subscribed and the horse bought. His price may be anywhere from $1,500 up to $4,500, the latter being the figure at which "McCamon, (8515,)" was bought by the Aberdeenshire Company in 1894. The members of the Company have the first call on the services of the horse, and are indeed under obligation to use him or pay forfeit. This method of introducing a good horse into a neighborhood has met with varying success. In the case of "McCamon", the results could hardly be improved on; in others an opposite result has been obtained. The success of this purchase system is entirely dependent upon the merits of the horse. If he gets stock, if he gets sufficient number of colts, if he gets them good enough, and if he lives, the company owning him will be all right. But if he is a failure in either of the three respects first named, or dies, the company comes to grief, and men are disheartened. Other things being equal, and circumstances favourable, hiring is a much better system than purchasing.

To Increase Your Weight.

If you are thin, weak and emaciated and want to increase your flesh and weight you should try Dr. Chase's Nerve Food. You can feel it doing you good from day to day as it strikes at the root of the trouble and creates new rich blood. You can prove that it builds up new tissue if you weigh yourself each week after beginning to use it.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto • • The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

Dr. Shoop's Rheumatic Cure

Costs Nothing If It Fails.

Any honest person who suffers from Rheumatism is welcome to this offer.

I am a specialist in Rheumatism and have treated more cases than any other physician, I think. For sixteen years I made 2,000 experiments with different drugs, testing all known remedies while searching the world for something better. Nine years ago I found a costly chemical in Germany which, with my previous discoveries, gives me a certain cure.

I don't mean that it can turn bony joints into flesh again; but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times.

I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottles of Dr. Shoop's Rheumatic Cure. Take it for a month at my risk. If it succeeds the cost is only $5.50. If it fails I will pay the druggist myself—and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism, must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met. And in all my experience—in all my 2,000 tests—I never found another remedy that would cure one chronic case in ten.

Write me, and I will send you the order. Try my remedy for a month, as it can't harm you anyway. If it fails, it is free.

Address, Dr. Shoop, Box 47, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

AT NIAGARA FALLS.

Three Passengers and Two Railway Men Hurt in Collision.

Niagara Falls, Ont., April 7.—Three passengers and two engineers received injuries as the result of a head-on collision on the G.T.R. here early yesterday morning. The accident occurred at the west end of the yards. The regular passenger train from Sarnia Tunnel, which arrived at 3.40 a.m., crashed into yard engine 688. Both locomotives were badly damaged. A Lehigh Valley combination coach and one passenger coach attached to the regular, were also damaged.

One passenger sustained serious injuries to his spine, and was removed to the hospital. The other two received severe cuts and bruises about the head and face. Conductor Bell of No. 8 passenger train was cut above the eye and back of the head, and Engineer Crossett of the yard engine was thrown out of his engine and received a number of nasty cuts on the body and head. Passengers injured were: F. H. Stevens, Honolulu; Maurice Edelson, 44 Suffack street, New York, and John F. Carney, Albany, N.Y.

Against Sunday Ice-Cutting.

Welland, Ont., April 7.—The trial of the Sunday ice-cutting test case, instituted by Provincial Constable O'Malley at the request of the Ontario Lord's Day Alliance, against James Clark, charged with a breach of the Lord's Day Act by being employed by Messrs. Donner and Wilson, a Buffalo firm, in cutting ice at Port Colborne on Sunday, Feb. 15 last, was concluded before Police Magistrate Hellenms here yesterday afternoon. The magistrate heard evidence two weeks ago, and the argument yesterday. At the close of the argument the magistrate imposed a fine of $1 and costs.

Man's Adaptability.

Jimble—There's something wonderful about man.

Jumble—So well adapted, for instance, to carry an umbrella.—Boston Transcript.

Japanese girls are named not only after flowers, but after animals. Once in awhile one may meet a Miss Dog, Miss Cow or Miss Deer.

Angier's Petroleum Emulsion aids digestion, improves nutrition, and increases weight and strength. It is pleasant to take, and agrees with the stomach.

Thousands of well-fed people cannot digest and assimilate their food. They therefore get insufficient nourishment, and are slowly starving. Angier's Petroleum Emulsion with Hypophosphites of Lime and Soda is for such. It helps digest and assimilate the food, cleanses the stomach and bowels, improves nutrition, tones up and invigorates the entire system and thus increases health, weight and strength. Physicians prescribe it for persons who are recovering from any illness that has left them in a weak, "run-down" condition. Get a small bottle, take according to directions and watch results.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and insist on getting Angier's. Liberal sample sent on receipt of 2c. stamp.

ANGIER CHEMICAL COMPANY, BOSTON, MASSACHUSETTS, U.S.A.

THE HOUSE MONDAY

Winter Navigation of Northumberland Straits.

THE CLAIM OF P. E. ISLAND.

The Treadgold Concession—Condemnatory Resolution by the Dawson Board of Trade—The Premier's Statement—Efforts of the Government to Satisfy the Miners — Bills Passed.

Ottawa, April 7.—Yesterday was exceptionally quiet in the House. Members have already begun to leave for home for Easter, but the House will sit till 6 p.m. Wednesday before adjournment.

Premier Laurier yesterday sent to Mr. Borden the names of the Liberals who have been appointed in the select committee to define the boundary of the constituencies under the Redistribution Bill. They are: Hon. James Sutherland, C. H. Hyman, Hon. D. C. Fraser and Hon. Charles Fitzpatrick.

Bills of the Day.

The following bills were introduced:

To incorporate the new Canadian Company (Lemieux), respecting Quebec and New Brunswick Railway.—Beicourt.

To incorporate the Berlin, Waterloo & Georgian Bay Railway.—Clair.

To amend the Trade Marks Act, 1901.—Gourlay.

The Speaker announced that he had issued his warrant for writs in Russell and St. James' division, Montreal.

Before the orders of the day were called, Mr. Borden read a petition sent by him by the Dawson Board of Trade, protesting against the legalizing of the Treadgold water concession, claiming that they were iniquitous and would make the whole Klondike the property of the Treadgold people.

Two Sides to Question.

Sir Wilfrid said he had received a copy of papers read by Mr. Borden, but there were two sides to the question. The Government had no intention to create a monopoly, but in granting the concession thought it had provided the miners with water. He would consider the matter further, but would say nothing definite at present.

Mr. Campbell's bill reviving the life of the Canadian National Railway and Transportation Company was presented to the House in committee of the whole. The committee reported the bill and it received a third reading and was passed.

Read a Second Time.

The following bills were read a second time: To incorporate the Imperial Company—Bickerdike. Respecting the Bank of Montreal—Bickerdike. To incorporate the Ontario and Quebec Power Company—Belcourt. Respecting the C. P. R. Company—Thompson. To enable the City of Vancouver to acquire certain lands—MacPherson. To incorporate the Bank of Winnipeg—Scott. Respecting Canada Northwest Land Company — McCarthy. Respecting Brandon and Southwest Railway Company—Morrison.

Mr. Monk had a series of questions regarding what proposals the Government had received from the Trans-Canada Railway Company on the order paper yesterday.

Mr. Blair said that it was impossible for the Government to give an answer to any of the questions at present. Negotiations, largely verbally, were going on between the Government and railway promoters regarding a transcontinental line, but nothing definite had been arrived at, so the Government could not speak. He promised, however, that when something was really done, he would take the House into his confidence.

Mr. Ingram (Elgin) was informed that the Department of Militia had received no documents complaining of the treatment the Canadians received in the South African campaign.

Mr. Clarke asked several questions regarding the emigration offices in Ireland. He was told the Canadian office at Belfast was closed for a few days after March 5, but was taken over shortly after by Mr. O'Kelly, who assumed the duties temporarily. Mr. Kelbourne was appointed April 1 to succeed Charles Devlin, M.P., at Belfast. Mr. O'Kelly is the officer at Dublin. Up to June 30, 1902, 1,311 Irish emigrants had been sent out to Canada in a year, at a cost of $14,178,60.

Mr. Blair told Mr. Clarke that it was the duty of no official in particular to inquire into the report to the Government upon all railroad accidents which occur in the Dominion. "But," he added, "since the recent disasters the matter has been receiving consideration from the Government."

Tests of Cattle Guards.

Mr. Wilson (Lennox) was told that the postmaster of Ernstown had resigned, and that Mrs. Johnson had been appointed to succeed him.

Mr. Lennox (Simcoe) was told that the various tests of cattleguards now going on were not necessary for report of Cattle Guard Committee. The tests were made at the request of inventors. The cost of the commission down to Feb. 14 was $3,-834.31. Commissioner Robertson resigned of his own volition.

The winter navigation of the Northumberland Straits was discussed for an hour by Mr. Hughes (Kings), Mr. Bell (Pictou), Mr. Hackett (West Prince), and Mr. Emmerson (Westmoreland.)

All but the last named advocated a tunnel or a bridge to be built by the Dominion Government. The latter held that a tunnel or a bridge was not needed, but that if the terminal facilities were improved.

A Labor Deputation.

Representatives of the Dominion Trades and Labor Congress paid their annual visit to the Government yesterday morning, and presented a number of demands for legislative reforms. They were received by the Prime Minister, Sir Wm. Mulock and Hon. A. G. Blair. They presented the draft bill re. alien or contract labor, already published, and many other demands.

Sir William Mulock replied at the request of the Premier.

ALL LINES TIED UP.

Dutch Transportation Strike is On in Full Force.

A PROTEST AGAINST LAW.

The Anti-Strike Measure the Cause of the Drastic Action of Employes — Attempt to Run Mail Trains With Military Protection — Regular Steamers Leave Rotterdam—The Queen's Purpose.

Amsterdam, April 7.—At midnight a meeting of the Workmen's Committee proclaimed a general strike throughout Holland of all labor engaged in transportation, both by land and water. The meeting lasted until 4 o'clock yesterday morning.

All the railroad lines, stations and wharves are guarded by troops. The administration of the railroads has taken steps to secure the running of the foreign expresses under military protection.

The strike proclamation involves the entire railroad system and other land transport of Holland, and the water transportation of the important ports—Amsterdam, Rotterdam, Dordrecht and Zaandam, and is intended as a protest against the anti-strike laws, as well as to support the demand of the railroad men for an increase of wages before the passage of the laws made an improvement in their position impossible. The strike will likely spread to other branches of labor.

At The Hague, the troops are guarding the trains, and the Government is endeavoring to maintain a foreign mail service by troop-protected trains. The strikers have amused themselves tampering with the locomotives. All business is at a standstill, and the mail boats, which arrived, could not be unloaded.

At Rotterdam, the dock laborers, wagon drivers and all others engaged in industries connected with the port have joined the strike. Troops are at the station. The staffs of shipping companies trading with London and Hull have stopped work in sympathy. The Netherlands Railway have notified their striking employes that if work is not resumed in twenty-four hours their positions will be lost to them. Nine hundred out of 1,400 employes in the railroad workshops went out on strike. Arrangements are being made to transport the mails in motor cars. The diamond cutters have already resolved to strike out of sympathy with the cause.

The Anti-Strike Bills.

The Premier of the Netherlands, Dr. Kuyper, introduced in the Second Chamber of the States General three bills in connection with the railroad strike in Holland. He explained that the Government considered it necessary to oppose any unreasonable attack on society, which would sacrifice the well being of the people to the desire of a certain class for influence and to political tyranny. The Government, therefore, had proposed to form a railroad brigade to insure a regular service of trains in case of need.

One of the bills provides for a modification of the penal code with the object of affording a surer guarantee for the personal freedom of labor and of preventing State officials or persons engaged in occupations affecting public interests from absenting themselves from their duties.

The bill further provides that refusal to do duty on the part of employes of the railroads or other public services may be punished by six months imprisonment. If two or more persons rise in rebellion, the penalty is increased to four years' imprisonment for the ringleader or those guilty of criminal acts.

Regular Steamers Left Port.

Rotterdam, April 7.—Steamers in the regular services left this port as usual yesterday but the work of loading other vessels is at a standstill. One thousand troops from the southern garrison have been assigned to duty at Rotterdam, but owing to the interruption of the train service it is not known when they will arrive here.

The Queen's Intention.

The Hague, April 7.—Queen Wilhelmina, who is at Castle Loo, has signified her intention to return to The Hague immediately if affairs of state, arising from the strike situation, require her presence there. The Government hopes that the precautionary measures taken to deal with the strikers will suffice.

Luke Fidler Mine Closed.

Shamokin, Pa., April 7.—The loaders and drivers of the Luke Fidler colliery refusing to obey the order of the commission to work 9 hours a day and demanding only 8 hours on Saturdays, have struck, and the entire mine is closed.

600 Carpenters Strike.

Salem, Mass., April 7.—The carpenters of Salem, Beverley, Peabody and Marblehead, 600 in all, have struck for a uniform scale. Notice of their intention was given last fall, but was unheeded by the employers.

The Mear Question.

Pottsville, Pa., April 7.—The laborers at the Brookside Colliery have struck, pending a settlement of the hour question, as it relates to Saturdays.

Strike on Canada Atlantic.

Ottawa, April 7.—Last night at 6 o'clock the trackmen on the Canada Atlantic Railway went out on strike for higher wages. The number out is somewhere between three and four hundred; the area affected being the entire main line from Depot Harbor to Swanton, Vt., and branch lines to Pembroke, Hawkesbury and Rockland. The men now receive $1.25 a day, and are asking $1.30 for trackmen and $1.40 for yardmen, the same as paid on the C.P.R. and G. T. R. The railway officials say the track is in good shape, and they can stand a strike without much inconvenience.

How to Ward off an Attack of Rheumatism.

"For years, when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josis Macdonald, of Man, Logan County, West Virginia. "I tried everything with no relief, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment. For sale by all druggists.

Killed at Cornwall.

Cornwall, April 7.—Allen Snetsinger, a young man from Cornwall Township, was killed here last night by being caught in a landslide while employed on the contract of J. J. Fallon, on the Cornwall Canal. The young man was buried in eight feet of clay, and it was about an hour before he was dug out.

Abbey's Effervescent Salt—

DR. PITCHER'S Backache-Kidney TABLETS

CHOCOLATE COATED — SMALL AND EASY TO TAKE

Purify the Blood — Help Women to Health

MOST of women's ailments, such as backaches, sideaches, headaches, worn, weary, depressed feelings, are the result of the failure of the kidneys to properly purify the blood. Dr. Pitcher's Tablets aid the kidneys in their work of blood purifying—banish every pain and ache—make women rejoice in health and strength restored.

MRS. A. CHRISTIE, Lighthouse Street, Goderich, Ont., relates her experience: For some time I suffered with a good deal of backache and kidney trouble. And with a severe headache which continued to grow worse. I heard of the many cures Dr. Pitcher's Backache-Kidney Tablets were making, and determined to try them. They acted splendidly, stopping the backache and headache and curing the kidney complaint.

The price of the Tablets is 50c. a bottle, or 3 for $1.25, at druggists or by mail. THE DR. EMA PITCHER CO., Toronto.

MARKET REPORTS.

Grain Markets Are Steady — Liverpool Closes Easier, and Chicago Higher—The Visible Supply—Quotations.

Monday Evening, April 6.

Liverpool wheat and corn futures closed ½d lower to-day than Saturday.

At Chicago to-day May wheat closed ⅛c higher than Saturday, May corn unchanged and May oats unchanged.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 1,125,000 bushels; corn decreased 361,000 bushels; oats decreased 8'00 bushels. Following is a comparative statement for the week ending to-day; the preceding week and corresponding week of last year:

	Apl. 6 '03.	Mch. 30 '03.	Apl. 8. '02.
Wheat, bu.	..41,938,000	43,091,000	45,410,000
Corn, bu.	.. 9,841,000	7,207,000	8,568,000
Oats, bu.	7,230,000	1,6?5,000	2,800,000

The recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 74,904,000 bushels, against 73,651,000 bushels a week ago and 79,002,000 bushels a year ago.

LEADING WHEAT MARKETS.

CATTLE MARKETS.

Cables Steady — Montreal Prices Lower Than a Week Ago.

London, April 6.—Live cattle steady at 12½c to 13c per lb. for American steers, dressed weight; Canadian steers, 12c to 12½c per lb.; refrigerator beef, 9½c per lb. Sheep, 13½c to 15c, dressed weight.

MONTREAL LIVE STOCK.

Montreal, April 6.—There were about 1200 head of butchers' cattle, 900 calves and 65 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were out in full force and trade was brisk, with prices rather lower than on last week's markets, quality considered. There were liberal supplies of lower beef, and prices ranged from 3c to 6c per lb.; very few brought over 5½c per lb. Prime heeves sold at about 4½c, medium cattle at from 3½c to 4½c and the common stock at from 2½c to 3½c per lb. There were about 50 milch cows on the market, but there was not much demand for them. Prices were from $35 to $55 each. Calves sold at from $1 to $12 each, most of the sales being at from $2 to $4 each. Sheep sold at from 3½c to 4½c per lb., yearlings at from 5½c to 6½c per lb. Spring lambs sold at from $3 to $5 each. Fat hogs are very plentiful, and sold at from 6¼c to 6¾c per lb, weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, April 6.—Cattle—Receipts, 2600 head; active; heavy firm; others 10c to 15c higher; prime steers, $5.85 to $5.90; few at $5.99; shipping steers, $5.10 to $5.75; butchers, $4.80 to $5.10; heifers, $3.75 to $5; cows, $3.25 to $4.80; bulls, $3.50 to $4.50; feeders, $4 to $4.65; stockers, $3.50 to $4.40; stock heifers, $3 to $3.75; fresh cows and springers steady; good to choice, $45 to $55; medium to good, $38 to $43; common, $18 to $25. Veals, receipts, 850 head; 75c higher; tops, $8.25 to $8.50; common to good, $6 to $8. Hogs, receipts, 14,200 head; fairly active; heavy, $7.65 to $7.75, a few $7.80; mixed and medium, $7.35 to $7.60; yorkers, $7.40 to $7.45; strong weight, $7 50; pigs, $7.25 to $7.30; roughs, $6.90 to $7.20; stags, $5.50 to $6; closing slow on pigs; strong on others. Sheep and lambs, receipts, 15,000 head; active; sheep steady; lambs 15c to 25c higher; tops, native lambs, $8.10 to $8.15; culls to good, $5.50 to $8; westerns, $7.85 to $8; yearlings, $7 to $7.25; ewes $6 to $6.50; sheep, top mixed, $6.25 to $6.50; culls to good, $3.25 to $6.15.

NEW YORK LIVE STOCK.

New York, April 6.—Beeves—Receipts, 3500; firm to 10c higher; steers, $5.05 to $5.85; bulls, $3.25 to $4.70; cows, $1.60 to $4.50. Exports to-day, 12 cattle and 118 sheep. Calves, receipts, 5096; active and fully 50c higher. Veals, $4.50 to $8.50; tops, $8.75; culls, $4; buttermilks and mixed calves, $4.50 to $5; little calves, nominal. Sheep and lambs, receipts, 3365; sheep firm to 10c higher. Sheep, $4.50 to $6.75; extra, $7; few clipped $3.50 to $5.25; lambs, $6 to $8.25; clipped do., $5 to $7; spring lambs, $5 to $7.50. Hogs, receipts, 7143; trifle easier; State and Pennsylvania hogs, $7.60 to $7.65; Virginia hogs, $7.40.

CHICAGO LIVE STOCK.

Chicago, April 6.—Cattle—Receipts, 22,-000, including 300 Texans; steady to 10c lower; good to prime steers, $4.90 to $5.60; poor to medium, $3.90 to $4.75; stockers and feeders, $2.75 to $4.75; cows, $1.60 to $4.25; heifers, $2.50 to $4.75; canners, $1.50 to $2.80; bulls, $2.35 to $4.25; calves, $3 to $6.75; Texas-fed steers, $4.10 to $4.55.

Hogs—Receipts to-day, 29,000; to-morrow, 20,000; left over, 3000; slow and 5c lower; mixed and butchers, $7.10 to $7.25; good to choice, heavy, $7.30 to $7.50; rough, heavy, $7.10 to $7.30; light, $6.85 to $7.15; bulk of sales, $7.15 to $7.35.

Sheep—Receipts, 20,000; sheep and lambs, choice steady; others lower; good to choice wethers, $5.75 to $6; fair to choice, mixed, $4.50 to $5.50; native lambs, $5.50 to $7.80.

The stock is well assorted in men's, women's and misses' wear and all seasonable styles—suitable for all classes and the low prices make lively buying. 3d81

An Interesting Meeting.

A very interesting meeting of George street Epworth League was held last evening. After the usual song service and opening exercises an excellent paper on "The Sacred Sabbath" was read by Mr. Chas. Whiten, following which the usual monthly roll call took place in connection with which a reception service for new members was held. The Society was encouraged by the addition of some twenty-four new members, and with the increased membership and the stimulus which the Society will no doubt thereby receive a most encouraging outlook for a successful year's work is presented.

The Late Mrs. Barrie.

The funeral of the late Mrs. Barrie will take place from the residence of her son, Mr. Thos. Barrie, No. 38 Gilmour street, at 2.30 o'clock tomorrow afternoon. A private service will be held at the house. The body will then be taken to the Charlotte street church, where a service will be conducted by Rev. Mr. Jolliffe, Rev. Mr. Kilgour and Rev. Mr. Roberts of Lindsay. The latter gentleman is a venerable minister of 74 years of age, and was the first minister the deceased sat under after her marriage. Interment will take place at the Little Lake Cemetery.

AUCTION SALE.

The undersigned has received instructions to sell by public auction on the premises, No. 571 Water street, the household effects of the late F. A. WALSH, on WEDNESDAY, APRIL 8th, at 1 p.m. JOHN HAGGART, Auctioneer.

WEDDING BELLS.

Nuptials of Mr. J. Hards of Toronto, and Miss Pearl Hamilton, of Town.

A very quiet but very pretty wedding took place yesterday afternoon at No. 495 Aylmer street, the home of the bride. The contracting parties were Miss Pearl Hamilton, only child of Mr. R. A. Hamilton, and Mr. J. Hards, of Toronto, but now in the employ of Mr. Barrie, the furrier, of town. Miss Maud Adams, of Ashburnham, acted as bridesmaid, while Mr. J. F. Selby, supported the groom. Rev. J. G. Potter officiated. After the ceremony had been performed a very pretty wedding breakfast was served. The table, which was decorated with Easter eggs, looked beautiful.

The bride was married in a travelling gown. The happy couple left for Toronto yesterday by the 5.19 train.

The presents were numerous and costly, and at the same time tasteful. Among the number were a very handsome jardiniere, and a handsome lounging chair, the former being a present from the ladies on the second flat of Mr. Robert Fair's store, where the bride was employed, and the latter from the firm of Barrie, the furrier. Only very intimate friends were present at the wedding.

PETERBOROUGH'S TELEPHONE SERVICE.

A Great Increase in the Number of 'Phones Installed.

Some idea of the extent of Peterborough's commercial growth may be learned from the development of its telephone service. The local exchange has increased its business at a wonderful rate during the past six months, and the number of new phones that have been installed have kept the staff of linemen very busy, to say the least. During the past month there have been added phones at the rate of one a day in Peterborough. Every business man has found it necessary to have a phone, and there seems no sign of an abatement in the demand.

THE FIRST PARADE

Of the 57th Regiment Takes Place To-night.

Orders have been issued by Lieut.-Col. J. W. Miller, that the 57th Regiment will hold its first parade this evening at eight o'clock in the drill shed.

The regiment is now eight companies strong, and has a strong complement of officers, both commissioned and non-commissioned, and should the regiment turn out to its full strength the commanding officer will indeed be proud of his command.

At eight o'clock sharp the bugles will sound the "Fall in."

THE PETERBOROUGH BOARD OF EDUCATION

Held Its Regular Monthly Meeting Last Night.

Statement of Attendance was Presented The Finance Committee's Report.

The regular meeting of the Peterborough Board of Education was held last night in the Collegiate Institute building, there being present Mr. J. J. Hartley, chairman, and Messrs. V. Eastwood, Robert Fair, W. H. Hill, Peter Hamilton, Dr. Burnham, H. P. Kennedy, Wm. Pringle, F. J. Jameson, Louis M. Hayes, Jas. Stevenson, and J. Crane.

COMMUNICATIONS.

The following communications were received:—

From John Parnell asking that he be granted an increase in salary.—Referred to the Committee on Appointments.

From John S. Boswell, who, as the Board had been looking for several acres of land, called its attention to land for sale in lots of one, five or ten acres on the corner of Charlotte and Park street.—Referred to the Property Committee.

MONEYS RECEIVED.

The following statement of moneys received was presented:

Town Treasurer	$3,000 00
Fees, public schools	9 00
	$3,009 00

ACCOUNTS PAID.

The following statement of accounts paid was presented:

D. Dunlop, wood	$34 50
J. Wilkins	1 00
R. Duncan, carting	1 62
	$37 12

The statement was confirmed.

COLLEGIATE INSTITUTE.

The following statement of the attendance at the Collegiate Institute for the month of March was presented,

On roll			226
Average attendance			209

PUBLIC SCHOOLS.

The following statement of the attendance at the Public Schools for the month of March was presented:

Central school	391	348	89.2
South Cent. Sch.	405	365	90.0
Barnardo ave. sch.	145	130	89.5
Park st. Sch.	144	134	93.0
George st. School	137	115	84.3
	1222	1093	89.4
Kindergarten	51	33	65.4

FINANCE COMMITTEE.

The Finance Committee reported as follows:

Gentlemen,—Your Finance Committee beg leave to report and recommend the payment of the following accounts.

Miss Lottie Smith, supply	$ 2 75
A. H. Stratton & Co.	37 50
Review	7 35
W. A. Sanderson	50
McClellan Coal Co.	161 12
A. H. Stratton & Co.	36 75

Your committee also recommend that the treasurer be paid $15 for petty cash.

LOUIS M. HAYES,

The report was adopted.

PROPERTY COMMITTEE.

Your Property Committee beg leave to report in accordance with a resolution passed at the last meeting of the 1902 Board, we have instructed Mr. J. E. Belcher to prepare plans and estimates of a Collegiate Institute, accommodation to be also provided for household science and manual training; cost of plans of same not to exceed $200, with any additional allowance for travelling expenses that the committee deem advisable, so far which expense has amounted to $18, the architect's fee in the case of the building going on to be absorbed in the general fee.

Further we expect in May to lay these plans and estimates before the Board. Regarding the repairs, etc., to the various properties for the season, we beg to state that we had overlooked the fact that it is usual to lay our recommendations before the Board at its March meeting, and that this week we propose having the usual inspection made, and will lay same before the Board at its next meeting.

All of which is respectfully submitted.

V. EASTWOOD,
Chairman.

The report was adopted.

On motion of Dr. Burnham, seconded by Mr. W. H. Hill, it was resolved that a copy of the rules and regulations be sent to all the employees of the Institute.

On motion of Mr. R. Fair, seconded by Mr. L. M. Hayes, it was resolved that the chairman and another member of the Board, to be selected by by the chairman, attend the Provincial Association of High School Trustees' meeting at Toronto next week.

After some further discussion the Board adjourned.

THE PETERBOROUGH BOARD OF HEALTH

Met This Morning in Town Clerk's Office.

A meeting of the local Board of Health was held this morning in the Town Clerk's office. There were present Mr. Robert Neill, chairman, Messrs. W. Eyers, A. Parker, Geo. Schneider, Mayor Roger, Dr. McNulty, and Dr. Young, the acting-Medical Health Officer.

A communication was received from Dr. Pigeon, recommending that a convalescent hospital be established for those recovering from contagious diseases before they are allowed to associate with the public.—Received.

The Mayor was asked to try and arrange a joint meeting between the Board of Health and the Town Council on Monday night next.

The Board then adjourned.

MR. R. A. DUTTON

Has Opened up a New Grocery Shop.

Sometime back the Examiner announced that Mr. R. A. Dutton, the well known fish and fruit dealer, of George street, would open up a grocery store, adjoining his present one. The longed for day has arrived and the new store, next door, has to-day been opened, and has begun business. The two stores are connected by an archway so that anyone buying fruit or fish can go to the second shop without stepping outside onto the pavement at all.

Student's Easter Rates.

The Grand Trunk will issue to students and teachers of schools and colleges, on surrender of standard certificate, signed by the Principal, return tickets at Single Fare and One-third; going April 4th to 11th, inclusive. Valid returning until April 21st, 1903. Further particulars in another column of this paper, or from W. Bunting, C. P. & T. A., Peterborough. 10d74

PRESENTED WITH PARCHMENT PAPERS.

Masters Percy Johnston and Ernie Hamilton

At Last Night's Council Meeting—The Mayor's Remarks to the Lads.

The regular meeting of the Peterborough Town Council which was held last night was attended with more than ordinary interest. It was the occasion of the presentation of parchment papers to Percy Johnston and Ernest Hamilton, two young boys, as recognition of their act of courage in saving from drowning in Little Lake last February, a playmate, a lad named Walter Harris. Reference to the details of the affair were published in yesterday's Examiner so that they do not require repetition in to-day's issue. The Royal Canadian Humane Society, which recognises such acts of bravery, requested that the presentation of the parchments should be made in a public place. There was an unusually large number of spectators present including many children. The two young heros sat in a front seat together and were of course the cynosure of all eyes for the time being.

Mayor Roger after calling the council to order, asked them to suspend the proceeding with routine business while he performed a pleasant duty. He called Master Hamilton and Master Johnston to the enclosure wherein the council sits, and addressed a few words to them. He praised them for their bravery which they performed at a time when they never dreamed of anything in the form of recognition. They may not have thought at the time they were doing a very brave act, but public spirited citizens had brought the matter to the notice of the Royal Canadian Humane Society, and they were now being publicly recognized for their bravery. They showed very young in life the good qualities that go to make good and true men. The Mayor said that he must congratulate the boys' parents and the town upon their conduct. He hoped they would ever continue to show such a spirit of unselfishness.

In concluding His Worship handed the boys their parchment papers which they received with a polite bow and a "thank you."

Mr. D. Hughes-Charles, President of the Board of Trade, was called upon for a few remarks. He expressed the pleasure he felt in being at a meeting where heroism was being recognized. The boys had certainly begun early "to show the stuff they are made of." Mr. Hughes-Charles concluded by stating that some have presence of mind, but they use it in a different way. They use it to save themselves. These boys used it to save another.

Mr. D. W. Dumbolton, who was present said that he was there just to satisfy his desire to be present on such an occasion. It was gratifying indeed to see such bravery shown in boys so young. He referred to the bravery of Canadians in South Africa, and contended that bravery should always be recognized. The boys had shown great self-forgetfulness to save another life. Such acts on the part of our young Canadians will always bring honour to our country.

Ald. O'Connell, at the request of the Mayor, added a few words of appreciation of the boys' heroism. It was a pleasure for him to be a member of a council of which the official head was asked to make so important a presentation.

This concluded the ceremony and the Council proceeded with other matters.

WILL HOLD THEIR CLOSING GYMKHANA.

Y. M. C. A. Gymnasium Class Will Give Exhibition of Work To-night.

The closing Gymkhana of the Y.M.C.A. will be held this evening in their gymnasium. These exercises will comprise the work of the classes for the last six months, and should prove to be very interesting.

A large crowd is expected so that all who intend going are advised to reach the building slightly before 8 o'clock as the gymkhana will commence at that hour.

The following is the programme, which will be given:—

Part I.

Marching chorus, "Dooley" ... Junior Boys
Bayonet Contest...Sergt. Sturgeon vs. Sergt. Ayers
Apparatus Work ..... Seniors
Song, "When the Lady Leads the Band" ...Mr. Jos. Halpany
Wand Drill ..... Seniors

Intermission.

During intermission Messrs. Chris. Graham and Jack McDonough will give an exhibition of bag punching.

Part II.

Marching Chorus, "Tommy" ..... Junior Boys
Diving, High and Long ....
Song, "Nancy Brown" ...Mr. Jos. Halpany
Advanced Apparatus Work ..... Seniors
Relay Race ... ...Harriers vs. Pastimes
Tumbling ..... Seniors

MR. HARRY SMITH'S FATAL ACCIDENT.

A Moving Car Passed over his Body.

He Was an Employee of the Cement Works, Lakefield—How it Occurred.

Lakefield, April 7th.—A fatal accident occurred in Lakefield at 11.30 o'clock this morning the victim being Mr. Harry Smith, aged 25 years, son of Mr. Richard Smith, of this village.

The unfortunate young man was employed by the Lakefield Portland Cement Company. His duties consisted of that of brakeman on the cement cars that run into the factory. He was engaged on top of a car this morning when he fell and in some manner rolled underneath the moving monster. The wheels passed over his chest killing him instantly.

The deceased was a highly respected young man, and his horrible death is much regretted. He was unmarried.

PETERBOROUGH'S MODERN STORE.

Easter Hats

Come as early in the week as possible and leave your order for your Easter Hat with our Milliners and save the rush and the crush of the last day or say, you will get better attention and better results. Our millinery is the kind that you want; exclusive styles, and moderate prices combine to make this store the centre for Millinery.

Easter Gloves

No doubt you will want a pair of new Kid Gloves for Easter. You can get **Perrin's** celebrated Kid Gloves at this store in nice new fresh goods and all the proper shades, and you don't have to pay any more for the best here than other people ask for ordinary gloves. REMEMBER you are perfectly safe in buying **Perrin's Gloves** for you have the maker's guarantee as well as ours.

Easter Ready-Made Suits

Select styles and the best workmanship combine to make our Suits and Skirts considerably better than the ordinary, we have to pay more than the regular price to have them tailored to our order, and you can see by a glance at our garments the difference.

We are daily receiving additions to our stock in this department, and will be pleased to have you compare our styles and prices.

Novelties for Easter

Our stock of Neckwear, Collar Tops, Belts and other novelties has been specially replenished for Easter and include some decidedly pretty new ideas.

DO YOUR EASTER SHOPPING HERE.

SUNDAY AFTERNOON'S MEETING FOR MEN.

Mr. J. L. MacPherson's Interesting Address on Foreign Work.

Mr. J. L. MacPherson, of Toronto, College Secretary of the Provincial Y. M. C. A., paid a visit to the local Association on Sunday and Monday in the interests of that work.

At the recent convention it was decided that the Associations of the two provinces undertake the support of one of the secretaries in Calcutta, India, and thus far at the places visited by Mr. MacPherson, a good response has been made and the success of the undertaking assured.

Mr. MacPherson gave a telling address at the men's meeting in Association Hall on Sunday and outlined what was being done by the Association of North America for the two hnudred million young men in non-Christian lands.

The plan was to provide for the non-Christian young men the same kind of work that is carried on in Peterborough and other Y. M. C. A. towns and cities.

In 1887 Mr. McConachie, of Philadelphia, began pioneer work in India. Now there were over 300 Associations with a membership of 14,000. Calcutta was the strategic point, for it was the great student centre of India. Last year 13,000 went up for examination in the colleges in that city, and where there were 74 High Schools with over 30,000 pupils in the two upper forms. A great work for Christ had been done among the colleges.

Mr. Farquar was the secretary whom the Associations of the provinces of Ontario and Quebec had decided to support.

Mr. MacPherson's address was listened to very earnestly and a generous response made when subscriptions were called for.

A rousing meeting of the school boy members of the Association was held in the morning and great enthusiasm was show. The boys subscribed over $50.00, on the basis of paying 5 cents month, which they all agreed to earn themselves.

The working boys of the Y.M.C.A. have subscribed even a larger sum, and as a result of Mr. McPherson's visit a splendid start has been made Foreign Work in the Peterborough Association.

A total of $244.00 has been subscribed by the number of members who have been interviewed, and it is expected the amount will exceed $300 when many others who desire to have a share in this great and far-reaching work, have been heard from.

Pledge cards can be secured at the office of the Association.

Notice.

All parties indebted to the estate of the late Dr. King are requested to call at once and settle with Mrs. King, and save further trouble. d79

THE TAX-LEVY FOR THE YEAR 1903.

The Way the Money Comes and Goes.

The Rate This Year is Nineteen Mills on the Dollar.

At last night's meeting of the Town Council a bylaw was introduced providing for the levying of taxes in the town of Peterborough for the year 1903. It read in part as follows:

A Bylaw to fix the rates and authorize the levying of taxes in the town of Peterborough for the year 1903, and to adopt the assessment roll made in the year 1902, and to provide for the form and contracts of the collector's roll.

Whereas it will be necessary to raise and levy in the town of Peterborough for the year 1903, after deducting the estimated revenue for the same year, the sum of $38,631.50, for the general expenses of municipal government, included in the specific purposes next following, and for the several amounts set opposite to the respective items therein, that is to say,—

Assessments	$ 1,425
Charity	1,900
Chairmen expenses	100
Dog tags	25
Elections and voting bylaws	300
Fire department	4,450
Maintenance granolithic walks	125
Heating	450
Health	525
Insurance	125
Interest	1,130
Light	6,700
Law	1,200
Market	200
Miscellaneous	1,500
Municipal government	250
Parks, band stands, trees, etc.	400
Property	950
Printing and stationery	800
Refunds	200
Streets and bridges	12,000
Street watering	1,600
Snowploughing and shovelling	600
Special grants	2,900
Sewer maintenance	500
Voters lists	250
Water commissioners	6,240
Percentages and remissions	3,100
Special Committees re franchises	800

And whereas it will be necessary to raise and levy for the special purposes of the list next following the several sums set opposite to the respective items therein, that is to say,

Administration of Justice	$ 6,700 00
Coms. Town Trust	12,748 08
Col. Inst. demand and inst	7,500 00
Public Sch. demand and inst	17,500 00
R. C. Separate school demand	5,000 00

After referring to the rates in detail the following summary is given:

Protestant Rate.

	Mills
Administration of Justice	1.44
Town	8.67

TOWN COUNCIL HELD A VERY BUSY SESSION.

Agricultural Society Asks for Substantial Grant.

MR. HUGHES-CHARLES SPEAKS

The Street Lighting Question Again up.

Council Thinks That the Companies are Slow to Make Definite Statement—Committee's Reported.

The Town Council met in regular session last night. His Worship Mayor Roger presided, and there were present Aldermen H. Best, J. Corkery, Jos. Batten, Robt. Clinkscale, R. F. McWilliams, D. O'Connell, Jas. Finnie, H. Rush, B. Shortley and Jas. Edgcumbe.

COMMUNICATIONS

were received and disposed of as follows:—

From R. M. Dennistoun on behalf of Mr. Stewart, stating that the price of the lights if the town accepted their proposition would be $60 a light not, the contract to cover Ashburnham in case of municipal union and to any further additional extensions of the town.—Received.

From Mr. F. W. Doan, local manager of the Bell Telephone Company, asking for permission to move eight poles on the west side of Water street from Hill street to town limits to the east side of Water street between the same two points.—Board of Works.

From Mr. Chris. Wood, asking permission to build a boat house on the east end of Dalhousie street.—Board of Works.

From Dr. Young, applying for the temporary position of Medical Health Officer, which he would fill without remuneration.—Received.

From the Board of Directors of the Y.M.C.A., asking for remission of the school taxes for 1902, amounting to $30.00. The remission was asked because educational classes were carried on by the Institution.—Court of Revision.

From Mrs. E. A. Wood, asking for a new awning, as the new railway gates across Simcoe street obstruct the present one.—Town Solicitor.

From St. Peter's T.A.S., asking for a remission of their school tax, amounting to $29.45.—Court of Revision.

From the Otonabee Power Company, as follows:—In answer to your letter of the 2nd inst., we beg to state that whatever amount the town impose on us for taxes and rent for poles will be received back by the town for their own use, thereby leaving our offer to supply light at the prices already given. If a pole rental of $400 per year is imposed and taxes are imposed on station and pole line, etc., then our price for supplying current for each lamp will be correspondingly increased by that amount. Our taxes amount to about $51. Under the new and modern lamps a different electrical current is used from that which the old lease provides for. In the result, however, the town will get a much better light than has been heretofore supplied.—Received.

A petition from M. L. Henry and others was received, asking for the opening of Parnell street west to the boundry.—Received.

A DEPUTATION.

A deputation was present from the Agricultural Society of West Peterborough, asking that a grant be made for the maintence of that institution. The deputation consisted of Mr. D. Hughes-Charles, the president of the Society, and Mr. Alex. Elliott. Mr. Hughes-Charles in the course of his argument in favour of a substantial grant, said that he represented the "reformed" Agricultural Society. They desired that the town give them a grant in order to make the show a success. It had not been a success in the past for which there were several reasons. The principal reason was, to his mind, owing to there not being large enough prizes offered to induce people to come from a distance with entries. A properly managed agricultural society was a grand thing for any town, he contended, and in this regard the president instanced what the Industrial had done for Toronto, what the Western had done for London, and what the Ottawa Central had done for Ottawa. These towns help the societies. The directors of the new Board feel that Peterborough is in the centre of a grand agricultural country, and we should therefore have a good fall fair. The people of the Peterborough district have become somewhat discouraged. They have not had any object lessons, and this is what the new society intends to offer them. By offering large purses they can induce owners of a good class of stock to come to the Peterborough fair, where the farmers and others can then see something worth seeing. He characterized it a disgrace the way the Peterborough exhibition had been allowed to go behind. However, if given a good start, he thought it would move ahead. Regarding the private subscriptions, Mr. Hughes-Charles said they had been liberally responded to, and they wanted the town to do its share now.

The Mayor—How much do you think we should give?

Mr. Hughes-Charles—$500.

Mr. Alex. Elliott, who was present as a member of the delegation, supported the request of Mr. Hughes-Charles.

The Mayor—How much has the County Council given you?

Mr. Hughes-Charles—They have not been asked as yet; we will visit them at their June session.

Alderman H. Best asked Mr. Hughes-Charles if he would support the council in such a grant as a ratepayer, and Mr. Hughes-Charles said that he most certainly would. He would not ask any man to do that which he himself would be afraid to do.

Alderman Best said that he realized the importance of having a good show in Peterborough and would support a grant for that purpose. It was impossible to have a good show without handsome prizes.

The mayor promised that the matter would receive due consideration, and Mr. Hughes-Charles asked for an early reply in regard to the matter.

THE FINANCE COMMITTEE.

The Finance Committee, through its chairman, Alderman Rush, reported as follows:

Gentlemen,—Your Finance Committee beg leave to report and recommend as follows:

1. That a grant of $550 be made to the Peterborough Horticultural Society on condition that the Society properly care for the Victoria and Central Parks.

2. That a grant of $50 be made to the Salvation Army Band.

3. That it be made a condition of future contracts that they or the payment under them shall not be assigned or orders given thereon and if they are assigned or orders given on them that they shall be liable to cancellation at the option of the Finance Committee.

4. That the following accounts be paid:

W H Hall	$ 6 00
Salisbury Co	2 00
Charles Stapleton	10 00
Dickson Co	18 00
C N Brown	7 00

T Cavanagh	2 00
Wm Hetherington	8 50
The Municipal World	8 26
Globe Printing Co	1 32

All of which is respectfully submitted.

The report was adopted as read.

THE LICENSE COMMITTEE.

The Licence Committee, through its chairman, Alderman J. Finnie, reported as follows:

To the Council of the Town of Peterborough:

Gentlemen,—Your License Committee beg leave to report and recommend that, A. D. Towle be given a license for exhibiting a mechanical novelty, "The Wild West," in his store for a fee of $1.50 per day.

All of which is respectfully submitted.

JAS. FINNIE,
Chairman.

MARKET COMMITTEE.

The Market Committee, through its chairman, Alderman J. Edgcumbe, reported as follows:—

To the Council of the Town of Peterborough:

Gentlemen,—Your Market Committee beg leave to report that on March 23rd last, the Market Tolls and charges for the year commencing April 1st, inst., were sold to Wm. Taylor for $1,030. The papers in connection with the sale have been executed by Mr. Taylor and his sureties.

All of which is respectfully submitted.

JAS. EDGCUMBE,
Chairman.

The report was adopted.

ACCOUNTS.

The following accounts were referred to the Finance Committee:—

Toronto Savings & Loan Co	2 56
Bell Telephone Co	50
Review Printing Co	10 75
W Stocker	6 60

STREET WATERING.

The Board of Works, through its chairman, Alderman Best, reported as follows:—

Gentlemen,—Your Board of Works beg leave to report as follows:

1. Your Board advertised for and received tenders for street watering for the season and recommend that the contracts be awarded as follows: Southern District to Thomas McWilliams for $227; the Western District to J. H. Cameron for $320, and the Northern District to Zimri Blodgett for $329.

2. We recommend that Harry Evans be appointed Street Commissioner at a salary of $700 a year, this appointment to date from March 30th, 1903.

All of which is respectfully submitted.

The report was adopted as read.

BYLAWS.

Several bylaws were introduced and passed their several stages, among the numbers being bylaws to fix the sum of certain grants to the Horticultural Society; a bylaw to effect an agreement with Mr. Thos. Williams, for a nuisance ground; a bylaw re street watering; a bylaw to fix the rates and authorize the levying of taxes in the town of Peterborough for the year, and to adopt the assessment rate of 1902.

DR. YOUNG APPOINTED.

The matter of Dr. Young's application for temporary appointment as Medical Health Officer was taken up, and the council felt that Dr. Young had made a generous offer. He was appointed to the office in Dr. Bingham's absence.

Alderman Clinkscale moved, seconded by Aldermany Batten, that the Mayor be authorized to purchase 100 feet of gutta percha hose for fire purposes at 90 cents per foot.

Alderman Clinkscale stated that he had sold one of the fire horses, and he wanted permission to purchase another. This was granted.

The Mayor said that he had received the collector's roll of unpaid taxes, and that they would look into it in Committee of the Whole.

ELECTRIC LIGHT.

Ald. Best asked what was being done regarding the street lighting contract.

Ald. O'Connell thought that the companies should give a direct answer to the questions that were being asked them. There are two tenders but neither of them was clear as to the price per lamp they intended to charge. Both offers were indefinite.

Mr. W. H. Meldrum, of the Otonabee Power Company, who was present, explained that at the present time the Peterborough Light and Power Company was enjoying exemption from taxation on their power system. All that the Otonabee Power Company asks is that their sub-station in the town be exempt and they would charge $35 a light. If pole rental were charged the Company, the price would be $40 a light.

Ald. O'Connell still protested that what the Council should have is a plain statement as to what the Companies will supply the light for irrespective of the pole question or the question of taxes.

Mr. Meldrum went on to speak of the system they proposed to inaugurate in Peterborough which was much superior to that already in use.

Ald. Best thought the best thing the Council could do was to light the town themselves from their own plant or give the contract to the Otonabee Power Company. If the town could not light the town as cheaply as the latter Company, very well, but he was of the opinion that they could. Then if they were to grant the contract to the Otonabee people there would have to be the matter of poles considered. They would have to allow more poles to be planted on the streets or they would have to take over the present pole plant of the Peterborough Light and Power Company.

Once more Aldermen O'Connell protested that the companies had failed to give the proper information, and he moved that the clerk once more write to them on the matter.

Alderman McWilliams reviewed his attitude on the matter but held that they should have more information. They must get at the exact amount of the difference between the two offers, then they would know what bonus they were giving. They were now no further ahead than they were last Thursday night. He suggested taht a small committee be appointed to wait on the two companies.

Alderman Best said that there was no use considering the street railway matter with the street lighting. These two questions should be kept distinctly separate. If Mr. Stewart wishes to undertake the street railway matter we want him to take it up apart from the street lighting.

Mr. D. W. Dumble, who was present, was invited by the Mayor to express his views. He declined to express his views further than to say that it was a rather complicated question, and he hoped that Providence would lead them to a right ecision.

Mr. O'Connell was willing to change his motion to suit Mr. McWilliams' idea.

Mayor Roger suggested that an expert be called in to give his assistance. The Mayor did not think it wise to have the town undertake street lighting on its own account, just yet, although he was in favour of the general principle of the municipalities controlling their own utilities. He suggested that the council adjourn and take up the matter in committee. This the council did, and the matter was taken up in Committee of the Whole.

St. Andrew's Young Men's Guild meets to-night. Full attendance of the members requested.

RHEUMATISM

Mr. C. Wright, of Toronto, Had Rheumatism So Bad That He Had to Crawl on His Hands and Knees.

Five Bottles of Powley's Liquified Ozone Eradicated Every Trace of the Disease and He Gained Forty-Two Pounds in Weight.

For several months I was a great sufferer from rheumatism. My trouble was principally in the soles of my feet, which were so sore and full of pain that I had to crawl on my hands and knees. I was recommended to try Powley's Liquified Ozone. I soon began to get better, and by the time I had taken five bottles I was in splendid condition. My pains and aches had all disappeared. When I commenced taking Ozone I weighed 130 pounds. I now weigh 172 pounds and feel in splendid health. We feel very thankful that we ever got your valuable remedy. We keep Ozone in the house all the time as a ready remedy for ills in the family. You are at liberty to publish this for the benefit of other sufferers.

(Signed) C. WRIGHT.
852 Bathurst street.
Toronto, Sept. 10, 1902.

Every Rheumatic Twinge and Pain Vanishes Before Ozone.

Powley's Liquified Ozone brings gladness to the heart of the rheumatic sufferer by its promptness in banishing his aches and pains. It immediately destroys the disease germs and almost at once he commences to get well. He has new vim, new ambition and a desire to be up and doing. Ozone has done this in so many cases that we know exactly how it will act in every case. It is sold by all reliable druggists at 50 cents and $1.00 per bottle.

Our free book on Rheumatism for the asking.

A Twenty-five Cent Box of Powley's Laxatives

FREE.

In order that our customers who are using Powley's Liquified Ozone may more quickly become acquainted with the merits of our new preparation, Powley's Laxatives, we will mail a regular 25 cent box of these Laxatives to any customer who will cut out and mail to us the following coupon:

This Coupon Is Worth 25 Cents.

I am afflicted with

Name of disease.

and have decided to give Powley's Liquified Ozone a trial. Kindly mail me, free of charge, a full 25 cent box of Powley's Laxatives, to use in connection with Powley's Liquified Ozone.

Write your name plainly.

Subscriptions and renewals taken at the Examiner office, Peterborough.

HELD AT BAY BY 37.

Bulgarians, Cornered at Grabnitza, Made Memorable Fight.

FOUR TURKISH BATTALIONS.

Successful Operations of Major Sharpe's Flying Column in Somaliland—Santo Domingo Insurgents Defeated—Government Troops Drive the Rebels Back Into the City—Must Observe Rule of War.

Sofia, Bulgaria, via London, April 6.—A London correspondent, just returned from Salonica, wires: Although I was prevented by the force of Turkish soldiers under the direction of the Governor of Istip from being personally on the scene, I was only distant an hour and a half by horse from the village of Grabnitza, where for thirty hours 37 Bulgarians held at bay four battalions of Turkish troops, and perished with the exception of one man, who was taken prisoner when the house was set on fire and burned almost over his head. There is a strong force of Turkish infantry, cavalry and artillery at Istip, but they keep out of the Bulgarian villages round about unless they can muster a strong force.

BULGARIA ACTIVE.

Government Has Seized Macedonian Arms Hidden in Sofia.

Vienna, April 6.—Advices received here from Sofia says the Bulgarian Government is taking active measures against the Macedonian bands and has seized a large quantity of their arms that were hidden in Sofia. Bulgarian gendarmes on the frontier near Dubnitza have fired on insurgents who were attempting to smuggle guns into Turkey. Fresh insurgent bands have appeared in the district of Djumes (Roumelia), and a strong detachment of Turkish cavalry with artillery has started in pursuit, going towards the Kresna Pass.

Russian Consul Dead.

Salonica, European Turkey, April 6.—It is reported that the Russian Consul at Mitrovitza, who was shot in the back by an Albanian sentry there, is dead.

FIGHTING IN SOMALILAND.

Successful Operations of Major Sharp's Column During the West.

London, April 6.—The War Office Saturday received a despatch from Aden, Arabia, under current date, saying that Major Sharpe's flying column had returned to Damot, Somaliland (East Africa), after a week's engagement southward and that the enemy's losses were 98 men killed and 2,000 camels and 6,000 sheep captured.

FROM PAJARITO SUBURB.

Government Forces Drive Rebels Back Into the City.

Santo Domingo, April 6.—An engagement was fought April 2 at Pajarito, the most severe since the outbreak of the rebellion. The contending forces used fire arms and cutlasses, and several persons inside the city were killed by stray shots. The insurgents were driven back to the city, but are full of fight, and if compelled to abandon the capital, will embark on the gunboat Independencia and join the rebels on the northern part of the island. The United States cruiser landed fifty marines to protect the American consulate, and attended many of the wounded in Wednesday's battle.

Must Fight Under Recognized Rules.

The members of the consular and diplomatic corps here met the same day, and appointed a commission to notify both sides that they must observe the rules of war, and to demand twenty-four hours' notice before any attack is made on the town, in order that the foreign residents may go to a place of safety.

All places of business are closed, and the situation is extremely critical.

Student Riots in Madrid.

Madrid, April 6.—Slight disorders arising out of the student demonstration Friday continued here until midnight, Saturday, since which time the city has been quiet. The prefect has issued a proclamation forbidding public gatherings. The lower quarters of the city are occupied by mounted police.

Got New Cabinet.

Port au Prince, Hayti, April 6.—A new Cabinet was formed yesterday. The previous Cabinet resigned Saturday, owing to the Senate having passed a vote of censure against

THE MISERY OF CATARRH

It makes a man ridiculous, it makes him an offensive nuisance and it makes him dangerously sick.

Catarrh is not a luxury or a necessity.

It is pretty sure to bring on consumption, pneumonia, or at least, bronchitis. You cannot afford either.

You can afford the cure for it. A cheap cure that has never failed. It is **Dr. Agnew's Catarrhal Powder.**

It relieves a cold or catarrh, or cures a headache in ten minutes, it entirely heals up the catarrh-wasted surfaces.

No other remedy can count noses with us—cured noses.

C. E. ZIMMERMAN, of the staff of the Roanoke World, states :—

"Dr. Agnew's Catarrh Cure is the only remedy that has ever given me any permanent relief, after suffering more than fifteen years from Catarrh."

Dr. Agnew's Heart Cure first looks to the main spring of life and health, sets up the heart in new strength, feeds the nerves and fills every other organ with life. Cured thousands; will cure you. 28

Arouse Your Liver.

You cannot have comfort until it acts freely. To enjoy perfect health and feel like a new person take

Beecham's Pills.

Sold Everywhere. In boxes, 25 cents.

the Ministers for their failure to take proceedings against those who were responsible for the interruption of the sitting of the Chamber of Deputies March 30 by the firing of rifle shots.

PEKIN CHINESE SURPRISED.

Cannot Understand Why U.S. Has Increased Her Asiatic Squadron.

Pekin, April 26.—The report received here that the action of the United States in increasing her Asiatic squadron, is on account of "the alarming reports on the situation in China" excites surprise in Pekin. Such reports were not sent by the United States or British Legations, which possess good facilities for judging the situation in China. The only disturbances considered serious are those in the Kwang-Si Province (the Soun Province of China bordering Tonkin, where 100,000 rebels are said to be under arms), which were never directed against foreigners.

The latest reports regarding General Tung Fugh Siang, the "Boxer" leader, and Prince Tuan, the exiled anti-foreigner, who are at the head of the insurgent forces in the north-western Province of Kansu, are reassuring. The Government claims to have come to an understanding with them, whereby they agree to refrain from hostilities. It is believed that the Government is supplying them with funds on condition that they remain quiet.

Want Peace.

Panama, Colombia, April 6.—News has reached here from San Salvador by cable, that it is reported at La Union that the President of the Honduras, General Sierra, has sent a representative to Aceituno to make peace arrangements with General Bonilla, the President-elect of the country.

NO UNCERTAINTY ABOUT IT.

PAINE'S CELERY COMPOUND

The Spring System Cleanser and Health Builder Makes Sick People Well.

There is nothig doubtful or uncertain about the working and effects of Paine's Celery Compound. It stands supreme as a spring system cleanser and health builder. It reaches without loss of precious time the cause of sickness and disease in a way that no other remedy can do. Its first and most important mission is the purification of the life stream; increasing its volume and quality. It then stirs all the organs that work sluggishly. It restores strength, renews vitality, regulates the kidneys, liver and bowels, and makes people well and strong. For these reasons Paine's Celery Compound as a spring medicine stands far above all other prescriptions and remedies that promise so much and accomplish so little. Mrs. E. Coleman, Burlington, Ont., gives her experience with Paine's Celery Compound as follows:

"I am now sixty years of age, and have been ill for nearly twenty years. During my long illness doctors and patent medicines failed to cure me. At the hospital I was told that I was suffering from tumors; and often, no matter how I tried to cheer myself, I felt like putting an end to my life. I heard of your Paine's Celery Compound and commenced to use it, and it has done wonders for me. I feel better than ever before in my life, and my friends are surprised at the wonderful change in my health. Paine's Celery Compound is a grand medicine, and I will always recommend it."

STEAMER BLOWN UP.

Bright Flash and Loud Explosion Indicates Awful Accident.

London, April 4.—It is believed that the steamer Bambara, on her first trip from Marseilles to Dakar, French West Africa, with a cargo of about 95,000 pounds of gunpowder and two cases of dynamite, has been blown up at sea and foundered. Lloyds says there is reason to fear that this has occurred, although no confirmation is at hand.

The Bambara has not been reported from Gibraltar, although she should have been sighted there March 31. The captain of the French schooner Assumption of Marseilles reports that on March 28, when sixty miles off Ile Du Palmiera, he saw a brilliant flash, which was followed by a loud explosion. The captain of the Nina makes a similar report.

The crew of the Bambara numbered thirty-five men, and she carried six passengers.

Fireman's Gallantry Fruitless.

Windsor, April 6.—Edward Broughton, an electrician in the employ of the People's Electric Company, was so severely burned at a fire in the Hotel Dieu early Saturday morning that he expired in the afternoon. Broughton's room was on the third floor, and the fire was discovered at 2.45 a.m. When the fire department arrived, the flames were raging fiercely. Nothing daunted, Steersman Taylor of truck No. 2 made his way upstairs, broke through the door and managed to get him out into the hall. An exploding lamp is held responsible for the blaze.

United Convention in Ireland.

Arrangements are being made both in Ireland and America for the holding of a united convention of Irish societies in Ireland next year, at which delegates from the United States, Canada, Australia and Ireland will be represented. The convention will be held on the site of the Rock of Cashel, in County Tipperary, which the leaders consider is a proper place from which to issue a declaration of independence.

THAT WEARY SPRING FEELING

Is Quickly Disposed of by Dodd's Kidney Pills.

They Tone up the Kidneys, Ensuring Pure Blood, Good Circulation, and as a Consequence, Vigor and Energy.

Nearly everybody needs toning up in the spring. Some are altogether ill; others just feel fagged and worn out. They have little inclination to work and less to eat. They are simply useless.

Did you ever stop to think that there is a reason for all this, and that if the compalint is attacked intelligently it will yield readily, the lazy feeling will depart and in its place will come vigour and energy and appetite.

It is the Kidneys that are not doing their work. They need to be toned up with Dodd's Kidney Pills. Why? Because they are being overworked and need help.

In the winter the body fortifies itself against cold. With the coming of spring it throws off this fortification, which consists of extra tissue, and additional waste matter is given to the blood to carry away. If the Kidneys are in condition to do extra work this waste material is quickly expelled from the body in the usual way.

But if the Kidneys are tired or worn out the waste remains in the blood, and the circulation is clogged. The remedy is simple. Dodd's Kidney Pills put the Kidneys in good working order. The Kidneys in good working order ensure pure blood and good circulation—ensure brightness and vigour and energy. Thousands of people will tell you so, can tell you so, but of their own experience.

JUDGES WINCHESTER AND HATTON.

County Judge of York and County Judge of Grey Appointed.

Ottawa, April 6.—At Saturday's Cabinet meeting Mr. John Winchester, Master-in-Chambers at Osgoode Hall, was appointed Senior County Judge of York in succession to the late Judge McDougall. The vacant Judgeship in Grey County, caused by the death of the late Judge Creasor, was filled by the appointment of Mr. W. J. Hatton, K. C., of Owen Sound.

It is understood that Mr. Winchester's appointment to the Surrogate Judgeship by the Ontario Government will follow.

Mr. Hatton is a native of the Township of Sydenham, County of Grey, and practised law for several years at Owen Sound. He was formerly a partner of Mr. A. G. Mackay, M.P.P.

Mr. Winchester was born in Elgin, Scotland, Aug. 27, 1849, educated at Toronto Grammar School, admitted attorney in 1871, and called to the Bar in 1877. He practised in Toronto until October, 1882, when he was appointed Registrar of the Queen's Bench division of the High Court of Justice. This office he resigned in June, 1888, when he was appointed Inspector of Legal Offices, to which appointment were added in March, 1894, that of Official Referee under the Ontario judicature act, and in August, 1892, Master-in-Chambers of the High Court of Ontario.

MR. CHAMBERLAIN.

Enters Denial to Story of Government's Policy in Ireland.

London, April 6.—Colonial Secretary Chamberlain was asked Saturday if there was any truth in the statements made by the Dublin correspondent of The Daily Chronicle Friday to the effect that the Government intends to dissolve Parliament at the end of the special session; that the leading plank of the Conservative platform would be an enormous extension of Local Government in Ireland; that the Irish police would be placed under the control of a Legislative Council; that Mr. Chamberlain warmly supported these projects of the Government, and that neither Gerald Balfour, President of the Board of Trade, nor War Secretary Brodrick will be included in the next Cabinet.

Mr. Chamberlain replied: "The statements are absolutely untrue, both as they regard myself and as they regard the Government generally."

Packing Trust Charter.

Trenton, N. J., April 6. — An amended charter of the United States Packing Company was filed Saturday with the Secretary of State. It provides that the Board of Directors may increase the capital from $1,000,000 to $4,000,000. It also provides that the preferred stockholders shall receive six per cent. before any dividends are declared on the common stock.

Bogus Boer Is Safe.

Toronto, April 6.—W. T. de Jongh, the bogus Boer general, will not be extradited. The genial Boer that worked the smooth game of cheque-cashing on the Walker House is not to be sent back from New York to meet the charge. He is now a free man. The authorities here do not think the game worth the candle.

Curfew Shall Not Ring To-Night.

Niagara Falls, Ont., April 6.—The Council has decided that there shall no longer be a curfew rung at 9 p.m. The curfew law has not been enforced for some time, and the ringing of the bell is considered unnecessary.

Mrs. Sadlier Dead.

Montreal April 6.—Mrs. Mary Ann Sadlier, the well-known writer, died here last evening, aged 83 years.

Brakeman Died From Shock.

Toronto, April 4.—D. Connor, a C.P.R. brakeman, had his leg crushed between two freight cars Thursday night at Peterboro. He died yesterday morning from heart failure, caused by the shock. The dead man's home is said to be in Barrie.

Not Liable For Import Duties.

Sydney, New South Wales, April 4.—The Supreme Court has decided that the goods imported for the State Government are not liable to the Commonwealth import duties.

Miller's Grip Powders Cure. Sold by all druggists.

ALBERT SNIDER'S DEATH.

Well-Known Belleville Man Poisoned by Carbolic Acid.

Belleville, April 6.—A tragedy unspeakably sad in many of its aspects was enacted on College Hill, this city, Saturday night, when Albert L. Snider, son of Rev. W. H. Snider, superannuated Methodist minister, came to an untimely end, through carbolic acid poisoning. He had been away in the country selling some kind of a patent preparation and had been drinking freely. He returned home between 6 and 7 Saturday night and at once went upstairs. A few minutes afterwards his wife heard a heavy fall. She rushed upstairs and found her husband lying on his face, evidently in terrible agony. A little bottle, which had contained carbolic acid, was lying on the floor close by him. Snider was dead before medical men arrived. Dr. Yeomans, coroner, was called in, but decided that the man died of accidental poisoning, as he thinks Snider meant to take some medicine and took the carbolic acid by mistake. The dead man was 38 years of age, and leaves a widow and five children, the eldest only 11 years of age.

Young Man's Sad End.

St. Catharines, April 6.—Ovella Bryere of Rochester, N. Y., shot himself in this city Saturday night. He was a young man about 21 years old, and was here on a visit with his uncle, J. Smith, who lives near lock 2, old canal. Bryere had been drinking during the day and come home to his uncle's about 8 o'clock in bad shape. He pulled out a revolver, which greatly alarmed Mrs. Smith, who was alone in the house. She ran to a neighbor's for assistance, and upon their return found Bryere lying unconscious on the floor. He had shot himself just behind the right ear, the revolver used being a large 32 calibre. Bryere never regained consciousness, and died in the ambulance on his way to the hospital.

A GUARANTEED CURE

For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

Four Killed at Dubois,

Dubois, Pa., April 4.—Four men were killed and several injured at London Mine, near here, to-day, by a fall of rock and earth.

A Rumor From Dublin.

London, April 4.—The correspondent of The Daily Chronicle at Dublin claims to have the authority of a member of the present Government for the statement that the Government intends to dissolve Parliament at the end of the present session, the general elections being held in the autumn. The leading plank in the Conservative platform at the elections will be an enormous extension of local government in Ireland, providing for the establishment of a Legislative Council at Dublin, which will have control of the Irish police.

C.P.R. Traffic.

Montreal, April 4.—The week's traffic returns for the C.P.R. ending March 31, amount to $1,156,000, as compared with $939,000 for the corresponding period last year.

Ex-Patron Leader Very Low.

Kingston, April 4.—J. L. Haycock's condition was worse again last night. It is feared he has not the constitution to overcome the attack of pneumonia.

The Broken Health of School Life.

Close Confinement, Over Exertion at Study and worry over examinations too great a strain for the Nerves.

Dr. Chase's Nerve Food

So many school girls and school boys, too, are pale, languid and run down in health, subject to weak spells and nervous headaches, and victims of sleeplessness, that we no longer realize the folly of developing the mind at the expense of the body.

It is on the mothers and fathers that falls the responsibility of looking after the health of their children and to them we suggest the wisdom of having the health of their children kept at the high water mark by Dr. Chase's Nerve Food.

This great food cure is so gentle and natural in action as to be admirably suited to the requirements of children. The benefits to be derived from its use are certain and lasting, as it goes to form new red corpuscles in the blood and creates new nerve force.

Mrs. R. Wareham, 267 Sherbrooke street, Peterborough, Ont., states:

"One of my children has suffered a great deal with nervous headaches, dizziness and sleeplessness, and in fact, was all run down, pale and languid. These troubles we attributed to over-study and confinement at school. She began using Dr. Chase's Nerve Food, and I can say that we have found this treatment exceedingly helpful. It has relieved her of headache, steadied her nerves, and built up her system wonderfully. We can see a great change in her, as the color is returning to her face, and she is gaining in flesh and weight."

Dr. Chase's Nerve Food, 50 cents a box; six boxes for $2.50 at all dealers, or Edmanson, Bates & Co., Toronto. 10

A Kidney Sufferer for Fourteen Years.

TERRIBLE PAINS ACROSS THE BACK.

Could not Sit or Stand with Ease.

Consulted Five Different Doctors.

Doan's Kidney Pills

FINALLY MADE A COMPLETE CURE.

Mr. Jacob Jamieson, Jamieson Bros., the well-known Contractors and Builders, Welland, Ont., tells of how he was cured: "For fourteen years I was afflicted with kidney trouble which increased in severity the last five years. My most serious attack was four years ago, when I was completely incapacitated. I had terrible pains across my back, floating specks before my eyes and was in almost constant torment. I could not sit or stand with ease and was a wreck in health, having no appetite and lost greatly in flesh. I had taken medicine from five different doctors and also numerous other preparations to no purpose. I finally began to take Doan's Kidney Pills and before I had taken five boxes the trouble left me and I now feel better than I have for twenty years. Those who know me know how I was afflicted and say it is almost impossible to believe that I have been cured, yet they know it is so. I have passed the meridian of life but I feel that I have taken on the rosy hue of boyhood."

Price 50 cts. per box, or 3 for $1.25, all dealers or

THE GAMEY INQUIRY

One Hundred and Fifty Witnesses Have Been Summoned.

COUNSEL BUSY PREPARING.

An Order Made For the Production of Documents—First Skirmishing Move Was Made by Accuser's Counsel—Col. Clarke Pays $500 to Mr. W. D. McPherson For the Payment of Witnesses.

Toronto, April 6.—The counsel who will act for both sides in the investigation of the Gamey charges are busy preparing for the opening of the case on the 13th. It is stated that subpoenas have been issued to nearly one hundred and fifty persons to appear as witnesses, most of them from Manitoulin.

On Saturday Mr. W. D. McPherson received from Col. Clarke, the Clerk of the Legislative Assembly, $500 for payment of conduct money to witnesses. This sum has to be accounted for at the close of the commission, and fees are to be allowed only to such witnesses as the Judges shall certify as having been properly summoned to give evidence.

Orders For Documents.

On Saturday, too, Mr. McPherson served an order on Mr. E. F. B. Johnston, K.C., the chief counsel for the defence, for the production of the documents. The order reads:

"It is ordered that each of them, The Honorable J. R. Stratton (Provincial Secretary); The Honorable G. W. Ross (Premier and Provincial Treasurer); the Honorable John Gibson (Attorney-General) the Honorable Richard Harcourt (Minister of Education); the Honorable E. J. Davis (Commissioner of Crown Lands); The Honorable Frank Latchford (Commissioner of Public Works); Frank J. Sullivan, R. A. Grant and Capt. John Sullivan of Toronto; D. A. Jones of Beeton and R. R. Gamey do on or before Monday the 6th day of April, 1903, make full discovery on oath according to the practice of the High Court of Justice for Ontario, and as if each of the above mentioned persons was a party in a cause in the said High Court of Justice, of all the books, papers, documents and things which are or have been in his possession, custody, or power, relating to any matters in question herein or revelant thereto, and also on or before Monday, the said 6th of April, do produce to and deposit with me for the use of the honorable, the commissioners, all the said books, papers, documents and things.

(Sgd.) G. C. Grant,
Registrar of the Said Commission.

Mr. Johnston has not yet filed any documents, but will probably do so to-day.

Rheumatism..

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the *cause* of those fearful shooting pains and stiff, aching joints. There is but one sure way—

Dodd's Kidney Pills

Life Funds

MARINE INSURANCE RATES.

Sir Thomas Shaughnessy Home and Talks of the Prospects.

Montreal, April 6.—Sir Thomas Shaughnessy, who had just arrived from London, says Canadian shipping generally will profit by the fact of the Canadian Pacific being able to secure the reduction of insurance rates to a few guinea basis, and also that the weekly service will be begun in May between the St. Lawrence and Liverpool, with a fortnightly line from Montreal to Bristol and London, with perhaps Antwerp or some other point as a continental port of call.

Sir Thomas added that the C.P.R. Company fears the effect of the Anti-Chinese legislation now before the Canadian Parliament, as a measure so prohibitive in its character might provoke retaliation on the part of the Chinese authorities and seriously interfere with trade between Canada and that Empire.

Opposition to Panama Canal Treaty.

Kingston, Jamaica, April 6.—The Royal Mail Company's steamer, Atrato, which arrived here yesterday from Colon, and Cartagena, brings the report that considerable opposition is developing to the Panama Canal Treaty in almost every department of Colombia, except Panama. It is believed that the majority in Congress will favor the treaty, but there are no fears that trouble will arise, because the political situation in Colombia is becoming more complicated, and the Presidency is surrounded with uncertainty.

Whittaker Wright Will Fight.

New York, April 6.—Before the United States Supreme Court Whittaker Wright's desperate fight against being taken back to London to face his accusers will be resumed. His counsel will make an application for Wright's admission on bail. On Wednesday Wright will be arraigned here for preliminary hearing on the full depositions collected in the case in London. Wright asserts vehemently that he will fight until the last legal resource is exhausted.

Personator Arrested in Hamilton.

Hamilton, April 6.—Samuel Lewis was arrested Saturday afternoon by the local police for Toronto. He was one of those convicted of personating at the time of the voting for the Ontario Liquor Act. He was sentenced to pay $400 and serve 12 months in jail. Detective Brown took him away. He was working here under the name of Paisley.

Embezzled $94,000.

Atlanta, Ga., April 6.—G. Hallman Sims, collection clerk for the Capital City National Bank, has been placed under arrest by U. S. Deputy Marshall Scott, upon warrant, sworn out by President Speer of the bank, charging Sims with embezzling a sum estimated at $94,000. He admits his guilt.

Seeding Commenced.

Winnipeg, April 2.—Seeding began yesterday on a large farm near Portney, Man. Three seeders were at work and the fields all around are ready for grain.

Sickness steals more savings than the burglar. Slowly, coin by coin, the money that has been so hardly earned is paid out for drugs and doctors. Sickness is the worst enemy of the working man, and the common cause of the working man's sickness is disease of the stomach often involving the heart, lungs, liver, or kidneys.

The use of Dr. Pierce's Golden Medical Discovery will stop the stealing of the savings by sickness. It cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys, etc., when these diseases are caused by the diseased condition of the stomach and its allied organs.

"About ten years ago I began to have trouble with my stomach," writes Wm. Connolly, of 335 Walnut Street, Lorain, Ohio, "it got so bad I had to lay off quite often, two and three days in a week, my stomach would bloat, and I would belch up gas, and was in awful distress at such times. I have employed and been treated by the best doctors in the city but got no help whatever. By some way or other I happened to get hold of a vial of your 'Pellets,' and I thought they helped me. It was then I wrote to you for advice. You told me that by my symptoms you thought I had flour complaint, and advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets' in connection. These medicines I have taken as directed, and am very happy to state that I commenced to get better from the start and have not lost a day this summer on account of my stomach. I feel tiptop, and better than I have for ten years."

Accept no substitute for "Golden Medical Discovery." Nothing else is "just as good."

Dr. Pierce's Pleasant Pellets regulate the bowels.

Six Doctors Failed to Cure Him.

ERYSIPELAS AND SALT RHEUM WAS THE TROUBLE.

Burdock Blood Bitters

DID MORE THAN SIX DOCTORS COULD DO.

Mrs. Theo. Newell, Argyle Sound, N.S., expresses her opinion of this wonderful blood remedy in the following letter:

"It is with the greatest gratitude that I can testify to the wonderful curative powers of Burdock Blood Bitters. For years my husband suffered terribly with Erysipelas and Salt Rheum. He was so bad at times that he could no sleep on account of the itching and burning. He had been under the care of six different doctors, but they failed to do him any good. I had read different times of the wonderful cures being made by Burdock Blood Bitters, so advised him to give it a trial. He did so, and after taking five bottles was cured without a doubt. I would strongly advise any person troubled with blood disorders to give B.B.B. a fair trial for I am sure it will cure them."

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. Sooth-timonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

Dr. Chase's Ointment

SOME IRISH WIT.

Curran's Punishment of a Judge Who Anticipated.

A man of position in Galway was indicted for murder at the Assizes and acquitted against the weight of evidence, which was overwhelming against him. Shortly after this a man standing at the open window of Lucas' Coffee House in Dublin said to a friend: "What is that fellow going to be hanged for?" indicating a criminal passing by in a cart to be executed. A ragged individual in the crowd, hearing the remark, called out: "Plase, yer Honor, for want iv a Galway jury."

In the early twenties there lived in County Limerick a Captain Evans of Ashroe, a man of limited education, but an active Magistrate in that unsettled district. He used to commence his reports to Dublin Castle: "My dear Government," and on one occasion he wrote: "You may rely on it I shall endeavor to put down all nocturnal meetings whether by day or night."

The fun at the Four Courts provided by the legal profession and their clients during the last century may fitly be ushered in by the famous name of John Philpot Curran. On one occasion he was counsel for an attorney who had taken proceedings to recover a bill of costs. Lord Clare, who was the Judge, and no friend to Curran, going through the bill, exclaimed indignantly: "Here now, Mr. Curran, is a flagitious imposition! How can you defend this item—'To writing innumerable letters, £100?' "Why, my Lord," said Curran, "nothing can be more reasonable. It's not a penny a letter."

Lord Avenmore (Barry Yelverton) was a Judge who irritated Curran by continually anticipating his arguments. "Mr. Curran," he would say; "I know your cleverness, but it is quite in vain for you to go on. I see the drift of it all, and you are only giving yourself and me unnecessary trouble." One day after being stopped in this manner the counsellor said: "Perhaps, my Lord, I am straying, but I have just witnessed so dreadful a circumstance that my imagination is not yet recovered from the shock. On my way to court, my Lord, as I passed through one of the markets"—"Yes, I know, the Castle Market," struck in his Lordship. "Exactly, the Castle Market; and on passing one of the stalls I noticed a butcher proceeding to slaughter a calf. Just as his hand was raised, a lovely little girl came bounding along in all the sportive mirth of childhood, and, terrible to relate—I see the life blood gushing out still—the butcher plunged his knife into—into"—"The bosom of the child," cried the Judge with great emotion. "No, my Lord, it went right into the neck of the calf," replied Curran, "but your Lordship often anticipates."

A Woman Tiger-Killer.

Mrs. Donnett, an American, who is the wife of a British officer in Northern India, has recently shot the largest tiger ever killed in India. The great brute was ten feet eight inches from the tip of his nose to the end of his tail. Mrs. Donnett had been with a party of officers shooting in the Chanda jungle and had already killed two tigers, four panthers and other big game when the chance of a lifetime came to her. This is how she tells the story:—"We heard a tiger had killed a lot of deer in a piece of bamboo jungle about six miles off, so Timmins, my husband got about forty beaters together and we took up our positions near an open space, while the beaters went into the jungle with drums and horns, driving six buffalo in front of them, and made hideous noises. After about half an hour, when the beat was nearly up to my tree, I saw what I first took for a deer gliding through the high grass and bamboo, when suddenly an opening revealed a huge tiger to my astonished gaze. He was going full bat, so I saw it was a case of then or never, and, although it was a very blind shot, I let blaze at the vanishing stripes as they flashed through the bamboos. A roar and rush told me the monster was hit, but I could see nothing, as the jungle was so dense. When the shikar came up I told him where I had fired and got down, and with loaded rifles we approached the spot where about ten yards from where I fired lay the very finest monster I ever saw, and his great striped body did, indeed, look like a slain king of the forest. The shikar and I all but hugged in our excitement, and when the beaters came up our hurrahs and jubilant exclamations brought Timmins tumbling down out of his tree, and his joy and pride quite touched me. The monster was, indeed, glorious with his ten feet eight inches spread out to their full, his gums rolled up showing his enormous teeth and his skin in its prime, and, oh, so beautifully yellow and black."

Disraeli's Wit.

Disraeli's resourceful wit enabled him to play the courtier at all times, and to give—as in an instance which The London Daily Chronicle recalls—a complimentary turn even to satire.

Soon after he had received his title, and had become the Earl of Beaconsfield, an old peer greeted the new peer one day, and asked him how he felt. Beaconsfield was just walking away from the House of Lords, but his thoughts seem to have been in the House of Commons, for he said:

"I feel as if I were dead and buried."

The old peer looked aghast.

"And," Beaconsfield continued, with scarcely a pause, "and in the land of the blessed."

The old peer smiled again, and loved Beaconsfield forever after.

Appropriate.

She—What an extraordinary picture! And why on earth do you call it "Home?"

He—Can't imagine, unless it is because there is no place like it.

IT STARTS YOU THINKING.

The first dish of Malt Breakfast Food that you try will start you thinking. You will wonder why you were so long a user of oatmeal and rolled oats. You will think too of the times when you felt out-of-sorts through the use of blood-irritating and starchy oatmeal preparations. You will regretfully think of what you have missed in the past of flavour, deliciousness and palate-tickling qualities. Unless your taste is sadly depraved or very peculiar, you will quickly determine that Malt Breakfast Food will be your chosen cereal food whenever you can get it in the morning. Malt Breakfast Food affords mental vigour and lasting health. See your grocer about the great health food.

Algeria.

Algeria, which has 2,500,000 acres of cork forests, of which 300,000 are made to yield regular crops, is claimed to be the greatest cork producing country in the world.

Small Whales.

"As big as a whale" might be rather small, as there is a species of the cetacean genus hardly three feet long.

Old Time Table Manners.

An old English "Manners Book" says, "A lady should dip only the tips of her fingers in the sauce bowl and should not let food fall out of her mouth on the tablecloth."

A Noted Suicide.

Sir Samuel Romilly, a man of brilliant genius, by whose efforts the criminal laws of England were remodeled—a man loved for his sweet nature and upright manliness—while overcome by grief at the death of his wife, with his own hand sought rest beyond.

Shaving in Milan.

In Milan a shave costs only 5 cents, but every customer is expected to place a penny or two in a box to be divided among the assistants.

Russian Peasants.

The marriage of Russian peasant girls is still a purely business arrangement. If they abhor their bridegrooms or husbands, as they often have good reason to do, and run away, they are almost invariably captured and cruelly beaten in public.

Sand Snakes.

Sand snakes may be reckoned members of the boa group. They inhabit southern Asia, North America and north Africa, and one is found in southern Europe.

Plum Orchards.

The best site for the plum orchard is one where the fowls frequent most. They are a great help in destroying insects, especially the curculio.

FARM AND RANCH BELLS.

The Various Processes That Enter Into Their Making.

Cow bells that chime on the western plains, sheep bells that tinkle on the big American sheep ranches, bells for grazing horses and mules and, according to Popular Mechanics, all kinds of bells for the farm and ranch are made in one factory, which stands on a hillside street in a little town in Connecticut.

The metal for the bells is received at the factory in large, flat sheets of thin iron direct from the rolling mill and is passed under a steam driven cutter, which turns out the properly shaped pieces like patterns for a double bladed ax. Then a ring for a clapper is fastened into the center of each piece, and it is spanned with a little iron strap for a handle. Finally the piece is bent down into the familiar bell shape and its sides riveted together on the anvil.

The bell is now in shape, but it still lacks tone and color. These are gained by a coating of brass and a bath in a fiery furnace. In nests of four or five the bells, ranging in size from the little three inch sheep bells to the seven inch cow bells, are placed, with a mixture of charcoal and brass filings between them, in plumbago crucibles, the lids of which are held in place by a plastering of wet clay. These are then immersed in the fire. Within the crucibles the brass spreads itself in a thin coating over the imprisoned bells, and the bell obtains its clear note. All that needs be done afterward is to burnish the bells, which is done by throwing them with a few leather scraps into a big revolving cylinder, in which they polish themselves.

Two Views of the Same Question.

A noted bishop in order to point a lesson in humility sometimes tells a story of a young clergyman whose first appointment was to be an out of the way and poor parish.

On his first Sunday in this new station the young man as he looked over his wretchedly clad and ignorant congregation could not help saying to himself, with a groan:

"Dear me, what a dreadful thing it would be if I should have to stay here any great length of time!"

At the end of the sermon a deacon made a prayer. To the young man's horror one part of the prayer was a benevolent hope that "this ignorant, inexperienced, barren pastor that had lately come to the parish might improve and grow learned and fruitful in good works, so that he would come to merit being kept on there for awhile."

The Pillow of the Italian Peasant.

The Italian peasant girl as soon as she has learned to spin and sew begins to make her wedding trousseau. Thence piece by piece it grows, and she has put into it all her finest stitchery and sweetest thoughts. As soon as she is a bride she makes a bag of fine muslin. This she begins to fill with rose leaves. Each year adds its share. When she dies, perhaps an old woman full of years, it is this rose pillow that her head rests on. In this calm acceptance of and preparation for the great events of life, such as marriage and death, there are time and soil for the blossoming of fancy which we, stumbling, hit and miss, through life, do not furnish.

Why Dumas Laughed.

Sir Richard Wallace once heard the elder Dumas laughing boisterously in his study and was told by a servant that Dumas was working and that he often laughed like that at his work. It turned out that the great novelist was "in company with one of his own characters, at whose sallies he was simply roaring." But this was years ago, when imagination went hand in hand with animal spirits. It would be difficult to imagine one of the modern intense, realistic, analytical school so easily diverted.

In the Olden Days of Crinoline.

A woman tells this of the old days of "cages:"

A man—an artist and a very shy person—walked out with the woman he delighted to honor and asked her to marry him. In stepping closer to her, as the occasion seemed to demand, early in the walk he got his foot through her large and expansive hoop and was too modest to make any attempt to remove it. She was equally timid, so they took their walk, settled matters (she consenting) and came home with his foot still held in her hoop. History does not state how it was finally removed. I only know the story is true, and the pair today are old married lovers.

A Raw Oyster.

Although the actual amount of nutritive material in a raw oyster is small, it comprises all classes of food substances in a peculiarly assimilable form. Generally speaking, the raw mollusk consists of four-fifths water. The danger—a remote one—of the oyster containing living typhoid fever germs may be obviated by the use of lemon juice. The oyster is rendered tough and indigestible by boiling.

LATEST IN SPORTING CIRCLES

An Effort Will be Made to Organize Cricket Club.

Annual Meeting of the Bowling Club has Been Called.

CRICKET.

The following letter, which explains itself has been received by Mr. R. B. Rogers:

Lindsay, April 3, 1903.

Mr. R. B. Rogers, Peterborough,—

Dear Sir, — We have been asked by Mr. Hall, secretary of the Canadian Cricket Association, to undertake to organize a district made up of Barrie, Orillia, Uxbridge, Peterborough, and Lindsay clubs, to play off for the championship, and in his letter he says, "I am sure that the association would gladly give a prize of some kind to the champion club." It would be a great boom for cricket in all the towns, and would be the first step in the proposed Ontario C. A., to include all clubs in Ontario, and play off for the chmapionship, the same as in curling. The districts would also be in a position to engage a professional to coach the clubs each spring, and have the benefit of his services for so many weeks in season. We feel sure that if the Peterborough club would join the proposed district that cricket would once more flourish in Peterborough. Hoping that Peterborough will consider proposal favourably. If you find your time too limited to attend to this matter we would be greatly obliged if you would see that it falls into proper hands. Thanking you in advance, I remain,

Yours truly,
R. G. HARSTONE,
Secretary Lindsay Cricket Club.

P.S. — Mr. Hall writes that fee to join C.C.A. is five dollars. We would like a reply before next Thursday.

In view of the above lettar a meeting has been called for Thursday evening at the Oriental Hotel at 8 o'clock, for the purpose of reorganizing the cricket club. All who are interested in the noble game are requested to be present.

BASKETBALL.

To-morrow evening the public will have an opportunity of seeing another game between those old time rivals, the Harriers and Brownies. The Brownies are confident of overcoming the lead of one point gained by the Harriers in their last match. An admission fee of ten cents will be charged. This will be a red-hot game. Don't miss it. Game called at eight o'clock.

TURF.

Mr. Arthur Rountree, secretary of the Peterborough Turf Club, has received two entries already for the meet here on August 5th. The entries are from Messrs. Kidd Bros., of Listowell. Kidd Bros. are well known horsemen.

MISCELLANEOUS.

The annual meeting of the Peterborough Lawn Bowling Club, will be held in the Charlotte street rink on Good Friday afternoon at 3 o'clock. Members are urgently requested to attend and to bring any who may wish to join.

THE ASHBURNHAM VILLAGE COUNCIL

Held its Regular Meeting Last Night—Accounts.

The regular meeting of the Ashburnham Village Council was held last night in the Council Chamber.

Communications from the following were received:

From S. R. Armstrong, re Trent Canal.

From E. R. Peck, re Town Hall tenants.

From Dr. Bryce, re sewerage.

From Mrs. Long, re repairs of sidewalk.

Moved by Mr. Scott, seconded by Mr. Faint, that the following accounts be paid:

R Hicks & Co., charky wood	$ 9 25
Town of Peterborough	43 50
J B Maneice	7 50
Review Printing Co	2 75
Peterborough Light & Power Co	1 80
H Thompson	1 80
G McWilliams, salary Assessor	45 00
H Thompson, salary Assessor	45 00

On motion of Messrs. Gibbs and Faint, Mrs. Long's application for repairs of sidewalk was referred to the Street and Bridge Committee.

A statement from the Treasurer showing the receipts and expenditures from 1st March to the 4th of April, was received. Receipts, $66.19; expenditures, $373.67.

Corporation payaheet No. 1, $17.60; No. 2, $101.65; No. 3, $54.75.

The Council then adjourned.

Hyslop Bicycles, Sundries and Tires of all makes are now on sale at Metherel's Bicycle Works. The Hyslop is the best this year. Call and let us explain our terms.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpright, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

COUNTY POLICE COURT.

Was Held at Havelock Yesterday—Some Interesting Cases.

At the County Police Court, which was held at Havelock yesterday, before County Police Magistrate Edmison, several cases came up for hearing.

The Court room was literally packed, there was not even standing room for those who come late, even the gallery was thronged with women.

The first case was the Crown vs. Geo. A. Parcels. In the course of evidence it transpired that Parcels lost his canoe and accused one Sandford Hubble of having stolen it. Hubble said that he had found the canoe in an almost wrecked condition drifting in the lake, and thinking it of no value took it. Parcels hearing that his canoe was in Hubble's possession, went to Havelock, where he obtained a search warrant from a local Magistrate. He and another man had, however, previously invaded Hubble's premises and hidden the canoe in the bush. After obtaining his warrant, Parcels and a constable went to put it into execution, but when about two miles from the latter's place, told the constable that it was no use proceeding further as he knew where the canoe was hidden. He then suggested going to Hubble's father and asking him to make a "consideration." This was done, Parcels asking for $75.00. Mr. Nathan Hubble was, however, unable to pay this, and Parcels extorted two promissory notes for $25.00 each, and took one cow and some small stock belonging to the old gentleman. The notes Parcells afterwards sold to another man.

The accused was committed for trial at the next court of competent jurisdiction.

Parcels was then tried on another charge, that of perjury. He made an affidavit before a magistrate that Hubble had his canoe in his possession, when in reality he himself had hidden it in the bush.

He was committed for trial on this charge also.

Still another charge was brought up against Parcels, that of violation of the game laws. As the accused had been committed for trial on two more serious charges County Crown Attorney R. E. Wood asked that the case be dropped. This was done.

Two charges were also brought up against Jas. A. Lawrence of Belmont, the first being the theft of fifty sawlogs. After the evidence had been heard, the Magistrate dismissed the case.

The second charge was that of bigamy. It was charged that about 18 years ago Lawrence married Hannah Airhart, and while she was yet alive married Sophrina Munro.

The accused was committed for trial.

Mr. G. J. Sherry of Norwood, appeared for the defence while County Crown Attorney Wood conducted the prosecution.

Sweet Pea Seed.

My selections are from the finest strains of American growers, and include the improved large-flowering varieties of recent introduction. They are remarkable for their wide range of colour, brilliancy and profusion of bloom. The seed should be sown now. Also nasturtium seed—many beautiful sorts—so ornamental that they deserve a place in every garden. Sweet pea and nasturtium seed for sale by the ounce or in any quantities. Jos. H. Cobb, Aylmer Street Greenhouses. Open till 10 o'clock at night. 'Phone 132.

NORWOOD CITIZENS TENDERED BANQUET

To Three Townsmen Leaving for the West.

An Enjoyable Affair in Oddfellows' Hall on Friday Evening Last.

Norwood, April 6.

On Friday evening in the spacious hall of the I.O.O.F., there was a farewell banquet tendered to three of our young men who are taking their departure for the west, viz., Mr. W. A. Eaton, merchant tailor, Mr. H. A. Godfrey, jeweller, and Mr. John Miller, hardware clerk.

The hall was beautifully decorated with flags and palms. The tables were dainfily arranged, and covers laid for about sixty.

Amongst those who were present were Mr. R. J. Stewart, chairman, and Messrs. H. G. Buck, G. J. Sherry, E. P. Cuffe, P. W. Reynolds, W. E. Roxburgh, P. E. Graham, W. A. Eaton, John Miller, H. Godfrey, F. W. Pearse, T. Rawall, J. W. Rork, G. J. Kegler, H. D. Closs, Thomas Fraser, C. Blake, G. A. Duffield, W. G. Spencer, J. Cummings, Wm. Cuthbertson, John McMillan, R. Patterson, M. E. Knox, A. E. Cunningham, W. A. Richardson, Geo. Howson, J. Redmond, A. Wigmore, J. O. Johnson, R. Johnston, A. Campbell, S. Lockridge, A. Patterson, A. S. Harrison, J. C. Moffatt, M.D., L. H. Kirkpatrick, A. Kempt, W. Prest, R. Pearce, C. McNicholl, F. Squire, D. King, J. McLaughlin, W. J. Johnson, B. O. Fife, C. P. Pearce, F. Fry, C. Tucker, G. Moffatt, Wm. Webster, J. F. Anderson, E. J. Lang, J. E. Roxburgh, H. Nichol, T. Patterson, C. A. Ghent.

The first toast of the evening was to "Our King," proposed by the chairman, Mr. R. J. Stewart. All sang heartily God Save the King.

The next toast was to "Our Guests," Mr. W. A. Eaton first responding in a very neatly worded speech. He sketched briefly his boyhood life in Norwood, and said that he was very sorry indeed to sever his connection with the village, but thought that he would better himself financially in making a move to the west. Mr. Eaton intends residing at Oxbow.

Mr. John Miller stated that although he had only spent a few years in Norwood, he felt as if he were leaving home, and that his recollections were very pleasant.

Mr. Godfrey next responded and thanked the people of Norwood for the banquet tendered them. He also stated that he had found Norwood pleasant, and regretted leaving.

The next toast was "Our Business Interests." Messrs. J. Rork, G. Duffield, T. Fraser, T. Pearce and M. E. Knox responding.

"Our Educational Institutions" brought forth excellent speeches from Messrs. W. E. Roxburgh, P. W. Reynolds, P. E. Graham and T. Closs. They all stated that Norwood Public and High School were in very favourable conditions, and that all over the Dominion of Canada were men holding responsible positions, that had received their training in Norwood schools.

"Our Municipality" brought forth speeches from Messrs. E. P. Cuffe, H. G. Buck, F. Fry and T. Long.

"The Learned Profession" was responded to by Dr. Moffat, G. J. Sherry and C. A. Ghent.

"Athletics" brought forth responses from Messrs. John Anderson, C. Pearce, J. Keefer, R. Pearce, B. O. Life, J. A. McMillen, Wm. Cuthbertson.

"Banking Institutions" was replied to by Mr. T. Patterson, H. Nichol, G. Moffatt, O. Johnson and Geo. Horison.

In all the speeches the feeling of regret was expressed at the departof the guests.

The banquet concluded at 12.30 by singing Auld Lang Syne.

The younger portion went to the station to give Mr. Godfrey a send off.

Great credit is due Mr. A. S. Harrison, who acted as caterer, and the citizens of Norwood are indebted to I.O.O.F. for the use of their hall.

IN THE GAMEY CASE.

(Continued From 1st Page.)

to file a supplementary affidavit on production verifying them.

Covers All Details.

6. According to the best of my knowledge, information and belief, I have not now and never had in my possession, custody or power, or in the possession, custody or power of my solicitors or agents, solicitor or agent, or in the possession, custody or power of any other person or persons on my behalf any deed, account, book of account, voucher, receipt, letter, memorandum, paper or writing, or any copy of or extract from any such document, or any other document whatsoever relating to the said matters, or any of them, other than and except the documents set forth in the said first and second schedules, and hereinbefore referred to.

Sworn before me at the City of Toronto, in the County of York, this 6th day of April, One Thousand Nine Hundred and Three.

GAMEY CHARGES INVESTIGATION.

The Correspondence of Ordinary Departmental Character.

HON. MR. J. R. STRATTON'S AFFIDAVIT.

Text of Gamey's Correspondence With the Government—His Letter to the Premier Offering to Support Government From a Sense of Public Duty.

Toronto, April 8.—A whole sheaf of correspondence between Mr. Gamey and the various departments of the Provincial Government was filed by Mr. McEvoy on behalf of the Liberals in the famous bribery case yesterday. One of these, the text of which is now first made public, is Mr. Gamey's letter to Premier Ross, dated September 10th last, and altered and again forwarded on October 27th. This letter, in addition to frankly promising support, concludes as follows:—"This is not a hasty conclusion that I have come to. It has been considered fully by me without any other motive influencing me than the best interests of my constituency." The other letters relate to departmental matters. Mr. Johnston said yesterday after the papers had been filed:—"I am concealing nothing in the shape of documentary or other evidence, and I do not propose that the other side shall conceal anything if I can prevent it. If the sealed envelope filed by the Conservatives is not opened in due course this week I shall take the trouble to ascertain why." Mr. Johnston also remarked that the anxiety over Frank Sullivan's absence was quite unnecessary; he understood he was out of town seeing some of his own witnesses, and he would turn up all right when needed.

Productions by Ministers.

Early yesterday morning Mr. McPherson manifested uneasiness at not finding the documents from the Ministers other than Mr. Stratton on file, and wrote Mr. Johnston to that effect, and asked whom the latter represented and when he might expect the papers to be filed. The answer came early in the afternoon, when Mr. McEvoy presented Mr. Grant, the Registrar, with a large bundle. One of the affidavits is from Mr. Dryden, on whom Mr. Foy said in his amendment the Gamey charges only "cast suspicion." The Minister of Agriculture, in the most unequivocal language possible, declares that neither by himself, his agent nor anyone representing him had he any possession or knowledge of any papers or documents bearing upon or relating to the charges made, or to any part of them. Premier Ross' affidavit is accompanied by the letter written ostensibly to him, though left unaddressed with Mr. Stratton on September 10th; also a copy thereof, with the alterations, mailed from Gore Bay on October 27th. It will be remembered that it was on September 10th that Mr. Gamey charges he received the first payment of $1,5000, said to have been deposited in the Traders' Bank on the following day. The second letter is as follows, the charges from the first draft being enclosed in parenthesis:—

Letter to the Premier.

Toronto, Sept. 10, 1902.
[Toronto, Oct. 27, 1902.]

[To Hon. G. W. Ross, M.P.P., Toronto.]

[Strictly private and confidential.]

Dear Sir,—I have recently been thinking over the political situation of the Province of Ontario, and I have seriously come to the conclusion that I would be best acting in the interest of my constituency and New Ontario by giving my support to your administration [if you have a reasonable majority when the House meets.]

In view of this I have decided to write you frankly and to say that I have decided to give you my support during the present parliament [if you have a reasonable majority.] I believe that you will be able to administer the affairs of the province during the present parliament, and in the carrying out of your development policy, these will be an impetus given to trade and to settlement in New Ontario that will absolutely justify the course that I have decided to pursue. Therefore, upon all questions considered by you as a vote of want of confidence that may arise in the House you may rest assured that I will give your administration my hearty co-operation, support and vote.

The course that I have determined to take makes me practically a supporter of your government, and all that I would ask as the representative of the riding which I have the honor to represent, is that my recommendations receive favorable and fair consideration at your hands, and that I will be considered and treated as if I had been elected to support your government.

This is not a hasty conclusion that I have come to. It has been considered fully by me without any other motive influencing me than the best interests of my constituency.

Yours truly,
R. R. Gamey.

Affidavits From All the Ministers.

Other papers from the Premier's files were: Letter from Walter B. Scott., Feb. 14; letter from G. W. Spencer, Feb. 16; letter from G. W. Spencer to Hon. Richard Harcourt, Feb., 23, all on departmental business.

Letters from the files of several other departments were put in with affidavits from the Ministers in charge, or their deputies, the Commissioner of Crown Lands being out of the city, and consequently, not able to swear to the productions from his department. Hon. John Dryden filed an affidavit to the effect that he had no letters bearing on the inquiry, and he knew nothing whatever of the matter. Most of the productions refer to the appointment of officials on Mr. Gamey's recommendation.

Mr. Latchford's affidavit accompanied about a dozen documents comprising entirely petitions and letters regarding road grants and letters from department acknowledging receipt of the same.

Mr. Gamey's Mining Location.

The affidavit from the Crown Lands Department was signed by Mr. Aubrey White, Assistant Commissioner of Crown Lands. It showed an application by Mr. Gamey for a mining location, No. R, 280, north of McGregor Township, about 160 acres. Mr. Gamey swears that he has discovered traces of iron there and knows of no adverse claim.

The receipt of the application is acknowledged by Mr. White, who states it is not claimed by anybody else, so far as the department knows, and Mr. Gamey is asked to have a surveyor take field notes of the lot, which he does, and Mr. White acknowledges the receipt of those field notes, and tells him the ordinary price per acre at which the land is held, and that when he sends in the money it will be located to him.

Mr. Gamey then sends him the money ($152.) The department acknowledged receipt of the money and the lot is awarded to Mr. Gamey.

Another letter contains an application from Mr. Miller forwarded by Mr. Gamey for certain lands on Clapperton Island. Mr. White replies in a letter published yesterday.

The correspondence enclosed by Mr. Harcourt includes a petition from Mr. Gamey for assistance to a certain school section, where he says about 35 children cannot attend school unless this aid is given. Mr. Harcourt acknowledges the receipt of the letter.

Attorney-General's Department.

The correspondence of the Attorney-General's Department makes quite a large bundle. Mr. Gamey forwards a letter stating that Mr. C. F. Farwell, formerly member for that district, had sent a petition down asking that one Swanson of White Fish be appointed a justice of the peace, and recommending the appointment.

Mr. Harcourt, acting Premier, replies that he cannot find any such petition among the files.

On Sept. 23, 1902, the Huron Lumber Co., the Boom Lumber Co. and the Multhorp Lumber Co. petition to have one Thomas Flesher appointed a magistrate. That petition was forwarded to Mr. Stratton's department, and a letter is produced in which Mr. Stratton turns it over to the Attorney-General asking him to take action in the matter at his convenience.

A letter from Mr. Gamey dated Nov. 5 inquires why some action had not been taken. A letter from Mr. Stratton to the Attorney-General also asks if anything has been done. A letter from the Attorney-General to Mr. Gamey asks what the facts about it are, and whether there really was a petition sent or not. Mr. Gamey replies that the petition was handed to Farwell and sent by him to the department. On Dec. 15 the Attorney-General writes to Farwell, the former member, and asks him his opinion about the desirability of appointing Swanson,

Mostly Irrelevant.

Mr. Farwell writes a long reply explaining his views on the matter. He states that he does not know anything to the detriment of the man, but does not recommend the appointment. The Attorney-General then writes to William Irving, provincial constable at Webbwood, to know what his view of Swanson is, as to whether it would be a proper appointment. Irving replies that he does not know anything about him, and cannot make any recommendation one way or the other.

At a later date, Jan. 23, Irving writes that probably Mr. Swanson's appointment would be as good as any, and Mr. Gamey later applies for the appointment of one McEachren as provincial constable. McEachren sends in an application for the position, and the Attorney-General writes to Mr. Gamey stating that he has received McEachren's application and the recommendation, but that there was a feeling that they were getting more officials than the population and condition of the country would warrant; that he did not want to be considered as drawing the line too strictly on Manitoulin, but that he did not want to make any more appointments until he had considered the whole matter.

There was also a letter from Mr. Currey, the Attorney-General's secretary, asking for Swanson's full name.

Mr. Stratton's Affidavit.

In the matter of the Royal Commission, dated the 28th day of March, 1903, respecting certain charges preferred by Robert Roswell Gamey against James Robert Stratton.

I, James Robert Stratton, of the City of Toronto, a member of the Legislative Assembly of Ontario, above-named, make oath, and say as follows:

1. I have in my possession or power the documents relating to the matters in question set forth in the first schedule hereto.

2. I do not object to produce any of the said documents.

3. That I have had, but have not now in my possession or power, the documents relating to the matters in question in this suit set forth in the second schedule hereto.

4. The last-mentioned documents were last in my possession or power on or about the dates which they respectively bear.

5. (No number.)

6. That said last-mentioned documents were mailed or delivered to the respective persons to whom they are respectively addressed at or about the said dates.

7. According to the best of my knowledge, information and belief, I have not now, and never had in my possession, custody or power, or in the possession, custody or power of my solicitor or agent, or in the possession, custody or power of any other person or persons on my behalf, any deed, account, book of account, voucher, receipt, letter, memorandum, paper or writing or any copy of or extract from any such document or any other document, whatsoever, relating to the matters in question, or any of them, or wherein any entry has been made relative to such matters, or any of them, other than and except the documents set forth in the said first and second schedule hereto.

(Signed) J. R. Stratton.

Sworn at Toronto, in the County of York, this 6th day of April one thousand nine hundred and three before me,

(Signed) W. E. Raney,
Commissioner, etc.

Schedule of Productions.

The schedules accompanying Mr.

(Continued on page 8.)

New York Pattern Hats

With the characteristic New York style about them. Patterns that gave New York's greatest milliners some 1903 ideas.

New York Hand Made Suit Hats

for street wear, pretty nearly stunning enough for dress occasions—a smartness in their style—original satin plaited braids are in the construction of some.

New York Ready-to-wears

Probably not so pretty to look at as some hats but that style on the head—that gives a woman credit for good taste and judgment.

New York Hand-made Fruit

You'd think it California Fruit, to look at it—the difference is the latter is perishable, and the former is not—though "teeth wateringly" luscious in appearance.

Pop into our Millinery Department and have a look round.

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES

You won't harden or shrink woolens with Sunlight Soap. The purity of the oils and fats and the absence of free alkali prevent that. 23

EASTER ATTIRE

Make your preparations for Easter at the City Clothing Store. No matter what you want or how particular your taste, you will find the correct thing at LeBrun's.

YOUNG MEN'S SUITS

Nothing is missing to dress you right. Our stock of Spring Suits in both plain, staple, and richest patterns, will satisfy the desires of dressy young men. This season we show a far greater variety of high-class suits. Our extra values are worthy of your notice.

SWELL JUVENILE APPAREL

Big Boys' Suits, Short Trousers Suits, Little Boys' Suits and Top Coats for all ages. Confirmation Suits from correct cloths.

All the Fashionable Hats, Perfect Fitting Shirts, Nobby Neckwear from Paris and New York, Dressy Gloves, Hosiery etc.

H. LeBRUN & CO., George and Hunter Sts.

GREAT OPPORTUNITY

is offered to make money in the stock market, such an opportunity as is seldom seen. We receive daily information that enables our customers to be on the right side, and to make money. You should be among them and stop making continual losses. Those interested in such stocks as

WEDNESDAY, APRIL 8, 1903.

NORTH BAY THE TERMINAL.

Temiskaming Railway has a Starting Point.

Canadian Pacific Railway Will do all the Terminal Work There—Gang of 1,200 Men at Work.

Although the agreements have not yet been signed, it is understood that the Temiskaming Railway Commission have made arrangements by which the terminus of the railway will be at North Bay, instead of Nipissing Junction, and that the Government line will use the yard and terminal facilities of the Canadian Pacific Railway at North Bay. The town offers a financial inducement for the location of the terminus there, but it is understood that this has been disregarded in the steps so far taken, thus giving the commissioners a freer hand in their negotiations.

In view of the possible cancellation of the G.T.R.'s running rights over the C.P.R. from Nipissing Junction to North Bay, at some time in the future, a similar privilege has been secured by the commissioners, the consideration being the payment of so much per train. The terminal arrangements with the C.P.R. provide that the latter will do all the switching, making up of trains, housing of engines, as well as the handling of passengers and freight, issuance of tickets, cleaning of cars, supplying of coal and water, and all other work pertaining to a terminal, the employees of the C.P.R. being to all intents and purposes employees of the Government line while doing the latter's work. The advantage will be that the construction of terminal facilities, costing at least $80,000, will be avoided, and the commission will pay for each service rendered at a price named in the schedule.

The work of grading the line is being pushed with the greatest speed, 1258 men and 178 horses being engaged according to the last report. At the North Bay end of the line the contractors are working night and day in order to be ready for steel rails by May 15.

MOUNT IRWIN.

(From our own Correspondent.)

Mount Irwin, April 4th, 1903.

Mr. Edward Cheevers left for British Columbia, on Monday of last week.

Mr. Daniel Reid has recovered from his recent illness.

Mr. Joseph Dalton left last week for Bracebridge.

NORWOOD BUDGET OF CURRENT TOPICS.

Some Personal Mention From the Village to the East—Other Notes.

Norwood, April 7.

The pupils of the High School organized a football team on April 1. The following officers were elected:

President—C. Kelly.
Vice-President—W. H. Paget.
Sec.-Treasurer—T. B. McCleary.
Captain—F. Doherty.
Manager—P. E. Graham.

Mr. Harry Godfrey, who has been clerking in M. E. Knox's jewelry store, left on Friday for his home in Meaford.

Messrs. Finlay & Son shipped this week, one car load of bent goods to Newburg, also one carload of hub blocks to Ogdensburg, N.Y.

Mrs. Vera Gould of Port Hope, is the guest of Mrs. Pearce, "Ousemore."

Mr. A. Raddon of Peterborough, spent Sunday at his home.

Mr. W. A. Eaton and Mr. Jack Miller left on Monday for the west.

Miss Helen Pearce, who has been visiting at Arthur, Guelph and Port Hope for the last seven weeks, returned home on Thursday.

Rev. R. McHardy, evangelist, is conducting special services in the Methodist church this week.

At a largely attended meeting of the Presbyterian congregation, at which the Rev. D. A. Thompson, of Hastings, presided, on Tuesday evening, to consider the question of pastoral supply, it was decided by the unanimous vote of those present to extend a call to Rev. G. McLennan, late of Jarvis, Ont. Four other names were submitted but Mr. McLennan was the unanimous choice. The reverend gentlemen has been 11 years in Jarvis, and is well spoken of both as a pastor and a preacher. The call will be placed in the hands of the Presbytery for immediate consideration.

Mr. Thomas Fraser conducted an auction sale of Mr. Robt. W. Cole's property, in the township of Lake, on Tuesday.

Mr. Craigie of Toronto, conducted the services in the Presbyterian church, last Sunday.

Mrs. Jas. Paget of Camboro, is the guest of her sister, Mrs. Jas. Wasson.

INSIDE THE GATES.

(Published by Request.)

"Oh, what do you think the angels say?"
Said the children up in Heaven;
"There's a dear little girl coming home to-day;
She's almost ready to fly away
From the earth we used to live in;
Let's go and open the Gates of Pearl;
Open them wide for the new little girl,"
Said the children up in Heaven.
"God wanted her here, where His little ones meet,"
Said the children up in Heaven;

"She shall play with us in the Golden street;
She had grown too fair, she had grown too sweet
For the world we used to live in;
She needed the sunshine, this dear little girl,
That glids this side of the Gates of Pearl,"
Said the children up in Heaven.

"So the King called down from the angels' dome,"
Said the children up in Heaven;
"My little darling arise and come
To the place prepared in thy Father's home,
The home that my children live in.'
Let's go and watch at the Gates of Pearl,
Ready to welcome the new little girl,"
Said the children up in Heaven.

"Far down on the earth do you hear them weep?"
Said the children up in Heaven;
"For the dear little girl has gone to sleep!
The shadows fall and the night clouds sweep
O'er the earth we used to live in;
But we'll go and open the Gates of Pearl!
Oh, why do they weep for their little girl?"
Said the children up in Heaven.

"Fly with her quickly, O angel dear,"
Said the children up in Heaven.
"See — she is coming! Look there! Look there!
At the jasper light on her sunny hair,
Where the veiling clouds are riven!
Ah — hush—hush—hush — all the swift wings furl!
For the King Himself at the Gates of Pearl
Is taking her hand, dear, tired little girl,
And leading her into Heaven."

To Cure Grip in 2 Days Take Laxative Bromo Quinine Tablets *E. W. Grove* on every box. 25c

A FORMER RESIDENT DIES IN MONTREAL.

Lieut.-Col. John Crawford, of Montreal Passes Away.

The Montreal journals publish portraits and biographical sketches of a prominent deceased citizen of Montreal, and a former resident of Peterborough, Mr. John Crawford, who passed away at his seat, Verdun House, Montreal, on Sunday, April 5th, at the patriarchal age of 90 years. The deceased gentleman was at one time a well known resident of Peterborough, and is even now well remembered by the older residents of the town. He came to Canada from Ireland with his father, the late Colonel Crawford, living for a short time in Cobourg, then removing to Peterborough, where he resided until 1840. The deceased could say what few living can say, that he had been a loyal subject of five British sovereigns, having lived in the reigns of George III., George IV., William IV., Queen Victoria and Edward VII. Longevity seems to be an inheritance of many of the Irish race, and with long years is very often associated vigour of mind and body. The late Col. Crawford retained his physical and mental vigour to the last. Only the other day a relative in Peterborough received a letter from the nonagenarian, and in literary finish, clearness of style, and aptness of expression, in the clear, distinct, formal, old-fashioned penmanship, without the slightest evidence of trembling of the hand, so common in persons of advanced years, it was remarkable.

The late Mr. Crawford had many relatives and connections in Peterborough and vicinity. He was a brother-in-law of the late Augustus Sawers, at one time Mayor of Peterborough, and publisher of the Examiner, when the office was in the building on the present site of the Bradley tailor shop, George street. Col. Crawford was consequently a uncle of Mrs. W. H. Moore, Dr. Fred Sawers, Rochester, and Messrs. Augustus Sawers, town, and O. W. Sawers, British Columbia.

About the year 1840 Mr. Crawford went to Montreal and entered upon the career of eminence he had attained.

Several years later he entered the service of Gillespie, Moffatt & Co., Montreal, and subsequently engaged in banking, and officiated as paying teller in the old City Bank, Montreal.

By the exercise of keen business instincts, judgment and tact, he acquired a fortune which he has lived far beyond the usual space of business life to enjoy. He was a large stockholder in the Bank of Montreal, a director of the Molson's Bank, of the Montreal Gas Company, and the Street Railway Company, and was associated with other financial and industrial institutions, in whose advancement he evinced a lively interest.

As a master of the Montreal Hunt Mr. Crawford rode regularly with the hounds, and enjoyed great popularity with the members, who keenly relished the Irish dash with which he would take the lead in the field.

He was twice married, his first wife being a Miss Molson, and the second Miss Ellegoode. A grown up family of seven, who hold substantial positions in the city, survive him.

COMPLAINTS AGAINST SALACIOUS POSTERS.

The Minister of Justice has Introduced a Bill Most Sweeping.

The day of complaints against "indecent posters" and plays ought to be closed in Canada very soon. The Minister of Justice has introduced a bill which is most sweeping and severe in its provisions and seems to present no loop-hole through which the violator of the law can wiggle. The owner, lessor, trustee, or lessee or manager of a theatre, who permits any indecent or immoral play to be presented, lays himself open to a year's imprisonment or a $500 fine or both, and on summary conviction to a fifty dollar fine, or six months or both. Any persons taking part in such plays make themselves liable to three months, a twenty dollar fine or both, and appearance in indecent costume carries with it a similar penalty. This bill, in amendment to the Criminal Code, will supply what it has been often complained has been lacking, namely, adequate machinery wherewith to deal with the offence. The Minister of Justice is evidently determined to make the punishment fit the crime. That the law is required has recently been demonstrated in Montreal and Toronto.

SOMETHING ABOUT WIRELESS TELEGRAPHY

A Step Being Taken Towards Wireless Telephony.

Speaking of wireless telegraphy, in an address on "Future Possibilities of Electricity," C. P. Steinmetz, the expert electrician, said that the success of wireless telegraphy would in the future prevent anyone from being completely isolated, and that by its means Artic explorers would be able to communicate with civilization, and thus prevent any more expedition being lost and perishing. He said that it would also be generally used in war so that an opposing force could not cut wires and thus cut off communication. He added that the telephone is yet in its infancy, and that within half a generation it will be possible for Canadians to talk with friends in Europe, as a trans-atlantic telephone is a question of only a few years. With electricity to electricity as a motive power he said that it will never supersede steam for long distances, as each locomotive generates its own power, and that in direct proportion to its size.

Indians With Japanese Origin.

The Indians on the Aleutian islands have a copper shield hammered, and on it are Japanese hieroglyphics, the shield showing clearly Japanese origin. This shield the Indians have handed down from generation to generation.

Mourning In Persia.

The custom still prevails among Persian widows of having small blue glass bottles for collecting tears, which are afterward poured over the graves of their husbands.

A Queer Species of Parrot.

In New Zealand a species of parrot is found that, finding its food entirely on the ground, has lost the power of flight. It differs from the rest of its family only in this particular and in being almost voiceless.

REVOLT OF WORKERS

Dutch Trains Are Still Under Military Escort.

A WARSHIP AT ROTTERDAM.

1,000 Soldiers Have Been Quartered in Rotterdam—Dockmen Have Already Gone Out, and Bakers Have Declared a Strike—Queen Leaves Castle Loo For The Hague—Strikes Elsewhere.

Amsterdam, April 8.—All the trains are still under military escort as a result of the strike, although a number of employes of the Netherlands Railroad returned to work, enabling the continuance of a restricted service. Steamers have resumed sailing from here to Hull, although it is announced that a general lockout will be proclaimed to-day by all the local ship owners and warehouse companies, and traffic at this port stopped.

The Workmen's Committee of Defence has proclaimed a strike of the bakers throughout the country, which, though the master bakers hope to prevent it becoming general, will restrict the distribution of bread considerably. The bakers at The Hague are out.

At Rotterdam, three thousand dockmen have thrown in their lot with the railroad men. Workmen employed in the building trades also threaten to go out. The warship Holland is moored off the town, and the river is patrolled by steam picket boats. One thousand soldiers have arrived.

Queen Starts For The Hague.

Castle Loo, Holland, April 8.—Queen Wilhelmina and her husband, Prince Henry, started for The Hague yesterday. Troops are guarding the railroad line.

German Traffic Suspended.

Berlin, April 8.—Telegrams received here from the frontier of Holland say freight traffic between Germany and Holland is wholly suspended, and that passenger traffic is intermittent.

Other Labor Difficulties.

Mahanoy City, Pa., April 8.—Drivers at the Maple Hill Colliery, the largest of the Reading Co., struck because they were refused 15 minutes to stable their mules, and 1,400 workers are idle.

Indianapolis, April 8.—The National Executive Board of United Mine Workers, in session, will arrange to bring in the 150,000 men in mines who do not yet belong to the organization before the next wage convention.

Anaconda, Mont., April 8.—Socialists here elected their candidates for Mayor, treasurer and police judge, as well as three out of six aldermen.

Shamokin, Pa., April 8.—The strikers at the Luke Fidler and Enterprise collieries have resumed work pending arbitration of the hour difficulty.

Chicago, April 8.—A general strike has been called of the machinists, blacksmiths, pattern makers, electricians and pipe fitters in the Deering Harvester works at Irondale in protest against signing a contract insuring them in case of accident, but releasing the company from paying damages. A 9-hour day and 12 per cent. wage increase is also asked.

Chicago, April 8.—One thousand furniture packers are out for a 9-hour day and $2.70 as a minimum scale. They declined a 9-hour day and a $2 scale.

Ottawa, April 8.—There was no change in the Canada Atlantic trackmen's strike yesterday. The following are given as the latest figures, Number of men on strike, 825; miles of road affected, 466. Demands of men: Trackmen, per day, $1.80; foremen, per day, $1.85. Present scale of wages: Trackmen, per day, $1.25; foremen, per day, $1.80.

A RARELY HONEST MAN.

Financial Secretary of British Treasury Has Bitter Experience.

London, April 8.—William Hayes Fisher, M.P., Financial Secretary of the Treasury since August last, announced his resignation in the House of Commons yesterday, as a result of his connection as director with a financial syndicate, and of his acceptance of a bonus of shares in the concern.

Mr. Fisher, in announcing his resignation, said the syndicate, the affairs of which are now before the courts, never had issued any shares to the public. Although not a rich man, he and Sir Joseph Lawrence, another member of this private syndicate, had arranged that every creditor and every shareholder should be paid in full.

Mr. Fisher showed considerable emotion, and was sympathetically cheered from both sides of the House.

Fatal Boiler Explosion.

Charlottetown, P. E. I., April 8.—A boiler in Angus McKinnon's steam sawmill at Coleman, thirty miles west of Summerside, exploded yesterday morning. Fred Profit, the fireman, was instantly killed, his body being terribly mutilated. John MacKay was wounded, probably fatally. Another man named McKinnon was injured. The mill was blown to atoms, and the railway station was shattered. Houses in the vicinity were more or less damaged.

Kloshowski Executed.

London, April 8. — Kloshowski, alias Chapman, the Southwark saloonkeeper who was found guilty March 19 at the Old Bailey of the murder by poison of three women who lived with him as his wives in different parts of London, was hanged yesterday in Wandsworth Jail.

The Skin on Fire

So dreadful are the sensations of burning, itching Eczema that victims frequently describe their sufferings by saying that the skin is all on fire. The stinging, biting fires of Eczema are quenched by the use of Dr. Chase's Ointment. The first few applications may cause a little uneasiness but a cure is sure to result and the skin is healed without scar or blemish.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

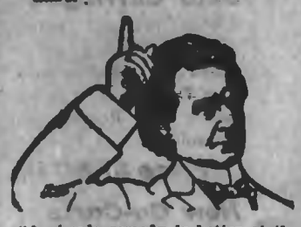
Twenty ong Years

s. Wallbridge Suffered Pain.

Pain All Left Her After She Had Taken a Few Pellets of

UNYON'S RHEUMATISM CURE

he Recommends This Remedy to Every Sufferer as a Sure Cure for Rheumatism—It Cures to Stay Cured—Valuable in Violent Changes of Temperature.



"A simple remedy is better at the beginning of the disease than a council of doctors at the critical stage."—MUNYON.

"As the evidence of Mrs. Wallbridge indicates, my Rheumatism Remedy will cure Chronic Rheumatism speedily and permanently. It will also cure long-standing cases of lumbago, sciatica, lameness, stiff and swollen joints, stiff back, and all pains in the hips and loins in a short time. Where it is possible I also recommend my Rheumatism Cure in the earlier stages of the disease, so that the injury to the system that results from chronic or continued Rheumatism may be prevented. I would strongly advise you to look after yourself, particularly when we are experiencing violent changes of temperature. This is rheumatism weather. And if you do not check those twinges of pain, temporary aches, and stiffness, you will probably develop chronic or some form of painful rheumatism. Try a vial of my Rheumatism Cure. Its cost is not much. I know that it will cure you." —Munyon.

MRS. WALLBRIDGE.

"I have suffered with Rheumatism for twenty long years. And the pains at times would be terrible. My shoulder gave me the most distress, and my hands would sometimes swell up. I tried doctors and advertised remedies, but never received very much relief. I obtained a vial of Munyon's Rheumatism Cure at the free distribution held at The News Office, and I am thankful I did. The pain has left me. I consider Munyon's Rheumatism Cure a wonderful remedy. Anyone who desires to get cured of rheumatism I would recommend them to try it. I believe Munyon's Rheumatism Cure will cure the most obstinate case." Mrs. Wallbridge, 23 Homewood avenue, Toronto, Dec. 15th, 1902.

MUNYON'S REMEDIES.

Munyon's Cold Cure prevents pneumonia, and breaks up a cold in a few hours. Price 25c.

Munyon's Rheumatism Cure cures Rheumatism permanently. Price 25c; at all druggists.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cough Cure stops coughs, night sweats, allays soreness and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins or groin and all forms of kidney disease. Price 25c.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Female Remedies are a boon to all women.

Munyon's Vitaliser restores lost power to weak men. Price $1.

FREE MEDICAL ADVICE.

Personal letters addressed to Prof. Munyon, Philadelphia, U.S.A., containing details of sickness, will be answered promptly and free advice as to treatment will be given.

Crow's Nest Coal Agreement.

Montreal, April 8.—A. C. Flumerfelt, assistant to the president of the Ganby Consolidation, arrived here yesterday with the exact terms agreed upon between the Crow's Nest Pass Coal Company and their men. The company agrees to pay $3 per day to all miners doing the company's work. The company agrees to a committee of investigation when it appears that a man is not getting fair treatment or is working in a place where he is unable to make a good day's pay. They will also be prepared to meet any committee from any one of the local unions with the understanding that this committee shall be composed of the company's employes. The company will provide at a moderate cost sites for union halls, both at Michel and at Fernie. There is to be no discrimination, either on the part of the company or the men between the representatives of labor organizations and those who are not. The agreement is for a period of three years, subject to the cancellation of either party at the end of two years, or a given notice of sixty days.

No More Examinations.

Toronto, April 8.—The Education Department proposes to make some radical changes in the Public and High School regulations. One of the most important changes will be the elimination of nearly all promotion examinations in the Public schools, the only ones that will be compulsory on the pupils being the entrance examination to the High Schools and the examination for junior and senior non-professional teachers.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

KING SHOWS POWER

Alexander of Servia Executes a Coup D'Etat.

HE SUSPENDS CONSTITUTION.

The Government Resigned and Was in a Few Minutes Again Reinstalled—Move Was Designed to Wipe Out False Steps So That a Fresh Start Might Be Made—For a Good Example.

Belgrade, Servia, April 7.—King Alexander to-day executed a coup d'etat. He issued two proclamations, the first decreeing a suspension of the constitution adopted April 19, 1901, repealing the objectionable laws passed thereunder, restoring the senators and the councillors of state, dissolving Skupshtina and re-enacting the laws as they existed previous to the constitution of 1901. The second proclamation restores this constitution to its former validity. In the first proclamation the King says the senate and Skupshtina created under the constitution granted by him in 1901 passed laws which proved impracticable. Furthermore, the constitution, by tending to fan political passions, prejudiced the interests of the fatherland and hindered its development as a state and nation.

Affairs in the Balkans, the King adds, are very serious, and Servia needs order, unity and peace. She should offer a bright example o fa peace-loving state, and at the same time always be ready to defend her interests should this become necessary for the purpose of restoring the unity, strength and order of the country.

Immediately after this proclamation ordinances appointing new senators and councillors of state were issued. The move was designed to wipe out the false steps taken since the amended constitution was granted in 1901, and to take a fresh start. The constitution wa only suspended for a few minutes. The government also resigned and was as a band immediately reinstalled.

Christians Massacred.

Sofia, April 8.—A newspaper announces that the Albanians during the night of Saturday to Sunday last massacred the Christian inhabitants of Okhrida, where an outbreak of Bulgarians was recently reported.

Insurgent bands have appeared in several districts. One band has burned the village of Jubreil.

IMMIGRANTS TO THE WEST.

Accomodation For Their Comfort Complained of—Sir William Mulock Promises to Look Into the Matter.

Ottawa, April 8.—Hon. W. S. Fielding yesterday afternoon announced that he would bring down his budget on Thursday of next week, and further evidence of the desire of the Government to expedite the business of the session was given by Sir Wilfrid Laurier moving to take Wednesdays for Government business on and after the 29th inst. Mondays will then be the only day left for the business of private members. The unprecedented immigration now flowing into Canada again occupied the attention of the House. Western members called attention to the temporary inconvenience caused by the congestion at Winnipeg and other points, and representations were made that further assistance must be granted to Winnipeg in the matter of hospital accommodation for immigrants who may become ill. Sir Wm. Mulock, acting Minister of the Interior, promised immediate investigation, and indicated that the Government would take whatever steps were found necessary to cope with the unexpected conditions that have arisen. Good progress was made in supply.

Read a Second Time.

Mr. Macpherson's bill to incorporate the Vancouver and Port Simpson Railway Company was read a first time.

Sir Wilfrid moved "that from April 28 to the end of the season government orders have precedence on Wednesdays, immediately after questions put by members." The motion carried.

Budget Speech April 16.

Mr. Fielding announced that the budget speech would be delivered on Thursday, April 16, that is, Thursday next week.

Sir Wilfrid's motion for the Easter adjournment carried.

The House went into committee on Mr. Fitzpatrick's bill to amend the Controverted Elections Act. Mr. Borden suggested that a clause be inserted giving a judge power to extend the time of trial on proper affidavits being presented showing sufficient cause. Mr. Fitzpatrick agreed to this. The clause giving a judge power to issue a bench warrant to compel the attendance of important witnesses was scrutinised and passed. The committee reported progress to give Mr. Fitzpatrick time to draft an amendment to meet Mr. Borden's views.

Mr. Fielding's bill to amend the Civil Service Superannuation Act was given a third reading.

Most of the afternoon and al of the evening was taken up with the discussion of the Nova Scotia and Prince Edward Island and New Brunswick estimates.

By 6 o'clock items aggregating $100,000 had been passed.

In the evening the Prince Edward Island items were taken up.

The Ontario estimates were taken up at 10.45.

Items to the amount of $14,400 went passed.

The House rose at 11.10 p.m.

Dreyfus Case Resurrected.

Paris, April 8.—The renewal of the Dreyfus discussion in the Chamber of Deputies drew a great crowd to the House yesterday. There was much excitement, and considerable bitterness was manifested during the debate. Mr. Jaures renewed his criticism of the methods adopted to convict Dreyfus, amid continued interruption and disorder. He closed with a demand that the Government conduct an administrative investigation into the letter sent by Gen. Pellieux to M. Cavaigna, when the latter was War Minister in 1898, and received a prolonged ovation as he resumed his seat. Minister of War Andre declared the Government proposed to seek the truth and would institute the enquiry.

Overcome by Gas.

Toronto, April 8.—Albert Spinks, Reeve of Brandon, Manitoba, was found almost asphyxiated at 4 p.m. yesterday in his room at the Globe Hotel. He was taken to St. Michael's Hospital immediately, and at midnight showed some slight improvement, although not enough to justify any great hopes of his revival.

Family Quarrels.

How many serious family quarrels, marriages out of spite and alterations of wills, might have been prevented by a gentle dose of pills." With the liver and kidneys sluggish and torpid, digestion is impaired and temper is ruined. But Dr. Chase's Kidney-Liver Pills by invigorating the action of these organs ensures good digestion and sound health. One pill a dose; 25 cents a box.

EASTER VACATIONS.

For the Easter vacations the

CANADIAN PACIFIC

announce return tickets will be issued the general public at

Single Fare

Good going April 9th to 13th inclusive; valid for return until April 14th.

On surrender of standard form of school vacation railway certificate, teachers and students will be issued return tickets at **Single Fare and One-third**, good going April 4th to 11th, good for return until April 21st, 1903.

The Easter vacations are always looked forward to with considerable anticipation after the winter season and the favourable limit will no doubt induce many to avail themselves of the opportunity of visiting friends at this season.

Tickets will be issued between all stations in Ontario, Port Arthur, Sault St. Marie, Mich., Detroit, Mich. and East. Ask your Canadian Pacific agent for copy of leaflet giving full particulars.

A. H. NOTMAN,
Assistant General Passenger Agent,
King-st. East, Toronto.

CANADA'S MERCHANT MARINE.

Influential Gathering of Marine Men Want Restrictions Removed.

Ottawa, April 8.—A meeting of representatives of the Canadian merchant marine called by the Kingston Board of Trade for the purpose of considering the abolition of tonnage dues and inspection fees, the abolition of fees payable to customs officers for services after hours and on holidays, the abolition of canal tolls and other questions of interest to the merchant marine was held yesterday morning in the City Hall.

Mr. John J. Long was elected permanent chairman.

Mr. Gildersleeve moved the adoption of the recommendation of the Kingston Board of Trade that tonnage dues and inspection dues should be abolished. The motion was adopted.

Mr. Rathbun, Deseronto, moved the adoption of the recommendations for the abolition of fees payable to customs officers for services after hours and on holidays. The motion was agreed to without dissent.

Capt. Gaskin, Kingston, moved that all canal tolls be abolished. He gave a history of the Government's policy in the past with respect to canal tolls, culminating in the reduction of tolls from 20 to 10 cents per ton.

Mr. D. W. Carter of Port Colborne moved an amendment to include in the resolution "the abolition or reduction of charges on the canals for vessels wintering there."

Hon. J. Israel Tarte was called upon to speak. He said that Canada had the shortest route from the west to the east. Railways and waterways should not be enemies, but allies, and should be developed together. It was said that our waterways had little trade. He was surprised that they had any trade at all. How could they have trade without terminal facilities? If he had been truly the "master of the administration" he would have caused things to move faster. The shackles which hampered Canadian trade should be struck off.

Several others spoke, and the motion was adopted.

It was resolved on the motion of Mr. A. A. Wright, Toronto, seconded by Mr. Carter, Kingston, that the Department of Marine be urged to adopt the United States pilot rules, or "Rules of the road." from the head of the great lakes to Montreal.

The Canadian Merchant Marine later formed a permanent association. The officers are: President—C. F. Gildersleeve; Vice-Presidents, John J. Lang and E. W. Rathbun; Secretary and Treasurer, Francis King; Committee, Capt. Donnelly, Capt. Wright, Capt. Crangle, Capt. R. C. Carter, Capt. McCockle and Thomas Harling.

Brakeman Killed.

Lakefield, April 8.—While shunting cars into the Cement Company's building, Harry Smith, brakeman on the Marl train, fell under the wheels and was instantly killed.

Baseball Goods at Salisbury's.

Do Birds Whistle or Sing?

It has often been cause for astonishment that an animal so remote as a bird in the line of development from man should be the only creature in the least degree capable of imitating the human voice. A talking horse has from time to time been advertised; but for practical purposes man's only mimic is the bird. An American naturalist has recently written to prove that birds are not singers, but whistlers; that is to say that the notes are produced through a tube—to be technical, through the slit known as the glottis—not by the help of vocal chords. But the whole distinction is beside the point. Anyone who has seen a bird singing will have seen both the vibration of his throat and the variations in the extent to which he opens and closes his beak or mandibles; and given these accompaniments, together with the production of an articulate language, whistling and singing become identical, in spite of technical terms suggesting a distinction. People are accustomed to the idea that only a few species of birds, such as the parrot and the jackdaw, can be taught, but in the wild life almost all birds are mimics to some extent, and probably more of them than people realize could be taught to imitate human sounds. The starling has astonishing skill in taking off other birds; and even the raucous jay can produce a song, or a whistle if the word is preferred, which would do justice to a thrush.—London Globe.

Lady Cavagnari and Late Queen.

Lady Cavagnari, who is about to resign the set of apartments in Hampton Court Palace which the late Queen placed at her disposal in 1880, is the widow of Sir Louis Cavagnari, who was murdered on September 3, 1879, by the rebel troops of the Ameer at Cabul, where he was acting as British Resident.

Don't Feed "Deadheads."

Keep no animal that there is not a probable profit in feeding. It is bad policy to let an animal "eat its head off," but it is worse to keep one that eats the heads off several others besides its own.

THOUSANDS UNDER TENTS

In Winnipeg Within one Month From Now.

Mr. Hugh Sutherland Anticipates Repetition of Scenes of Great Boom—Canadian Northern Contracts.

"I am afraid that there will be a perfect jam," said Mr. Hugh Sutherland, of Winnipeg yesterday, referring to the influx of immigrants. "Even now there is scarcely a room or a bed to be had in Winnipeg, and I believe that within a month there will be 7,000 or 8,000 people under canvas there. In fact, there will be a repetition of the scenes of the great boom of twenty years ago, when more than that number lived in tents, winter and summer. The North Saskatchewan valley seems to be the Mecca of the majority of those going farther west, and many are also going into the Peace River district. The routes of the Canadian Pacific north-west branch and of the Canadian Northern through that country are bound to be thickly populated within a few years."

In this connection it might be noted that the Canadian Northern Railway Company, preparing for the rush, have completed contracts for 150,000 tons of coal for the present year. The company's first contract for coal a few years ago was only for 5,000 tons to be delivered in one year.

MARKET REPORTS.

Wheat Prices Are Steady—Chicago Closed, But Liverpool Fractionally Higher—Live Stock—The Quotations.

Tuesday Evening, April 7.

Liverpool wheat futures closed ½d to ¼d higher to-day than yesterday and corn futures closed unchanged.

Chicago and Toledo exchanges were closed to-day.

LEADING WHEAT MARKETS.

Following are the closing quotations at important wheat centres to-day:

	Cash.	May.	July.	Sept.

EAST BUFFALO CATTLE MARKET.

East Buffalo, April 7.—Cattle—Receipts, light; steady. Veals, receipts, 125 head; steady; tops, $6.25 to $6.50; common to good, $5 to $6.15. Hogs, receipts, 4100 head; fairly active; pigs, 10c to 15c lower; others steady; heavy, $7.70 to $7.80; a few, $7.80; mixed, $7.75 to $7.65; yorkers, $7.40 to $7.50; pigs, $7.10 to $7.20; roughs, $6.75 to $7.25; stags, $5.75 to $6.25. Sheep and lambs, receipts, 7800 head; sheep steady; lambs 10c to 25c lower; top lambs, $7.85 to $7.90; culls to good, $5.50 to $7.75; western, $7.75 to $7.85; a few, $7.90; ewes, $6 to $6.50; sheep, top mixed, $6.25 to $6.50; culls to good, $3.25 to $6.15.

NEW YORK LIVE STOCK.

New York, April 7.—Beeves—Receipts, 46; all consigned direct; no sales reported. Calves, receipts, 50; about steady; reported sales of veals were at $5 to $8. Sheep and lambs, receipts, 645; sheep and lambs slow and weak; unshorn sheep sold at $4.75 to $5.75; a few clipped, $5; lambs, $7.75 to $8.12½; culls per, $7. Hogs, receipts, 1,976; all consigned direct.

Good Health for Capital.

Maintaining good health is to the majority of people the most vital question in the world and nature affords no more efficient strengthener for the system and restorative for the nerves than Dr. Chase's Nerve Food. Naturally, gradually, and certainly it forms new, red corpuscles in the blood, creates new, healthy, nerve cells, and puts into the system the snap, energy and vitality that defies disease.

Eyes at Different Ages.

The Stockholm museum possesses an interesting collection of eyes taken from human beings at different ages, which are cut across in such a way as to exhibit plainly the internal and the external eye. It is easy to observe that the eye of a young child is as transparent as water; that of the youth a little less so; in the man of thirty the eye begins to be slightly opaque, in the man of fifty or sixty it is decidedly opaque, and in the man of seventy or eighty it is dull and lusterless. This gradual development of opacity is due to the increase of fibrous tissue and deposit of waste matter in the eye.

Fiendish Revenge.

The burglar softly opened the door of the suburbanite's sleeping apartment, slipped inside and searched the room thoroughly, but found nothing worth stealing.

"I'll get some satisfaction out of him, anyway!" he said.

Thereupon he set the alarm clock on the bureau for the hour of 3 and softly departed.

More Convenient.

Employer—Just file these letters for me, will you, Patrick?

Employee—Oi can trim them off aisier with a pair of scissors, sor.—Kansas City Independent.

Rubber Balls, Footballs, Golf Balls and Tennis Balls at Salisbury's.

Shoe Fad

It is a fact that "Slater" Shoes, which have become out of date and been re-branded to be sold at a cut price, have actually been sold as genuine "imported" shoes for more than they were originally price branded by the makers when they were real "Slaters."

Now, it is also a fact that thousands of pairs of shoes annually sold in Canada as "genuine imported" are made in Montreal and Quebec, sold under unknown brands at fancy prices, with no maker's assurance or responsibility such as the wearer gets with

DISGUISES OF NATURE.

The Quality of Defense Is Found in Every Animal.

By a decree of nature one-half the world flourishes at the expense of the other half. The sparrow chases the butterfly, but the hawk chases the sparrow. For the problem of life is twofold. It is not enough merely to eat. It is necessary to avoid being eaten. Yet nature detests killing for killing's sake. Massacre forms no part of her great plan. So we see that every creature is provided with some more or less effective quality of defense by means of which the attacks of its natural enemies are rendered less frequent or less deadly.

Thus the antelope by means of its superior speed at times escapes from the lion. The armadillo, rolled in its wondrous coat of mail, lies secure among a score of hungry, gnawing foes, while the white hare, scarcely distinguishable from the snow on which it crouches, is often overlooked by his foe, the fox. But of all creatures none has received more ample protection than the insects. Some of them possess stings, others bite, and a few puff out clouds of poisonous vapor to stupefy or blind their pursuers. Again, there are insects clothed in impenetrable armor, insects covered with sharp spines and prickles and others whose means of defense consist in nothing but a likeness to the objects which surround them.

How Savages Walk.

Savages always walk with their toes turned in for two reasons. In the first place the foot naturally falls in that position when it has never been confined by boots or the ankles distorted by high heels. In the long stride of the savage the leg swings freely like a pendulum round the center of gravity, which is somewhere between it and the other leg. In the swing the abductor muscles of the inside of the thigh bring the sole of the foot under the center of gravity, and in doing so slightly rotate the foot toward the inner line, turning the toe in. Convenience is also on the side of the natural position of the foot in the case of the savage, for he has to do much walking through long grass and undergrowth in forests.

A moment's reflection will show how very much his progress would be impeded if he turned his toes out to catch these obstacles instead of brushing them aside and outward as he now does. Lastly, the savage uses his foot much more as a help to his hands than we do, and it is obvious that in doing this he must turn his toes in.

The Right Way to Boil Water.

"To boil water would seem to be a very simple thing," writes some one in the Boston Cooking School Magazine, "and yet the late Charles Delmonico used to say that very few people know how to do it. 'The secret is,' he said, 'in putting good fresh water into a kettle already quite warm, setting the water to boiling quickly and then taking it right off for use in tea, coffee or other drinks before it is spoiled. To let it steam and simmer and evaporate until the good water is in the atmosphere and only the lime and iron and drugs left in the kettle is what makes a great many people sick, and it is worse than no water at all.' For water boiled like this and flavored with a few drops of lemon juice Mr. Delmonico used to charge as much as for his best liquors, and he often recommended it to his customers and friends who complained of loss of appetite. It is worth trying."

Different View.

"You see," said the old locomotive engineer, "railroad officials don't look at things quite as the public does. On one of my runs a year ago I found a certain bridge swept away, and I had to back up about two miles to get orders. As I reached the station the division superintendent came out and demanded.

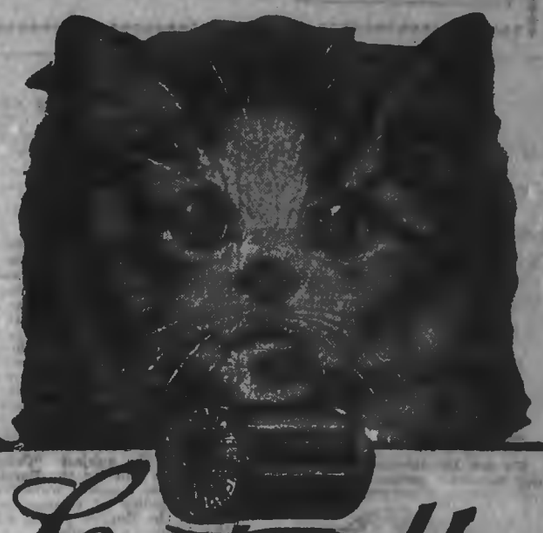
"What's the reason for all this?"

"Bridge over Maple river gone," says I.

"And why didn't you run your train into the river?"

"My fireman didn't want to get wet."

"Humph! Bounce him for blocking the road, and don't you make another such mistake unless you want a year's vacation."



Corticelli SPOOL SILK

Admitted by dressmakers to be the best sewing silk made. As Corticelli costs you no more than poor silk, why don't you buy it? Ask for "Corticelli" and politely, but firmly, refuse all substitutes, which some clerk may say are just as good.

Corticelli 24 ASIATIC DYES WASH SILKS IN PATENT HOLDERS

The colors are fast—the silk the best. Put up in Patent Holders, which prevents waste by tangling or soiling—keeps cloth shade separated, and automatically measures a correct needleful. Recommended as the only proper way to put up Filo and Floss silks, and used by art societies everywhere. Over four hundred different shades to select from.

Corticelli SKIRT PROTECTOR

Peculiar weaving qualities and perfectly straight selvage

Corticelli Skirt Protector is of firm soft even texture. When soiled a sponge or brush makes it clean again, and no damage done.

Corticelli Skirt Protector is a great favorite with fashionable and careful dressers.

If you are not already a subscriber to Corticelli Home Needlework Magazine, beautiful new. Full information on application to Corticelli Silk Company, St. Johns, P. Q., or any other Corticelli office.

CLOTHIERS, HATTERS, SHOEMEN and GENTLEMEN'S FURNISHERS.

LENT NEARLY OVER!

Don't let Easter catch you without a New Suit, a New Hat, a New Pair of Shoes, and some Easter Furnishings. All here under one big roof. As we have said before, so say we now,—Come, look, and try on:—

A NEW NECKTIE
brightens up your whole appearance. It's the one touch of colour that a man may indulge in. For a quarter or half-dollar, fine Silk and Satin, Knot Shapes, Flowing Ends, Graduated Derbs, Puffs, etc.

A NEW HAT
is a pressing need for the season. Our immense range of stylish hats come from the best makers, in soft and stiff felt—Hats we can guarantee—the most quality for least to pay. Prices run like this—75c, $1.00, $1.00, $1.275, $2.00.

A NEW PAIR OF KID GLOVES
One of the important items you've likely left to the last. Take a hint, if you wish a happy Eastertide. If your taste runs for the best Gloves, here we have them at 75c, 90c, $1.00 $1.25 the pair.

A NEW SHIRT
Easter patterns, fine laundered Cambric, heavy or narrow blue stripes and fancy perpendicular and angle patterns. Popular prices—75c, $1.00, $1.25.

A NEW PAIR OF SHOES
for Easter is indispensible. We have the new lasts, in walking or evening wear, will be found all that is serviceable and pleasing to the eye, for men, women, youths and children.

A NEW SPRING SUIT
Every kind of a fine new Suit that any kind of a man or boy could wish for. If your tailor has disappointed you, we'll help you out—perfect fit and correctly fashioned.

A NEW SPRING TOP COAT
We give you a choice of the new styles that men most admire at most generously kept-down prices. How we do it, and why we do it, you'll find out when you come.

Daily Examiner.

WEDNESDAY, APRIL 8, 1903.

Notice.

All parties indebted to the estate of the late Dr. King are requested to call at once and settle with Mrs. King, and save further trouble. d79

Private Sale.

A quantity of household furniture only in use a few weeks, is offered by private sale at No. 147 London street. Owner leaving town. Can be seen any afternoon. d82

Miss Hogan, formerly dressmaker with J. Sutcliffe & Sons, has opened dressmaking rooms at 172 Hunter street, over W. J. Morrow's Grocery Store. 2d

Granulated Honey.

When extracted honey granulates or gets hard it is the best evidence you have of its purity. We have a very superior quality of clover honey, which is granulated. It is yours at 12c. a pound. E. F. Mason & Co., Lower store, 353 George Street; Upper store, 429 George street. 2d

Slaughter Sale of Footwear.

It will be to your interest to attend the unreserved sale of boots and shoes at M. Murty's store, on Hunter street. The entire stock must be sold. Slaughter prices will be the rule until the entire stock is disposed of. The stock is well assorted in men's, women's and misses' wear and all seasonable styles—suitable for all classes and the low prices make lively buying. 3d81

Sugar Beet Factory.

The Peterborough Sugar Beet Company is busily engaged these days giving out seed to the farmers of the district. Dr. Jeffs, the chemical superintendent, has received a communication from the Superintendent of Emigration stating that he can place 12 German families in and around Peterborough if desired.

W. C. T. U.

The regular monthly meeting of the W.C.T.U. was held on April 6, in the Y.M.C.A. Hall. The union were pleased indeed to see that the Dominion Government had passed the Act prohibiting the sale and manufacture of cigarettes in Canada. They also wish to thank Mayor Roger for having had placards placed on the streets prohibiting expectoration on the public thoroughfares. A cordial invitation is extended to all ladies who are interested in temperance work to attend the regular monthly meeting on May 1st.

St. Andrew's Y. P. S. C. E.

The regular monthly business meeting of St. Andrew's Young People's Society was held Monday night. It was unanimously decided to invite the various Young People's Societies and Leagues to meet with them on Tuesday next, April 14th, to hear Rev. Dr. Marsh of the Canadian Astronomical Association, who will give an illustrated lecture on "Other Worlds than Ours." This promises to be the best intelelctual treat of the season.

Tennis Racquets at Salisbury's—$1.00 to $5.00.

YOUNG GUILDMEN'S REGULAR MEETING.

They Will Change Their Night of Meeting—An Address.

The regular monthly meeting of the Young Men's Guild of St. Andrew's church was held last night, there being a large attendance. The chair was occupied by the President, Mr. William Campbell. Considerable routine business was disposed of and the Guild decided to organize a baseball team and enter a town league if such be formed. It was also decided to change the regular meeting night for the summer from the first Tuesday to the first Thursday of each month. The decision was taken after due consideration, it having been felt that the drill night of the 57th Regiment would conflict with the attendance at the meetings.

Mr. E. S. Clarry delivered an address on the subject "Canada for Canadians and for the Empire." The pith of his remarks were favorable to the policy of ensouraging trade within the Empire rather than with the American Republic.

He was tendered a hearty vote of thanks upon motion of Mr. T. O. Elliott, seconded by Mr. Peter Kerr.

The Guild will discuss the matter of their annual excursion at their next meeting.

THE PETERBOROUGH PRESBYTERY MET

To Consider a Call of the Rev. W. M. Kannawin of Omemee.

A meeting of the Peterborough Presbytery was held in St. Andrew's Hall yesterday afternoon at 2 o'clock. The object of the meeting was to consider the call to the Rev. W. M. Kannawin, B.D., of Omemee, from the Presbyterian church in Woodville. The Rev. N. A. McDonald, of Lorneville, represented the Lindsay Presbytery, and Messrs. Gilchrist and Campbell represented the congregation in pleading for the translation of Mr. Kannawin.

Messrs. F. G. Sandy, Isaiah Thornton and Josiah Best, referred to the good work Mr. Kannawin had done and expressing their deep sense of grief at the thought of the possibility of his leaving.

When the call was placed in the hands of Mr. Kannawin he expressed the unenviable position in which he found himself and left the matter in the hands of the Presbytery.

It was on motion resolved:—

"That we appreciate very much the strong appeal made by the delegates from Woodville, and believe they have made a very urgent case in the call presented, yet in view of Mr. Kannawin's attitude; that he be given one week to consider this matter, and that he be prepared to give the Presbytery his decision at Norwood on April 16th."

The Last Week of Lent.

We have a large shipment of the choicest fresh-caught fish arriving every day this week. You will be sure of the freshest and best if you order from S. A. OKE, 376 George street; Telephone 18.

THE TAILORS GIVE A WEEK'S GRACE

Before Raising Scale of Wages 15 per Cent.

Some few days ago, the Examiner made an announcement that the tailors had advanced their wages on their employers, 15 per cent. The merchants generally felt that as only twenty-four hours notice had been given them, they had not altogether been used quite fairly, as some had contracts for forty suits, and would thus suffer a considerable loss. As a consequence of this, at a meeting of the Tailors' Union on Monday night, it was resolved that one week should elapse before the new schedule of wages should come into effect.

A SUDDEN DEATH FROM DIPTHERIA.

Miss Mary Brick Succumbs to the Dreadful Disease.

It is with profound regret that the sad death of Miss Mary Brick, eldest daughter of John Brick, of Ennismore, has to be recorded in these columns.

The deceased was a very clever young girl of only twenty years of age. She was an active church worker, and a very conscientious young lady, with a keen sense of duty.

The cause of her death was diphtheria. The news of her death will come as a great shock to her many friends and relatives, all of whom held her in great esteem.

PETERBOROUGH HOCKEY CLUB COMPANY LIMITED

Will Hold Their Annual Meeting Tonight in Council Chamber.

The annual meeting of the Peterborough Hockey Club, Limited, will be held to-night in the Town Council Chamber at eight o'clock, when a new Board of Directors will be elected and a statement of receipts and expenditures for the season presented.

It is understood that the receipts for the season, which was only of six weeks' duration, will show a highly satisfactory state of affairs. Persons holding stock in the rink will now positively realize that it is a safe investment, although they, for the most part, thought they were giving the money from motives of encouragement of manly sport.

Should the rink continue to be as successful in the future, skating rink shares may be listed on the Stock Exchange.

AT THIS MORNING'S POLICE COURT.

Case Against a Hotel Keeper was Dismissed.

At the Police Court to-day, before Police Magistrate D. W. Dumble, a local hotel keeper was charged with selling liquor during prohibited hours.

License Inspector George Cochrane in giving evidence, said that on Saturday night last, about 9 o'clock, he went into the accused's hotel, and in a sitting room upstairs, found three men sitting round a table on which were standing two bottles of ale and four glasses. On being cross-examined, Mr. Cochrane, the plaintiff, said that he did not know if the three men were lodgers, or when the beer was bought, or where or how it was bought.

After some further evidence had been heard, the Police Magistrate dismissed the case.

Mr. J. Haverson, solicitor for the License Victuallers Association, appeared for the accused, while Crown Attorney R. E. Wood conducted the prosecution.

The Court adjourned.

A NEW RESIDENCE

For Superintendent Will Probably be Erected by Little Lake Cemetery Co.

The directors of the Little Lake Cemetery Company paid their annual spring visit to the cemetery yesterday afternoon and found everything looking decidely satisfactory. The directors considered a number of suggestions in the form of improvements and they have decided to proceed with the construction of a cement walk on the south side of the road from the gate to the main driveway. This work will be commenced at once.

The directors also discussed the matter of the erection of a new residence for the superintendent. It was the opinion that such was needed and it will only be a matter of a very short time before active steps are taken in this regard.

The directors all expressed appreciation of Superintendent Wise's work at the cemetery.

SLOOP RIGGED RACING YACHT

In the Hands of J. J. Turner & Sons, for Repairs.

Messrs. J. J. Turner & Sons have in their possession a sailing yacht, which formerly was considered one of the fastest crafts that ever sailed Lake Ontario. This enterprising firm has procured the boat, which was conveyed from Port Hope to Peterborough by wagon, for a customer, and is having it thoroughly overhauled fore and aft. The boat is a centre-board sailing craft, 42 feet long, and 7 feet beam, and is a very attractive piece of workmanship.

She is at present in a nude state, but before long she will be sloop-rigged, that is to say just having main and stay sails.

Even to an inexperienced eye her lines denote speed. It is even rumoured that she may see more waters than those of the Great Lakes, but the accuracy of this is as yet not vouched for.

We Must Move Them.

If you have any idea of the trouble and expense of moving granite and marble monuments and tombstones, you will understand our anxiety to sell what you see standing in our yard rather than have to move them to another stand. Our landlord is preparing to erect a new brick block on our corner, and rather than move our stock, we are asking but a fraction of what our monuments are worth to save moving. The Moore Monumental Company.

PETERBOROUGH Y. M. C. A. CLOSING GMYKHANA

Was Held in the Y. M. C. A. Building Last Night.

The Work of the Senior and Junior Gymnasium Classes for the Last Six Months.

A closing Gymkhana given by the Senior and Junior Gymnasium classes of the Young Men's Christian Association in their gymnasium last night showed the growing strength of that Institution to a marked degree, and aroused more than just ordinary interest. For some time before the commencement of the programme every available chair had been taken, and by a quarter past eight the entire place was packed with a large and enthusiastic audience, many of whom stood up for the whole evening, that is to say, for nearly three hours, thus showing the interest displayed in the work of the gymnasium classes of the Association.

The programme was divided into two parts, which comprised the work of the classes for the last six months. During the intermission between Parts 1 and 2, two local men gave an exhibition of bag punching.

Mr. Horace B. Ayers, the Physical Director of the Association is to be congratulated on the perfection his classes have attained; the regularity of their movements, the precision with which the commands were obeyed and the confidence they displayed, was abundant proof of Mr. Ayers' sterling qualities as a teacher. He was very ably assisted in the production of so successful a programme by, Miss Helen Hall, pianiste, and Miss Eva Carey, musical directress.

The first item on the programme was a marching chorus by the Junior Boys. The alertness the youngsters exhibited, and their very accurate and confident movements came as a surprise to the large audience there assembled. When in position for what is known as "The Windmill" the boys sang "Mr. Dooley," in which song they were led by their musical directress. Miss Hall accompanied throughout. This excellent item was followed by a rough and tumble football game in which the entire Junior class participated.

The bayonet contest between Sergt. Sturgeon and Sergt. Ayers was a very keene one. The contest was arranged in two bouts, the first of which was a draw, but the second ended in Sergt. Sturgeon's favour, he winning by eight points to Sergt. Ayers' six.

The Senior class, which was divided into two squads, alternately gave an exhibition of horizontal and parallel bar exercises, which was greatly applauded.

Mr. Jos. Halpany, Peterborough's well known entertainer, sang "When the Lady Leads the Band," a song which certainly "took," for the audience cheered again and again, until Mr. Halpany returned with another selection, "I Love to Live, Love, with You," which was none the less successful.

The seniors next successfully went through their wand drill with marvellous precision. This ended Part I of the programme.

During the intermission Messrs. C. Graham and Jack McDonough gave a very creditable exhibition of bag punching.

Part II of the programme was commenced by a marching chorus by the junior boys, which was similar to the first item of the previous part, excepting that the boys sang "Tommy."

The next item on the programme was diving. This was a feat in which Mr. S. Hall figured conspicuously, in fact he dived over a horizontal pole at a height of 5 feet 8 inches from the ground. The diving consisted of a head-first leap over a horizontal bar, the diver alighting on his hands, and then turning a somersault, thus finally alighting on his feet.

Mr. Jos. Halpany sang "Nancy Brown, a song which was enthusiastically encored, as had his previous ones been.

Advanced apparatus work by the seniors was perhaps the best exhibition of genuine athletic skill of the evening, the boys going through their exercises in such a way as to reflect great credit on their teacher.

The last item was "tumbling," consisting of some arduous acrobatic feats, in which the Physical Director too an active part.

The most successful gymkhana concluded by the singing of "God Save the King," which, needless to say, was most lustily sung by what had been a very delighted audience.

LATE MRS. GRAY.

Her Death Occurred This Morning at Dublin Street.

After an illness extending over several months, Mrs. Gray, wife of Mr. J. B. Gray, passed away this morning at the family residence, No. 175 Dublin street. The deceased's maiden name was Jessie Hamill, being a native of Hope Township. She has resided in Peterborough for some years.

The late Mrs. Gray was a member of St. Paul's Presbyterian church, and leaves to mourn her demise a daughter and two sons. The former is Miss Bertha and the sons are Messrs. E. W. and W. E. Gray, all of town.

There will be a service at the family residence, Dublin street, at 8.30 o'clock on Friday and the funeral will proceed to Garden Hill at 9 o'clock.

BRAKEMAN J. BYRNE MET HIS DEATH.

A C. P. R. Express Dashed Into a Freight Train This Morning.

(Special to the Examiner.)

Ottawa, April 8.—The C.P.R. Sault Ste. Marie express, west bound, from Montreal, dashed into a freight at Calumet early this morning. J. Byrne, of Ottawa, was killed. He was a brakeman and was sitting in the freight caboose, which was standing on a siding when the express crashed into it. The engine was wrecked and the express had to return to Montreal and came to Ottawa over the short line skirting the south shore of the Ottawa River. So far as can be learned no one else was injured.

The engineer and fireman jumped as the engine struck the caboose of the freight. The engine and baggage car toppled over and the caboose caught fire.

Brakeman Byrne who was killed belonged to Prescott, having come to Ottawa a little over a year ago.

None of the passengers received anything worse than a jolting.

GAMEY DOCUMENTS OPENED TO COUNSEL.

The Policy of Secrecy was Found Impracticable.

(Special to the Examiner.)

Toronto, Ont., April 8.—An arrangement has been made between counsel in the Gamey investigation to permit the defence counsel to inspect the documents in the sealed packet, filed by Mr. Gamey, and said to include all the material handed by him to Mr. Whitney when he made his charge in the House.

NICHOLLS HOSPITAL.

Complete New System of Plumbing to be put in.

It is announced that the Board of Trustees of the Nicholls Hospital, will shortly let the contract for a complete new system of plumbing for the Hospital. The new plumbing will include that required for heating, waterworks, etc., with a complete system of baths, etc.

The renovation of the hospital in this regard will be a great improvement.

Sent to Jail.

Joseph Vantopsel and Peter Lord, that two young men from Trenton who were charged with breaking into the summer cottage of Mr. G. L. Estes, on Baker's Island and stealing the contents, came up before Judge Lazier to-day for sentence. They were discharged on the charge of housebreaking, but were found guilty of stealing the furniture and were sent to the Central Prison for six months. The most of the contents were found at a pawn-shop in this city, where the young men had sold the stuff.—Belleville Ontario.

THE SOLDIER BOYS DRILLED LAST NIGHT.

Many Recruits Joined the 57th Rangers —New Officers.

There was a rattle of musketry last night and the Peterborough Rangers were busy gathering in their raw recruits. It was the first parade of the season of the 57th Regiment and Lieut.-Col. J. W. Miller and his fellow-officers should feel delighted at the enthusiasm shown by the ranks. There was no regimental drill of course, but the recruits—and there are many of them, were to be seen doing the "goose step."

The various company officers have been hard at work getting in new men with the result that the different companies are in very fair condition. Even the two new companies, Nos. 7 and 8, commanded respectively by Lieutenants McWilliams and McPherson, have their service rolls well filled up. No. 8 had over 20 men out, No. 6 Company added 8 recruits to its strength, whilst the other companies have done correspondingly well.

A feature about the regiment this year is the number of new officers, which was rendered necessary by the retirement of several, and the increase in the establishment. A lot of splendid new blood has been infused into the regiment. Amongst the well known young townsmen who have taken commissions are Messrs. R. M. Glover, Dr. Amys, Alf. Smith, Robert Hicks, F. A. Clarke, John Wilson and Robert Wilson.

Classes for recruits and non-commissioned officers will be started at once and the indications are that 1903 will be a record year for the good old 57th.

OBITUARY.

Sad Death of Little Clarence Bailey Yesterday.

The sad death of Clarence Bailey occurred yesterday at St. Joseph's Hospital. The deceased was only a child of eight years. The parents live at Brickley, a small village outside Hastings, to which latter place the corpse was shipped this morning.

OBITUARY.

The Sad Death of Miss Veronica McFarlane.

The Examiner regrets having to record the death of Veronica McFarlane of Bobcaygeon, the second daughter of William McFarlane, the lockmaster at Lovesick, formerly the proprietor of the Carleton House, at Young's Point, one of the most famous summer resorts on the Kawartha Lakes.

The deceased was born at Young's Point, where she lived for the greater portion of her life, and where she won a large circle of friends, who will greatly deplore her demise. She was a very energetic church worker, and as such won the respect of the country side. She was well-known in Lakefield, Ottawa and Peterborough, besides the place of her birth. Her death will be greatly felt in all of the above places.

AN ACKNOWLEDGMENT.

To the Editor of the Examiner,—

Dear Sir, — We desire to acknowledge through your colums the receipt of the parchment presented to our son, Percy H. Johnston, by the R.C.H.A., last evening, and also to thank those who have so kindly interested themselves on his behalf in securing the parchment for him. We are truly thankful that he was able to act in the way he did, and to know that no serious accident resulted on the occasion.

Thanking you, Mr. Editor, for your space, we remain, yours truly,

MR. and MRS. J. JOHNSTON,
69 Chamberlen street.

Bysiop Bicycles, Sundries and Tires of all makes are now on sale at Mothersill's Bicycle Works. The Bysiop is the best this year. Call and let us explain our terms.

THE SUGAR FACTORY SITE IS CHOSEN.

The Howden Property was Purchased This Morning.

The Peterborough Sugar Company this morning purchased the Howden property to the south end of the town and will commence the erection of their factory forthwith. The Howden property is situated along the banks of the Otonabee River and the factory will be easily reached by both lines of railroads and by steamboats. The situation of the factory will in fact be ideal. The contract for the factory has been let, the seed is being distributed amongst the farmers and by next November it is fully expected sugar will be manufactured in Peterborough.

PROTESTANT HOME.

Acknowledgments for the Month of March.

The Committee of Management of the Peterborough Protestant Home, gratefully acknowledge the following donations for the month of March:

Mr. A. W. Cressman, clothing; St. Andrew's Young Men's Guild, bread and cake; a friend, two bags of apples; Miss Woodgate, (Hazelbrae,) parsnips and onions; St. Andrew's church, sandwiches; Mrs. (Dr.) Burnham, Toronto papers; Miss Brown, reading matter.

SOCIAL AND PERSONAL.

Mr. H. M. Wood, Millbrook, is in town to-day.

Mr. T. G. Kells, banker, Millbrook, was in town this morning.

Mr. J. Hamilton of Lindsay, is registered at the Snowden House.

Mr. Robert Fair, of the Golden Lion, is in Toronto to-day on business.

Mr. L. F. Clarry, barrister, Hastings, is in town to-day on business.

Captain Carey of the North West Mounted Police of Lethbridge, N.W. T., was in town yesterday.

Mr. R. Deyell and Mr. Jos. Lancashire of Millbrook, are in town attending the funeral of the late Mrs. Barrie.

Mr. Fred Sawers of the teaching staff, of Trinity College School, of Port Hope, is spending his holidays at his home here.

Mrs. J. R. Stratton will receive to-morrow afternoon, and in future on Thursday of each week, at No. 765 George street.

The engagement is announced of Jean Christie McIntosh, granddaughter of the late Hon. David Christie, to Torrance R. Laing, of Peterborough.

Dr. Bingham, the Medical Health Officer, who has been ill in Toronto for some time past has again returned to town, and will soon be able to resume his duties.

Miss Margaret Collins, of the Finance Department, Ottawa, who was called to her home in Ennismore, through the death of her grandfather, has returned to the Capital.

The Toronto Globe says: Mrs. G. A. Cox, and a large party, have returned from the south. Mrs. Ames, Miss Morrow of Peterborough, and Mrs. Fred Cox have also returned.

Mr. Stephen F. Collins, of Philadelphia, Pa., who was called to his old home in Ennismore by the illness of his father, Mr. John Collins, who has since passed away, has returned to Philadelphia.

Mr. Harry Perrin, son of Mr. Jos. Perrin, of Baillieboro, for several years past with Mr. Robert Neill, of Peterborough, has removed to Lindsay, and has secured a position as salesman with the N. Hockin Shoe Store.—Lindsay Post.

The Globe to-day says:—Mrs. Eastwood Hodgson, of Bloor street gave a small informal 5 o'clock tea on Thursday afternoon. Those invited were old friends, to meet Mrs. Clark of "Curling Hall," Largs, Scotland, who is here paying a visit to her mother, Mrs. Walters, St. George street. Among those invited were: Mrs. Le Van, of Woodstock; Mrs. Pentelow and Mrs. Lindsay Torrance of Guelph; Mrs. G. MacIntyre, St. Mary's; the Misses Hodgson and Mrs. T. J. MacIntyre, and Miss McGill, Peterborough.

Mr. and Mrs. Killin-Keough are already established in studio quarters at 220 Brock street, and have begun teaching. Mr. Keough is a pupil of A. W. Thayer, the biographer of Beethoven, and of Dr. Carl E. Martin, the celebrated oratorio and church singer, of Grace and St. Thomas churches, New York city. Mrs. Killin-Keough is a graduate ('94) of the New York School of Opera and Oratorio, receiving the three highest medals. They have been teaching voice in New York for six years. The method used is that recognized by the Metropolitan Grand Opera Company, some of the best exponents of it being Melba, Sembrich, the DeReszkes, Plancon, etc., the only method accepted in managerial circles where true art has its proper commercial value. 'Free voice trials from 7 to 8 p.m., or by special appointment. Repertoire students or beginners accepted.

NEWS NUGGETS.

—All Saints' choir will practice to-night at 7.45.

—Messrs. Jordan Bros. are making extensive preparations for their Easter trade.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 199.

—The White Rose Degree will be put on to-night in the Sons of England Hall. A full attendance is requested.

—The quarterly business meeting of the Murray street Baptist church will be held this evening at eight o'clock.

—A report of the union meeting of the Charlotte street and George street Young Men's Guilds will be published to-morrow.

—Owing to Friday being a holiday, the regular monthly meeting of the W.F.M.S. of St. Paul's church, will be held on Thursday afternoon, at 3.30 o'clock.

—Mr. Alex. Patterson of Ashburnham, lost a valuable hound by poisoning this morning. If the act was done on purpose it reflects no credit on the guilty person.

—A special practice of the George street choir with the orchestra, will be held to-morrow night. Every member is requested to be present, as all the Easter music will be rehearsed.

—Chief Roszel and Mr. T. A. S. Hay, town engineer, visited Spaulding's Bay this morning and viewed the dumping ground at that point. They decided that the dumping of any more refuse at that point should be prohibited.

IN FULL SWING

China Hall's "old time sale" is now in full swing and should be taken advantage of at once. Everything in the immense stock is reduced in price beyond your expectation. Dinner Sets, Tea Sets, Toilet Sets, Lamps, etc., almost at your own price.

CHINA HALL The Macfarlane Wilson Co., Limited
Established 1862. Importers.

NO SEALS ON THE LIBERAL PAPERS.

Liberal Documents Open—Conservatives' Sealed.

COURT ORDERS PRIVACY.

Correspondence With Gamey Relate to His Applications for Road Grants, School Grants, etc.

There was more filing of documents yesterday in connection with the Gamey investigation. Mr. E. F. B. Johnston, on behalf of the accused, produced the letters received, not only by Mr. Stratton but by Mr. Ross, Mr. Harcourt, Mr. Gibson, and by officials in their departments from Mr. Gamey. The production was accompanied by affidavits sworn to by the Ministers themselves that these were all the documents in their possession required by the order of the commissioners. In the case of Ministers who are absent from the city there were affidavits sworn to by the Deputy Ministers.

NO SEALED DOCUMENTS.

The letters and documents filed by the defence were not sealed nor enclosed in sealed packages, and copies will be furnished to the solicitors for Mr. Gamey. This is in contrast to the production which was made Monday on behalf of Mr. Gamey, in which papers which are regarded as constituting the most important documentary evidence for the prosecution were "produced" in a sealed envelope, with an accompanying request that the envelope be not opened until it was produced before the commission. If this stipulation is carried out the lawyers for the defence will have no access to them, and as a result the very purpose of an order for production will be in this case thwarted. "If they insist that the envelope be not opened," said one gentleman today, "they might as well have kept it in their vault. It is no production at all."

COURT ORDERS PRIVACY.

The affidavits of the Ministers and the documents were filed at Osgoode Hall at 1.45 by Mr. J. M. McEvoy. Mr. McEvoy declined to give out any of the letters for publication until they had been filed with Mr. Charles Grant, Registrar of the Commission. As soon as they had been filed Mr. Grant turned to the group of newspaper men who were in waiting, and said:

"Anything the newspapers want they must get from Mr. McEvoy. The Chancellor told me yesterday I must not allow anyone to see any of the documents filed with me, excepting the solicitors on the two sides. These are my positive instructions."

It is understood that the premature publicity which was given documents and schedules filed on Monday caused the court annoyance.

Accompanying each of the affidavits by the Ministers was a schedule setting forth the letters received. Among the Attorney-General's letters was included one from Mr. C. F. Farwell, ex-M.P.P., which seems irrelevant, but which has a bearing on the appointment of Mr. E. S. Swanson as J. P. It is understood that it was on Mr. Farwell's recommendation that the appointment was made.

The Gamey letters, one and all, for the most part, relate to applications for road grants, school grants, license to cut timber, etc. They contain nothing sensational.

A COMMON MISTAKE.

Many People Weaken Their System by Taking Purgative Medicine.

People who use a purgative medicine in the spring make a serious mistake. Most people do need a medicine at this season, but it is a tonic that is required to give health, vigor and vim. Purgatives irritate and weaken—a tonic medicine invigorates and strengthens. Dr. Williams' Pink Pills are absolutely the best tonic medicine in the world. These pills do not gallop through the bowels—they are gently absorbed into the system, filling the veins with the pure, rich, red blood that carries healing, health and strength to every part of the body. Dr. Williams' Pink Pills cure skin eruptions, indigestion, headaches, nervousness, neuralgia, backache, rheumatism, continued weariness and all other blood troubles. They are just the tonic you need for this spring. Mr. A. Campeau, Alexandria, Ont., says:—"I received great benefit from the use of Dr. Williams' Pink Pills, and take pleasure in recommending them to all who suffer from troubles arising out of a poor condition of the blood. I think there is no better tonic medicine."

If you need a medicine this spring give these pills a trial—they will not disappoint you. Do not be persuaded to take a substitute or any of the "just as good" medicines which some dealers, who care only for profit, offer their customers. See that the full name, Dr. Williams' Pink Pills for Pale People, is on the wrapper around every box. If in doubt send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be sent by mail, post paid, at 50c. per box or six boxes for $2.50.

LAID AT REST.

Funeral of the Late Mrs. Lowes Largely Attended.

Mrs. William Lowes passed away at her residence last Tuesday evening at the ripe old age of 73 years. Death was due to paralysis and a general breaking up of the constitution.

The late Mrs. Lowes' maiden name was Miss Macpherson, a sister of Mr. John Macpherson, Stewart street, town. She was born at Mount Pleasant, where she continued to reside until 23 years of age, when she was united in marriage to William Lowes, of Cavan. She was a member of the Methodist church.

The surviving children are: John, of Bethany; Harry, Mount Pleasant; Elias, Peterborough; Dr. J. A., of Kansas; Mrs. R. Howden, Cavan; Mrs W. H. Lee, Bethany; Mrs. F. Whyte, Peterborough; and Belle and Bertha at home.

The funeral was very largely attended. The floral decorations were handsome and numerous. The husband and family have the sympathy of the community in their bereavement.

Lovely Easter Lilies.

It would do you good to view the beauty of blossom and colour at Cobb's greenhouses on Aylmer street. It is the gayest sight, this enthusiastic florist has shown at any Easter season. The greenhouses are one mass of colour. Conspicuous above the rest are the Easter lilies, with beautiful large waxy white flowers in profusion, and the lovely contrasting bloom of the pelargonium, begonia, geranium. Graceful palms ferns also show up among charming potted plants, literally loaded with bloom. Purest white and darkest scarlet, crimson shades, yellow and pink, so delicate in tint that one is forced to stand and admire them.

"Way down in old Bermuda,
Where the Easter lilies grow,
Where sunshine smiles upon the earth,
Unchilled by frost or snow,
A stately lily, pale and fair,
Sheds her perfume in the air."

The Beehive

"Whatever We Do, We Do It Well."

ST. LUKE'S NOTES.

This evening at eight o'clock, Divine service will be held in the church when Rev. J. C. Davidson will preach.

On Good Friday services will be held as follows: 10.30 a.m., Ante Communion and sermon; at 7.30 p.m., Evensong and sermon. The offerings on this day are for the evangelization of the Jews. At 3 p.m., a children's service will be held when the Lenten self-denial offerings will be handed in for the cause of missions.

The rector would ask the members and friends of St. Luke's to contribute flowers or money for the purchase of flowers, to be used for the Easter decorations, and to be so kind as to notify him before Thursday.

At the evening service last Sunday Miss Lillie Jackson sang with sweet expression, "The Palms."

THE TWO EXTREMES

About the time children begin to go to school they are liable to be confronted with one of two extremes—they may either grow too fast or not grow fast enough. In the former case nature makes unusual demands upon bone and blood; vital organs are overtaxed and growth continues out of proportion to their age. Here is where Scott's Emulsion finds scope for its best workings.

It nourishes the bones—the hypophosphites of lime and soda does this; it feeds and enriches the blood—this through the pure cod liver oil; it strengthens the whole system, providing firm, healthy flesh and fortifying the tissues so that they are better able to stand the extra strain upon them.

When a child is not growing as it should—undersize, underweight, there will be found in Scott's Emulsion the very elements needed to aid in proper development.

Bone food for the bones, blood food for the blood, tissue food for the tissues—that is how Scott's Emulsion provides for each demand of the body.

We'll send you a sample free upon request.

A MILLIONAIRE OF INDIA.

One of Them Will Oeavert His Entire Fortune of £1,000,000 Into a Public Fund for Charities.

The recent announcement that Mr. Nowrojee Manockji Wadia is about to convert a million pounds, his entire fortune, into a public trust for charitable purposes is one more testimony alike to the wealth and the munificence of the Parsees of India. Regarding the first, it is a striking proof of the general topsy-turvydom of India (as judged from the western standpoint) that practically the entire commercial wealth of a country of 300,000,000 people should be in the hands of a community numbering less than 90,000. The 'wealth of India" is a myth. India is the land of extremes; of millions of underfed peasants on the one hand, and of a jeweled galaxy of millionaires Rajahs and Parsees on the other. Regarding the latter, the name that stands out most prominently is that of Sir Jamsetjee Jeejeebhoy, the recognized head of the Parsees of India. A splendid example of energy and enterprise—qualities that are, indeed, typical of the Parsees—the Jeejeebhoy family is of the humblest origin. A century ago, when the British Empire in India was being formed out of the crumbling ruins of the Mogul and the Mahratta, and all India was in chaos, the ancestor of the Jeejeebhoys was a poor lad, striving to gain his daily bread by the sweat of his brow. Then, no sooner were modern methods of economics introduced into the country than this humble lad forthwith dreamt of millions. He started in business as a small merchant. So far the entire trade of India had been in English hands—those of the East India Company. Now, for the first time, an easterner entered the field.

In the absence of competition on the part of the conservative Hindus, he increased his business, prospered, and finally amassed a fortune of two million sterling. For his purpose India was a virgin soil, a new country as yet unexploited by modern methods—even as was the United States a generation ago; the cause of his success the same as that of the first American millionaires. Because of his splendid munificence he was created first a K.C.B. and then a Baronet—the first in India. For, if he amassed a fortune, he knew how to spend it. He gave away a million pounds, half his fortune, in charities. Hospitals, colleges and rest-houses were founded and endowed by him.

The present Baronet, Sir Jamsetjee Jeejeebhoy, the third from the founder, succeeded in 1877, and since then he has well maintained the traditions of his house. With increasing wealth he has increased the aim and purpose of his philanthropy. And no better proof could be given of the appreciation and gratitude of his countrymen than the general delight with which his selection to represent Bombay at the recent coronation was received by all its citizens.

BATTLESHIP FOR £50,000.

H. M. S. Agamemnon Knocked Down to the Germans.

The catalogue of a dockyard "jumble" sale at Portsmouth yesterday contained a novelty.

This was nothing less than a fully armed battleship, the Agamemnon, which, together with everything in her moorings off Devonport dockyard.

The auction of a man of war marks a departure in Admiralty procedure. Hitherto vessels consigned to "Rotten Row," as it is termed in the navy, have been sold piecemeal to dealers in scrap iron.

The Agamemnon was built at Chatham twenty years ago at a cost of half a million sterling. She is a second-class, twin-screw armor-plated turret ship of 7,410 tons displacement. Her turrets are two in number, and with the citadel they account for 5,500 tons of armor plating. In the turrets there are four 38-ton rifled muzzle-loading guns, which, together with everything in the ship, were included in the sale.

The conditions of sale stipulated that the vessel must not be removed out o the United Kingdom, and that she must be broken up within two years.

This may serve to allay any fears that might be engendered by the fact that the purchasers were a German firm—Messrs. Oppenheim of 53 Broad street, London and of Hamburg—who secured the Agamemnon for £20,000, to which price the bidding advanced from £5,000 in bids of £500.

The Agamemnon had the reputation of being about the worst ship ever built for the British navy. Even when new she was poorly armed with muzzle-loading guns, and was incapable of steering. This made her a very dangerous item in a fleet at sea. She never steamed more than thirteen and a quarter knots, and has done but little service. It has been suggested that she would be of some value as a floating battery for harbor defence, as her armor is thick, if her guns are hopelessly obsolete.—London Daily Mail.

Chateau De Ramesay to Go.

Montreal, April 7.—The famous old Chateau De Ramesay, one of the city's historical show places, will be swept away if the plans now in hand for the extension of Bonsecours market are carried out.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SEEDS AND PLANTS.

Hybridiser at Work in England All the Year Round.

The business of seed-testing is never really at an end, for experiments are constantly being made with (so to speak) the fathers and mothers of both farm and flower seeds. The hybridiser is at work in the hothouse all the year round, crossing new varieties and trying experiments of every kind. Then, when he has succeeded in raising a glorious new variety, specimens of it are sent out and seeds raised from the finest plants. One of the richest-colored primulas yet raised was obtained by a very handsome white flower. Yet, strange to say, subsequent attempts with similar parents all proved failures. Another curiosity was the crossing of gloxinia with gesnera. Fertile seed was obtained, but all the seedlings proved sterile, and utterly declined to be propagated. In 1891, the seed of "Her Majesty"—a white gloxinia—was declared successful, but experiments had been commenced as far back as 1877. In that year the flower selected for the seed experiments was excellent in form and substance, but it had a pink band at the throat which the seed experts wanted to get rid of. Selection and crossing were continued year after year, until the flower came true from seed as a pure white in 1891. What an extraordinary business this seed-producing and seed-testing is! One variety of seed may consist of the finest dust, with three-quarters of a million seeds to an ounce. On the other hand, there are seeds in the same room with a diameter of more than one inch.—Windsor Magazine.

Another King in Great Britain.

Another sovereign besides King Edward rules within the British Isles, says Tit-Bits. His kingdom is Bardsey Island, situated three miles south of the Carnarvonshire Peninsula in Wales, where he rules with autocratic sway. The inhabitants number seventy-seven, including the King and Queen, the former being the direct descendant of a long line of monarchs who have reigned in the island from time immemorial. The language spoken is an archaic form of Welsh, and is totally unintelligible to the people on the mainland.

The King, in the intervals between regal duties, acts as doctor, schoolmaster and registrar of births, marriages and deaths, and does not consider himself too important to dig potatoes and gather crabs when occasion requires. He owes no allegiance to England, and consequently pays no taxes. The people live on home grown barley bread, butter and milk, while the rocks afford an inexhaustible supply of crabs and lobsters, which they are glad to retail to the wandering stranger for the small sum of one penny each.

They know nothing of the outside world, as newspapers never penetrate to their isolated kingdom. The area of the island is about 870 acres, and on the south-east side there is a small harbor, which will admit vessels of about 45 tons. In the quaint cottages many exquisite examples of old Welsh carving are found, and the beautiful ruins of St. Mary are of particular interest to the antiquarian.

Reign of the Card Table.

Rather reluctantly hostesses are yielding to the general demand and are providing card tables for those of their guests who prefer that form of entertainment to dancing or conversation. Reluctantly, because they realize that cards are altogether too attractive, and that every table will have its complement of quiet, absorbed players who certainly do not add to the general entertainment.

"I consider cards at an evening function as a regular wet blanket, and yet what is one to do?" exclaimed a hospitable London matron recently. "They now seem to be considered as necessary concomitants of every dance. But," she continued, "I draw the line at my little musicals. There I will not risk the rivalry of the 'tapis vert!' A friend of mine recently sent out invitations for an evening at home with 'music and cards' written in one corner. Of course, everyone went eager to play cards, and no one wished to listen to the music, which was really extremely good; so she had the mortification of having her artists play and sing to a comparatively empty music room, while the great proportion of her guests were either seated at the card tables or waiting their chance to 'cut in' and play as soon as possible. Besides the useless expense she had been put to, she mortally offended Signor Basso and Mme. Silvertone, who, I am told, declared that they had never been so slighted in any house before! 'I might just as well,' she said, 'have simply given a card party and spared myself all the outlay and annoyance. Nobody wished to listen to the music, and everyone wished to play cards.'"

Useful Light.

Stationed off the island of Islay, on the west coast of Scotland, at the Otter Rock, there is an interesting and novel lightship, which is described in Cassell's Magazine.

It is unmanned, yet it can be relied on to display the warning light to guide the mariner on this dangerous coast. It is a very ingeniously constructed vessel and the only one of its kind in existence. In its two steel tanks sufficient gas can be stored to supply the vessel for several months.

Experiments have shown that the light may be depended upon to burn continuously for months at a time. The approximate duration of the light can always be predetermined, and there is no danger whatever of the light being extinguished either by wind or spray.

The light is visible at a distance of eight to twelve miles. The lightship also has a bell which is made to ring automatically by means of an ingenious device which utilizes the gas as it passes from the tanks to the lantern to work the bell clapper. The light is not interfered with in the slightest degree by the device for striking the bell.

Only Half the Truth.

Wife (during the quarrel)—Yes, and people say you only married me for my money.

Husband—People are wrong, my dear. They overlook the fact that you also had considerable real estate.

The real need of the times, according to the princess in every family, is some method by which the earning capacities of fathers may be doubled.—Atchison Globe.

THE TRIUMPH OF DEATH.

No longer mourn for me when I am dead
Than you shall hear the surly, sullen bell
Give warning to the world that I am fled
From this vile earth, with vilest worms to dwell;
Nay, if you read this line, remember not
The hand that writ it; for I love you so,
That I in your sweet thoughts would be forgot
If thinking on me then should make you woe.
O, if, I say, you look upon this verse
When I perhaps compounded am with clay,
Do not so much as my poor name rehearse,
But let your love even with my life decay;
Lest the wise world should look into your moan,
And mock you with me after I am gone.
—Shakespeare.

A Newfoundland Minister.

The Hon. Edward P. Morris, who now becomes Minister of Justice in Newfoundland, was born in the "oldest colony" forty-four years ago, and educated at Ottawa. He is both a solicitor and a member of the Bar, has been in the St. John's Parliament for nearly twenty years, and took silk seven years ago. He held office in two Governments as Attorney-General under Sir William Whiteway, and is the author of several useful acts of Parliament dealing with education and the protection of those engaged in the fishing industry. He has also, following the example of the progressive legislators in the Australasian colonies, put upon the Newfoundland statute book a measure controlling the relations between employer and employed. The new Minister's political trend may be guessed from the fact that he calls his house "Beaconsfield."

THAT WEARY SPRING FEELING

Is Quickly Disposed of by Dodd's Kidney Pills.

They Tone up the Kidneys, Ensuring Pure Blood, Good Circulation, and as a Consequence, Vigor and Energy.

Nearly everybody needs toning up in the spring. Some are altogether ill; others just feel fagged and worn out. They have little inclination to work and less to eat. They are simply useless.

Did you ever stop to think that there is a reason for all this, and that if the compalint is attacked intelligently it will yield readily, the lazy feeling will depart and in its place will come vigour and energy and appetite.

It is the Kidneys that are not doing their work. They need to be toned up with Dodd's Kidney Pills. Why? Because they are being overworked and need help.

In the winter the body fortifies itself against cold. With the coming of spring it throws off this fortification, which consists of extra tissue, and additional waste matter is given to the blood to carry away. If the Kidneys are in condition to do extra work this waste material is quickly expelled from the body in the usual way.

But if the Kidneys are tired or worn out the waste remains in the blood, and the circulation is clogged. The remedy is simple. Dodd's Kidney Pills put the Kidneys in good working order. The Kidneys in good working order ensure pure blood and good circulation—ensure brightness and vigour and energy. Thousands of people will tell you so, can tell you so, out of their own experience.

How He Got It.

A good story is told about a former member of the Missouri legislature. Before his election he was chronically "broke." When he returned from Jefferson City, he exhibited $500 in good, crisp greenbacks. Some of his friends "jollied" him about his prosperity.

"You didn't have a cent when you went to the legislature, did you, Jones?" said one of them.

"Not a blamed cent," said Jones.

"As a matter of fact I lent you half your railroad fare, didn't I?"

"I believe you did."

"Well, you were down in Jefferson City about forty days. You got $5 a day. Now, what the gang wants to know is how you managed to save $500 out of a total income of $200."

"Come closer," whispered Jones, "and I'll tell you how I did it. I had my washing done at home."

The Broken Health of School Life.

Close Confinement, Over Exertion at Study and worry over examinations too great a strain for the Nerves.

Dr. Chase's Nerve Food

So many school girls and school boys, too, are pale, languid and run down in health, subject to weak spells and nervous headaches, and victims of sleeplessness, that we no longer realize the folly of developing the mind at the expense of the body.

It is on the mothers and fathers that falls the responsibility of looking after the health of their children and to them we suggest the wisdom of having the health of their children kept at the high water mark by Dr. Chase's Nerve Food.

This great food cure is so gentle and natural in action as to be admirably suited to the requirements of children. The benefits to be derived from its use are certain and lasting, as it goes to form new red corpuscles in the blood and creates new nerve force.

Mrs. R. Wareham, 267 Sherbrooke street, Peterborough, Ont., states:

"One of my children has suffered a great deal with nervous headaches, dizziness and sleeplessness, and in fact, was all run down, pale and languid. These troubles we attributed to over-study and confinement at school. She began using Dr. Chase's Nerve Food, and I can say that we have found this treatment exceedingly helpful. It has relieved her of headache, steadied her nerves, and built up her system wonderfully. We can see a great change in her, as the color is returning to her face, and she is gaining in flesh and weight."

Dr. Chase's Nerve Food, 50 cents a box; six boxes for $2.50 at all dealers, or Edmanson, Bates & Co., Toronto.

Before putting to sea say one prayer, before going to war say two prayers, before getting married say three prayers.—Spanish Proverb.

Dr. WOOD'S NORWAY PINE SYRUP

Cures COUGHS, COLDS, BRONCHITIS, HOARSENESS and all THROAT AND LUNG TROUBLES. Miss Florence E. Mailman, New Germany, N.S., writes:—I had a cold which left me with a very bad cough. I was afraid I was going into consumption. I was advised to try DR. WOOD'S NORWAY PINE SYRUP. I had little faith in it, but before I had taken one bottle I began to feel better, and after the second I felt as well as ever. My cough has completely disappeared.

PRICE 25 CENTS.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the prices.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 41 Broad street, New York. The oldest money morning of Wall street. $15 the year, $7 the months. Subscriptions and renewals taken at the Examiner office, Peterborough.

WOMAN'S WORLD

A CLEVER INDIAN MAID.

Her Literary Plans For the Uplifting of Her Race.

One of the cleverest of the new generation of Indian women is Miss Laura Miriam Cornelius, a full blooded Oneida, who lives on a remote Indian reserve in Wisconsin and who, in spite of the obstacles of ill health, race prejudice and limited worldly goods, has, while still a very young woman (she was born in Oneida, Wis., in 1879), completed a six years' course of study in four years at Grafton Hall seminary, has collected and written the legends of her race, gathered from the oral traditions handed down from generation to generation among the Onei-

MISS LAURA MIRIAM CORNELIUS.

das, and is now working upon an Indian grammar, the first attempt ever made to classify the Indian tongue into a grammatical system.

Speaking recently to a representative of the New York Tribune in her father's house in Seymour, Wis., she said:

"Literature shall be my life work, and its aim shall be to benefit my people. This can be done in literature in a way not, I think, undertaken before. The life struggles and motives of the Indian race must of necessity be written by an Indian, if they are to be correctly portrayed. White men and women have written cleverly of us, but from a white man's point of view. I hope to give the Indian side of American life.

"I do not know how or when I caught the idea of writing. Indeed, it must be longer ago than my memory, for I know that when only a child, with the English language half on my tongue, I dreamed of writing books. Perhaps it seems strange to an outsider, for I know the ideas that prevail in regard to Indian life, but to do something great when I grew up was impressed upon me from my cradle by my parents, and I have known no other ambition.

"What I have done up to this time has been in competition with the white world, and I have succeeded according to their standards, so that I want no one to say of what I do, 'That is good for an Indian.'"

Miss Cornelius, while frail physically, is full of energy and ambition and is confident that her literary efforts will be a factor in the uplifting of her race.

The Neatly Gowned Girl.

A clever business woman was talking about clothes at lunch the other day. Never think that because a woman is in business she has lost interest in that topic ever dear to the feminine heart. "You can't get away from the fact," she began, "that men just dote on appearances. Your temper may be as sunny as a May morning, you may have all the virtues of angels, the wisdom of Solomon, your English may outshine a Princeton professor, you may calculate more quickly than the lightning's flash, and you may have recommendations miles long that you never made a mistake, but all these are as Dead sea fruit if you wear a trumpy gown, a hat of last year's vintage or hair that has not recently made the acquaintance of shampoo. The girl with a neat, smart gown, tidy gloves, who is well coiffed and well shod, will walk away from you every time, even if she can't add two and three together. Since we have to run up against men in the business world, it is well to bear this little idiosyncrasy of theirs in mind and dress up to your audience."

The Small Kitchen.

By all means have a small kitchen. A large kitchen, with a cellar door at one side, a table at another, a range at another and the sink at still another, requires too much walking. Time is consumed in going from one place to another rather than with actual work. Have your range placed in a light and convenient part of the kitchen. In front have a good sized table containing drawers and spaces underneath for keeping utensils, one portion of the top covered with zinc and the other half left plain. Have underneath the top a baking board which you can easily pull out. The sink should be near at hand. The pantry may be on the other side of the kitchen and be sufficiently large to hold a barrel of flour, a small pastry table and a convenient arrangement of shelves. The floor may be of hardwood or it may be covered with linoleum or oilcloth or the ordinary rubber covering. A tile floor is exceedingly handsome, but rather hard on the feet, making small rugs or bits of carpet a necessity if comfort is to be considered.

As Others See Us.

Nearly every woman has a looking glass attached to her dressing table, and from that glass it is that she gets a general idea of her appearance. Now, ten chances to one the glass is in a bad light, and in consequence the woman who is looking in it sees herself as a beautiful creature to whom improvements are unnecessary. In nine cases out of ten she does not even trouble to take a side or back view of her head, but imagines that the whole of her person is looking as smart and well set up as her looking glass told her she was. A long mirror and a hand glass ought to be a necessity of every well dressed woman, and it should invariably be placed in the strongest possible light. This may make her wince as the years go by, but it will tend to make her careful and more apt to keep from other people what the glass tells her. Every woman has one side of her face less pleasing than the other—as a rule it is the right side—and a woman should make it her business to devote time and trouble in coaxing and continual care in order to make it as attractive as possible.

Table Damask.

When selecting a cheap or medium quality of table damask, choose a pattern that nearly covers the ground. Such a tablecloth will wear better and look better than one of the same quality where there is a great deal of plain surface displayed. An "all over" pattern nearly covering the surface of the cloth conceals the quality of a damask that would seem quite coarse if there were much plain surface. The favorite snowdrop and other scattered patterns do not look so well in a low priced linen as either an "all over" design or a running one. The term "double" damask means a heavy linen and not necessarily a more expensive one than a single damask. Some of the finest table linens are single damask. These single damask cloths come in simple snowdrops and other small patterns which wear well and do not crack so easily as some of the heavier goods.

The Everyday Toilet.

A girl's everyday toilet is a part of her character. The maiden who is slovenly in the morning is not to be trusted, however well dressed she may be in the evening. It is just as essential to be neat and tidy at the breakfast table and to appear well before one's family as it is to dress up for some occasion or the eyes of strangers. Every girl should make it a rule to take special pains with her morning toilet. A girl with any self respect or sensitiveness at all could not but feel embarrassed and awkward if found in a soiled dress or unkempt hair if a stranger or neighbor should happen to call. Make it a point, then, to look as attractive as you can in the morning, and there will be no danger of slovenliness in the afternoon.

Interested Girls.

Sometimes I've felt sorry for girls, for nature doesn't give them the show always that she gives to boys, but she's given them the great faculty of being interested if they'll keep awake. A woman's like a nerve if she wants to be, the stimulation without which the muscle is palsied. I've never known an interested woman who was uninteresting. I've had some girl friends look me in the eyes as I talked to them, so that when I went away I felt as if a giant had taken me by the hand.—Baskett's "Sweetbriar and Thistledown."

Mercerized Goods.

A word as to the laundering of mercerized goods may not come amiss. Do not starch them if you wish the silky luster to remain. Many already know this tip, but it may prove of interest to the young housewife. Be sure also when buying mercerized goods to get those in which the thread is mercerized before it is woven. The silky luster is then permanent. Of course reputable houses only sell this kind. But, alas, there are others, and it is well to be posted.

Household Philosophy.

Finish every day and be done with it. You have done what you could. Some blunders and absurdities no doubt crept in. Forget them as soon as you can. Tomorrow is a new day. Begin it well and serenely and with too high a spirit to be cumbered with your old nonsense. This day is all that is good and fair. It is too dear, with its hopes and invitations, to waste a moment on the yesterdays.

The Refrigerator.

I have had springs put on the doors of my refrigerator, says a writer in Good Housekeeping, and in this way have kept down my ice bill not a little, for the most careful servant will occasionally leave a door open, and the springs make it impossible to do so. My refrigerator is of the variety usually found in apartment houses.

Sheets.

The proper length for sheets is three yards at least, which will allow enough to tuck in securely at the foot and a good turndown at the top of the bed. Blankets or counterpanes and quilts need not be quite so long as the sheets, but should be a generous width.

The Men in Line.

The land forces alone of Europe number "on the war footing" 25,000,000 men. Even Spain has an army larger than our own.

Standing side by side 25,000,000 men would make a continuous line from Calais across Europe and Asia to Bering strait.

Parading up Broadway at the usual pace, infantry in files of twenty, cavalry ten abreast and field guns two abreast, this force would pass city hall in about seven and a half months, parading eight hours a day, Sundays excepted.

On the continent soldiers are carried standing in fourth class cars containing forty men each. Very small freight cars we should call them. To mobilise these men at once would take 625,000 such cars in about 50,000 trains. At a mile headway the trains would reach twice around the world.

Ingrowing Toe Nails.

To relieve ingrowing toe nails cut a V shaped piece out of the center of the nail, as deep down to the quick as possible, and press in all around the toe and as much as possible under the ingrowing part some good yellow soap. In the course of a few days or so take the pointed end of a small penknife blade and scrape out all the soap and if possible insert the blade under the ingrowing part and with a dexterous twist turn the edge of the blade upward and pare off as much of the ingrowing part as possible. Then press in some more soap and a small piece of absorbent cotton between the nail and the overlapping flesh to keep the nail from pressing on the same. In the course of a few weeks the flesh under the ingrowing part will become so callous that no pain will be felt, and the nail can be trimmed regularly once a week.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. This signature on every box. 25 cents.

Remarkable Luck.

In Gold Hill, Nev., in 1877, one of the mining bosses—Tole by name—had trouble with some of the laborers in his mine. One night three of them attacked him in a barroom. Two of them pinned him down, while a third stood over him with a revolver. The muzzle almost touched his stomach. Once, twice, thrice, a fourth and a fifth time the weapon snapped. Tole closed his eyes. Each moment he expected to be his last. The disgusted ruffian threw his disappointing weapon on the floor, with an oath, and, joined by his aids, left the place. Tole wiped the cold sweat from his brow, mechanically picked up the discarded weapon, went to the door and fired off every charge, remarking that it was just his luck.

European and American Oysters.

The oysters of America and Europe differ greatly. European oysters are smaller and have a coppery taste. Our southern oysters are larger than the northern. They are dredged along the coast and transferred to oyster beds in creeks close to shore, where they fatten. In London oyster salesmen sometimes keep oysters for a few days in water to which oatmeal has been added, for the purpose of rendering them more delicate and of better flavor. When out of season—during spawning time—the oyster is soft and milky and not fit to be eaten.

The Cook Stays.

Mrs. Newbride—How does Mrs. Henry Peck manage to keep that cook of hers?

Mrs. Oldhand—She threatened to leave, but Mrs. Peck would not give a recommendation, and she wouldn't go without one, and they are both stubborn.—Judge.

Tact.

"It is difficult to say what tact is," Archbishop Langley replied when asked to define it. "Here, however, is an instance of what it is not: Only this morning a clergyman in my diocese wrote to me, 'In consideration of your grace's many infirmities and failing powers.' That was not tactful."

AN ARAB'S HORSE.

The Story of an Englishman's Attempt to Purchase It.

In his "Souvenirs d'un Voyage" M. Spoll describes a visit to Arabia and the attempt of an English friend to buy an Arabian horse. The Englishman was at great pains to induce the Arab who owned the horse to agree to sell him. He persuaded the man to make an appointment to conclude the sale after employing "as much diplomacy as would be used in a year in making or breaking the balance of power in Europe."

On the eventful day the Englishman, with M. Spoll and M. Lascaris, rode to the rendesvous and found the Arab sitting by his horse, which was browsing quietly.

"Las salam aleik" (I salute you), began the Englishman cautiously. "What shall I pay you for your horse?"

"Who knows?" said the Arab. "Throw on my cloak here whatever you offer."

Three thousand piasters fell at the feet of the impassive Arab, then 10,000, then 10,000 more. The Arab's eyes shone. Ten thousand piasters more won him. "Ah," he said, going up to his magnificent animal, "we must part."

The Englishman began to bridle the horse. The Arab sobbed. Suddenly the intelligent animal, perceiving his new owner, sprang away and neighed mournfully. No one could doubt that he knew what was going on.

With one bound the child of the desert was in the saddle. "Adieu!" he said. "Your money could never replace my only friend!" And he vanished in a cloud of dust.

"Stupid!" cried my English friend, and then we rode home in silence.

Mirth, Not Misery, Loves Company.

I have always doubted the proposition that "misery loves company" and have believed that such a statement was first put forth by some arch hypocrite whose misery was but a pretense and who was beckoning some other sham sufferer into a quiet corner where they could both be jovial on the sly.

However slight my knowledge of universal misery may be, I can attest from personal experience that my own misery claims solitude and slips away all by itself and turns the key upon the curious world, asking nothing so much as to be "let alone." I do not care to weep in company, nor would it cheer me to have a chorus of other weepers to sob in unison with me. Rather would I remain in unmolested wretchedness until my tears had vanished and my eyes and nose assumed normal appearance.

'Tis mirth then, and not misery, which pines for company. Fun cannot thrive alone and flourishes only among congenial spirits. Our laughter must be shared, our smiles responded to, and every glance of merriment needs recognition to make it worth the while.—Caroline Ticknor in Atlantic.

The Essential Thing.

The primary class in Sunday school was listening to a lesson on patience. This, according to the Boston Herald, was what came of it, at least in the minds of the more literal minded children:

The topic had been carefully explained, and as an aid to understanding the teacher had given each pupil a card bearing the picture of a boy fishing.

"Even pleasure," said she, "requires the exercise of patience. See the boy fishing. He must sit and wait and wait. He must be patient."

Having treated the subject very fully, she began with the simplest, most practical question:

"And now can any little boy tell me what we need most when we go fishing?" The answer was shouted with one voice:

"Bait!"

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

Rheumatism..

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the cause of those fearful shooting pains and stiff, aching joints. There is but one sure way—

A Nervous Woman

Will often feel compelled to stop the clock whose ticking seems unbearable to her. In such a nervous condition the woman needs a building up of the entire system. It is useless to attempt the cure of the nerves while the cause of the nervousness remains uncured. A very common cause of nervousness in women is a diseased condition of the delicate womanly organism.

Dr. Pierce's Favorite Prescription cures womanly diseases and the nervousness which they cause. It changes irregularity to regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nervine, tranquilizing the nerves, promoting the appetite and inducing refreshing sleep.

"When I first wrote you I had been to three different doctors and two of them said I would never get better without going to the hospital for an operation," writes Mrs. Selma Erickson, of 496 Rice Street, St. Paul, Minn. "Was not able to do anything. If I would get up and walk to the kitchen and back I would have to lie in bed for a day or sometimes two days. Now I have used six bottles of Dr. Pierce's Favorite Prescription and six of the 'Golden Medical Discovery,' and the result is just wonderful. I was so nervous I had to have some one by my side all the time even in day time, and I could hardly eat anything. I took treatment from a doctor twice a week, and every time I would go there I felt so sick, but since I quit all the doctors and began taking your medicines I gained right along. I weighed 125 pounds, when I began taking your medicines (in August) and now I am up to my usual weight 165. I am as well and feel as good as ever."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. Wm. Bingley, Grand Tracadie, P.E.I., Has a Very Trying Experience, but Thanks to

MILBURN'S HEART AND NERVE PILLS

She has been restored to perfect health.

She writes: "About seven months ago I was badly run down in health and became very weak. I was troubled with fluttering of the heart and shortness of breath. When lying down at night I was almost afraid to go to sleep for fear I would never wake up. When I arose in the morning I would feel a little better, but as soon as I started to work my heart would start fluttering, my head would become dizzy, faint weak spells would come over me and it seemed as if black objects were floating before my eyes. I was growing worse every day until I got a box of Milburn's Heart and Nerve Pills. When the box was half gone I could feel that they had done me good and by the time it was finished I was in excellent health and would advise all sufferers from heart and nerve troubles to try them."

Price 50 cts. per box, or 3 for $1.25, all dealers, or

THE GAMEY CHARGES INVESTIGATION.

(Continued From 1st Page.)

Stratton's productions show:

The first part thereof: Showing documents in my possession, which I do not object to produce:

Letter, R. R. Gamey to J. R. Stratton, dated Sept. 20, 1902.

Letter-press copy, J. R. Stratton to R. R. Gamey, dated Oct. 2, 1902.

Letter-press copy, J. R. Stratton to R. R. Gamey, dated Oct. 2, 1902.

Letter, R. R. Gamey to J. R. Stratton, dated Oct. 7, 1902.

Letter-press copy, Minister's Secretary to R. R. Gamey, Oct. 10, 1902.

Letter, R. R. Gamey to J. R. Stratton, dated Nov. 4, 1902.

Letter-press copy, J. R. Stratton, by secretary, to R. R. Gamey, Nov. 6, 1902.

Letter, R. R. Gamey to J. R. Stratton, dated Nov. 5, 1902.

Letter, R. R. Gamey to J. R. Stratton, dated Jan. 13, 1902.

Letter copy, Minister's secretary to R. R. Gamey, Jan. 15, 1903.

Letter, R. R. Gamey to Minister's secretary, dated Jan. 22, 1903.

Letter, R. R. Gamey to J. R. Stratton, dated Feb. 7, 1903.

Statement, partly typewritten, signed R. R. Gamey, known as Globe interview, not dated.

Letter, G. W. Spencer to J. R. Stratton, dated Feb. 23, 1903.

Official file, No. 5888, for 1902, re Thomas Flesher's appointment as J.P.

The second part: Showing documents in my possession which I object to produce.—None.

The third part: Showing documents which I have had, but have not now in my possession or power:

Original letter, Stratton to Gamey, Oct. 2, 1902.

Original letter, Stratton to Gamey, Oct. 2, 1902.

Original letter, Minister's secretary to R. R. Gamey, dated Oct. 10, 1902.

Original letter, Stratton to Gamey, dated Nov. 6, 1902.

Original letter, Minister's secretary to R. R. Gamey, Jan. 15, 1903.

Memorandum, neither addressed nor signed, but now bearing direction, date and signature in R. R. Gamey's handwriting, dated 10th Sept., 1903, to Hon. G. W. Ross.

Similar memorandum, with additions in ink, signed R. R. Gamey, addressed to Hon. G. W. Ross, dated Oct. 27, 1902.

Mr. Gamey's Letters.

Some of the productions are letters written to Mr. Stratton by Mr. Gamey. They follow:

[Marked personal.]

Gore Bay, Sept. 29, 1902.

Hon. J. R. Stratton, M.L.A., Provincial Secretary, Toronto:

My Dear Stratton,—Enclosed find petition of lumber companies on Aird Island to have Thomas Flesher, customs collector at that port, appointed a J.P., as the present J.P. is leaving. I know the necessity of this appointment and I am well acquainted with Mr. Thomas Flesher, and I know that he will make a good J.P. His address is Spanish River Mills. Would you kindly make this appointment for me. I am writing you while I know the appointment is in the other department, but I desire just now to do business with you. Would you be kind enough to ask the Minister of Public Works to let Mr. J. F. Boyd, Government Road Inspector in my district, know in a quiet way that he might consult me. Would it be possible to get railway passes before the House meets? I suppose hardly. Everything is looking favorable here. Kindly have the above appointment made at once if possible, as the official is needed. Yours truly,

(Signed) R. R. Gamey, M.L.A.,
Gore Bay, Ont.

Memorandum—Note typewriting characters at top of page 1.

Mr. Gamey's Recommendation.

Letter written on letter paper of the Ocean House, Gore Bay, Ont. Letter as follows:

Confidential.

Gore Bay, Ont., Oct. 7, 1902.

My Dear Stratton,—Yours of the 2nd to hand re returning officer for the referendum. I would recommend very strongly the sheriff of our riding, Mr. E. H. Jackson. He is thoroly capable and worthy. A life-long Liberal, and I think it is too much to give Mr. Abrey, the late returning officer, the appointment again, as one set of fees of that kind is enough for one man in one year. Mr. Jackson has a large circle of friends who were disappointed with him not getting the appointment last spring, and if Jackson got it now they would all forget the spring affair. Mr. Abrey has practically no following. Could you keep this appointment over until next week and make it then by doing this for me you will oblige me much. Yours truly,

(Signed) R. R. Gamey.

(This letter has been on file, two file holes being cut in top of letter. The letters "R. O." in lead pencil also appear on the top of the letter).

Gore Bay, Nov. 4th, 1902.

Personal and confidential.

Hon. J. R. Stratton, Prov. Secretary.

Dear Sir,—Could I borrow $3,000 (Two thousand dollars) and give my notes for it repayable after the first session? I have a chance to buy some timber lands here, out of which I can make some money if I can raise that amount at once. Will you kindly let me know by return of mail, and if satisfactory I will come down and arrange it. Kindly do not delay answer, as I have an option only for one week on the lands.

There was a petition sent in last spring to the Department of the Attorney-General for the appointment of one, J. W. Swanson of Whitefish Post Office, as J. P. Will you kindly see that this appointment is made? He is a Liberal, and recommended highly by the entire community.

Yours truly,
(Signed) R. R. GAMEY.

The envelope in which this letter came is attached and bears the post mark at Long Bay, Nov. 4th, 1903, and is marked private and confidential across the left end of the envelope. On the envelope is written in lead pencil the word "Gamey."

Gore Bay, Nov. 5th, 1902.

Hon. J. R. Stratton, Prov. Secretary.

Dear Sir,—I sent in a petition a short time ago for the appointment of Thomas Flesher as J. P. at Spanish River Mills, on Aird Island, and you told me he had been appointed. I had a letter today from Mr. Flesher, asking about the appointment. Will you kindly see that it is made as soon as convenient

Yours truly,
(Signed) R. R. GAMEY.

(Memo.—On the right hand side, near the corner, appears in lead pencil the figure "2.")

Gore Bay, Jan. 13th, 1903.

Hon. J. R. Stratton, Prov. Secretary, Parliament Buildings.

Dear Sir,—Will you kindly appoint Charles C. Platt, wharfinger Gore Bay Post Office to the position of "Marriage License Issuer" for Gore Bay Town, as it would seem to be necessary to have another appointed. There is only one in the town now, and he lives about three-quarters of a mile from the central part of the town, and a number have been asking for this.

Yours truly,
(Signed) R. R. GAMEY.

Gore Bay, Jan. 22nd, 1903.

E. C. Meyers, Secretary.

Dear Sir,—Re yours of the 15th. The name of party referred to is Charles Caleb Platt, Gore Bay Post Office, Ontario.

Yours truly,
(Signed) R. R. GAMEY.

R. R. Gamey, Esq., M.P.P.,
Gore Bay, Ont.

(Confidential.)

Toronto, Jan. 15th, 1903.

My Dear Sir,—I am directed by the Honourable the Provincial Secretary to acknowledge the receipt of your letter of January 13th, recommending the appointment of Charles C. Platt, as an issuer of marriage licenses at Gore Bay, and to say that the matter will receive due consideration.

Should it be deemed advisable to make the appointment, it will be necessary to have his name and address in full. What does his second initial stand for?

I have the honor to be, sir,
Yours very truly,
E. C. MEYERS,
Minister's Secretary.

R. R. Gamey, M.P.P.
Gore Bay, Ont.

Toronto, 24th January, 1903.

My Dear Sir,—I have yours of the second inst., recommending John McEachern for the position of provincial constable at Little Current, and promise to give the matter due consideration. It will be necessary for me to decide how far a provincial officer is necessary on the island, in view of the opinion which is beginning to prevail that we are doing more in the way of appointing officers in the Northern districts than is really desirable; by which I mean that we are paying the salaries of officers who formerly were engaged and paid for locally in the older sections of Ontario in days gone by, when these older sections were new sections of country. I do not want to be considered drawing the line at Manitoulin, and most likely will not do so, but I want to give the whole subject some consideration before I go on making any further appointments.

Believe me, yours truly,
J. M. GIBSON.

R. R. Gamey, Esq., M.P.P.,
Gore Bay, Ont.

Toronto, 27th January, 1903.

Dear Sir,—The Attorney-General has asked me to draw a recommendation for the appointment of E. W. Swanson as a Justice of the Peace for Algoma. Will you kindly let me know Mr. Swanson's Christian names. I suppose I should describe him as of the Township of Dennison, Whitefish P.O. Kindlet me hear from you. Yours truly,

W. C. CURREY,
Private Secretary.

R. R. Gamey, Esq., M.P.P.,
Gore Bay, Ont.
Victoria Building.
Morrisburg, Ont., Jan. 31, 1903.

Dear Sir,—I have your letter of the 29th inst., informing me that you have decided that the Government are going to continue the affairs for another term, and that at the request of many of your constituents you have decided to take an independent stand in the House. Yours truly,

J. P. WHITNEY.

R. R. Gamey, Esq., M.P.P.,
Gore Bay, Ont.
Department of Public Works.
Toronto, 3rd Feb., 1903.

Dear Sir,—I am in receipt of your letter of the 30th ult., endorsing the petition from the residents of the 12th concession of the Township of Campbell, between the 10th and 8th side lines, asking for a grant to assist in improving this road. For the reason that it does appear as if improvement was very necessary, and the fact of the people being willing to do something for themselves, is sufficient encouraging to justify our very carefully considering the application in the coming estimates. Yours truly,

A. W. CAMPBELL,
Assistant Commissioner.

R. R. Gamey, Esq., M.P.P.,
Gore Bay, Ont.
Toronto, Feb. 26, 1903.

My Dear Sir,—I have your letter of the 22nd inst., respecting the appointment of John McEachern as Provincial constable at Little Current. The time is so short now until I shall have the advantage of discussing this and some other matters with you that I hope you will not mind my leaving it in abeyance in the meantime.

Yours truly,
J. M. GIBSON.

R. R. Gamey, Esq., M.P.P.,
Gore Bay, Ont.
Toronto, March 3, 1903.

(Confidential.)

My Dear Sir.—Your letter of February 13th and accompanying petition, was duly received. I did not reply immediately since I wished to receive a report concerning its contents from Mr. Houston, our public school inspector. You have doubtless met Mr. Houston. He now asks that we do not dispose of the matter until he will again visit the neighbourhood in question. I will talk the matter over with you when the House is in session.

Faithfully yours,
R. HARCOURT.

STROUD TEA & COFFEE CO'Y

366 GEORGE STREET PETERBOROUGH. TELEPHONE 181.

DOMINION OIL CO., LIMITED.

Chartered Under the Laws of Ontario and Operating Western Ontario Oil Fields.

This company has acquired since February 1085 acres additional of proven oil lands, including 500 at Thamesville, 360 in the Wheatley District, and 226 more in the Raleigh oil fields, and is now drilling on the Thamesville and Raleigh properties adjoining three new good wells just brought in.

These additions to the company's holdings give it a total

Increase of 70% in Assets.

It has now two drilling rigs running on its properties, and recently purchased and installed the finest drilling equipment in Western Ontario, which is now running night and day on the Thamesville property.

This company has paid dividends at the rate of 12 per cent. per annum ON PAR continually since its inception, thus netting the investor 24 per cent. return; and, in view of its rapid progress and substantial increase in assets, it has been decided to advance the price of stock to 60 CENTS per share, a very conservative advance, being an

Increase of Only 20 In Price.

Mr. D. C. Woodward, son of the president, recently discovered some NEW PETROLEUM DEPOSITS OF LARGE EXTENT IN ALBERTA, and the president starts to acquire these properties for the Dominion Oil Co. in the course of a few days.

As ordinary coal oil retails at 35c A GALLON in that country, owing to the heavy import duties and freight tariffs, and as there is a great demand for illuminating oil in the Northwest, through the newness of the country, there being practically no electric light or gas works, this company will find a ready market for its product at large profits by the installation of a refinery which the company purpose erecting after it has developed the production.

From the analysis made of this product by President Woodward, this oil is proved to be of great value also as a lubricant, to such an extent that the farmers have been using it for lubricating their harvest machinery and wagons.

President Woodward's experience of 35 years as one of the foremost oil operators and refiners of Western Ontario, erecting and operating some of the leading refineries, and subsequently the management of large operations for English companies in Borneo and Russia, particularly qualify him for this new exploration and construction of a refinery in the great Northwest.

For the purpose of carrying on this development in the Northwest, the balance of the present allotment of stock is offered at 50 per cent. of par (par value $1.00, fully paid and non-assessable).

THE ADVANCE IN PRICE TO 60c

Will positively take place at the close of business on Saturday, April 11, and IMMEDIATE application is necessary to secure it at the present price, as NO STOCK WILL BE SOLD AT 50c PER SHARE AFTER THE ABOVE DATE.

Mail orders must positively bear date and postmark not later than Saturday, April 11.

Address all enquiries and make all checks, drafts and orders payable to the Fiscal Agents,

COLONIAL SECURITIES COMPANY, Manning Chambers, Toronto.

Big Drop in Electric Light

Almost as Cheap as Daylight in Peterborough. Don't have to burn candles, coal Oil or gas any longer. The Light Company's new schedule cuts the price clean in two. Nobody in Peterborough need be without the best and safest illuminate of the day. ***Let us figure with you on wiring your Buildings.*** We have wired some of the best houses, stores, churches and public buildings in and out of town. Ready-to-wear Headquarters, Peterborough.

BLOODSHED IN ROME

A Dozen Strikers Were Wounded by the Troops.

ST. PETER'S MAY BE CLOSED.

Labor Difficulties Elsewhere—Strike in Holland Is Very General—Government Orders the Mobilization of All Marines and Warships Also to Get Ready For Active Service—Bloodshed in Russia.

Rome, April 9.—Rain, which fell steadily during yesterday afternoon, assisted the authorities in maintaining tranquility throughout the city, and there was little rioting. No cabs are in service, and the street cars are guarded by police. Unimportant encounters between strikers and troops took place during the morning. The cavalry charges easily dispersed the mobs that gathered. About the middle of the day, the troops fired three volleys at a crowd that gathered in threatening numbers. A dozen were wounded. Many strikers were arrested. To ensure order, ten more battalions have been instructed to come to Rome.

The leader of the Socialists has decided to propose that the differences between the typesetters and their employers, which brought about the general strike, should be settled by arbitration. This proposition is likely to be settled, in which case the general strike will be ended.

The Pope was much interested in the particulars of the strike. He said: "It is a sword with two edges." Instructions were issued to close the churches wherever disturbances occurred, and the prelates of St. Peter's met during the day to decide whether or not to suspend the Easter services, fearing that the strikers may enter St. Peter's and provoke disorder.

THE DUTCH SITUATION.

Government Is Mobilizing All the Marines and Warships.

Amsterdam, April 9.—According to a despatch from The Hague, the Workmen's Defence Committee has offered to call the strike off if the proposed "tyrannical" anti-strike laws are abandoned. The intended sympathetic strike of the bakers has proved a failure, although the bakeries are at work under military protection. The railroad service is gradually resuming normal conditions.

At Rotterdam, 90 per cent. of the Netherlands Road employes have resumed work. The carters refused to quit work.

In Amsterdam, troops are protecting the homes of railroad employes who did not strike, and bakers' shops and carts are also guarded. Employes of the River and Canal Navigation Co. have decided to strike. The pupils of the Locomotive Engineers' Institute unanimously tendered their services to the railroads, and many are working as stokers. The reports from delegates sent to Germany, France and England, to seek support from the trades unions there are anxiously awaited by the strikers' committee.

Mobilizing Marines.

The Government, it is said, has ordered the mobilization of all the marines, and the warships at Den Horder have been ordered to get ready for active service. About 10,000 men are idle in Amsterdam.

The Hague, April 9.—In spite of the efforts of the Socialists to postpone the discussion of the articles of the Anti-Strike Bill in the Second Chamber of the States-General, Article 1, guaranteeing freedom of labor against strikers, was passed yesterday. The members of the Liberal Left declare they will not vote for Article 2, which provides punishment for striking railroad men.

Artillery vs. Strikers.

Berlin, April 9.—A despatch from Nijni-Novgorod says that rioting occurred from a strike in a large factory, and, as the local civil authorities were unable to restore order, the troops were called out and artillery was brought up. The latter was fired point blank into the midst of the rioters, killing thirty men and wounding a hundred.

Labor Difficulties Elsewhere.

New York, April 9.—Differences between the United Brotherhood of Carpenters and the Amalgamated Society of Carpenters resulted in 9,000 Brotherhood men striking on various works where Amalgamated men are employed.

Walkerville, April 9.—A delegation of the Walkerville Bridge Co. strikers waited upon President McMath of the company, but failed to come to any arrangement. The company insists on a ten-hour day, without which they cannot compete with other companies.

Harrisburg, Pa., April 9.—The Senate Committee on Mines and Mining have decided to favorably report to the Senate a bill providing an eight-hour day for mine workers in the anthracite region, to take effect April 1, 1906, when the commission award expires.

Oswego, N. Y., April 9.—The crew of the steamer St. Joseph, coal laden, Oswego to Toronto, struck yesterday in sympathy with steamboat men along the lakes for recognition of their union.

Ottawa, April 9.—There is every probability of the Canada Atlantic trackmen's strike being settled by arbitration.

Havana Senate Elections.

Havana, April 9.—The elections of officers in the House of Representatives here yesterday shows an ample Republican majority. Senor Portuondo, Nationalist, was elected President of the House, defeating Senor Garcia (Rep.) by 29 to 26. Senor Cardinal of Matanzas (Rep.) was elected Vice-President by 29 to 24.

BRITAIN AND BALKANS.

Government Might Send British Officers With Turkish Troops.

London, April 8.—Parliament adjourned to-day for the Easter holidays.

In the course of the usual discussion of foreign affairs prior to an adjournment, Premier Balfour referred to the Balkan situation. He said the saving feature was the cordial co-operation of Austria and Russia with the view of improving the condition of Christians. The government, Mr. Balfour continued, was considering the sending of British officers to accompany the Turkish troops engaged in the suppression of disorder, with the view of acquiring some guarantee that no excesses were committed.

Turks and Albanians Confer.

Vienna, April 8.—Advices from Mitrovitza, European Turkey, say the Sultan's Albanian commission has had a satisfactory conference with the Albanian leaders, who promised to maintain order and send home the Albanians who had assembled in the neighborhood, thereby assuring at any rate temporary peace.

War Echoes From the South.

Cape Haytien, Hayti, April 9.—A Government messenger from Santo Domingo announced yesterday that 3,000 Government troops are at the gates of San Domingo City, that three revolutionary leaders were killed, including Pelico Pepin, and that President Vasquez was preparing for a general attack when he left. Once in possession of the capital again, the president believes the revolution will easily be squelched.

Panama, April 9.—A despatch from Honduras says that only the capital, Tegucigalpa, now remains in the power of President Arias.

"Boxer" Rising Predicted.

St. Petersburg, April 9.—The French Bishop of Szethuan, the middle Province on the western frontier of China, predicts a general "Boxer" rising throughout the Province.

NATURE IN FIERCE MOODS.

Alabama Settlement Suffers From Windstorms and 11 Persons Killed.

Hanceville, Ala., April 9.—A tornado passed over Hopewell Settlement, one and a half miles north of here, at 2 o'clock yesterday morning. Eleven were killed, seven of whom were children, four children were fatally hurt and three persons seriously injured. Several more were slightly injured. Of the dead and injured, seven are from one family and eight from another. One man's body was blown over 200 yards. Other houses were blown down and trees were uprooted in all directions. The roar of the storm was heard at Hanceville, but no damage was done here. Rescuers hurried to the scene and cared for the wounded. It is possible the death list may be increased later.

Cyclone Three Miles Wide.

Little Rock, Ark., April 9.—A cyclone, three miles wide, passed through Cleburn and White Counties, north of here, Tuesday night, razing to the ground everything in its path. At Little Red, seven out of eight persons in one house were killed, an infant alone escaping. It is feared the total loss of life will be large. The scene of the cyclone is remote from telegraph, and details are hard to obtain.

Another Volcano Active.

New York, April 9.—An eruption of the old volcano, Del Tierra Firma, in Colombia, is reported. It occurred on March 22. The village of Tiejo was destroyed, and from 60 to 100 persons killed or hurt.

Russians Have Evacuated.

Pekin, April 9.—Yesterday was the date of the expiration of the treaty period of six months fixed for the evacuation of the Province of Manchuria. During the last fortnight the Russians have been removing their troops from the interior of the province, part of them going to Port Arthur, and the others to stations on the railway, but leaving none in Manchuria. The local Governments are being transferred to the Chinese. Prince Ching, President of the Ministry of Foreign Affairs, expressed his satisfaction at Russia's fulfilment of the agreement.

Referendum Prisoner Released.

Toronto, April 9.—The case of Robert Forster of St. Thomas, who was convicted of corrupt practices at the referendum vote, which came up on the return of a writ of habeas corpus before Mr. Justice Street on Tuesday, was decided yesterday, and the release of the prisoner was ordered. Forster was in the States when convicted, and, on his return, was convicted on a warrant issued by Judge Dell, although a writ of certiorari, ordering a stay of all proceedings, pending the settlement of the question of jurisdiction, had been issued by the High Court.

Objects to the Title Edward VII.

Edinburgh, Scotland, April 9. — There was a curious scene at a meeting here yesterday called to make preparations for the forthcoming visit of King Edward to Scotland. Several of the local Scottish officials refused to have anything to do with welcoming His Majesty until he shall have dropped the title of Edward VII. The objectors protested that the title is an insult to Scotland.

Won't Remove Corn Tax.

London, April 8.—Replying to a deputation in the House of Commons to-night, asking for the removal of the duties on corn, tea and sugar, Mr. Ritchie, Chancellor of the Exchequer, gave a plain indication that he had no such intention. It is now considered certain that any taxation relief that may be found possible will take the direction of a reduction in the income tax.

Holyhead as the Port.

London, April 9.—In the House of Commons yesterday, Rt. Hon. Joseph Chamberlain announced that he was prepared to lay the representations in regard to the advantages of Holyhead as a port for the Canadian fast line before the Canadian Government.

SECRETS LAID BARE

Counsel Inspected Mr. Gamey's Sealed Envelope.

IMPORTANT DEFICIENCIES!!

The Original Agreement of August 20 and the Shorthand Notes of Frank Sullivan's Alleged Conversation With Mr. Gamey in the Crossin Warehouse Not in It—No Surprises For Mr. Johnston.

Toronto, April 9.—The development in the Gamey case yesterday was the opening of the sealed envelope filed by the prosecution, and which the Registrar had been instructed not to open until court resumed. This step was in the end the result of a voluntary offer by Mr. McPherson to Mr. Johnson, but it is an interesting fact that at the very moment the letter was delivered to Mr. Johnston by special messenger he was leaving for Osgoode Hall to take preliminary steps with the commissioners to have the package opened, on the ground that it was a production that was not a production at all.

Closeted For an Hour.

The examination of the papers was promptly carried out in the terms of Mr. McPherson's offer. Mr. Johnston and Mr. McEvoy met Mr. Gamey and Mr. McPherson at Registrar Grant's office early in the afternoon, and the five were closeted for upwards of an hour. At the conclusion a very brief statement was forthcoming. Mr. Johnston said there had been no surprises, except that the draft agreement which Mr. Gamey had said he had was not found. This document, if in existence, is a copy of the two agreements said to have been drawn about August 27 and afterwards destroyed. Mr. Johnston said he was assured this document would yet be produced, if it was to be found anywhere, but its absence he considered as a weak point in the case of the prosecution.

A Second Deficiency.

The other deficiency was the actual shorthand notes said to have been taken in the Crossin piano factory on March 10. In place thereof was a joint memorandum said to have been prepared by the three shorthand writers from their notes. It does not give their names, nor does it pretend to be verbatim in any way. Mr. Johnston says it is but an elaboration of the remarks of Mr. Gamey in the House on this point, the difference being that there are more words. He does not consider such a synopsis as that to be evidence, and is considering the propriety of moving that the reporters' notes be produced.

In his statement to the House Mr. Gamey said, respecting this interview with Frank Sullivan: "A number of questions were asked by me, and the questions and answers were distinctly overheard. I asked him questions about Stratton, about the whole Cabinet, about the bye-election work in the three Norths, and we have the answers taken down by these three men. I asked him all about the money, who handled it from Stratton to us, and about everything connected with the transaction."

$500 in It.

The other contents of the envelope, Mr. Johnston said, were the $500 in bills, ostensibly as produced in the House, also the statement and letters read by Mr. Gamey on the same occasion. The money was carefully counted and found to total the $500 as stated.

Mr. McPherson, when asked if the draft agreement was missing, replied: "Everything will turn out to be absolutely correct." Further than that he would not say, nor would he produce a copy of the memoranda regarding the conversation in the piano factory. It is understood that two of the shorthand writers were sons of Mr. Price of Gore Bay.

Mr. Blake's Formulation.

Mr. Johnston has not yet received the charges which Mr. Blake undertook to have formulated by yesterday or to-day.

Mr. McPherson has received a further advance of $1,000 from the Clerk of the Legislature for conduct money, payment of witnesses and other expenses of the prosecution. He had previously drawn $500.

Dairy School Examinations.

Toronto, April 9.—The results of the Dairy School examinations at the Guelph Agricultural College are announced. Out of 41 students who took the finals only one failed to pass successfully. Of the 40, there were 33 in the factory class, eight were specialists in butter-making, one a specialist in cheesemaking, and six were in the farm dairy.

Government Won't Investigate.

Paris, April 9.—The Dreyfus case continues to fiercely agitate the newspapers, but there is no indication that the Government will further pursue the matter, owing to the Chamber's adverse vote.

SUNLIGHT SOAP REDUCES EXPENSE

$5,000 Reward will be paid by Lever Brothers Limited, Toronto, to any person who can prove that this soap contains any form of adulteration whatsoever, or contains any injurious chemicals.

Ask for the Octagon Bar. 215

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in Lydia E. Pinkham's Vegetable Compound.

"I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months.

"I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich.—*$5000 forfeit if original of above letter proving genuineness cannot be produced.*

FREE MEDICAL ADVICE TO YOUNG WOMEN.

All young girls at this period of life are earnestly invited to write to Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given; her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries; less learning and more health needed.

GREAT OPPORTUNITY

is offered to make money in the stock market, such an opportunity as is seldom seen. We receive daily information that enables our customers to be on the right side, and to make money. You should be among them and stop making continual losses. Those interested in such stocks as

THURSDAY, APRIL 9, 1903.

A TORONTO MAN'S WONDERFUL INVENTION.

The Same Circuit to Carry a Current for Three Services—Power, Heat, and Light.

Mr. A. M. Stark, who was for several years in the service of the Bell Telephone Company, Toronto, and latterly local superintendent for the city, has left the company's employ to carry out an invention which he has patented, which, if successful, will completely revolutionize all electric services for residences, offices and factories.

Under the patent secured by Mr. Stark he undertakes to supply telephone communications, power and light over the same circuit. In explaining the process for doing this he said he would use a power current transmitted over a main power circuit, and distributed at each subscriber's station to the subscriber's main circuit to furnish him continuously with power for his lamps, motors and communication instruments, maintain the power current at constant tension by a storage battery bridged across the main power circuit between the generator and subscriber.

OF INTEREST TO STOCKMEN GENERALLY.

Death of the Foremost Lady Breeder of Jerseys in Canada.

The Brockville Recorder reports the death of Mrs. Chillion Jones of that town, which event took place at Gananoque, April 6th. The passing away of Mrs. Jones removes one who has been familiar in Brockville, and she will be much missed. She was the owner of Belvedere farm and for many years was deeply interested in Jersey cattle, her famous herd, which had a continental reputation, carrying off highest honours both in the United States and Canada on many occasions. She took much pride in her Jersey herd and it always afforded her the greatest pleasure to show the animals to those wishing to inspect them. In this branch of agricultural industry she stood for many years at the head, and was recognized as an authority.

Notwithstanding her decidedly keen business instincts, Mrs. Jones was one of the most amiable of women, kind, sympathetic and full of Christian charity, and her many virtues will always remain a pleasant memory, pleasant memory with those who had the pleasure of her friendship and acquaintance.

SOMETHING ABOUT ROADS IN BRITAIN.

Two Hundred Years ago England the Worst in the World.

Two hundred years ago, England had the worst roads in the world, because the peasantry living on the roads alone were required to work them. In speaking of them, Macaulay says that a route connecting two great towns, which have a large and flourishing trade with each other, should be maintained at the cost of the rural population scattered between them is manifestly unjust. It was not until many toll bars had been pulled down, until the troops had in many instances been forced to act against the people, and until much blood had been shed that a good system was introduced.

Every class now contributes to the maintenance of the road system in England. The French have probably the most efficient laws and regulations in the world for the building and repairing of highways. The Minister of Public Works has the general superintendence of all roads and ways by land and by water. There are four classes of road recognized by law, namely: (1) national; (2) departmental; (3) military; (4) cross roads. National roads are built and kept up by national treasury. Departmental roads are a charge upon the departments through which they pass, and part of the military roads are kept up by the Government and a part by the departments through which the roads pass. The cross-roads are kept up by the communes, though sometimes in thinly populated regions these communes receive assistance from the Government, especially when these roads become of importance. The national roads are paved like a street, having an average width of 52 1-2 feet. The departmental roads are 39 feet wide, and the military and cross roads are of variable width. Piles of broken stone are placed at convenient distances, and a man is constantly employed in repairing each section.—American Asphalt Journal.

SMITH COUNCIL MEETING.

Pounkeepers and Fence Viewers That Were Appointed.

The Township of Smith Council met on April 6th, all the members being present.

The minutes of last meeting were read and confirmed.

Moved by Mr. Duff, seconded by Mr. Scott, that Geo. Eagleson be appointed Clerk, pro tem. in absence of clerk. — Carried.

Moved by Mr. Fowler, seconded by Mr. Bell, that the sum of one hundred dollars be expended on the West Communication Road, providing the Provincial Government grant the same amount; one half of the total amount to be expended on R. Scott's Road Division.—Carried.

Moved by Mr. Duff, seconded by Mr. Scott, that the crusher be placed on the Buckhorn Road to crush stones between the 10th and 11th Concessions. The crusher to work at least three days, providing the ratepayers work in their statute labour crushing stones. The municipality to pay the balance of expense.—Carried.

Moved by Mr. Duff, seconded by Mr. Bell, that the following grants be made:—The costs of operating crusher on Alex. Northey's Road Division for three days, and that the statute labour be performed therewith; the sum of $15.00 to Wm. Davis, to be expended on his division, 15th concession; the sum of $25.00 to Robt. Northey, to be expended on his division, 17th concession; the sum of $50.00 to John Stabler, to be expended on his division, 13th concession; the sum of $40.00 to R. White, to be expended on his division, 12th concession, and the sum of $20.00 to T. R. Mann, to be expended on his division, 6th concession.—Carried.

Moved by Mr. Fowler, seconded by Mr. Scott, that Mr. Duff be authorized to have 50 lengths of concrete culverts made.—Carried.

Moved by Mr. Scott, seconded by Mr. Duff, that Matt Bell be engaged to operate the grader for coming season at $5.25 per day.—Carried.

Moved by Mr. Duff, seconded by Mr. Bell, that a list of the poundkeepers and fence viewers be published.—Carried.

Moved by Mr. Duff, seconded by Mr. Fowler that the following orders be paid, namely, Dr. Morgan, medical attendance, $15.75; E. Brown & Co., goods to Mrs. Richardson, $4.55; J. Bell, work on road, 1902, $2.50; Times, balance of printing for 1902, $3.00.

The council then adjourned to meet to meet as a court of revision.

The pounkeepers for the township of Smith, are as follows: Pound Division No. 1, W J Tully; No. 2, John Archer; No. 3, F Sanderson; No. 4, John Stothart; No. 5, Jas H Mann; No. 6, Jas Sanderson; No. 7, Coleman Blewett, No. 8, J E Kearney and Jas Cassidy; No 9 Jonathan Branch; No. 10, Robt Northey; No. 11, J H Northey.

The Fence Viewers for the Township of Smith for the year 1903, are as follows: Wm Simpson, Jos Milburn, Thos J Milburn, Wm Nicholls, Andrew Fairbairn, D W Blewett, Alex Edmison, Thos Hall, T R Mann, Jas. Bell, Archibald Young, Robt Northey.

For a bilious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all druggists.

OMEMEE.

(From our own Correspondent.)

The weather has again became springlike after the second winter, but fall wheat and clove are considered safe yet.

The village is very healthy.

Football and baseball are all the rage.

Farmers are now considering the acreage of the Sugar Beet Company more favourable on the one year, than the three year contract.

John Kincaid, Peterborough, shipped 50 bags of potatoes here, which were bought up very rapidly, being good for the table and excellent for seed.

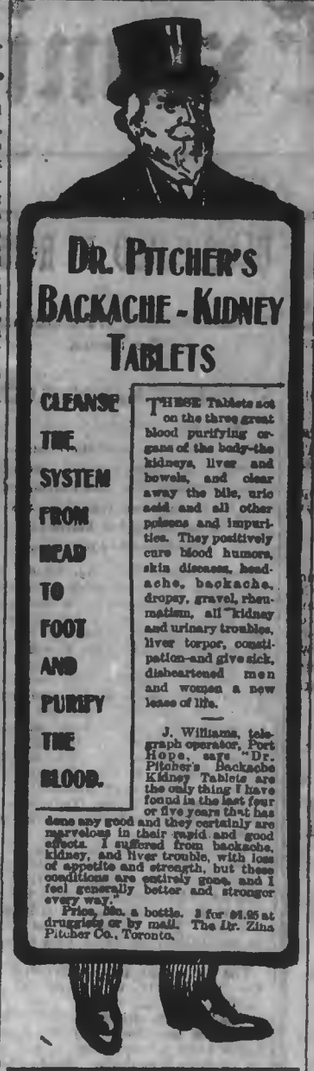
Mr. Cobb, Peterborough, merchant tailor, has visited this place regularly and is doing a fair share of business.

The Public Library concert, to be held on Monday, April 13th, promises to be a very attractive and interesting event. Choruses from the best operas, by 25 voices and other attractions.

Mr. Beatty, proprietor of the Commercial House, promises to fill the bill acceptably and up-to-date.

Large shipments of stock were made to the West from here this week.

To Cure Grip in 2 Days Take Laxative Bromo Quinine Tablets *E. W. Grove* on every box. 25c



DR. PITCHER'S
BACKACHE-KIDNEY
TABLETS
CLEANSE THE SYSTEM FROM HEAD TO FOOT AND PURIFY THE BLOOD.
THESE Tablets act on the three great blood purifying organs of the body—the kidneys, liver and bowels, and clear away the bile, uric acid and all other poisons and impurities. They positively cure blood humors, skin diseases, headache, backache, dropsy, gravel, rheumatism, all kidney and urinary troubles, liver torpor, constipation—and give sick, disheartened men and women a new lease of life.
J. Williams, telegraph operator, Port Hope, says "Dr. Pitcher's Backache Kidney Tablets are the only thing I have found in the last four or five years that has done any good and they certainly are marvelous in their rapid and good effects. I suffered from backache, kidney, and liver trouble, with loss of appetite and strength, but these conditions are entirely gone, and I feel generally better and stronger every way."
Price, 50c. a bottle. 3 for $1.25 at druggists or by mail. The Dr. Zina Pitcher Co., Toronto.

COLLAPSE OF ALLEGED ONTARIO GOLD MINES.

Suit Entered Against the Promoter—The Plaintiffs Charge Fraud and Other Unlawful Acts.

A despatch from Buffalo says:—"Sensational papers were filed in the County Clerk's office this afternoon in an action brought by the Dog Cabin Gold & Copper Company against Frederick C. Fisk, Bertha C. Fisk and Chas. A. Slack. The suit is brought to recover $26,100 from Fisk, some property in Williamsville, N. Y., and whatever shares he and the other two defendants held in the company. The stockholders of the company claim they have been fraudulently dealt with by Fisk in the purchase of seven hundred acres of land in Ontario, the land being represented to them by Fisk as being valuable gold mining property. They now claim that the property is worthless and that Fisk made false assays concerning the alleged vein of gold in the property, and that he filed American five-dollar pieces for the purpose of sprinkling the bits among the rocks to deceive the stockholders. Fisk and one Emma E. Sinborn formed the company, which was capitalized at 3,000,000 shares of the par value of $1 each. The company then purchased the land from Fisk and gave in return 250,000 shares of stock in the company and $7,500. Later $18,600 was given to him to improve and develop the worthless land, but it is claimed that he converted a portion to his own use."

It is generally believed here that the above item refers to a company that has certain claims in the northern part of Peterborough County.

JUST WHAT YOU NEED.

Chamberlain's Stomach and Liver Tablets.

When you feel dull after eating.
When you have no appetite.
When you have a bad taste in the mouth.
When your liver is torpid.
When your bowels are constipated.
When you have a headache.
When you feel bilious.

They will improve your appetite, cleanse and invigorate your stomach, and regulate your liver and bowels. For sale by all druggists.

King Edward at Gibraltar.

Gibraltar, April 9.—King Edward arrived here yesterday from Lisbon on board the Royal yacht Victoria and Albert. The ships dressed, manned sides and saluted. The King, who wore a Field Marshal's uniform, and his suite landed later in the day. His Majesty was received by the Governor and by the naval and military staffs while royal salutes were fired. A procession was formed and the King drove through the streets, which were lined with soldiers and cheering crowds, to the Neutral Ground, and on returning went to Government House.

Kansas For Prohibition.

Topeka, Kan., April 9.—Returns from all the towns in Kansas, which held elections Tuesday, discloses the fact that the vote in favor of enforcing the prohibition law is the most overwhelming in the history of the State. Only six towns of any importance in the State voted in favor of a Liberal policy toward the saloons.

Is Field Marshal Now.

Gibraltar, April 9.—King Edward was present last night at a state banquet given by Sir George Stuart White, the Governor of Gibraltar and the defender of Ladysmith during the South African war. During the banquet the King announced that he had promoted Sir George White to the rank of Field Marshal.

How Beaver Line Was Acquired.

London, April 9.—Sir Alfred Jones says that the sale of the Beaver Line was not voluntary. They were compelled to dispose by the C.P.R. threatening competition. Sir Alfred believes that the C.P.R. will force the Allans off the route.

IN THE PUBLIC EYE.

Persons With Claim to Distinction Mentioned in Despatches.

Copenhagen—King Christian Wednesday celebrated his 85th birthday in the best of health and was the recipient of very many congratulations and gifts.

Columbia, S. C.—The trial of former Lieut.-Governor Tillman for the shooting of Editor Gonzales has been adjourned until July.

Chicago—The will of the late Gustavus F. Swift shows an estate valued at $12,200,000, of which $250,000 is donated to charity.

London—The Daily Mail correspondent at Copenhagen says there are good reasons to believe that Emperor William of Germany will shortly visit Paris.

Cleveland—Nicholas Bartlett, local treasurer and assistant secretary of the Lake Shore and Michigan Southern Railway, is dead, aged 81. He was in its service over 50 years.

London—The British Government has ordered four battleships from the Channel Squadron to assist in the reception to President Loubet of France at Algiers.

Cinabar, Mont.—President Roosevelt is in Yellowstone Park, and for the next 16 days expects to enjoy complete rest and cessation from public duties. Every trail leading into the reserve will be closely guarded, and no one will be allowed to disturb the President's solitude.

Copenhagen—It is said that Emperor William's marked attention to her father, King Christian, went a long way to overcome the strong antipathy hitherto displayed by the Dowager Empress of Russia towards Germany, a result much desired in order to secure a better understanding between the two countries.

Will Come to Canada.

Dijon, France, April 9.—A large establishment of the Dominicans here has been closed, and the members are leaving for Canada. A sympathetic crowd of people saw the party off yesterday. The Father Superior made a farewell speech.

Disease Stamped Out.

Boston, Mass., April 9.—According to Dr. Bennett, agent of the United States Bureau of Animal Industry, the foot and mouth disease has now been practically stamped out in Massachusetts.

To Increase Your Weight.

If you are thin, weak and emaciated and want to increase your flesh and weight you should try Dr. Chase's Nerve Food. You can feel it doing you good from day to day as it strikes at the root of the trouble and creates new rich blood. You can prove that it builds up new tissue if you weigh yourself each week after beginning to use it.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,600,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

TO REFORM THE LAW

Commons Committee to Put Down Bribery and Corruption.

SIR WILFRID'S STATEMENT.

Mr. Charlton's Electoral Purity Bill in Committee — $122,979,165 Paid in Railway Subsidies in the Dominion Since Confederation—Questions Answered—Redistribution Bill and Budget Next Week.

Ottawa, April 9. — Sir Wilfrid Laurier is announced in the House yesterday that a committee of the House will be appointed after Easter to inquire into the whole question of electoral corruption and reform of the election law. This is in accordance with the suggestion made by Mr. Fielding a few days ago, and favorably received by the House. The program announced by the Premier for next week includes the redistribution bill and the budget speech. The House sat for only one hour.

A New Telephone Company.

Mr. Birkett (Ottawa) presented the petition of H. A. Zimmerman, F. Warnke, of Scranton, Pa., and F. J. Leonard of Philadelphia, Pa., praying for an act to incorporate them as "The Canadian Telephone and Telegraph Company, Limited." It is said they have $36,000,000 capital behind them, and if granted incorporation will operate the entire Dominion.

From a petition presented by the St. Mary's River Railway Co. it is gleaned that this western railway wants to extend its lines and enlarge its bonding powers.

Questions and Answers.

Mr. Davis asked—What is the total amount of lands granted in Manitoba and the Northwest Territories to railway companies by way of subsidies to date?

Mr. Blair answered—The total area authorized by Parliament to be granted by way of railway subsidies is 56,067,072 acres. The total area earned on account of construction to date is 29,986,826 acres.

Mr. Davis asked—Were any lands granted by way of subsidies to railway companies since 1896?

Mr. Blair—No.

Mr. Davis asked—What is the total cost (capital account) of the Intercolonial and other Government railways?

Mr. Blair answered—The total cost of the I.C.R. and other Government railways was $60,418,275; of P. E. I., $6,112,646.

Mr. Davis asked—What is the total amount of money paid by the Federal Government as subsidies to railways in each of the following Provinces: Prince Edward Island, New Brunswick, Nova Scotia, Quebec, Ontario, Manitoba, Northwest Territories and British Columbia since Confederation?

Mr. Blair answered—Prince Edward Island, nothing; Nova Scotia, $1,872,000; New Brunswick, $1,292,000; Quebec, $10,091; Ontario, $18,750; Manitoba, $3,259; Northwest Territories, $7,457; British Columbia, $9,682.

Mr. Scott asked—What is the total sum of money which has been paid as subsidies to aid construction of railways in Canada between Lake Superior and the eastern boundary of British Columbia?

Mr. Blair replied—$12,435,341.

Mr. Scott—Was such sum wholly paid on capital account, and if so what is the annual interest charge paid by the Dominion on the amount?

Mr. Blair—Charged as a special item, practically to capital account.

Mr. Scott—What is the total sum paid by the Dominion since Confederation to aid railway construction, including the Canadian Pacific Railway?

Mr. Blair—$132,922,168.

The Minister of the Interior has paid the following sums to the papers in the Yukon: Dawson News $208, Daily Sun $1,832, Klondike Nugget $221, Whitehorse Star $150; total $1,961.

From a return handed down yesterday, it is shown that the immigration agents of Canada in the United States used up $27,000 in expenses last year; $29,000 in salaries, and about $12,000 in traveling expenses. There are 20 agents in the United States.

Transportation Commission.

Sir Wilfrid Laurier informed Mr. Borden that the members of the Transportation Committee have not yet been appointed.

Electoral Corruption.

Mr. Charlton's bill to amend the act respecting the granting of subsidies to railways was read a third time and passed.

Mr. Charlton's bill amending the election act was taken up in committee.

Sir Wilfrid Laurier suggested that it be allowed to stand, as it was the intention of the Government after recess to act on the suggestion that a committee of the House should be appointed to investigate and consider the whole question of electoral corruption and reform of the election laws.

How to Check Corruption.

Mr. Charlton then went on to explain the main clause of his bill, which he thought would prove a check on election corruption. He said that if something was not done to purify elections the sense of the sanctity of the ballot and even of obligation would be dissipated throughout Canada. Legislation should be brought in to stamp out corrupt practices. He favored Mr. Borden's scheme to have a public prosecutor in every riding to watch election cases. This idea might be adopted by the proposed committee. In this way the mockery of saw-offs would be done away with.

Redistribution Bill Next Week.

Sir Wilfrid Laurier said that on Tuesday next he proposed to take up the redistribution bill.

Mr. Borden—That will be quite satisfactory.

The following bills were introduced: Respecting Montreal Fire Insurance Co., La Riviere; to incorporate Brockville and Northwestern Railway Co., Dyment; respecting Niagara Welland Power Co., Guthrie; to incorporate the Dominion of Canada Improvement Co., Campbell; respecting the Dominion Burglary Guarantee Co., Bickerdike; to incorporate Shipping Federation of Canada, Bickerdike. Mr. Charlton's bill re railway subsidies was read a third time and passed. Mr. Bickerdike introduced his bill respecting incorporated companies. It was read a first time.

Mr. Puttee presented his bill to amend the Conciliation Act. He explained it was similar to one that was introduced last session seeking to increase the utility of the Conciliation Act. It was read a first time.

On motion of Sir Wilfrid Laurier the resolution re home rule will be engrossed and sent to the King.

The Cattle Guards.

Mr. Borden asked when the report of the cattle guard commission might be expected to be brought down.

Mr. Blair replied that several tests were yet to be made, but that the report would be forthcoming at an early date.

Exclusive Fishing Rights.

Mr. Lancaster was told that certain parties had got exclusive fishing rights in James' Bay for a rental of $10 a month, on Nov. 28, 1902.

George Clare was informed that Michael Robson, former postmaster of Ayr, has resigned.

Sir Wilfrid told the House that he had received a petition from the Dawson Board of Trade regarding the Treadgold water concessions. He had replied that he could not promise to bring in legislation this session along this line. The whole matter was under consideration by the Government, but nothing definite had been done.

Sir William Mulock answered two questions, put by Dr. Roche, regarding postmasters, who are said to be candidates in the Manitoba elections. Sir William said that if a postmaster was a candidate, he could not draw salary, and would have to resign his Government position.

Jabel Robinson was told that 765,767 bunches of bananas, valued at $788,168, were imported into Canada last year.

The following order of the House was moved by G. D. Grant (North Ontario), and carried: Statement, showing the amount expended each year, since June 30, 1890, on public works of all kinds in Toronto, including Toronto Harbor; showing the nature of each class of work in respect of which such expenditure has been made.

The House adjourned at 4 o'clock.

The Canal Tolls.

The Dominion Mercantile Marine Association presented its case to the Government yesterday morning.

Mr. Blair said he recognized the fact that American ports were getting much Canadian grain, but he was not sure that this was due to the canal tolls imposed in Canada. Altogether he was of the opinion that the troubles complained of should be inquired into, and the real cause of grain going to United States ports discovered. This is a matter for the Transportation Commission, and to it the question must go. When its report is in, it will be time enough for the Government to act.

Fair and warmer on Friday.

The Cat and the Doughnuts.

This is a true story, says a writer, that my grandmother told me about her cat and dog. She used to find the cover off her doughnut jar, and also noticed that her doughnuts disappeared. One day she heard a noise and found that the cat was on the shelf where the doughnuts were kept. Then it put its paw in the jar and drew out a doughnut and pushed it off the shelf, and the dog, who was looking up at the cat, caught the doughnut in his mouth and ate it. When they found they were caught, they acted very guiltily.

Why Frenchmen Are Small.

It is said that the under size of the French and their physical shortcomings as a nation are due for the most part to the heavy drain made upon the race by Napoleon. All the ablebodied men were enrolled in his service, leaving none at domestic or business pursuits except the extremely youthful or the aged. From this drainage of the blood and destruction of the stock of the race France has not yet recovered.

The Vivacious One.

"The word 'vivacious,'" said the cynical codger, "is the polite social term for 'snippy.'"

Vampire Superstitions.

The prevailing belief in European countries was that vampires were the ghosts of suicides or others who had died violent deaths and were forced by the devil to leave their graves at night and feed on the blood of men and women, and any who died at the hands of these dreadful creatures also became vampires. In this way beautiful women became vampires and enticed young men and fed on their blood and flesh. It was believed that they had power to assume any shape or form desired between sunset and sunrise and that they committed most of their awful deeds at midnight. They were powerless in the daytime and were generally in a torpid state. Garlic and wild rosebushes were guards against them, and crucifixes were feared by them. To prevent suicides from becoming vampires they were buried with a stake driven through their hearts, and the straw they had slept on was burned. All the dogs and cats in the village were locked up, for if a dog or cat jumped over a corpse it was sure to become the home of a vampire.—Chicago Tribune.

In the Guestroom.

When a guest is expected for a few days' stay, in preparing the room the thoughtful hostess will have placed a few books within it. If there is no bookshelf in the room, books and magazines should be placed on a low table near the window or at the head of the bed. Many a visitor has gone through a sleepless night of torture in a strange house that would have been relieved had a few good books been near at hand. A candle, with matches, is another thing with which every guest chamber should be equipped. It matters not if the room is furnished with either lamp, gas, electricity or even all three, the candle is a necessity. It, too, should be near at hand at the bedside, that a light may be struck without getting out on the floor.

Medicine For the Hair.

To brush and brush and still to brush is the best medicine for the hair, remembering always that it is the hair and not the scalp which is to receive this treatment. Upon the brush used depends a great deal. In the first place it must be immaculately clean, and one's brushes should be washed as religiously as is one's face. The comb should be coarse, so that it will disentangle the hair if it is snarled, but if the hair is well brushed the comb really is of very little use. A fine comb is never advised. The brush should have long, soft bristles that go through the hair, taking with them every particle of dust and leaving behind them a glow that is beautiful.

Old Laces.

To clean and renovate lace so that it will look like new wash it in wood alcohol. The lace must not be rubbed at all nor doused up and down roughly, as it frequently tears simply from its own weight. The wood alcohol removes all the dirt and stains. When the alcohol is clear and the lace clean, stretch and pin the lace on the ironing board and leave it to dry. It must not be ironed. The effect of this on old discolored laces is remarkable, making them apparently brand new again.

EASTER ATTIRE

Make your preparations for Easter at the City Clothing Store. No matter what you want or how particular your taste, you will find the correct thing at LeBrun's.

Cures Rheumatism!

The Great South American Rheumatism Cure.

Seizes hold of the disease at once and in three days at the outside the wonder is done, quicker in one day. Relief felt at the first spoonful.

Lumbago and Neuralgia flee before it; and it prevents their return.

A bottle of it saves many a dollar and hours of pain, to say nothing of preserving valuable lives.

James A. Anderson, of Calgary, N. W. T., writes:

"Rheumatism crippled me. I remained in the hospital six weeks and was treated by the best physicians without any improvement. I procured a bottle of SOUTH AMERICAN RHEUMATIC CURE. To my delight I got better at once, and I have been working every day since.

The Great South American Nervine tonic sets all the vital organs in order by first healing the nerves. The best cure for any and all affections of stomach, liver, heart, brain. $1

Daily Examiner.

THURSDAY, APRIL 9, 1903.

All Saints'.
In All Saints' church, to-morrow, Good Friday, services will be held at 10.30 and 8 p.m.

St. John's.
There will be service at St. John's at 11 a.m., and 8 p.m. to-morrow. A children's service will be held at 3 p.m.

St. Andrew's.
The sacrament of the Lord's Supper will be observed in St. Andrew's church, Peterborough, April 12th, at 11 a.m. Preparatory service Friday, April 10th, at 8 p.m.

Did you see the fine Easter Calf at Kennedy's Meat Market? It's a beauty. Bring your children to see it.

Preparatory Service at St. Paul's.
Rev. D. D. MacDonald, of Keene, will preach in St. Paul's church to-morrow evening at 8 o'clock in connection with the preparatory service, and the new communicants will be received. The Sacrament of the Lord's Supper will be dispensed on Sunday morning at 11 o'clock.

Granulated Honey.
When extracted honey granulates or gets hard it is the best evidence you have of its purity. We have a very superior quality of clover honey, which is granulated. It is yours at 12c. a pound. E. F. Mason & Co., Lower store, 353 George Street; Upper store, 429 George street. 2d

Beet Sugar Factory.
An official of the Beet Root Sugar Company was premature in stating to the Examiner yesterday, that the option on the Howden property was accepted and the purchase made. The managing director informs us to-day that the company has options on four properties, including the Howden property, in the vicinity of the Locks, and that the question of the purchase of one of these will be decided at an early meeting of the board of directors.

An Easter Treat.
Come with Dr. Marsh, D. Sc., to St. Andrew's church, on Tuesday, April 14th, and see other worlds than ours. Come and see the ice caps and immense cracks in the moon—see the mountain of fire, 4,000 feet high, on the sun; see Saturn with his eight moons. All views obtained by the most celebrated telescopes — the Royal, the Paris, the Yerkes and Johns Hopkins. A night of rare profit and pleasure. Silver collection, 10 cents and upwards. 2d

ORGANIST RESIGNS.

Miss Agar, who has Been Connected with Murray Street Church.

At a quarterly business meeting of the Murray street Baptist church which was held last night, the resignation was received of Miss Agar, as organist of the church. Miss Agar's resignation was accepted with much regret, the following resolution being adopted:—

"That the report of the Music Committee be received, and that the resignation of our organist, Miss Agar, be accepted, the same to take effect, and her duties as organist to cease, on July first, next.

"That we sincerely regret having to accept the resignation, and thereby loss the services of one who has been so devoted to her duties as Miss Agar has been and we desire to place on record our appreciation of the efficient and painstaking services she has so cheerfully and faithfully rendered during the four years she has filled the important and difficult position of organist so acceptably."

FUNERAL OF THE LATE MRS. BARRIE

Took Place Yesterday Afternoon at 3.30 o'clock.

The funeral of the late Mrs. Thos. Barrie, who died on Monday, April 6th, at the residence of her son, Mr. Thomas Barrie, on Gilmour street, took place yesterday afternoon at 3.30 o'clock, to the Little Lake Cemetery. The funeral service was most impressive, and at the Charlotte street church was conducted by Rev. W. J. Jolliffe, Rev. E. Roberts, Lindsay, Rev. Jos. Kilgour, and Rev. Dr. Torrance, while the two first named gentlemen conducted the service at the graveside. Rev. E. Roberts, who has known the deceased for 45 years, preached a most pathetic sermon.

The pallbearers were Messrs. J. L. Hughes, Jos. Batten, Isaac Richardson, James Stevenson, Wm. Aldridge and Charles Miller, while the chief mourners were Messrs. Thos. Barrie, Alex. Hamilton, of Warren, Ont., Geo. Stewart, E. H. D. Hall, M. A. Morrison and J. Deyell, Lindsay, her only brother.

Among the many friends and relatives present was Dr. Jory, of St. Catharines.

The floral offerings from the Ladies' Aid of the Charlotte street Methodist church, and the members and friends of the family were very beautiful and numerous.

Ashburnham's Sewer.
For some years past the residents of Ashburnham have felt the need of an out-fall sewer. Yesterday Dr. Bryce, Secretary of the Provincial Board of Health, visited the village and conferred with the authorities of the municipality regarding the matter. It is likely that the construction of the sewer will be commenced very shortly.

WEDDING BELLS.

Nuptials of Mr. Wm. King and Miss Ipsa Parnell, of Town.

A quiet but pretty wedding took place yesterday afternoon at 2.30 o'clock, at No. 766 George street, the residence of Mr. John Parnell. The contracting parties were Miss Ipsa Parnell and Mr. William King, both of town.

Rev. J. P. Wilson, pastor of the George street Methodist church, officiated.

The bride, who is the eldest daughter of Mr. John Parnell, and who looked very charming, was supported by her sister, Miss Bertha Parnell, while Mr. J. E. Burnham, of Millbrook, acted as groomsman.

There were present at the ceremony Mr. and Mrs. D. King and their daughter, Miss Emily King, of Manilla, Mr. and Mrs. Dan King of Owen Sound, Mr. Neale, of Toronto, Miss J. Nattrass of Millbrook, and Miss J. Pearse of Marmora. Mrs. Fraser played the wedding march.

After the ceremony a very pretty wedding breakfast was served.

The newly wedded couple left the same afternoon on the 5.10 train for western points. The presents received were very numerous, costly, but at the same time, useful.

Their many friends give hearty congratulations to the happy couple and wish them every success for the the future.

WEDDED LAST NIGHT.

Marriage of Miss Emma Maud Gunn to Mr. J. D. Peace.

A quiet but very pretty wedding took place last evening at the residence of Mr. Thomas Gunn, when his daughter, Emma Maud, was united in marriage to Mr. J. D. Peace, of Sault Ste. Marie, and formerly of this town. Rev. J. P. Wilson, officiated, while the bridesmaid was Miss Jessie, sister of the bride. The groom was assisted by Mr. D. H. Hatton.

Mr. and Mrs. Peace left on the G. T. R. train for Toronto, and points west, prior to taking up residence at Sault Ste. Marie, and carry with them the good wishes of a large circle of friends.

WEDDING BELLS.

Nuptials of Mr. W. H. Gordon and Mrs. Edward Campbell.

Last evening at seven o'clock, the residence of Mr. E. H. Menn, No. 502 George street, was the scene of a quiet, but very pretty wedding, at which Rev. Dr. Torrance officiated. The contracting parties were Mrs. Edward Campbell, second daughter of Mrs. Beavis, of Douro, and Mr. Wm. H. Gordon, both of town.

Only the intimate friends of the newly wedded couple were present. Their friends extend their hearty congratulations to the happy couple, and wish them all success during their wedded life.

THE STANLEY COMPANY'S PLANT WAS SOLD.

It Will Likely be Operated on a Larger Scale Than Heretofore.

It is stated that the stock, machinery and plant of the Stanley Piano Company was sold on Monday for the sum of $6,500 to a Toronto gentleman. Mr. A. L. Davis purchased the book debts.

It is understood that the creditors will receive 75 cents on the dollar. Should the banks' claims rank as preferential the creditors will realise 50 cents on the dollar, instead of 75 cents.

The stock and plant were purchased by a Toronto barrister for some Toronto capitalists, and the factory will most likely be operated in Peterborough on a larger scale than heretofore in connection with one of the Toronto firms.

A PETERBOROUGH CITIZEN HONOURED.

Mr. Geo. L. Gowlland Made a Member of Paris Society of Arts and Science.

Mr. Geo. L. Gowlland, of Peterborough, who is the inventor and patentee of an improved electric metre, which measures all kinds of electrical currents, has been made an honourary member of the Society of Arts and Science, of Paris, France, for "electrical invention of specific merit and use to the public."

tion, as, so far, this honour has been tion as so far this honour has been conferred on only four persons on this continent, and Mr. Gowland is the first Canadian to be thus recognised by this Society.

Mr. Gowland's personal friends, as well as the citizens generally, heartily congratulate him and share in his honour for it is a credit not only to himself, but to the town.

DIED LAST NIGHT.

Mrs. Bernard Doris, Succumbs After a Long Illness.

After a lingering illness of two years, Mrs. Doris, wife of the late Bernard Doris, succumbed last night at nine o'clock. The deceased for the last year has been in a very critical state, her life seemingly hanging in the balance. She died at the age of 64 years and leaves a large family of eleven children, four of whom are daughters. Only three children are at present living in town. The funeral will take place to-morrow afternoon at three o'clock, from the family residence, 539 Gilchrist street, to the Roman Catholic cemetery, where the interment will take place.

ST. LUKE'S CHURCH.

Good Friday services will be held as follows: 10.30 a.m., Morning Prayer and Sermon; 3 p.m., Children's service in church; 7.30 p.m., Evensong and sermon. Offerings for the evangelization of the Jews.

The Lord Bishop of the Diocese will administer the Apostolic Rite of Confirmation at St. Luke's, on Friday, June 26th. The rector will be pleased to receive the names of candidates. Classes begin in May.

Kennedy's Meat Market open to-night till 10 p.m. Call and leave your order for Easter dinner. Phone 275.

THE OLD BOARD OF DIRECTORS RE-ELECTED.

Annual Meeting of Peterborough Hockey Club Co.

THE EARNINGS WERE 27%

And the Season was Only Seven Weeks' Duration.

An Enthusiastic Gathering Held in the Council Chamber Last Night—Good Feeling Prevailed.

The annual general meeting of the Peterborough Hockey Club Company Limited, was held last night in the council chamber, when the reports of the various officers were received, and the old board of directors was re-elected for the ensuing year.

The meeting was largely attended, and the utmost of good feeling prevailed, the general spirit manifested being that of gratitude to the directors for their efforts in placing at the disposal of the people of the town so handsome a structure for recreation purposes, and for so successfully managing the concern during the past season.

The receipts from all sources, a detailed statement of which is given below, amounted to $2,502.83. The expenses of running the rink were $553.37, leaving a balance of earnings of $1,949.46, which is equal to 27 per cent. on the capital invested. As this amount was earned in seven weeks time, the result of the first season's business may be said to be highly satisfactory.

SOME WHO WERE THERE.

The chair was occupied by the president of the company, Mr. T. H. G. Denne, and among the many stockholders of the company who were present were: R. B. Martin, F. S. Schneider, J. S. Knapman, E. G. Patterson, F. D. Kerr, Walter Stocker, H. R. H. Kenner, W. A. Sanderson, D. H. Moore, F. O. Fisk, Peter Campbell, J. O'Shea, R. J. Munro, W. G. Morrow, W. H. Hill, C. Rutherford, A. E. Dixon, D. Hall, A. W. McPherson, Harry Thompson, W. H. Bradburn, — Jackson, J. M. Brooks, Alex. Elliott, John Crane, J. W. Garvin, G. W. Hatton, H. Rush, R. H. Leary, Angus McIntyre, Jas. Hamilton, A. L. Davis, J. J. Turner, Dr. Wightman, J. Gibson, R. F. McWilliams, D. Davidson, J. B. Pentland, K. G. Loch, Geo. Edmison, R. H. Kells, and many others.

The chairman called the assembly to order and asked the secretary to read the notice calling the meeting, and also the minutes of the meeting of the shareholders previously held.

The minutes were declared correct and signed by the president.

Mr. Denne said that as president of the company it was a pleasure for him to be present to meet the various season's business and declared that the directors had done all in their power to make the venture a success. He thanked the directors and shareholders in general for their support during the past year.

Before the secretary's report was read, Mr. W. H. Hill moved a resolution endorsing the action of the shareholders at a previous meeting appointing Mr. John Crane as auditor at the sum of $25.

SECRETARY'S REPORT.

The report of the Secretary-Treasurer, Mr. R. H. Kells, was submitted as follows:

PROFIT AND LOSS ACCOUNT.

(Signed) JOHN CRANE, Auditor.

THE NEW DIRECTORS.

The election of the new directors was then proceeded with. The shareholders began to register the number of shares they held, when Mr. G. W. Hatton addressed the chair. He said that he thought it was the general feeling of the shareholders that the old board of directors had been successful in the management of the affairs of the company, and he had much pleasure in moving that they be re-elected.

The announcement was received with great applause.

The motion was seconded by Mr. J. W. Garvin and seconded.

After some little informal discussion the meeting adjourned.

The Board of Directors for the rink are as follows: Messrs. T. H. G. Denne, A. H. Stratton, W. A. Sanderson, W. H. Hill, James Hamilton, H. R. H. Kenner and J. S. Knapman.

THE PETERBOROUGH BOARD OF TRADE

Will Discuss Street Railway and Street Lighting Matters.

A special meeting of the Board of Trade will be held on Tuesday evening, April 14th, in the Town Council Chamber. Among other things will come up for discussion, the matters of street lighting and street railways. These, at the present time are matters of almost vital importance to citizens of Peterborough, and all who take any interest at all in the future welfare of the town should be present. All members are requested to be present.

"THE WATERWAYS OF CANADA."

Subject of Lecture to be Delivered in the Opera House.

Mr. R. B. Rogers, Superintending Engineer of the Trent Valley Canal, who some time ago gave a lecture before the Chamber of Commerce, in Montreal, on "The Waterways of Canada," by special request has been prevailed upon to deliver the same lecture in the opera house on Monday, April 20th. The lecture is an illustrated address, and the Montreal paper, it might be here stated, highly praised Mr. Rogers' work in this regard.

Mr. Rogers has received an invitation, which he has accepted, to lecture at Stratford. It is expected he will do so at any early date.

Is Your Piano in Tune?
The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Rose-Bradshaw Nuptials.
At the George street Methodist church parsonage last night the marriage occurred of Mr. Henry Rose, of Otonabee, to Miss Rachael, daughter of Mr. Thomas Bradshaw, of South Monaghan. The nuptial knot was tied by Rev. J. P. Wilson. The bride was supported by Miss Minnie E. Fair, of South Monaghan, whilst the groom was supported by Mr. Joseph Welsh, of Otonabee.

Foot it Up

See if it pays to buy shoddy shoes. Figure the discomfort, the lack of neat appearance, then ask yourself if it would not have been better to buy The GEO. A. SLATER SHOES for Men and Women.

THE LATEST NEWS OF LOCAL SPORT.

Hockey Clubs Come to the Relief of Rugby Club.

The Canoe Club Meeting—Harriers Defeated the Brownies in Basketball.

At a meeting of the Peterborough Hockey Club, held a few nights ago, the members of that organization made a donation of $25 towards the Peterborough Rugby Club. At a meeting of the T.A.S. Hockey Club executive last night, that body also decided to make a donation towards the funds of the Rugby Club, and accordingly voted the sum of $15. This action on the part of these two clubs [illegible] is commendable, and shows the feeling of good will that exists in Peterborough between the various athletic organizations.

The Rugby Club finished up the season with a deficit of $54 or thereabouts. This financial disparity was no fault of the management of the Rugby Club, or of the members of the team, but may be accounted for by the utter lack of facilities for collecting a gate at matches. It is a well known fact that Peterborough has no suitable athletic grounds where it is possible to collect a fee from those attending. The result is obvious.

The Hockey Clubs of the town are more fortunately situated and the result was that both the Peterborough Club and the T.A.S. Club came out with a handsome balance on the right side. The older club, of course, had much the largest surplus.

On the Peterborough Rugby team and on its management are a number of young men who are connected with the two hockey clubs. They were in a position to know of the financial embarassment of the rugby club and their action in coming forward with substantial donations will only tend to promote that harmony amongst the various athletic organizations which should at all times exist. Long may such good feeling exist.

BASKETBALL.

A very interesting basketball match was played last night in the Y.M.C.A. gymnasium, there being a large number of spectators present. The contesting teams were the Harriers and the Brownies, the former winning by 20 to 15.

The teams were composed as follows:

Harriers — R. Dobbin, W. Richardson, J. Laing, W. Campbell, C. Kemp.

Brownies — A. Boucher, R. Hall, G. Ferguson, G. Milller and A. Hodgson.

Mr. Boucher was unable to play during the first half, and the Brownies played Mr. B. Gillespie during that period. The score at half time was 13 to 3 in favour of the Harriers, but thanks to Mr. A. Boucher's most excellent play, the Brownies scored 12 points to their opponents' 7 during the second half.

* * * *

During the latter part of this week the Brownies are going for a trip to Hamilton and Toranto. On Saturday afternoon they play in Hamilton and on Monday evening with the West-Enders in Toronto.

CRICKET.

A few days ago the Examiner published a letter from Mr. R. G. Harstone, secretary of the Lindsay Cricket Club, to Mr. R. B. Rogers of town, asking that some steps be taken in Peterborough, for the organization of a cricket club, so that a district consisting of Clubs from Barrie, Orillia, Uxbridge and Peterborough, might be made up. In view of all this a meeting has been called for to-night in the Oriental Hotel at eight o'clock. All interested in the game are asked to attend.

CANOEING.

The regular meeting of the Trent Valley Canoe Club was held last night in the Y.M.C.A. parlours. The meeting was a very successful one. Plans regarding regattas, etc., were made and discussed. The prospects of the Club, which now has a membership of 35, look very bright and are deemed so by the executive. A slight change in the officers of the Club was made. Mr. Chas. Whiten was elected secretary, in lieu of Mr. Fred Roy, who has resigned, and Mr. Frank Bradburn was elected assistant secretary and treasurer. All wishing to join the Club may get full information from Mr. C. Whiten.

BASEBALL.

The Lindsay Post says: The secretary of the Lindsay baseball club, is in receipt of a letter from Mr. D. D. Kerr, Secretary of the Cobourg Club, relating to Midland League matters. Mr. Kerr says that both Bowmanville and Cobourg lost money last year by Peterborough being in the league, Cobourg alone losing $30, as Peterborough refused to play return games, and had no money deposited in the league.

* * * *

The Quaker Junior Baseball Team accepts the challenge of the Parkdales. Game to be played on Good Friday afternoon at two o'clock, in the old P.A.A.A. grounds, Asburnham. H. Kingscote, manager.

SOCIAL AND PERSONAL.

Mr. Harry Somes left this morning for Lindsay.

Mr. Lou. Beat of Sarnia, is home for Easter.

Mr. and Mrs. Saulter are visiting friends in town.

Rev. George Yule of Bethany, was in town to-day.

Miss Ada Melville has gone to Ottawa for the holidays.

Mr. Arthur Wilson, of town, is spending Easter with his parents at Barrie.

Miss A. J. Berry has gone to Millbrooke for Easter, visiting friends there.

Miss Edith Mason of Campbellford, is the guest of Mrs. W. Peters, Reid street.

Mr. Lorne Bain left to-day for Toronto, where he intends spending a few days.

Miss Lillian Moore is home from St. Margaret's College for her Easter holidays.

Miss Aileen Fair has returned from her college studies for her Easter holidays.

Miss Effie Joyce of Campbellford, is a guest of Mrs. Waterman, McDonel street.

Mrs. H. G. Fitzgerald, and Master Donald, of Lakefield, are visiting in Ashburnham.

Miss Rose Devine, of Delora, is spending Faster the guest of her brother, Mr. D. J. Devine.

Mrs. J. G. Potter left for Kingston this morning and will spend Easter with friends there.

Mrs. R. Hicks and her sister, Miss Monzies, leave this evening to spend Easter with friends in Orillia.

Mr. Wm. Scott and Miss Lizzie Scott, of Ashburnham, are visiting with Dr. Andrew Scott, London.

Miss Mary Elliott, daughter of Mr. George E. Elliott, is home from Havergal College, Toronto, for the Easter holidays.

Mr. Fred J. Davidson, traveller for Messrs. J. J. Turner & Sons, has returned from an extended business trip to Western Canada.

Mr Eugene Hurtubise, the well known scrimmager of the Peterborough Rugby Club, has left town to reside in Niagara Falls.

Mrs. W. F. Wright, who has been with her parents, Mr. and Mrs. Jos. Jones, for the past six months, returned to her home in Toronto today with Mr. Wright.

Mr. George McCrae, late foreman of the Canadian General Electric Company's machine shop, has accepted the position of General Superintendent of the Goold, Shapley & Muir Co., Brantford, Ont.

Mrs. C. B. McAllister leaves today for Renfrew to spend Easter with her parents. Mr. McAllister will join her on Saturday and on Monday they will return with their children, who have been in Renfrew for the past two months on account of the prevalence of fever in town.

The Lindsay Post says: — Capt. Lane left town this morning for Peterborough. He has again been offered the command of the fine steamer, City of Peterborough, on more advantageous terms than last season and the privileges of engaging his own crew, but his acceptance is doubtful owing to the serious illness of Mrs. Lane.

The Norwood Register of last week, contained the following item in reference to Mr. J. R. Taylor, a young man well known in town:— We notice by the Guelph Mercury that Mr. J. R. Taylor, who is attending the Agricultural College, carried off the second prize at the public speaking contest, open to all the College students. Mr. Taylor is a graduate of the Norwood High and Model School. Congratulations, Roy.

Easeboll Goods at Salisbury's.

NEWS NUGGETS.

—St. John's choir will rehearse tonight at 8 p.m. sharp.

—Messrs. Gough Bros. have a new sign outside their shop.

—The Committee of the Whole Council will meet this evening.

—No. 2 Company, Church Boys' Brigade, will meet this evening at 7.30.

—The barbers' shops will be closed all day to-morrow, it being Good Friday.

—To-morrow being a holiday, Good Friday, there will be no issue of the Examiner.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 199.

—Mr. and Mrs. Killen-Keough will sing at both services in Charlotte street Methodist church on Sunday.

—The Board of Works to-day made an inspection of the streets. The Board kept up its name to-day, at least.

—Service will be held in the George street Methodist church tomorrow morning, Good Friday, at 11 o'clock.

—On and after the first of May, all able-bodied men who work for the City of Belleville will receive $1.35 per day.

—As to-night will be the last rehearsal of Easter music of the Charlotte street choir, every member is requested to be present at 7.45 sharp.

—Recruits for No. 8 Company will be able to procure uniforms from A. W. McPherson, Lieut. commanding H Company, to-night at the drill shed, between 7 and 8.

—The members of the Young Men's Guild of St. Andrew's church are showing signs of reform. They have decided to quit "bowling." They purpose playing baseball.

—The American Cereal Company is still busily engaged burning the large heap of saw dust on the west bank of the river. The big pile is gradually disappearing.

—The Charlotte street choir will be assisted at both services Easter Sunday by Mr. and Mrs. Killin-Keough, of New York, who gave such a delightful concert in the Y.M.C.A. Hall last week.

—The Fraser Mission Band of St. Paul's Church, intend having an entertainment on Thursday evening, April 16th, in the Sunday school room of the church. They will present "The Story of Kardoo," a service of song.

—Rev. George Yule, of Springville and Bethany, conducted the service at St. Paul's Mission last evening, taking for his subject "The Temptations of Christ." Mr. Yule is always a welcome visitor in Peterborough churches.

—On Saturday Mr. D. Black shipped a carload of 220 hogs from this station to Montreal. They were bought at $6.25, but last week the market dropped to $5.75. Mr. Ed. McManaman shipped 200 hogs on Tuesday, to Peterborough. — Campbellford Herald.

See Kennedy's display of Easter Neats.

SOME GAMEY DOCUMENTS DEFICIENT.

Vaunted Shorthand Story Incomplete.

MAIL ADMITS ITS WEAKNESS

Not, as Alleged, a Verbatim Report of the Piano Office Conversation.

When Mr. Gamey made his statement in the House, it was made under circumstances and in a manner calculated on his part and on the part of those working with him to have as sensational an effect as possible—to assert and protest as much as possible in order to produce effects by vigour of asseveration, independently of the value of his statement as evidence of the truthfulness of his charges when submitted to rigid examination and scrutiny. His statement in regard to the conversation in the piano factory on March 10th, in respect of which he asserted so confidently that the conversation with Sullivan, had been taken down in shorthand by three expert shorthand writers, containing terrible details of the doings of the Liberals in regard to the alleged distribution of election funds, seemed a case of protesting too much. It was reasonable to suppose on the part of anybody with the slightest knowledge of the difficulties of shorthand reporting under the most favourable circumstances by the most expert operators, that there was little dependence to be placed upon the accuracy and completeness of a report taken under the circumstances stated by Mr. Gamey—by amateur shorthanders, lying down in semi-darkness and the questions and answers of the conversation made and given with the rapidity of colloquial intercourse. This seems to be borne out by the facts, disclosed upon opening the sealed package purporting to be the same as that handed by Mr. Gamey to Mr. Whitney with so much dramatic flourish in the House. In place of a complete transcription of the alleged shorthand notes of the alleged piano warehouse conversation there was found only a joint memorandum of the three alleged shorthand writers which does not give their names and does not pretend to be word-for-word. The following from the Mail and Empire in regard to the "piano office conversation" is apparently an apology for the weakness of this "shorthand" sensation as evidence. The Mail and Empire says:

THE PIANO OFFICE CONVERSATION.

"Another enclosure in the package which is productive of considerable curiosity on the part of the public, because of the fact of its precise contents have never been made public, is a memorandum of the conversation between Frank Sullivan and Mr. Gamey in the Crossin piano factory, on Adelaide street, on the evening of March 10th, the night immediately preceding Mr. Gamey's startling disclosure in the House. This conversation was overheard by three law students concealed by Mr. Gamey's direction, behind pianos in the room.

The memorandum, according to a statement made yesterday afternoon by counsel for the defence, is not a verbatim extension of shorthand notes of the conversation, but is merely a summary, giving the gist of the conversation. Counsel making the statement would not vouchsafe further information about this document, save to say that it was but an elaboration of the description given of it by Mr. Gamey in his statement.

Mr. Gamey in telling the Legislature of this conversation, and the record made of it, said:

I arranged for Sullivan to meet me on the evening of Tuesday, March 10th, in the office of the Crossin Piano Manufacturing Co., 102 West Adelaide Street, at 7.30 o'clock. I went and saw three young men, shorthand writers, who are in the city from Gore Bay, that I could trust, and arranged with them to come to the same place before seven o'clock p.m. There were four finished pianos in the office. Those we placed in such a manner that the three men could lie behind them and hear anyone talking distinctly in the office. I then met Frank Sullivan at the door on the street about 8 o'clock p.m., and we went up to the office and lit a light and discussed the whole affair. A number of questions were asked by me, and the questions and answers were distinctly overheard. I asked him questions about Stratton, about the whole Cabinet, about the bye-election work in the three Norths, and we have the answers taken down by these three men. I asked him all about the money, who handled it from Stratton to us, and about everything connected with the transaction.

It is readily understood that it would be a difficult matter for even the most expert stenographer to take notes in a recumbent position, in semi-darkness, as the notes of this conservation are said to have been taken, and this probably accounts for the fact that only a summary, and not a verbatim report, of the conversation has been made."

PORT HOPE DANCE

Under the Auspices of the Ontario Hockey Club.

The Port Hope hockey club has issued invitations for a dance to be given under the auspices of the club in the town hall of Port Hope, on Monday, April 13th. The affair promises to be one of unusual pleasure. The patronesses of the dance are Mrs. H. A. Ward, Mrs. (Dr.) L. B. Powers, Mrs. Ralston, Mrs. E. J. W. Burton, Mrs. F. J. Brown, and Mrs. Passmore.

The officers of the club whose names appear on the invitations are Messrs. G. H. Ralston, George N. Giddy and Fred L. Curtis. A number of invitations have been received by Peterborough young men, and not a few of them will be accepted.

A TRAGEDY IS RECALLED.

Loss of Schooner Speedy in 1804.

The Last Vessel Sent out by the Government for Witnesses Went to the Bottom.

The sending of the government boat to Manitoulin for witnesses and others engaged in the Gamey investigation, recalls the tragedy that destroyed the last vessel sent out on such a mission by the Government. That was the schooner Speedy, whose bulk lies at the bottom of Lake Ontario, somewhere off Presque Island. Not only the witnesses but the court officials perished. This occurred in 1804, when Toronto was known as York. An Indian had murdered John Sharp, of the Queen's Rangers, and a commission consisting of Judge Cochrane, General Gray, Angus McDonald, member of the House of Assembly, was sent by the Government to Newcastle district to attend the trial. While off Presque Isle the vessel foundered in a severe gale and went down with the twenty souls on board, including the Indian charged with murder, who was held a prisoner. Nine of the men were married and some had large families.

Easter Cards and Novelties

We invite inspection of the beautiful collection of Easter remembrances, all priced interestingly low. Easter Cards and Booklets in artistic designs. Easter novelties in hand-painted and silk-covered Easter eggs. Also cut palms for Easter flowers, etc. At the Peterborough Bookstore. Souvenirs of Peterborough in booklet form. A. H. Stratton & Co.

The Beehive

"Whatever We Do, We Do It Well."

EASTER BRIC-A-BRAC

Our stock of Belts, Collars, Cape Collars, Ruffs, Kid Gloves and all those little but very necessary accessories to a lady's wardrobe is very complete.

KID GLOVES

Our Gloves are well assorted in Black and White and all the most desirable shades—at **75c, $1.00, $1.25,** etc. All Gloves at $1.00 and over are guaranteed.

COLLARS

See our new up-to-date shapes in Linen Collars. We have a most complete stock of Fancy Collars in all the newest shades and make ups. These run in all prices at **25c, 50c, 75c, $1.00, $1.25, $1.50.** See our Chiffon Collar trimmed with velvet ribbon. It is very pretty at **75c.**

HANDKERCHIEFS

Our assortment of Handkerchiefs in silk, fine linen and fancies, is very interesting to look over. They run from **5c, 10c, 15c, 25c, 35c, 50c,** etc.

ECZEMA AND INSOMNIA

Besides Eczema Mr. James Bushby, of Toronto, Was Troubled With Insomnia and Became a Very Sick Man.

His Pastor Advised Powley's Liquified Ozone—In a Few Days He Felt Better and Was Soon Entirely Cured.

For nine months I was afflicted with a disease that seemed to baffle the skill of three doctors, for I took their medicine but got no relief. I was troubled with an itching and a rash that appeared three or four times every week. The more I scratched the more I itched, until sometimes I almost became insane. It was confined to no particular spot, but occurred all over my body. I could not work. I was reduced in flesh from 145 pounds to 124 pounds. I became weak and pale and was physically miserable. I was told that I was in an anaemic condition.

My pastor, the Rev. G. L. Powell, B.A., advised me to try Powley's Liquified Ozone. I acted on his advice, purchased a bottle, and in a very few days began to feel better. I am now in excellent physical condition. The itching and rash have disappeared long ago.

Since taking Ozone I have gained 16 pounds; I now weigh 140 pounds.

I shall be pleased to answer any inquiries that may be made regarding my condition.

(Signed) JAS. BUSHBY,
447 King St. East, Toronto.

Ozone Cures by Destroying the Disease Germs.

The cleansing and purifying powers of Powley's Liquified Ozone are exemplified in no disease to better advantage than in a case of Eczema. The germs that cause the trouble are attacked and soon destroyed, when the eruptions gradually disappear and the skin becomes as clean and smooth as that of a baby. This has been proven so often in the worst possible cases that there is no doubt about it. Mr. Bushby's case is simply one among hundreds. Powley's Liquified Ozone is sold by all first-class druggists at 50 cents and $1.00 per bottle.

A Box of Powley's Ozone Ointment FREE

Powley's Ozone Ointment is especially recommended in cases of Eczema and other skin diseases for use in connection with Powley's Liquified Ozone. For external application this ointment is superior to Liquified Ozone because it holds the Ozone in contact with the diseased parts for hours, destroying all outside germs. So certain are we that Powley's Ozone Ointment used in connection with Powley's Liquified Ozone will cure the very worst case of Eczema or any other skin or blood disease that we will mail free a regular fifty cent box of this ointment to any person who will cut out and mail to us the following coupon:

This Coupon Is Worth 50 Cents.

I am afflicted with .....

Name of disease.

and if you will mail me a fifty cent box of Powley's Ozone Ointment free I will agree to give it a fair trial in connection with Powley's Liquified Ozone.

Write your name plainly.

Street and number.

Town and Province. 51

With every free box of Powley's Ozone Ointment will be sent a booklet giving accounts of other cases, with special information bearing on your own case. Return this coupon to-day; it may not appear again. Under no circumstances will Ointment be sent without coupon.

OXYGENIZED WATER.

A Simple and Painless Method of Destroying Superfluous Hair.

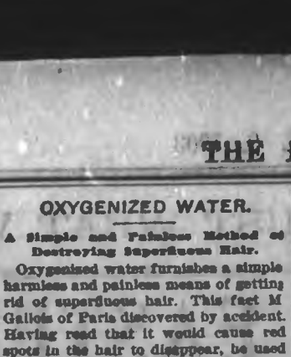
Oxygenized water furnishes a simple harmless and painless means of getting rid of superfluous hair. This fact M Gallois of Paris discovered by accident. Having read that it would cause red spots in the hair to disappear, he used it for that purpose. The result was that he found it also destroyed the hair. Moreover, it has long been known that oxygenated water applied to the hair changes the color into the venetian tint so much admired.

Here is M. Gallois' method, which is extremely simple: He saturates a pad of cotton with oxygenated water and applies it to the part which he wishes to deprive of hair, leaving it there for several minutes. He renews the application daily until the desired result is obtained. Suppose, for instance, it is the hair on the upper lip that is in question. The hair quickly loses its color and becomes a mere colorless down, absolutely imperceptible. If the applications are continued, the hair becomes attenuated, breaks off and disappears.

The method is painless and has no ill result. The only inconvenience is that the hair is not absolutely destroyed and that the application of oxygenized water will have to be recommenced. But as far as women are concerned the applications are not complicated. They merely constitute an addition to the artifices of the toilet. There is only one precaution to be taken. The oxygenized water must not be allowed to moisten any stuff to which value is attached, for it destroys tissues as well as burns hair.—European Edition New York Herald.

A Clever Key Locker.

Many a timid person may be glad to learn of a simple device which any handy man about the house can make in a few moments—an old device, but a good one, to prevent any burglar from turning a key by means of nippers inserted in the keyhole while he is standing outside the door. It is of simple construction, and it can be carried when one is traveling and obliged to sleep in strange places. A piece of stout wire about ten inches long is bent into the shape of a hairpin. When the door is locked for the night the key is turned as far as it will go and the wire hung over the neck of the doorknob, one end being thrust through the handle of the key, as shown here.—Ladies' Home Journal.



SOMETHING TO BOTHER BURGLARS.

Have the Nursery Bright.

Babies are quick to notice beauty. It need not be of the highest artistic type, but a bright carpet, some pictures representing events in child life, a sunny room where the furniture is whole and clean—in fact, a bright and cheerful nursery will leave its pleasant impression on the childish mind long after the occupant has passed through its portals to do battle with the great world lying beyond and will be the cornerstone of many pleasant memories, whereas the many prisonlike dens which pass for nurseries will never be thought of save with feelings of dislike, for first impressions even in small children are the ones to last the longest, and the early surroundings are bound to make their mark on the minds that are at that time in their most receptive state.

"Scientific Shirking."

The woman who does her own work should learn how to shirk scientifically. This does not mean that she should neglect work which should by rights be done or that she should do it in a slovenly way, but that there are times when every housekeeper must choose what shall be crowded out, her rest, her chance to read a little to keep in touch with what is going on in the world, says Christine Herrick, or the laborious and unnecessarily thorough accomplishment of an insignificant task. In that case she should unhesitatingly decide that the latter is of less importance and let it go to the wall.

Sleeping In Lighted Rooms.

Among the most pernicious habits of foolishly tender mothers is that of keeping a light in the room in which little children are supposed to be trying to go to sleep for the night. It is true that there may be now and then an abnormally timid or nervous child for whom a light at such a time is a necessity, but the vast majority of infants are readily accustomed to going to sleep in the dark, and the habit once formed need not be broken over unless illness intervenes to overthrow all rules and routine.

Boiling Water.

When water has once been made to boil, the fire may be very much lessened, as but little heat is required to keep it at the boiling point. There is no advantage whatever in making water boil furiously, for it is not in the slightest degree better than when merely simmering, as all the extra heat given to boiling water goes off in the steam without raising the heat in the slightest degree.

The Candle Fish.

One of the piscatorial curiosities of the north Pacific coast, especially plentiful along the shores of British Columbia, is the fish known to Indians, whites and half breeds as the "candle fish." To the scientists he is the eulachon (Thaleichthys pacificus), and is highly esteemed for two reasons. The fish itself is about fourteen inches long, resembles the smelt in general appearances and is caught in large quantities by west coast fishermen during the months of February, March and April. It is the fattest of all fishes, for which reason large numbers of them are dried and smoked to be used as a warming food during the long rigorous winters so common in that region.

Large numbers of them are also run through crude presses, which extract the oil. This is preserved in skin bags and used much in the same manner as whale's blubber is used by the Eskimos. This "candle fish" gets its common name from the fact that when dried it burns with a bright white flame until entirely consumed. It is much used by the "coasters" both of Columbia and Alaska, either with or without a wick passed through its body.

An Ancient Colt.

One of Mrs. Grant's favorite stories was of an experience in camp somewhere in the Adirondacks, when her husband, then president for the first term, wanted to get away from Washington officialdom. Mrs. Grant was bothered about the washing. A guide recommended a woman who had seen better days, who lived a little way down the lake. Mrs. Grant engaged her. Two days afterward she saw a scene that, as she expressed it, reminded her of "Elaine." It was her washerwoman paddling in a dugout behind a heap of snowy linen.

"Less 'n a year ago," said the woman apologetically, "I wouldn't had to 'a' used the boat. I brung it by the colt. But one day he jes' got colic or somethin' and rolled over on the grass and died. My, how we miss that colt! We'd had him for twenty years."

Another Tender-Heart.

Clara—Going in for charity again, are you? What is it this time?

Dora—We are going to distribute cheap copies of Beethoven's symphonies among the poor. Music is such an aid to digestion, you know!

One Advantage.

Mrs. Ringsley—You say you like colored servants better than white because they are slower. How is that?

Mrs. Bingo—It takes them longer to leave.—Town and Country.

Even absurdity has a champion to defend it, for error is always talkative —Goldsmith.

"I feel as young now, at thirty, as I did at eighteen years of age."

That is part of the statement of one woman, mother of six children, who found new life by the use of Dr. Pierce's Favorite Prescription. It is not the ordinary cares of the family, nor the natural obligations of motherhood, which make women prematurely old. But it is the womanly diseases, draining away the vitality, and undermining the strength, which take the roundness and suppleness from the form, the bloom from the cheek and the brightness from the eye.

Dr. Pierce's Favorite Prescription cures those womanly diseases which rob women of youth and beauty. It establishes regularity, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well. It brings back to the mother the lightheartedness of her bridal day. This is the testimony of thousands of women who have renewed their youth by the use of "Favorite Prescription."

"For four years I suffered untold agony," writes Mrs. E. A. Nations, of White Springs, Searcy Co., Arkansas. "Sometimes I would get some better and think I would get well, only to wake up some morning not able to rise. In my hips and around lower parts of abdomen was where I suffered the most, and when the pain would give way it scattered all over me and I would be so sore and stiff I could scarcely move. My husband got the best doctor in the country to attend me, but I did not improve any. Finally I told my husband that I was going to try Dr. Pierce's medicines. By the time I had taken one bottle of 'Favorite Prescription' I could notice a little improvement. Dr. Pierce advised me to take 'Golden Medical Discovery' in connection with the 'Favorite Prescription.' By the time I had taking five bottles of 'Favorite Prescription' and four of the 'Golden Medical Discovery,' I was well. That was two years ago this summer. I felt well until I expected to become a mother, then a threatened miscarriage greatly weakened me, and my old disease returned. My husband got another doctor for me, but I seemed to just drag along and get no better. At last I told the doctor that if his medicine did not help me I would go back to Dr. Pierce's medicines. I did so, and by the time I had taken them one month I could do my own housework, except washing, and tended my garden, too. I was stouter than I had ever been while waiting baby's coming since my first baby came (this one was the fifth child). She is now eleven months old, and is a healthy child. As for me, I feel as young now, at thirty, as I did at eighteen years of age."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

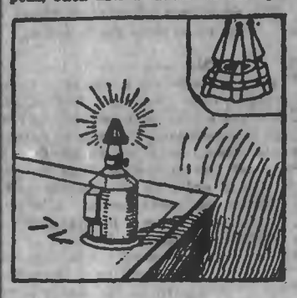
FOR YEUNG FOLKS

LIKE AN ELECTRIC LIGHT.

How You May Make This Glowing Lamp With Burned Matches.

When you burn a wooden match, you find that there remains a little quantity of white ashes, which reddens with great ease if you blow on it. Fix some of these ashes on the points of four ordinary pens and attach them around an ordinary cork pierced in the center by a hole.

If you find any difficulty in making the ashes stick to the points of the pens, stick half a match on each pen



THE MATCH LAMP.

point and let each match burn down. Carefully place the cork thus equipped on a little lamp filled with mineral oil, so that the wick of the lamp passes through the hole in the cork.

Now light the lamp and keep the wick well lowered, so that it gives only an almost imperceptible blue flame, and you will see the ashes or the matches, by incandescence, take on a magnificent blush, and for a moment the light will be almost as strong as that of the ordinary electric lamp.

To Make an Aolian Harp.

This instrument can be made by almost any ingenious boy. It consists of a long, narrow box of very thin wood about five or six inches deep, with a circle in the middle of the upper side an inch and a half in diameter, in which are to be drilled small holes. In this side seven, ten or more strings of very fine gut are stretched over the bridges at each end, like the bridges of a fiddle, and screwed up or relaxed with screw pins.

The strings should all be tuned to the same note and the instrument placed in some current of air where the wind can pass over its strings with freedom. A window the width of which is equal to the length of the harp, with the sash just raised to give the air admission, is a proper situation. When the air blows upon the strings of the harp with different degrees of force, it will excite different degrees of sound. Sometimes the blast brings out all the tones in full concert, and sometimes it sinks to the softest murmurs.

With Aid of Electricity.

On a dry day rub with a brush or with the hand a thin piece of paper. It will become electrified in a short time and adhere to your hand, your face or your coat as if it had glue on it, and you will not be able to get rid of it.

Electrify in the same manner a thick piece of paper, a postal card, for example, and you will see that, as with sealing wax, glass, sulphur or resin, this card can attract light bodies—small pieces of cork, etc. Balance a cane on the back of a chair and wager any one in the audience that you will make it fall without touching it, blowing on it or moving the chair.

All you need do is to dry the card well before the fire, rub it vigorously with your sleeve and put it close to one end of the cane, which will follow it as iron follows a magnet, until, having lost its equilibrium, the cane will fall to the floor.

Pickled Chickens.

A party of visitors to the country were very much interested last summer by the remarks of some children sent out by the fresh air fund for a day in the country. There were quite a number of them playing about a pretty farmhouse one day when some passerby stopped and began to talk to them.

"Did you ever seen any chickens before?" asked one lady as a flock of fowls came strutting down the lawn.

"Oh, yes," said one of the oldest wisely, with a knowing shake of his head, "we've always seen 'em—lots—only generally it was after they was peeled."

Guessing the Number.

Tell some one to think of any number he likes, but not to tell you what it is. Tell him then to double it. When he has done that, let him add an even number to it, which you must give him. After doing this he must halve the whole, then from what is left take away the number he first thought of. When this is completed, if he has counted correctly, you will be able to give him the exact remainder, which will simply be the half of the even number you told him to add to his own.

The Sleepy Man.

"Nurse says the sleepy man
Is coming. Let us run
And watch him through the keyhole;
'Twill be such glorious fun."

So they softly crept to the playroom,
Little Ted and blue eyed Nan,
And waited long and patiently
To see the sleepy man.

At last it came their bedtime,
And nurse looked all around
For Baby Nan and Little Ted,
But neither could be found.

So then she sought the playroom,
And, lo, behind the door,
The sleepy man had caught them both
And laid them on the floor.

—Presbyterian.

English Sweet Sauce.

To make English sweet sauce put yolks of four eggs and half a cupful of sugar in saucepan and beat until lemon colored. Add a cupful of sweet cream, beating it in gradually, then grate in rind of orange; set over pan of boiling water and stir and cook until it thickens. Remove and strain through a sieve.

LOOKIN' BACK.

By Moira O'Neill.

Wathers o' Moyle an' the white gulls flyin'
Since I was near ye what have I seen?
Deep, green seas, an' a stirrong wind sighin'
Night an' day where the waves are green,
"Struthe na Molle," the wind goes a-skirlin'
Over a white o' wathers green.

Sternish an' Trostan, dark wi' heather,
High are the Rockies airy blue;
Sure, ye have snows in the winter weather,
Here they're lyin' the long year through,
Snows are fair in summer weather,
Och, an' the shadows between the blue.

Lone Glen Dun an' the wild glen-flowers,
Little ye know it the prairie is sweet,
Roses for miles, an' redder than ours,
Spring here undher the heroes' feet—
Aye, an' the black-eyed gold sunflowers;
Not as the glen-flowers smell an' sweet.

Wathers o' Moyle, I hear ye callin',
Clearer for half o' the world between,
Antrim hills an' the wet rain failin',
While ye are nearer than snow tops keen.
Dreams o' the night an' a night wind callin',
What is the half o' the world between?

Sketch of Moira O'Neill.

"Moira O'Neill" is the pen-name of Mrs. Agnes Skrine, known to her intimate friends as "Nesta." She is one of a clever trio of sisters, a poet, while the others are artist and musician. We claimed her for several years as a Canadian, and some of her loveliest songs were written in the vicinity of Pincher Creek, within sight of the Rockies. Evidently the song quoted above had its inspiration in the scenery of our Northwest, which nature has framed on the grand scale, and which must present a profound contrast to the "glens of Antrim." Thither Mrs. Skrine has returned and there she is now living. Her poems have been published chiefly in Blackwood's Magazine and The Spectator. Her poetry is Irish of the Irish—tender, wistful, hovering on the borderland between tears and laughter, and as musical as an old Gaelic melody. It springs straight from life, a genuine growth of the Antrim glens. A small volume of her songs has been published by the Blackwoods.—Pharos, in The Globe.

COULDN'T LIVE

Without Dodd's Dyspepsia Tablets—Mrs. Thos. Board, of Glen Williams, Speaks From Her Own Experience.

"I think I could not live without Dodd's Dyspepsia Tablets." These are the words Mrs. Thomas Board, of Glen Williams, Ont., uses in speaking of the relief she has felt through the use of those Dyspepsia banishers.

Mrs. Board knows what Dyspepsia means through bitter experience. She can tell all about the depression, the discomforts, the aches, the pains that accompany this most distressing of all chronic complaints. That's why she is so enthusiastic over Dodd's Dyspepsia Tablets.

She has proved that Dodd's Dyspepsia Tablets are a specific for all forms of Indigestion and Dyspepsia, a safeguard against the disease itself and consequently against those other terrible and fatal diseases, such as Appendicitis, that medical authorities now declare spring from indigestion.

Mrs. Board has learned the truth of the statement, "If you want to be well, and feel well, you must keep the stomach well." She has learned also that Dodd's Dyspepsia Tablets will keep the stomach well.

Mrs. Board is one of many. You cannot find a dyspeptic who has used Dodd's Dyspepsia Tablets.

A Good Pull.

"How does young Swift manage to uncork so much champagne? He doesn't earn any money."

"Well, he pulls the same cork over and over."

"Why, how do you mean?"

"Has a rich uncle with a cork leg."—Boston Transcript.

Not Without Reason.

Little Girl—The fatted calf.—Boston Christian Register.

Every city should study its own opportunities for beautifying its surroundings and improve them.—Hartford Post.

LAME AND ACHING IN BACK AND LEGS

In Quick Time Mr. Oughtred and his Neighbor Were Cured by Using

DR. CHASE'S KIDNEY-LIVER PILLS.

Constipation, clogged kidneys and sluggish, torpid liver are derangements which usually accompany one another. Because of their direct and combined action on the kidneys, liver and bowels, Dr. Chase's Kidney-Liver Pills are the most prompt and thoroughly effective treatment for these ailments that money will buy. This statement is fully borne out by the letters of recommendation which are daily received at these offices. Here is one:

Mr. J. W. Oughtred, farmer, Marbleton, Wolfe Co., Que., writes: "Dr. Chase's Kidney-Liver Pills deserve to be recommended. I was lame all through my back, legs and arms, and had a continual dull pain in my bowels. Every little thing I did required great effort, I was so sore and lame. I took lots of other pills, but they only made me sick. When haying time came on I had sixty tons of hay to pitch, and felt that I could not possibly do it.

"Just at this time Dr. Chase's Kidney-Liver Pills came to my notice and did me so much good that I worked at the haying and did lots of other hard work with ease. I sent and got five boxes, and gave away one box to a neighbour, who was suffering so badly with backache that he could not do any work. He afterwards told me that they were the best pills he ever used, and is now real well. I found that by taking two a week they kept me feeling well. Other pills give me sick headaches, but Dr. Chase's Kidney-Liver Pills cure sick headache and suit me better than any others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmanson, Bates & Co., Toronto. 11

Boils were so painful could not sleep at night.

APPEARED ON NECK, LEGS AND ARMS.

Burdock Blood Bitters CURED THEM.

It is well-known to all that bad blood is the direct cause of all skin diseases and it is necessary for the blood to be cleansed before the eruptions will disappear. For this purpose there is nothing to equal Burdock Blood Bitters as the thousands of testimonials we have on hand will testify.

Mr. Willard Thompson, McNeill's Mills, P.E.I., writes us as follows: "I wish to state to you what Burdock Blood Bitters has done for me. Some time ago my blood got out of order and many boils appeared on my neck, legs and arms. They were so painful that I could not sleep at night. After having tried many different remedies without any success, I finally decided, on the advice of a friend, to use Burdock Blood Bitters. Before I had quite used two bottles the boils had completely disappeared, and I wish to emphasize the fact that I think Burdock Blood Bitters the best blood purifier on the market to-day."

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest newspaper of its kind. Subscription price, $12 per year, $6 for six months. Sample copy and rate cards sent on application at the Examiner office, Peterborough.

A LOVER OF NATURE.

Sketch of Jean Baptiste Morin, M.P., as He Welcomed the First Spring Day This Year.

It is spring, the first day of genuine, ethereal mildness occurred in Ottawa this year, March 19. But we are all aware of the whimsies of March, remarks H.F.G. in Toronto Star. It is a moot question whether this month came in like a lion or a yellow dog. There's no telling what it may do yet. Spring would be under suspicion if it were not for one salient feature in the landscape. It is not the blue-eyed maiden who has waded through the slush of the Lovers' Walk to a sunny bench where she sits with the ineffable Keats in her lap and happy dreams on her face. No. It is not she. It is the short, chunky figure of Jean Baptist Morin, who stands out there on the crest of the cliff by the stairhead near the pavilion. The sunny-hearted old gentleman from Dorchester is very much in tune with nature. He spent many years in the lumber woods in his young manhood. It was there he laid the foundations of the snug little fortune which he has increased since by honest thrift and kindly shrewdness. A man of substance he, and not a dollar that borrows a blush from conscience. It was in those woods he began to worship nature. It was there he soaked himself with poetic imaginings. It was there, in the solemn pine-scented arcades, that he got that habit of reflection which made him, for the most part, a mute philosopher, but vividly eloquent in the right company.

Uneasy in the House.

Jean Baptiste Morin felt his soul stirring. The House knew it. He was uneasy. He was abstracted. He listened dutifully to all Mr. Tarte said. He greeted all the points with approval. But his thoughts would go a-Maying. His body was chained to that desk, his soul was out doors. It was noticed that he often puffed his cheeks and rumbled out a big irrelevant "Ah!" There were no revelations to prompt it. 'Twas the spirit of Pan speaking in him. It was the inspiration of the green, glad Mother Earth, breathing hard through her son Jean Baptiste Morin. And this fat little deputy from Dorchester responded like an Aeolian harp.

Morin, M.P., knew what was coming. His soul is wide awake. He is abroad early. He seeks his favorite spot, the place where he can get the noblest view in Ontario. And there he stands, sans overcoat, sans rubbers, drinking in the beauties of the valley and the grandeur of the mountains.

His Wonderful Umbrella.

He has sloughed off the coverings of of winter, but he clings to umbrella. He will carry it through the blistering days of July and August. He does not fear the weather. He uses it for a cane. It is a part of him. Long association and the subtle flattery which abides even in inanimate things have moulded the lines of this gamp of Morin to the contour of his own rotund figure. It is tied loosely at the top. It bulges in the middle. It has a backbone like a cudgel—none of your flimsy steel rods for Morin—and the curves of it are short and jolly. It is the other half of Morin. It will be buried with him.

On this wonderful umbrella leans Jean Baptiste Morin. No, he doesn't lean. The rain-stick stands squarely beside him like a good friend. Together these old chums look up the shining river to the tumbling rapids and the misty thunder of the Chaudiere. Together they look down the river, dappled with ice and open water, down past the big bridge, past the blue fleet of barges, to the little village of Gatineau and the tin steeple of the church glistening like fine silver. Together they gaze at the scarred plain where part of Hull used to be before the fire. Together they jump the garish streets that lie between and seize on the purple splendors of the Laurentides. They are fed full with the joy of living. Jean Baptiste Morin draws a deep breath and the umbrella wobbles with sheer emotion.

Smokes Quebec Tobacco.

Morin feels everything, hears everything—the birds churring in the trees, the river gurgling with unborn spates, the hum of cheerful labor, the distinct busy sounds of two cities. He can almost see the grass growing and the leaves peeping. He pulls fiercely at the cherry-wood pipe with the long stem. The coal glows red at the top. The air is burdened with some new, strange perfume. It is not carpet-rags. It is not old shoes. It is not rubbish in cremation. But it is something that reminds us of all these customary spring odors, with a little Cayenne pepper and assafoerida thrown in. That pipe of Morin's is filled with good, robust French-Canadian shag, the kind you buy in ropes and cut off with an axe. And thus and so does Jean Baptiste Morin burn incense to Pan. Spring has come.

Barmaids in Canada.

Archie McPhail, a farmers' delegate from Brandon, who is now in London, said the other day that the English farmers get more out of their land, but that their men and horses were slower. He, however, thought the Canadian horses were inferior to English, but the other cattle were equal. The English farmer is backward in the use of machinery, and what he uses is of inferior quality.

Mr. McPhail was especially struck with the drinking habits in England, especially among women. He thought barmaids beautiful, and considered that their presence in the bar kept men's language correct. He believed that if barmaids were introduced in the West, swearing in barrooms would disappear. On the whole, however, he preferred Canada, because he disliked the snobocracy prevalent in England.

Rheumatism..

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the *cause* of those fearful shooting pains and stiff, aching joints. There is but one sure way—

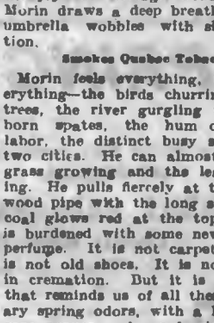
ACCIDENTAL?

The jury returned a verdict of accidental death on the man who fell from the window ledge on which he had fallen asleep. But the death was really due to carelessness which made the accident possible. There are a great many lives suddenly terminated as a result of carelessness, although the medical certificate may read "heart failure." When a man takes chances with his stomach and neglects the warning symptoms of disease, he is carelessly inviting calamity.



Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which makes strength. It stimulates the liver, cures biliousness, and removes bilious impurities from the blood.

"I had been troubled with a pain in lower part of my stomach for three years, so severe I thought it would kill me in time," writes Mr. Aaron Van Dam, of (Kensington) 3249 116th St., Chicago, Ill. "I could hardly work; it felt like a big weight hanging on me and got so bad that I had to take medicine. I used Stomach Bitters for a time, but it did no good so I wrote to Dr. R. V. Pierce for advice, which he gave me immediately. I followed his directions, used two bottles of his medicine and was cured. I had a torpid liver which was troubling the lastband of cramps (as I thought), so Dr. Pierce told me. I have pleasure in living now; have gained in weight 15 pounds since then."

Dr. Pierce's Pleasant Pellets cure constipation. They do not beget the pill habit.

Could scarcely get up or down without help.

Had a severe pain in the small of the back.

Was treated in the Hotel Dieu, Kingston, but not cured.

Kidney trouble was the trouble.

Doan's Kidney Pills

Cured Mr. George Groves, Pitts Ferry, Ont., of a very bad case of kidney trouble.

He tells about the cure in the following words: "I cannot recommend Doan's Kidney Pills too highly. I never took anything that did me so much good. I had a severe pain in the small of my back and could scarcely get up or down without help. I could hardly urinate, but when I did the pain was terrible. I was in the Hotel Dieu, Kingston, last winter and when I came out I was some better but not cured. It was then I saw Doan's Kidney Pills advertised. Since taking them I have been completely cured and have not had any trouble with my kidneys since."

Doan's Kidney Pills, 50 cts. per box or 3 for $1.25, all dealers or

THE DOAN KIDNEY PILL CO., TORONTO, ONT.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

Dr. Chase's Ointment

THE HOME DOCTOR.

Lemonade is about the most healthful tonic one can use.

It is advisable to eat few varieties of food during a meal, particularly if one is the victim of a feeble digestion.

A fig split open makes a good poultice for a boil. It is especially useful for gumboil. A split raisin is also good.

A good remedy for burns is a strong solution of epsom salts in water. It not only relieves the pain, but helps to heal the wounds.

If you have a bad headache, rub slices of lemon along the temple. The pain will not be long in disappearing or at least in growing easier to bear.

Here is a preparation for pimples: Precipitate of sulphur, one dram; tincture of camphor, one dram; rosewater, four ounces. Apply three times a day.

A Roman remedy for malaria is this: Cut a lemon into a pint of water, peel and all. Boil down to one-half. Take one teaspoonful before meals. Better than quinine.

Cracks in the fingers may be cured by dropping hot shoemaker's wax into them. Cover the wax with a bit of cloth to prevent staining the garments or bedding. The stains from the wax cannot be washed out.

The Business Woman.

Time is something the business girl must learn the value of. Five minutes is but a small fraction of an hour, but suppose a dozen employees in an establishment lost five minutes every morning. It amounts for the employer to the loss of nearly a day's time of one clerk every week. These matters of service and time are two errors into which young employees are apt to fall before they learn better. Another is an inharmonious relationship among each other. It is a common saying among business men that where a number of girls are employed there is sure to be quarreling. The explanation of this is not that women are more quarrelsome than men, but women have been so long isolated in their individual homes from constant everyday association with one another that they have not yet learned to bear and forbear in a crowd and among their fellows as they do at home. This explanation is borne out by the fact that women who have long been in public life, who have seen the world and mingled with many people, habitually work together quite as harmoniously as do men.—Household.

Well Dressed Women.

A well dressed woman is first of all clean—exquisitely clean—and neat and trim. Indeed, it is the air of purity and freshness that her personality exhales that makes her charmingly noticeable among other women. Even though others may wear finer and more costly clothing, she outshines them, for just as the beauty of a flower depends on its freshness, so her unsullied appearance gives her a delightfully refreshing aspect. Without the daily bath no woman can be really clean, and unless the hair and scalp are kept free from the beauty destroying effects of dust and dirt her tresses will fail to be a crowning glory. Clean, white teeth are a charming attraction, without which no woman can be beautiful. Hands that are clean and white, with the nails nicely manicured, bespeak the gentlewoman whether she be a working woman or not.

Superintendent Clark of the Brooklyn street cleaning department says that his department does nothing without the approval of the Women's Health Protective association of that city.

An effective lamp shade is made of yellow satin, finished with a fringe of chenille. At the end of each length of chenille an amber bead is fastened.

Women are now admitted to the St. Petersburg Academy of Art as students of architecture and house building.

Mixed mustard will keep its color if a pinch of salt be added.

MAKING FORTUNES.

The Money of the Market Not For the Man With a Theory.

Fortunes have been made in the Chicago board of trade not by men who entered the market with a preconceived theory as to its course, which they attempted to make good through thick and thin, but rather by those who took things as they came, watching the drift, shaping their way from day to day, like prudent merchants, according to the current.

This is confusing to the novice, for the novice almost always comes in with a preconceived theory. Some time ago a young man with a large hope, a moderate fortune and considerable social prestige was shown the enormous possibilities in December pork. It looked absolutely convincing, but he called upon a great packer with whom he had a personal acquaintance. Yes; the packer thought very well of pork—was buying it, in fact. Thus doubly assured the young man bought. The market went his way, and he bought more. Then the market turned. The young man reviewed his convincing statistics, remembered the words of the packer and stood stubbornly upon his line. When he was getting near to the end of his margins, he was horrified to learn that his friend the packer had shifted to the other side of the market two weeks before. He visited him, recalled their conversation and explained the situation. The packer stared. "Do you mean you've been holding 2,500 barrels of pork all this time?" he demanded. "Yes," said the young man, "and I have it yet. Now, what can I do with it?" "I don't know," said the packer, "unless you can eat it."

Paine's Celery Compound CURED MR. KIMPEL.

A Terrible Form of Dyspepsia Conquered by The Medicine That Makes People Well In Springtime.

Dyspepsia, one of humanity's most cruel enemies, is effectually cured by the use of Paine's Celery Compound. This tormenting disease is caused by acute inflammation of the nerves centred about the stomach. In dyspepsia, nervous energy is wasted, and the entire digestive organism is deranged. The needs of dyspeptics may be summed up as follows: The great nervous system requires strengthening; the blood now charged with impurities must be cleansed, so that it will flow healthy and in abundance; the stomach, weak and unreliable, must be toned up. Paine's Celery Compound in the springtime will accomplish all that is needed for the dyspeptic sufferer, and banish troubles that make life unbearable. Mr. S. Kimpel, Listowel, Ont., says:

"Your Paine's Celery Compound is a most wonderful medicine, and I wish all dyspeptic sufferers to know the good it has done for me. I suffered so badly for one year from the worst form of dyspepsia, that I had almost to give up work. I doctored and used many kinds of medicines, but found no relief or cure until I got hold of Paine's Celery Compound. Your medicine possesses such curing powers, that in my case, two bottles set me all right, so that I can work as well as ever, sleep well and enjoy my food. I feel deeply grateful for such a medicine, and at every chance I recommend it to others. No doctor can cure as quickly as your Paine's Celery Compound."

Pat's Puzzle.

Five or six men were recently chatting in a village inn when one of them said:

"I say, I bets ye dinners all round ye can't tell me the answer to a puzzle I knows of."

"Done," they said. "I bet we can. What is it?"

"Well," said Pat, "why is a journalist the funniest creature in the world?"

After vainly trying for about two hours they sadly said they must give it up.

"Why," said the delighted Pat, "because his tale comes out of his head, don't it?"

Willie and His Politeness.

Willie (reading his verse at Sunday school)—"And they took Joseph's coat, killed a boy and dipped the coat in the blood."

"Now, Willie," said the teacher, "you know the text reads 'killed a kid,' not a boy."

"Yes, but didn't you tell us it is vulgar to say 'kid' when talking about little boys?" replied the apt scholar, beaming with delight at his good memory

THE OLD FAMILY CIRCLE.

Modern Distribution of the Various Members of an Ordinary Family.

Where is the home life that used to be? Where is the dad who sits in the circle and reads the paper to the family, and who is ready to discuss the style in hats or the price of corn in Egypt? He is a rare bird.

Where is the daughter Mary, who once was one of this family circle in the days of the used-to-be? Oh, Mary is upstairs getting ready to go to the opera. Her beau will be along in a minute.

Where is Tom, who used to be one of this happy circle that sat in the old-fashioned room before the wide-mouthed grate? Tom belongs to the Always Up and At 'Em Society, and is going out to-night to debate on the question, "Is It Right to Get Rich Quickly?"

And Jim?

Well, Jim, you see, is the wonderful master of the Ready to Aid Fraternal Association, and this is lodge night.

Then where is Bill?

Why, Bill is chief lamp-post holder of "The Stand On the Corner, Spit and Remark Club." This club meets nightly, and Bill is decorating the sidewalk.

But ma?

Oh, yes, mother is chief needlekeeper in "The Matrons Sew for the Shirtless Association," and ma is out at a meeting of the sewers.

But that rip in Bill's trousers? Hish! never a word.

Then what about Pa?

Well, dad is a true, faithful, and consistent member of two bodies, "The Sit Up With the Sick Friend Society" and the "I Must Go Out to See a Man Club."

So the key is left under the mat, and the cat minds house listening to the ticking of the clock and keeping his eye peeled on the rat-hole by the sink.

Oh! for the days of the good old home life, when fathers and mothers, sisters and brothers, enjoyed the delights of the family circle; when the chairs were drawn about and the old man romped with the kids and made a monkey of himself for their sake.

Say, dad, do you ever play with the youngster now, or do you go home from work, light your pipe, grab a paper, and draw yourself into your shell, or do you hike upstairs, take a wash, put on a clean collar, and scoot?

Do you know your child or do you push him away when he comes up and pulls your paper? Do you growl when he asks you: "Say, pa, what did the teacher mean when she said the earth moved? It ain't moving now."

Get up and have a romp, and answer the kid. You would answer a stranger on the street. Unbend. Kings have done it. Don't mind if you bag your trousers; there are tailor's irons. Let them muss your collars and rumple your hair; there are laundries and brushes and combs and mirrors.

And then, when the years draw down and your footsteps are faltering near the brink, when the light is dim and the road uncertain, do not be surprised if your arm is held and your feet are guided by some son, some daughter you loved and romped with. Romping beats whipping.

"Yes, but don't I buy clothes and feed them?"

Yes, that is true. The farmer also feeds his pigs, blankets his horses. But you can't purchase a pound of fellowship or two pounds of love and romp at a store and send it home. You carry that, my friend, beneath your vest.—Charles F. Raymond, in Toronto Star.

THE HIGH-GRADE FOOD.

In food products, let it be distinctly understood, that there are a host of preparations of low grade, which unscrupulous manufacturers would foist on the public for the sake of large profits.

Amongst the reliable high grade foods, there is one that stands without an equal in purity, healthfulness and deliciousness; this particular brand is Malt Breakfast Food, the king of cereal foods. It has been tested in the homes of the wealthy and humble, and has fully and completely met the desires of old and young. It has made the weak strong and contented, and has kept well people in continued vigour and good health. In Malt Breakfast Food, the perfect combination of pure malt and the choicest wheat, and their scientific treatment in cooking, gives the world a nourishing food that all look for at the morning meal. Your grocer has it.

DRS. KENNEDY & KERGAN

The Leading Specialists of America. 25 Years in Detroit. Bank Security.

Nine out of every ten men have been guilty of transgression against nature in their youth. Nature never excuses, no matter how young, thoughtless or ignorant he may be. The punishment and suffering corresponds with the crime. The only escape from its ruinous results is proper scientific treatment to counteract its effects. The DRAINS, either by nightly losses, or secretly through the urine, must be stopped—the NERVES must be built up and invigorated, the blood must be purified, the SEXUAL ORGANS must be vitalized and developed, the BRAIN must be nourished. Our New Method Treatment provides all these requirements. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers disappear; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The the various organs become natural and manly. We invite all the afflicted to call and consult us confidentially and free of charge. Cures Guaranteed or no pay. We treat and cure: Varicocele, Blood Diseases, Stricture, Spots, Emissions, Urinary Drains, Spermatorrhoea, Unnatural Discharges, Kidney and Bladder Diseases.

CONSULTATION FREE. BOOKS FREE.

If unable to call, write for a QUESTION BLANK for Home Treatment.

For sale by F. J. B. Mitchell, Alex. Elliott, and W. Collins, Ashburnham

DOMINION OIL CO., LIMITED.

Chartered Under the Laws of Ontario and Operating Western Ontario Oil Fields.

This company has acquired since February 1085 acres additional of proven oil lands, including 500 at Thamesville, 360 in the Wheatley District, and 225 more in the Raleigh oil fields, and is now drilling on the Thamesville and Raleigh properties adjoining three new good wells just brought in.

These additions to the company's holdings give it a total

Increase of 70% in Assets.

It has now two drilling rigs running on its properties, and recently purchased and installed the finest drilling equipment in Western Ontario, which is now running night and day on the Thamesville property.

This company has paid dividends at the rate of 12 per cent. per annum ON PAR continually since its inception, thus netting the investor 24 per cent. return; and, in view of its rapid progress and substantial increase in Assets, it has been decided to advance the price of stock to 60 CENTS per share, a very conservative advance, being an

Increase of Only 20 In Price.

Mr. D. C. Woodward, son of the president, recently discovered some NEW PETROLEUM DEPOSITS OF LARGE EXTENT IN ALBERTA, and the president starts to acquire these properties for the Dominion Oil Co. in the course of a few days.

As ordinary coal oil retails at 30c A GALLON in that country, owing to the heavy import duties and freight tariffs, and as there is a great demand for illuminating oil in the Northwest, through the newness of the country, there being practically no electric light or gas works, this company will find a ready market for its product at large profits by the installation of a refinery which the company purpose erecting after it has developed the production.

From the analysis made of this product by President Woodward, this oil is proved to be of great value also as a lubricant, to such an extent that the farmers have been using it for lubricating their harvest machinery and wagons.

President Woodward's experience of 36 years as one of the foremost oil operators and refiners of Western Ontario, erecting and operating some of the leading refineries, and subsequently thes management of large operations for English companies in Borneo and Russia, particularly qualify him for this new exploration and construction of a refinery in the great Northwest.

For the purpose of carrying on this development in the Northwest, the balance of the present allotment of stock is offered at 50 per cent. of par (par value $1.00, fully paid and non-assessable).

THE ADVANCE IN PRICE TO 60c

Will positively take place at the close of business on Saturday, April 11, and IMMEDIATE application is necessary to secure it at the present price, as NO STOCK WILL BE SOLD AT 50c PER SHARE AFTER THE ABOVE DATE.

Mail orders must positively bear date and postmark not later than Saturday, April 11.

Address all enquiries and make all checks, drafts and orders payable to the Fiscal Agents.

COLONIAL SECURITIES COMPANY, Manning Chambers, Toronto.

THE WALL STREET MARKET

Market Opened Firm but Took Big Tumble.

The Quotations of the Leading Stocks —Market Letters.

The Wall Street market opened very strong this morning and it began to look as if a bull campaign had been inaugurated. Those who anticipated this however, were badly fooled—after opening up in some instances a point higher than last night's close and remaining strong until 1.30 the market suddenly broke and dropped, in some instances a point at a time. U.P. in 10 minutes fell from 92 3-4 to 91 3-4, and St. Paul fell from 64 to 63. Other stocks fell proportionately.

The following quotations are supplied by E. M. Poussett & Co.:

Messrs. Haight & Freese, Stock Brokers, submit the following:—

New York, April 9th.—Improvement in prices to-day is foreshadowed by the latest developments. Scale buying orders are said to be in the market, which is oversold. Stocks are scarce, especially St. Paul. We believe pressure has been lifted from R.I. and that they will go higher. The Atchisons should also do better. We get bull points on Union Pac. and B. & O. General conditions are steadily improving. The members of the stock exchange are not going into their new home on April 22nd, in a bear market in our opinion. London Amns. very strong.

NEWS.

New York, April 9.—The Herald voices the sentiment of the press of the entire country as follows the Penna. Ry. and the U. S. Steel Corporation among industrials stand at the head of their respective columns and the corporations behind them will do well to profit by their example.

This is from the leading editorial to-day. Imagine if you can the common stock of any railroad earning 7 p.c. and paying 4 p.c.. Selling at 35.

Buy U.S.S. Do not be afraid to carry N.Y.C., B.O., St. Paul or U.P. over the holiday. Stocks at their present prices are better than money. Big people again advise conservative purchases of Southern Pac. Keep an eye on C.F.I. and only sell short on spurts.

JOSEPH.

Liverpool opened wheat 3-8 higher; corn 1-4 higher.

Ex. dividend A.F. 1 A.F. pr 1 3-4.

People in touch with C.P.R. are enthusiastic on the advance in the value of the roads land holdings in the Northwest and the ready demand for them.

NEWS.

New York, April 9.—The selling of R.I. preferred and common was thought to be in anticipation of frisco deal.

Springfield, Ill.—The rolling mills of the Republic Iron and Steel Co. which has been idle for several years, it is stated will start up not later than May 15th. The mills employ 800 men.

Cincinnatti.—Price current says favourable weather is maintaining the wheat condition and farm work is progressing moderately though it is still backward. There is more inclination to enlarge the corn acreage than oats.

Messrs. W. F. Dever & Co., Stock Brokers, Toronto, write as follows:—

New York, April 8th.—The market opened steady, slightly under the close of yesterday and after half hour of strength sold off under heavy liquidation of A.C.P. which sold as low as 42 3-4. The list as a whole held firm, however, and little later on covering by shorts took the market to higher figures. But as a rule the whole session was one of continuous dullness. This is to a great extent owing to disinclination towards making new commitment over the coming holidays. Railroad earnings continue satisfactory, notable among these were $1,163,129 for March by N.Y.C., an increase of $296,000. Covering of shorts in Sugar rallied that stock to 121 5-8; principal interest centred in the selling by Boston, supposed to be for account of Mr. Lawson who has frequently been conspicuous in the stock. The buying of U.P. is good. S.P. acts as if efforts were being made to drive in the shorts but traders as a rule left it alone. Brooklyn trading seems to be "ex mystery." It is thought a small pool is at work. It will probably sell near to 70.

Chicago. — Bradstreet's weekly report of a decrease of 1,000,000 bushels wheat in visible supply has helped wheat and May sold up to 75 1-4. Would rather sell on this bulge. Corn and oats continue dull with very light trading. Closing prices — Wheat, May, 75 1-4; corn, May, 43 1-4; oats, May, 32 1-4; pork, May, 17.80; lard, May, 9.65.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time. tu

OTONABEE POWER CO. AND THEIR OFFER.

The Directors Have Written the Examiner on the Matter.

To the Editor of the Examiner,—

Sir,—A report is being persistently circulated to the effect that the Otonabee Power Company are simply putting in their tender to do the street lighting of the town as a "bluff" and for the purpose of compelling the Peterborough Light and Power Company and the Cereal Company to buy them out and that the Otonabee Power Company has offered to sell out to them. We wish to give every statement in this report the most unqualified denial. No member of the Otonabee Power Company has ever at any time discussed any such proposition with the Peterborough Light and Power Company or with the Cereal Company or with any person in any way connected with either of these companies. This report however, is being circulated by interested parties for the purpose of prejudicing the ratepayers against the proposition which the Otonabee Power Company made to the town and for the purpose of drawing away the attention of the ratepayers from the fact that the proposal to start up the street railway is going to cost the ratepayers between $30,000.00 and $40,000.0 in ten years. This is a very large bonus to ask for such a purpose.

The Otonabee Power Company has broken up the monopoly in light and power in Peterborough and has been the means of saving thousands of dollars per year to the consumers of light and power.

Our company is prepared to carry out the offer made to the council if it is given the opportunity to do so and if it is, it will mean a saving of from $30,000.00 to $40,000.0 in street lighting in ten years and will be a guarantee to the citizens that light will be supplied at a reasonable price in the future.

A Good Word for Chamberlain's Cough Remedy.

"In December, 1900, I had a severe cold and was so hoarse that I could not speak above a whisper," says Allan Davis, of Freestone, N. Y. "I tried several remedies but could get no relief until I had used Chamberlain's Cough Remedy, one bottle of which cured me. I always speak a good word for that medicine." For sale by all druggists.

The Last Week of Lent.

We have a large shipment of the choicest fresh-caught fish arriving every day this week. You will be sure of the freshest and best if you order from S. A. OKE, 376 George street; Telephone 18.

Something tempting for Easter dinner—Spring Lamb, with Mint Sauce. Call at Kennedy's.

Lovely Easter Lilies.

It would do you good to view the beauty of blossom and colour at Cobb's greenhouses on Aylmer street. It is the gayest sight, this enthusiastic florist has shown at any Easter season. The greenhouses are one mass of colour. Conspicuous above the rest are the Easter lilies, with beautiful large waxy white flowers in profusion, and the lovely contrasting bloom of the pelargonium, begonia, geranium. Graceful palms ferns also show up among charming potted plants, literally loaded with bloom. Purest white and darkest scarlet, crimson shades, yellow and pink, so delicate in tint that one is forced to stand and admire them.

"'Way down in old Bermuda,
Where the Easter lilies grow,
Where sunshine smiles upon the earth,
Unchilled by frost or snow,
A stately lily, pale and fair,
Sheds her perfume in the air."

Rubber Balls, Footballs, Golf Balls and Tennis Balls at Salisbury's.

MARRIED.

KING—PARNELL.—On 8th April at the residence of the bride's father, George street, by Rev. J. P. Wilson, B. A., William George King to Ipsa A., daughter of Mr. John Parnell, of Peterborough.

A JOINT MEETING OF MEN'S GUILDS

Of Charlotte and George Street Methodist Churches Held Tuesday Night.

The union meeting of the Charlotte street and George street Guilds, held Tuesday evening, was a decided success. After the transaction of regular business the literary part of the programme was taken up.

The male quartette, Messrs. Armstrong, Weir, Prest and Freeborne, sang with good effect "Leaning on Jesus." The lecture on "Wireless Telegraphy," by Mr. C. E. Brown, was one of the best, of the many good things that the Guild has been privileged to hear. Mr. Brown first pointed out that contrary to the general impression electricity was no more mysterious than other natural phenomena. The history of the three kinds of telegraphy, Conductive, Inductive and Etheric, was briefly outlined. The principles underlying the utilization of the Etheric method were forcefully explained and illustrated. Mr. Brown described the direction of the electrical waves and the transmitter used in obtaining the etheric disturbances. The velocity and lengths of these waves were shown by comparison with light waves and their power of penetration accounted for. The working of the receiver, both the ordinary one and that of Marconi, was dealt with. Mr. Brown brought his very pleasing discussion to a close by describing the difficulties yet to be solved in order to give us a perfect syntonic system, and the improbability of wireless telegraphy superseding the cable at least, in the immediate future.

Sixty-five Guildsmen sat down to a dainty luncheon prepared by the Charlotte street Guild. Then chairs were pushed back for "the feast of reason and flow of soul" that followed. In a few well chosen words Mr. Gauley welcomed the George street Guild, and with equal appropriateness Mr. Skitch replied. Mr. R. J. Kidd delivered a stirring speech on "Canada, the Young Man's Country," and its close evoked the chorus of "The Maple Leaf" from the assembled young men.

Mr. D. W. Dumble delivered an address bristling with good points regarding the aims and conduct of life. Everyone present pronounced the meeting a great success.

The Charlotte street Guild intends to organize a baseball club so other guilds had better get into training immediately.

ASHBURNHAM VILLAGE PUBLIC SCHOOLS.

Committees Appointed at the Regular Monthly Meeting.

At the regular monthly Board meeting of the Ashburnham Public Schools, which was held on Tuesday evening, the following committees were appointed:

Committee of Management — Messrs. Neil, Sheridan and Rogers.

Property Committee—Messrs. Fowler, Morgan, Thompson.

A unanimous vote of thanks was passed to the Rev. E. A. Langfeldt for the great interest he has taken in having religious instruction in the school weekly throughout the year, and for holding the recent annual examinations in the same. The Board also undertook to pay for the medals and prizes which were offered for religious instruction and which were obtained by Lizzie Telford, Grace Hartley, Fanny Long and Willie Mancice. Several of the examination papers on religious instruction were read, and the Board was very much pleased with the knowledge displayed by the several pupils on the subject.

Messrs. Morgan and Rogers were appointed delegates to attend the annual meeting of the Ontario Educational Association on the 15th inst.

The usual teachers' reports were read and a number of accounts were ordered to be paid.

The Committee of the Whole went through the several rooms of the school, and examined the recent improvements made in the ventilation system and were much pleased with the same.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds, and croup, I have ever used in my family. I have not words to express my confidence in this remedy. — Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

We Must Move Them.

If you have any idea of the trouble and expense of moving granite and marble monuments and tombstones, you will understand our anxiety to sell what you see standing in our yard rather than have to move them to another stand. Our landlord is preparing to erect a new brick block on our corner, and rather than move our stock, we are asking but a fraction of what our monuments are worth to save moving. The Moore Monumental Company.

Student's Easter Rates.

The Grand Trunk will issue to students and teachers of schools and colleges, on surrender of standard certificate, signed by the Principal, return tickets at Single Fare and One-third; going April 4th to 11th, inclusive. Valid returning until April 21st, 1903. Further particulars in another column of this paper, or from W. Bunton, C. P. & T. A., Peterborough. 10d74

TWEED ROBBER IS NOT A GIANT.

Creates a Very Favourable Impression.

Pleads not Guilty to the Two Indictments—Judge Will Consider the Case for a Week.

(Belleville Ontario.)

John Wesley Stevens, the young man who is charged with attempting to hold up Operator Murphy and rob the C.P.R. station at Tweed, came up before Judge Lazier this morning for trial.

Operator Murphy has received a great deal of glory of late for the way he acted on the night of the attempted robbery. His fierce battle with a desperado wearing a night-gown and mask has been the talk of the people of the north for some time. Now that the mist has cleared away and the facts of the case have come to light the people of Tweed have begun to stop talking about it and business is going on in the same old way.

There were a lot of surprised people in the court room when Jailer Appleby came in with the prisoner. Those who expected to see a big, low-browed, heavy moustached Jesse James sort of a character, loaded down with handcuffs and leg irons, were disappointed. A freckled face boy of nineteen, of slight build, with a shock of red hair, walked timidly in and sat down gingerly in the prisoner's dock. He looked around with a sort of a smile hovering around his mouth which seemed to intimate that he didn't fully realize the serious position he was in.

Mr. P. J. M. Anderson read the two indictments, one for attempting to rob and the other for threatening to shoot the station agent. To both indictments the prisoner pleaded not guilty.

In Jailor Appleby the young lad has a staunch friend. He believes the young lad did it for a joke. Since he has been in jail he has been a great reader, and has read nearly all of Dickens' Works. He says his father is a Congregational minister in Warsaw, N.Y. He has made himself a general favourite with all the prisoners in the jail. He acts like a girl and the Jailor says he has given no exhibition of temper which is so common among red headed prisoners that have been guests in the Castle.

The first witness examined was Station Agent Murphy. He gave an account of the affair on the night of the 26th of March. He said the young man made no attempt to fight.

Baggageman Thompson and Sta. Agent Gordon were also examined and they corroborated the evidence given by Mr. Murphy.

Mr. W. P. McMahon appeared for the prisoner.

After hearing the evidence the Judge decided to take a week to consider the case.

SOME HAPPENINGS IN THE NORTHERN TOWN.

Personal Mention and Other Happenings of Interest at Lakefield.

Lakefield, April 8.

Mr. H. Kempt employed in the cement works here was the victim of a painful accident on Friday last. While coupling cars at Buckley Lake he got his hand caught between the link and drawhead and had one finger of his right hand badly crushed.

One day last week Mr. J. Hunter while working in the cement works had the misfortune to get his right hand caught and badly crushed. Several bones in his hand were broken.

H. G. Buck of Norwood is shipping square timber from the G.T.R. siding here this week.

On Sunday morning last the Communion of the Lord's Supper was held in the Presbyterian church.

The high water which has been such a determent to the wells of the village for the past couple of weeks is subsiding.

Rev. Mr. Torrie who has occupied the Baptist church pulpit for the past year and a half has received a call to Chatham to a large field of usefulness, and Mr. Torrie preached his farewell sermon on Sunday evening to a large congregation.

Miss A. Tanner is recovering from an attack of inflammatory rheumatism and her many friends are looking forward to seeing her out again soon.

Mr. John Richardson, Sr., had the misfortune to lose a brown overcoat on the road to Peterborough on Saturday Mar. 28th. Finder will kindly leave same at Munro's Hotel, Peterborough or News office, Lakefield.

Miss Traill who has been visiting in Peterborough is back to the village.

Miss Fallon has opened up a new millinery establishment in Cowan's block, opposite the Post Office.

Mr. J. M. Kilburn is in Montreal on business.

Private Sale.

A quantity of household furniture only in use a few weeks, is offered by private sale at No. 147 London street. Owner leaving town. Can be seen any afternoon. d82

All kinds of woodwork and repairs in connection with the shop.

All work guaranteed. Horse Shoeing a speciality. Give us a call.

PETERBOROUGH MARKETS.

A Large Number in Attendance—Prices Ruled High.

There was an unusually large market to-day, owing mainly to the improved condition of the country roads. There was a continual stream of people through the building, and the scene reminded one of a fire sale.

Butter is not as expensive as last week, it having gone down in price about three cents. Eggs were selling from 11 to 12 cents; butter from 20 to 22 cents; cheese, 14 to 16 cents; chickens were 75 cents per pair; turkeys were from $1 to $1.50; geese from 90 cents to $1.

Mr. Alex. Gordon, the butcher, had a fine display of meat. He had a veal calf, seven months old, which tipped the scales at 370 lbs., a thing which few butchers can boast of. Spring lamb was selling from $1 to $1.25 for the hind quarter.

Thoughtful Consideration For Easter Toggery.

Hats invariably are the uppermost thought of a lady's Easter toilette, but the well-dressed woman doesn't stop at the hat or the dress, but sees to the little accessories that form so prominent a part in the "smart outfit."

CAMEY CHARGES FORMULATED.

Widenet Thrownout in Hope of Catching Something.

USE OF ELECTION FUNDS

To Win Supporters and Harrass Conservatives, Charged—Charges Cover a Very Wide Field—Gamey's Counsel Takes Plenty of Rope.

Toronto, April 11.—In accordance with the promise made by Mr. Gamey's counsel, the charges which he makes for trial before the Royal Commission were formulated and filed with the court Thursday. The document is a lengthy one, comprising some 1,500 words, and covers a wide field of political history, as well as offences of which the Ministers individually or collectively are said to be guilty. In addition to the actual bribery charge, with which the names of all the Ministers are connected through guilty knowledge, the existence of a large election fund is alleged. This is said to have been used to harass Conservative members, and also to furnish funds with which Mr. Gamey was induced to promise to support the Government. It is also said that the act of inducing Mr. Gamey to write a letter to the Premier, promising to support the Government, was part of the conspiracy. Mr. Gamey frames his charges against all the Ministers.

The Missing Agreement.

Another paper filed Thursday by the prosecution was the missing copy of the agreement said to have been entered into between Frank Sullivan and R. R. Gamey. It is unsigned, though written on Walker House paper, and is in the terms of the document given out by the Conservative counsel several days ago and published at the time.

There were no developments in the case yesterday. Counsel on both sides are hard at work preparing their cabe. The brief which each must carry is a voluminous document, owing to the amount of correspondence included. The serving of summonses is being carried on briskly. The pass-book from the Traders' Bank, Sudbury, has not yet been filed.

The filing of Mr. Gamey's charges, which was performed by Mr. J. A. Macdonald, took place at noon. The full text of the charges is as follows:

Full Text of Charges.

Here are the charges in full:

I, Robert Roswell Gamey, a member of the Legislative Assembly of the Province of Ontario for the electoral district of Manitoulin, make the following charges under the Royal Commission, dated the 26th day of March, 1903:

1. That on the occasion of the general elections in the Province of Ontario for the Legislative Assembly of the said province, holden on the 22nd and 29th days of May, A. D., 1902. I was a member of the political party known as the Conservative party in the Province of Ontario and an opponent of the political party known as the Liberal party, which, for some years past, has controlled the affairs of the Province of Ontario, and as such I became a candidate at the said election for the said electoral district and was duly elected a member of the said Legislative Assembly for the said electoral district.

2. That by constitutional law and usage it is necessary that a political party should have and possess the support in the Legislative Assembly aforesaid of a majority of the members of the said Legislative Assembly in order to their continuance in office as a Government and members of the Executive Council of the said province.

3. The result of the general election was that 51 supporters of the Government, or Liberal party, were declared elected, and 47 (including myself) supporters of the Opposition or Conservative party, were declared elected.

4. Within a very short time after the result of the election became known and pending certain recounts of votes which took place one of the members (the late Mr. J. W. Munro) who had been elected as a Government supporter, died, and his seat (North Renfrew) was thereby vacated, and is still vacant.

5. In the electoral district of Lennox the result of the recount in that constituency (which was concluded on or about the 8th day of July, 1902) was to declare the Conservative candidate (Mr. T. G. Carscallen) elected instead of the Liberal candidate (Mr. M. S. Madole), and the relative strength of the said political parties was altered when all returns were finally in for 97 of the 98 electoral districts in the Province to 49 declared supporters of the Government and 48 of the Opposition, which majority of one on the election of the Speaker would leave the Government without a majority.

6. Under the circumstances above described the position of the Government and the tenure of office of the Ministers thereof was most critical and precarious, and they were left dependent practically on the result of bye-elections or the procuring one or more of those who had been elected as members of the Opposition to change their allegiance and support the Government or to rely on the unseating of some of the Opposition members and endeavoring to have Government supporters elected in their stead.

7. For the purpose of carrying the elections in favor of the Government and procuring the continuance in office of the then Executive Council, a large fund amounting to many thousand dollars, the exact amount of which is unknown to me, was contributed by supporters of the Government and others and paid over to nominees of the members of the Government to be by them expended under the direction of the members of the Government, or some one of them, and others, in procuring the defeat of Conservative candidates, or the unseating of Conservative candidates elected, and the election of Government supporters in their stead, and to be used, if necessary, in bribery, and obtaining members who had been elected as supporters of the Conservative party, to change their allegiance and support the Government.

8. The fund in the preceding paragraph mentioned was collected, paid over, held and disbursed for the purpose aforesaid, with the full knowledge of every member of the Government, and was utilized for illegal purposes aforesaid, or some of them, with the knowledge of every member of the Government, and in order to maintain themselves in office.

9. That, between the said 29th day of May and the date of the opening of the present session of the said Legislative Assembly, to wit, the 10th day of March, 1903, and at sundry times and places, the Honorable James Robert Stratton, Provincial Secretary; the Honorable George W. Ross, Premier and Provincial Treasurer; the Honorable John Morison Gibson, Attorney-General; the Honorable Frank R. Latchford, Commissioner of Public Works; the Honorable Richard Harcourt, Minister of Education; the Honorable Elihu J. Davis, Commissioner of Crown Lands, and the Honorable John Dryden, Minister of Agriculture, members of the said Legislative Assembly and of the said Executive Council of the said Province; Frank Sullivan and Elgin C. Myers, officials or employes of the said Government of the said Province; Robert A. Grant, solicitor for the said members of the said Executive Council, and Captain John Sullivan, all of the said City of Toronto, and D. A. Jones of the Village of Beeton, together with divers other persons, did amongst themselves unlawfully conspire, confederate and agree together, or some or one of the others of them, unlawfully conspire, confederate and agree together to endeavor to procure myself and other persons who were members of the said political party known as the Conservative party, and who as such had been elected as members of the said Legislative Assembly, to be unseated and disqualified by the judges of this Province, trying election cases, through evidence of convicts, criminals and others, paid to give false evidence, and having filed a petition against me, and threatening to proceed with the trial thereof, the said parties attempted to induce me to quit my said political party, as aforesaid, and to cast in my lot with the said political party to which they belonged, and which they represented, and to influence me in my proceedings as a member of the said Legislative Assembly, by, among other means and methods, the following:

(1) By filing or causing to be filed a petition, dated the 10th day of July, 1902, against my said election as member of the said Legislative Assembly, charging me with gross acts of bribery and corruption.

(2) They also paid, or caused to be paid, into the Canadian Bank of Commerce, at Toronto, on or about the 11th day of July, the sum of $1,000, as security for the costs of the said election petition, such sum being part of the fund hereinbefore mentioned in paragraph 7.

(3) They also arranged for and paid out of said fund, the expenses of certain individuals, to wit, James Vance, Captain John Sullivan and B. Lancey of Toronto, and J. P. Stanton of Hamilton, and others whose identity is at present unknown to me, to go into the said electoral district to forward their objects in connection with the said election petition.

(4) They also arranged for and paid the expenses of James M. Fraser, John M. Fraser and A. J. Murray of Gore Bay, and R. A. Grant of Toronto, and others whose identity is at present unknown to me to perform services connected with the preparation, presentation and conduct of the said election petition.

(5) Having commenced such proceedings against me, in order to influence me, and to procure my support, through the said Captain John Sullivan, Frank J Sullivan and D. A. Jones, statements were made to me as to evidence which they could adduce at the trial of the said election petition, and for the purpose of intimidating me, represented that the effect of such evidence would be to unseat and disqualify me.

(6) In or about the month of August, 1902, the said parties, representing the said Stratton and the members of the Government hereinbefore mentioned, offered to pay me the sum of three thousand dollars cash, between the 3rd and 5th of September, 1902, and the further sum of two thousand dollars at the close of the first session of the said Legislative Assembly, and to obtain for me the patronage and appointments to public offices in the gift or recommendation of the said Govern-

A Danger Period Through Which Every Woman Must Pass.

Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. At this period a woman indicates a tendency towards obesity or tumorous growths.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop forever, are only a few of the symptoms of a dangerous nervous trouble. The nerves are crying out for assistance. The cry should be heeded in time. **Lydia E. Pinkham's Vegetable Compound** was prepared to meet the needs of woman's system at this trying period of her life, and all women who use it pass through this trying period with comfort and safety.

TWO COLUMNS OF PROOF.

"DEAR MRS PINKHAM:—I was sick and nothing seemed to do me any good until I began taking Mrs. Pinkham's medicine.

"It was Change of Life with me and falling of the womb. I had severe pains all through my body. I had a terrible cough and people thought I had consumption.

"I took six bottles of **Lydia E. Pinkham's Vegetable Compound** and two of Blood Purifier, and two boxes Liver Pills, and I am now stouter than I have been for a long time. I can do all my work now, thanks to **Lydia E. Pinkham's Vegetable Compound.**

"If any one wishes to write me, to verify these statements, I will gladly answer their letters."

MRS. CLARA CHEZEM, Jewett, Ill.

"DEAR MRS. PINKHAM:—For seven years I had been suffering, was passing through the Change of Life, and my womb had fallen; menses were so profuse that at times I was obliged to lie on my back for six weeks at a time, could not raise my head from pillow. I had been treated by several physicians, but got no relief.

"I was advised by friends to try **Lydia E. Pinkham's Vegetable Compound**, which I did, and after taking it six weeks I was able to be around all the time and do my housework. I know your medicine saved my life and I cannot praise it enough."

MRS. LIZZIE ROECAP, 519 Smith St., Millville, N.J.

"DEAR MRS. PINKHAM:—I have worked hard all my life, and when the Change of Life came I flowed very badly for weeks at a time. I would stop for a day or two, then start again. I went to see a doctor and went through an examination, and spent two hundred dollars for medicine and doctor's bills, but I did not get the relief I expected.

"At that time I saw **Lydia E. Pinkham's Vegetable Compound** advertised and began its use. I have found it to be just what I needed.

"I wish every woman suffering from female trouble would try it. I recommend it to all my friends."

MRS. WM. DAILY, Millbank, S.D.

"DEAR MRS. PINKHAM:—I feel it a duty I owe you and every suffering woman in the land to tell of the wonderful results I have found in using **Lydia E. Pinkham's Vegetable Compound and Liver Pills.**

"Passing through the Change of Life, some of the physicians consulted said nothing but an operation would save me. But your medicine alone cured me."—MRS. MAGNOLIA DEAN, 1441 First Avenue, Evansville, Ind.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

Daily Examiner.

London (England) office—168 Fleet street, E. C., Central Press Agency Limited, Special Agents.

SATURDAY, APRIL 11, 1903.

LEGISLATURE WILL NOT ADJOURN AGAIN.

The Court Will Rise Daily in Time to Allow the House to Sit.

(Toronto Star.)

It is understood that when the Legislature resumes business on the 21st of April there will be no motion to adjourn for any further period, and that the members, irrespective of the stage reached by the investigation, will be expected to get down to business.

The indications at the present time are that the investigation will be only well under way by the 21st. Witnesses are being subpoenaed by the dozen still, and if the charges formulated by Mr. Gamey's solicitors are supported by evidence, they are broad enough to furnish a legal fight of several weeks' duration. It looks as though there would be a period of court by day and Parliament by night. The court will rise at 4 in the afternoon, which is only a few minutes after the Legislature gets to work, so that by working good long hours the Ministers and members can take in the proceedings at both places.

How to Ward off an Attack of Rheumatism.

"For years, when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie Macdonald, of Man, Logan County, West Virginia. "I tried everything with no relief, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment. For sale by all druggists.

OTTAWA'S NEW STEEL INDUSTRY.

Ordinary Pig Iron Converted into Best of Steel.

Mr. R. H. Bradburn is a Director of the Company—Plant in Operation.

The Ottawa Free Press of a recent date contains the following account of the organization of the Ottawa Steel Casting Company, Limited, of which Mr. R. H. Bradburn, formerly of Peterborough, is one of the Directors and is connected with the engineering staff:—

A most interesting exhibit of steel castings, made under the Hunter process by the Ottawa Steel Casting Company, Limited, is now on view in the rotunda of the Russell. Mr. A. J. McGibbon, a director of the company, is in charge of the exhibit, and to say that he is a very busy man these days, explaining to the many the merits and advantages of this wonderful process, would be putting it mildly. Members of parliament, senators, citizens of Ottawa and visitors who have viewed the exhibit in the Russell all concur in the belief that it is one of the greatest inventions of modern times, and will entirely revolutionize the steel industry. A company has been formed at the capital and incorporated under the Ontario Companies' Act, which control all the patents and rights of the inventor for the Dominion of Canada. This company is known as the Ottawa Steel Casting Company, Limited, and is capitalized at $250,000, divided into $2,500 shares of $100 each, fully paid up and non-assessable. The company includes a number of Ottawa's well known citizens who are known to be careful and shrewd investors, and after witnessing a succession of thorough and severe tests, under all conditions, they came to the conclusion that the Hunter process of converting iron into steel offered great inducement for a profitable investment. The following named gentlemen comprise the company, viz.: J. A. Hunter, M.D., Philadelphia, Pa. (the inventor), President; J. G. MacLaren, Vice-President, Ottawa; J. H. Gervan, Sec.-Treas., Ottawa; Geo. G. Roe, General Manager, Ottawa; Directors, Dr. MacLaren, Ottawa; Dr. Quackenbush, Ottawa; R. H. Bradburn, Peterboro; Ald. J. A. Askwith, Ottawa, and A. J. McGibbon, Eachute, Que.

The Ottawa Steel Casting Company, Limited, have bought the Baldwin Iron and Steel Works and plant on Bridge street, Ottawa, as well as several adjoining lots, on which they will build and enlarge their premises and plant. Orders are coming to them daily from all parts of the Dominion for work, notwithstanding that the company is only in business a short time and are as yet comparatively little known. So far they have filled orders for the Monde Nickel Company of Victoria Mines, Sudbury; for W. C. Edwards Lumber Company; H. J. Beemer, J. R. Booth, the Dominion Government, E. B. Eddy Company, and others, and all are well pleased with the quality of the work, which was principally all steel castings of a more or less ponderous nature.

The company purpose to manufacture all kinds of machinery castings, automobile castings, railroad castings, shoes, harness and wagon hardware, edge tools, and all kinds of steel castings.

The company has secured all patent rights and privileges and all improvements which may in future be made by the inventor, therefore their interests are carefully safeguarded and protected. The iron and steel industry in Canada is only in its infancy and its possibilities in the very near future are very great indeed, so that the prospects of success of this new company are indeed very rosy.

An Intelligent Child Can Tell You Which to Use.

One solidly filled package of Malt Breakfast Food contains twenty-four ounces of concentrated nourishment, and costing fifteen cents, will make a steaming, hot morning dish for twenty-five people. Cost per meal, three-fifths of a cent. Results, new energy, vigorous digestion and good health.

The ordinary cereal foods, some looking like sawdust and tiny wood chips, are put up in bulky packages, a quantity that will furnish but twelve meals. Cost per meal about one and one quarter cents. Owing to cheapness of manufacture and character of stock used, these foods have not the nourishing virtues found in Malt Breakfast Food; they are cold fad foods, and cannot aid digestion Ask your grocer for Malt Breakfast Food, the only health food in the world.

THE LATE JOHN COLLINS OF ENNISMORE.

A Disciple of Father Matthews for two Thirds of a Century.

Ennismore, April 8th, 1903.

John Collins, one of the oldest and most respected residents of Ennismore, passed away last week at the age of 86. Mr. Collins was born near Listowel, Ireland, March 17th 1817, and came to Canada in 1842. He remained in the County of Peterborough for some time, and after a few years spent in search of a favourable location, finally settled permanently on the farm in the Township of Ennismore, on which he resided to the time of his death, which occurred on April 3rd, 1903.

He married Margaret Geary, to which union were born nine children, four of whom predeceased their father, the oldest being the late Michael Collins, of the Post Office Department, Ottawa, and Mary, wife of John O'Donnell, who died some years ago. The other two, died in early youth, and infancy. He leaves to mourn his loss, a widow, four sons, and one daughter. The sons are,—William, John F. and Hugh, who reside at home, and Stephen, of Philadelphia, Pa., and the daughter is Lizzie A., who also resides at home.

The funeral, one of the largest ever seen in Ennismore, took place last Sunday, April 5th, to the Roman Catholic Cemetery, Ennismore.

At the age of 24, some sixty-two years ago, Mr. Collins, took a pledge against intoxicating liquors from the Rev. Father Matthew, and this pledge he kept to the end. Even with a doctor's advice he refused to violate a promise, which had been the means of so much peace, happiness and prosperity to himself and family. As a proof of their regards and as a testimony of their appreciation of a life-long abstainer, the T.A.S. of Ennismore turned out in full force, wearing beautiful badges, and formed a procession from the church to the cemetery. Rev. Father Fitzpatrick, P.P., in a few well chosen words, made reference to Mr. Collins' past career, and the grand example his life afforded to those who had at heart the welfare of total abstinence. But Mr. Collins was a model in more respects than one. His neighbours testify to his kindness and liberality; his family bear witness to his gentleness, amiability and affectionate heart, while his pastors, now and in the past, know of his devotion and zeal in the performance of every religious duty. The success of his family and the sense of honour and sobriety, which mark their lives, is owing, in no small degree, to the good example they received, and the many kinds words of advice which came from an honest and sincere heart. This example and advice were fully appreciated by his family, and if care and attention could have prolonged a life so gentle, kind and lovable, Mr. Collins would have been with us for years to come to preach by noble example, the happiness and contentment of an honest and sober life. May his soul rest in peace, and his well-spent life serve as a beacon light to guide and direct his family and numerous friends and admirers.

YOUNG'S POINT.

(From our own Correspondent.)

Young's Point, April 10th.

The water has lowered here the past few days.

The steamer Majestic, which was launched a week ago, made her first trial trip to Stony Lake on Wednesday, the 8th. Capt. Scollard reports she runs splendidly.

Mr. Jas. Walsh is tearing down his residence here and is going to erect a fine large brick house. His house is one of the old land marks of Young's Point.

Mr. Chas. Carl, representing Northrop & Lyman Co., of Toronto is registered at the Lake View.

Mr. A. Wilson has purchased two new vats for his cheese factory, and expects to be soon at the business again.

Mr. and Mrs. R. B. Lundy have gone up to their cottage in Stony Lake for the summer. They will be the first on the lake.

The farmers have commenced their spring work in earnest.

Mrs. Katie Frood, of North Bay, is visiting her friends here.

The members of the Smith Township Council, Messrs. Ed. M. Elliott, Robt. J. Duff, Wm. M. Bell, R. N. Scott and Jas. A. Fowler, were inspecting the roads through here on Thursday and had dinner at the Point.

JUST WHAT YOU NEED.

Chamberlain's Stomach and Liver Tablets.

When you feel dull after eating.
When you have no appetite.
When you have a bad taste in the mouth.
When your liver is torpid.
When your bowels are constipated.
When you have a headache.
When you feel bilious.

They will improve your appetite, cleanse and invigorate your stomach, and regulate your liver and bowels. For sale by all druggists.

AN OLD PHYSICIAN'S Prescription for Chronic Catarrh-- In Use Over Forty Years.

The Home of Peruna

40 years ago Dr. Hartman graduated at the Jefferson Medical College of Philadelphia, and immediately commenced the practice of medicine in Millersville, Lancaster Co., Pa. Subsequently he practiced in Lancaster city until twenty years ago. He then lectured on the subject of medicine and chronic diseases in all the principal cities in the United States.

During all this time the doctor has been a specialist in the treatment of chronic catarrh. He has probably treated more cases of catarrh than any other physician in the world. Several thousand people (suffering from this stubborn disease) are constantly under his treatment which he carries on by correspondence.

The remedy upon which the doctor relies for the cure of this vast multitude of people is Peruna. Peruna is without doubt the only reliable internal specific for catarrh yet devised by the medical profession. It cures catarrh wherever located—catarrh of the head, catarrh of the throat, of the stomach, lungs, liver, bowels, kidneys, or catarrh of the pelvic organs. Catarrh of these various organs includes a host of diseases known by different names.

Peruna is not a patent medicine, but the regular prescription of a regular physician in the regular practice of medicine. The remedy Peruna is manufactured only by The Peruna Medicine Co., of Columbus, O., where it is supplied to druggists all over the United States and Canada.

Anyone suffering from catarrh, severe or mild, acute or chronic, in any organ or part of the human body, should begin the use of Peruna at once. If at any time during the treatment the patient wishes to ask any question of Dr. Hartman concerning any detail of the disease or treatment he should write the doctor who will promptly answer, free of charge.

Catarrh of Bronchial Tubes Cured.

Mr. W. B. Walby, Hotel Windsor, Ottawa, Ont., writes:

"I have been taking Peruna for catarrh of the bronchial tubes for three weeks, and was truly surprised to find that it affected a complete cure."

W. B. WALBY.

"Peruna Saves Many Times its Cost in Doctor Bills."

Mr. Geo. A. Gauvin, No. 18 Spring Garden, Halifax, N. S., is Vice-President of the Halifax Camera Club, Lieutenant of Ramblers' Cycle Club, Halifax, writes:

"I feel it a duty as well as a pleasure to speak in high praise of Peruna, especially valuable in cases of catarrh so frequent during the winter season in this country. I have used it myself with fine results, also in my family and found that it has saved me many times its cost in doctor bills.

"Peruna is not only a cure for cold, but a splendid preventive. I know of no medicine, patent or otherwise, which is so powerful to remove disease from the system.—GEO. A. GAUVIN.

"Have Enjoyed Perfect Health Since Using Peruna."

Miss Florence E. Kenah, 424 Maria St., Ottawa, Ont., writes:

"A few months ago I caught a severe cold which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently.

"I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since.

"I now have the greatest faith in Peruna."—F. E. KENAH.

"Peruna Keeps me in Fine Health."

Miss Ella Pittaway, No. 85 Primrose Ave., Ottawa, Ont., writes:

"I cannot speak too highly of Peruna as a medicine of special value during the inclement weather. I was subject to catarrh of the head and throat until I tried Peruna, and I now find that a few doses taken in time invariably cures me, and also that it acts as a special preventative of throat difficulties.

"It keeps me in fine health, and I value its qualities very much."

MISS ELLA PITTAWAY.

Recommends Peruna for Colds.

Mr. E. H. Cunningham, Mgr. Cable Co., Halifax, N. S., writes:

"During the past winter I contracted a severe cold which I found difficult to throw off. After using several remedies without success, I purchased a bottle of Peruna, and was so pleased with the result, that I now wish to recommend it to all persons suffering as I did."

E. H. CUNNINGHAM.

"Feel Better and Stronger Than for Years."

Miss M. Jean Sargent, Frankford, Ont., writes:

"A few months ago I caught a severe cold coming home from an evening party, being too thinly dressed. It developed into catarrh of the throat, and I soon found that it was more serious than I had anticipated.

"Having read of Peruna and its claim of quick cure, I determined to try it, and sent for a bottle. I am very much pleased to state that the results were far better than I had anticipated or expected. The third day after using it my cough had nearly disappeared, and my appetite had returned, within another week I felt better and stronger than I had done for years.

"I therefore gladly indorse it."

M. JEAN SARGENT.

Everybody should have a copy of one of Dr. Hartman's free books on chronic catarrh. The doctor has lately written a book on pelvic catarrh, to which women are especially liable. Sent free to women only. "The Ills of Life" which can be secured at most up-to-date drug stores, and upon request is sent free to all, gives a short description of all catarrhal diseases. Address The Peruna Medicine Co., Columbus, O.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Peruna can be purchased for $1.00 per bottle at all first class drug stores.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

How to Get Well

Without Risking a Penny.

This is how more than half a million sick ones got well:—

They wrote me and told me which book they wanted. I sent each an order on his druggist for six bottles Dr. Shoop's Restorative. Each took it a month at my risk. If it succeeded, the cost was $5.50 If it failed, I paid the druggist myself. And the sick one's mere word decided it.

I have done that with nearly 550,000 sick ones—all chronic cases—most of them difficult—some of them desperate. Yet 39 out of each 40 have paid for the medicine gladly, because they were cured.

I make the same offer to you.

If you will simply write me, and try for a month to get well, I will take all the risk; I will pay if I fail.

You cannot be just to yourself and neglect an offer like that.

My Restorative succeeds because it strengthens the inside nerves. It brings back the only power that operates all vital organs. It gives the weak organ power to do its duty, and that is all that is needed. The result is like giving a weak engine more steam.

Some of you have doctored in other ways until you are discouraged. But common treatments merely doctor the organs, and the result at best are but temporary. That which is needed—that which must be done—is to give the weak organ more power to act. My Restorative always does that. It prevents little troubles from becoming deep-seated, and in chronic diseases it does what no other remedy can do.

CUT OUT THIS COUPON.

For we all resolve to send for something, but forget. Mark the book desired and mail this with your name and address to

Mild cases, not chronic, are often cured by one or two bottles. At all Druggists.

17TH ANNUAL CONVENTION.

Enthusiastic Gathering of Lacrosse Men From All Parts of Ontario.

Toronto, April 11.—The seventeenth annual convention of the Canadian Lacrosse Association was held here yesterday. The attendance of delegates from the different clubs was large. Lacrosse enthusiasts from every part of Ontario were there.

A gratifying feature of the convention was the entries of a large number of new clubs. The morning was taken up with receiving the delegates' credentials. After lunch the meeting was called to order by President C. R. McKeown. His report was read and adopted.

Secretary W. H. Hall gave an exhaustive report of the year's happenings. The balance to the credit of the C.L.A., as stated by him, was $65.31. His report was also adopted.

A Goderich, Ont., Lady Afflicted with Nervousness, Heart and Lung Trouble, was Told by Seven Doctors That She Would Never Get Better.

Paine's Celery Compound

Which Was Providentially Brought to the Sufferer's Notice. Cures Her.

Paine's Celery Compound has acquired its famous reputation by its wonderful and decisive victories over disease and suffering. The wonderful medicine gives energy and vigour when there is physical exhaustion. It makes the blood pure and rich, strengthens the nervous system, establishes a perfect action of the heart, gives natural sleep and builds up the wasted body. Mrs. Wm. Webster, of Goderich, Ont., who was in a critical condition of health and pronounced incurable by seven physicians, was providentially saved by Paine's Celery Compound; she writes as follows:

"I was a victim of heart and lung trouble for several years, and was attended by seven different doctors, all of whom said I would never get better. I was assured that my heart and left lung were badly affected, and I kept getting worse every day under medical treatment, had lost forty pounds in weight, and was greatly discouraged. I was also afflicted with nervousness and sleeplessness. One day I noticed a testimonial in the newspapers from a friend of mine relative to Paine's Celery Compound, and I determined to try it. I bought one bottle and used it, but found no benefit. After using the second bottle, however, there was a decided improvement, and I continued with the compound until I had used eight bottles, with the result that to-day I am as well and healthy as I ever was in my life, and weigh more."

R. Shaw-Wood Dead.

London, April 11.—R. Shaw-Wood, president of the East Middlesex Conservative Association, died yesterday morning at his residence, "Woodholm," in London Township. Death resulted from acute Bright's disease. Deceased was a prominent cattle breeder and was well known throughout the provinces.

Earl of Minto's Son Advanced.

London, April 11.—The Hon. Arthur Ralph Douglas, M.P., and second son of the Earl of Minto, will succeed William Hayes Fisher, M.P., as Financial Secretary of the Treasury.

A Good Word for Chamberlain's Cough Remedy.

"In December, 1900, I had a severe cold and was so hoarse that I could not speak above a whisper," says Allan Davis, of Freestone, N. Y. "I tried several remedies but could get no relief until I had used Chamberlain's Cough Remedy, one bottle of which cured me. I always speak a good word for that medicine." For sale by all druggists.

IN SHARP CONFLICT.

Four Day's' Fighting Between Insurgents and Turks.

THE REVOLT IS SPREADING.

District of Melesh, in Northern Macedonia, the Scene of the Conflict—District of Petrich Has Also Joined the Insurgents—350 Turkish Troops Assigned to Quell the Rising —King Alexander's Danger.

Sofia, Bulgaria, April 11.—A conflict lasting four days has taken place between the insurgents and Turkish troops in the district of Melesh, northern Macedonia. The village of Berovo was surrounded and burned. Another fight occurred near Opela, in the Province of Kratovo.

Salonica, European Turkey, April 11.—The inhabitants of some of the villages in the district of Petrich (53 miles from here) have revolted. A detachment of 350 Turkish troops have been engaged with the insurgents. Reinforcements have left Salonica for the scene of the revolt.

Planned to Kill King Alexander.

Vienna, April 11.—The rumors current of a plot against the life of King Alexander of Servia received apparent confirmation in private despatches which have been received at Budapest, and according to which an attack on the King's life was planned for next Sunday. The plot was discovered, and fifty persons suspected of complicity therein were arrested. Other arrests are expected. Semi-official reports from Belgrade declare that these rumors are false, but it is thought here that King Alexander's recent coup d'etat was probably hastened by the discovery of the alleged plot.

THE JAPS EXCITED.

Believe the Evacuation of Manchuria by Russia Is Illusory.

London, April 11.—Great excitement prevails in Japan owing to the illusory character of the Russian evacuation of Manchuria, and resolutions have been passed praying the British and Japanese Government to insist on the genuine restoration of Chinese executive power and the opening of Manchuria to foreign trade.

Killed 1,500 Chinese.

Hong Kong, April 11.—An explosion has occurred at the Canton arsenal powder factory. Fifteen hundred persons are reported to have been killed.

The Revolutionists Win.

Port-au-Prince, Hayti, April 11.—Advices from San Domingo City say another engagement between the Government forces besieging San Domingo and the revolutionists, who are in possession of that city. The troops of President Evasquas attacked the revolutionists and were repulsed after severe fighting, during which many were killed or wounded on both sides. The American, German, Italian and Dutch warships landed marines to protect the Consulates of their respective countries. The belief prevails here that the Dominican revolutionists eventually will triumph.

The Revolutionists Won.

Willemsted, Island of Curacao, April 6.—News has been received here that the Venezuelan revolutionists have defeated the forces of the Government in the neighborhood of Caracas and captured two cannon and a large quantity of ammunition. They have also captured the City of Barquisimeto, which is the key to the western part of Venezuela, taking away many prisoners. Heavy fighting of an undecided character has taken place at Coro.

Death of Powerful Chinaman.

Pekin, April 11.—Yung Lu, Controller of Finances and First Grand Secretary, is dead.

Yung Lu was a Manchu. He was said to be the real author of the anti-foreign outbreak in Pekin and Tien Tsin, and he commanded the best-disciplined troops which opposed the allies.

HE WAS NOT KILLED.

M. J. Sullivan Was Desperately Wounded in Labor Riot.

TWENTY RIOTERS ARRESTED.

Canadian Bridge Company Has Shut Down Its Works at Walkerville as a Consequence of the Trouble—Kennedy, Who Shot Sullivan, Is Said to Have Done So in Self-Defence —The Strike Situation.

Walkerville, Ont., April 11.—Labor trouble led Thursday afternoon to a riot, in which one man was desperately wounded. In addition fully ten others received wounds of a more or less serious character, and several of them are under the care of physicians.

M. J. Sullivan, a strike sympathizer, was shot and desperately wounded in the struggle by George Kennedy, an officer of the company.

On April 1 the 270 employes of the Bridge Company, most of whom reside in Detroit and cross the river daily to their work, struck for an increase in wages. The company denied the demand and the men walked out.

Thursday afternoon, just before the close of the working day, about 40 strikers, with a number of union sympathizers, the employes of the Buhl Malleable Iron Co. of Detroit, gathered about the works of the Canadian concern. The non-union men were hooted as they emerged from the building, and were followed to the ferry, the entire party crossing the river on the same boat. On the Detroit side, about 15 of the non-union men, five of whom were armed with revolvers, left the boat, and these were immediately assailed by the strikers.

Gustave Adams, another of the workmen, had armed himself before leaving the Bridge Works, with a heavy iron bolt. When the melee began, he pressed to the outer edge of the crowd, and, when attacked by Steven Laduke, one of the strikers, he slipped the bolt out of his sleeve, and dealt Laduke a blow over the head, which stunned him. He is still in a comatose condition, and may die.

But one policeman (John E. Kline) was on duty at the scene of the riot, and he managed to arrest five men belonging to the attacking party before the arrival of reinforcements. The lobby of a neighboring hotel was then converted into an extempore prison, and over 20 of the contestants were rounded up. All of them were released later in the evening, however, with the exception of Kennedy and Adams.

The scene of the riot was immediately in front of the big drug factory of Parke, Davis & Co., and the employes, to the number of over 2,000, had just left work, and were spectators of the scene. A large open field was at one time fairly covered with the struggling combatants.

Windsor, April 11.—As the result of Thursday night's disturbances at the foot of Joseph Campa avenue, Detroit, the Canadian Bridge Company has closed its plant at Walkerville and the management is unwilling to say whether it will resume operations Monday or whether it will continue closed until some compromise is reached with the strikers.

"The trouble is regretted by the company, and it is going to stand by George Kennedy, the shipping clerk, who shot in self-defence Thursday night," said one of the company. "Kennedy has been in our employ for some time, and is held in the greatest respect. I believe if he had not fired the shots several of our employes would have been killed before the police arrived. He was perfectly justified in shooting to save his life. I believe that the trouble was prearranged, for as soon as the boat arrived a large crowd was waiting. No one has as yet made any move to reach a compromise since the fight Thursday night.

"I would not be surprised if this trouble would hasten matters, and that before long a committee of the strikers would meet the officials of the company. I believe nearly all the men would be taken back, notwithstanding the trouble Thursday night. In a mix-up like that it is hard to determine who is really responsible. The company employes about 300 men, 75 per cent. of whom at least are laborers."

All saloons have been closed in Walkerville since 3 o'clock Thursday afternoon by order of Mayor Swift. Yesterday an extra number of police patrolled the streets in the vicinity of the shops and the company offices, and it is not believed that further violence will occur. The Canadian Bridge Company is controlled almost entirely by Americans who live in Detroit.

Sullivan Will Recover.

Detroit, Mich., April 11.—The Emergency Hospital authorities say that Michael Sullivan, injured in Thursday's riot, is progressing favorably, and that no alarming symptoms have as yet developed in the condition of the desperately wounded man. Stephen Ladus, the Walkerville man who was struck by the butt of Kennedy's revolver, left Harper Hospital yesterday forenoon for his home.

A Severe Case of Lumbago.

Mr. Jas. A. Searls, Norwich, Ont., Quickly and Permanently Cured by

Dr. Pitcher's Backache-Kidney Tablets.

Know what lumbago is? Pain catches you right in the small of the back—makes stooping over or rising up excruciating agony.

Wrong kidney action is the cause of the trouble, and if you let Dr. Pitcher's Backache Kidney Tablet set the kidneys working right, you'll be quickly and permanently cured.

Mr. Jas. A. Searls, the well and favourably known boot and shoe merchant of Norwich, Ont., made this statement:—"During a recent sharp attack of lumbago, in which the pain was extremely severe, I took a bottle of Dr. Pitcher's Backache Kidney Tablets. They took the pain out of my back so quickly, and so far as I can see made a cure so permanent, that I consider them unequalled for that most prevalent and painful affliction. I am only too pleased to recommend them to other people who may be suffering as I was."

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists or by mail. The Dr. Zina Pitcher Co., Toronto, Ont. 5

Sold Everywhere. In boxes, 25 cents.

AN ORDER THAT FAILED.

The Federated Trade Unions Won't Obey Workmen's Committee.

Amsterdam, April 11.—The Workman's Defence Committee decided yesterday morning to proclaim a cessation of the general strike at midday. The strike never was really effective.

At a monster mass meeting, however, held later in the day, the federated unions repudiated the action of the Workmen's Defence Committee and decided to continue the strike without the consent of the committee. With the exception of the diamond cutters, all the men will remain out.

Anti-Strike Bill Passed.

The Hague, April 11.—The Second Chamber of the Netherlands Parliament Thursday adopted the Anti-Strike Bill, by 81 to 14 votes. The Socialists and Liberal Democrats voted with the minority. The punishment clause of the Anti-Strike Bill was adopted by 78 to 15 votes. The Chamber also authorized the formation of the proposed military railroad brigade, to work on the railroad during strikes, and adjourned sine die.

Rome Regains Normal Aspect.

Rome, April 11.—All the strikers, with the exception of the compositors, have resumed work and Rome has regained its normal aspect.

300 STILL ON STRIKE.

Conference in C. A. R. Trouble Ends Fruitlessly.

Montreal, April 11.—General Manager Chamberlain of the Canada Atlantic Railway, and President Wilson of the International Brotherhood of Maintainance of Way have had a conference, but the 300 trackmen are still on strike. Mr. Wilson before going into conference got the men to agree to accept the same rate of wages as was being paid by the C.P.R., but this would not be conceded, the Canada Atlantic refusing to treat with men on strike.

Union Labor to Own Mines.

Fort Smith, Ark., April 11.—The Labor Fuel Company, recently organized with a capital of $75,000,000, is to be a gigantic coal mining company, owned and controlled by union labor. J. Mallette, southwestern representative of the American Federation of Labor, is president, and A. L. Rattere, chairman of the railway clerks' legislative board, is the vice-president. The directors are all labor men. The company has purchased 15,000 acres of coal lands, and stock is being sold to members of labor unions on installments if desired. Operations will soon begin.

Vancouver Carpenters' Strike Over.

Vancouver, April 11.—The carpenters' strike is at last ended, and the men have agreed to return to work on the contractors' terms of $3.00 per day of eight hours, and with the understanding that the difference of 20 cents per day, making 40 cents per hour, be submitted to a board of arbitration.

Tie-Up at Brockville.

Brockville, April 11.—Engineers of the Canadian Pacific Car and Passenger Transfer steamers struck Thursday for a union scale of wages. All the American boats were ordered tied up by the company. This stopped all ferries between Morristown, Brockville, Ogdensburg and Prescott, except the passenger ferry here carrying the United States mail, which work is done by a Canadian boat. The Marine Engineers' Union is sustaining the strikers.

To Increase Your Weight.

If you are thin, weak and emaciated and want to increase your flesh and weight you should try Dr. Chase's Nerve Food. You can feel it doing you good from day to day as it strikes at the root of the trouble and creates new rich blood. You can prove that it builds up new tissue if you weigh yourself each week after beginning to use it.

EASTER VACATIONS.

For the Easter vacations the

CANADIAN PACIFIC

announce return tickets will be issued the general public at

Single Fare

Good going April 9th to 13th inclusive; valid for return until April 14th.

On surrender of standard form of school vacation railway certificate, teachers and students will be issued return tickets at Single Fare and One-third, good going April 4th to 11th, good for return until April 21st, 1903.

The Easter vacations are always looked forward to with considerable anticipation after the winter season and the favourable limit will no doubt induce many to avail themselves of the opportunity of visiting friends at this season.

Tickets will be issued between all stations in Ontario, Port Arthur, Sault St. Marie, Mich., Detroit, Mich. and East. Ask your Canadian Pacific agent for copy of leaflet giving full particulars.

A. H. NOTMAN,
Assistant General Passenger Agent,
King-st. East, Toronto.

TORNADO METED OUT DEATH.

Further List of Fatalities From the Arkansas Tornado.

Morrilton, Ark., April 11.—Reports from outlying points in Van Buren County will add many names to the list of those killed and injured by the tornado of Tuesday evening. Because of the fact that there are no railroads and few telegraph or telephone lines, it will be several days before a complete list of the casualties can be compiled. The following names, in addition to those given on Wednesday, have been reported:—Dead—Infant child of George Shipp of Culpepper Mountain. Injured—Mr. and Mrs. George Shipp, and one child, the two latter probably fatally; Mr. and Mrs. Joiner of Slick Rock, house demolished and occupants blown forty yards; Mr. and Mrs. Pavitt and an infant child, latter two probably fatally.

The Buffalo Tragedy.

Buffalo, April 11.—The Pennell inquest was concluded yesterday. No evidence was given that would in any way help the authorities to clear up the Burdick mystery. The judge's finding was to the effect that he could not determine from the evidence submitted whether the death plunge was accidental or designed on Pennell's part.

WE
are not public benefactors.

Have you a good name?

If so, you enjoy the confidence of all who have the pleasure of your acquaintance.

Just so it is with any manufacturer whose goods are all they are represented to be, and who appreciates the value of a good name for his product; who is ever on the alert to improve according to changed conditions or demands—always determined that in his particular line there shall be nothing that so well meets the wants of the people as what he produces.

For more than twenty-five years

CHURCH'S COLD WATER ALABASTINE

has been on the market, and each succeeding year it has grown more and more in favor with increased sales as the result, which is evidence of its high standing for **Wall Tinting and Decorating. Made in Twenty Beautiful Tints and White.** *Anybody can do plain Tinting.*

For sale by hardware and paint dealers everywhere. Never sold in bulk.

Ladies, send us your address and get by return mail our "Housekeeper's Reminder." It is both useful and ornamental. Address

THE ALABASTINE CO., Limited, Paris, Ont.

All the Fashionable Hats, Perfect Fitting Shirts, Nobby Neckwear from Paris and New York, Dressy Gloves, Hosiery etc.

H. LeBRUN & CO., George and Hunter Sts.

Corticelli SPOOL SILK

Admitted by dressmakers to be the best sewing silk made. As Corticelli costs you no more than poor silk, why don't you buy it? Ask for "Corticelli" and politely, but firmly, refuse all substitutes, which some clerk may say are just as good.

Corticelli 3-A ASIATIC DYES Wash Silks

IN PATENT HOLDERS.

The colors are fast—the silk the best. Put up in Patent Holders, which prevents waste by tangling or soiling—keeps each shade separate, and automatically measures a correct needleful.

Recommended as the only proper way to put up Filo and Floss Silks, and used by art societies everywhere. Over 400 different shades of silk to select from.

Corticelli .....Skirt..... Protector

Peculiar Weaving Qualities and Perfectly Straight Selvage.

Corticelli Skirt Protector is of firm and even texture. When soiled a sponge or brush makes it clean again, and no damage done. Corticelli Skirt Protector is a great favorite with fashionable and careful dressers.

If you are not already a subscriber to Corticelli Home Needlework Magazine, become one now. Full information on application to Corticelli Silk Company, St. Johns, P. Q., or any other Corticelli office.

Dated 11th April, 1903. 8d35

UNION LABEL

Daily Examiner.

SATURDAY, APRIL 11, 1903.

"For Men Only."

Rev. Geo. E. Williams, of Wilkespart, will speak at the Men's Meeting at the Y.M.C.A. on Sunday at 4.15 o'clock. Song service will begin at 4. Mr. Williams' subject will be "The Master's Blesseds." Mr. James Browne will sing. All men invited.

Did you see the fine Easter Calf at Kennedy's Meat Market? It's a beauty. Bring your children to see it.

Musical Entertainment.

A musical entertainment will be given by the pupils of Notre Dame Convent in the T.A.S. Rooms on Thursday and Friday evenings, April 16th and 17th. Admission, 25 cents. Tickets can be procured at J. J. Lynch's drug store and at C. B. Routley's. 1d

Choosing Easter Gifts.

At the Peterborough Bookstore you have choice of a large assortment of articles suitable for Easter Gifts. Perhaps there's nothing more suitable for your friend than a good book. We have them in dainty bindings and in many suitable titles. Also Bibles, prayer books, rosaries, book marks, Easter booklets and cards, Easter novelties in hand-painted Easter eggs, etc., Souvenirs of Peterborough, a limited number still left. A. H. Stratton & Co.

An Easter Treat.

Come with Dr. Marsh, D. Sc., to St. Andrew's church, on Tuesday, April 14th, and see other worlds than ours. Come and see the ice-caps on Mars, see the immense cracks in the rocks of the moon — see the flames 400,000 miles high on the sun; see Saturn with his eight moons. All views obtained by the most celebrated telescopes — the Royal, the Paris, the Yerks and Johns Hopkins. A night of rare profit and pleasure. Silver collection, 10 cents and upwards. 2d

Charlotte Street Ladies' Aid Sale.

A sale of useful and fancy articles, under the auspices of the Ladies' Aid of the Charlotte street Methodist church, will be held in the Lecture Room of the church, on Thursday, April 16th — afternoon and evening, commencing at four o'clock. Refreshments will be served and a good programme furnished. No charge for admission during the afternoon, but an admission fee of 10 cents will be charged during the evening. Do not miss seeing the up-to-date doll's millinery table. s-m-w

Tennis Racquets at Salisbury's—$1.00 to $5.00.

AN EASTER WEDDING.

Nuptials of Miss Hettie H. Crowe and Mr. Frederick P. Champion.

The residence of Mr. Charles Crowe, Sophia street, Ashburnham, was the scene of a very pretty ceremony this afternoon, at two o'clock, when his third daughter, Miss Hettie H., was united in marriage to Mr. Frederick P. Champion, a popular and well-known resident of Toronto.

The ceremony was performed by Rev. Judson McIntosh, brother-in-law of the groom. The bride was given away by her father, and the wedding march (Mendelssohn's) was played by Mrs. (Rev.) McIntosh.

The bride was becomingly attired in a costume of fawn coloured crepe de chene, over pink silk, trimmed with silk applique, and carried a bouquet of white roses.

She was assisted by her sister, Miss Bessie, who was gowned in pale blue organdie, trimmed with cream applique and carried a bouquet of red roses.

Mr. Louis Champion, brother of the groom, ably filled the duties of groomsman.

After the ceremony the happy couple, together with about forty relatives and friends, sat down to a sumptuous wedding repast.

The bride, who was well known, was the recipient of many beautiful and costly presents.

The groom's gift to the bridesmaid was a diamond brooch.

Mr. and Mrs. Champion left on the evening train for their future home, Margueritta street, Toronto, carrying with them the best wishes of their many friends for a long and happy wedded life.

MR. R. M. ROY'S NEW STUDIO.

One of the most Luxuriously Furnished Rooms in the Province.

Mr. R. M. Roy, Peterborough's well known photographic artist, has just completed a new suite of operating, reception rooms, offices, and adjuncts, which constitute, it is said, one of the finest, if not the finest, in Ontario. It is indeed a great comfort to walk from off the bare stairway, leading to offices and the like, into a large and most luxurious waiting room, for the perfection of which neither money, pains or labour have been spared. In fact, before these additions had been commenced, Mr. Fred Roy spent some time travelling through the United States, visiting the best studios in that country, thus obtaining ideas for his new and beautiful atelier.

The office is situated at the south end, while at the north and are two dressing rooms and lavatory. The dressing rooms are fitted with both small and full length mirrors, so that those wishing to be photographed may see that their dress is correct in every detail. Even up-stairs everything has been renovated, and the dark room has been made more efficient.

Mr. Roy has made for himself in the past a reputation for being a photographer of the highest class, and with new apparatus his work should be even still better, if such can be possible.

Mr. "Tuft" Morne, the popular mate of the steamer Empress, was in town to-day. Mr. Morne is anticipating a big season's business and his friends here are anxiously awaiting the opening of navigation, in order that they may patronize his popular boat again.

Mr. George Guillett, ex-M.P., of Port Hope, who, it will be remembered, met with such a severe accident whilst duck shooting at Stony Lake last fall, arrived in the village on Monday, and went up to Stony Lake to look after his cottage. Mr. Guillett has regained the use of his hand, and can handle a paddle as well as ever. He was accompanied by Mr. Levi Payne, the well-known fisherman.—Lakefield News.

HAS JILTED HIS BETROTHED.

The Fickle Young Man Now Loves Another.

It is learned by personal interview that a certain young man residing in Warkworth, has jilted his betrothed, and transferred his affections to another.

The young man, it transpires, was in love, and had his proposed marriage announced in church, when he suddenly became enamoured with another young lady.

How the somewhat serious affair will end is at present a matter of conjecture. Needless to say, all Warkworth and the countryside in that vicinity, are on the qui vive for any further developments.

CHEESE INSPECTORS FOR THIS DISTRICT.

Mr. Robert Ward Will Again Visit Peterborough.

One of the class now receiving instruction at the Kingston Dairy School, gives the names of the inspectors of cheese factories lately appointed west of Kingston, and the district assigned to each. They are as follows:

Lindsay District—Wm. Hall.
Peterborough District — Robert Ward.
Campbellford District — Thomas Thompson.
Belleville District—Hugh Howey.
Picton District—Mr. Dougan.
Stirling District—J. B. Lowery.
Madoc and Tweed District — Herb. Morton.
Bancroft District—Jas. Irwin.
Napanee District—Geo. Bensley.
Kingston District — A. M. Ferguson.

The inspectors, or instructors, will not be compelled to carry a Babcock tester this year as they are gradually doing away with this and each factory is required to provide one for its own use.

The inspectors will carry the Alkaline test and the Fermentation test, which will make a load without the Babcock. They will commence work about the first of May, and Mr. Publow will visit each syndicate as often as he can during the summer.

NEWS NUGGETS.

—Havelock will have a brass band.

—A purse containing some money was picked up on the market this morning.

—Local sports are trying to force on spring. They played baseball yesterday.

—The Easter Term at the Business College begins on Tuesday, 14th inst. Enter on that date.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 199.

—The Property Committee of the Board of Education made their tour of inspection yesterday.

—The annual Vestry meeting of All Saints' church will be held on Monday night next at 8 o'clock.

—The succulent sucker circulates up the streams now to be successfully snared by the seeker of suckers.

—There was an exceptionally large number of people in town to-day, and the market was more active than usual.

—Considerable comment has been of late made of the Lindsay roads, but even the Peterborough roads still give some grounds for complaint.

—George A. Parcels, who was committed for trial by County Police Magistrate Edmison at Havelock on Monday last, on the charges of extortion and perjury, has been admitted to bail on bonds of $2,000.

—The usual Easter Sunday morning prayer meeting in charge of the Epworth League of George street church will be held in the church parlour to-morrow morning at half past seven o'clock. All interested are cordially invited to be present.

—The Examiner has received a communication re gambling in Peterborough. The letter is unsigned, but if the writer is good enough to forward his name, not necessarily for publication, the letter will appear in these columns.

—Mr. P. B. McIlhargey, local stock buyer, purchased from the farmers of Ops and Mariposa this week over 320 hogs. The animals were delivered to-day and a carload was sent to the Mutthews Co., Peterborough, and another to the Buffalo market. The price paid was $5.85 per hundred, which is about 40c. loss than the price paid last week.—Lindsay Post.

—Miss J. I. C. Muttlebury, of Toronto, died about January 13th, last, having made during her lifetime a will appointing P. W. McQueen and A. Pyne, M.D., M.P.P., executors. Mr. McQueen and Dr. Pyne renounced probate in favour of The Trusts and Guarantee Company, Limited, who have been appointed administrators. The estate consists of real estate in Toronto, stocks and mortgages.

Lacrosse Sticks at Salisbury's—50c to $2.75.

THE FIRST EASTER.

In the end of the Sabbath, as it began to dawn toward the first day of the week, came Mary Magdalene and the other Mary to see the sepulchre. And, behold, there was a great earthquake; for the angel of the Lord descended from heaven, and came and rolled back the stone from the door, and sat upon it. His countenance was like lightning, and his raiment white as snow; and for fear of him the keepers did shake, and became as dead men. And the angel answered and said unto the women Fear not ye; for I know that ye seek Jesus, which was crucified. He is not here; for He is risen.

—St. Matthew, 28: 1-6.

LOCAL LEGAL.

Webb vs. Canadian General Electric Company. — This case was tried before Meredith, J., at the last assizes here, when judgment of non-suit was entered. From that the plaintiff appealed to the full court in Toronto. After reserving judgment, the court to-day set aside the trial judge's finding with costs and granted a new trial, and ordered the defendants to pay costs of former trial. J. Green, counsel for plaintiff; R. M. Dennistoun, counsel for defendants.

Y.W.C.A.

The Easter service at the Y.W.C.A. rooms to-morrow afternoon, will be led by Rev. J. A. Wilson, of St. Paul's church. All young women are cordially invited to be present.

AN ISOLATION TENT

Has Been Placed on the Grounds of Nicholls Hospital.

The Board of Trustees of the Nicholls Hospital have added a large-sized isolation tent, made by Messrs. J. J. Turner & Sons, for the treatment of diphtheria, scarlet fever and other contagious diseases. The tent is 15 by 30 feet in size, and is built on the same designs as the small-pox tents that Messrs. Turner & Sons have been turning out for some time. It is understood that the management of St. Joseph's hospital are considering the advisability of adding a tent of the same description to their hospital.

GENERAL MEETING OF THE BOARD OF TRADE

To Consider the Street Railway Franchise Proposition.

A general meeting of the Board of Trade will be held in the Town Council chamber on Tuesday next, April 14th, at 8 p.m. sharp. The business to engage the attention of the meeting will be the Street Railway Franchise, etc. The attendance of the members is earnestly requested.

PETERBOROUGH LAWN BOWLING CLUB

Held its Annual Meeting Yesterday Afternoon.

The regular annual meeting of the Peterborough Lawn Bowling Club was held in the Charlotte street curling rink yesterday afternoon. Mr. R. Kerr was on motion elected chairman. There were present Messrs. E. B. Edwards, G. H. Giroux, R. M. Waddel, E. A. Cox, Dr. Bradd, C. G. Graham, F. E. Dixon, H. Rush, M. Tooley, R. F. Frost, R. Sturgeon, J. McCreary, J. McIntyre, and others.

The following patrons and officers were elected:

Patrons — Hon. J. R. Stratton and Mayor Roger.

Hon.-Pres.—R. P. Boucher, M.D.

President—R. Kerr.

Vice-President—Dr. Bradd.

Secretary-Treasurer—H. Rush, Jr.

Green Committee — G. H. Giroux, R. M. Waddel and E. A. Cox.

The following members were elected skips for the coming season: Messrs. A. H. Stratton, F. J. Bell, W. J. Thompson, Dr. Boucher, W. G. Ferguson, Col. Edwards, H. Armstrong, Wm. Pringle, E. A. Cox, R. M. Waddel, W. Sallsbury, R. Kerr, H. Rush, jr., J. McIntyre, G. H. Giroux, Dr. Bradd, M. Green, Alex. Elliott, F. H. Dixon, R. J. Frost.

It was resolved that a roller and lawn mower be purchased in order that the grounds may be put into playable condition. Another meeting will be held on April 20th for the purpose of selecting rinks. The meeting then adjourned.

A FORMER RESIDENT OF PETERBOROUGH.

Mr. W. Packenham B. A., Principal of the Toronto Technical School.

The Toronto Globe of yesterday contained the following article concerning Mr. W. Pakenham, B.A., at one time on the teaching staff of the Peterborough public schools:

"W. Pakenham, B.A., Principal of the Toronto Technical School, was born in 1866 at Glen Miller, Ont. His early education was obtained from 1879 to 1883, at the Campbellford High School and the Peterborough Collegiate Institute. From 1884 to 1890 he was engaged in teaching in the public schools of Peterborough County, and in the High Schools of Port Dover and Smith's Falls. During this time he also took his course for the B.A. degree at the University of Toronto, graduating in 1892. From 1890 to 1894 he taught in St. Thomas College Institute, and was appointed principal of the Brockville Collegiate Institute in 1894, continuing in that position until 1897, when he was made Registrar of the Education Department, Toronto. In 1890 he obtained the degree of Doctor of Pedagogy at the University of Toronto. In 1902 he accepted his present position as Principal of the Technical School. From 1894 to 1902 Mr. Pakenham was several times appointed university examiner in English and pedagogy."

The Globe also contains a photogravure of Mr. Pakenham.

A WARNING TO MOTHERS.

Ask any doctor and he will tell you that the "soothing" medicines contain opiates and narcotics dangerous to the health of infants and children. Every mother should shun these so-called medicines as she would deadly poison. Baby's Own Tablets is the only medicine specially prepared for children, sold under an absolute guarantee to contain no opiate or harmful drug. Every dose helps little ones and cannot possibly do any harm.

No other medicine has been so warmly praised by mothers everywhere. Mrs. J. R. Standen, Weyburn, N.W.T., says: "Baby's Own Tablets are valuable in case of cases of diarrhoea, constipation, hives, or when teething. I have never used a medicine that gives such good satisfaction."

These Tablets will promptly relieve and cure all minor ailments of children, and may be safely given to a new born baby. Try them for your children, and we know that you will use no other medicine. Sold by all druggists at 25 cents a box, or sent by mail on receipt of price by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

GENERALLY SPEAKING

OUR GOOD MAYOR is a gallant gentleman. In deference to the wishes of the ladies he has had posted notices requesting expectorators not to expectorate in public places, but it is to be feared that the practice will not cease. Any person so lost to a sense of decency as to spout seal-brown puddles of tobacco tinctured saliva in public places will not easily be restrained by a simple request. It is to be supposed that the crusade is against tobacco chewers particularly, for there is not one in a hundred of those who spit in public places who are affected with tuberculosis and liable to deposit sputa laden with tuberculosis microbes.

* * *

NO DOUBT the ladies object to having their skirts defiled with saliva. Not only the spitters themselves to whom the Mayor's gallant request is addressed, but any thoughtful person will suggest that the ladies should, like charity, begin at home. The spitters could more easily clear their skirts if the ladies would raise their skirts clear of the ground. While the danger from the ejection of disease-laden sputa in public places is great, the danger is not nearly so great as the trailing skirt. A sweeping skirt is a graceful adjunct to ladies' attire—a thing of beauty in the drawing room or home, but as much out of place on the street—except in relation to the demands of fashion—as a rainy day skirt would be at a royal drawing room. A trailing skirt, dragged through the inevitable and unavoidable filth of the street, is a menace to health, and unless manipulated with rare skill, a delusion and a snare. Some ladies take a reef in a skirt with grace and skill; others drag it into a heap like a bundle going home from the wash. Some, by recklessness or awkwardness reveal anatomical outlines and details of locomotive machinery not intended. But this is better than the skirt at the trail. Dragging on the walks it wipes up the dust which often rises behind a lady in clouds sometimes so dense that a passenger behind her is forced to wait till the clouds roll by. It stands to reason that a skirt collects in this way all sorts of microbes and miscellaneous filth, which is shaken out and deposited in the dressing room or the bed room. With a rational length of skirt for the street, this would be avoided, and the shuddering dread which a lady feels for a pool of tobacco spittle, would be largely eliminated.

* * *

NEVERTHELESS, that does not excuse those to whom Mayor Roger appeals. Spitting in public places is an inexcusably filthy habit, and cannot be too strongly condemned. Like many other habits, it is an unnecessary one, except in the case of the chewer of tobacco. With very little training the smoker can entirely break himself of the expectorating habit, which is a bad habit, both in relation to cleanliness and health. The saliva is an important element in the process of digestion; for that purpose glands for its secretion were placed in the mouth of man. That is nature's use of saliva, and we can in no way interfere with the processes of nature without paying the penalty.

* * *

IT IS TO BE HOPED that Mayor Roger's request will be treated with respect, and will have the gratitude of the ladies, but not to such an extent as to develop an embarrassing popularity or imperil the personal liberty he has so manfully preserved.

* * *

MONDAY NIGHT is the night spoken of for a conference of the Board of Health and the civic authorities. This is a meeting whose importance cannot be overestimated. At the risk of the subject being voted tiresome, it must again be repeated that the health of the town is one of the most important factors in its prosperity and, by all odds the most important factor in the happiness of the people. With first-class sanitary conditions such as a little foresight, care and good management, co-operating with our sewerage system and cheap water, we can have an ideal town. With these we can have a healthy population; with these our town will get a reputation as a desirable place of residence, as a healthy town. This with, our great commercial facilities, our unsurpassed railway transportation facilities and our power facilities we can present combined conditions which will be a magnet to attract manufacturing industries and consequent population. With increased population value will be added to real estate, building operations will be stimulated and growth such as the town is capable of will come. This is leaving out all sentimental considerations of homes darkened by death, resulting from disease resulting, in turn, from preventable unsanitary conditions.

* * *

WEIGHT IS ADDED the plea for improved sanitary conditions by the continued prevalence of diphtheria, which the doctors will assure you, is a dirt disease. Without seeking to be alarmist, it may be stated that the existing accommodation for this disease at both hospitals has become inadequate—so much so that the Nicholls Hospital has set up a tent to serve as a contagious diseases wing, and St. Joseph's Hospital is considering a similar action.

* * *

THE FOREGOING paragraphs were written under the assumption that a joint conference would be held, but inquiry at the City Hall shows that no such meeting has been arranged. Why not? No more urgent, and no more important subject can engage attention. Why this apathy? Why this indifference to the public welfare?

* * *

ANOTHER SUBJECT of a live nature and of present and pressing interest in view of propositions now receiving attention, is the erection of electric wire poles in the business streets to the cost of insurance. It is known that their presence on George street, especially, affects the insurance rates. Not only is the danger from imperfect wiring of buildings to be considered but the presence of a net-work of wires in front of business buildings is something the insurance companies reckon with in adjusting rates. It is known that these wires interfere seriously with the operations of the fire brigade. It can easily be seen that such obstructions may as easily result in the disastrous spread of fires so as to cause conflagrations of a most serious character. Cities have the main lines of poles largely on side streets, and thus leave the business quarters free. There does not seem to be any good reason why these wires should not be placed underground. Of course the expense is an objection, but when it comes to the point as to whether ratepayers should contribute to the profits of corporations at the expense of increased insurance rates, and in increased fire losses, the people should have the preference. When we give the use of our streets for their convenience, we should not be made to pay for privileges of which corporations get the chief benefit.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

The Beehive

WM. LECH & SONS
Oldest Established and Leading Fur Manufacturers, 413 George Street.

T. A. S. HOCKEY CLUB'S HANDSOME PICTURE

Now on Exhibition in Gough Bros. Window—Mr. Whiten's Work.

Messrs. Gough Bros.' window contains a very handsome picture. It is that of the T.A.S. Hockey Team, the champions of the Trent Valley League, and for originality of style, excellence of finish and general design, it perhaps surpasses anything of the kind seen in Peterborough in some time. The artist is Mr. Geo. Whiten, who has been working on the picture for some time, and he is now receiving the congratulations of his friends upon the excellence of his workmanship and the unique arrangement of the players and officers. The boys were taken as they were ready to face the opposing team Norwood, for example. The interior of the rink and one end is taken, and it shows up to perfection. McCoy stands in goal with his old time composure. In front of him is Bill Meagher, whose likeness is perhaps the best of any of the boys. Will Crowley at his old and reliable position of cover point, is plainly visible, whilst the forward line, consisting Parnell, Lynch, George and McGrath, are equally good likenesses of the originals. The beams of the rink, the seats, the puck, and even the finly interlaced marks on the ice are plainly visible.

Around the outside of the players are arranged the officers of the T.A.S. Club. These are Rev. Dr. O'Brien, Hon. President, D. J. Devine, Secretary Treasurer; J. Picard, Manager; L. Potvin, Treasurer; W. Grady, spare man; M. McDonough, trainer, and Messrs. R. J. Begley, E. E. Hickey, A. S. Sharpe, members of the executive committee. Mr. E. S. Clarry, Secretary-Treasurer of the Trent Valley Hockey League, has also been honoured with a place in the picture, which is handsomely framed and is a credit to the club and artist.

GAMEY CHARGES FORMULATED.

(Continued From 1st Page.)

ment, and also the expenditure of public moneys in the said electoral district from that time forward, and also to withdraw the said election petition filed against me.

(7) On or about the 10th day of September, 1902, at the Parliament buildings, in the City of Toronto, aforesaid, in pursuance of the said scheme, the said Stratton, acting for himself and other members of the Government, and with their knowledge, paid, or caused to be paid, the said sum of three thousand dollars in money out of the said fund; and at divers times appointed persons recommended by me to places of emolument in the administration of public affairs in the said electoral district, and arranged for the expenditure of the public moneys in the said electoral district according to my demand.

(8) Before payment of the said money, the said Stratton, acting for himself and the other members of the Government, procured me to sign a letter addressed to the Hon. G. W. Ross, announcing my intention of supporting the Government of which he was the Premier, and stating that I had received no consideration therefor.

(9) That said Stratton, acting for himself and the members of the Government, procured the withdrawal and dismissal, on or about the 25th day of October, 1902, without costs, of the said election petition.

(10) On or about the 20th day of January, 1903, the said Stratton, acting as aforesaid, in pursuance of the said scheme, paid the sum of one thousand dollars to me out of the said fund.

R. R. Gamey.

8th April, 1903.

REWARD FOR INDUSTRY.

To the Editor of the Examiner:

Dear Sir,—I notice in the report of the proceedings of the Separate School Board, of Toronto, that the chairman proposed that pupils, who attend diligently to their studies during the day, as a reward for their industry be allowed to leave the class at 3.30 instead of 4 o'clock during the summer months. It is said that some of the teachers favour the proposition. I should like to know how our practical educationists in Peterborough view such a departure. About a third of our taxes go to the maintenance of our schools, and we should have all the information possible on the subject.

Yours etc.,
SCHOOL SUPPORTER.

MARRIED.

RHEUMATISM CURED.

A CLOUD OF WITNESSES

Stand Ready to Tell of Their Cures of Rheumatism by Munyon's Rheumatism Specific.

THE GRANDEST DEMONSTRATION

Ever Made by Any Remedy—The Whole Country Excited Over the Wonderful Cures.

"That man is rich who has good health; that man is poor indeed whose body is racked by aches and pains, no matter how great his bank account may be."—MUNYON.

There are tens, aye hundreds, of thousands in Canada who have been cured of disease by his remarkable remedies. There are many thousands added to the already big list of users of Prof. Munyon's remedies because they have been cured of, in many cases, severe rheumatism. The following are testimonials received from persons who obtained a free vial at the big distribution recently held in Toronto.

ROBERT BUNKALL.

"I received one vial of Munyon's Rheumatism Cure at the distribution at The News Office, and it has been of untold benefit to me. I could not move my arm, it pained me so much; now I can move it freely. I have no more shooting pains, and I believe I am cured. I recommend this wonderful remedy to everybody afflicted with Rheumatism. Robert Bunkall, 1,109 King street east, Toronto.

MRS. F. HIMBS.

"I tried all sorts of medicine and physicians to get relief from Rheumatism and the best I could get would be a slight relief for a few hours. Munyon's Rheumatism Cure is above them all for taking away the pain. I feel so free from any kind of distress that I know I am cured." Mrs. F. Himbs, 628 Givens street, Toronto.

MUNYON'S REMEDIES.

Munyon's Cold Cure prevents pneumonia, and breaks up a cold in a few hours. Price 25c.

Munyon's Rheumatism Cure cures Rheumatism permanently. Price 25c; at all druggists.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cough Cure stops coughs, night sweats, allays soreness and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins or groin and all forms of kidney disease. Price 25c.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Female Remedies are a boon to all women.

Munyon's Vitaliser restores lost power to weak men. Price $1.

FREE MEDICAL ADVICE.

STOCK BROKERS OF HALIFAX.

Grand Jury Indicts Leading Members For Maintaining Gaming Houses.

Halifax, N.S., April 11.—The jury has presented true bills for maintaining gaming places against the following leading stock brokers: Rex v. F. B. McCurdy and R. H. Metzler. Rex v. Joseph Muirhead, Rex v. J. C. Mackintosh, Rex v. B. M. Beckwith, Rex v. E. F. Smith, Rex v. E. E. Beck and R. S. Rosborough, Rex v. E. J. H. Pauley.

Before discharging the jury His Lordship remarked that they had done their duty towards the public, though it cannot be taken for granted that because a true bill has been found an accused person is necessarily guilty, and he would endeavor to do his duty.

Warrants for the defendant brokers were applied for and granted. The announcement of the finding of true bills in the stock broking cases caused quite a stir down in the city. The cases are to be tried in open court.

TAPS FROM THE WIRES.

Chicago.—Police Lieut. Moore and four Italians were wounded Thursday by revolver shots in a riot caused by an election argument. One Italian may die.

Elizabeth, N. J.—Three railroad men were killed by the derailing of a drill engine Thursday. Spreading rails sent the engine over a 20-foot embankment.

Pensacola, Fla.—Three lives were lost and several were hurt by the premature bursting of a shell in a 12-inch gun on the Iowa on Thursday. The shell exploded 60 seconds before it was timed.

St. Petersburg, April 11.—The report circulated in Paris that the Czarina is suffering from peritonitis is untrue. Her Majesty, who is in perfect health, left here Friday for Moscow with the Czar.

A strong resolution against the practice of vaccination was passed at a largely attended meeting in Toronto on Thursday night. An effort will be made to get the Legislature to do something to carry out the terms of the resolution.

The C. W. A. had a disappointing year, as revealed at the annual meeting in Toronto on Thursday. The receipts fell off considerably, only one district, No. 5, showing an increase. W. G. Ayling, Montreal, was elected president, and H. B. Howson, Toronto, secretary-treasurer.

Bradstreet's report shows a remarkable falling off in business failures for the first quarter of 1903, as compared with the last quarter of 1902. There are 280 failures, as compared with 375. The liabilities are $1,762,435, as compared with $3,283,927. The assets are $775,-821, as compared with $1,542,892.

A judicial decision, just handed down at St. Paul, Minn., in the United States Circuit Court of Appeals holds null and void the consolidation of the Northern Pacific and Great Northern Railways. The decision carries dismay to J. J. Hill and J. Pierpont Morgan and upsets a deal involving $300,000,000 of capital. It has been decided to appeal to the Supreme Court of the United States.

West After $30,000.

Hamilton, April 11.—Vincent Atkinson, 127 Robert street, a T., H. & B. brakeman, was arrested yesterday afternoon by Detectives Bleakley and Miller, and locked up on the charge of breaking into the company's office and freight sheds. Wednesday was pay day on the road, and there was about $20,000 in the desk, but the money was placed in the vault over night, and so the brakeman had all his trouble for nothing.

Tried to Bribe Governor.

St. Louis, April 9.—Charges have been laid against Daniel J. Kelly for having on three occasions offered a bribe of $1,000 to Lieut.-Gov. Lee to use his influence against the repeal of the present baking powder law and for sending him a cheque for that amount. It is said that $20,000 was disbursed among members of the Legislature for their votes on the law.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds, and croup, I have ever used in my family. I have not words to express my confidence in this remedy. — Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

Controlling Children.

Bursts of passion in a little child must be met by steady, gentle firmness on the mother's side. Loud outcries should be hushed not by angry words, but by a grave quietness of voice and speech, which helps to repress them by mere force of contrast.

Passionate gestures, such as blows, kicks and drumming with the heels upon the floor, should be prevented by physical force if necessary. Above all, the thing coveted if it causes the child to fly into a rage as the readiest means of obtaining it should never be granted. As the child grows older and can be reasoned with he or she should be taught to avoid the beginnings of wrath, to struggle against irritability and not to give way to it in words when it rises in the mind, says the Washington Star.

Quick tempered children often have generous, lovable natures, easily influenced for good. A wish to please another and to do what is right for its own sake may be made strong enough to close the lips against the torrent of angry words that rushes to them and so helps them to victory. Each effort at self conquest makes the next one easier.

MARKET REPORTS.

TORONTO LIVE STOCK.

Friday being a holiday, the receipts of live stock at the cattle market were the smallest of the year thus far, there being only 12 carloads all told delivered, composed of 105 cattle, 293 hogs, 45 sheep and lambs and about 12 calves.

Export Cattle—Choice loads of heavy shippers are worth $4.65 to $4.85; common light exporters, $4.30 to $4.50.

Export Bulls—Choice heavy export bulls sold at $3.75 to $4; light export bulls, $3.50.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1150 to 1200 lbs. each, are worth $4.25 to $4.50; loads of medium butchers, $3.65 to $3.85; loads of good butchers at $3.90 to $4.25; common butchers, $3.35 to $3.50; rough, $2.85 to $3; canners, $2.60 to $2.90.

Short-keep Feeders—Good steers, 1100 to 1150 lbs. each, are worth $4 to $4.35 per cwt.

Feeders—Steers of good quality, 900 to 1000 lbs. each, are worth $3.50 to $3.80 per cwt.

Stockers—One year to two-year-old steers, 400 to 700 lbs. each, are worth $3.50 to $3.75 per cwt.; off-colors and of poor breeding quality of same weights are worth $2.75 to $3 per cwt.

Milch Cows—Milch cows and springers are worth $35 to $50 each.

Calves—Calves sold at $2 to $3 each, or from $4 to $5.50 per cwt.

Yearling Lambs—Lambs sold at $4.50 to $5.50.

Sheep—Prices, $4.25 to $4.75 per cwt. for ewes, and bucks at $3.50 to $4.

Hogs—Best select bacon hogs, not less than 160 lbs. nor more than 200 lbs. each, off cars, sold at $6.12½ per cwt.; lights and fats at $6; sows, $4.50 to $5 per cwt.; and stags, $3 per cwt.

CHICAGO LIVE STOCK.

Chicago, April 10.—Cattle—Receipts, 2500; steady; good to prime steers, $5.10 to $5.60; poor to medium, $4 to $4.80; stockers and feeders, $3 to $4.75; cows, $1.75 to $4.65; heifers, $2.50 to $5; canners, $1.75 to $2.75; bulls, $2.50 to $4.40; calves, $3 to $6.75.

Hogs—Receipts, 15,000; slow and weak; mixed and butchers', $7.20 to $7.35; good to heavy, $7.40 to $7.37½; rough, heavy, $7.20 to $7.35; light, $6.85 to $7.20; bulk of sales, $7.15 to $7.40.

Sheep—Receipts, 5000; sheep and lambs steady; good to choice wethers, $5.50 to $6.75; fair to choice, mixed, $5 to $5.50; native lambs, $5.50 to $7.80.

The Skin on Fire

So dreadful are the sensations of burning, itching Eczema that victims frequently describe their sufferings by saying that the skin is all on fire. The stinging, biting fires of Eczema are quenched by the use of Dr. Chase's Ointment. The first few applications may cause a little uneasiness but a cure is sure to result and the skin is healed without scar or blemish.

Altogether Too Inquisitive.

Burgess—What a humbug Dolver is! When I asked him if he had read my article about "The Epochal Era," he said he had and that it was the finest thing he had seen for years, but when I came to question him I found he didn't know the first thing about the article. What do you think of that?

Y rrow—I think it should be a lesson to you to let well enough alone next time.

To Launder a Dolly.

To launder a dolly so that it adds to the table that it is to decorate is no easy task. Yet every laundress and housewife is well rewarded when the bit of fringed or embroidered linen comes smooth and polished from the iron. To make this possible lay the dolly on the ironing board wrong side up. Pull the edges straight and brush the fringe with a soft whisk broom. Iron until half dry, fold lengthwise with the edges even and iron again. Fold crosswise with the edges even and iron once more. The dolly should now be square. Fold the solid corner to the opposite (fringed) corner and iron on both sides. In this last folding bring the solid corner only to the edge of the fringe. When finally folded, the dolly will be triangular in shape. Always iron linen doilies with the weave of the goods. Plate doilies should not be folded.

Alice's Subterfuge.

Little Alice had no objections to going on an errand for her mother if she could pronounce the name of the article wanted. She dreaded the laugh which usually followed some of her attempts at a hard word. "Vinegar" was one of the most difficult, and her mother never sent her for this if she could get it any other way. One day, however, Alice was obliged to go. Entering the store, and giving the jug to the grocer, she said: "Smell the jug and give me a quart!"—Glasgow Times.

Couldn't Help It.

Claribel—You told me you were never going to write to young Hankinson again. Angie—He's written me a dozen letters I haven't answered, but in his last one he left a page out, and I had to write and ask him what it was about.—Colored Comic.

FUR TRAPPERS.

The Kind of Life They Lead Up In the Wilds of Canada.

"You admire furs," commented an old trapper as he sat contentedly smoking his pipe. "You should go where we get them. Ah, that is the life—pure air, plain, wholesome food and then after the season's work that brigade of fur loaded canoes going off down the lakes. Every canoe is loaded, you know, almost to the gunwale, and they string out one behind the other, a long line of them. They usually start out early in the morning and paddle, paddle, paddle, hour after hour down this stream, through that lake and so into civilization.

"But they don't forget to eat—oh, no! About noon they go ashore. They 'snub' the canoes to overhanging trees and hunt around for a good flat rock on which to start their fire. But those fellows don't take an hour for luncheon. Time is too valuable to them. They take a drink of tea, a bite of pork. That is about all. Then they are off again. The men spell each other at the paddles, and occasionally the canoes are bunched by steersmen for a good smoke.

"When night comes, the brigade goes ashore and pitches its camp. Tents are put up, campfires lighted and the supper prepared, great clouds of black flies and mosquitoes hovering around. Some of the men busy themselves preparing the great brown flapjacks for the next day, while others dry their moccasins or get their blankets ready to bunk in. Perhaps a canoe has to be patched the next morning before the start can be made.

"Oh, it is a great life up there in the wilds of Canada, where they get the furs. You should try it."

COULDN'T LIVE

Without Dodd's Dyspepsia Tablets—Mrs. Thos. Board, of Glen William, Speaks From Her Own Experience.

"I think I could not live without Dodd's Dyspepsia Tablets." These are the words Mrs. Thomas Board, of Glen Williams, Ont., uses in speaking of the relief she has felt through the use of those Dyspepsia banishers.

Mrs. Board knows what Dyspepsia means through bitter experience. She can tell all about the depression, the discomforts, the aches, the pains that accompany this most distressing of all chronic complaints. That's why she is so enthusiastic over Dodd's Dyspepsia Tablets.

She has proved that Dodd's Dyspepsia Tablets are a specific for all forms of indigestion and Dyspepsia, a safeguard against the disease itself and consequently against those other terrible and fatal diseases, such as Appendicitis, that medical authorities now declare spring from Indigestion.

Mrs. Board has learned the truth of the statement, "If you want to be well, and feel well, you must keep the stomach well." She has learned also that Dodd's Dyspepsia Tablets will keep the stomach well.

Mrs. Board is one of many. You cannot find a dyspeptic who has used Dodd's Dyspepsia Tablets.

No Cause For Alarm.

"Ah," sighed Mr. Henpeck, "it's a pity the way most great men's sons turn out. It's only in rare cases that they amount to anything."

"I hope," the lady returned, "that you are not worrying about our child in this connection."—Herald.

Out of Place.

A sentry, an Irishman, was on post duty for the first time at night, when the officer of the day approached.

He called, "Who comes there?"

"Officer of the day," was the reply.

"Then what are yez doin' out at night?" asked the sentry.

Crucial Test.

A great struggle arises in a woman's mind when she is asked what her new gown cost. She is always in doubt whether to cut the price in half and make you envy her the bargain or double it and make you envy her affluence.

LAME AND ACHING IN BACK AND LEGS

In Quick Time Mr. Oughtred and his Neighbor Were Cured by Using

DR. CHASE'S KIDNEY-LIVER PILLS.

Constipation, clogged kidneys and sluggish, torpid liver are derangements which usually accompany one another. Because of their direct and combined action on the kidneys, liver and bowels. Dr. Chase's Kidney-Liver Pills are the most prompt and thoroughly effective treatment for these ailments that money will buy. This statement is fully borne out by the letters of recommendation which are daily received at these offices. Here is one:

Mr. J. W. Oughtred, farmer, Marbleton, Wolfe Co., Que., writes: "Dr. Chase's Kidney-Liver Pills deserve to be recommended. I was lame all through my back, legs and arms, and had a continual dull pain in my bowels. Every little thing I did required great effort, I was so sore and lame. I took lots of other pills, but they only made me sick. When haying time came on I had sixty tons of hay to pitch, and felt that I could not possibly do it.

"Just at this time Dr. Chase's Kidney-Liver Pills came to my notice and did me so much good that I worked at the haying and did lots of other hard work with ease. I sent and got five boxes, and gave away one box to a neighbour, who was suffering so badly with backache that he could not do any work. He afterwards told me that they were the best pills he ever used, and is now real well. I found that by taking two a week they kept me feeling well. Other pills give me sick headaches, but Dr. Chase's Kidney-Liver Pills cure sick headache and suit me better than any others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmanson, Bates & Co., Toronto. 11

Could Not Sleep At Night.

Was All Run Down.

Had No Appetite.

FOOD WOULD NOT DIGEST.

Mrs. I. W. Warner, Riverdale, N.S., is glad there is such a remedy as

Burdock Blood Bitters.

IT CURED HER AND WILL CURE YOU.

She says: "I wish to add my testimony to the many others who have spoken so highly as to the unfailing virtues of Burdock Blood Bitters. I was all run down, had no appetite, lost all ambition, could not sleep much and had terrible headache and backache, and my food did not digest properly. I saw B.B.B. advertised, so concluded to give it a trial, thinking if it did so good it could do no harm. But after using one bottle I began to feel better, and by the time I had used three bottles I was feeling like a new person. I am so glad there is such a remedy provided for suffering humanity, and cannot praise it enough for I think there is no medicine like it on the market."

ON LIFE IN JAMAICA

CULTURED COLORED RACE OF LOYAL BRITISH SUBJECTS.

Crown Colony Which Is the Gem of the Caribbean Sea—Has the Finest Roads in the World—These Belong to the Government, as Does the Island's Only Railway Line.

Jamaica is one of the most fertile spots in the tropics—the gem of the Caribbean Sea, and is only five days' sail from Boston.

Market days present many interesting spectacles to the tourist visiting the larger towns of Jamaica. One of the things that will attract the stranger is the universal practice the people have of carrying parcels on their heads. It may be a seventy-five pound basket of fruit or vegetables; it may be a pound of beefsteak or it may be an empty tin can or glass jar; it will be carried on the head—never in the hand. Every bunch of bananas has been carried on someone's head either on the plantation or at the ship's side. Some have to walk twenty miles to market and will carry heavy burdens the whole distance on their heads. Women do most of the work and the result is they are very strong and of fine, straight figure.

Bananas require a great deal of moisture and irrigation is resorted to in some parts of the island with good results. Cocoanuts grow on the hills and thrive in the most inaccessible places. They are usually found near the sea, as they require sea air to do well. It takes ten years for a tree to bear profitably. Then a tree will produce from one to two hundred nuts per year. The pimento tree, from which allspice is made, also flourishes here, and is a valuable product.

The interior of the island is very suitable for cattle-raising and there may be seen here, for instance, a fine herd of Hereford cattle on the estate of Lord Malcolm, of Scotland, and large herds of Indian cattle, as well as thoroughbreds, on the estate of the Hon. Mr. Ellis of Montpelier.

Along the north shore, in the district contiguous to Montego Bay, large areas of sugar may be found. Sugar and rum are among the staple products of the island. Cereals are very little grown, but vegetables and small fruits, known as "hoe crops," do well in many parts, particularly the elevated sections.

Jamaica is beginning to see better times. The people of the island are getting their share of the prosperity which seems to be enjoyed by many lands to-day. This is, no doubt owing, largely to the business carried on by the United Fruit Company. One planter, formerly a sailor, who, twenty years ago, did not possess a dollar, is to-day worth $250,000. Many other examples of prosperity could be cited.

The finest roads in the world are to be found in Jamaica. They are built by the Government, which spends about eighteen thousand pounds a year on this their principal branch of public works. In the construction of these roads a kind of limestone is used. When broken up fine and properly packed this stone soon forms a kind of cement and makes a smooth and very durable road. The stone can be taken off any one's property for this purpose. It is mostly broken by women, who like the occupation very much as it gives them a splendid chance to get together and talk. They are paid a shilling a day and would rather work at this job than almost anything else.

The peace of the island is guarded by a force of military police. These are drilled and officered by English inspectors, a station being provided in every village of a hundred and fifty inhabitants and the whole force being under the commanding officer of His Majesty's forces, whose headquarters are at Spanish Town. The police are all colored, carry rifles, with sword bayonets, and batons as well. They are a splendid lot of fellows.

There is very little serious crime committed in Jamaica, the greater number of offences being known as predial larceny. There is a class of blacks too lazy to work. It takes but a few cents a day to keep them, but they often would rather steal than earn even this. There is little quarrelling or profanity and almost no drunkenness.

Many of the rum shops through the country are kept by Chinese. Some say the reason there is not more drunkenness in that country is that the blacks have not money enough to buy much rum with. Others say the fine police system they have is responsible for the good order, and that without them things would soon "go to the dogs." Certain it is that the law is administered swiftly and justice is meted out with impartiality and often with wholesome severity.

The population of Jamaica is almost entirely colored, as we would say, but the people of the island make quite a distinction in the matter of color. A native who has no strain of white in his composition is called a plain "black." One who has the least strain of white ancestry in him, which is a most common circumstance, prides himself on being "colored" and would be highly insulted if called a "black."

The ancestors of these interesting people were slaves previous to 1834, when they were liberated by the British Government. They are proud to be British subjects and have developed to be a self-respecting, intelligent, ambitious and cultured people. There is an entire absence of that cowering, cringing mien shown in the negro of the Southern States. There is no color line, as the term is understood, in the neighboring republic. The great majority of the inhabitants are what we call mulattoes, says a recently returned Canadian tourist to the Island. Features that are generally considered objectionable in persons of negro extraction are entirely absent in their case. They are extremely clean, polite and respectful. They consider themselves, and are considered, the equal of the white man in every respect. There are whole cities in which no white residents have their permanent abode. The Government officials, excise officers, postmasters, college professors, ministers of the gospel, lawyers, doctors, railway agents, manufacturers, merchants, traders and planters—all are "colored."

Jamaica is a Crown colony, and, of course, it follows that the governor, the solicitor-general, the minister of public works, the colonial secretary, the commander of the military forces, and the judges are white and British. Fourteen representatives, mostly colored, are elected by the people, but the representatives of the Crown are in the majority in the governing body, and the governor, who presides, has the casting vote. The constituency of one black representative includes 500,000 voters. Four of the richest planters in all Jamaica are colored.

They are all intensely loyal and proud of the flag that stands for freedom. When questioned as to the extent of sentiment existing among the populace regarding annexation to the United States a very well informed gentleman said it would be hard to find one native or other resident in favor of annexation. "We know," he added, "what that would mean. We know how colored people are regarded in the United States. Here we have no color line, no ostracism, no 'Jim Crow' cars. We stand on an equality with our fellow subjects and we know who to thank for our privileges."

The school system of Jamaica is a very liberal and efficient one. Children are allowed to go to school free of all charge until they are fourteen years of age, after which a nominal fee is charged. Children there appear to be as intelligent and well informed as our own children of the same ages. They all speak English, although with a somewhat peculiar accent.

The Church of England is the strongest religious body in Jamaica. The Salvation Army has a firm footing and is doing a good work. There are a few Baptists and Methodists, and probably members of other denominations on the island. The ministers, who are, for the greater part, colored, are highly respected, educated, influential and well supported. Several churches may be seen which were built and their congregations established in the seventeenth century. Many of the Anglican churches are endowed or partially supported by funds contributed by friends in England or other places.

In the matter of sanitation great improvements have been made in the past few years. Yellow fever, once the scourge of the island, has almost entirely disappeared. There are two daily papers published in Kingston, the capital of the island, and weeklies in several of the smaller towns.

Among the attractions which draw the attention of all tourists, may be mentioned the old homesteads and estates whose mansions are perhaps partly in ruins, but filled with the most interesting relics of former days—days of slavery for the negro and princely magnificence for the owners of the rich and vast estates they have long since left behind. There are also the churches with tablets bearing inscriptions as early as the seventeenth century when the most noted people appear to have died in early life, no doubt carried off by the yellow fever.

There is one line of railway which is operated by the Government. It is about a hundred and sixty miles long. The cars have three compartments, known as the first class, the refreshment, and the third class sections. A young woman serves iced drinks in the centre, or refreshment compartment. The first class fare is two pence and the first class compartment is usually crowded with tourists making their first trip. Experience shows that there is more comfort in riding third class, as a rule. White and black mix without offence or discomfort to any of the senses or sentiments.

Jamaica oranges are much sweeter than those grown in Florida, and practically grow wild in the western portion of the island. Sweet and Tangerine oranges are sold at threepence per dozen at railway stations. One young grove, five years planted, covers 190 square acres. More Jamaica oranges are exported to England than to America.

Coffee growing is a very important industry, and the Blue Mountain coffee, which bears best at an altitude of about 4,000 feet, is considered the best in the world. It brings about three times the price of other coffee, and is mostly bought up by the Russians. It is scarcely ever seen in the United States or in Canada.

Logwood and several hard woods are plentiful, and form an important article of trade.

The pure whites form only a little more than one per cent. of the total population.

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

Dodd's Kidney Pills

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews Industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $12 the year, $1 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

Physicians say nothing is so helpful for throat and lung troubles, whether acute or chronic, and for wasting diseases, as Angier's Petroleum Emulsion with Hypophosphites. It is pleasant to take and agrees with the stomach.

It relieves congestion and irritation, soothes and heals the bronchial tubes, makes breathing easy, changes the character of expectoration, and cures the cough. Its effects are rapid. It aids digestion, helps assimilate the food, and has a healthy action upon the bowels. Pills and aperients are unnecessary.

I was troubled with bronchitis for ten years, being frequently unable to work for months at a time. I tried many remedies with poor results. I used Angier's Petroleum Emulsion, and feel like a new man. I have not been so well for many years.—Robert Weir, Toronto, Canada.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and insist on getting Angier's. Large size, $1.00. Small, 50c.

KNIVES FORKS AND SPOONS STAMPED 1847 ROGERS BROS. ARE GENUINE AND GUARANTEED BY THE Meriden Britannia Co. THE LARGEST SILVER PLATE MANUFACTURERS IN THE WORLD.

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mothers should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advertise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Eadie, of Leonardville, Riley Co., Kansas. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one in bed next (as I was sick only about three hours), and also that your 'Favorite Prescription' was 'the one patent medicine' which he did have faith in.

"We now have a darling baby boy, strong and healthy, who weighed nine pounds when born (July 28th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong; sick women well. Accept no substitute for the medicine which works wonders for weak women.

The Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 31 one-cent stamps for expense of customs and mailing *only*, for the book in paper covers, or 50 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

A GUARANTEED CURE
For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

A Novel Kitchen Carpet.

Take any old carpet that is whole, but too shabby for use, clean thoroughly and tack it down smoothly on the kitchen floor. Then make a good, thick boiled starch of flour and water. Rub a coat of this starch into the carpet with a whitewash brush, and in about twenty-four hours, or when the starch is thoroughly dry, give it a coat of paint—any color desired. Dark red is a desirable color for a kitchen. When the paint is dry, give a second coat, and you will have a cheap and durable floor covering, equal to linoleum, at about one-fourth the cost. By giving it a coat of paint once a year it will last for years. One great thing to recommend this carpet is that it is so easily kept clean.—Woman's Home Companion.

Broiled Chicken.

Here is a secret for making broiled chickens tender which has gained the good will of at least one carver: Split and wash the chicken, then place it, spread out as for broiling, in a meat cooker with cover, or, lacking that, in a biscuit tin. Add a little hot water, renewing it as it boils away. Cover with another tin and let the chicken steam in the oven or on the range until it is tender, but not fully cooked. Then place it in the broiler and finish it over the coals. A very young chicken will not need to be steamed, but one weighing two pounds or more is much improved by the process, which keeps the meat juicy and prevents drying and burning.—Good Housekeeping.

A Woman's Enterprise.

It is said that Mrs. Armour of Sierra county, N. M., is making a profit of $25,000 yearly from the breeding of Angora goats. She owns a herd of nearly 30,000, and one alone, Columbia Paschal, is valued at $1,500. Four years ago Mrs. Armour was left a widow with nine children. Having no money she took a few goats to rear and tend. She then located a claim where there was pasture for them all the year, built a cabin, worked and waited.

How to Use a Mirror.

A long mirror and a hand glass ought to be a necessity with every well dressed woman, and it should invariably be placed in the strongest possible light. This may make her wince as the years go by, but it will tend to make her careful and more apt to keep from other people what the glass tells her.

CULINARY CONCEITS.

When preparing a stew the addition of one tablespoonful of tapioca will make a great improvement.

Cakes will never burn at the bottom when baking if a little salt be sprinkled on the oven shelf under the cake tin.

All fatty tissue covering the shoulder or leg of mutton should be removed before roasting, to prevent the strong odor and flavor.

Do not melt the butter to be used in cake making. Bring it into a warm room in time to let it soften slowly before it is wanted.

The dish of hash left from the breakfast may be converted into savory dinner soup by cooking it slowly for two or three hours and seasoning it with parsley, onion, tomato and celery.

Soups and gravies are richer and better if the meat and vegetables are put into the saucepan first with a little butter and allowed to cook slowly for nearly half an hour before adding the water.

Cold baked potatoes may be warmed up and be as palatable as freshly baked ones if dipped into hot water a moment, then put into the oven, taking care that they remain only just long enough to get perfectly hot, but not hard.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo-Quinine Tablets. This signature E. W. Grove on every box. 25 cents.

A Narrow Escape For One Man.

The importance of examining closely the hair found on weapons was shown in a case in which a hatchet having clotted blood and hair adherent to it was produced as evidence against a prisoner suspected of murder in a little country town. It was found under his bed. This, with other circumstantial evidence, had turned public opinion strongly against the prisoner, but when the hair was examined by a microscopist who chanced to be in the courtroom it was found not to be human, but that of some animal. This circumstance led to a more complete sifting of the evidence, and the accused was acquitted. It turned out that he had killed a dog with the hatchet and had carelessly thrown the weapon under the bed. So his life literally hung on a hair.

Where Life Is Strenuous.

Here in the northwest one encounters the living representation of the strenuous life. Here men work together in a way unknown anywhere else. The east is insular, every man for himself. The northwest, indeed the whole west, has learned the value of co-operation and community interest. Migrating to a new country, with difficulties and dangers on every hand, the people have been forced to combine and stand with solid front to the world. As a result innumerable organizations have sprung up having for their purpose the advancement of some community interest.—Ray Stannard Baker in Century.

GOOD BLOOD IS NO GOOD UNLESS CIRCULATED

A Sick Man mistakes his illness, or his Doctor does

He shows symptoms of consumption, or dyspepsia, or what not, because improper blood nourishment of lungs or liver has brought them on. In such cases look to the heart; unless it pumps rich red blood through the system, your specific doesn't reach the spot.

Dr. Agnew's Heart Cure

sends the blood coursing through the veins as nature intended. It heals the heart and thus helps the health of every organ.

Rev. L. W. Showers, of Eldertown, Pa., writes:—"For many years I suffered with organic heart disease. I have tried many physicians and taken numberless remedies. I purchased a bottle of Dr. Agnew's Cure for the Heart and received almost instant relief. The choking, beating, thumping and palpitation have now almost entirely disappeared. The remedy is wonderful."

Keep clean inside as well as outside. Dr. Agnew's Liver Pills are the correct form. Cleanse and stimulate the digestive apparatus. Only 10c. for forty doses. 36

VARICOCELE NERVOUS DEBILITY CURED.

No Names Used Without Written Consent.

If you have transgressed against the laws of nature, you must suffer. Self abuse, later excesses and private diseases have wrecked thousands of promising lives. Treat with scientific physicians and be cured. Avoid quacks. R. A. Blakney, of Toledo, says: "At the age of 14, I learned a bad habit and at 19 contracted a serious disease. I treated with a dozen doctors, who all promised to cure me. They got my money and I still had the disease. I had given up hope when a friend advised me to consult Drs. K. & K., who had cured him. Without any confidence I called on them, and Dr. Kennedy agreed to cure me or no pay. After taking the New Method Treatment for six weeks I felt like a new man. The drains ceased, wormy veins disappeared, nerves grew stronger, hair stopped falling out, urine became clear and my sexual organs vitalized. I was entirely cured by Dr. Kennedy and recommend him from the bottom of my heart."

We Treat and Cure Syphilis, Gleet, Varicocele, Impotence, Stricture, Unnatural Discharges, Seminal Weakness, Kidney and Bladder Diseases.

THE LATEST NEWS OF LOCAL SPORT.

An Attempt to Organize a Cricket Club.

Havelock Tennis Club has Organised—Baseball Season Opened in Town.

CRICKET.

A meeting of the cricket enthusiasts was held in the Oriental Hotel on Thursday evening at 8 o'clock, for the purpose of organizing a cricket club, to form a district to consist of Orillia, Uxbridge, Lindsay and Peterborough.

Mr. R. B. Rogers, was on motion, elected chairman, and Mr. A. Boucher, secretary. There were present, Messrs. H. Walkey, F. Bradburn, George Rogers, R. Rogers, J. Mason, George Lundy, Morris Lowry, R. Hall, W. Bradburn, M. Kennedy, H. Kennedy and H. Burnham.

After some discussion Messrs. H. Walkey, H. Burnham, A. Bouchor, Ross Cameron and H. Rogers were elected a committee to promote the interests of cricket in town.

It was resolved that the former Colts challenge the Veterans to a game of cricket on May 24th.

Mr. R. B. Rogers volunteered to find out something more definite about the strength of the other clubs forming the proposed district. After some further discussion the meeting adjourned.

The cricketers of Campbellford announce a meeting of all interested in the old game for Thursday night next, April 16th, at the St. Lawrence Hall hotel at 8 o'clock, when the club will be re-organized. It is expected that a good strong team can be put upon the field this year, as eight of the eleven are bowlers. Cricketers on the front are trying to form a league composed of Brighton, Colborne, Grafton, Warkworth and Campbellford, and if successful, a series of matches will be played.—Campbellford Herald.

BASEBALL.

Nearly 200 spectators witnessed the first game of baseball of the season yesterday afternoon, when the Young Quakers defeated the Parkdales by a score of 9 runs to 5, and an innings. It was a fast game from start to finish, Swanston as the pitcher for the winners doing fine work in the box. The following is score by innings:

Quakers ... ...01300113x—9
Parkdales ... ...02010100—5

TENNIS.

An enthusiastic meeting of the votaries of lawn tennis, in Havelock, was held at the Sovereign Bank on Friday afternoon last. Arrangements were made for several courts in town and a prosperous season is promised. A match committee was appointed and friendly tournaments will be arranged for with the neighbouring towns. A hearty vote of thanks was tendered Mr. Vanarnam and Mr. Jas. Thompson for the proffered use of their lawns for the summer and also last season. The following officers and committees were appointed to act and attend the next meeting of the club:

Lady Patronesses—Mrs. R. A. Williams, Mrs. Jas. Thompson, Mrs. Vanarnam.
Hon. President—Mr. Vanarnam.
President—R. A. Williams.
1st Vice-President—Miss Vararnam.
2nd Vice-President—Jas. Thompson.
Treasurer—T. P. Lancaster.
Secretary—F. M. P. Watts.
Match Committee—R. A. Williams, W. R. Howson, D. L. Somerville.
Grounds Committee—Jas. Thompson, H. Wing, M. Swain, P. Lancaster, W. R. Howson, F. M. P. Watts.
Reception Committee — Misses Chandler, Hutchinson, Vanarnam, Lancaster, Brand, and Messrs. Somerville, Swain and Howson.

CANOEING.

The Trent Valley Canoe Club had their first outing of the season yesterday, when they made their way up the Otonabee River to dam No. 5. The party was composed of the Commodore, Vice-Commodore, Secretary-Treasurer and a number of others. There were at least three portages, the largest of course being from below to above the lift lock. The boys inspected dam No. 5, and made the return trip in good time.

Monkey Brand Soap removes all stains, rust, dirt or tarnish — but won't wash clothes.

THE CHURCHES.

ALL SAINTS' CHURCH.

In All Saints' church on Easter Sunday there will be two celebrations of the Holy Communion, these being at 8 a.m., and 11 a.m. It is sincerely hoped that every communicant will be present. In the morning the special music will be "Jubilate," Schilling; anthem, "Come, see the Place where Jesus Lay." The evening service will include the "Magnificat, and Nunc Dimittis, by Ebdon. There will also be three anthems, "Come, See the Place," "Oh, Christ, Thy Love," and "King of Kings."

Mr. J. Firth of Toronto, will sing a solo entitled "On the Cross," while the male quartette will give some selections. Rev. W. L. Armitage will preach in the morning on "Christ, Our Passover," and in the evening on "Where is the Lamb?"

There will be a special offertory towards the reduction of the debt.

ST. LUKE'S CHURCH.

The sacrament of the Lord's supper will be administered at 8 a.m., and at noon. The Rector will preach in the morning, "Jesus saith unto him, 'Rise,'" and in the evening, "Faithful unto death." Special music has been prepared. Baptismal service will be held at 10 a.m.

MURRAY STREET BAPTIST.

The music at the Murray street Baptist church to-morrow will be as follows:

A. M.

Organ voluntary, Communion.....Batiste
Anthem, Christ Our Passover...Schilling
Solos by Miss Hall and Mrs. Rehill.
Offertory solo, The Palms.....Miss Hall
Organ solo, Militaire March.....
Scotson Clark

P. M.

Prelude, Mendelssohn's Spring Song.....
Anthem, Christ is Risen from the Dead
Rogers
Offertory solo, The Resurrection.....
Miss Hall.
Holden
Voluntary, Harvest Festival, March..Hill
Miss Agar, organist; Miss Florence Hall, choir leader and soloist.

CHARLOTTE STREET CHURCH.

To-morrow morning the pastor, Rev. W. J. Jolliffe will take for his subject, "The Resurrection of Christ." In the evening, "Gold and Godliness," will be the topic, being the third of the series of special sermons. Master music by the choir, assisted by Mr. and Mrs. Killen-Keough, of New York City. Employers and employees specially invited to the evening service.

The following Easter music will be given in the Charlotte street church to-morrow:

Morning Service.

Anthem, "Christ our Passover".....
F. Schilling
Solos by Mrs. Pearse, Mr. Mitchell and Mrs. Killin-Keough.
Quartette, "The Magdalene"..... Warren
Miss Belleghem, Mrs. Pearse, and Messrs. Mitchell and Weir.
Duet, "The Lord is My Shepherd".....
Henry Smart
Mr. and Mrs. Keough.
Anthem, "Awake up My Glory".....
F. C. Maker

Evening Service.

Anthem, "Hark, Hark, My Soul...Shelly
(By request.)
Solos by Mr. Keough and Mrs. Killin-Keough.
Solo, "Fear Not Ye"..... .....Spross
Miss Belleghem.
Duet, "All Thought the Night"..... .....
Mr. and Mrs. Keough.
Quartette, "The Magdalene"... Warren
Miss Belleghem, Mrs. Pearce, and Messrs. Mitchell and Weir.

ST. ANDREW'S CHURCH.

At St. Andrew's church the pastor Rev. J. G. Potter will preach at both services. At 11 a.m. Communion Service, with appropriate music, including a carol, "Joy of Easter Morn." 7 p.m., Easter Praise Service with music as follows: Organ "Meditation," Lemaigre; Hymn, "Jesus Christ is Risen to-day, Hallelujah." Carol, "Joy of Easter Morn," English; Hymn, "Christ the Lord is Risen To-day"; Offertory Carol, "Christ is Risen," English; Solo, "Easter Day has Crowned Him King," Hawthorne; Miss Florence Miller; Hymn, "Blessing and Honour"; March, Triumphant from "Naaman," Costa. Strangers made welcome. All seats are free.

GEORGE STREET METHODIST.

George street Methodist church Easter services. Special music by the choir assisted by the Sunday School Orchestra. Sermons appropriate to the day will be preached by the pastor. All are cordially invited.

The music in George street Methodist church to-morrow all day will be, it is anticipated, most attractive. The choir will be assisted by an orchestra consisting of—1st violins, Mr. Gilbert Markle and Mr. Charles Seymour, 2nd violins, Miss Chasty and Miss Smith; flute, Mr. T. Byshe; clarionettes, Messrs. Pollard and Grange; euphonium, Mr. Ed. Cronke; trombone, Mr. Parrell; 1st cornet, Mr. W. Hughes; 2nd cornet, Mr. Montgomery; guitar, Miss Smith; double bass, Mr. W. Cunningham. Miss Nellie Davies will sing at both services.

Morning Service.

Organ Voluntary.
Anthem, "Hail Mighty Victor," Gounod.
Anthem, "Rejoice The Saviour Arose To-day," Meredith.
Anthem, "Awake, Awake," Rodney.
Solo, "Resurrection," H. R. Shelley, Miss Daviss.
Offertory, hymn anthem, "Spring Time Again is Here," adapted from Rubenstein's Melody in "F."
Organ postlude, Mrs. Mowat.

Evening Service.

Organ Voluntary.
Anthem, "Christ The Lord is Risen To-day," Ambrose.
Hymn, unaccompanied, "O, Calvary," Meredith; orchestra and choir singing.
Hymn anthem, "Nature's Joy Bells," Kirkland.
Solo, "I Know That My Redeemer Liveth," Handel, Miss Nellie Davies.
Offertory anthem, "Wonderful Light," Meredith.

ST. JOHN'S CHURCH.

It is expected that the Easter services at St. John's church will be as in former years, bright and inspiring. The choir, under Mr. Gliddon's direction, have made careful preparation, and the music promises to be worthy of the occasion. At the evening service the choir will be supported by an orchestra. The Holy Communion will be celebrated at 8 o'clock, and at 12.15 p.m. In the afternoon there will be a children's service at 3.15 p.m. Visitors will be cordially welcome at all services.

You certainly can't do better than consult Frost about your Watch. We pay special attention to Watch Repairing. Guaranteed work and moderate charges.

FROST'S
DIAMOND HALL
PETERBOROUGH.

THE MAY DESIGNER.

The handsome cover of The Designer for May is significant of the many good things which follow, prominent among which are, of course, fashions and millinery for spring and summer, also many novelties in trimmings, all of which are most attractively illustrated. Aside from the fashion features worthy of the highest commendation are "Floral Photography," "Chinese Little Folks," and a full-page poem, "My Lady's Gown," "Sweet Briar," and "A Memorable Memorial Day" are the three short stories of the month, while "The House-cleaners" is a delightful farce delightfully illustrated. "A May-Day Celebration" and "A Hunting Party" are suggestions for entertainments, and directions for making many handsome novelties in crochet supply the fancy work. Other features are valuable as well as entertaining.

Private Sale.
A quantity of household furniture only in use a few weeks, is offered by private sale at No. 147 London street. Owner leaving town. Can be seen any afternoon. d62

Nyslop Bicycles, Sundries and Tires of all makes are now on sale at Mothersill's Bicycle Works. This Nyslop is the best this year. Call and let us explain our terms.

We Must Move Them.
If you have any idea of the trouble and expense of moving granite and marble monuments and tombstones, you will understand our anxiety to sell what you see standing in our yard rather than have to move them to another stand. Our landlord is preparing to erect a new brick block on our corner, and rather than move our stock, we are asking but a fraction of what our monuments are worth to save moving. The Moore Monumental Company.

Baseball Goods at Salisbury's.

CHURCH CHIMES.

DOMINION OIL CO., LIMITED.

Chartered Under the Laws of Ontario and Operating Western Ontario Oil Fields.

This company has acquired since February 1095 acres additional of proven oil lands, including 500 at Thamesville, 360 in the Wheatley District, and 235 more in the Raleigh oil fields, and is now drilling on the Thamesville and Raleigh properties adjoining three new good wells just brought in.

These additions to the company's holdings give it a total

Increase of 70% in Assets.

It has now two drilling rigs running on its properties, and recently purchased and installed the finest drilling equipment in Western Ontario, which is now running night and day on the Thamesville property.

This company has paid dividends at the rate of 12 per cent. per annum ON PAR continually since its inception, thus netting the investor 24 per cent. return; and, in view of its rapid progress and substantial increase in assets, it has been decided to advance the price of stock to 60 CENTS per share, a very conservative advance, being an

Increase of Only 20 in Price.

Mr. D. C. Woodward, son of the president, recently discovered some NEW PETROLEUM DEPOSITS OF LARGE EXTENT IN ALBERTA, and the president starts to acquire these properties for the Dominion Oil Co. in the course of a few days.

As ordinary coal oil retails at 38c A GALLON in that country, owing to the heavy import duties and freight tariffs, and as there is a great demand for illuminating oil in the Northwest, through the newness of the country, there being practically no electric light or gas works, this company will find a ready market for its product at large profits by the installation of a refinery which the company purpose erecting after it has developed the production.

From the analysis made of this product by President Woodward, this oil is proved to be of great value also as a lubricant, to such an extent that the farmers have been using it for lubricating their harvest machinery and wagons.

President Woodward's experience of 35 years as one of the foremost oil operators and refiners of Western Ontario, erecting and operating some of the leading refineries, and subsequently thee management of large operations for English companies in Borneo and Russia, particularly qualify him for this new exploration and construction of a refinery in the great Northwest.

For the purpose of carrying on this development in the Northwest, the balance of the present allotment of stock is offered at 50 per cent. of par (par value $1.00, fully paid and non-assessable).

THE ADVANCE IN PRICE TO 60c

Will positively take place at the close of business on Saturday, April 11, and IMMEDIATE application is necessary to secure it at the present price, as NO STOCK WILL BE SOLD AT 60c PER SHARE AFTER THE ABOVE DATE.

Mail orders must positively bear date and postmark not later than Saturday, April 11.

Address all enquiries and make all checks, drafts and orders payable to the Fiscal Agents,

COLONIAL SECURITIES COMPANY, Manning Chambers, Toronto.

If one were asked, generally, you know, to say, deliberately and fairly and positively and knowingly where's the best place to buy, why, of course, certainly, the answer is " SUTCLIFFE'S"—and their Silks, their Spring Silks their Satiny Spring Silks are away, way better than their Silks have ever been before—Yes, better than that " Silk Store" ever showed before. Richer in style, Better in value. SUTCLIFFE SILKS are serviceable wearing Silks. Silks different to the ordinary—Chamelains, Rosebud Stripes, sombre self raised stripes with a touch of brightness—by sprig or spot—Silks with our individuality. Some have but a Blouse length—enough only for one Waist. Stop to see the harmony and richness of " SUTCLIFFE SILKS." They're on the south side of store, to rear of 369 George Street.

SURPRISES PROMISED IN THE GAMEY MATTER.

Mr. E. F. B. Johnston Promises Surprises for Conservatives.

Hon. Sam Blake's Indictment Called a "Campaign Speech."

"I may say," said Mr. Johnston, the Government counsel to the Toronto Star, this morning, "that I will produce evidence that will come as a surprise to the public. There has been a good deal of wind exploded by our opponents. I prefer to wait for facts, and I propose to establish some that will give them ample food for reflection. The case being practically before a court I do not desire to discuss the merits one way or the other. I think the publications made so far savour more of the zeal of a political campaign than of a wish to get at the real truth. We are, however, content. We have no favours to ask—and none to give. When the case presented by the commission is ready for trial we shall be there to deal with it.

"The campaign speech," went on Mr. Johnston, "which is dignified by the name of formulated charges, will no doubt be the subject of some discussion when the court opens.

"The scheme is evidently to make charges so broad that they are clearly beyond the scope of the commission and if the commissioners should hold that such charges are not within the scope of the commission, the prosecution would possibly pretend that they had ample reason for retiring from the investigation, and perhaps they will take that course."

POPULAR SCIENCE MASTER.

W. H. Stevens, B. A., was Presented With an Address and Cheque.

Mr. W. H. Stevens, who has officiated as Science Master at the Collegiate Institute at Lindsay for the past fourteen years, and who has severed his connection with the staff on account of his appointment to the inspectorate of the schools of West Victoria, to succeed the late Mr. Reazin, was presented on Thursday afternoon with a nicely worded address and a cheque for $35, as a slight token of the high esteem in which he was held by the pupils and staff. The pleasant function took place at the Assembly Hall, at 3.20, those present being the students, Mr. T. Stewart, chairman of the Board of Education, Dr. White, Mr. T. E. Weldon, and the members of the staff.

4 TRAINMEN KILLED.

Wreck on the Intercolonial Railway.

TRAIN ORDERS DISREGARDED.

Marvellous Escape of Passengers and Others—Freight and Express Crash Together Near Windsor Junction—Some Passengers Slightly Injured—Where the Crash Came—Engine and Cars Destroyed.

Halifax, N.S., April 13.—As the result of train orders being disregarded, another terrible accident, the second within a few months, on the eastern section of the I.C.R., occurred at 11.30 o'clock on Saturday night, two miles west of Windsor Junction. The eastbound fast freight, No. 75, for Montreal, collided, headon, with the fast C.P.R. train No. 26, known as the Atlantic Express, westbound, and resulted in the death of four trainmen, and the probably fatal injury of another, and the slight injury of half-a-dozen others, doing great damage to the rolling stock, and blocking traffic over the road. The dead are:

William mall, driver No. 26.
Michael Oakley, firemen No. 26.
Albert Thorpe, brakeman No. 75
Edward Hill, fireman No. 75.

Seriously injured: Nelson Copeland, driver No. 75, and Angus McCrady, a tramp, who was stealing a ride on the fast express.

The passengers slightly injured were: Dr. Miller, Halifax, head cut; J. G. Comeau, Halifax, head cut; A. E. Hartling and John Kelly, postal clerks, bruised about back. The express messengers were also slightly bruised.

Impact Heard Two Miles.

The freight train was made up of 75 cars, and drawn by one of the big mogul engines, pulled out of Richmond station at 9.20 o'clock. The train was in charge of Conductor Haines and Driver Copeland, and had orders to stop at Windsor Junction, so as to allow the express to pass. The train, which was travelling at twenty miles an hour speed, passed the Junction, and the conductor, who was looking after the middle section of the train, jumped on the top of the cars, and started towards the front of the train to ascertain why the driver had disobeyed the orders. Before he had gone very far, the express train, which was an hour and a half late, and running at the rate of 45 miles an hour, hove in sight, and, in an instant, the trains came together with a frightful crash, the impact of which could be heard two miles distant. The engines locked together on the rails, and stood there, a mass of twisted metal. The postal, baggage and second-class cars shot ahead, and rolled down the bank and partly into the lake. The passengers and clerks scrambled out through the windows of the up-turned cars. There is water on each side of the track, and two of the cars left the rails, one of them rolling down the bank and becoming partly submerged.

Waiting For the Inevitable.

All the Junction knew as soon as the freight passed that an accident could not be averted, and they waited for the crash. Word was telegraphed to Halifax, and a relief train, with doctors, was sent out from Halifax. All the dead and injured were brought to Halifax. The road is so badly blocked that the twenty passengers had to be conveyed in a small boat along the edge of the lake to the eastern side, so as to connect with the train.

Disregard of orders is said to be alone responsible for the accident. The accident is one of the most disastrous that ever occurred on this end of the road, and the wonder is that more lives were not lost.

All the mails were dumped in the lake, but recovered, badly damaged. Driver Wall was one o, the oldest employes of the road, he having seen 30 years' service. Coroner Hawkins will begin the inquest to-day.

G.T.R. Switchman Killed.

Toronto, April 13.—Michael Christie, a Grand Trunk Railway switchman, was almost instantly killed while at work a little after 10 o'clock on Saturday night. Christie was engaged near the foot of Bathurst in attending to the operations of a shunting engine, which was making up the fast freight for the east. Just how the accident happened is not known.

Fighting Was Vigorous.

Washington, April 13. — United States Consul Maxwell, at Santo Domingo City, has cabled the State Department under Saturday's date, that the insurgents had been driven into that city on the 9th instant, and that their batteries and infantry had then checked the advance of the Government forces. The firing continued throughout the day and until the following morning. The Consul adds that missiles were flying over the city as the cablegram was being written.

Russia's Version.

London, April 13.—The Times' correspondent at Pekin telegraphs that the evacuation by Russia of Niu-Chwang and the second section of Manchuria is delayed, according to the Russian version, because the Chinese Taotai has not yet arrived, and formal restoration is, therefore, impossible.

Bulgarian Situation.

Sofia, Bulgaria, April 13.—The War Minister has started for the frontier to perfect measures to prevent Bulgarian bands from entering Turkey. Further reinforcements have been sent to the frontier in case of necessity. Martial law will be proclaimed in the Kostendil (Bulgaria) district.

PROMISES SURPRISES

Mr. Johnston, K. C., Talks of the Value of Evidence Secured.

GAMEY CASE IS NOW READY.

Story of the Listeners—Piano Factory Notes—Stenographers' Memorandum is Now Made Public—Mr. Gamey Files More Letters—Terms of the Indictment May Give Rise to Argument.

Toronto, April 13.—The Gamey investigation will commence in earnest in the City Hall this morning at 10 o'clock. Both sides have spent a most busy week in preparation of their case, and there seems no possibility of any further postponement. The terms of the indictment may possibly give rise to some argument; on the other hand, the commissioners may order the submission of the evidence, with the understanding that what is not relevant will be ruled out as it is presented. There was an impression last night that Mr. Gamey would not be called first by the prosecution, but that counsel would seek to lay groundwork by locating certain persons on certain days, and by possibly inquiring where the alleged election fund came from. Mr. Johnston, the chief counsel for the defence, who has maintained a close silence on matters relating to his case, stated on Saturday that he had been very successful in getting evidence, and that when his witnesses were called there would be some big surprises for the public.

Bank Pass Book Important.

The Sudbury bank pass book has not yet been produced, and Mr. Gamey has been served by the defence with a paper to produce this book and any other bank books he may have. This fact, taken in conjunction with a recent remark by Mr. Johnston that he knew of a number of deposits by Mr. Gamey, may throw some light on the theory of the defence.

The chief incidents of Saturday were the publication of the memorandum of the three men who were secreted in the Cressin piano factory on the night of March 10th, and the filing of a further batch of letters, which Mr. Gamey had left behind him at Gore Bay as not important enough to be produced.

The Listeners' Memorandum.

The stenographers' memorandum is as follows:

Synopsis of the conversation between R. R. Gamey, M. P. P., and Frank Sullivan in the fourth floor of No. 102 West Adelaide street:

"About 8 p. m., Tuesday, March 10, 1903, Mr. Gamey and Mr. Sullivan came into the room in which we were hiding. Mr. Gamey asked Mr. Sullivan to take a chair. Sullivan's first question was, 'How did you get along with Whitney?' Gamey replied that Whitney treated him friendly enough. Sullivan said: 'You gave him to understand that in a vote of want of confidence you will support him and that will be all right.' Sullivan asked how the Manitoulin people felt about it. Gamey replied that the executive would not support him as an executive, but that personally a number of them were with him.

Talk of Mr. Stratton.

"Gamey asked: 'How is Stratton?' Sullivan answered that everything was all right—that he had seen Stratton every day; in fact, Stratton insisted upon his calling and reporting every day. A little later he said that Stratton was scared that the whole thing would come out.

"'One day,' said he, 'he (Stratton) walked up and down the floor and finally stopped in front of him and said: 'Is this man to be trusted?' Sullivan said: 'He is all right, if you don't do any dirty work,' and told Stratton simply to leave the whole matter in his hands and not to do anything concerning it until he had consulted him (Sullivan).

"Sullivan further said that whenever he called to see Stratton he did not have to wait his turn, but was sent right into his private room.

Other Schemes.

"Gamey asked if he thought Stratton would put up the rest of the money. Sullivan said: 'We got him just where we want him, and he will be all right.' Sullivan further said: 'Now is the time to get whatever we want, and the sooner we ask for it the better.' He (Sullivan) said that the island scheme was too small, and that the Government were getting a large revenue from the lake deal. Sullivan asked if he did anything further about their mining scheme. Gamey said no, but that they could get out a blanket claim for 640 acres each, but that no prospecting could be done at present. A blanket claim would hold it till the snow was off. Sullivan said that Gamey should make some new discovery, or any old thing, so that they could get it pushed through. Gamey said that the people would be on to it if they went in together, as the people of Manitoulin, although they did not think that he got any money, thought he would get some mining or timber concessions. It was then agreed that another man should be taken in to allay suspicion.

General Political Situation.

"Sullivan said: 'We must take care and get all we want to this time.' Sullivan said that they could give back the money they had gotten from them if they got a good thing, for they needed money very badly now. Sullivan said that they were afraid that Evanturel was not going to come down, and they were afraid that he was going over to the other side. He said the Government had given him a room in the House. He said that the Government needed Gamey as badly now as they did last August, several members of the Liberal side were sick, and he did not think Charlton would last a week.

"Sullivan said the Liberals would be unseated in the three Norths. He knew of evidence that would unseat the candidate in North Grey and North Norfolk in half an hour. He said, his father managed the bye-election, but he did (not) go into any of the constituencies himself, as he would be suspected.

Helping Mr. Gamey's Deal.

"The Grand Trunk, he said, were going to get their subsidy, and after that they could tell the Government to look out for themselves, and, if so, they would have a hard time to win. Gamey asked if there would be any trouble at all in putting through their deal. Sullivan said he was sorry that the deal was in Davis' department, but he could easily be worked. Gamey then asked if Davis' knew about Gamey being bought over. Sullivan said that Davis and every member of the Cabinet knew about it.

"Sullivan then said that if there was any trouble in putting through their deal he had a confidential friend on The World staff, and that he would get him to put in a few headlines that the Tories had got on to a big Reform scheme. He said that Stratton could not have it come out on any account, as Stratton would certainly have to leave public life and resign."

TAPS FROM THE WIRES.

Ephraim Keeler, born in 1816, the oldest native of Grenville County, is dead.

Gardner Brothers will open basket factories at Leamington and St. Catherines.

Five thousand dollars is still needed for memorials on Canadian graves in South Africa.

The two leading dry goods stores of Vancouver are to unite with a capital of $250,000.

A bylaw has gone into effect in Ottawa abolishing all signs projecting over the streets.

John Meteyer, a well-known hotel man of Vancouver, was frozen to death on his way from the Klondike.

Cleveland.—Peter Jansen, an alleged traitor to the Lake Seamen's Union, was badly beaten on the docks by strikers.

Paris.—The resignation of M. Revoil, Governor-General of Algeria, has been accepted. It will make no change in the plans of President Loubet to visit Algiers.

Salt Lake City.—Brigham Young, eldest son of the famous Brigham Young, the president of the Council of Twelve Apostles of the Mormon Church, is dead, aged 67.

Harveyville, Isd.—A cloudburst flooded this vicinity and did great damage to property. County Commissioner Raymond and his wife were drowned while crossing a stream, the water rising so rapidly that the buggy was swept away.

Grand Rapids, Mich.—A terrific storm struck this city Saturday night, and in twenty minutes two inches of rain fell. Hail broke thousands of dollars' worth of glass in greenhouses, and lightning seriously injured two people.

Thomas Moody of Sudbury committed suicide on Tuesday by placing the muzzle of an old Snyder rifle in his mouth and pressing the trigger with his toes. He was 30 years of age, well connected and industrious. Despondency is given as the cause.

While ending up his rounds and in the act of proceeding home, P. C. Hortie of Chelmsford was brutally assaulted and robbed at 12 o'clock Wednesday night and left for dead. The victim is now lying in a precarious condition at his home and small hopes are entertained for his recovery. As to his assailants, no trace of them can be found.

JUDGE LYNCH AGAIN.

Negro Murderer Shot to Death After Brutal Crime.

Shreveport, Ala., April 13.—Mrs. Aline Matthews, aged 45 years, wife of Frank Matthews, a well-known civil engineer, was brutally murdered in her bed early yesterday, and her daughter, Aline, aged 10, was fatally wounded. An axe was the instrument used in both cases. Ed. Porter, a negro, strongly suspected of the crime, was shot to death by two police sergeants, while attempting to escape. He had been run down at a point about five miles from Shreveport. Although there were fifteen persons in the house, no one heard any noise or outcry. Mrs. Matthews was almost hacked to pieces. Bloodhounds were set on the trail, but lost the scent, but a railroad engineer noticed the negro covered with blood, and notified the police.

Shot a Woman and Suicided.

Huntingdon, L. T., April 13.—Pascal Latour, a negro farmhand, employed by Sesio Salsto, an Italian, at South Dix Mills, shot and killed Mrs. Salsto, and then suicided. The woman was 45 years of age, and Latour 30.

Revolutionists Captured.

Willemstad, Curacoa Island, April 13.—Venezuela revolutionists have defeated the Government forces at Caracas, and have also captured Barquisimeto, the key to the western part of Venezuela.

SOMETHING ABOUT CANADA'S WOOD PULP.

Dr. George Johnson, the Dominion Statistician Gives Some Valuable Information.

Lindsay Post.

In his invaluable little booklet on "The Wood Pulp of Canada," Dr. George Johnson, the Dominion Statistician, estimates that there are 4,500,000,000 tons of wood pulp in sight in Canada. This means that at the present rate of consumption in Great Britain and the United States, it would take 5,000 years to use up Canada's visible supply of pulp.

In making this estimate, however, no account is taken of the various measures that have been adopted to preserve the forest wealth of the country. Including them in the discussion, it becomes apparent that with reasonable attention to the needs of the case, the wood pulp of Canada is practically inexhaustible in supply.

In developing the pulp industry, Canada has been particularly favoured by Providence. No other country on the face of the globe has been blessed with so many advantages for the production of wood pulp. Her forests are filled with the particular species of trees that make the best pulp. Water-power, which is almost an absolute necessity for the successful operation of pulp mills, has been lavishly bestowed at the requisite points, and her geographical position, midway between Europe and Asia and next door to the United States, gives her a powerful advantage in the markets of the world.

Thirty years ago not a single pulp mill was to be found throughout the length and breadth of the country. In fact, the industry is entirely modern in every respect. Referring to the census of 1881, it is found that five mills were in existence at that date, employing some sixty-eight men and producing pulp to the value of $60,000. By 1891, the number of mills had increased to twenty-four, 1,025 men employed and the output aggregated a value of $1,057,810. Today there are thirty-five mills in operation, producing pulp valued at $4,988,182 per annum, while several new mills are under construction.

During 1902 Canada exported about fifty-seven per cent. of her total production of pulp or in value $2,511,664. Of this quantity the United States took the major portion, viz., $1,598,189, while the United Kingdom imported $976,192. As the latter was only sufficient to supply 8 1-2 per cent. of the needs of Great Britain it is apparent that a splendid market awaits the Canadian manufacturer of pulp in the Old Land. Furthermore, the United States at present imports one million cords of wood to keep her pulp mills in operation. Were such legislation to be passed as would keep the manufacture of this wood into pulp in Canada, the industry would receive an enormous impetus.

TRAPPING MUSKRATS ON SCUGOG RIVER.

An Interesting Description of a Profitable Employment.

Lindsay Post.

The breaking up of the ice on the narrow reaches of the Scugog above and below Lindsay is eagerly watched for every spring by a couple of dozen of our citizens because they are skilled in the trapping of the muskrat, whose odour is objectionable, but whose jacket of close, soft fur is an article of commerce at present in great demand—so much so, that the price has almost doubled in the last few years.

When the ice starts to break up the rising flood forces the muskrat families out of the snug houses in which they have spent the winter, and this is the hunter's opportunity. Traps are cunningly placed over every submerged log and floating pole likely to be visited by the rats in the course of their night excursions in quest of food or adventure, or material for another happy home, and if the little swimmer happens to touch a certain innocent looking twig the trap beneath the surface is sprung, and the chances are that the jaws close on one of the animal's legs. Then is enacted one of nature's tragedies. The pet struggles until exhausted, and finally drowns.

Next morning the owner of the trap sets out in his boat, and, after ejaculating, "That's another!" casts the bedraggled bunch of fur on top of the pile in the bow of the boat—the fruits of his visit to forty or fifty traps—and heads for camp. During the day the pelts are stripped and stretched on cedar frames to dry and cure, and the skill and care displayed in the operation may make the difference between a poor pelt and the top price when the buyer has his innings.

Some years ago as many as 2500 muskrat pelts were marketed in Lindsay, but this number represented more than should have been taken, and several of the trappers say that a close season is needed to give the animals a chance to repopulate their old haunts. This argument seems to be borne out by the fact that last season several trappers worked East and West Cross Creeks and along the upper channel with such success that apparently it was considered useless to repeat the visit this spring, and with the exception of a few odd days, all the trapping this season was done below. McLaren's Creek and vicinity yielded a fine harvest, and it is reported that some Indians had great luck on Emily Creek.

The quantity of fur taken by local trappers as closely as can be ascertained, is as follows: Joe Hand and Geo. Jackman, 315 rats, 2 mink and 2 raccoons; Les. Foley, 112 rats, F. Dennison, 68; Joe Lytle, 237; Geo. and Dave Hudson, jr., and F. Reeves, jn., 357; Stafford Halpin, 38; Jack Dickson, 52; W. J. Britton, and E. Bushnell, 64. In addition to the above, M. O'Leary, A. Bradshaw, and several Indians, including "Dow" Taylor and his father, made up a respectable total among them.

The great bulk of the fur was purchased by Mr. Thos. Spratt, who at the very outset offered the top price of 30c for prime and 29c for common skins.

Messrs. Ed. Armstrong and John Flurey were also on the market and bought all that offered at about the same figure. The latter secured several large lots from north country points.

IMPORTANT TO FARMERS WHO LIKE A GOOD HORSE.

Mr. J. F. Staples, of Ida, Purchases a Noted Clydesdale Stallion.

J. F. Staples, of Ida, has purchased the famous Clydesdale stallion, Burnbrae, (2378) winner of first prize in two year old class in Chicago and sweepstakes for best draft horse at the show in 1899, and in 1901 he won first and sweepstakes at Ottawa and he won first and championship at the Pan-American exhibition in 1901, and he also won first and championship at Winnipeg and Brandon the same year.

Lord Rosebury, a son of Burnbrae, as a yearling won first and championship over all ages at Winnipeg in 1900, and first at Brandon the same year. A colt of his won first in the foal class at Toronto Industrial in 1902, and was again first and the special championship at Markham for the best foal on the ground sired by any draft horse, and was sold at the show for $325.00 to go to Medicine Hat.

Nelson Wagg, of Claremont, sold a colt sired by Burnbrae at ten months old for $250.00.

Graham Bros. another at 5 months old for $200.00. As will be seen from the above he is both a winner and the sire of a winner, and has proved himself to be very prolific. This district is to be congratulated on having the services of so valuable a horse placed at their disposal.

YOUNG'S POINT.

(From our own Correspondent.)

Young's Point, April 13.

Mr. and Mrs. R. B. Lundy, who have spent the last three weeks at the Lakeview House, have returned to their cottage in Stony Lake.

Miss Lottie Kearney is spending a couple of weeks visiting with friends in Peterborough and Lakefield.

Mr. A. Smith, of Buckhorn, is spending the Easter holidays with friends here.

Mrs. Donald Fruid, of North Bay, is making an extended visit with friends here.

Mr. B. Huston, school teacher, has returned home for the Easter holidays.

The steamer Majestic ran its first trip to the head of the lake the other day. Mr. P. P. Young is busily engaged those days repainting and fixing her in A 1 shape for the summer.

We expect the locks to be completed in the course of a day or two which will then be in shape for navigation.

Our councilmen of the Township of Smith paid us a visit last week.

Mr. James Walsh is building a new residence, also Mr. Richard Angleasy and Mr. James Carlo is making some improvements on his premises, erecting a wire fence, etc.

Mr. C. Carl, agent for the Northrop & Lyman Co., Toronto, is spending a few days in the village.

A quiet wedding took place at the Presbyterian church in Lakefield, on Wednesday afternoon last, when Miss Maggie Hurl, daughter of Mr. W. J. Hurl, of this place, was united in marriage to Mr. William J. Charlton, of Douro. The ceremony was performed by Rev. C. A. Campbell, of Lakefield. The bride was assisted by Miss Maggie J. Charlton, while Mr. John Hurl, brother of the bride, acted as groomsman. The happy couple will take up their residence in Lakefield.

Mr. Bert Herd, who is employed in the General Electric Works, Peterborough, is home spending a few holidays with his parents.

Mr. Will Young, of Peterborough, is spending the Easter holidays with his sister, Mrs. J. Carle.

Miss Emma Scollard is visiting with friends in Lakefield.

The locks of the Sault Ste. Marie canals were opened on Saturday for the traffic of 1903.

LANDED AT ST. JOHN.

Nearly 2,000 of the Barr Colony Arrive in Canada.

COMPLAINTS FROM STEERAGE

Accommodation of the Vessel Causes Bitter Complaint—Rev. Mr. Barr Makes Light of the Complaints—Arrival of Great Exodus of People From the Mother Country—Good Settlers With Large Assets.

St. John, N. B., April 13.—Rev. J. N. Barr and G. E. Lloyd, with 1,900 of the all-British colony for Saskatoon district, arrived in the SS. Lake Manitoba at 11 o'clock Saturday morning. The local quarantine officer found nothing on board to warrant her detention, the only invalid being a man laid up with a sprained ankle, received just before entering port. Owing to the crowded condition of the wharves, it was impossible to dock the ship until yesterday morning.

During the intervening hours, immigration and C.P.R. officials were busy examining passengers, classifying them, issuing tickets and changing their money, so that after docking little remained to be done, except the transfer of the great cargo of baggage. The C.P.R. had made great preparations for the transport, four special trains being ready, and on board ship each passenger was given a check signifying which train he was going to join. Much confusion was thus avoided, and the first train was able to get away at 6.30 last evening.

On this were about 400 people, including a few who will stop at Toronto. Three others with about 150 passengers left at 8.15, 9.30 and 10.30. Rev. Mr. Barr was on the last train. The colonists are by all odds the finest body of immigrants ever landed at this port. All classes are represented. There were five nephews of Earls on board, numbers of Oxford and Cambridge men, dozens of clergymen, lawyers, doctors, capitalists and the mechanic, wholesome, straight standing, capable looking Englishmen, all drawn from farm, workshop and desk. The cash assets of the party aggregate half a million pounds sterling. An exchange bank established on board Saturday distributed over $40,000 of Canadian currency.

Bitter dissatisfaction prevailed among the colonists regarding the accommodations and treatment during the voyage, especially in the steerage, which was overcrowded with about 1,400 people, most of whom were able and anxious to come first cabin, could they have done so.

They assert freely that Mr. Barr and the steamship people grossly misrepresented matters, claiming that accommodations and food there would, though plainer, be as good as second cabin. Instead of this, they say they have been herded like pigs, men and women indecently huddled together without a chance for privacy at any time, with sanitary arrangements disgustingly filthy, and food scarce and almost uneatable.

On the second day of the voyage, a delegation, representing the whole steerage, waited on the captain, demanding that he put in at the nearest port and land them. Had he consented, practically all in that part of the ship would have gone ashore. Conditions improved during the latter part of the voyage, and some are partly reconciled now, though several announce their intention of forsaking Barr, and scathing on their own account, and a few have gone so far as to sell their kit, and make arrangements for return to England by the first steamer.

Rev. Mr. Barr makes light of the complaints, saying the whole cause of the grumbling is the fact that first-class people have been compelled by the rush to travel third-class. He denies earnestly any accusation of misrepresentation, except with regard to the food in the steerage, which he was told by the Elder-Dempster officers would be the same as served in the cabin. In this the company failed. Mr. Barr expected grumbling, and, although admitting that some may turn back, is enthusiastic about the ultimate success of his scheme.

As soon as they reach their destination, he says, three towns will at once be laid out, Preston, Lloydton and Barview. Separate municipalities will be organized with complete Government. In each town will be hospital, hotels, stores and factories.

Some men in the party have equipment for a pork packing industry on a large scale, which will be started at once. A large staff of contractors and carpenters are with the colony ready to rush the erection of the buildings. The chief engineer of the Canada Northern is to meet him as soon as he arrives and locate the towns with reference to the terminus of that railway division. he expects 10,000 more next year, and thousands additional within the next decade. The all-British idea he said was what captured the minds of the people.

Rev. G. E. Lloyd, the vice-commander of the colony is by far the most popular man on the ship, and was presented yesterday by the passengers with a testimony of $50. Mr. Lloyd, who was formerly principal of Rothesay College here, is a hero of the Northwest rebellion, he was dangerously wounded at the battle of Cut Knife Creek, while rescuing a comrade under a heavy fire.

Welland Canal Opening.

Port Dalhousie, April 13.—The Welland Canal opens up this morning, with the following boats to take their respective turns: Steamer Erin will be the first lockage, and her consort, Dunforth, will follow, along with the steamer Rosemount and barges Quebec and Melrose, steamer Niko and barge Petersia, only 7 lockages so far, waiting.

A Historical Artifice.

Little Willie—Say, pa, what's a warship?

Pa—A warship, my son, is a mechanical device used in manufacturing history.

The Winter of Discontent.

The four seasons are seldom on good terms with each other. There is a decided coolness between autumn and spring.—Philadelphia Record.

COMING TO CANADA.

One Result of the Dispersion of the Religious Orders in France.

Paris, April 12. — The Very Rev. Dominic A. Zahm of Notre Dame, Ind., provincial of the congregation of the Holy Cross of the United States, has arrived here, after visiting the branches of the order in France, which is among those ordered to disband. He is making arrangements to send a large number of the members to America.

When Father Zahm was seen at the Academy of the Holy Cross here, which is the second largest in France, the place showed signs of confusion and disorder, following the notification to dispense. Packers were hastily filling trunks and taking down the paintings of founders, and other valuables, some of which will be shipped to America. Dr. Zahm spoke more in terms of pity than bitterness.

He said this and other academies represented the life work of those who had been ordered to disband. The effect would be particularly severe on the old men and on the sisters of the female orders. They retain only their personal belongings and lose their schools, property and buildings and hereafter will be unable to wear the habit of the order, or continue work as members of the congregation. Those who are able to travel will take up new work, and are going to the United States, Canada and India.

As the result of Dr. Zahm's visits, one hundred brothers, or priests, and one hundred sisters are going to the United States, and about the same number to Canada. He says most of them speak French and German, so they will be distributed among the colleges, and teach languages. Those who are going to Canada will reside in the French provinces, where they will understand the language. Dr. Zahm has not yet determined on the points where those who are going to the United States will be located. They will begin leaving soon in groups.

$100 Reward $100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

NOTICE.

In the matter of the Stanley Piano Company, of Toronto, Limited.

Notice is hereby given that The Stanley Piano Company of Toronto Limited, carrying on business as Piano manufacturers at the Town of Peterborough, in the County of Peterborough, have made an assignment under the Revised Statutes of Ontario 1897, Chapter 147, and and amending Acts of their estate, credit and effects to Robert Richard Hall, of the Town of Peterborough, in the County of Peterborough, for the general benefit of their creditors. A meeting of the creditors of the said The Stanley Piano Company, Limited, will be held at the office of Messrs. Stratton & Hall, solicitors in the Town of Peterborough, on Tuesday, the twenty-fourth day of March, 1903, at the hour of two o'clock in the afternoon to receive a statement of the affairs to appoint inspectors and to fix their remuneration and for the ordering of the affairs of the estate generally.

Creditors are requested to file their claims with the assigne with proofs and particulars thereof required by the said Acts, on or before the day of such meeting.

And notice is further given that after the 28th day of April, 1903, the assigne will proceed to distribute the assets of the said The Stanley Piano Company amongst the parties entitled thereto, having regard only to the claims of which notice shall then have been given, and that he will not be liable for the assets or any part thereof so distributed to any person or persons of whose claims he shall not then have had notice.

R. R. HALL, Assigne.

Stratton & Hall, solicitors for assigne.

Dated at Peterborough, this 18th day of March, 1903. 4d09.

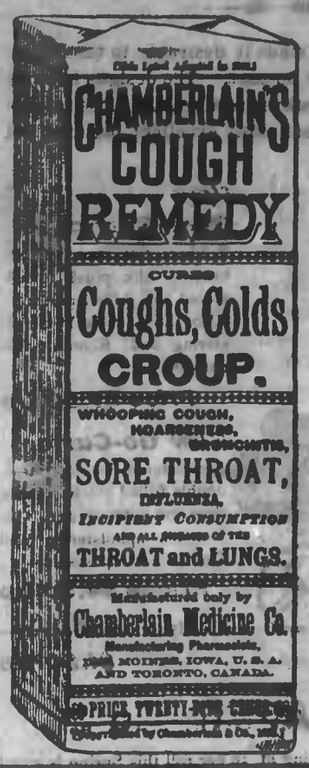
Every Bottle Warranted

Every bottle of Chamberlain's Cough Remedy is guaranteed, and the dealer from whom it is purchased will refund the money to anyone who is not satisfied after using it.



The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult.

SURPLUS MAY BE $12,000,000.

Dominion Figures Indicate Great Prosperity—Foreign Trade Growing.

Ottawa, April 13.—It would not be surprising if the close of the present financial year witnessed a surplus of $12,000,000 or $14,000,000 in the Government Treasury. For the nine months up to March 31 the ordinary revenue exceeded the ordinary expenditures by $14,929,156, and over all expenditures combined the excess of revenue amounted to $10,055,068. As compared with the same nine months of 1902 there has been a gain of $5,245,423 in the revenue and a reduction of $3,963,869 in the capital expenditure, while the ordinary expenditure has only increased by $753,950, showing a total improvement in the national finances of $9,454,836. Taking the average of the past nine months and applying it to the remaining three months of the present fiscal year it would give a total revenue for the year of $62,000,000. Adopting the same procedure in regard to the ordinary and capital expenditure the total disbursements would on June 30 stand at about $47,000,000. There are several payments each fiscal year, of which return is not made until long after June 30. As a counterbalance to this, however, there may be a larger reduction of capital expenditure than has been allowed for. So that on the whole the surplus will not be far off the amount stated above.

Foreign Trade Growing.

An increase of over thirty millions in our aggregate foreign trade for the nine months ending March 31 on the basis of imports for consumption and exports of domestic products, as compared with the same period of 1902, affords most satisfactory evidence of the continued expansion of our commerce. The exports amounted to $162,420,763, being $6,980,727 in excess of imports. The imports show a gain of $14,707,327 and the exports an increase of $17,873,800, as compared with the same nine months of the year previous. In this statement no account is taken of coin and bullion. The agricultural industry contributes $87,465,536 of exports, or over 53 per cent. of the whole showing, where the mainstay of our prosperity is to be found. Compared with 1902 the exports of animals and their products increased by $9,186,240, while the exports of agricultural products exhibit a gain of $7,212,845. Our exports of manufactures more than held their own, the excess as compared with last year being $1,813,650.

Fell on Circular Saw.

Pickering, April 13.—On Good Friday, Bryan McGinty, while engaged in cutting wood with a circular saw on the farm of William Keeler, near Malvern, Scarboro Township, received fatal injuries, from falling upon the saw. While forcing the wood against the saw, the framework gave way, precipitating McGinty on the saw, lacerating his body from the thigh up through the right lung. His injuries terminated fatally.

Mr. Spinks Is Dead.

Toronto, April 11.—Albert Spinks of Brandon, Man., who was overcome by gas at the Globe Hotel on Tuesday night, died yesterday evening at St. Michael's Hospital. The unfortunate man never regained consciousness during the three days which followed the accident. Life was prolonged by administering oxygen. Coroner Crawford has issued a warrant for an inquest.

No "Deal."

London, April 11.—In reply to a query, Premier Balfour states that the Irish land bill has never been the subject of any kind of bargain with any party, group or individual, in or out of Parliament. The reply seems to show that the Government has no idea of reducing the Irish representation in Parliament.

Usurer's Heavy Penalty.

Berlin, April 11.—Heinrich Pariser, a wealthy money lender was sentenced Thursday to two years' imprisonment, and to pay a fine of $2,500, for usury. In one instance, Pariser charged a baron 236 per cent., which the baron paid.

Liberals Won.

London, April 11.—The parliamentary vacancy in the Camborne division of Cornwall, due to the death of W. S. Caine (Progressive Liberal), has been filled by the return of Sir Wilfrid Lawson, with an increased Liberal majority.

The Skin on Fire

So dreadful are the sensations of burning, itching Eczema that victims frequently describe their sufferings by saying that the skin is all on fire. The stinging, biting fires of Eczema are quenched by the use of Dr. Chase's Ointment. The first few applications may cause a little uneasiness but a cure is sure to result and the skin is healed without scar or blemish.

Sisterly.

His First Sister—Well, you know Harry has a reputation to sustain.

His Second Sister—I wonder how he bears up under it.—Yonkers Herald.

A Killing Joke.

"Our butcher has more customers than he can supply."

"I see. He can't meat the demands."—Baltimore Bulletin.

STOMACH and BOWELS OUT OF CONDITION?

Angier's Petroleum Emulsion

after meals and at bed time will put them right.

"I prescribe Angier's Petroleum Emulsion I find that it is easily borne by the stomach, and is a desirable tonic." The patient does not become tired of it. It is the best remedy I have used during the past fifteen years." Chas. Gardner, M.D., Worcester, Mass.

ANGIER CHEMICAL COMPANY, BOSTON, MASS., U. S. A.

TROOPS FOR HAWKESBURY.

43rd Regiment and Governor-General's Bodyguards Notified to Be Ready For Strike Duty.

Ottawa, April 13.—The commanding officers of the 43rd Regiment and Governor-General's Foot Guards have been notified, and, in turn, have sent notification to officers commanding companies, to be ready to turn out at an hour's notice, to proceed, 200 strong, to Hawkesbury, if needed, to assist the civil authorities in quelling disturbance at the scene of the saw mill strike in Hawkesbury.

Will Act as Commission.

Ottawa, April 13.—Rev. Dr. Elliott S. Rowe of Victoria has consented to act with Chief Justice Hunter as a commissioner to enquire into the industrial disturbance in British Columbia. The principal use of the inquiry will be to ascertain to what extent disturbances are fomented in the province by labor leaders from the United States.

KENNEDY SET FREE.

Was Justified in Shooting—Sullivan Will Recover.

Detroit, April 13.—After listening to the testimony of several eye-witnesses of the riot between employes of the Canadian Bridge Works of Walkerville and non-union men, at the foot of Joseph Campau avenue, Thursday evening, Justice Whalen refused to issue a warrant against George J. Kennedy and ordered the man liberated. "Kennedy is the man who shot Michael Sullivan during the riot. It was shown that he did not shoot until he was exhausted and in great fear of his own life. In fact, unbiased men swore that they would have shot long before Kennedy did, if they were placed in his position. Sullivan will recover, the Emergency Hospital authorities say.

George Boak, an engineer in the employ of the Canadian Bridge Company, in Walkerville, Saturday morning called upon Magistrate Bartlet in Windsor and gave information to be used in case any accident should befall him.

"A few days ago," said Boak, "this note was dropped at my door."

The note reads:

"Take a warning in time and stay away from the bridge works, save trouble for yourself and others."

Boak has retained his position with the company, and has not been in any way connected with the strike.

"Friday a man from across the river called upon me," continued the engineer. "He told me that if he could not reach me with a shotgun he could with a rifle. I do not know his name, but he was a short man, and I am trying to identify him."

VOICE FROM THE PRAIRIES

Tells of the Great Work Done by Dodd's Kidney Pills.

Thos. L. Hubbs Tells how his Kidney Strain Vanished When he Used the Great Kidney Remedy.

Keglis, N.W.T., April 13.—(Special.)—In this new country where medical attendance is often hard to get the action of special preparations is carefully watched and the results as carefully noted. Consequently, conclusions are arrived at that are of value to the public. And the almost unanimous conclusion is that as a family medicine there is nothing to compare with Dodd's Kidney Pills.

As a tonic it has made a name for itself, while its cures of all stages of Kidney Disease from Bright's Disease to Backache might be considered miraculous if their frequency did not make them almost common.

The following story told by Thos. L. Hubbs, a farmer in Indian Head municipality, is one of the many that have given Dodd's Kidney Pills their reputation.

"About one year ago," says Mr. Hubbs, "I was thrown from a wagon, causing some strain on my kidneys. I tried several medicines but could get no relief till I was induced to try Dodd's Kidney Pills.

"Dodd's Kidney Pills relieved me almost from the start and by the time I had finished one box my pains were gone. They have not come back either."

The Original of Jekyll and Hyde.

Charles H. E. Brookfield says he was in Stevenson's company at the moment when the germ of the idea of "Dr. Jekyll and Mr. Hyde" was conceived. Stevenson was inveighing against a man with whom he had done business and with whose methods he was dissatisfied. The man's name was Samuel Creggan, or something like it. "He is a man who trades on the Samuel," Stevenson declared in his rather finicky, musical Scot's voice. "He receives you with Samuel's smile on his face, with the gesture of Samuel he invites you into a chair, with Samuel's eyes cast down in self deprecation he tells you how well satisfied his clients have always been with his dealings, but every now and then you catch a glimpse of the Creggan peeping out like a white ferret. Creggan's the real man; Samuel's only superficial."

Trolley Versus Steam Railroads.

The number of passengers carried on American steam railroads is less today by over 12,000,000 than it was seven years ago.

On many interurban lines trolley speed approaches steam speed. On the Buffalo and Lockport trolley road fifty miles an hour is the pace over some sections of it.

The General Electric company has prepared estimates for machinery to develop a trolley car speed of seventy-five miles an hour.

At that rate an electric train would go from New York to Frisco in less than two days.

If a track were laid around the world on the eighty-fifth parallel of latitude, a car going at that velocity from east to west would keep up with the earth's rotation and thus (Joshua's miracle by holding the sun in one place all summer.—McClure's.

CANADA AND ALASKA

OUR BOUNDARY CONTENTIONS PUT INTO BRIEF FORM.

Width of the Coast Strip—Does the Mountain Range Give a Boundary?—The Ownership of the Heads of Inlets One of the Most Important Matters to Be Decided.

The preparation of the Canadian case in the Alaska boundary negotiations is proceeding apace. So much has been said and written on the other side of the line, if not for the purpose, certainly with the result of confusing the issue, that it may be well briefly to set out in plain and untechnical language the respective contentions of the two Governments. These contentions are in the main threefold. They relate:—

(1) To the course of the boundary line at the entrance to the Portland Canal.

(2) To the width of the strip of coast which belongs to the United States.

(3) To the ownership of the heads of the larger inlets, notably the Lynn Canal.

Canal or Channel.

As regards the first of these, the Canadian Government holds that the southern boundary of the United States strip of territory is a direct line joining the southernmost point of Prince of Wales Island with the northern entrance to the Portland Canal, and thence along the middle of that body of water. The United States, on the other hand, affirm that when the negotiators of the treaty wrote Portland Canal they had reference to the southern entrance to Portland Canal, and that, therefore, the line should enter within the continent, not by the body of water named by Vancouver, Portland Channel, but by another inlet to which he had given another name, viz., Observatory Inlet. In order to support this claim they contend that the line on leaving Prince of Wales Island proceeds along the parallel of 54 deg. 40 min. to the Portland Canal. In this phase of the dispute is involved the ownership of the two islands (Wales and Pearse) commanding Port Simpson, and also both sides of Observatory Inlet. It is, therefore, not by any means the least important part of the matter at issue.

The Coast Strip.

In regard to the second contention Canada maintains that the width of the strip which the United States acquired from Russia is limited by the summit of the mountains which border the coast. By these mountains we mean those nearest the sea, which Vancouver saw from his ships, and which he depicted on his maps. There are mountains lying within five or six miles of the ocean coast which fulfill all requisite conditions, and Canada therefore maintains that the line of demarcation should run along the crest of these mountains, thus restricting the United States to the narrow limits indicated above. The United States assert that there are no mountains existing which fulfill the requirements of the treaty. They, therefore, discard the mountain line altogether, and fall back upon the alternative provision that where no mountains exist the boundary shall be formed by a line parallel to the coast and nowhere distant therefrom more than ten marine leagues or thirty-five miles. They further interpret this alternative and subordinate clause to mean that the line formed under its provisions shall never be less than ten leagues from the sea, whereas the treaty merely defines ten leagues as its maximum distance, and says nothing about its minimum distance. The Canadian contention is that the line runs along the crest of the mountains and is from five to six miles in width, as against a thirty-five mile strip claimed by the Americans. Twenty-five miles of territory for five hundred miles is involved in this issue. Its importance, therefore, in a gold-bearing territory is immense.

Heads of the Inlets.

The third question involves the ownership of the heads of inlets, and particularly Lynn Canal, at the head of which lie Dyea and Skagway. It turns on the meaning of the word "coast." When the treaty says that the line shall follow the summit of the mountains parallel to the coast, does it mean that it shall run around the heads of deep indentations, such as the Lynn Canal, or that by "coast" the framers had in mind that which any ordinary person resident at the head of a narrow inlet extending 60 miles into the mainland would have, who might announce his intention of "going down to the coast"? The Canadian Government adopt the latter view. They hold that by "coast" the treaty makers did not mean to include the terminus of a narrow fiord of the sea, but had reference to the broad outline of the continental shore.

It is said, however, that Canada's claim to the heads of inlets has been to some extent compromised by official neglect and indifference. It will unquestionably be most difficult to secure recognition of our view of this claim, but it will be fully pressed and argued before the tribunal.

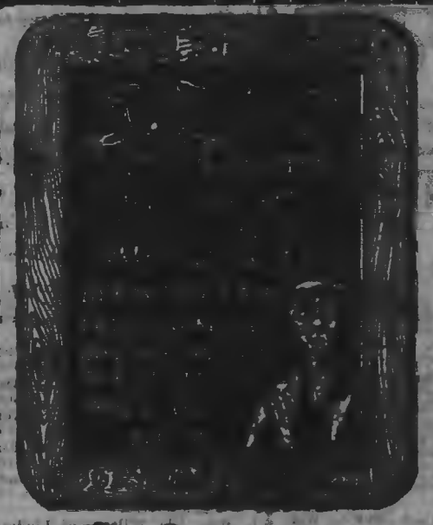
Three Main Issues.

It will be observed, therefore, that there are three main issues between the United States and Canada. The first involves the islands at the mouth of Observatory Inlet. The second concerns the width of the coast strip, and the third the ownership of a port at the head of Lynn Canal. It is perhaps hard to say which of the three points in dispute is most important. In different ways they all affect Canadian interests most powerfully. Our contentions on all these points are strenuously resisted by the Americans, who claim that we are so far wrong that there is no legitimate ground for the dispute.

How He Fooled Them.

Ireland's Vice-Chancellor, the Rt. Hon. Hedges Eyre Chatterton, aged 83, has just got married. He has held his office since 1867, and appears in a new wig every time it is reported that he means to retire on the ground of old age.

England has 120 artesian wells of over 100 feet deep.



Shoe Wear

Your eye tells you all about the style and finish of the "Slater Shoe."

Your foot tells you whether the shoe fits or pinches it.

The "Slater" Shoe makers, by their branded prices are responsible to you for its wear value, for the worth of your money.

What is there about an unknown shoe to tell you that beneath the finish there is value for the price asked for it?

"Slater Shoe" prices are uniform the year round—no marking up when you need shoes to mark down when you don't.

"Slater Shoe"

Made in Canada 40 Years.
For Men and Women, $3.50 and $4.00.
For Boys, $2.50 and $3.00.
Sold in 15 "Slater" Stores and 200 Agencies.
Use "Slater Shoe Polish." Shines Easily.

PETERBORO, ONT.

THE JOKE AS A POWER.

It Is Rapidly Becoming Mightier Than the Pen.

Men who fear nothing else shrink from a joke upon themselves. Soldiers who do not flinch before opposing guns dread to be made ridiculous. Woe to the national hero who makes one trifling mistake which may subject him to clever caricature! His, meritorious career is henceforth shadowed by one colored illustration. A comic paper will tip the scales of justice, snatch the victor's prize from his extended palm and rob the orator of choicest laurels. A brilliant satire will mar the fortunes of the greatest statesman, a laugh will turn the tide of a political convention.

Indeed the joke is fast becoming mightier than the pen. The orator has learned its value, and even the clergyman resorts to it when he desires to stir the flagging interest of his flock. It furnishes sufficient excuse for the impertinence of children, and in its name the daily papers deride the highest national dignitaries.

What is the meaning of its steady growth in power and what results may we predict from its humorous tyranny?

Is there a chance that our keen relish for fun may finally produce a kind of humorous dyspepsia resulting from overindulgence, unless with epicurean discrimination we demand quality, not quantity, and stubbornly refuse to swallow other than that which should appease a wholesome, nay cultivated appetite in jokes?—Caroline Tickner in Atlantic.

Trifles as Irritants.

We are so constituted that what is occurring at the moment interests us often out of all proportion to its importance. For example, we are thrown off our balance by the merest trifles perhaps which occur today, but which in a week's time may have no significance whatever. Obstacles which seem like mountains when we meet them dwindle away to molehills when we get away from them.

Even what seems tragedy at the moment in the future may be the most innocent comedy.

Most of us are so constituted that we will make almost any sacrifice for present peace. It would seem easier to have an arm or a leg amputated two years hence than to lose a finger today! It is human nature to shrink from pain, and we purchase release at almost any cost. If we could only train the mind to look at today's trouble and annoyance from the standpoint of the future, it would be much easier to bear.—Success.

Locked In With a Maniac.

The writer was once closeted with a patient whom he had no suspicion of being mad until the latter got out of bed, turned the key of the door and preferred a mild request to the writer to have his throat cut, handing him at the same time an open pocketknife, which he produced from underneath his pillow. I objected to the knife as being too small for the purpose and begged to be allowed to go for my case of amputating knives, with which, I explained, the operation could be performed with greater neatness and dispatch. He unlocked the door at once, binding me over to secrecy and urging me to lose no time in returning. I drove home, reported the case to the authorities and came back with assistance. He was secured with great difficulty and sent to the asylum.—London Tit-Bits.

Literary Hand Me Out.

"An' how did you fare at the house on the hill?" inquired Wandering Willie of Meandering Mike.

"Fine," replied the meanderer. "The lady gave me a little of most everything you could mention."

"Not hash?"

"No. A pocket dictionary."

Sadie's Guess.

Teacher—Can any little girl tell me who was Columbus?

Sadie (frantically snapping her fingers)—I know.

Teacher—Well, Sadie?

Sadie—Columbus, the gem of the ocean.

Both Defective.

She—You make love like a novice.

He—Then we're both defective. I ought to make love like an expert, and you ought not to know the difference.—Life.

The Sun Life OF CANADA.

A Delightful Change.

This season of the year everyone desires something appetising—something slightly tart. We have what you want in appricots, choice quality, 2 pounds for 25c; evaporated peaches from California, 2 pounds for 25c; prunes, according to size, 5 pounds for 25c, or 4 pounds for 25c, or 3 pounds for 25c, or 2 pounds for 25c. These fruits will please you. E. F. Mason & Co., 353 George street, 429 George street. 2d88

Mr. Noyes' Gallantry.

On Saturday, Mr. A. Anderson, of North Monaghan, was driving into Peterborough, and when about to cross the G.T.R. tracks on Charlotte street the pole of his wagon fell down. The horses were becoming unmanageable, a freight train was approaching, and matters looked dangerous, indeed. Mr. Chas. Noyes, the well-known gate keeper, sprang forward to the horses heads, and managed to prevent what might have been a serious accident.

Choosing Easter Gifts.

At the Peterborough Bookstore you have choice of a large assortment of articles suitable for Easter Gifts. Perhaps there's nothing more suitable for your friend than a good book. We have them in dainty bindings and in many suitable titles. Also Bibles, prayer books, rosaries, book marks, Easter booklets and cards, Easter novelties in hand-painted Easter eggs, etc., Souvenirs of Peterborough, a limited number still left. A. H. Stratton & Co.

Charlotte Street Ladies' Aid Sale.

A sale of useful and fancy articles, under the auspices of the Ladies' Aid of the Charlotte street Methodist church, will be held in the Lecture Room of the church, on Thursday, April 16th — afternoon and evening, commencing at four o'clock. Refreshments will be served and a good programme furnished. No charge for admission during the afternoon, but an admission fee of 10 cents will be charged during the evening. Do not miss seeing the up-to-date doll's millinery table. s-m-w

The Joy of the Wheel.

There is nothing so good for one whose daily life is confined to the city or town as a breath of good country air, and there is certainly no better way of getting it than on a bicycle. It brings all the shady lanes and green fields of the country within reach. Canada is particularly blessed with good roads, and it takes but a few minutes riding to get out of the heart of our cities into the pure air and joyous sunshine of the country. There would be fewer pale-cheeked, listless toilers-seeking relaxation in crowded places if they could only once realise the joy of wheeling through the rural districts that are so near at hand to the owner of a bicycle.

REID VS. MIDDLETON.

Judgement has Been Delivered in the Fence Case.

This case was brought by Arthur Reid, of Peterborough, agent, against James Middleton, of Smith, farmer, for damages for infringement of a patent known as "The Wartman Surface Square Braced Fence Post," and for an injunction to prevent its further use by the defendant. The defence was that the plaintiff had not a proper title to the patent, and that the patent was void in that it overlapped and itself infringed some prior patents, and especially the patents for the "Shed" and "Russell" fences. The case was tried before Judge Ketchum of Cobourg, sitting for Judge Weller, at the Sessions of the County Court here in June last. It was a case of considerable interest to the farming community in this neighbourhood for the reason that the fence is in very general use by them, and that many of them are placed in the same position that Mr. Middleton was. Judge Ketchum has now delivered his judgment dismissing the action with costs.

NEWS NUGGETS.

—The watering carts were on the streets this morning.

—St. Paul's choir will practice on Wednesday evening at 9 o'clock.

—The Chief has in his possession a pocketbook which was picked up on Thursday.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 190.

—Messrs. Jordan Bros. have a beautiful stock of roses for after Easter festivities, at the old prices.

—Peterborough ladies ought to give the Weather Clerk a medal, for allowing them to exhibit their Easter hats.

—Messrs. J. J. Turner & Sons have erected a tent at the Nicholls Hospital for the accommodation of nurses on duty in the infectious ward. The tent is 8 x 12 1-2 feet, in size.

—It is understood that Mr. and Mrs. Killin-Keough have been engaged to sing in the Charlotte street Methodist church. It is reported that the engagement lasts until the fall.

—The chorus class which Mrs. Morrow has been organizing for ladies has proved so successful that she has decided to have the gentlemen take part in it also, and has extended an invitation to all who would like to join to do so Wednesday night next. The class meets in the Y.M.C.A. at half-past seven, and continues until nine o'clock. Any other ladies who wish to join may do so on Wednesday evening also, and is is requested that there be a good attendance of all members.

SOCIAL AND PERSONAL.

Visitors in Town and Vicinity for the Easter Vacation.

Mr. F. D. Kerr spent Easter in Cobourg.

Mr. W. Bullen returned to Aurora this afternoon.

Mr. Oscar Dumble is in Cobourg visiting friends.

Mr. A. E. Brundrette is visiting friends in town.

Mr. Joe Carey spent Sunday at his home in Hastings.

Mr. A. W. McPherson was in Toronto on Saturday.

Mr. Hubert McBain was down from Toronto for Easter.

Miss Hattie Melville was in Millbrook over Sunday.

Miss Emma Lee, of town, is visiting friends in Mt. Horeb.

Mr. Walter Robinson, of the Ontario Bank, Toronto is in town.

Mr. W. F. Quigley, of the Ontario Bank, Aurora is in town to-day.

Mr. E. E. Fitzgerald of Toronto, spent the Easter holidays in town.

Mr. O. K. Stevenson, of Toronto, spent Sunday with friends in town.

Mr. and Mrs. E. H. Mann, and Mrs. Bowis have gone to Toronto for the Easter vacation.

Miss Ada Wilson, of Lindsay, is spending her holidays with friends in Peterborough.

Miss Maye Elliott, of Cavanville, spent Easter the guest of Mrs. F. Dobson, Reid street.

Messrs. Herbert Frallick and Frank McCoy are spending their Easter holidays in Aberdeen.

Mr. and Mrs. R. Wilson, of Peterborough, are spending the Easter vacation with friends in Lindsay.

Mr. F. W. Hall, of Toronto, who was spending his Easter Holiday in town, returned to Toronto this morning.

Miss Emma Calder and Miss May Mackenzie, of Toronto, spent Sunday in town, the guests of Miss Margaret English.

Mr. R. D. Collins, of the Molson's Bank, Trenton, is in town, the guest of his parents, Mr. and Mrs. J. D. Collins.

Mr. and Mrs. Scott and Mr. Fred Smith, of Brockville, were the guests of Mrs. T. J. Mowat for the Easter holidays.

Geo. T. Rickerby, Brockville, says the Recorder, left to-day for Peterborough, where he will spend Easter with his father.

Miss Alice Scott leaves to-morrow for Toronto to enter upon a course of training in the Church of England Deaconess Home, before leaving for the Foreign Mission Field.

THE STREET RAILWAY.

To the Editor of the Examiner:

Dear Sir,—A letter appeared in your issue of the 8th, inst., concerning the Street Railway and Lighting franchise in which the Otonabee Power Company make what appears like a false and unbusinesslike claim for gratitude from the people of this town.

Whether the town lighting goes to either company should be decided entirely on business principles, and no one has a right to ask or claim public gratitude for having acted as their own selfish interests prompted.

The proper course for us as citizens is to follow whatever wisdom indicates as most likely to promote our own interests, present and future and neither of the competing companies has a right to ask more. If we believe that the Otonabee Power Company is financially strong enough to carry out a contract such as they have offered, then the ground is cleared and we have to consider whether the revival of the Street Railway and the increased interest of Messrs. Cox and Stuart in the progress of the town thereby entailed is worth to us the difference in price between the Otonabee's offer and that of those gentlemen viz. $2,500.00 per year for ten years (equivalent to a cash bonus of $20,275.00.)

Let us not complicate the matter with questions of gratitude. That the Otonabee Power Company voluntarily reduced the price of light is open to as much question as would be a similar claim by the Peterborough Lighting Company. The prices of the two companies, until rate-cutting commenced, were almost identical, as will be apparent from the following, taken verbatim from the published contracts of the two companies:—

Otonabee Prices.

For each 16 c. p. lamp on contract.$ 5 00
For six 16 c.p. lamps in house or four 16's and four 8's... ... ... 15 00

Peterborough Light and Power Prices.

For each 16 c.p. lamp... ... ...$ 6 00
For four 16's and two 10's in house 12 00
For eight 16's and four 10's... ... ... 24 00

Let us be grateful for the present prices to the competition of both and not to the philanthropic impulses of either competitor.

Yours truly,
LIGHT.

THE USUAL WAY.

A man had a piece of news.
A reporter heard of it.
The reporter called on the man.
And asked him about the news.
The man played balloon with the reporter.
He swelled noticeably and said:—
"You fellers never get anything right. So I won't tell you."
The reporter did not get angry.
He knew the man was a fool.
He had seen him before.
He knew the real facts could be had from no one else.
Yet the reporter did the very best he could to get at the truth.
And published the story as he got it.
Then the man who had refused to give the facts arose early and bought a paper to see if the facts were distorted.
They were.
And he said:—
"I told you so."
Query.—With whom should the public yearn to get even—the reporter, who did his best, or the arrogant fool, who deliberately refused to help him?—Baltimore American.

We Must Move Them.

If you have any idea of the trouble and expense of moving granite and marble monuments and tombstones, you will understand our anxiety to sell what you see standing in our yard rather than have to move them to another stand. Our landlord is preparing to erect a new brick block on our corner, and rather than move our stock, we are asking but a fraction of what our monuments are worth to save moving. The Moore Monumental Company.

DIED AT ST. JOSEPH'S.

Death of Willie Sheehy, Son of Mr. R. Sheehy.

The many friends of Mr. and Mrs. Richard Sheehy of No. 267 Rubidge street, will sympathise sincerely with them in the loss they have sustained in the death of their eldest son, William Joseph, which took place at St. Joseph's Hospital at nine o'clock, last night. Death was due to scarlet fever.

Willie was an exceptionally bright boy of 12 years of age, and was a great favourite with his fellow-students at the Collegiate Institute, where he showed much cleverness. On Tuesday he was taken down with the fever, and was removed the following day to the hospital, where, notwithstanding careful attention and skilful treatment, he passed away last night. The funeral was private. Mr. and Mrs. Sheehy will have the sympathy of a wide circle of friends in their sad bereavement, whose bitterness in the first freshness of anguish, none but parents similarly bereaved, can understand.

THE LATE WM. CLARKE.

His Death Occurred in Rochester—Interment in Peterborough.

The death occurred in Rochester on Saturday of Wm. Clarke, son of Mr. Edward Clarke, of Peterborough The deceased was 46 years of age, and was well known to Peterborough people, having been for many years a resident of this town. When residing in Peterborough, the late Mr. Clarke, or "Billie" as he was familiarly known, was very popular amongst a wide circle of friends, and was a general favourite. He was a well known comedian and more than once contributed to the enjoyment of Peterborough audiences.

He left Peterborough about 17 years ago and has resided in Rochester, following the occupation of a traveller.

He leaves besides a father, two brothers and two sisters. The former are Messrs. Frank, of Warkworth, and Charles, residing in the United States. The latter are Mrs. Thos. Jobe and Mrs. Wm. Johnston, of town.

The remains will arrive here this evening from Rochester, and the funeral will take place from the residence of his sister, Mrs. Wm. Johnston, No. 80, Weller street, at 3 o'clock to-morrow.

IDYL WYLD SUMMER RESORT

Has Been Leased by Mr. J. W. Hutchison of Town.

Mr. J. W. Hutchison, of town, has leased Idyl Wyld summer resort, Rice Lake, and is busily engaged getting his house in shape for the coming season's business. Mr. Hutchison is a very capable hotel man and the patrons of this well known resort can rely upon all the service and comfort that may be required. In the neat little pamphlet Mr. Hutchison has issued he says:—

"Beautiful Rice Lake, on which this breezy resort lies, is a wide expanse of water, surrounded on every side with verdant hill slopes and distant villages. It affords excellent boating, yachting and steamer facilities, and abounds with the gamiest fish in America—Maskinonge and Bass. Permits are granted by the fishery inspector at Harwood for those who wish to indulge in this delightful recreation.

"In natural beauty and fine landscapes, Idyl Wyld has much to admire. The house is well situated where there is always a breeze, and a cool bracing atmosphere. The locality is salubrious, the climate all that can be desired, the scenery varied and romantic. Plenty of inviting shade—high, dry and healthy. Free from mosquitoes, flies or malaria. Perfect drainage. Quiet, restful nooks, green, grassy swards, wooded groves, terraced lawns, bridle paths and intricate trails, dancing pavilion, look-out points, etc.—everything that the tourist, pleasure or health-seeker can desire."

LATEST IN SPORTING CIRCLES

LACROSSE.

A meeting of St. Peter's T.A.S. team is called for Tuesday evening in the rooms.

Mr. Jack McCabe has cast in his lot with St. Peter's T.A.S. twelve and will don the red and black for the season. Jack's presence on the Total Abstinence Team means a great deal for that organisation, which is to be congratulated on securing the services of such a clever stick handler.

Mr. Fred Lynch, formerly of Peterborough, who has figured on the New Westminster team for several seasons past, will this season play with the green-shirted Shamrocks of Montreal.

It is rumoured in local lacrosse circles that Campbellford will hardly have a team this season. Several of last year's men have located in Port Hope, and are playing in junior aggregations in that burg; in fact they figured on the Port Hope line-up against Oshawa on Good Friday, as did also Mr. Fred Pope, the husky point player of last year's T.A.S. II team.

Hastings, it is reported, is experiencing some trouble in lacrosse matters, and if reports are correct, the new Trent Valley Lacrosse League may yet prove to be a purely local institution.

The Toronto Telegram is again after "Chaucer" Elliott, and moralizes thus: "After 'Chaucer' Elliott plays ninety games of baseball in the International Baseball League this season for pure love of the sport, he'll be the purest amateur in the country. He'll be the first man on record to play that much baseball for nothing." If the Telegram would put in type a few of its thinks about those professional Toronto lacrosse players it would receive more respect. But not a word of protest has it raised over the hired men now flocking through the Union station to play with the Toronto "amateur" lacrosse team.—Kingston Whig.

SERIOUS ACCIDENT TO SIR OLIVER MOWAT.

Venerable Lieutenant-Governor Suffers Fracture of Thigh.

He Stood the Necessary Operation Well and is Resting Easily.

(Special to the Examiner.)

Toronto, April 13th. — While undressing, preparatory to retiring, last night about ten o'clock, Sir Oliver Mowat, in some inexplicable manner, fell and fractured one of his thigh bones. Physicians were summoned promptly, and succeeded in re-uniting the broken bone. Sir Oliver, in spite of his advanced age, bore the operation very well, and is reported this morning as having spent a fairly good night, and as getting along as well as could be expected.

Amateurs will enjoy a musical treat by being in the T.A.S. Rooms on Thursday and Friday at 8 p.m. The Notre Dame pupils will have their vocal and instrumental selections awaiting. Prof. G. Markle and other friends will contribute to harmony's mellifluence. The prima donna, Mrs. Killin-Keough's beautiful soprano, will make all realize that Polymnia has her favourites still dwelling upon earth.

Admission, 25 cents; tickets on sale at Mr. Jas. Lynch's and at Mr. C. B. ley's.

THE ALBANY CLUB

Held an Impromptu Smoking Concert Friday Night.

A very pleasant but impromptu smoking concert was held in the Albany Club on Friday night, at which there were present the members and a few of their friends. Mr. Gliddon's orchestra was very much in evidence, and added very much to the evening's pleasure. There were many songs of pathetic and humorous strains, while the dulcet tones of a new piano and gramophone evoked considerable praise. It being an impromptu affair the evening was all the more enjoyable.

Hyslop Bicycles, Sundries and Tires of all makes are now on sale at Metherall's Bicycle Works. The Hyslop is the best this year. Call and let us explain our terms.

REV. MR. JOLLIFFE PREACHES ON ERRORS.

An Interesting Discourse at Charlotte Street Church.

Rich Men are not Always Good—Wealth Cannot Purchase Health.

At the Charlotte street Methodist church last night Rev. Mr. Jolliffe preached the third of his special series of sermons.

Rev. Mr. Jolliffe took for his text St. Matt. 25; 27, revised version:—"Thou ought therefore to have put my money to the bankers and then at my coming I should have received my own with interest."

Christ was a true teacher of economic and social life. The receiving of interest is morally right and wealth never an evil when held as a trust from God. Man is not an absolute owner, but a steward morally responsible for the use and effects of his wealth.

Erroneous ideas concerning wealth are held by both rich and poor.

First error.—Wealth is unnecessary. But without wealth the comforts and blessings of civilization as we enjoy them could not be realized. Wealth is sometimes mis-used as any God-given blessing may be. It is the use, not the existence for which we are held responsible, for example—the wicked servant.

Second error.—Wealth a necessary evil. Anything necessary to man's welfare cannot be an evil. Wealth has its dangers and temptations. Very small percentage of wealthy men are generous. Men become lopsided in moral development by selfish use of wealth, but wealth in itself is a blessing not an evil.

Third error.—Wealth is a fixed quantity and what one man gains another must lose. This is true of the gambler and swindler, but not of the wealth producer, the honourable business man. Wealth is a leaven, increasing, propagating, leaving both buyer and seller better off, and is the machinery by which we get a living.

Fourth error.—Wealth is an absolute good and the lack of it an unmixed evil. Wealth can be only a relative good. It cannot purchase health, respect, love, wisdom, Heaven. The greatest blessings of life are outside its sphere.

Fifth error.—Rich men are not good. This is true only of men who have mis-used this God-given trust. Men who combine to rob and oppress, as, witness the oil and coal combinations that regard not God in the matter, but treat Him as they would man. Indications point to state control of natural resources that God made for the common use of all, but the rich man that recognizes the sacred trust of wealth is a blessing.

Sixth error. — Many that are wealthy regard themselves as absolute owners. They ignore the claim of stewardship, and by ostentation, vanity and selfishness array the poorer classes against them. Millions are wasted on selfish indulgence. The time is coming when wealth thus used will be considered a disgrace.

Seventh error. — Wealth considered an end. Wealth is designed for a means. A true man measures by what he is, not by what he has got. Honourable wealth is made, not gotten, and a true man must be larger than his possessions, and not a mere reckoner dwarfed by greed. Consecrated wealth is a great blessing, and we must "Do justly, love mercy and walk humbly before God."

Last night's sermon was listened to with great attention. Mr. Jolliffe's former business training has placed him in a position to speak with intelligence and authority on social issues.

Next Sunday evening the topic will be, "Is the human race one?"

Rubber Balls, Footballs, Golf Balls and Tennis Balls at Salisbury's.

YESTERDAY'S IMPRESSIVE SERVICES.

Jubilant Spirit of the Day Reflected in Service and Song.

FLOWER-DECKED CHURCHES.

Thronged With Worshippers in all the Churches—Liberal Easter Offerings.

ALL SAINT'S CHURCH.

At All Saint's church yesterday morning there were two celebrations of the Holy Communion, one at 8 a.m. and the other at 11 a.m. The special music was, Jubilate, Schilling, anthem, "Come, See the Place Where Jesus Lay." The Rector preached on "Christ Our Passover."

So large was the congregation at All Saint's church last night that special seats had to be provided. Both the Magnificat and Nunc Dimittis, by Ebdon, were sung, besides three anthems. These latter reflected great credit on the choir and its instructor. The anthems were, "Come See the Place Where Jesus Lay," "Oh! Christ Thy Love" and "King of Kings."

The Rector, Rev. W. L. Armitage, preached on "Where is Thy Lamb?"

After the sermon, the male quartette, consisting of Rev. W. L. Armitage, and Messrs. Joe Legg, W. Moore and R. H. Shepherd, gave some very beautiful sacred music. The choir gave some very beautiful selections, while Mr. J. Firth, of Toronto, sang a solo entitled "On the Cross." The church was beautifully decorated for the occasion.

The number of communicants at the celebrations was 168. The offerings amounted to about $200. The floral decorations were beautiful.

ST. PETER'S CATHEDRAL.

The Easter festival was elaborately and devoutly celebrated at St. Peter's Cathedral yesterday. The high altar was beautifully brightened with flowers, the work of the Sisters of the Congregation de Notre Dame. Three masses were celebrated—at 8 o'clock, at 9.15 and at 10.30, the latter pontifical high mass sung by His Lordship, assisted by the Cathedral Clergy. In the evening pontifical vespers were sung by His Lordship and Rev. Dr. O'Brien preached the excellent sermon on the subject of "The Resurrection." Very large congregations attended all the services, and the Easter offerings were liberal.

The music, of course, was special. The morning music was as follows: Haec Dies, Lambilotte; Toesch's second mass; offertory, Regina Coeli, J. Wiegand, and at Vespers as follows:—Todesco's Musical Vespers; O Salutaris, St. Saens, solo, Mr. J. Gillogley; Trio, "Jesu Dai Vivi, Verdi," Misses A. Simons and L. Hallahan, and Mr. J. Gillogley; Tantum Ergo, Lambilotte. The solos in the mass were taken as follows: Soprano, Mrs. McCarthy, Misses Simons, Hallihan, Koster, Sullivan, Begley; Alto, Misses J. Delaire and L. Hurley; Tenor, Messrs. Legros and McPherson; Bass, Messrs. J. Wyer, J. Gillogley, Picard, Pope and Delaire. At the offertory in the Regina Coeli, the solo was taken by Mrs. McCarthy. Special mention should be made of the Verdi trio at Vespers, "Jesu Dei Vivi," which was excellently rendered.

ST. JOHN'S CHURCH.

The Easter brightness was interwoven—the warp and woof, of the Easter services at St. John's. The floral decorations, confined chiefly to the chancel, while not elaborate, were in excellent taste, and very effective. The four services of the day were all largely attended, and the Rector's heart was cheered by the devotional spirit evidenced in the unusually large attendance of communicants at eight o'clock, and mid-day celebrations. The afternoon service for children was very successful, and in the evening a very large congregation assisted at a very bright service, of which the dominant note was the Easter brightness and rejoicing. An excellent, logical, and impressive sermon on the subject of the "Resurrection," was preached by Rev. R. A. Bilkey, of Toronto, who kindly assisted Rev. Mr. Davidson during the day. The Easter offerings, largely devoted to the Rectory Building Fund, were liberal, amounting to something like $535, not including a very considerable additional amount in subscriptions.

During the communion service special prayers were offered for those who could not, owing to illness or bereavement, be present, and also for former members of the congregation now living in other places. It might be mentioned that several of the latter sent to the Rector their contributions to the Easter offering.

As was to be expected, the music, special and incidental, was of a brilliant character, in sympathy with the spirit of the day. Both in devotional spirit and musical finish and effectiveness, it was remarkably good. At the morning service, "Christ, our Passover," was sung, the Te Deum was Smart's, and the Benedictus was Beethoven's. The offertory anthem, "Hosanna in the Highest," by Lemar, was capitally sung, Mr. Morphet taking the solo in his usual effective way. In the evening Lahee's "Magnificat," a very beautiful setting was sung. Miss Daisy Sawers took, with good effect, the soprano solo, and the duet, taken by her and Mr. Jas. Browne, was very tastefully and sweetly sung. Mr. Alex. Elliott's contribution was a welcome number to many members of the congregation, who felt that he had lost none of his old-time skill and effectiveness of voice, which was some years ago heard with so much delight. A veritable gem was Beethoven's "Nunc Dimittis," sung, unaccompanied, by a full choir. The smoothly advancing crescendo from an almost whispered opening, the delicate punctuation of the phrases, and perfect harmony of both time and expression were charming. The offertory anthem, "On the first Day of the Week," the first section sung in excellent unison, and the middle allegretto movement, leading up to the grand finale in a magnificent burst of exultant song, was quite thrilling. The special music throughout was excellent and creditable alike to both choir and leader. Great assistance was afforded by the organist and a full orchestra, which concluded the music of the day by a spirited rendering of the Priest's March from Athalie, by Mendelssohn.

CHARLOTTE STREET CHURCH.

There were large congregations at both morning and evening services at the Charlotte street Methodist church yesterday, which was beautifully decorated with Easter lilies, palms and ferns. The hymns at both services were very suitable for the occasion, and were heartily sung by the large congregations.

The special music at the morning service was Anthem, "Christ, Our Passover," by Schilling, solos by Mrs. Pearse, Mrs. Killin-Keough, and Mr. Mitchell. A quartette, consisting of Miss Belleghem, Mrs. Pearse and Messrs. Mitchell and Weir, sang Warren's Magdalene. Mr. Keough and Mrs. Killin-Keough sang a duet, entitled "The Lord is My Shepherd," while the second anthem was "Awake up my Glory," by F. C. Maker. The pastor, Rev. W. J. Jolliffe, preached an excellent sermon.

The special music at the evening service was:

Anthem, "Hark, Hark, My Soul....Shelly
Solos by Mr. Keough and Mrs. Killin-Keough.
Solo, "Fear not Ye"..... .....Spross
Miss Belleghem.
Duet, "All through the Night".....
Mr. and Mrs. Keough.
Quartette, "The Magdalene"..... ..Warren
Miss Belleghem, Mrs. Pearse and Messrs. Mitchell and Weir.

All the music reflected great credit on the choir. A report of the sermon preached by the pastor appears elsewhere in these columns.

GEORGE STREET METHODIST.

Large congregations attended the Easter services in George street Methodist church yesterday. Sermons appropriate to the day were preached by the pastor, Mr. Wilson, and a delightful programme of music was given by the choir. An orchestra of twelve pieces accompanied the choir with very pleasing effect. In the morning the anthems "Hail Mighty Victor," "Rejoice The Saviour Arose To-day," "Awake, Awake" and a carol "Spring Time Again is Here" were given by the choir and orchestra, while the evening selections consisted of the anthems "Christ the Lord is Risen To-day," by the choir, Miss Chasty and Mr. J. Miller taking the soprano and tenor duet in good voice, and "O Wonderful Light" and the carol "Nature's Joy Bells" the orchestra and organ accompanying. A very pleasant number was "O Calvary" sung by the choir unaccompanied. Miss Nellie Davies was present at both services and was listened to with great pleasure. In the morning Miss Davies sang Shelby's "Resurrection," while her evening selection was "I Know That My Redeemer Liveth," from Handel's "Messiah." Miss Davies is the possessor of a beautiful voice which was heard to good advantage in both solos. The evening selection although a most difficult one, was taken with ease and displayed the fine quality and sustaining power of Miss Davies' voice. The music throughout the day was most pleasing and the leader and organist, Mr. Mulligan and Mrs. Mowat, are to be congratulated on the excellent programme given.

ST. LUKE'S CHURCH.

There were large congregations yesterday at both services. At the St. Luke's church, Ashburnham, yesmorning service suitable hymns were sung, while the Te Deum in "F," by C. Simper, was most effectively rendered. The anthem was "Why Seek Ye the Living Among the Dead," by S. C. Cooke, was excellently given, Miss E. Burnham and Miss Lillie Jackson taking the soprano solos, while Misses Lillie and Daisy Jackson sang the duet parts, taking the soprano and alto respectively. The subject of the sermon, which was preached by the Rector, Rev. E. A. Langfeldt, was "Jesus Saith Unto Him, Rise, Take up Thy Bed and Walk." At the evening service the Magnificat and Nunc Dimittis, by F. G. Plummer, were sung, while Miss Lillie Jackson excellently sang a sacred solo entitled "Nearer My God to Thee." At this service the Rector took for his text "Faithful Unto Death." Both services were hearty, the congregation cheerfully joining in the songs of praise. The Easter offering at this church was $278, which, when supplemented by special offerings taken during Lent, amounts to $380. The Children's Lent and Self Denial Offerings amounted to $17.06, which goes to missions. There were 205 communicants at the Holy Communion service, which was held after the morning service.

MURRAY STREET BAPTIST.

Yesterday's music was of an excellent character. In the morning the choir rendered the anthem, "Christ, our Passover," by Schilling, Miss Hall and Mrs. Rehill taking the solos. It was indeed a pleasure to hear Mrs. Rehill's rich contralto voice, her lower notes being particularly fine. During the offertory Miss Hall rendered the Palms in a most capably manner. In the evening the choir sang Roger's anthem, "Christ is Risen from the Dead," Miss Hall taking the solos throughout. During the offertory Miss Hall sang with excellent effect Holden's "Resurrection," her rich quality of voice being particularly suited for this selection.

The Beehive

"Whatever We Do, We Do It Well."

EASTER BRIC-A-BRAC

Our stock of Belts, Collars, Cape Collars, Ruffs, Kid Gloves and all those little but very necessary accessories to a lady's wardrobe is very complete.

KID GLOVES

Our Gloves are well assorted in Black and White and all the most desirable shades—at **75c, $1.00, $1.25,** etc. All Gloves at $1.00 and over are guaranteed.

COLLARS

See our new up-to-date shapes in Linen Collars. We have a most complete stock of Fancy Collars in all the newest shades and make ups. These run in all prices at **25c, 50c, 75c, $1.00, $1.25, $1.50.** See our Chiffon Collar trimmed with velvet ribbon. It is very pretty at **75c.**

HANDKERCHIEFS

Our assortment of Handkerchiefs in silk, fine linen and fancies, is very interesting to look over. They run from **5c, 10c, 15c, 25c, 35c, 50c,** etc.

BELTS

The Beehive is noted for its Pretty Belts. We have all the newest styles in the tab effects, oxidized buckles, etc., in silk, sateen, etc.—**25c, 35c, 50c, 75c, $1.00, $1.25,** etc.

COMBS

Our stock of Dressing Combs and Fancy Combs and the small needs of the toilet is very complete.

SILK WAISTS

We have just received some of the very newest New York novelties in exceedingly handsome Waists, in blue, pink, white and black.

Telephone 330.

A BOY'S NIGHT OF ROUGHING IT.

Lost His way and had an Exciting Experience.

Master William Gage, a son of Mr. Thomas Gage, who is working on Mr. Charles Parker's drive of logs, had a very unpleasant experience on Friday night last. The drive is coming down the Squaw River, and on Friday evening young Gage left off work and started for the camp. In doing so he took the wrong path, and in a short time came up to the river, which is a very twisty one, and almost ties itself in knots. Taking another path he walked for some time and again came to the river. Retracing his steps till he struck another path, he tried that, and once more found himself at the river. By this time it was getting dark, it was storming, and it was cold. For some distance he made his way through the dim light till he came to a large pile of tan bark, and as he fortunately had some matches, he decided that this was his best chance of putting up for the night, so he set to work to get a fire, and a nice job he had to do so, but with some birch bark and dead limbs that he found near by, he succeeded, and then he built a sort of tent or Dutch oven with the tan bark. In this he was very comfortable and got through the night, stormy and cold as it was, without any bad effects. The men at the camp when they noticed his absence set out to look for him as long as they could see, and in the morning a general search was made both of the river and woods, for the chances were even of his being lost in the woods or drowned in the river. About the middle of the forenoon one of the searchers got an answer to his call, and a very hungry young man was quickly piloted to the camp cook for a cargo of provisions. He was none the worse of his experience and appears to have acted with good judgment throughout, after finding that he had lost his way.

We have a large shipment of the choicest fresh-caught fish arriving every day this week. You will be sure of the freshest and best if you order from S. A. OKE, 376 George street; Telephone 16.

IN FULL SWING

China Hall's "old time sale" is now in full swing and should be taken advantage of at once. Everything in the immense stock is reduced in price beyond your expectation. Dinner Sets, Tea Sets, Toilet Sets, Lamps, etc., almost at your own price.

Trunks for all uses. Leather Goods, Satchels, Valises, Dress Suit Cases.

B. SHORTLY

SIGN OF HORSE AT DOOR.

A Touch of Ireland in Spain.

When I was at Malaga, the lighthouse was out of order, and some Americans had complained officially that their shipping interests were being damaged. No answer was received for two years. Then it was declared that it was the fault of the earthquake which had taken place many years previously. Finally the light was put out altogether because it interfered with the fireworks. When a pair of boots I had ordered did not fit and I complained to the maker, he arrived indignantly to protest. "They fit here," he said, prodding my tender toe, "and they fit there," another prod. "You cannot expect them to fit everywhere all at once."

The Discovery of Felt.

Felt is a union of animal hair with wool in such a manner as to produce a firm, compact substance. Its discovery was of so much importance that it seemed necessary to attribute it to divine agency, and hence we have a tradition of saintly origin. When St. Clement was fleeing from his persecutors his feet became blistered, and in order to abate the pain he placed wool between his sandals and the soles of his feet. On continuing his journey the wool, by the perspiration, motion and pressure of his feet, became a uniformly compact substance, which was afterward denominated felt.

Heredity.

The man was starting out with his perambulator.

His face was full of gloom.

The perambulator was full of baby.

The infant was in a good humor and babbled audibly.

"Yes," said the father audibly, "there's an instance of heredity for you. Just exactly like your mother, always clamoring to 'go buy-buy' when you ought to know that your father is heels over head in debt."

Embarrassed.

"What a beautiful luncheon!" said the guest.

"Yes," answered Mr. Cumrox, "mother and the girls say it is all right."

"But you aren't enjoying it."

"No. I'm a little embarrassed. I've been standing over here trying to figure out which are the edibles and which are the decorations."—Washington Star.

EASTER MILLINERY

We are prepared with the most distinctive Millinery, with every new fancy of fashion mirrored in our fine display.

Come as soon as you can and see the beautiful Hats from New York and other fashion centres. As many variations of style as there are ideas in the feminine mind.

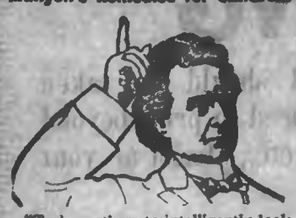
Ready-to-trim Hats, Children's Trimmed and Untrimmed Hats, and all the new flowers and trimmings at lowest prices.

MISS DELANEY

George Street.

Children's Ailments.

Munyon's Remedies for Children.



"Train mothers to intelligently look after the health of their families and the well-being of a nation is assured." —Munyon.

It has assuredly been a labor of love for me to study the diseases of children with a view to their relief and cure. Many grown people will stubbornly cling to the debilitating drugs and nostrums that are a relic of barbarism, but I hold that it is almost a crime to give them to children at the risk of physical and mental degeneration. My remedies for children's diseases are effective and prompt, but they are entirely harmless. Every thoughtful mother should have a Munyon Family Medicine Chest, and should never fail to keep it supplied with Munyon's Cold Cure, Cough Cure, Sore Throat Cure, Fever Cure, D. D. & C. Tablets, Croup Cure, Cholera Morbus Cure, Constipation Cure, Worm Cure, Face and Skin Ointment, Munyon's Balm and Munyon's Plasters. This chest will prove an unfailing silent friend in the hour of need. A few doses of the proper remedy given at the right time will prevent long and dangerous spells of sickness, and save many doctors' fees.

MUNYON'S REMEDIES.

Munyon's Medicine Cases, $2.50, $5 and $10.

Munyon's Cold Cure prevents pneumonia, and breaks up a cold in a few hours. Price 25c.

Personal letters addressed to Prof. Munyon, Philadelphia, U. S. A., containing details of sickness, will be answered promptly and free advice as to treatment will be given. 12B

LOOK AHEAD!

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto • • The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

THE NEWGATE AUCTION.

Relics and Fittings of London's Historic Prison Knocked Down to the Highest Bidder—A Prisoners' Relic.

The Newgate pigeons, which have been for years the only feature of innocence or picturesqueness about the old prison, looked down from the high walls upon a very strange sight to-day, says The Pall Mall Gazette of Feb. 6, 1903. In the exercise ground, where so many actors have trod their parts in the long tragedy of Newgate, a brisk auctioneer was selling the fittings which have been accumulated in the work of demolition. To keep up the figure of speech, it was an auction of stage "properties." But what a stage! The grimy old walls towered up to a dull sky, and grime which had never been disturbed for a century or more lay about in disorder. Locks, bolts, and bars, panelings, railings, and doors lay about in heaps, and the audience wandered in and out of the old cells and corridors like business-minded vultures in a gruesome place.

Mr. Herbert Hookey, who acted for Messrs. Douglas Young & Co., commented with a simple eloquence on the historic associations of the lots, and the unique interest which attached to the day's event in the long and varied history of London.

First came several heaps of panelling and benching out of the prison chapel, and those fetched prices varying from half a guinea to a pound or so. Each time the auctioneer called out the result of one challenge and the subject of the next, his man rapped smartly with a stick upon the fresh lot to attract attention. Meanwhile people stood around Mr. Hookey's impromptu platform, consisting of the wreck of an old gas stove, with a few planks across it, and the old chapel pulpit frowned from an eminence alongside him as if to admonish those present of the majesty of law, both human and divine, even in the midst of ruins.

The starting bids as a rule were paltry, as if they came from scoffers with light hearts and light pockets. But every now and then the bidding went up at a bound, and Lot 8 went down for £3 5s., being a cluster of old cast-iron columns and bars with ornamental heads, removed from the chapel gallery. Anywhere else the same lot might have brought a third of the sum; but something is due to history, and what one buyer called the "hannals" of crime. Another and more fascinating commodity was a couple of old wooden cupboards formerly used for records and jailers' effects. One measured 3 feet by 20 inches by 14, and had an iron facing upon its oaken walls; the other looked like the relics of a well-worn kennel, so it did not impair the offers for its more important fellow. This is believed to be the cupboard from which Dennis the hangman took the keys, (vide "Barnaby Rudge,") and it brought the handsome sum of £12 10s. The sale began to take serious proportions.

A couple of doors leading to the men's and women's galleries in the jail chapel brought £3 7s. 6d. and £4, respectively, but the reason that the women's fetched the larger sum lay in no spirit of gallantry: it was merely that it was on show, and the other had not been removed. The painted iron railings which divided the sexes in the chapel brought £9, and a few oak timbers from the chapel roof brought £3 on account of their charred surface ever since the Newgate fire in the Gordon riots. Two massive oak and iron bound doors, with rather more bolting and fastenings than door, brought £5; two more, rather less decorative, £2, and another, the gem of the series, fetched £4 10s. At this stage of the proceedings a group of spectators created a diversion. The planking on which they were standing tipped up and slipped them off. There were facetious remarks about a "longer drop," and the company's laughter betrayed a smack of nervousness. The utmost that could be said for the old chapel stove by way of association was that the auctioneer was standing on it. It fetched £3. The solid pews that once held condemned prisoners and their warders went for £3 5s.; they looked, though the auctioneer guaranteed them complete, like a stack of rejected firewood. The pew of the jail Governor fetched 11s., and a pile of sundries, ranging from beds and sun-blinds to prison notice boards and a plate rock, were equally various in the moderate prices they fetched.

Then phrenology, criminology, and a number of other hobbies had their turn in stimulating interest, for a set of nine plaster heads was put up, taken years ago from criminals just taken from the scaffold. They included Bartholomew and Larney, whose records are in The Calendar, and with a fine indifference to the scene, they were held up high by the broker's men, with the same air an old-time executioner might have put on when he held up a fresh-cropped head and proclaimed it as the head of a traitor. The nine fetched 5 guineas. After that a couple of horizontal boilers, at £22, seemed to bring the sale down to everyday prose, and a set of doors, at a pound apiece, seemed to shut out speculation for a time.

Then came the main cast-iron entrance gates, through which the prison van used to enter, with all concomitant locks, plates, bolts, stays and drawbars complete. These, weighing several tons, went at £12. Just as well-known and twice as gruesome were the leg-irons over the main door and execution door, and these fetched £8 10s. and £15, respectively. The word execution, with the help of an auction jest, served to mark the difference in the bids. The main doors to the Governor's house were knocked down for £80 to Messrs. Chubb because of the rare old Bramah lock thereto affixed. Other old oaken doors brought prices like £9 10s., £4 10s., £10, £4 4s., £5, and £25. A strange steel casement and shield provided for the main door after the Gordon riots brought only £5 5s.

Strength.

Strength is one of the distinguishing attributes of a healthy man. In one of the most beautiful poetic flights known to literature, the inspired singer finds no finer figure to express the sun's majestic rising than "rejoicing like a strong man to run a race."

Who has not known such a man, the picture of health, hardy and athletic, suddenly begin to fail? At first he has a slight cough, which he laughs at. Presently the cough becomes deep seated. The scales tell him he is losing flesh. A little later and the lungs bleed. He grows weaker and more and more emaciated. Each day sees some circumscribing of his activities, until at last he does not leave the house, and friends shake their heads and say, "Poor fellow! Who would ever have believed it possible?"

But what are the doctors doing all this time? Doing their best probably, but usually doing no lasting good. The emaciation grows more marked, the weakness more apparent, until at last the sick man hears the sentence, "There's no hope."

It is just at this very point of hopelessness that the use of Dr. Pierce's Golden Medical Discovery has proven the first step to health to many a sufferer. It cures the cough, stops the hemorrhage, heals the lungs, puts sound flesh upon the body, and sends the man back to the activities of life as strong as ever. It's a wonderful statement, but it is literally true, that "Golden Medical Discovery" has cured time and time again when all other means had absolutely failed to benefit.

There is no alcohol in the "Discovery," and it is absolutely free from opium, cocaine, and all other narcotics.

Persons suffering from disease in chronic form are invited to consult Dr. R. V. Pierce, by letter, *free*. All correspondence is private and the confidences of the sick are guarded with professional privacy. The success of the methods and medicines of Dr. R. V. Pierce, may be inferred from the fact that of the thousands treated by him and his assistant staff of nearly a score of physicians ninety-eight per cent. have been perfectly and permanently cured.

"A SURE CURE."

"I beg to state that I have used three bottles of Dr. Pierce's Golden Medical Discovery since my correspondence with you, and find great improvement in my case," writes Mr. A. F. Novotny, of New York, N. Y., Box 147. "I feel that I am in need of no more medical assistance. When I started to take your medicine I had a regular consumptive cough, of which I was afraid, and everybody continued and warned me concerning it. I was losing weight rapidly, was very pale and had no appetite whatever. Now my condition is changed entirely. I do not cough at all, have gained eight pounds in weight, I am recovered my healthy color, and my appetite is enormous. I can recommend your medicine to everybody who may be in need of the same, as it is a sure cure, no humbug as are most other patent medicines, and is far superior to all similar medicines."

THE DOCTOR WAS WRONG.

"When I commenced taking your medicines, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sidderland, of Chaneyville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. The doctor who attended me said I had lung trouble and that I would never be well again. At last I concluded to try Dr. Pierce's medicines. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription' and five vials of 'Pellets.' I am now almost entirely well, and do all my work without any pain whatever, and can row with more ease than I could formerly walk."

Dr. Pierce's Common Sense Medical Adviser, 1008 large pages and 300 illustrations, is sent *free* on receipt of stamps to defray expense of customs and mailing *only*. Send 50 one-cent stamps for the book in cloth binding or only 21 stamps if paper covers are desired. Address Dr. R. V. Pierce, Buffalo, N. Y.

The "Tom o' Bedlams."

In the old days, when the supply of lunatics exceeded their accommodation at Bethlehem hospital, the difficulty was not met by the building of temporary annexes, but by the admission of outdoor patients, who went by the name of Tom o' Bedlams. As an old chronicle tells us: "They had on their left arm an armilla of tin about four inches long. They wore about their necks a great horn of an ox in a string or bawdry, which when they came to a house for alms they did wind, and they did put the drink given them into this horn, whereto they did put a stopple." It was found, however, "that several vagrant persons do wander about the city of London and countries, pretending themselves to be lunatics under cure in the hospital of Bethlehem, with brass plates about their arms and inscriptions thereon," and these occasional patients had in consequence to be abolished in 1675.

A Brave Woman Sailor.

There are any number of instances on record of women sailing ships into port single handed when compelled thereto by some exceptional stress of circumstances. A typical case is that of the brigantine Moorburg, cholera stricken in the autumn of 1877 while on a voyage from China to Australia. The only one that escaped the pestilence was the captain's wife, and she was handicapped by having a baby in arms to suckle and attend to. Nevertheless she navigated the vessel into Brisbane, a voyage of some seven weeks' duration, reefing, steering and generally performing the work of a full crew, while tenderly nursing the sick during her spare moments.

A Large Order.

The proprietor of a certain restaurant had "leased" the reverse side of his bill of fare to a carriage manufacturer, who prints advertisements thereon.

The other day a customer in a great hurry ran into the restaurant, sat at a table and was handed a bill wrong side up by the flurried waiter.

The customer put on his pince-nez, curled his mustache with his left hand and shouted in a voice of thunder:

"Bring me a fly, a landau, two victorias and a dogcart! Got any wheelbarrows?"

The waiter fled.—London Answers.

Human Nature.

"What are the respective ages of the father and the son?"

"Well, I judge that the former is over fifty, because I notice he likes to be called 'my boy,' and that the latter is under twenty-five, for the reason that it pleases him to be addressed as 'old man.'"—Smart Set.

Dr. Wood's

Norway Pine Syrup

Cures Coughs, Colds, Bronchitis, Hoarseness, Croup, Asthma, Pain or Tightness in the Chest, Etc.

It stops that tickling in the throat, is pleasant to take and soothing and healing to the lungs. Mr. E. Bishop Brand, the well-known Galt gardener, writes:—I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death. My wife got me a bottle of DR. WOOD'S NORWAY PINE SYRUP, and to my surprise I found speedy relief. I would not be without it if it cost $1.00 a bottle, and I can recommend it to everyone bothered with a cough or cold.

Price 25 Cents.

LONG BROS. TWO STORES
Nos. 236 and 414 George Street.

TWO PICTURES.

When Ethel had her picture "took"
('Twas just a score of years ago),
We vexed by candle, bell and book
No baby ever acted so!
She screwed her mouth, she twirled her toes—

Our hair turned gray in sheer despair—
To get our Ethel sweet to pose
Was then a task to make one swear!

When Ethel faces now the lens
(Mark well the changes Time can bring!),
'Twould take at least a dozen pens
To tell of all her pondering
On how to get the best effects
Of pose and rest, of light and shade,
For Ethel now no score objects
To having her sweet likeness made!
—Charles N. Lurie in New York Times.

Squaring Himself.

"What's that you say, sir?" demanded Archie. "You'll have to pad my right shoulder a little? Is there anything the matter with it?"

"No, sir; not at all," replied the tailor, "but our best customers are—aw—wearing the right shoulder a little higher this season, sir."—Chicago Tribune.

A Resourceful Bride.

Her first venture at cooking dinner in her own home had passed successfully, and they sat in silence at opposite ends of the table wondering at the novelty of it all and gazing at each other.

"Honestly, honestly—cross your heart—did you like it, Fred?" she asked finally.

"Never enjoyed anything so much in my life," he said and swallowed a lump.

"Everything—everything, from soup to pudding?"

"Every mouthful, from soup to pudding," he said bravely.

"Oh, I'm so relieved, then!" she said as a huge sigh escaped her. "You see, I forgot to order the sirup for the sauce for the pudding, and I had to have something, so I took the cough sirup, and I was so afraid you'd taste it."—New York Times.

Harmony in the Leaves of a Tree.

One of the remarkable characteristics of a tree is the process of leafage, and if we examine the bough upon which the leaves grow the admiration of the scientific agriculturist will become thoroughly aroused over the perfect consistency and artistic skill manifested in the arrangement of each spray and the exact number of leaves arranged with the most exquisite art and regularity. Every group of leaves forms merely long lines—some short and each one different—no two alike, no two in the same position, yet all so perfect and harmoniously blended that there can be no antagonism, no sameness and all these thousands and thousands of strange and delicate forms grouped together, neither confused nor ill arranged.

SAYINGS OF CHILDREN.

Curious Inquiries and Remarks by the Rising Generation.

"Mamma," queried small Edith, who was looking at the picture of an angel, "how do the angels get their gowns on over their wings?"

Edgar, aged six, was recently sent to school for the first time, and upon his return home he asked, "Papa, who taught Adam the alphabet?"

Small Harold was taken to a literary club meeting one afternoon, where his sister read an essay, and upon his return home he was asked what they did.

"Nothing much," he replied; "only sister talked to herself on a piece of paper."

Little Fred after attempting to make a picture of a horse on his slate said, "Mamma, does God see everything?"

"Yes, dear," was the reply.

"Well," continued the embryo artist, "I'll bet he'll laugh when he sees this horse."

After dinner was over little Margie was observed with her head bowed and her hands clasped. "Why, Margie," said her mother, "don't you know dinner is over?"

"Don't interrupt me, mamma," rejoined the little miss. "I'm prayin' for another dish of that puddin'."

Needless to say her prayer was answered.—Chicago News.

Well Bred.

"What well behaved children you have, Mrs. Spinks."

"So glad you think so. I give my whole time to their bringing up. Willie never leaves the house without waving a kiss to me from the sidewalk. And the way his little brother Johnny takes off his hat to ladies in the street is too sweet."

"What are they doing now at the window?"

"Plaguing the woman next door, I suppose, by looking across the areaway into her kitchen. It makes her wild, and the children enjoy it so much."—Newark News.

An Excess of Generosity.

"The Biglers are a remarkably open handed and unselfish family, don't you think so?"

"Yes, but they carry it too far. Somebody sent them a box of oranges not long ago, and they let their little boy take a basket and go around among the neighbors and give an orange to each child."

"That was generous, wasn't it?"

"Oh, yes, but little Willie happened to have the mumps, and in an excess of generosity he gave the disease to each child he met."—Cleveland Plain Dealer.

Directed All Right.

Mrs. Hayseed (visiting New York)—Hi, sonny, can you tell me where Wall street is?

Chimmy de Chump—Yes'm. Youse goes right down this way till youse come t' where some men's puttin' up a buildin'.

Mrs. Hayseed—And is that the street?

Chimmy—No'm; dat's de wall.—Baltimore News.

News by Wire.

Mrs. Jones—Oh, dear me, please tell me how to word this telegram to my husband! I want to tell him that the baby is sick, the cook is ill, the water pipe is leaking, and I want him to come home at once.

Operator—Oh, if you want him to come home at once you had better say, "Good news; come immediately."—Telegraph Age.

Would Be Too Bad.

"William, now that you've made your property over to me I can do as I please with it, can't I?"

"Well, of course as your husband the law gives me a third interest in the real estate while I live."

"You wouldn't be mean enough to insist on that, would you, William?"—Chicago Tribune.

Coughs, Colds and Asthma

As Well as Croup, Bronchitis and Whooping Cough are Quickly Cured by

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE.

The virtues of this great prescription of Dr. Chase is so well known in Canadian homes that it seems useless to do more than remind you that it has a larger sale and is curing more people than ever before.

Mrs. J. W. Lloyd, Albion street, Belleville, Ont., states:—

"In the beginning of last winter I took a very severe cold, accompanied with a bad cough, and was almost laid up for a time. I tried serveral remedies, but with indifferent results. On the advice of a friend I got a bottle of Dr. Chase's Syrup of Linseed and Turpentine, and found that it relieved the cough at once. By the time I had taken the one bottle my cold was gone, and I can truthfully recommend it as a splendid remedy for coughs and colds."

Mrs. A. A. Vanbuskirk, Robinson street, Moncton, N.B., and whose husband is carpenter on the I.C.R., states:—

"For years I have used Dr. Chase's Syrup of Linseed and Turpentine for my children whenever they take cold. I used it first with one of my children suffering with a severe form of asthma. It seemed as though the least exposure to cold or dampness would bring on an attack of this disease. I began using this medicine, and must say that I found it most excellent. We have never tried anything in the way way of cough medicine that worked so satisfactorily. It seemed to go right to the diseased parts and brought speedy relief."

Do not be satisfied with imitations or substitutes. The portrait and signature of Dr. A. W. Chase is on every bottle of the genuine. 25 cents a bottle, family size (three times as much) 60 cents, at all dealers, or Edmanson, Bates & Co., Toronto. 12

ASK FOR

Labatt's PORTER

(LONDON)

Proved to be the best by analysis of four chemists, and by awards of the world's great exhibitions, especially *Chicago 1893*, where it received ninety-six points out of a possible hundred, much higher than any other porter in the United States or Canada.

IN THE WEE SMA' HOURS

By AMY LEE

Copyright, 1903, by the S. S. McClure Company

Mrs. Ruggles disapproved—hysterically. James Anstruther said less, but thought more deeply. But in the end Elsa triumphed.

There were so many things, she insisted, that she would need for their little home when the wedding occurred in October—[illegible] which she could not [illegible], but which her mother's limited income would not permit her to buy. Seven dollars a week and two meals daily, with absolutely nothing to do but hand out keys and mail! The hotel was within walking distance of their home, so she could save every cent of her salary, to say nothing of what her mother could save on their table in her absence.

Mrs. Ruggles had the old fashioned southern prejudice against business life for women. In a vague way she realised that it was perhaps a particularly perilous position in which to place her pretty daughter. Then, too, she looked forward with dread to the three meals alone each day. Little did her daughter realize how much she would save on the table, how seldom she herself ate finally for herself more than tea and bread and fruit.

Anstruther felt the rooted objection which every good, manly fellow must make at thought of his sweetheart working for her daily bread. He wanted to assume that burden himself, but Elsa had insisted upon waiting until every cent was paid on their home here. Moreover, he disliked the publicity of it all, the phase of life which she must inevitably see day after day. But Elsa alternately pouted and cajoled until she won her point and was duly installed as key and mail clerk at the Stuyvesant House.

At first she was radiantly happy in her work. The manager of the hotel, Mr. Paxton, had been her father's friend and took more than passing interest in his new employee. It was pleasant to wear her long, trailing black skirt and a fresh, dainty shirt waist every day and to sweep into the dining room, where well trained waiters served her. And pleasanter still it was to buy certain little luxuries she had long wanted to add to her wedding outfit.

But by and by the serpent of envy raised its head in her new found Eden. The regular guests passed her in such a bewildering variety of frocks that her own simple outfit turned rusty in her eyes. Out of town people, in for a few days' shopping, sent home C. O. D. packages that made her own purchases look absurdly small. She discovered that what appeared like luxuries to her were the everyday necessities to the majority of Stuyvesant House guests. And why should these women who carried their beautiful gowns [illegible] poor grass be given all the good things of life while she had as little to set off her natural attractions? There were the two daughters of a Butte mine operator who [illegible] outside their gloves and [illegible] letters with crisp bills. They had actually offered her a tip one day as she handed out their keys. Thinking of it all, a fever sometimes burned in her veins that even the overworked electric fan above her head could not counteract.

Many of the guests tried to patronise her, but she kept herself proudly in hand. As for the men, she vouchsafed them only the demurest "good morning" when they made frequent and often [illegible] visits to her desk. This—until Ainslee came. Ainslee represented a prominent New York importer, ordered his clothes from a Broadway tailor, knew life and how to enjoy it and had been a privileged guest at the Stuyvesant ever since he had been on the road. He was a special favorite with Mr. Paxton, who granted him the unusual favor of an introduction to the new clerk.

Ainslee was to stay a week this time. When Mr. Paxton heard it, he regretted the introduction. Ainslee convinced the head waiter that it was the diplomatic thing and likewise a pecuniary advantage to that dignitary to give him a seat at Miss Ruggles' table. Later he assured his pretty table vis-a-vis that she was looking peaked and pale. Her position was too confining. She needed more fresh air in the evenings. Now, the very next night he must run out to Lake Placid to meet a customer. Would she go along? It meant a lovely trolley ride, dinner with music on the piazza and a summer spectacle at the Casino. It would take him but a short time to go over business details with his customer, and in the meantime she could be drinking in that much needed fresh air.

Elsa consulted both her mother and her fiance, but with an air of finality that showed the futility of objections. A note of complaint sounded in her voice. She never went anywhere, while everybody at the hotel seemed to live for pleasure. Anstruther might have reminded her that last year they had gone everywhere together, but that now he was denying himself every pleasure to make the final payment on their home. Instead he kissed her long and tenderly and said he felt quite sure that Mr. Paxton would permit her to meet no one who was not a fit companion.

It was a great evening for the unsophisticated Elsa, who did not realise that the money Mr. Ainslee lavished was his firm's and was used to entertain the customer rather than herself. In reality she was merely a side issue, a reward that Ainslee felt he deserved for the efforts he was putting forth to secure a new line of trade. It would all appear in his expense account.

Then Ainslee was so different from her own quiet lover. She wondered if all New York men would be like this—so excessively watchful of her comfort in small things, so entertaining in their persiflage and delicate in their flattery. She wished that Anstruther had accompanied them. Lately he had seemed so preoccupied and was less mindful of her little needs when in public. Yet when she reached home she was not entirely sure that she had enjoyed the evening. Perhaps the serpent of discontent had raised his head too boldly this time.

The next evening as she was leaving her post Mr. Paxton came to her, wearing an anxious expression. The night clerk had been taken ill, and the chief day clerk had been called to the bedside of a dying sister. Could she, would she, stay on duty until he could secure some one to relieve her? He would gladly do so himself, but he had a political dinner on hand. Elsa promptly sent word to her mother, also a message to Anstruther to call for her shortly after midnight, when some one would surely be able to take her place.

It was her first experience with night work, and she was entertained by this new phase of hotel life—the late arrivals, the theater parties (for some of the playhouses were still open), the tired tourists returning from trips up the lake. Midnight came, but no Anstruther. The head porter offered to relieve her on watch and send her home in a cab, but she insisted upon remaining, feeling sure that something had detained Anstruther.

One o'clock—and 2! A slight commotion echoed from the main corridor, and a group of men entered noisily, Ainslee in the center. They stopped and blinked uncertainly at the circle of light surrounding the office; then Ainslee, with a remnant of the grace she had admired the night before, strolled to the desk and stretched forth his hand. His companions watched him with wavering, watery glances.

"Y'oughter been 'long tonight. We turned Lake Placid red—bright red. It's shame for pretty girl like you"—

Something in Elsa's horrified gaze checked his flow of words, and a hand crunched down upon his shoulder. It was Anstruther, white to the lips, with the delayed message in his pocket and wrath in his soul.

Fairly throwing the intoxicated man into the arms of the head porter, who had been roused from his nap behind the telegraph desk, he strode round to the door leading into the office. There his manner changed. Elsa's trembling figure and frightened face caused a revulsion of feeling. Very gently he reached for her hat and gloves. With gentle deference he offered them to her and held open the door for her to pass out. To the porter as he passed he spoke a few curt words. To the girl he said nothing until they reached the street—then:

"We must have a cab, dearest. You are still trembling."

Oh, the wealth of love and tenderness and protection in his tones! She clasped his arm lovingly.

"No, no; let us walk. I want to have time to think before I see mamma. She must never know the truth; it would grieve her so, and I must find some reasonable excuse to offer her for leaving the hotel at once."

And so, arm in arm and in the blessed silence of those who once more understand each other perfectly, they walked away from the glare of the entrance into the shadowy street that led toward—home.

An Independent Miller.

When Frederick built his famous palace of Sans Souci, there happened to be a mill that greatly hampered him in the execution of his plans, and he asked the miller for how much he would sell it. The miller replied that for a long series of years his family had owned the mill, which had passed from father to son and that he would not sell it for any price. The king used every solicitation, offered to build him a mill in a better place and pay him besides any sum he might demand, but the obstinate miller still persisted in his determination to preserve the inheritance of his ancestors.

Irritated at last by his conduct, the king sent for him and said in an angry tone:

"Why do you refuse to sell your mill notwithstanding all the advantages I have offered you?"

The miller repeated his reasons.

"Do you know," continued the king, "that I could take it without giving you a penny?"

"Yes," returned the miller calmly, "if it were not for the chamber of justice at Berlin."

The king was so flattered by this answer, which showed that he was incapable of an act of injustice, that he dismissed the miller without further entreaty and changed the plan of his garden.

Baby Carriages and Indians.

Colonel Bill Sterrett used to tell about a man who went into the Indian Territory to sell baby carriages.

Everybody said he was crazy. It was admitted that there was a fine crop of babies in the territory, but no one could see what the squaws, who were used to packing their offspring on their backs, could do with baby carriages.

Still orders began to come back, first for dozens and then for carloads, and finally Sterrett went up to investigate. He went into one of the Indian villages.

"And I'll be dashed," said Colonel Bill, "if I didn't see a dozen big fat Indians sitting in baby carriages, all scrounged up, while the squaws were pushing them around. The baby carriage man had made the Indians believe that baby carriages were the right kind of pleasure rigs for the noble red men."—New York World.

Restaurant Man—Hi, there! Whose fork are you stealin'?—Chicago News.

A Change Coming.

Reporter—You are your own manager, are you not?

Actor—I am just at present, but my wife is coming back from Europe next week.—Smart Set.

Dressing It Up.

A Jasper county farmer paid a high tribute to the literary talents of a Carthage real estate agent the other day. He decided to sell his place and got a real estate agent to write a notice. When the agent read the notice to him, he said, "Read that again." After the second reading he said: "I believe I'll not sell. I've been looking for a place of that kind all my life and didn't know I had it until you described it to me."

Amateur Might Do as Well.

"Tell the truth, now. You are a professional beggar, are you not?" said the keen faced individual who had been approached.

"I used to think I was," replied the weary wayfarer, "but since 13 cents is all I have to show for a day's work I am forced to the conclusion that I am merely an amateur."—Stray Stories.

A Jerrold Retort.

When Albert Smith grew tired of being the butt of Douglas Jerrold's wit, he one day plaintively remarked, "After all, Jerrold, we row in the same boat."

"Yes," answered the clever playwright, like a flash of lightning, "but not with the same skulls."

THE TIPPING NUISANCE.

Many People in England Can't Afford to Visit Their Friends.

In these lavish times "tipping" has advanced like most other forms of personal expenditures, and it has now reached such a height that many people cannot afford to visit their friends. Even the footman and the chambermaid now expect their hands to be crossed with gold, and for a week end visit a man who does not wish to be considered mean by the servants' hall will have scarcely anything left out of a ten pound note.

There is a story told of a young violinist, since become famous, who was invited to stay a few days at a certain ducal mansion with a view of course to the entertainment of his fellow guests. As he was ignorant of our social customs the fact that his purse contained little more than his return fare did not deter him from accepting the invitation, and when he incidentally discovered what was expected of him at leaving he was at his wits' end.

That day he was absent from lunch, leaving word that something was wrong with his violin and that he had gone to the nearest town, which was ten miles away, to have the instrument repaired. As a matter of fact he walked twenty miles to pawn the violin and with the proceeds satisfied the domestic cormorants.

I may add that one nobleman has made a determined effort to put down tipping in his house, and visitors to Tring will find the following intimation from Lord Rothschild in every room:

"My servants are under instructions to accept tips from no one, and if I discover that any one of them disregarded my instructions he or she shall be instantly dismissed."—Today.

American Time Signals the Best.

English scientific journals freely admit that the new system of telegraphic time signals recently adopted at the naval observatory in Washington is much to be preferred to that in use at Greenwich for supplying Great Britain with standard time. At Greenwich a single signal is sent out at noon, whereas at Washington a series of signals is used, beginning five minutes before noon. During these five minutes every tick of the observatory clock is electrically transmitted, except the twenty-ninth second of each minute, the last five seconds of the first four minutes and the last ten seconds of the fifth minute. After this final ten seconds' break the noon signal is given. In this manner the middle of each minute is clearly indicated, and yet more clearly the instant of noon. The length of the series facilitates the regulation of clocks.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 26

Coal and the Sudan.

In a remarkable speech delivered the other day at Khartum Lord Cromer made some striking observations as to the future of the upper Sudan. One great obstruction to the development of Egyptian industry, he said, was the high price of coal. At Khartum it was recently $30 a ton. He added, however, that he had recently heard that there was great prospect of finding good coal south of Khartum. "Such a discovery would be of greater value than the finding of gold, for it would materially alter the whole problem of the development of the Sudan."

The Best Endowed Chair.

Sir William Turner, who has been elected principal of the University of Edinburgh, occupied for thirty-six years the chair of anatomy known as the first chair of the empire. It is the best endowed in Great Britain, if not in the world, being worth $10,000 a year. Practically all the British, Canadian and Australian teachers of anatomy have sat under Sir William Turner.

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

Deranged Nerves AND Weak Spells.

Mr. R. H. Sampson's, Sydney, N.S., Advice to all Sufferers from Nerve Trouble is

"GET A BOX OF MILBURN'S HEART AND NERVE PILLS."

He says: "I have been ailing for about a year from deranged nerves, and very often weak spells would come over me and be so bad that I sometimes thought I would be unable to survive them. I have been treated by doctors and have taken numerous preparations but none of them helped me in the least. I finally got a box of Milburn's Heart and Nerve Pills. Before taking them I did not feel able to do any work, but now I can work as well as ever, thanks to one box of your pills. They have made a new man of me, and my advice to any person troubled as I was, is to get a box of Milburn's Heart and Nerve Pills."

Price 50 cts. per box, or 3 for $1.25, at dealers, or

R. J. G. SUTHERLAND

250 Water Street,
Next the Bank of Montreal.

How long will it take the man to mend the sack if he does not stop the leak? To attempt to nourish the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive and nutritive organs are diseased, there is a constant loss of nutrition. Enough is eaten but the body loses flesh,—plain proof that the food eaten is largely wasted because it is not digested and assimilated.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called nervousness and indigestion," writes Mrs. Warren M. Parker, of Orange Street, Nantucket, Mass. "He gave me medicine for the trouble, but I could not eat even a little toast or oatmeal without suffering severely. In a few months I began to have distressing pains right in the pit of my stom. ch. I called the doctor again and he said I had catarrh of stomach; gave me medicine but it did not do any good. I lost 25 pounds in three months. Then commenced taking Dr. Pierce's medicines and soon began to feel better. I have taken six bottles of 'Golden Medical Discovery,' two of 'Favorite Prescription' and six vials of Dr. Pierce's Pellets. I have gained ten pounds. Can eat everything."

THE WALL STREET MARKET

Another Grand Day for the Wall Street Bears.

The Quotations of the Leading Stocks --Market Letters.

To-day was a glorious day for the bears on the Wall Street Market. Those who may have thought that the bears had hammered stocks to their lowest points were sadly mistaken as the greatest onslaught on prices for the season took place to-day. Stocks opened about 1 point below last week's close, but they soon commenced to drop, many going from 1 to 5 points below the opening quotations.

The following quotations are supplied by E. M. Poussett & Co.:

Messrs. Haight & Freese, Stock Brokers, submit the following:—

New York, April 13.—Nothing can be said at present about the Northern Securities decision differing from or adding to that which could be said at the close of business on Thursday. All the newspapers have treated the matter editorially on the whole. Their tone seems to be upholding the governments contention. Nothing more has ever been required in any anti-trust proceedings. What plans have been held in reserve against the possibilities that have now come about. The public does not know and will not. The two expedients that come to mind first are the formation of a holding company under a Canadian charter and the appointment of trustees who would act as liquidators for the stockholders of the Northern Securities Co. Competent officials have said that neither of these plans would be adopted. The Government crop report the first of the season could not be otherwise than good. Out of about 30 roads reporting there was not a single gross decrease for the week. The little money flurry which occurred last Thursday afternoon was undoubtedly wholly an outcome of a temporarily demoralized stock market. The statement however is not up to the average expectation for it had been vividly anticipated that the artificial losses shown a week ago would be offset by artificial gains, now the statement is apparently made up as regards the cash on rising averages and the banks are doubtless better off than is reflected by the system of averages.

NOTES AND COMMENTS AS TO STAGELAND.

Theatrical Speculators, not Playwrights to Blame for Disgusting Dramas.

"Florodora" will be at the Montreal Academy all next week.

"When Johnny Comes Marching Home" is playing in Philadelphia.

It is said that Belasco, and the Shuberts will build theatres in Boston.

The only play of merit Montreal has this week is "The Belle of New York" at the Academy.

Chorus girls in Chicago refuse to sing or dance to the accompaniment of a non-union fiddler, et vice versa.

In Toronto last week 'David Harum' was at the Princess and Lewis Morrison in "Faust" at the Grand.

"The Chinese Honeymoon" will, on the 22nd, celebrate its four hundredth performance at the New York Casino.

"Devil's Island", a melodrama, founded on the Dreyfus case, has earned large dividends for its promoters on tour.

The "Wizard of Oz" is playing to standing room at the New York Majestic. What charm there is in that production is a mystery.

Dr. Conan Doyle is putting the finishing touches to a new play from his pen, based on his book narrating the adventures of Brigadier Gerard.

A United States judge has decided that unless a play promotes science or useful arts, it is not entitled to a copyright, and can be plagiarized.

Mrs. Patrick Campbell, the English sensational actress, will remain in America till the middle of May. She will return late next season to rake in more American silver.

The return of the fifteenth century morality play "Everyman," to New York has developed an increased interest in this novel presentation, which Charles Frohman has brought from England.

Richard Mansfield will, next October, present two new plays at his opening of the Lyric theatre, New York. These will be Tolstoi's "Ivan the Terrible," and George Alexander's London version of "Alt Heidelberg."

The musical comedy "Florodora," at Grand opera house Montreal had a greater mixture of musical elements than any other production of its kind. For instance, in the first act, there are actually several grand opera parts.

E. S. Willard, the English actor, will play a return Canadian engagement shortly. He is to appear in Montreal and Ottawa, and Kingston theatre-goers may have th spleasure of seeing him. Willard is one of England's foremost actors.

A. J. Small will erect a new Toronto opera house in place of the one recently burned. It is intended to put on only the best plays procurable in the new theatre. The class that has been in vogue in the Toronto will not find a place on the stage of the new building.

Lulu Glaser last week played "Dolly Varden" in New Orleans, whence her tour will gradually proceed northwards by way of Texas. This is Miss Glaser's first trip through the south as an individual star, and she has attracted enormous audiences universally delighted with the charm of her acting, the beauty of her singing and the delightful quality of her personality.

LOCAL LEGAL.

Carew v. G.T.R. Co.—Judgment (E.B. B.) in action tried at Peterborough without a jury. Plaintiff is the owner of the south half of lot 15, in the 3rd concession of the township of Emily, except the right of way of defendants, who had purchased land for their road in 1883. Plaintiff, owning the land on both sides of the railway, brought this action to compel defendants to construct a crossing so that plaintiff can properly work his farm. Held that the undisputed material facts brought the case within Ontario Lands & Oil Co. v. Canada Southern R. W. Co., 1 O.L.R. 215, and there was nothing in the different statutes affecting the Midland Railway Company, by whom the portion of defendants' road in question was constructed, to render that decision inapplicable. Plaintiff can not merely as proprietor of lands along the railway invoke the aid of the original sec. 18, made part of the act of incorporation of the Peterborough & Port Hope Railway Company, to compel defendants to construct a farm crossing across the railway from one part to another of his land. Action dismissed without costs and without prejudice to any question affecting any claim to a way of necessity. R. Ruddy (Millbrook) for plaintiff. W. R. Riddell, K.C., for defendants.

DUDDINGSTON CURLERS HELD ANNUAL DINNER.

Many Complimentary References to Canadian Tour.

Provost Bathgate Spoke of the Feelings of Attachment to the Motherland That Existed in Canada.

The Edinburgh Citizen of a recent date, contains the following reference to the banquet of the Dunnington curling club:

On Thursday evening of last week the Duddingston curlers held their annual dinner at the Queen's Bay Hotel, Joppa, and a big company gathered together for the occasion. Mr. George Mackay occupied the chair, and Messrs. Thomas Hay and William Baird acted as croupiers. The gathering was also graced by four of the team who had taken part in the late tour in Canada, and their reminiscences of the visit paid by them to the land of the maple leaf were interesting and entertaining. Indeed through the evening references were made to the curlers and their exploits, and both songs and recitations composed in their honour, were given with the effect of stirring up the enthusiasm of the "stay at homes." It was Mr. Murie who dramatically gave a sarcastic and poetic reply to the grumble of Alloa, and it was Mr. Wm. Baird, who, putting a new song into the mouth of Mr. Mark Sanderson (by the way, Mr. Sanderson does not sing—in public, at any rate) sang with considerable gusto, "Dinna think I'm gaun tae leave ye." The proceedings were begun in the orthodox way. Dinner was served expeditiously, and the loyal toasts were duly honoured on being proposed from the chair.

Mr. Thomas Hastie proposed the "Royal Caledonian Club, and their team to Canada," and in doing so said that everything pertaining to Scotland was doubly dear to the Scot abroad, and curling had been introduced into many countries where the facilities for its indulgence were great. It was not surprising therefore to find that the game had grown so popular and so universal, and was played with an excellence which could rarely be equalled in their country. He would merely remark with regard to the Royal Club that this curlers' parliament had the same jurisdiction over the majority of the clubs furth of Scotland, as it had over them, and that these clubs had the same representation and vote on its councils as the home clubs had. The invitation from Canada, he thought, had not been prompted by the idea that their own excellence and proficiency in the game, but by a desire to know whether the curlers of to-day were like those of other days whom their fathers had told them of as being invincible, and he was sure as a result their visit would cement still more closely the ties of sympathy and friendship that existed between their Canadian friends and themselves. Their grand work during that tour had exceeded by far their most sanguine expectations. Remember for a moment how the team was handicapped. The rinks were formed of men who had never played together. Their stones were not out sharp enough for the Canadian ice, and above all they were handicapped by not playing in the open air. They played in covered in building by the aid of artificial light. They had often to play matches after a railway journey of hundreds of miles, and play them against the most brilliant curlers that part of the world could produce. Could any reasonable man expect them to win all along the line? They were, however a team that was thoroughly representative of Scottish curlers in every respect. Out of 96 matches played they had lost 48, tied 3, and won 47, and they had inflicted the severest defeat on Halifax. At Winnipeg their superb play against the four chosen champions of the whole of the United States resulted in their winning a handsome silver cup and gold badges, whilst they had to withdraw from the semi-finals of one of the great competitions on account of their other engagements. It was the first time in the history of Scottish sport, Mr. Hastie continued, that a team was welcomed under Government auspices and entertained as distinguished visitors. They deserved the honour and praise bestowed upon them, and the criticism to which they had been subjected was the result of complete ignorance of the subject and alien to the sentiments of all true curlers.

Mr. R. Cousin was the first of the team to respond and he assured the company that all was not sunshine with them in Canada. There was a lot of hard work in it. They enjoyed it, however, and they could take a licking as well as give one.

Provost Gordon, Bathgate, next responded to the toast, and he made a lengthy and eloquent speech, in which he said that it was more than twenty years ago since he had revealed to him the advantages of a visit of Scottish curlers to Canada. Questions of imperial federation in his mind loomed very great at that time, and he had formed a very high ideal of all portions of the British Empire being moulded together into one homogeneous whole in order to enable our race to take its proper share in the world's future development. It then occurred to him that a visit of Scottish curlers would help to awaken in their brethren expatriated Scots kindly feelings of attachments to the dear homeland, as well as revive memories of the country, and of their great history, which had made their people respected at home and revered abroad, and which had cast the halo of romance around their beloved Scotland. The idea to send out a team however did not take shape until about two years ago, during the progress of the war, when their hearts were deeply stirred by the noble response which was was made by Canada in sending her contingents to South Africa. Speaking of the tour, the provost said that they had perhaps not done so well as some of them expected. He must confess he would have liked had they been a little more successful, but they had learned during their progress that these Scotsmen whom they met in every city and town, and who had four months' excellent curling on perfect ice, under perfect conditions every winter, could play at the game with a science and a skill that they could never expect to emulate. The reception they had met with from the time they had landed in Canada to the time they left New York was such that it would have melted the heart of a stone hearted man. They could not have been better received had they been on a mission representing this great country. The games started in the mornings, and sometimes they had to go sightseeing, after which they had to play against well chosen men. Then they had to go to dinners in the evening, and these entertainments extended far into the night. And then hardly had they got to bed than if seemed as if the secretary's shrill voice called all on board to embark for the next place of encounter. No team, however good, could have done much better than the team they had sent out under these conditions, and if they did send out another he would suggest that they would send out a team who would do all the banquetting and sight-seeing, and have a reserve team who would go to their beds at regular times and always be fresh, so that that they might have some equality of competition. They had, however been winning hearts, if not games—the hearts of both male and female throughout Canada—because the kindness of the curlers, indeed the kindness of all the people, was so boundless and so unstinted that they (the home team) felt ashamed how to acknowledge it. After speaking of the vastness of the country, and of its immense resources, the Provost again referred to the subject of the curling conditions in Canada, remarking that the games took place in enclosed rinks, something like crystal palaces, and suggesting that many a time his shots went wrong because of the glances of the beauty of Canada, whose eyes turned on them, and said as plainly as if their tongues had uttered the words, that they were glad to see them. Their skip never blamed them very much, and often he had heard him say at the edge of the rink, "My braw lassies, if you would but just let the Provost alane to play his game I would let you gang after him as often as you like after that." The team accepted all the kindness shown to them, not on account of their personal merit, but because they recognized it had been dictated by a desire to show kindness to the representatives of the country from which they had sprung and, from which many of their forefathers had come.

Mr. Mark Sanderson, the local representative on the team, was accorded a great reception, and he corrected the results of the tour as given by Mr. Hastie. They had played altogether 118 games, and of these they had won 52, lost 62, and tied 4. The Lothians rink had played 42 games, and of these they had lost 21, won 19, and tied 2. Mr. Sanderson also alluded to the practice of Canadian Railways of ringing a warning bell on the engine when approaching a level crossing, and said it seemed to the curlers that they were in church every day.

Mr. D. Provan made a witty speech in response to the toast, and his most effective bit of by-play was where he spoke of the American and Canadian turn for boasting about the magnitude of their country. He started with a compliment to Mr. Sanderson. He believed Mr. Sanderson had the distinction of being the oldest member of the team—a distinction none of them exactly wanted to have—but he was not only the oldest member of it, he was the luckiest member of the team there. Speaking of the hospitality of the Canadians Mr. Provan mentioned as an illustration that when on a train journey he and a friend were informed that they could have anything they liked and were not to be charged for it! He was afraid that they in this country could not come anything like miles within the distance of the hospitality the Canadians extended to them.

Away They Go!

KYLIE keeps his stock clean by carrying the prices when he wants to move certain lines quick, thus—

MEN—If you want a plain Working Shoe CHEAP, I have them from 90c up.

RUNNING TO A FIRE.

How the Horses Enjoy the Mad Dash Through the Streets.

Every one who has watched fire horses dashing through the streets in answer to an alarm will admit that the animals seem to enjoy the run. This idea is brought out by Sewell Ford in "Horses Nine," as follows:

For Silver all other minor pleasures in life were as nothing to the fierce joy he knew when, with a dozen men clinging to the handrails, the captain pulling the bellrope and Lannigan, far up above them all, swaying on the lines, the Gray Horse truck swept up Broadway to a first call box.

It was like trotting to music if you've ever done that. Possibly you could have discovered no harmony at all in the confused roar of the apparatus as it thundered past. But to the ears of Silver there were many sounds blended into one. There were the rhythmical beat of hoofs, the low undertone of the wheels grinding the pavement, the high note of the forged steel lock opener as it hammered the footboard, the mellow dingdong of the bell, the creak of the forty and fifty foot extensions, the rattle of the iron shod hooks, the rat-tat-tat of the scaling ladders on the bridge and the muffled drumming of the leather helmets as they jumped in the basket.

With the increasing speed all these sounds rose in pitch until, when the team was at full swing, they became one vibrant theme—thrilling, inspiring, exultant—the action song of the truck.

Burial Customs.

The Turks perhaps were the first people to use ornamental burial grounds such as we call cemeteries, but as to when this custom was first adopted in the land of the crescent no one seems to know. The earlier Jews buried their dead in the earth, that method being without doubt the most ancient burial mode known to man. The very earliest Egyptians seem to have understood the art of embalming and to have practiced it from time out of memory. The ancient Greeks and Romans cremated the body, the ashes only receiving sepulture, except in case of illustrious warriors, statesmen, etc., these latter being buried unburned as a special mark of favor.

Some ancient tribes preserved only parts of the body and burned or buried the remainder. The parts retained and preserved, dried or in liquid, varied according to tribal notions. With some it was the heart that was thought to be too sacred for cremation or burial, with others the liver, ears, nose, tongue or fingers. The Tartars of 2,000 years ago preserved only the thumb and toe nails of their dead.

Amusements of Great Men.

Here are a few amusements of great men: Edmund Burke, farming; Lord Byron, swimming; Carlyle, riding and smoking; Lord Chatham, bowls; Darwin, backgammon, music, smoking and snuff taking; Dickens, bowls, walking, smoking and snuff taking; Tom Hood, shooting; Kingsley, fox hunting, music and smoking; Lamb, witnessing performances of "Punch," card playing, snuff taking and smoking; Lord Lytton, gardening, walking, music and smoking; Captain Marryat, snuff taking; Lord Palmerston, horse racing; Pitt, felling trees and studying classics; Shelley, making and sailing paper boats; Sydney Smith, chess, swimming, riding and music; Wesley, whist; Dean Swift, harnessing his servants with cords and driving them up and down stairs.

The Grain Season Opened.

Midland, April 12.—The grain season opened to-day, with the arrival of the first two vessels. The Midland Queen of the Midland Navigation Company, Capt. Frank Burke, arrived from Chicago, laden with 110,000 bushels of wheat. Later in the day, the Mary Elphicke arrived, also from Chicago, laden with 338,000 bushels. This is the largest cargo ever brought into a Canadian port, and makes a good beginning for a very promising year in the grain trade. Last year, over 15,000,000 bushels of grain was received here.

THE LATE WM. CALDER OF PARRY SOUND.

He was Known to Many Peterborough People—Settled in Otonabee.

(From the Parry Sound North Star.)

On Friday evening William Calder, Sr., one of the old settlers of Parry Sound succumbed to a paralytic stroke. Deceased was born in Elgin, Scotland, on the 10th of May, 1819, and was thus fourteen days older than the late Queen Victoria. He learned the trade of a tanner in his native town. In 1843 Mr. Calder came to Canada and settled in the Township of Otonabee, where he built a tannery and commenced business for himself. In 1847 he married Miss Margaret McGown, of this place, whose family also lived in Peterborough County at that time. The business of tanning grew to such proportions that Mr. Calder became one of the most prosperous and independent men in the country, and he added shoemaking and harness and saddlery to his tanning business. About the close of the American war Mr. Calder had a large business, fully two years stock of hides tanned on hand, owing to low prices. One night his whole establishment went up in smoke, having been set fire, it is supposed, by a tramp tanner who had been hanging around the buildings some days previously. Only $1,500.00 insurance was on the buildings and stock, as Mr. Calder objected to insurance, and so it was like starting afresh when he began erecting a new stone tannery. That summer hides dropped to $3.00 per hundred, out Mr. Calder being busy with his new building and having no place in which to store a stock, did not buy and in the fall, when he was ready to buy he had to pay $9.00 a hundred. Next spring leather was away down and he lost on his winter's work. He worked away aagainst adverse circumstances for several years but never regained the position he held before the fire. In 1879 he came to Parry Sound to work in Mr. Taylor's tannery, just then starting, and continued to work there some years, retiring to devote his attention to the Victoria House. He has had five paralytic strokes in all but managed to survive all but the one on Friday. He come of a long-lived family having a brother alive who is three years his senior and another brother died recently ten years older. Mr. Calder had a family of five boys and six girls, of whom four of the boys and three daughters survive him, as also does his wife. Deceased was a Presbyterian and a staunch Liberal. He was a good citizen and was respected by all who knew him. The funeral took place on Sunday and was largely attended.

ENNISMORE'S FINE PERCHERON

"Trenton" to Have His Home in the Island Township.

Sullivan Bros., importers of Percheron horses, at Mount Pleasant, Michigan, have just closed a deal with a syndicate of ten of the leading farmers in Ennismore for the purchase of one of their best stallions, a fine dapple grey four-year-old, named Trenton, (22,266) that will easily mature to a ton horse. Messrs. Sullivan claim that Trenton is one of the best bred horses that ever left their barns. His grandsire, Villers, 13,169, (8,081) was a government approved horse in France, and was the sweepstakes horse against all draft breeds at Chicago, in 1893. He has four recorded dams on the maternal side and they are all closely related to Durham's Brilliant. Taking breed, horse, and all into consideration, these people have certainly got a "cracker jack," and the people outside should look him up and breed to him. Then they will have something they can sell for the price. Messrs. M. Flood, Scollard, E. Murphy, the Crough Bros., and several others, are all equally interested in this horse.

To Increase Your Weight.

If you are thin, weak and amaciated and want to increase your flesh and weight you should try Dr. Chase's Nerve Food. You can feel it doing you good from day to day as it strikes at the root of the trouble and creates new rich blood. You can prove that it builds up new tissue if you weigh yourself each week after beginning to use it.

Anno 1903

Modish Silks

With a Characteristic Style About Them—

Most of these " smart " Silks came from France and Switzerland, and are beautiful examples of the manufacturer's art in silk weaving.

Silks suitable for street wear, receptions or the dressiest of functions. Some are inexpensive—some are not for swell creations—are not often classed with cheaper goods.

DESCRIPTIONS OF A FEW :

Fancy Raised Stripes on plain Taffeta grounds, the stripes resembling the worked effects of the fine huckabacks to-day. In colours of gold, sky and rose, per yard .75

" Brocatelle Two Tones"—throwing out a silvery sheen, in capital colourings of Oxford blue grey, cadet white, pearl and brown Taffetas. Patterns sweetly dainty. Marked to sell at, per yard .95

Eolienne Stripes—a soft finished, admirable wearing silk, with shamrock self coloured ground, and bright neat stripe, in sage, brown, grey, navy and Oxford, marked, per yard .. .95

Shirt Waist Stripes on white taffeta grounds, with taffeta and satin duchesse, 3 inch stripes of red and navy, alternating with the white in each case. New —distinctly new, per yard .. 1.00

Neat Floral Stripe in plain taffeta grounds of black and brown, intermixed with self eolienne stripes. Blouse lengths only, per yard..... 1.25

Oxford and Royal Warps, with white weft, with polka dot and white double stripes. Stunning silks to wear with Oxford or navy walking skirts. Special, per yard..... 1.25

Chameleon Eolienne Silks—in the most unique Paisley patterns, with brown, navy and green predominating. Smart silks for smart dressers, per yard 1.50

Satin Duchesse Crepe Chamelions, showing an index into the mighty powers of the Swiss weavers. An assuredly good silk to wear and gloriously rich style in grey and castor. The subdued richness of these silks we should like you to see, per yard..... 2.50

Plain Silks

Of Rare Value

BLACK PEAU DE SOIES

Which appeal to us as the best wearing silk possible. The appearance is all that could be desired. The wear-resisting non-creasing qualities exceptional.

Black Peau de Soie, fair weight, strong warp and weft, and a bright finish. Special value, per yard..... .75

Black Peau de Soie, heavier weight, beautiful rich finish. A capital Blousing Silk. Regular value $1.00, our "own" store's syndicate price, per yard..... .88

Black Peau de Soie, with a lovely sombre richness that will tempt any lady into an "ever wanted" black silk dress, per yard..... 1.00

Black Peau de Soie of a satiny finish and soft richness, with a feel of wear endurance, per yard..... 1.25

Coloured Peau de Soie with the same advantage of wear a their black sisters, — will appeal strongly to "faint hearted" silk expenders, who have some time or other found other silks not just what they expected in the wear. Raise your hopes. We fearlessly recommend this silk. It comes in all the "looked-for" shades. Absolutely trustworthy, per yard..... .85

Coloured Taffetas—soft finished and new colourings. A full range of shades—suitable for shirt waists, summer dresses, tab collars, linings, etc. Worth 75c to 85c yard, for..... .59

Black Taffetas—We can introduce to you a special line at a special price, with over a thousand yard guarantee of quality. Suitable for linings—blouse or dresses, per yard ..... .50

Another Taffeta of the same family, with a bit more weight and a more lustrous sheen, at, per yard..... .65

Still Another—a grade better still, per yard..... .75

Round Thread Glace—made of smooth, carefully-selected threads. The brightest silk we know of, and what we believe to be satisfactory wearing, per yard..... 1.00

Japan Taffetas in a full range of shades and black and white, 23 inches wide, per yard..... .25

Japan Taffetas in a good range of colours, suitable for blouses, summer dresses, fancy work, etc., 27 inches wide, per yard..... .50

Black Japan Taffeta, heavy weight, one yard wide, per yard..... .75

Plain Florentines—a confirmed "wear-resister", with a brightness envied by many much higher priced silks. Comes in full range of colours and black. The 60c quality, per yard.... .50

R. R. GAMEY TELLS HIS STORY TO THE COURT.

Loquacious Witness Who Had to Be Checked by the Judges.

CHIEF WITNESS IS HEARD.

Declares That Several People Were In His Confidence.

STRONG CROSS-EXAMINATION

Royal Commission Opens Investigation Into Bribery Charges of Member For Manitoulin, Who Admits That He Used $1,500 of the Money He Swears Was Paid Him in His Business.

Toronto, April 14.—The Royal Commissioners, Chancellor Boyd and Chief Justice Falconbridge, to inquire into the charges of Mr. R. R. Gamey, M.P.P., against Hon. J. R. Stratton and other members of the Government lost no time yesterday in settling down to work. Having brushed aside a few preliminary objections by the defence, they were prepared to hear the evidence, and the chief actor himself was first called.

For the prosecution there were present: Messrs. S. H. Blake, K.C.; C. H. Ritchie, K.C.; W. D. McPherson, K.C., and J. A. Macdonald.

For the defence: Messrs. E. F. B. Johnston, K.C.; W. R. Riddell, K. C., and J. M. McEvoy.

Hon. J. R. Stratton was the only member of the Government present, and among the members of the Legislature were: Speaker Charlton Andrew Pattullo, John Richardson, J. W. St. John and J. P. Downey.

Chancellor Boyd—Are you ready to proceed?

Mr. Blake—Yes, my Lord.

Objected to the Charges.

Mr. Johnston objected to the charges as formally presented to the court, on the ground that they introduced matter beyond the scope of the commission.

Chancellor Boyd suggested that the passages in the formal charges to which objection was made might be marked for discussion later, because it was undesirable to have those preliminary skirmishes when there were witnesses present from a distance. He added that the form was tentative, but that Mr. Gamey's charges themselves were before them and they were what the commission proposed to investigate.

Mr. Blake called Mr. R. A. Grant under subpoena, and Mr. Grant produced all the correspondence, books, papers, accounts, receipts, checks, and documents in his possession.

Capt. John Sullivan, called by Mr. Blake to produce all books, papers, letters and documents in his possession, said he had none in any way connected with this matter.

Frank J. Sullivan was next called to produce documents under subpoena, but he did not answer.

Mr. Blake—I will now call Mr. Gamey.

Mr. Gamey Testifies.

Robert R. Gamey was sworn and said:

I was elected by 340 votes as Conservative member for the District of Manitoulin at the last election, held on the 22nd and 29th of May. The returns by the returning officer were declared on the 27th of June following. The result of the general elections as declared was 51 supporters of the Government and 47 Conservatives. Subsequently Mr. Munro, Liberal, died, and that left 50 Liberal supporters and 47 Conservatives. The recount in Lennox reduced the number of Liberal supporters to 49.

A protest against my election was entered and served upon me about the 14th July in Manitoulin.

I had the first interview with Capt. John Sullivan at Allandale, about the 7th August. I had known him about 15 years. When I remember him first he was working for a lumber company at Little Current, and later on he was in the employ of the Ontario Government as timber scaler, or inspector, or bushranger. I had seen him a great many times in connection with different political campaigns. He was always a Liberal in politics. I think he must have been in the employ of the Government about ten years.

Q.—On this occasion when you met him in Allandale, who spoke in regard to anything connected with election matters? A.—I just saw him two minutes there and he spoke to me——

Here Mr. Riddell objected and the Chancellor dissented.

Discussed the Protest.

Mr. Gamey, resuming: Capt. Sullivan said to me: "I understand they have strong evidence against you up there on the protest." I said I had not heard anything particular about it. He said they had evidence to disqualify me. I remarked to him that I knew they could not do that, but he insisted there was strong evidence against me. He did not recommend any course. I went on to Toronto. I stayed at the Walker House. I met there Frank J. Sullivan. I saw him that same day, about 7th August. He was in the employ of the Government. I had known him 6 or 7 years, possibly longer.

Frank Sullivan spoke of my protest and said he understood they had strong evidence against me, and would likely unseat and disqualify me. I said I could not understand anything of that kind; that I knew they could not disqualify me. I knew they could not have the evidence. He said evidence could be got; it was not always the evidence that was there, it was the evidence they could get for use. He said evidence could be changed and switched around and bought and got, as had been done in the past. If they wanted to get evidence they could get it. He did not know anything about what the real evidence would be, or was, but it might be got. I told him I felt satisfied they could not disqualify me, and could not understand why they were talking that way. I said his father had spoken to me in the same way. He said he would advise me to resign, rather than face a trial and be disqualified. I told him I did not think of doing that.

Further he said, "You can get rid of that protest, the thing can be fixed up all right, you can get rid of it and make a fairly good thing out of it." I said I did not think that could be done at all. I said I think the Government is so close that no person would care to go into that sort of thing, and he said it could be done; he would prove to me that a good sum of money, $5,000 or something of that kind, could be made out of it, and the protest got rid of, and if I would wait a few days he would get some person to come and convince me that it could be done. I told him I would wait and see. I was out of the city, I think, on the 8th, and was in again on the 9th, 11th and 12th. I saw Frank Sullivan, and his father, Captain, at different times and discussed the question a little with him.

Talked Over the Deal.

The following Tuesday, that would be the 12th of August, Frank Sullivan came to me and said they had this party there then; he was in his father's room at the Walker House, and he and I would go up to the room and meet the man, and that the party would tell me he understood I wanted to go into a stock proposition that would net me $3,000 in cash within five or six weeks, and $2,000 after this session. He said that would be practically all that would be spoken about. So Frank Sullivan and I went up to his father's room on the third floor, and this gentleman was there, Mr. R. A. Grant, and Mr. Grant was introduced to me by Mr. Frank Sullivan. Mr. Grant said to me: "I understand you want to go into some stock proposition that will net you $3,000 in five weeks and $2,000 towards the spring?" I said: "That is what had been talked about." He said: "I think that can be arranged all right, and we will see about it later." He then went away.

The conversations took place at different times around the hotel. During that time I think we also discussed the question of whether W. R. Smyth, of Algoma, could be bought or not. He is the Conservative member-elect for Algoma. During that time I was in Toronto I also met D. A. Jones of Beeton; he was talking along the same lines. He is an uncle of my wife. He told me at different times he had different relations with the members of the Government and that he could get into Mr. Gibson's office at any time he liked and under almost any circumstances, and he had done considerable work for him directly and indirectly. He said he wondered if Mr. Smyth could be bought or got to support the Government in some way, and he also spoke about if he could not be induced to support the Government, they would get evidence to unseat him. He also spoke about getting evidence against Mr. Miscampbell, the Conservative member at the Soo, but he did not speak about buying Miscampbell.

Q.—Did he speak of who were desirous of having this done? A.—He spoke of the Government generally; I don't remember him mentioning any particular member of the Government. I left Toronto about the 12th of August (Tuesday.) On my return home I spoke about the approaches that had been made to me to J. R. McGregor, Charles C. Platt, at Gore Bay, and R. J. Porter at Gore Bay, and my father and brother.

Mr. Johnston Objects.

Mr. Johnston objected to the permissibility of admitting what Mr. Gamey told these people, and their Lordships did not rule, Mr. Blake waiving the point as a minor one.

Mr. Gamey, resuming, said that in consequence of these conferences, I made up my mind to go on and receive their advances to see how far they would go.

I spoke to a party in Toronto about these advances, but I cannot recollect whether it was between the 7th and 12th or the latter part of August. Also to another in Toronto. I had no dealings with Mr. Jones of Beeton for two or three or four years. I received from Mr. Jones the letter of the 16th of August. I received it in Gore Bay.

Mr. Blake (reading letter): "In accordance with our conversation I saw the present acting manager." Can you tell from anything Jones said who was the present acting manager. A.—I cannot say who was in charge of the Government. He gave me the impression that it was the Government that wanted this information about Smyth and Miscampbell, and this referred to somebody in the Government who was in charge. I think the Premier was away to the Old Country at that time.

Mr. Blake read other extracts from

TUESDAY, APRIL 14, 1903.

REPRESENTATION OF THE WEST

The Edmonton Post thinks that the representation of the Northwest Territories ought to be based upon the population as it probably will be when the act comes into effect. It says:—"According to the estimate of the Minister of the Interior, the Territories will have a population of 350,000 before the close of 1903, which would entitle us to fourteen members, on the basis of the B.N.A. Act, and, making allowance for the increase in population between the close of the year and the time the present act will come into effect, to eighteen members."

This illustrates the faith of the West in the future of the West, a faith that is largely shared by the Dominion at large. At the rate at which immigration is now pouring into the West, the Bulletin's figures do not seem to be over-stated. There is room for, and there is reason for, from the conditions of soil and adaptability to wheat raising, the most optimistic visions of future population, and when we add the large, but necessarily less large, increase of population in Ontario and other provinces, there is danger of the representative problem being seriously complicated, and of our representative bodies becoming large to unwieldiness, and unnecessarily expensive. We have at present in the Dominion and various Provincial Legislatures already nearly, if not quite, seven hundred members. That is to say, it takes more representatives to transact the business of five million people, than is required in the Imperial Parliament of Great Britain, for forty millions. If our representation continues to grow, pari passu, with our population, we shall before many years have parliamentary representatives amounting to a thousand. The question is whether we should not consider the increase of the size of the unit of population for a member. With increased parliamentary representation, there is sure to be increased expense, not only in the indemnity of legislators, but the inevitable increase that will be sure to come with more members. Every representative, to show his constituents that he is looking after their interests and doing something to justify his election, will insist on some expenditure, which Governments can resist to only a certain point. The more the members, therefore, the greater the expense of government.

The reforms contemplated by the Minister of Education for Ontario are certain, the Brantford Expositor says, to be popular. On the one hand there are to be fewer examinations; on the other, the local boards are to have wider discretionary powers. The departmental examinations are to be reduced to three—the high school entrance, the junior teachers' non-professional examination, and the senior teachers' non-professional examination. In the teachers' examinations the standard will be raised, but there will be fewer compulsory subjects, and more stress will be laid on the essentials—such as arithmetic, composition, literature, geography and history. For the junior teachers' examination the languages will not be compulsory at all, and for the senior, Latin only. The same general principles proposed with reference to high schools will apply to public schools. A large measure of liberty will be given the local boards. The whole subject will be threshed out at the meeting of the Ontario Educational Association this week and there is little doubt the reforms proposed by Mr. Harcourt will be approved.

CHURCH UNION MATTERS ABLY DEALT WITH.

Montreal Laymen Organize to Advance the Cause.

Constitution Adopted and Officers Elected—Mr. George E. Robertson was Elected President.

On January 17, 1903, in the Y.M.C.A., Montreal, a number of laymen met and organized for the advancement of church union in Canada.

The following constitution was adopted:—

1. The name of this society shall be "The Church Union Society."

2. The object of this society shall be (a) to collect and disseminate, either by the press or otherwise, all information that will tend to advance the cause of Church Union in Canada. (b) To enlist the sympathies and services of as many people as possible to carry out the above idea.

3. Any member (in good standing) of any evangelical church shall be eligible for membership in this society, provided he believes in church union, and on the payment of an annual fee of fifty cents.

4. The officers of this society shall consist of: President, vice-president, secretary and treasurer, who, with three other members, shall constitute the executive committee.

5. The officers shall be elected annually, by ballot, at the first meeting of the society in each year.

6. The funds of this society shall be used entirely for the cause of Church Union.

7. Five members shall constitute a quorum at any meeting of the society, and three at any meeting of the executive committee, and all questions shall be decided by a majority vote.

8. Regular meetings shall be held monthly, at a time to be arranged for at the call of the secretary.

9. Special meetings may be held at any time at the call of the president, or at the request of any three members.

The following officers were elected:—President, Geo. E. Roberton; Vice-President, A. R. Grafton; Secretary, W. G. Hunt, 9 Gladstone Ave., Montreal; Treasurer, J. N. McKim.

The following with the above-named officers to form the executive:—L. H. Packard, Jas. Wilson, Chas. Morton.

From minutes of General Assembly of the Presbyterian Church in Canada, Toronto, June, 1902:

Principal Cavan presented a memorial from the Society of Christian Unity, signed by Dr. Sheraton, Dr. Chown, Dr. Symonds, Dr. Burwash and Heathcote, as well as by Dr. Cavan himself, setting forth the waste of the resources of the Christian Churches by the unnecessary multiplication of agencies in many localities, and drawing the attention of the Assembly to the subject. He concluded by moving the following resolution:—

That the Assembly approve of the aim of the memorial, and express approval of the action of the Home Mission Committee in conferring with any committee of the Church of England, of the Methodist Church or of either of them, as opportunity may offer, regarding the important matter to which the memorial relates.

The motion was seconded and agreed to.

From the minutes of the General Conference of the Methodist Church in Canada, Winnipeg, Sept., 1902:

"While this Conference declares itself in favour of a measure of organic unity, wide enough to embrace all the evangelical denominations in Canada, and regrets that hitherto all efforts and negotiations have failed to result in the formulation of such a comprehensive scheme, so that at present the outlook for it does not seem practicable; yet, inasmuch as the problem of the unification of several of these denominations appears to present much less serious obstacles, since their relations are already marked by a great degree of spiritual unity, and they have already become closely assimilated in standards and ideals of church life, forms of worship and ecclesiastical polity; and since, further, the present conditions of our country and those in immediate prospect demand the most careful economy of the resources of the leading and aggressive evangelical denominations, both in mininters and money, in order to overtake the religious needs of the people pouring into our new settlements, which economy seems impossible without further organic unity, or its equivalent; this General Conference is of the opinion that the time is opportune for a definite, practicable movement concentrating and aiming at the practical organic unity of these denominations already led by Providence into such close fraternal relations; and whereas a definite proposal has ben discussed to some extent in the press and elsewhere, looking to the ultimate organic union of the Presbyterian, Congregational, and Methodist Churches in Canada, this General Conference, is no spirit of exclusiveness towards others not named, declares that it would regard a movement with this object in view with great gratification, believing that the deliberate friendly discussion of the doctrinal, practical, and administrative problems involved, with the purpose of reaching agreement, would not only facilitate the finding and formulation of a basis of union, but would also educate the people interested into a deeper spirit of unity and into that spirit of reasonable mutual concession on which the successful consummation of such movement ultimately so largely depends; and this General Conference would further commend this movement to the prayerful interest and sympathy of the Methodist Church in the devout and earnest hope that, if organic union of the denominations named be achieved, it may be accompanied with great blessings to the Church and to the nation at large, and redound to the greater glory of God."

Following are interviews re Church Union published in daily papers:—

Prof. Ross, Presbyterian College, Montreal.—Of course he was in sympathy with the idea of Union. He thought it especially desirable that there should be union between the Presbyterian and Methodist Churches. The Methodist had certain excellencies that would be advantageous to the Presbyterians, while the Presbyterians thought they had some things which might be of value to the Methodists.

Rev. Dr. Robt. Campbell, Montreal, Presbyterian.—He would certainly be rejoiced could the prayer of the Lord be realized "That they all may be one." If there was to be union, he certainly thought there should be the inclusion of the Angelicans in the scheme, for he deemed that the Angelican Church represented an aspect of religious life that would be desirable to include. "I would be willing for my part to accept a basis of union which would simply give us the Apostles' Creed."

Prof. Scrimger, Presbyterian College, Montreal.—Said that he was heartily in sympathy with the idea of union as outlined by the resolution of the Methodist Conference. He would be quite willing to subscribe to a basis of union which would leave the doctrinal differences between the Methodist and Presbyterian Churches an open question.

Rev. Dr. Barclay, Montreal, Presbyterian.—It had been talked and written about, but there had been no practical plan evolved for Corporate Union which would be satisfactory to all the parties to it. He heartily recognized the newer and better spirit which existed among the Churches to-day. A spirit which was full of promise for the future.

Rev. Dr. Shaw, Principal of Wesley College, Montreal.—Is such a union practicable? Yes, provided both Churches deal with it in a frank and friendly way. As to creeds there need be no difficulty if we agree to admit to the ministry any candidate subscribing either to Armenian or Calvinistic symbols. As to itinerancy, that can be modified so as to have appointments partially settled and partially itinerant.

Dr. Jackson, Professor, Wesley College, Montreal.—The over-lapping of the different denominations of the sparsely populated portions of our own country, while millions of our fellowmen have never heard the gospel, is a disgrace to the christians of this age, and ought to cease at once. In our colleges too, there is room for consolidation. There is no reason under the sun unless it is denominational suspicion or narrowness why the Theological Colleges in this city should not in many departments have a common professorate.

Rev. C. E. Manning, Montreal, Methodist. — The time seems ripe for the Methodists, Presbyterians and Congregationalists to consider on what basis they can be organized into one body.

Rev. Hugh Pedley, Montreal, Congregationalist.—Christ said that new wine must have new bottles. In the matter of Church Union, the new wine is seeking new bottles. Ministers and Laymen alike are beginning to feel the burden of this demand.

If the Presbyterian and Methodist Churches could devise a plan of union, it is altogether likely that most of the Congregationalists would, of their own motion, enter into it most heartily. Such a united church would doubtless be democratic in its basis, and not priestly.

Rev. J. Fleck, Montreal, Presbyterian.—We feel that in the things that lie deep down out of sight there is already substantial unity. Why should it not also appear on the surface? And what in the meantime hinders? Chiefly forms of government, modes of administering the Sacraments and the mere wrappings and trappings of worship.

Rev. A. J. Mowatt, Montreal, Presbyterian.—As regards Methodists and Congregationalists, every new year seems to be bringing us nearer them and them to us. Let, however, the tide of fuller blessing rise higher and higher and flow in upon us all, and sooner than we know the barriers of sand now keeping us apart will be swept away, and we will find that we are all one in Him who is Lord of all.

Rev. C. A. Sykes, B.D., Montreal, Methodist.—Enlightened public opinion, the great common sense of the people, is behind the movement for union of the Christian Churches. To me it is a peculiar pleasure to see the approachment of these great bodies, and I think they are meeting well nigh half way.

Rev. Dr. Williams, Montreal, Methodist.—The differences now are chiefly in the modes of church government, and when these are carefully examined, weighed, and measured accurately, it will be found that a large proportion of differences of government consists in the names given Church Courts and their officials, while the practical workings are substantially the same. Premature Organic Union would be a grievous mistake, but are not those churches even now ripe for a forward step all along the line.

Principal Patrick, Manitoba Presbyterian College, Winnipeg.— As fraternal delegate to Methodist General Conference, "I cannot conscientiously justify our continued separation."

Principal Caven, Knox College, Toronto.—I would to God there were further external union either organic or federal in some form or under some name, some further union that would consolidate our power, unite us against the common enemies of all churches and enable us to prosecute at home and abroad the work that is given us to do.

Presbyterian Witness. — In weak outlying sections of the country, in small towns and villages Methodists, Presbyterians and Congregationalists often appear rivals. It is a great pity and ought not to be. The Methodist form of government is essentially Presbyterian, in preaching the gospel, the ministers of both churches emphasize the same great doctrines of grace. They have to contend against the same enemies and in the sacred conflict they wage they use the same weapons. Let us therefore, as a step in the right direction, aim at federation.

"BEGGING BUSINESS."

The Christian Guardian this week says:—

"That begging business of Bishop Machray is poor policy, from a patriotic, if not from an ecclesiastical, standpoint. Canada is not a country of paupers, and should not be so advertised in the interests of any denomination or cause, however worthy in itself. The other churches manage to get along without going to England, hat in hand, for doles to carry out their ordinary, or, for the matter of that, their extraordinary, work. And the Anglican Church, in our humble judgment, is apt to lose far more than it gains in exploiting thus the delinquencies of its people in this country—whether English in their origin or not—in the matter of a proper support of the minister and the missionary. At all events, we are sure that many of our Anglican friends will regret, with us, Bishop Machray's scheme, and the wide and strong adverse criticism with which it has met."

JUST WHAT YOU NEED.

Chamberlain's Stomach and Liver Tablets.

When you feel dull after eating.
When you have no appetite.
When you have a bad taste in the mouth.
When your liver is torpid.
When your bowels are constipated.
When you have a headache.
When you feel bilious.
They will improve your appetite, cleanse and invigorate your stomach, and regulate your liver and bowels. For sale by all druggists.

A Fortunate Valet.

Count Montrond's valet waited on him one morning most unsuccessfully. He could find none of the toilet articles. Montrond handed them to him, remarking: "You must admit that you are lucky to have me here. Without me you certainly could not wait upon me."

University Professor Suicides.

Columbus, O., April 9.—Prof. Ernest A. Eggers, head of the Department of German at the Ohio State University, committed suicide last night by shooting. It is said he was despondent from ill-health.

An Obstinate Case of Eczema.

Mr. W. D. Johnson, Tilsonburg, Ont., writes that his father was entirely cured of a long standing and obstinate case of Eczema by the use of Dr. Chase's Ointment. His leg and foot were a mass of sores that refused to heal and he suffered terribly from the itching and stinging. Though he used a great many remedies and was treated by first-class doctors no permanent relief was obtained until he used Dr. Chase's Ointment.

Asking Questions in Society.

This from an authority: "Don't ask questions; don't mention names; listen occasionally, and you will find yourself a society favorite." The first "don't" seems to have been most correctly placed. There is nothing which creates a pleasanter impression and which really leads to the most complete confidence than the tact which listens sympathetically to all a companion will say, but never probes deeper by an impulsive interrogation. One learns to trust such an acquaintance and feel in his company a peculiar sense of security that is very satisfying. Many of our small attempts to make an impressive recital are, we know, most vulnerable. One or two sharp queries would riddle them, and we learn, as a burned child learns to avoid the fire, just whom we may not and may impose them upon. The latter please us the better.

Another Thing.

Auntie (finding Jackie sobbing in a corner)—Why, Jackie, what has happened to make you feel so bad this morning?

Jackie—M-ma m-issed some jelly.

Auntie—Ho, ho, I see! And her suspicions fell upon you, eh?

Jackie—No, auntie. It was her slipper.—Boston Courier.

Why He Didn't Like It.

"Did you hear Gruber's definition of a contingent fee? Here it is: 'If you lose the case, then I get nothing, and if you win the case then you get nothing.' What's the matter? Don't you like it?"

"No. It's very offensive."

"Ah, I see. You are a lawyer."

"No; I'm a client."—Cleveland Plain Dealer.

For the Children's Sake.

"Here's my rent for this month," said the woman with the large family of small children. "And, by the way, will you paper the house again this spring?"

"What's the trouble?" asked the rental agent. "Haven't the children got any more room to draw pictures?"—Indianapolis Sun.

Cut and Dried.

Goodthing—I have something to say to you as soon as your father retires.

Miss Forty—How stupid you are, love. Papa stayed up late tonight on purpose to give us his blessing.—New York Herald.

Good Health for Capital.

Maintaining good health is to the majority of people the most vital question in the world and nature affords no more efficient strengthener for the system and restorative for the nerves than Dr. Chase's Nerve Food. Naturally, gradually, and certainly it forms new, red corpuscles in the blood, creates new, healthy, nerve cells, and puts into the system the snap, energy and vitality that defies disease.

Dr. Shoop's Rheumatic Cure

Costs Nothing If It Fails.

Any honest person who suffers from Rheumatism is welcome to this offer.

I am a specialist in Rheumatism and have treated more cases than any other physician, I think. For sixteen years I made 2,000 experiments with different drugs, testing all known remedies while searching the world for something better. Nine years ago I found a costly chemical in Germany which, with my previous discoveries, gives me a certain cure.

I don't mean that it can turn bony joints into flesh again; but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times.

I know this so well that I will furbish my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottles of Dr. Shoop's Rheumatic Cure. Take it for a month at my risk. If it succeeds the cost is only $5.50. If it fails I will pay the druggist myself—and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism, must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met. And in all my experience—in all my 2,000 tests—I never found another remedy that would cure one chronic case in ten.

Write me, and I will send you the order. Try my remedy for a month, as it can't harm you anyway. If it fails, it is free.

Address, Dr. Shoop, Box 47, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

R. R. GAMEY TELLS HIS STORY TO THE COURT.

(Continued From 1st Page.)

the letter, already printed, and asked explanations.

Mr. Gamey—Jones meant by the deal the matters referring to myself. I was to have the assistance of the Government in anything I wanted. I was to get evidence against Miscampbell and Smyth. I did nothing about getting evidence. I answered Mr. Jones' letter.

Mr. D. A. Jones was called and produced Mr. Gamey's reply and another letter, which he said were all the documents he had in his possession, so far as he knew. His wife would send down any more if she found them.

At Gamey's Farm.

Mr. Gamey under continued examination said:

I next had an interview with Cap. Sullivan, after the one at the Walker House, at my house in Gore Bay on the 21st of August. At that time my brother told me that some person wished to see me, and I found Cap. Sullivan out at my stable. He said he had come from Toronto to get some written agreement from me to the effect that I would support the Government for the purpose of convincing them that I would support them. I said that I would not give this to him at that time, but that I would see him in Toronto in a few days. Sullivan, I understand, drove back to Gore Bay that night. I saw Capt. Sullivan next morning in Gore Bay, and with my brother and him went to Cutler on the boat, and from there by train to Sudbury. Sullivan went back to Toronto.

Mr. Gamey said that he then confided his negotiations with Sullivan to Mr. McGregor of Gore Bay, and later to Mr. C. C. Platt, and they decided that he should go on and see what the Government would do. He went from Sudbury to Arnprior, and about the 25th of August left Arnprior for Toronto, where he met Sullivan and his son frequently.

Two Agreements Drawn Up.

Mr. Gamey, resuming, said that on this visit to Toronto in Cap. Sullivan's room at the Walker House, the Captain, his son and myself drew up an agreement.

This agreement, the witness explained, was destroyed a few days afterwards, on the 25th or 26th. One was signed by himself and the other by Frank Sullivan.

Mr. Gamey—One agreement was that I should support the Government on all votes of want of confidence, and that I would not resign during this session. That was practically all there was in the agreement that I signed. In the agreement that Frank Sullivan signed they agreed to pay three thousand dollars in cash some time between the 3rd and 5th, and $2,000 after the session, and he was to get me the patronage of the riding, the expenditure of public money and the withdrawal of the protest against me in the courts. They said they wanted the first agreement so that Cap. Sullivan could go and show it to some member of the Government.

I held the agreement signed by Frank. The other was returned to him before he left for Arnprior on his way back. He did not seem to have any further use for it. He said he would tear it up. He did not want to have them in existence. He had shown it to some member of the Government and convinced him that I was in earnest, that I was going to support them.

The Timber Deal.

Asked to give details of the timber deal, Mr. Gamey said they were to get McGregor Island, or some other limit, and a man was to get the money and, to pay the Government for the timber, and then Frank and the man were to divide the money equally between themselves, and if more than $5,000 was received, he, Gamey, was to get a share. He was to get $5,000 anyway. But there was some difficulty between the Ontario and Dominion Governments as to the ownership of the limit, and that shut out the Welland man entirely. "the Government understanding that the timber was being given for the purpose of buying me."

Frank said he went to Mr. Gibson, who said to see Mr. Stratton, and we seemed to be dealing principally with Mr. Stratton ever since that. It was arranged that I was to get the money before long, before I left Toronto on that occasion. He promised them he would see Mr. Smyth on his return, and see if anything could be done with him. He next saw Frank Sullivan between the 1st and 10th of September, seeing him frequently during that time. It was arranged that they should go to Mr. Stratton, and discuss patronage, and the payment of the money, which, he understood to come from Stratton, through Sullivan. They saw Mr. Stratton on the 10th, or thereabouts, in his office when Frank introduced him.

Mr. Stratton said he understood I was going to support the Government, and that I was to get the patronage. The election petition should be withdrawn, and he spoke about some consideration, but no money was mentioned that day. He was not ready on the 11th to carry out some arrangement he spoke of, and he spoke in an inquiring way of who should handle the parcel, wondering if Vance was in the city, as he would be a good man to handle the money. He understood Vance was a scoundrel, though Vance did not tell him that. It was generally known he was a scoundrel, and a confidential man of the Government.

Mr. Gamey Called to Order.

Mr. Johnston—Does your Lordship permit that evidence?

Chancellor Boyd—No. You are getting excited, Mr. Gamey.

The witness commenced to speak.

Chancellor Boyd—Will you for one moment stop when I am speaking. We are not talking about any rumor.

Witness—He asked me if I knew Mr. Vance.

Chancellor Boyd—You could have said that you did not, except by common rumor.

Witness—But I was thoroughly convinced that he was a man of that kind.

Chancellor Boyd—As I told you before, speak of what you know of your own knowledge, not of what rumor said. It is your evidence that we want, not the rumor of the countryside.

Mr. Blake—Q.—Then the question was as to whether Mr. Vance was there and whether he would be a good man to handle the parcel. What further took place? A.—There was a discussion as to some appointment that would be made in the island.

Mr. Gamey next told how the matter of patronage and the appointment of a new license board he thought necessary had been discussed. Mr. Stratton said he might make some appointments to satisfy his friends. He was to sign a letter, agreeing to support the Government. He did not sign the letter then because the money was not ready. That was a part of the deal, that I was to be paid.

He Signed the Letter.

He signed the letter in the afternoon. He did not know who prepared it. He first saw it in Stratton's office. He was to be taken to a lawyer's office when he signed it, and so after dinner he went with Fran't Sullivan to Mr. Aylesworth's office, where Sullivan introduced him. Mr. Aylesworth said he "understood I wanted him to act for me in the dismissal of a petition." That was the first time he heard the words but he said he "supposed something like that." Mr. Aylesworth said: "I have the letter for you to sign," and he took it out of his pocket, and laid it on the table. The witness then signed it, and addressed it to Premier Ross as Mr Aylesworth directed. He read it over first.

Mr. Aylesworth said he would keep the letter, but Frank objected that there was some question of stock consideration before it was given up. Mr. Aylesworth said he knew nothing about any stock proposition whatever, but said he would not let the letter out of his possession until the witness was satisfied. Frank said: "No, I will take the letter." I knew he meant the payment of this $3,000 was to be made before he parted with the letter. He was to get half of it." It had been agreed that anything witness got in mines, timber limits, etc., he was to share up.

In Mr. Stratton's Office.

The next day we went to Mr. Stratton's office. He was not in, so we walked around, and after a time he came in. Sullivan and I were together, and he, speaking to us, said everything was ready, and seemed to be in a hurry for me to get through. He said: "Now, Sullivan, go down into the waiting-room, and this parcel will be brought down—(he laid it on his desk)—and will be left in the smoking-room for you. Anything you want in regard to appointments in your riding, let me know and drop in and see me when you are down."

Sullivan and I went down to the smoking-room (the letter was left on Mr. Stratton's table); we stood at the window, and, after a little while, a party came in and laid the parcel I had seen in Mr. Stratton's office, or one like it, on the table. Sullivan went over, took it and put it in his pocket. We went to the washroom together, where Sullivan opened it, took out the money and tore up the envelope. There was $3,000 altogether, and he (Gamey) took $1,500 and Sullivan the balance. His money was in 10 $100 bills and 10 $50 Ontario Bank bills. They went down to College street, and, after dinner, he went to the Traders' Bank, just before it closed, after showing it to Edward Crossin. He asked the bank to transfer the money to his account at Gore Bay.

On his return North he acquainted J. R. McGregor of what had taken place. Shortly after, about the 18th, he received a letter from Frank Sullivan, dated the 16th, a copy of which, unsigned, was produced, which the Liberal counsel pointed out, was not "proven." As requested therein, he wrote Frank at the Walker House, a few days later.

Then followed the letter of the 19th from D. A. Jones, expressing regret that he had not seen him (Gamey) before he left Toronto, as he had several matters in regard to mining to speak to him about.

To Mr. Blake witness said on a subsequent visit to Toronto, he saw Jones, but the subject of their conversation was the securing of evidence against Mr. Miscampbell and about his supporting the Government. Jones wanted the witness to see Mr. Smythe, and get him to support the Government also. The reason he gave was that the Government wanted all the support it could get. He spoke as if it would be a profit to him to arrange it.

Q.—Did you do anything with Mr. Smythe? A.—I wrote to him on October 1st.

The commission did not think it necessary to go into this, and Mr. Blake continued by asking about the correspondence that passed between the witness and the Sullivans. The letters written by the witness in this connection were produced.

To Saw Off a Petition.

I saw Sullivan when I arrived in Toronto on October 3 or 4. The discussion with him was with regard to sawing-off the Davis petition. Sullivan had told me that Davis was anxious to have the petition sawed off. They led me to understand they were to get value from the Government if they got it sawed off.

I could, they thought, assist them by seeing Mr. Bristol. Being a Conservative, they thought I could do it all right. Mr. Bristol was the lawyer looking after the Conservative interests in the petitions, and had been acting for me in my cross-petition.

I met Capt. Sullivan at North Bay, and told him I was coming to Toronto, with regard to rumors set afloat that I was going to support the Government. I told him I thought he had been talking too much, and that I was going to see Mr. Stratton in regard to what might be done. I saw Mr. Stratton on the 23rd or 24th. Mr. Stratton said he would see the Premier about publishing a statement contradicting it. He did so, so he said, and they decided to let the thing go without any statement.

Mr. Whitney's letter to witness regarding the rumors was then filed.

Continuing, witness told about Mr. Stratton giving him a second letter dated ahead to forward him from North Bay, announcing his intention of supporting the Government. My protest was being disposed of on October 25, and they wanted this signed a later date for the purpose of showing that there was no deal in regard to the protest.

The original letter, and the later one in duplicate, excepting the date and the addition of a few words by the witness, were filed.

The reply from Mr. Stratton granting the requests in his letter and intimating that he had better see the manager of the railway about the passes mentioned in the letter, were next filed.

Mr. Gamey—The dismissal of my petition was done without instructions from me.

A subsequent letter of November to Mr. Stratton asking for a loan of $3,000 was produced, and witness said he wrote it because, at the end of the session there was supposed to be due me that amount.

Sullivans Were Suspicion.

Mr. Gamey—They were suspicious of my altering the letter addressed to the Premier and my going up to Perth. I saw Mr. Stratton about the 13th Oct. I think I made an appointment with Mr. Myers, by telephone. Mr. Stratton asked me what I was doing up at Perth, and why I altered that letter to the Premier, and said if they wanted anybody to support them they wanted them when they needed them, not after, when they had majority enough to do without them. He then went on after that and discussed Manitoulin affairs.

In answer to a telegram from Frank Sullivan he said he had seen Mr. Stratton on the 29th January, when he gave the signed interview to The Globe reporter. He handed the interview out after he had altered it. Mr. Stratton saying it was satisfactory.

Mr. Gamey continued: Frank Sullivan, after we came out of Mr. Stratton's office, told me if I would sign that interview we would get $1,000 cash. He and I went up to the Public Works Department that afternoon, and I left him there some place, and I went into one or two offices.

Q.—When was it that day you had the promise of $1,000? A.—That was after we came out of Stratton's office, Mr. Sullivan and I together, the first time I saw Mr. Stratton, and before I had gone over the interview and made the alterations.

Claims Stratton Promised Money.

Q.—Did Mr. Stratton say anything to you about that cash payment? A.—Not the first time I saw him, in the afternoon, I don't think he did. He did in the evening, the second time. After showing him the interview, and he said he guessed that would do, and after telling me to take it out to the other office and give it to The Globe reporter, he said: "The money question will be arranged, I will fix up the money." I showed the altered interview to Mr. McGregor.

When I was talking to The Globe reporter, Mr. Frank Sullivan came into the outer office, and said: "I am ready to see you." I got up, and Mr. Sullivan went out into the hall ahead of me. Mr. Stratton and I spoke a moment and he said: "I have given so many fifties, so many twenties, so many tens, and so many fives, making $1,000." Then I went out into the hall, and Frank Sullivan said: "Well, they have a good deal of money around." He said Mr. Stratton said "he had $750 of that in his own office, and he got $250 out of the Attorney-General's Department." We walked down stairs, and at the west entrance of the building Sullivan took the envelope out of his pocket, tore it up, counted the money, and gave me half, he gave me nine fifties, two twenties, and two tens; the nine fifties were Merchants' Bank bills, the twenties and the tens were Ontario bank bills.

Letter to Whitney.

Mr. Stratton suggested that I should write a letter to Mr. Whitney, saying that Mr. Whitney should know something about it. I wrote a letter to Mr. Whitney that night, advising him that I would take an independent stand. Later on I received a reply from Mr. Whitney acknowledging my letter.

Q.—Had you any conference or any interviews with Mr. Whitney up to that date? A.—No, sir, except the letter in September in regard to it.

Q.—What did you do with the money? A.—I kept that money in my pocket until the 11th of March.

At this point Mr. Blake handed the witness an envelope, which Mr. Gamey opened and produced therefrom the $500 in bills of the denominations he had stated in his evidence. The money and envelope were handed into the Registrar for safe keeping.

The Afternoon Session.

The early part of the afternoon session was spent in identifying correspondence.

Mr. Gamey also told of the interview between Frank Sullivan and himself which took place in the presence of concealed witnesses in wardrooms of the Crossin Piano Company on the night of March 10. The names of these witnesses were W. H. Price, Arthur Price and Percy Kinney. Mr. Gamey recalled, so far as he could, the conversation, a synopsis of which has already been published.

THE CROSS-EXAMINATION BY MR. JOHNSTON, K. C.

Mr. E. F. B. Johnston, K.C., commenced his cross-examination at three o'clock.

In cross-examination, Mr. Johnston asked Gamey if the Sullivans were not friends of his. The witness said that they were acquaintances, and could not recall ever having discussed a "deal" with them before. With D. A. Jones, he had had one deal in mineral lands. He admitted having sold stock in the "Pug" mine, but declared that it was simply on commission, and denied that the property was worthless. Asked if he had ever met any member of the Government prior to last September, witness replied that he had casually met Hon. E. J. Davis at Sudbury three years ago.

His Knowledge of Stratton.

Q.—Davis was the man that you only knew. Stratton you didn't know or any one else in connection with them. And until the day that this man, according to your story, paid you $3,000 you never had met him? A.—Yes, I had met him the day before that.

Q.—But until that occasion he was a perfect stranger to you? A.—Yes, prior to early in September.

Q.—And on the last occasion, according to your story, you saw him in his office and was introduced to him by Frank Sullivan) A.—Yes.

Q.—And then on the first occasion he was to pay you money, as you understand? A.—Yes, sir.

Q.—Utter strangers to each other, as far as you know? A.—Except in this, that Sullivan had been arranging this.

Q.—I am not asking you that. Utter strangers to each other, as far as you knew? Look this way, please? A.—Yes. I will look at you, don't worry about that.

Mr. Johnston—A man like you might not worry about anything, I should judge.

No Personal Remarks Allowed.

Mr. Blake—I don't think Mr. Johnston has any right to say anything like that.

Mr. Johnston—I have a right to say what witness says to me.

The Chancellor—I don't think there should be any personal remarks.

Q.—The next occasion was the following day that you met Mr. Stratton in his office—is that right? A.—Yes, sir.

Q.—Did you meet him on the 3rd day of that occasion? A.—I may have met him prior to the 10th day of September: I didn't swear positively I didn't.

Q.—I am not asking you that, at all. I am asking you if you knew of any meeting or had any knowledge of Stratton personally prior to the time when Frank Sullivan introduced you, as you say? A.—No.

Witness testified that so large a sum as $2,000 had never passed through his bank account at Sudbury prior to Sept. 10. His relations with McGregor were of business, except those arising out of the fact that he was Secretary of the Conservative Association of his riding.

Q.—Then your relations to your party remained always the same. A.—Yes.

Q.—No doubt about that? A.—No doubt about that.

Q.—From the time of your election down to the present time—and I want you to be quite clear—your relations with your party always remains the same? A.—Yes.

Q.—True, loyal and firm? A.—In my own opinion.

Played the Patriot.

Q.—And as I say you were playing the patriot in your actions or attempting to play the part of the patriot in your actions which you have detailed to my learned friend, Mr. Blake? A.—Call it what you like.

Q.—Call it what you like. Is that a correct way of putting it? A.—That word will do as well as any.

Q.—And that being so, of course the fifteen hundred dollars you talk about—and I want to deal with this before I deal with the correspondence—the fifteen hundred dollars that you talk about was not your money? A.—Yes, it was my money.

Gamey Used the Money.

Q.—And you claimed that you had the right to keep it? A.—I used it just the same as—

Q.—You claimed that you had the

Angier's Petroleum Emulsion with Hypophosphites is prescribed by physicians for children's diseases. The little ones thrive on it. It is pleasant to take and agrees with the stomach.

It is the best children's medicine. They become fond of it. Put your child on a steady treatment of Angier's Petroleum Emulsion, and note how quickly it gains in health and becomes strong and robust. The Emulsion improves appetite, aids digestion, regulates the stomach and bowels, quiets the nerves, and revitalizes the whole system.

My little girl was troubled with bronchitis and a harsh hacking cough almost since birth. Nothing benefited her until my druggist advised me to give her Angier's Petroleum Emulsion, which I did. It cured the cough, and she almost immediately began to gain in flesh and improve in color. To-day she is as strong and robust as can be.—A. Fenney, Toronto, Canada.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and insist on getting Angier's. Large size, $1.00. Small, 50c.

A Delightful Change.

This season of the year everyone desires something appetising—something slightly tart. We have what you want in apricots, choice quality, 2 pounds for 25c; evaporated peaches from California, 2 pounds for 25c; prunes, according to size, 5 pounds for 25c, or 4 pounds for 25c, or 3 pounds for 25c, or 2 pounds for 25c. These fruits will please you. E. F. Mason & Co., 353 George street, 429 George street. 2d86

Choosing Easter Gifts.

At the Peterborough Bookstore you have choice of a large assortment of articles suitable for Easter Gifts. Perhaps there's nothing more suitable for your friend than a good book. We have them in dainty bindings and in many suitable titles. Also Bibles, prayer books, rosaries, book marks, Easter booklets and cards, Easter novelties in hand-painted Easter eggs, etc., Souvenirs of Peterborough, a limited number still left. A. H. Stratton & Co.

Mr. Stabler's Horse.

Mr. W. A. Stabler, of No. 588 Stewart street, has a horse which has been under the veterinary surgeon's care for some time. The animal has displayed symptoms of inflammation and under the action of a course of strong cathartics a fragment of iron was voided. The chunk of iron weighed over a quarter of a pound, and how it got into the animal's stomach is a mystery. The piece of iron was of an odd shape as if it had been melted in a forge. Dr. represent the church on the Charity ordinary surgeon.

Bicycle vs. Trolley.

After waiting what seems an interminable time on a corner for a street car and then crowding on and standing all the way home, one certainly envies the cyclist. They go flitting by at whatever rate they wish, choosing the shortest or the longest way home, as the mood or the necessity of the moment requires. Certainly wheeling is taking a great boom this season, and every day sees more of them out. The dealers seem to be greatly rushed, and most of them are behind with their orders. Wheels of a much higher grade are most in demand this season.

TO-NIGHT'S MEETING

Of the Peterborough Board of Trade—Matters of Importance.

The members of the Peterborough Board of Trade and townspeople in general are asked to bear in mind the meeting which will be held this evening in the Town Council Chamber for the purpose of discussing the matter of street railway service in Peterborough, and also the question of street lighting.

TWO DANCES

That Were Given Last Night in Peterborough.

Two dances were held last night in Peterborough. The Catholic Order of Foresters gave a very enjoyable "At Home" in their hall, Hunter street, which was largely attened.

The Never Learn Club gave the last of their very successful series of dances in the Foresters' Hall, Hunter street. The music was supplied by Miss McCabe and the refreshments were served by the ladies. About 60 young people were in attendance.

POLICE COURT.

At the police court this morning a number of young boys were charged with raising a disturbance at the corner of Aylmer and Brock streets on Sunday night. They were discharged with a warning.

Joseph Castor, charged with raising a disturbance, was fined $5 or required to spend 15 days in jail. He took the 15 days.

A local physician was up on a charge of neglecting to report cases of scarlet fever to the Medical Health Officer. He was discharged with a warning.

Scenes from the greatest telescopes in the world. Dr. Marsh will explain and illustrate by the powerful steriopticon. The eclipse of the sun and moon, the transit of Venus, the sun spots and sun flames. He will show how the world is round, and will by simple mechanism show the revolution of the planetary system. St. Andrews gives this rare treat to-night in the lecture hall at 8 o'clock. Silver collection 10 cents and upwards.

We Must Move Them.

If you have any idea of the trouble and expense of moving granite and marble monuments and tombstones, you will understand our anxiety to sell what you see standing in our yard rather than have to move them to another stand. Our landlord is preparing to erect a new brick block on our corner, and rather than move our stock, we are asking but a fraction of what our monuments are worth to save moving. EASTER VESTRY MEETINGS.

Annual Business Meetings of Three Churches.

FINANCIAL SHOWING GOOD.

Churches Have Enjoyed a Prosperous Year—Officers and Lay Delegates Elected.

The Easter Vestry meeting of St. John's was held in the school house last night. There was a fair attendance of members of vestry, and in addition there was a considerable number of ladies, who were welcomed by the Rector, who presided over the meeting.

Mr. Mr. Davidson, in a brief address, after outlining in a general way his ideas in reference to the matters that should engage the attention of the meeting, congratulated the Vestry and the congregation upon the gratifyingly pleasant church year just closed. During the year good work had been done, and a satisfactory financial showing was possible.

FINANCIAL REPORT.

Mr. Harry Long, the retiring People's Churchwarden, presented the Warden's financial statement. This showed total receipts amounting to $3,750.50, and the expenditures for the year amounted to $3,468.33.

Mr. Conway, Rector's Warden, presented a statement of the condition of the Rectory building fund as follows:

On hand, April 1, 1902...	$ 672 77
Easter offering, 1903...	549 79
Promised and forthcoming when called upon...	1100 00
	$2322 56

The financial statement, which was regarded as very gratifying, was adopted.

Rev. Mr. Davidson referred in terms of very warm praise and appreciation of the excellent services of the retiring Churchwardens. Mr. Long had served in all five years, and all who knew the arduous duties and responsibility of the office, could understand the sacrifice and interest in the Church which so long a term of service involved. Mr. Conway had not served so long, but so well, that he was sure another term would be acceptable to the congregation (Applause.) as it would be to himself. In some slight way personally recognizing and appreciating the services the retiring Wardens had rendered, Rev. Mr. Davidson asked them to accept little souvenirs. He presented to Mr. Long in compliment to his fondness for flowers, a beautiful flower vase, and to Mr. Conway a large framed photograph of St. John's church.

Both gentlemen gracefully returned thanks, not only for the reminders they had received, but for the kind words the Rector had given their services. If they had in any considerable way merited these kind expressions of appreciation, the result had largely come from the generous help and support the Rector and the congregation had given them.

OFFICERS ELECTED.

The Rector appointed, with a few warm words of commendation, Dr. Boucher as his Warden, and his appointment was on motion heartily ratified by the meeting.

Mr. W. G. Howden was, on motion, elected People's Churchwarden.

It was decided to postpone the election of sidesmen till the adjourned Vestry meeting, two weeks hence.

A special committee, consisting of the Churchwardens, the retiring Churchwardens, the Rector and the Vestry Clerk, was appointed to examine into the finances generally, and report at the adjourned meeting on April 27th.

THE RECTORY SITE.

A committee consisting of the wardens, retiring wardens, Dr. Burnham, and Messrs. Dennistoun, Rush and Fair, was appointed to examine and report to the adjourned vestry meeting, available and suitable sites for the proposed new rectory.

The Rector remarked, that the present was the first regular meeting since the departure of the late Mrs. Beck. Looking back on her career in this parish, he said her great usefulness and unselfish devotion to the interests of the church evoked feelings that could not be expressed.

The meeting then adjourned to April 27th.

At a subsequent meeting of the congregation the following gentlemen were appointed lay delegates to the Provincial Synod: Messrs. W. G. Morris, H. Rush and R. M. Dennistoun.

ALL SAINTS.'

Large Increase of Contributions.

There was a large attendance at the annual Vestry meeting last night showing a marked interest in the affairs of the church. After prayers by the Rector, the minutes of the last annual Vestry and of the special meeting were read and confirmed. Mr. W. H. Dayman, People's Warden, then read the annual financial statement, which showed a most prosperous year. There had been an increase in all collections, some $350.00 had been paid on the debt, and interest was paid to date, and $250.00 had been paid on the lot, while there was now in hand enough to pay the balance on the lot which would make it the property of the church. At this juncture Mr. Dayman moved, seconded by Mr. Edgar, Rector's Warden, that a vote of thanks be tendered Miss Chamberlin for her generous donation in this connection. The current account was in a healthy condition—all accounts being paid and a balance left in hand. The report was received and referred to the Auditors, Messrs. Hooper and McClellan. Several reports from Committees were then received, and Messrs. McClellan, Buller and Good were appointed to wait on the Town Council to procure an electric light on the corner of Rubidge and Sherbrooke streets.

After expressing his high appreciation of the work of the retiring Wardens, Rev. W. L. Armitage, appointed Mr. W. H. Dayman Rector's Warden, and the Vestry elected Mr. R. E. Layfield People's Warden for the ensuing year. The Rector then named Messrs. Good, Mulholland, Hooper and Brundrett, and the Vestry chose Messrs. Buller, Gardner, Jones and Akey as sidesmen.

The Advisory Board consists of the Wardens and past Wardens, with power to add to their numbers.

Mr. Wm. Buller was re-elected to Blanchard was the attending vet-Board and Rev. W. L. Armitage, on the Board of the Nicholls Hospital.

The salary of the organist, Miss May Bullon, was increased.

At the Congregational meeting, which was held afterwards, Messrs. D. H. Burritt, Jas. Edgar and Edward Watts were elected Lay-delegates to the Synod.

The Rector thanked the Vestry for the large attendance and the interest and the businesslike way in which the Vestry's work was done.

Mr. J. W. Reynolds, a member of the church, was present to say goodbye to the members present, before removing to the Northwest. Kindly reference was made to his interest in the church.

The Vestry then adjourned to meet in two weeks.

ST. LUKE'S.

Finances Most Encouraging in History of the Church.

The annual Vestry meeting of St. Luke's Church, Ashburnham, was held last night, amongst those present being, Mrs. Scott, Mrs. Butcher, Mrs. Kidd, Mrs. Crane, Miss Addie Armstrong, Miss K. Phillips, Miss Adams, Mrs. Sawyer, Mrs. H. Adams, Miss Calcutt and Messrs. E. A. Peck, T. Q. Quartermaine, A. O. Sawyer, J. J. Turner, Jr., G. G. Pratley, Percy Crane, T. H. Adams, F. J. Jameson, H. Nesbitt, Frank Dawson and Frank Adams.

The Rector, Rev. E. A. Langfeldt, opened the meeting with prayer, after which the minutes of the last meeting were read and, on motion, adopted.

The annual report of the Churchwardens was read by Mr. F. Adams. It showed that the total receipts of the current account amounted to $1,898.28, while the expenses were $1,858.93, leaving a balance of receipts over expenditures of $39.35. The Mission account showed total contributions to the Mission Fund of the church amounted to $214.80, whilst $126.04 had been contributed towards the mortgage debt on the Sunday School. Improvements of considerable extent had been made; they included a granolithic walk from the entrance of the church to the entrance of the Sunday school, which cost $125.00. The funds for this expenditure were raised at the Mothers' Meetings of the church. An additional electric light at the reading desk was installed by the Young Women's Chapter. A light was also placed at the entrance to the church, the expense being defrayed out of the current account. The special appeal by the Churchwardens for a Thanksgiving offering resulted in $335.28, being raised during Easter.

The Warden's report was on motion adopted.

Upon motion of Mr. E. A. Peck, seconded by Mr. F. J. Jameson, Mr. F. Adams was elected Peoples' Warden for the coming year. The Rector appointed Mr. J. Z. Rogers as Rector's Warden. Messrs. Nesbitt and G. G. Pratley were appointed assistant Wardens.

Upon motion of Mr. Rogers, seconded by Mr. Adams, the Vestry placed upon record their sense of sorrow in the loss sustained by St. Luke's, in the death of Mrs. M. Burnham and Mr. Henry Denne.

The thanks of the Vestry was tendered to the Mothers' Meeting and friends who contributed to the fund for the laying of the granolithic walk.

A resolution was passed expressing regret at the serious accident that befel Mr. Adam Dawson, and expressing the hope that he may speedily be restored to full strength and vigour.

A vote of thanks was tendered to the Women's Auxiliary for their donation of $100.00 to the general fund of the church, and a like motion was tendered to the Girl's Guild for their efforts in having a new lamp placed at the reading desk.

A motion was also passed expressing the thanks of the Vestry to Mr. Armstrong and the choir for their valuable services during the past year.

Mr. Pratley and Mr. Jameson were appointed auditors and Mr. T. H. Adams was re-appointed Sessional Clerk, after which the Vestry meeting adjourned and the congregational meeting followed. Messrs. R. B. Roger, J. J. Turner, Jr., and A. O. Sawyer, were elected lay-delegates to the Synod. The congregational meeting then adjourned.

The finances of St. Luke's are in a very healthy condition. In fact, Mr. Adams, one of the Churchwardens, announced that the church was never in a better position financially, than it is to-day.

LOCAL LEGAL.

Webb v. Canadian General Electric Co. —Judgment (G.A.B.) on motion by plaintiff to set aside non-suit by Meredith J., at the trial at Peterborough, and for a new trial, in an action under the workmen's compensation act. According to plaintiff's evidence he was working in a narrow trench, with a wall on one side and a line of rails on the other, in a building of defendants. The line of rails passed through the building, and was used for the purpose of running truck loads of material from one building to the others. Plaintiff was working in the trench with his back to the door, and about 15 feet from it, when a man, who was working with him, passed between him and the wall, and he leaned over with his arm on the track to steady himself. At this moment a heavy truck laden with wire, pushed by four men, which had come through the door behind him, without his knowledge and without warning to him, passed over his arm and injured it. He said he had looked to the east a few minutes before, and that the door was closed. There was evidence that a man named Rome had the duty of superintending the transfer of the wire from one part of the works to the other, and that he, in turn, was under the general control of one Drew; that just before the accident Rome went up to Drew and spoke to him, and then pulled out the peg over the latch and opened the east door and directed some men to push the car through it; then Rome and Drew were both in a position to seee the plaintiff at work, and that no warning was given to him. Held, that there was evidence to go to the jury that the accident was caused by negligence on the part of Rome, and that his negligence took place whilst he was in the exercise of superintendency. Order made setting aside non-suit and directing a new trial, with costs of former trial and this motion to be paid by defendants. W. R. Riddell, K. C., for plaintiff. R. M. Dennistoun (Peterborough) for defendants.

Rubber Balls, Footballs, Golf Balls and Tennis Balls at Salisbury's.

THE LATE MR. FITZGERALD.

He Passed Away This Morning at Nicholls Hospital.

Mr. Thomas Fitzgerald, a well-known former resident of the Township of Smith, died at the Nicholls Hospital this morning, after an illness of a little over a week. Death was due to bronchitis.

The deceased gentleman has been residing at Mount Rose Junction, in the Niagara District, and came to Peterborough to visit relatives last week.

The late Mr. Fitzgerald was in the 75th year of his age. He was a native of the township of Smith, where he resided for many years, afterwards coming to Peterborough and following the occupation of a carriage trimmer. He afterwards removed to Mount Rose, residing with his son, Mr. T. G. Fitzgerald, who survives him, Mr. Fitzgerald's wife predeceased him about seven years.

Messrs. Alex. Fitzgerald, of Ashburnham, G. W., of Smith, George, Robert and T. J., Fitzgerald, of town, are nephews, and Mrs. (Colonel) Poole, of town, a niece of the deceased.

In religion the deceased was a Methodist.

The funeral will take place from the residence of his nephew, Mr. T. E. Fitzgerald, No. 366 Charlotte street at three o'clock to-morrow, and proceed to the Little Lake cemetery for interment.

A RARE TREAT FOR MUSIC LOVERS.

Amateurs will enjoy a musical treat by being in the T.A.S. Rooms on Thursday and Friday at 8 p.m. The Notre Dame pupils will have their vocal and instrumental selections awaiting. Prof. G. Markle and other friends will contribute to harmony's mellifluence. The prima donna, Mrs. Killin-Keough's beautiful soprano, will make all realize that Polymnia has her favourites still dwelling upon earth.

Admission, 25 cents; tickets on sale at Mr. Jas. Lynch's and at Mr. C. B. Routley's.

Hyslop Bicycles, Sundries and Tires of all makes are now on sale at Metheral's Bicycle Works. The Hyslop is the best this year. Call and let us explain our terms.

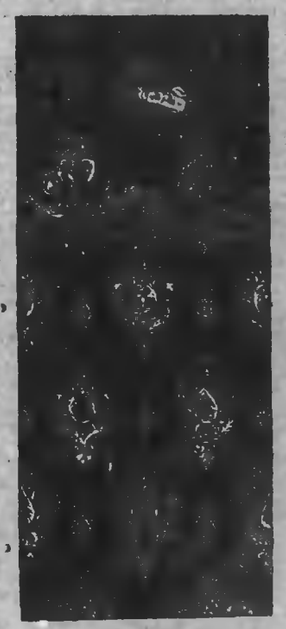
Foot it Up

See if it pays to buy shoddy shoes. Figure the discomfort, the lack of neat appearance, then ask yourself if would not have been better to buy **The GEO. A. SLATER SHOES for Men and Women.**

J. T. Stenson

George Street, Near Simcoe.

Let the Prices Speak!



They explain why Wall Paper buying is so brisk at the Peterborough Bookstore. What is worth emphasizing is, that in the patterns we quote so low to-day there is a large variety to choose from.

And the stock—in quantity alone, if mere bulk is of interest, we have the largest we have ever shown, and that's saying much:—

Gilt Wall Paper..... .5
Grounded Wall Papers... .4
Grounded Glimmer Wall Paper..... .7 and .8
Heavy Gilt Wall Papers (imported). .10 and .12 1/2
Heavy Embossed American Gilt Wall Papers..... .15
Richer Imported Novelties—Orientals, in Tapestry, Scroll and Burlap .25 to .60

WINDOW SHADES.

Come and test our prices—that's what surprises the visitor.

Strong Window Shades, mounted on improved self-acting fixtures— .25 and .35

Pretty Window Shades, in new designs, completely mounted.. .40 and .60

Elaborate Window Shades, fitted with best spring rollers, etc— .75 and .90

Whoever has walls and ceilings to cover this spring could not possibly do better than visit our Wall Paper Department. Our supply of Window Shades is also worthy of your inspection, and is in keeping with the excellence of our stock in all other departments.

PETERBOROUGH'S HOUSEFURNISHING STORE.

25,000 Yards. 25,000 Yards.

Twenty-Five Thousand Yards Of Floor Coverings

Floor Coverings of all classes, grades and varieties, in larger profusion and greater quantity than ever before.

Wednesday, April 15th,

We open the Spring Campaign in Carpets, Oilcloths, Linoleums, Curtains, and Window Hangings, and in fact everthing that goes to furnish a home.

Never in the Store's history have we had such a vast bulk of Floor Coverings, Window Hangings and Draperies. Never had we such an infinite variety—never have we gone so far to make this a Housefurnisher's Store without parallel. At the same time, do not for one moment imagine that mere bulk has been the object in the gathering of this stock. Come here and see the goods. They will tell a different story to that. Our Carpets and Hangings are exclusive, and the best values ever offered to a PETERBOROUGH CITIZEN.

BRUTAL ASSAULT.

Charles Pogue Arrested at Hamilton.

Hamilton, April 20. — Louis Kerr, a Beamsville butcher, was brutally beaten on Saturday night. His face was kicked and pounded until his own mother would scarcely know him. He had to be taken to the City Hospital. Charles Poag was arrested by Detectives Coulter and Miller, and charged with the offence.

Pogue is well known in Peterborough. The spelling of his name in the despatch is incorrect.

Sewer Tile.

SOCIAL AND PERSONAL.

Miss Bilton, of Toronto, is the guest of Miss Annie Irwin.

Mr. Harold Pickup, of Toronto University, is the guest of Rev. J. G. Potter, St. Andrew's Manse.

Mr. and Mrs. G. F. Wardo have returned from a pleasant visit with friends in Toronto and Hamilton.

Messrs. Robert Elliott, Manson Comstock and Chris. Graham were in Port Hope last night attending the Hockey Club ball.

Mr. Alex. Spence, of the T. V. C. staff, went down to Ottawa last night, having received word of the death of a sister-in-law.

Mr. Norman Bell, of the Ontario Bank staff, Ottawa, who has been spending a few days in town, returned to the capital last night.

Mrs. James Hards (nee Miss Pearl Hamilton) will receive Wednesday afternoon and evening, April 22nd, at the home of her parents, 495 Aylmer street.

The Misses Matilda and Madeline Lavallee, daughters of J. H. Lavallee, Esq., of the Orillia Export Lumber Company, Orillia, are in town visiting with their uncle, Mr. Robt. Hicks, corner Aylmer and Murray streets.

NEWS NUGGETS.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 199.

—The Ladies' Aid of St. Paul's church will hold a High Tea and Sale of Work next Tuesday afternoon and evening.

—The meeting of the Girls' Guild of the George street Methodist church which was to have been held tonight, has been postponed until tomorrow night.

—Mr. J. H. Delamere has retired from the active business management of the Minden Echo, his time being now fully taken up by other duties. He will continue to give the business his oversight.

—From Bancroft comes a story of an entertaining piece of repartee on the part of a poor woman living near Bird's Creek. She was accompanied by a bobbledehoy son for whom she gave up a half-fare ticket. "This boy of yours," said the I. B. & O. Ry. conductor, "is far too big for a half-ticket." "Well, maybe he is," was the reply, "but he wasn't when he left Baptiste Lake. He's a growing lad, and yours is a slow line." And they passed without hindrance.

UNFORTUNATE SUBJECTS.

Two stories are told in Harper's Magazine of ministers stumbling on texts of a humourous personal application. One was a very young minister, having charge of his first church, and preaching a series of sermons on the life and utterances of St. Paul. The last one of these was given just before taking his leave, and during his absence he expected to take unto himself a wife, his engagement having been announced. After turning over the leaves of the Bible thoughtfully, he said: "I invite your attention this evening to these words of the great apostle, 'I am ready now to be offered up.'" The other minister was a widower, who had remarried within a year after his first wife's death. His friends and congregation thought him very expeditious, and on the next Sunday, when his text was announced, they could scarcely control themselves. He rose in his place in his pulpit and said:—"My beloved brethren! You will find my text in the seventeenth verse of the fourth chapter of Second Corinthians, 'Our light affliction, which is for the moment.'"

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpright, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

SUDDEN DEATH OF A CRACK THOROUGHBRED.

"Versatile," the Hendrie Blue-Blood Stallion Dies.

Rears, Falls Backward, and Fractures His Skull.

This morning about eleven o'clock, a most unusual accident resulted in the instant death of the noted horse known locally as the syndicate thoroughbred stallion "Versatile." His groom was leading him into his stables in the Munro House. He was holding him by the bit-chain and as the animal was just entering the door he reared, and reared so high that he overbalanced himself backwards and fell at length, striking his head evidently upon a protruding stone, and with such violence as to crush in the skull at its thickest part, the occiput, the point between the ears. The skull was completely crushed through and the blood vessels of the brain were extensively ruptured as there was profuse hemorrhage, the blood flowing over the ground for the space of two or three square yards. Dr. Pools, V.S., who happened to be passing at the time, said that death was instantaneous. A considerable crowd at once assembled, and genuinely mourned to see the prostrate and lifeless form of the magnificent brute, which but a few minutes was so full of life, the perfection of equine symmetry and so full of spirits—the latter being his undoing, for the groom says that it was only in play that the horse made the fatal rear. About eleven o'clock, the groom was leading "Versatile" up Hunter street to his stable and a member of the syndicate standing on the Bank of Commerce corner, said to a local horseman with him—"By Jove, isn't he a beauty? Look at that action; look at that symmetry, style and splendid get-up. He's as lively as a colt." Almost before he had finished his eulogy on the horse, a messenger from the Munro House brought the astounding news that "Versatile" had killed himself.

"Versatile" was a new arrival in Peterborough, having been in town only about a week. He came here from the celebrated Hendrie stud farm, near the City of Hamilton, brought by a syndicate of four local gentlemen, who expected great things from his employment in improving the horse flesh of the county, and a member of the syndicate stated that this constituted the chief regret at the untimely death of "Versatile."

"Versatile" was by all odds the finest horse ever brought to this district. He has a long line of distinguished throroughbred equine ancestors, and was himself thoroughbred to the tips of his hoofs. He was got by "Rayon D'Or," (Golden Ray), a splendid sire, valued at $50,000, champion both on the racing turf, the show ring, and as a getter of superb thoroughbreds. "Versatile" was 14 years of age and has to his credit a Queen's Plate, and any number of race trophies won at Hamilton, Toronto, Buffalo, Cooney Island, etc. "Versatile" was 16 hands high and weighed 1200 lbs. Though he had 14 years to his credit, and had done a lot of hard work, he died as sound as a nut, without a blemish from tip to tail. He was beautifully proportioned, had a magnificent carriage, and never had the people had brought within their reach a better horse for breeding purposes. This makes his death all the more regrettable. The enterprising gentlemen composing the syndicate, are receiving large sympathy for the unfortunate failure of their laudable effort to temper the blood of Peterborough horseflesh with a dash of the bluest blood of the equine race. "Versatile's" value was to be expressed in four figures of good size, and he was protected by an insurance of only $350, but it is not known that that will cover death by the means that put "Versatile" out of the running forever.

The Fraser Mission Band of St. Paul's Church, will present the 'Story of Kardoo," a service of song, on Thursday evening, April 16th, at 8 o'clock, in the Sabbath School Room of the church. Tickets 15c.

GROWTH OF LIFE INSURANCE.

A blue book, just issued, gives interesting statistics regarding the wonderful growth of life insurance in Canada. The figures are brought down to the 31st of last December. Last year all the companies doing business in Canada effected insurance to the amount of $81,501,810. Their premium income from Canada for the year was $177,118,565. The volume of insurance in force in this country on December 31 had reached $508,794,371, representing 541,426 policies. In 1875, only $85,009,264 was in force. The expansion during the past ten years has been very rapid. While British and American companies have a large share of Canadian business, several Canadian companies have invaded foreign fields, and have now $51,379,000 insurance in force in other countries. The total assets of Canadian companies are $73,565,203, and the surplus of assets over liabilities $6,962,423. Last year they paid to policy-holders in death claims, endowments, etc., $5,093,915; the British companies $905,448, and the American companies $3,444,700.

How to Ward off an Attack of Rheumatism.

"For years, when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie Macdonald, of Man, Logan County, West Virginia. "I tried everything with no relief, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment. For sale by all druggists.

We have a large shipment of the choicest fresh-caught fish arriving every day this week. You will be sure of the freshest and best if you order from S. A. OKE, 376 George street; Telephone 18.

Lacrosse Sticks at Salisbury's—50c to $2.75.

KENDRY WILL BE A FLAG STATION.

Springville Will Have a Telephone Service.

Rev. Mr. Yule is Building up a Large Congregation—Other News.

A correspondent in Springville writes to the Examiner as follows:

Our village has certainly caught the spirit of the times and joined in the general march of progress. The following items I trust, will be read with interest and prove our statement.

As we near the anniversary of the induction of Rev. Mr. Yule as pastor of the Presbyterian church we review with interest the work done by him, the results of which must be encouraging. The attendance at public worship has been greatly increased. Last Sunday, at the conclusion of a most interesting service for the children, at which the life of St. Paul gave a text for a very eloquent review, the reverend gentleman referred to his appreciation of the handsome cheque he had received from the augmentation fund on behalf of the Springville congregation. This charge is, however, now self-sustaining, thanks to the efforts of the reverend gentleman and the liberality of an appreciative congregation. Work on the manse is being pushed ahead as fast as possible. Much enthusiasm is being shown by the Building Committee and friends in placing the material on the ground. A hearty co-operation of all interested would lessen their labours. The Sabbath school has been organized under most favourable conditions; a most proficient staff of teachers has been secured. Miss Fowler and Miss Lillicoe, whose experience in Elm Dale union Sabbath school, qualifies them especially for the work, are offering their services, together with Miss McIntosh, Miss Moffatt, and Mr. Smith. Miss Gibson, Mrs. McIntosh, and Mr. E. E. Wilson are assistant teachers. Rev. Mr. Yule is superintendent, Mr W. Laing, assistant superintendent, and Mr. W. H. Baptie, secretary. The Sunday school opens at 9.30 a. m. A Home Department is being organized.

Our citizens are displaying considerable interest in behalf of the telephone agitation inaugurated by Mr. F. E. Wilson. A representative deputation, waited on the manager, Mr. Doan, at Peterborough, on Saturday last. He offered to run the line down through Monaghan to the Fraserville cheese factory and place eight phones on the route, for $200 per annum for three years. This will give the subscribers the same privileges as Peterborough subscribers. We solicit the co-operation of all interested, and thank the Bell Company for their offer. We also learn that Dr. Turner of Millbrook, is contemplating running his line to Peterborough by way of Springville. This is looked forward to with interest by many.

Mr. F. E. Wilson has the pleasure of knowing that his endeavours to get a flag station at Kendry have been successful. He is in receipt of by far the most important announcement to this neighbourhood received for some time. It is a declaration from A. H. Notman, passenger agent of the C.P.R., on the authority of the superintendent, that Kendry shall be made a flag station, and has been placed on the summer time table, which comes into effect in June. The public welcome this announcement and feel confident that the patronage of those interested will amply repay the company for the investment. Several drovers have intimated their intention of shipping by this route if facilities for loading are provided at the crossing of the gravel road, which is but a very short distance from the end of the present switch. Mr. Madill, reeve of North Monaghan, has offered to place scales at this point on condition that pens and suitable accommodation for the loading of hogs is provided. We feel confident that the C.P.R., whose policy it is to accommodate the public by providing every facility for shipping, will consider these requests. The loading of sugar beets is also a matter of considerable importance to those who are growing them. It is worthy of the attention of the Sugar Beet Company, as the acreage would be greatly increased if the accommodation is secured. Several parties have also intimated their intention of shipping milk to Toronto; negotiations with the City Dairy Company are now pending the action of the C.P.R. as to rates. One enterprising young man, who realizes the possibilities of the flag station, and anticipates its requirements, is considering the erection of a house at the crossing. This would be a very wise move.

We welcome Mr. John Staples, of Long Point, as a citizen. He is an enterprising farmer and well qualified to succeed Mr. R. D. Dundass, whose farm he has purchased. Mr. Dundass has retired from active farm life and is devoting his attention to teh horse trade. He will reside in the old manse, which he has purchased from Mr. Graham.

Mr. John Hooten lost a valuable horse by inflammation.

Hector Bothwell, who has been in the employ of Messrs. White & Gillespie, is home with an attack of la grippe. Mr. Alex. Laing is also confined to the house from the same disease.

Miss Stevens of Philadelphia, who has been visiting her sister, Mrs. Wilson, returned to her home in Philadelphia on Thursday last.

EASTER AT ST. ANDREW'S.

In St. Andrew's Presbyterian church on Easter Sunday, the pastor, Rev. J. G. Potter, preached two excellent sermons to large congregations—morning and evening. The choir under the leadership of Mr. Lloyd rendered music appropriate to the day in a manner which met the hearty approval of those who had the good fortune (in this regard) to be present. The sacrament of the Lord's Supper was administered at the mornin service. The music at the evening service was unusually excellent. The Easter hymns sung were—"Jesus Christ is Risen To-day, Hallilujah," "Christ the Lord is Risen To-day" and "Blessing and Honour." The choir gave with fine finish and precision the carols "Joy of Easter Morn," and "Christ is Risen." Miss Florence Miller has, perhaps, never been heard to sing with greater excellence and sweetness of voice than in her rendering of "Easter Day Has Crowned Him King." Both the musical effects and devotional spirit infused into the selection were worthy of remark. Mr. Lloyd presided ably at the organ during the services of the day.

AT LECH'S

JUST WHAT YOU WANT.

THAT EASTER HAT

"The best Hat Values are at Lech's." We borrow that phrase from customers, who know the merit of our offerings.

A Good Word for Chamberlain's Cough Remedy.

"In December, 1900, I had a severe cold and was so hoarse that I could not speak above a whisper," says Allan Davis, of Freestone, N. Y. "I tried several remedies but could get no relief until I had used Chamberlain's Cough Remedy, one bottle of which cured me. I always speak a good word for that medicine." For sale by all druggists.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. This signature on every box. 25 cents.

THE NEW CORSET COAT.

While the loose fitting coat is shown this spring in many materials and bewitching styles, it is a tight-fitting coat which has taken New York by storm. This is the corset coat, which is made with long seams, which extend its full length, and are so cleverly arranged that they mould the coat to the figure. The coat fits well down over the hips, and frequently has from sixteen to twenty gores. It may be worn as a separate jacket, taking the place of the short covert coat, which takes the place of the fur coat, or it may form part of the walking suit, being worn with an ankle length skirt of the same material.

The fact that the corset coat is now acknowledged to be the best liked coat of the spring does not mean that the loose fitting coat of silk, with its dainty lace trimmings, will not be worn. It simply means that in addition to her beruffled coat of silk, and coat with Russian effect, every woman who can afford it will add this garment, whose wearer knows that for once she has overtaken fashions latest whim.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds, and croup. I have ever used in my family. I have not words to express my confidence in this remedy. — Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

Are the most prompt, complete and permanent cure known for sore, stiff, aching, painful backs. Read the proof:

THE PAIN SEVERE.

Mrs. George Inman, Carleton Place, Ont., said: "My husband suffered from an acute lameness in his back. To stoop or assume an upright position was excruciating. He tried various remedies, but said he never had anything come up to Dr. Pitcher's Backache Kidney Tablets.'

TOOK HOLD IMMEDIATELY.

Mr. John Kinnee, Durham, Ont., gave the following account of his case: "For three or four years I suffered from good hard backache whenever I over-exerted myself. I got a bottle of Dr. Pitcher's Backache Kidney Tablets and they took hold immediately, and by the time the bottle was finished I was cured."

NO REST AT NIGHT.

Mrs. Richard Meyers, Preston, Ont.' says: "I had a severe pain in my back that gave me no release in the day time, and disturbed me at nights. Dr. Pitcher's Backache Kidney Tablets cured me of the pain, and I no longer have that depressing weakness in the mornings as formerly."

If you suffer from backache or any kidney, bladder or urinary troubles and are anxious to be cured quickly and permanently, see that you get Dr. Pitcher's Backache Kidney Tablets.

50 Chocolated Coated Tablets 50 cts. at druggists or by mail. The Dr. Zina Pitcher Co., Toronto.

LANGUAGE OF COMMERCE.

Hints and Suggestions for Study of Foreign Tongues—A Prevalent Erroneous Idea Exploded.

Much has been said of the immense superiority of the average foreigner as a linguist compared with the average Englishman.

In fact, the statement has been so dinned into our ears that many people have acquired the firm conviction that the brain of the alien is, in some mysterious fashion, better adapted for the assimilation of idioms other than his own than the brain of the average Briton.

This view is, of course, entirely erroneous, says a writer in The Magazine of Commerce. Given equal facilities, there is no doubt that the young Englishman is quite as capable in this respect as the young foreigner; but it is in the non-existence of adequate facilities and encouragement that the former is so sadly handicapped, coupled with the fact that the mastery of our antiquated system of arithmetic consumes so much of the time which students of other nationalities are able to apply to the acquisition of foreign tongues. In many centres of learning it is customary for students to be taught languages in the first place, from a grammatical and literary point of view; the conversational and commercial aspects of the subjects, if they are ever considered at all, being left until the course of grammer is completed. The consequence is that, upon finishing their education, many young fellows are able to read with tolerable ease novels written in the languages they have been studying, or to argue expertly upon their grammatical niceties, but are quite unable to converse for a few moments upon the commonest topics, while the most everyday commercial phrase is so much Chinese to them.

Commercial terms and matter, then, should be introduced from the first, and be intermingled with the ordinary study of the language. In order to acquire a vocabulary for commercial purposes, the best plan is to purchase a book containing lists of business terms and phrases, with exercises upon them and endeavor to commit the terms to memory, a few at a time, at the same time conscientiously writing out each exercise. After a course of such study the student should be in possession of abundant material wherewith to compose a letter upon any business subject. Books containing complete letters with English translations should be avoided. Business epistles, as a rule, differ from one another only in the body of the communication, so that there is needless repetition of the same phrases in each letter, and the student is less likely to note and learn new terms if they are presented to him in a letter than if set forth without accompaniment of any sort.

With the view of introducing a live interest into this branch of the subject, the student would do well to seek to exchange correspondence with a foreign student of English, each writing in the language he is studying and correcting and revising the other's communications. The advantages to be derived from a correspondence of this character are very patent.

In original composition, an effort should be made to dismiss from the mind all preconceived ideas of English construction, etc.; that is, the student should not first form in his mind, in English, the phrase he is about to set down and then translate it, but from first to last his endeavor should be to shape and transcribe his ideas in the language he is writing.

Reading, of course, plays an important part in the acquisition of a foreign language, but unless it is conducted in a proper manner little benefit is likely to result. A page or two of matter carefully digested, the meaning of every doubtful word or sentence being ascertained by reference to the dictionary, is of far greater utility to the student than many pages hastily perused, with but a vague idea of the real significance of their contents. As to the translating of English, there are many good books published, with notes designed to facilitate the task of reading, and to spare the reader the wearisome necessity of continual reference to the dictionary. The occasional purchase and study of a newspaper will afford familiarity with newly coined words and expressions which are not to be found in any dictionary.

VOICE FROM THE PRAIRIES

Tells of the Great Work Done by Dodd's Kidney Pills.

Thos. L. Hubbs Tells how his Kidney Strain Vanished When he Used the Great Kidney Remedy.

Keelis, N.W.T., April 13.—(Special.)—In this new country where medical attendance is often hard to get the action of special preparations is carefully watched and the results as carefully noted. Consequently, conclusions are arrived at that are of value to the public. And the almost unanimous conclusion is that as a family medicine there is nothing to compare with Dodd's Kidney Pills.

As a tonic it has made a name for itself, while its cures of all stages of Kidney Disease from Bright's Disease to Backache might be considsidered miraculous if their frequency did not make them almost common.

The following story told by Thos. L. Hubbs, a farmer in Indian Head municipality, is one of the many that have given Dodd's Kidney Pills their reputation.

"About one year ago," says Mr. Hubbs, "I was thrown from a wagon, causing some strain on my kidneys. I tried several medicines but could get no relief till I was induced to try Dodd's Kidney Pills.

"Dodd's Kidney Pills relieved me almost from the start and by the time I had finished one box my pains were gone. They have not come back either."

The Petrich District Revolt.

Salonica, European Turkey, April 13.—The inhabitants of some of the villages in Petrich District have revolted, and 350 Turkish troops have had an engagement with insurgents. Reinforcements have left for the scene of action.

ONE IN TWENTY-SEVEN.

The Hits Made by One of Britain's Bee Warships.

Admiral Dewey has been hitting out at the gunner of the U. S. A. navy.

As was lately reported, he summed up his comments on the prize firing as follows: "The results of the practices prove that we have much to accomplish in straight rapid firing."

It is with a feeling of uneasiness that British naval experts compare the shooting of which he complains with the recent performance of the Formidable, one of our finest and most modern battleships in the Mediterranean.

According to information received in private letters, this ship recently fired 27 rounds with her 12-inch guns at a target measuring 600 square feet.

The distance was 1,500 yards, a range so short that no battleship could safely engage at it on account of the torpedoes that might be aimed at her by the enemy. She only hit the target once.

The Empress of India, we also learn, in recent firing only hit the target ten times out of 67 shots from her 6-inch guns.

We find, therefore, that by comparing the 12-inch gun shooting which drew forth the comments of Admiral Dewey with the 12-inch gun shooting of the Formidable, which has passed without reproof from the Admiralty, we arrive at the following remarkable table:

	Shots.	Hit.	Per c.
Alabama, U.S.A.....	55	15	27.5
Kearsage, U. S. A....	49	13	26.5
H.M.S. Formidable...	27	1	3.7

It is fortunate, however, that we have some captains who are anxious to see straight shooting, and from the Formidable and the Empress of India, whose practice was deplorable, we can turn to the performances of the Ocean. In 12-inch gun shooting we find:

	Shots.	Hits.
H. M. S. Ocean.....	25	17
H. M. S. Formidable...	27	1

In 6-inch gun shooting we find:

	Shots.	Hits.
H. M. S. Ocean.....	117	103
H.M.S. Empress of India...	67	10

On June 18 last, Lord Selborne said: "The country has a right to demand that the navy does not get behind in gunnery."

The case of the ships mentioned is worthy of his attention.—London Express.

A GUARANTEED CURE For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

Trees Are the Friends of Men.

All trees display constantly and broadly their nature and the marks of the class to which they belong. The oak, elm, willow, birch, beech, together with poplar, chestnut and pine, are among our native born trees, and those most familiar to us as the ancient landmarks, remembered so well in childhood—the mulberry, olive, ilex, hemlock, spruce, apple, pear and cherry trees—go to make up the almost sacred circle of friends so dear to us because they are monuments of other and happier days.

The homestead and its associations recall all the dear old trees so fondly cherished in days "lang syne" and so dear to me now that it is pleasant to write what I know of their history, utility and why they are valuable as lumber or the more valuable mechanical need which they meet. They all afford the human race a certain amount of reliable service and are the foundation of many industries. They furnish the ships that cover the ocean with white sails and afford easy communication with all nations. The arts and sciences depend upon them for substantial aid in completing palaces and churches and all the grand and lasting buildings which have dotted the earth with beautiful cities and comfortable dwelling places for man. And thus we find that the trees are really the steadfast and never failing friends of men.—Exchange.

An Anecdote of Brignoli.

Though one of the most nervous singers that ever went before an audience, Brignoli in his way was one of the most conscientious. He refused to sing if he did not feel that his voice was in a condition to do justice to the song and to himself. He was a firm believer in homeopathy and was never without two small vials, one containing bryonia and the other spongia, which he used alternately. His body servant, Barbagelata, usually administered the drug.

On one occasion it happened that Barbagelata gave him a larger quantity of bryonia than he had asked for, but, like the faithful servant that he was, he informed his master of the mistake. Brignoli was furious. He thought he was a dead man. He raved and stormed and swore as only he could swear. Barbagelata, thinking to relieve his mind, swallowed the entire contents of the vial.

"You see, Signor Brignoli, there is no harm in the medicine," he said.

"Ah, misery!" cried Brignoli, forgetting his own danger at once. "You are a dead man! What have you done?"

All the doctors in the neighborhood were sent for, and all had to testify that the drug was harmless before Brignoli would believe that Barbagelata could survive.

Sour Stomach —Bad Breath.

The body depends on the bowels to carry off all waste and poisonous matters from the system—it is Nature's drainage. If the bowels don't perform their functions properly and become clogged up, the system gradually absorbs this poison. It is this which causes sick headache, biliousness, sour stomach, bad breath, inactive liver, lack of energy, heartburn, etc,

Abbey's Effervescent Salt will cure you by clearing away the obstruction and thoroughly cleansing the bowels. This brings healthy action to all the organs of the body and rids the system of the cause of illness.

In this way **Abbey's Effervescent Salt** permanently cures. A teaspoonful in half a glass of tepid water every morning.

DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

A CANADIAN EGYPTOLOGIST.

Found Pharaoh's Tomb—Important Discovery by a Toronto Explorer.

Mr. C. T. Currelley, M.A., of Toronto, assistant on the Egyptian Exploration Fund staff, had recently the good fortune to discover the tomb of Aahames, first King of the eighteenth dynasty, the Pharaoh of the Bible, who "know not Joseph," and under whom the oppression of the Hebrews commenced. This tomb had been searched for for some years without success, and its discovery is on that account even more gratifying than it would otherwise be. The tomb is described as one of the largest known, the entry being by a shaft or well sunk in the rock of the desert and forty-five feet in diameter. At the bottom of this is a square chamber, which no doubt opens into various passages and chambers, as is usual in such tombs.

The mummy of Aahames has already been discovered, having been removed from the tomb to a safer place during some turbulent period. The chief value of the discovery, however, will be in the historical material contained in the inscriptions with which the walls of such tombs are decorated, and which may perhaps throw light upon some important matters of sacred history.

Mr. Currelley left Egypt at the end of March to spend four months working on the pre-Mycenaean deposits of Crete under the British School of Archaeology. In addition to the valuable collection presented by the Egypt Exploration Fund to Victoria University last autumn, Mr. Currelley expects to ship further archaeological materials before leaving Egypt. The work of establishing a branch of the Egypt Exploration Fund in Toronto has been undertaken by the Chancellor of Victoria University.

Early Canadian Travelers.

The Ontario Historical Society is doing a useful work in reproducing papers and records and making them accessible to the public. Its fourth volume gives an account of the exploration of the great lakes in 1669-70, by Lollier de Casson and De Brehant de Galinee. It contains Galinee's narrative in French, with an English translation, a fac-simile of Galinee's map, fine portraits of Colbert, La Salle, Laval, Talon and other illustrations.

Dollier de Casson was 33 years old when he arrived in Canada. He was a man of enormous physical strength, and before entering the church had distinguished himself as a cavalry captain under Marshal Turenne. Galinee was of a noble Breton family. On the expedition described in this volume they were associated with the famous La Salle, the hero of one of Parkman's works, then just at the outset of his career.

Mrs. Sadlier's Career.

Mrs. James Sadlier, a well-known Canadian authoress, is lying at the point of death. She is 82 years of age, and has written a large number of books in her time. Mrs. Sadlier was the Irish wife of a French-Canadian, and was born in the County Cavan. Her religious writings which have made her a favorite author among her Irish Catholic countrymen are not so well known as the romances dealing with Irish emigration in which Hon. Thomas D'Arcy Magee believed her to be unexcelled. For some years Mrs. Sadlier edited The New York Tablet, and, returning to Canada to end her days, was presented in 1895 with the Lactare Medal by the University of Notre Dame du Lac, Indiana, for distinguished services to the American Catholic public.

An Advantage From Fogs.

In speaking of fogs a medical journal draws some consolation from the fact that even fogs have one compensating advantage which has often been overlooked. "It is," it says, "reasonable to suppose that a fog effects a partial purification of the atmosphere. This is borne out by the fact that when a fog subsides the deposits contain the carbon, sulphur, organic bases and other injurious and irritating particles which formerly existed in a state of suspension in the atmosphere."

Interviewed by De Blowitz.

Among the celebrities interviewed for The London Times by the late M. de Blowitz were Comte de Charnbord, Bismarch, Thiers, Gambetta, Alphonse XII., the Sultan, Comte de Paris, King of Roumania, Marquis Tseng, Jules Ferry, Leo XIII., Cardinal Jacobini. M. de Blowitz revealed in a letter to The Times on May 5, 1875, the intention of the German military party of another invasion of France, he predicted the march of Russia to Herat; sent the treaty to The Times before it was signed; and it is estimated that he has written more than 4,000 columns in The Times.

M. de Blowitz was an officer of the Legion of Honor, a Doctor of Philosophy, and an officer of the Institute of France.

M. de Blowitz is credited with having obtained more "scoops," or exclusive items of great interest for his paper than any other correspondent. The friend and confidante of many French and European rulers and statesmen. He was trusted with many grave secrets, and was never known to betray a trust. Naturally, he was many times the subject of unfavorable criticism, but, on the whole, his ability was frankly acknowledged during his life time.

How to Address an Alderman.

A correspondent unable to get the required information out of the books at his command, asks us to decide as to the "correctness or incorrectness or otherwise," of addressing an Alderman as "Alderman J. Smith, Esq." We should say such an address is "otherwise." An Alderman may be an esquire and an esquire an Alderman, but it is hardly necessary to give him both titles on his envelope. Germany is a slave to professional prefix, which is claimed even by the wives of unimportant officials. In England Alderman Sm[illegible] signs himself simply, "John Smith," and gives no clue to the stranger as to his municipal glory. We should counsel addressing him as John Smith, Esq.—London Chronicle.

HERE'S A POINT.

In the manufacture of Malt Breakfast Food, the starch of the wheat is changed into digestible, delicate and health-giving nutriment. In oatmeal and other cereal foods the starch and other indigestible elements hamper and retard digestion, and cause stomach troubles that seriously affect general health. Malt Breakfast Food is the only form of nutriment that is always tolerated by weak stomachs. It pleases the whole family, old and young, strong and weak, athlete and invalid. The children love Malt Breakfast Food and thrive on it. Have your grocer send you a package; you'll like it.

London's Electric Tramways.

London is at last in sight of its electric tramways system. It is announced that the Prince of Wales will in April inaugurate the lines from the three bridges to Tooting, and the electrician of other of the Council's South London routes is proceeding very rapidly. The cars will be handsome and commodious, and not altogether unlike those already familiar to Londoners in the south. The principle of fixed stopping places will be adopted and electrical illumination on the outside will enable passengers to read and otherwise enjoy themselves in the open air. There are of course many other electrical tramway systems in the country, but at only one—Bournemouth—has a system of traction similar to that adopted for London been laid down. But it is probable that in many of its future schemes in the outlying districts the County Council will see the wisdom of using the overhead trolley system in preference to the conduit. It costs about five thousand pounds per mile less to construct, and the disorganization of the traffic is comparatively slight. The fares on the County Council electrical lines will not be altered at present.—Lloyd's Weekly.

Not Engaged.

Lady—And why did you leave your last place? Applicant—Why, they tried to poison me! Lady—Tried to poison you! How? Applicant—Well, marm, they wanted me to drink water, and water is full of microbes, and it's dangerous if you don't 'ave summat in it to kill 'em.—World's Comic.

Nerve Sufferers Need Sympathy

And More Than That, the Nerve Cells Must be Restored and Revitalized by the Use of

Dr. Chase's Nerve Food.

Too many doctors have no sympathy with the sufferer from diseases of the nerves. They do not understand the nervous system, and when the victim of nervous exhaustion or prostration appeals to them he is told to "brace up," forget his trouble, and he will soon be all right.

Anyone who has had nervous prostration, been scarcely able to drag about, felt energy and vitality growless, and been in constant dread of paralysis, or even insanity itself, knows how utterly useless and discouraging is such advice.

Nervous diseases cannot right themselves. Exhausted, shrivelled nerve cells can never revitalize themselves without assistance from outside. If the blood is weak and watery, and fails to afford proper nourishment, restoratives must be used Recovery is bound to be slow, but it is none the less certain, and there is no combination of ingredients which has proven so successful as Dr. Chase's Nerve Food.

This famous food is not a stimulant to arouse false hops, but a true restorative, reconstructing wasted cells and tissues, and instilling into the blood and nerves the essential principles of life and vigour.

Dr. Chase's Nerve Food soon wins the confidence of all who are pale, thin, weak or exhausted, for by noting your increase in weight while using it you can prove that new, firm flesh and tissue are being added to the body, and realize that weakness and disease are giving way to strength and vigour. Fifty cents a box, 6 boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 1

Father and Son

BOTH CURED OF

KIDNEY TROUBLE

BY

Doan's Kidney Pills.

Mr. Benjamin Brooks, a well-known farmer of West Cape, P.E.I., tells of how his son was cured of Kidney Disease, and how he was cured of Backache.

The First Sign of Kidney Trouble.

He says: "Our little boy was troubled with kidney disease. We had tried many kinds of kidney pills but they only helped for a time. We got Doan's Kidney Pills and one box effected a perfect cure. About six weeks after this I caught a very bad cold that settled in my kidneys. My back was so sore I could hardly walk. I went to the drug store and got a box, took them according to directions and the result was that my back was completely cured. I believe they are the best kidney pill on the market to-day."

There is not a kidney trouble from Backache to Bright's Disease that Doan's Kidney Pills will not relieve or cure. The price is 50 cts. per box, or 3 boxes for $1.25 and may be procured at all dealers or from

THE DOAN KIDNEY PILL CO., TORONTO, ONT.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto • • The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurante experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $12,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

District Manager
OFFICE—326 Market Arcade Peterborough.

HOW DUNWOODIE GOT HIS SMOKE

By HAROLD W. RAYMOND

Copyright, 1903, by McClure's Newspaper Syndicate

Dunwoodie liked his pipe as well as the next man and perhaps a trifle better, and when he had settled himself in his boss's chair near the top of the big bridge's tallest suspender and found he had left his beloved corncob and his bag of "Painters' Delight" in his other overalls at home his despair was so great that his head swam and he saw red clouds before his eyes.

"It's the curse of the trade," said Dunwoodie. "Here I've been at the brush for forty year or so, and never the time but I was painting in the wrong place. If I worked on a red fence, a bull was sure to be in the field; if I'd been off on a bit of a bat, the boss would set me a-painting of scrolls and wriggly things till it seemed as if I'd got 'em sure; if I was dying of thirst, they'd give me the steeple of a meeting house to color—Baptist at that, more than likely—with never a drop to drink 'twixt me and the earth. And now here I be hanging 'twixt heaven and the East river—and the river much easier to reach—perishing for a smoke, and my pipe might as well be on top of one of them burning volcanoes for all the good it is to me. It's the curse of the trade."

Dunwoodie laid on with a heavy hand. Well for him that his perch was high and that the eye of the boss was not likely to inspect his work critically!

Just then, as if to add insult to injury, there came a pungent smell athwart Dunwoodie's nose. Young Pat McCabe was smoking in his comfortable perch five strands to windward of Dunwoodie—young Pat McCabe, the impudent fellow who had dared ask Dunwoodie for his only daughter's hand in marriage!

Dunwoodie's daughter, the peerless Pearl, the girl Dunwoodie had been father and mother to since that sad day when her own mother was laid beneath the sod in the Cemetery of the Evergreens and of whom the old man was as jealous as a hen with one chicken! Need more be said? Dunwoodie looked upon young McCabe, a likely fellow enough and as handy with his brush as old Michael Angelo himself, with keenest detestation. He hated him all the worse because deep down in his soul he knew that Miss Pearl favored the handsome Irishman.

McCabe's pipe was considered the dirtiest in the gang. He had the love of his race for a well colored dhudeen, and he smoked a tobacco so strong that it would draw tears from the eye of a potato. Dunwoodie had often cast aspersions upon it. But now—now the odor which the winds wafted to his hungry nostrils was sweeter than the spicy breezes of Araby the Blest.

He glanced darkly across the chasm of twisted cables and dizzying heights of air which separated them and remembered some of the hard things he had said about McCabe and his pipe and his pretensions. Now it seemed to him he would willingly barter his chances of heaven for a smoke of the same.

"I swan," said Dunwoodie, overcome by a craving which made him desperate, "it would be a pleasure to murder you, young man, if I could get possession of that chimney by the doing." The thought of murder seemed to give the painter much temporary joy, for it sprang from the heart of a father jealous of the child who was his all in all of life saving and excepting the pipe of which he was deprived.

Murder, however desirable, being out of the question, Dunwoodie resorted to strategy instead. It was hard work. But after clearing his voice a few times he managed to say:

"I say, Mac, could you lend me your pipe and a bit of tobaccy? I'll return them up at the house tonight. Swing it across on a string; that's a good lad."

McCabe looked up in amazement. It was many a day since he had heard such friendliness in Dunwoodie's voice.

"The fact is," said the old man, "I left my pipe at home, and I'm dying for a smoke."

"Oho!" said McCabe to himself. "So that's where the winds are blowin'." And then he said loudly: "But ye can't smoke my pipe, Daddy Dunwoodie. Sure, ye said I put it to soak in the tannery." Dunwoodie coughed and looked uncomfortable. "Ye said it would be afther makin' a dog sick, so it would. If I reckomember correctly, Mr. Dunwoodie, ye said I smoked scrap leather an' findin's."

Hard blows, these. Dunwoodie winced.

"I was only joking, Mac, my boy," he said, with a feeble laugh.

"Was ye jokin' when ye said I couldn't marry the darlint of me sowl? Ye know whom I mane, Mr. Dunwoodie."

"No!" shrieked Dunwoodie. "I was not joking! I'd rather see the girl lying in the cemetery with her dead mother than marry a tarrier like you!"

"Oh! All right, Mr. Dunwoodie. I guess ye were right. My pipe would make a dog sick, and it's not fit for the likes of ye." McCabe's brogue grew broad when his anger was high.

He lit another pipe and whistled "One Girl." As the odor saluted Dunwoodie's nostrils he grew frantic. He must have that pipe and tobacco! It was hours before he could descend for the nooning. He looked at McCabe, who was smoking away as if unconscious of his presence, and it occurred to Dunwoodie for the first time in his life that McCabe was not a bad sort of man after all. He was clean, sober—that is, reasonably so—industrious, and he had the best and sunniest nature in the world. Besides that, he loved Pearl, and Pearl loved him. And if it was not McCabe it might be worse—very likely would be.

Dunwoodie cleared his throat.

"Mac!" he said.

"Well!"

"Lend us your pipe—do. I'm perishing."

"Will ye l'ave me marry yer daughter, Mr. Dunwoodie?"

"I'll l'ave you anything!" said the suffering one.

"Put it down on paper?"

"Anything, anything, if you'll only give me a smoke!"

"I'll give ye me pipe and 'baccy," said McCabe as solemnly as if he were surrendering the dearest treasures of his life.

In three switches of a lamb's tail McCabe was by the old man's side. Dunwoodie was clutching at the pipe.

"Sign the consint first," said the artful Irishman. He had a bit of paper and a pencil in his pocket, and he quickly drew up an article of agreement. It read as follows:

S. S.:

Whereas, in the course of human events, I, Michael Jay Dunwoodie, being of sound mind and robust constitution, hereby give consent to the marriage of my daughter Pearl to Patrick McCabe, Esq., late of the County Cavan.

[Signed] M. J. DUNWOODIE.
P. M'CABE.

This formidable looking document was duly dated, signed and sealed with a gob of brown paint.

Soon Dunwoodie was in the ecstasy of smoking the favorite McCabe mixture. Then he noticed the younger man packing up his tools of trade and making to descend.

"Here! Hey! What are you up to now?" he demanded suspiciously. "Go back to work, you young rascal!"

"I'm only afther goin' to tell Pearl the good news," said McCabe, with a quiet smile.

And when Dunwoodie got home that night the mischief was done and a homemade wedding supper awaited him on the table.

Woman's Weakness

A woman's reproductive organs are in the most intense and continuous sympathy with her kidneys. The slightest disorder in the kidneys brings about a corresponding disease in the reproductive organs. Dodd's Kidney Pills, by restoring the kidneys to their perfect condition, prevent and cure those fearful disorders peculiar to women. Pale young girls, worn-out mothers, suffering wives and women entering upon the Change of Life, your best friend is

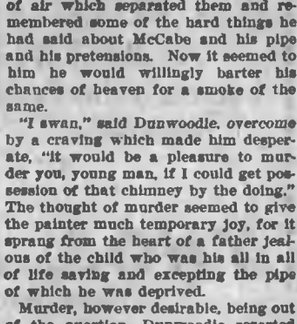
"WILFUL WASTE MAKES WOEFUL WANT."



That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after you read my letter you will remember me," writes Mrs. Annie E. Moring, of 238 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any ease at all. I had what was called the best doctor here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets.' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pellets cure biliousness.

WAS IN A CRITICAL CONDITION.

System was Run Down.

FELT DROWSY AND MISERABLE.

Burdock Blood Bitters

BUILT UP THE SYSTEM AND ADDED TEN POUNDS IN WEIGHT.

Mr. Ed. J. Harris, Newbridge, Ont., was in poor health, but has now been restored to full health and vigor. Here is what he writes us: "Last spring I was in a very critical condition, my system was all run down. I felt drowsy and miserable, and thought I would surely die if I did not get something to build me up. After reading one of your almanacs I decided to try Burdock Blood Bitters, and before I had taken two bottles I had gained ten pounds in weight, and am now in perfect health, and I can certainly recommend Burdock Blood Bitters to build up the system."

BURDOCK BLOOD BITTERS

A Famous Portrait Painter's Opinion.

The famous artist Von Lenbach had one great dominant principle—that out of nature one should grasp and hold fast but one thing in portraiture, the head; that this exponent of the soul must stand out in undisturbed unity; that accessories of whatever kind, whether dress or form, must distract and weaken the impression that the head should produce; that a portrait to attain its highest aim and significance must look out from a background of nothingness and must be shorn of every detail that interferes with this unity of purpose.—Cosmopolitan.

No Misers in Burma.

When a Burman has earned a little money, he immediately proceeds to spend it all, for the Burmese have no ambition to be rich and never hoard. Consequently there are no large landowners, and, there being no aristocracy, the people are as near being on an equality as possible. Poor people are quite as rare as rich people, and the only beggars to be met with are the lepers, who sit on the steps of the pagodas. Should a Burman find himself in possession of a large sum of money he builds a pagoda and possibly a zayat, or resthouse. If any money still remains, he gives a theatrical performance.

A Prominent American Bishop Writes for the Benefit of Canadian Sufferers.

He Strongly Recommends

Paine's Celery Compound

The Health Giving Spring Medicine.

Thousands of prominent clergymen in Canada and other lands through the use of Paine's Celery Compound are happily pursuing their pastoral duties and ministering with success to their congregations. Heart trouble, sleeplessness, nervousness, sluggish and impure blood, weak digestion, constipation and headache, are the troubles that drag clergymen down to deeper sufferings and perils. To-day Paine's Celery Compound is the chosen home medicine of all wise and prudent ministers and priests. A vast number of them owe their lives and present good health to Dr. Phelps' world-renowned prescription that "makes sick people well." Rev. John S. Michaud, Bishop of Burlington, Vt., writes as follows:

"I have been asked why I recommended Paine's Celery Compound, and I desire to put on record frankly my reasons for this endorsement, hoping that my words may inspire those readers who need health and strength with faith to try Paine's Celery Compound and prove to themselves its worth.

"At the Fanny Allen Hospital, an institution in which I am deeply interested, Paine's Celery Compound has been used successfully. The Sisters of Mercy at Mount St. Mary Academy at Mansfield Avenue, rely upon Paine's Celery Compound as a tonic and strengthener. In my own household one of the domestics has taken Paine's Celery Compound for liver trouble of long standing, and she says it has done her more good than any other medicine. Several priests have spoken to me in praise of this remedy, and I believe it has the confidence of my associates. Even did I not know from personal observation of the worth of Paine's Celery Compound I should feel like praising it for the simple reason that it is prepared by the Wells and Richardson Company, a firm whose members I have known for nearly a quarter of a century, and in whom I have perfect confidence."

The Usual Way.

A man had a piece of news.
A reporter heard of it.
The reporter called on the man.
And asked him about the news.
The man played balloon with the reporter.
He swelled noticeably and said:
"You fellers never get anything right. So I won't tell you."
The reporter did not get angry.
He knew the man was a fool.
He had seen him before.
He knew the real facts could be had from no one else.
Yet the reporter did the very best he could to get at the truth.
And published the story as he got it.
Then the man who had refused to give the facts arose early and bought a paper to see if the facts were distorted.
They were.
And he said:
"I told you so."
Query.—With whom should the public yearn to get even—the reporter, who did his best, or the arrogant fool, who deliberately refused to help him?—Baltimore American.

Animals and Rain.

It seems strange that no animal, unless it be the squirrel, seems to build itself a shelter with the express object of keeping off the rain, which they all so much dislike. Monkeys are miserable in wet and could easily build shelters if they had the sense to do so. "As the creatures hop disconsolately along in the rain," writes Mr. Kipling in his "Beast and Man In India," "or crouch on branches, with dripping backs set against the tree trunk as shelter from a driving storm, they have the air of being very sorry for themselves." But even the orang outang, which builds a small platform in the trees on which to sleep at night, never seems to think of a roof, though the Dyaks say that when it is very wet it covers itself with the leaves of the pandanus, a large fern.—London Spectator.

In a Fix.

Parker—What's wrong? You seem worried.

Streeter—I am. I wrote two notes, one to my broker asking if he took me for a fool and the other to Miss Golding asking her if she would be mine. While I was out somebody telephoned "Yes," and I don't know which of 'em it was.—Answers.

THE WALKER OF THE SNOW.

"Speed on, speed on, good Master!
The camp lies far away;
We must cross the haunted valley
Before the close of day.

"How the snow-blight came upon me
I will tell you as I go—
The blight of the shadow-hunter,
Who walks the midnight snow.

"To the cold December heaven,
Came the pale moon and the stars,
As the yellow sun was sinking
Behind the purple bars.

"The snow was deeply drifted
Upon the ridges drear,
That lay for miles around me
And the camps for which we steer.

"'Twas silent on the hillside,
And by the soleman wood,
No sound of life or motion
To break the solitude.

"Save the wailing of the moosebird,
With a plaintive note and low,
And the skating of the red leaf,
Upon the frozen snow.

"And said I, 'Though dark is falling,
And far the camp must be,
Yet my heart it would be lightsome
If I had but company.'

"And then I sang and shouted,
Keeping measure as I sped,
To the harp-twang of the snowshoe,
As it sprang beneath my tread.

"Not far into the valley
Had I dipped upon my way,
When a dusky figure joined me,
In a capuchin of grey.

"Bending upon the snowshoes,
With a long and limber stride;
And I hailed the dusky stranger
As we traveled side by side.

"But no token of communion
Gave he by word or look,
And the fear-chill fell upon me
At the crossing of the brook.

"For I saw by the sickly moonlight
As I followed, bending low,
That the walking of the stranger
Left no footmarks on the snow.

"Then the fear-chill gathered o'er me,
Like a shroud around me cast,
As I sank upon the snowdrift,
Where the shadow-hunter passed.

"And the other trappers found me,
Before the break of day,
With my dark hair blanched and whitened
As the snow in which I lay.

"But they spoke not as they raised me,
For they knew that in the night
I had seen the Shadow-hunter,
And had withered in his light.

"Sancta Maria speed us!
The sun is falling low—
Before us lies the valley
Of the Walker of the Snow."

—Charles Dawson Shanly.

Greek Dandies.

Greek dandies, like Alcibiades, allowed their hair to fall on their shoulders and at night rolled the curls round a stick.

Court Poets.

The custom of having a court poet—one whose duty it is to write to order, as it were—is at present confined to England among civilized nations. In ancient times the custom was well nigh universal. Every court had its poet and painter, as well as its dwarf and buffoon.

A Royal Wedding Feast.

Henry IV. of France had for his wedding feast young swans, fat puddings, sucking pigs, rabbits, sturgeon, almond cream and fritters.

Droop with Dyspepsia?

She was a beauty until irregularities peculiar to her sex brought on that dread dyspepsia and general misery. But there is certainty of cure for her.

THE GREAT SOUTH AMERICAN NERVINE WILL FIRST FEED

Her SHATTERED NERVES; then strengthened by it they will put every vital organ to work vigorously. The liver will do its share, the heart will have blood to pump, the nerves will be quiet. The woman will be beautiful again.

Mrs. James Edge, Post-Mistress of Edge Hill, Ont., writes:

"I have had indigestion and dyspepsia for nearly ten years. At times I could eat nothing. After taking two bottles of South American Nervine I was entirely well and am in perfect health."

The Great South American Kidney Cure dissolves and washes out waste matter at once from kidneys and bladder, and simultaneously begins the building up of new tissues. Relief in six hours.

Cigar Store and Tony Tonsorial Parlours, George Street, Opposite Market Buildings.

BLOOD DISEASED MEN

If you ever contracted any blood disease you are never safe unless the virus or poison has been eradicated from the system. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body eyes red and smart, dyspeptic stomach, sexual weakness—indications of the secondary stage. Don't ruin your system with the old fogy treatment—mercury and potash—which only suppresses the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over 20 years. No names used without written consent.

Mr. E. A. C. writes: "Your remedies have done me more good than Hot Springs and all the doctors and medicines I had previously tried. I have not felt any of those pains or seen any ulcers or blotches for over seven years, and the outward symptoms of the loathesome disease have entirely disappeared. My hair has grown in fully again and I am married and happy."

Messrs. W. F. Dever & Co., Stock Brokers, Toronto, write as follows:—

New York, April 13th, 1903. — After a rather heavy opening without any rally the market declined quite rapidly. Frisco common suffered severely, declining 8 points. Big interests appeared to have neglected the market, leaving it to its own resources with the consequence lower prices. Bears took advantage of the weakness to pound the market, uncovering numerous stop orders. It would seem as if the break to-day had shaken out the weakest element and is generally the case when this happens the market should rally.

Commission house report heavy liquidation as a result of the effect of the decision against the Northern Securities. It would seem that this decline will have run its course by Wednesday and on any further break good stocks ought to be picked up. The bears have had their way now for some time and as stocks are not going to pieces as the news for some time is in favour of higher prices.

At 2.30 the market presented an over sold tone and prices were market up one point by fair purchases from a prominent house which started the shorts to cover. Total sales 1,230,700.

Chicago.—Wheat opened quiet but strong at 75 1-2 and was marked up 1 p. c. to 76 1-2. Two factions are at work in wheat, but sales at these prices are safe we think. Corn and oats were indifferent merely acting in sympathy with wheat. Closing prices, wheat, May, 75 1-2; corn, May, 46 3-8; oats, May, 33 5-8; pork, May, 17.55; lard, May, 9.30.

R. R. GAMEY TELLS HIS STORY TO THE COURT.

(Continued from 3rd page.)

right to keep it? A.—I can keep it.

Q.—Did you claim that you had the right to use it? A.—Yes.

Q.—And you used it in your business? A.—Used it in my business.

Q.—And in eight days after you got the money you had spent nearly the whole of it in your business? A.—I could not say.

Q.—You deposited on the 12th day of December fifteen hundred dollars at Sudbury?

Mr. Ritchie—The 11th.

Mr. Johnston—The 11th here; the 12th at Sudbury; is that right? A.—Yes.

Q.—That is right? A.—Yes.

Q.—And on the 18th of September nearly twelve hundred dollars was taken out? A.—Might have been. Might have been some drawn over to the Gore Bay Bank.

Q.—Using the money of the briber and the bribed in connection with your ordinary business transactions; that is the story that you tell? A.—Knowing that I could return it.

Not Enough to Pay Check.

Mr. Gamey when asked why he did so, said he did not want to carry it in his pocket so long. Mr. Johnston showed that on March 30 last Mr. Gamey had only $450 in the bank. Gamey identified a marked cheque for $1,500 he had signed for the purposes of this trial. To raise the money to honor the cheque he admitted having sold $1,500 worth of stock in the Crossin Piano Company during the first week of April to Mr. W. R. Smythe, M.P.P. for Algoma.

In his cross examination Mr. Gamey developed a great lack of certainty as to critical and important dates, and a good deal was developed as to suspicious changes in the statement he read in the House. This statement was produced, and Mr. Johnston asked why he stopped short in the middle of page 8 and started page 9 at the top. Mr. Gamey replied that he might have been tired. Mr. Johnston asked him if he got tired handling $1500, and wanted an answer.

"Let me ask you a question," said Mr. Gamey.

"No," replied Mr. Johnston.

"I think I could tell when you were tired," retorted Mr. Gamey. The incident led Chancellor Boyd to tell the witness rather sharply to answer questions properly. There was another break on page 14 of the statement, but Mr. Gamey could give no explanation except that the writing was spread over ten days and some pages might have been inserted. Questioned regarding his interview with Mr. Stratton on September 10, he said that he afterwards attended a Conservative caucus, expressing confidence in his leader and speaking of his own victory. This was reported in the Mail and Empire next morning. Yet Mr. Stratton must have seen this report if he had read the Mail. Mr. Stratton was a stranger and yet Mr. Stratton paid him $3,000 either that day or the day after. He would not swear on which day he got the money.

It was just at this interesting point that the court adjourned.

OBITUARY.

The death occurred at Chippawa, Michigan, of Mr. Martin Nolan, who was well known in Lakefield, and Douro, where he was highly respected among his many friends.

Born in Balley Healey, County Carlow, Ireland, 86 years ago, he was the eldest son of the late Edward Nolan, one of the earliest settlers in Lakefield, and a grandson of Lord Eustachius, of the above named place, and nephew of the late General Laughlin Nolan, one of the heroes of the famous "Charge of the Light Brigade," in the Battle of Balaclava. He came to this country with his parents when a boy of 12 years.

At the time of his death he lived at Chippawa, Michigan, where he moved some fifteen years ago. He endured his long illness of seven months with the greatest patience and resignation.

The surviving children are Edward of Minneapolis; Thomas, Patrick and Miss Margaret, at home; Mrs. G. Keith, and Mrs. J. O'Brien, of Mount Pleasant, Mich.; Mrs. J. Simons, Mrs. M. Mahoney, and Mrs. J. Halpin, of town; and Mrs. W. Kennealey, of Lakefield. The two surviving brothers are Messrs. Laughlin and Thomas, of Douro.

The funeral took place to the Mount Pleasant cemetery, Mich.

Baseball Goods at Sallsbury's.

LATEST IN SPORTING CIRCLES

BASKETBALL.

What will be perhaps the best game of the season will be that of Ottawa Y.M.C.A. against the local Harriers to-night in the Y.M.C.A. gymnasium. Before the game the Intermediates will give a wand drill and horse work, which will be interesting. The big game will commence at 9 o'clock.

* * * *

The Brownies returned last night from their western trip, having won and lost in the two games. At Toronto they defeated the West-end Boys' Club, it being the first defeat on their own floor. The score was 10—8. At half time the score stood 3 all. The team was as follows: Hall, Boucher, Hodgson, Miller, Ferguson, Gillespie.

CRICKET.

Mr. Shelton, the professional, will arrive in Lindsay the first week in May. All persons who intend to play cricket should hand in their names to Mr. T. C. Matchett, where they may obtain membership tickets. Practices will commence in a day or two, as the grounds are drying up nicely.—Lindsay Post.

BASEBALL.

BASEBALL AND BAD LANGUGE.

Toronto Star. — There is a story told of a man who met another man near a corner lot baseball match, and asked him what kind of a game it was. On being told that it was a baseball game, he said that it was not; he had been watching it for ten minutes, and although it looked like baseball it was something else, because the players when not yelling at the pitcher were cursing the umpire. There is too much profanity on the baseball diamond—a fine game is disgraced by the language of some who play it, and of many who look on. It must be said in behalf of professional ball that the players are held in strict control in this respect and the example set by the league teams is having a good effect on the players in the best minor teams. These imitate the style of the star players, not only in batting, catching, fielding and base running, but in their self control. The scores of young players around town, who take Louis Bruce, for instance, as their model, instead of roaring with anger when the umpire gives them the worst of it, merely turn on that official a look of silent amazement. As a rule where the best ball is played the language is the least objectionable.

Baseball is a game in which there is a great deal of skill, and it affords on every block of vacant land, entertainment for quite a group of spectators every Saturday afternoon during the summer. Anything that can be done within reason to facilitate ball playing on the Saturday afternoon by boys and young men who work five and a half days each week, ought to be done, and we are glad to see that Park Commissioner Chambers is an advocate of field sports and will do what he can to make the parks available for baseball and other games.

But it is a fact that the profane, violent, and vulgar language that rises in a cloud from some of the crude ball matches is enough to convince some passers-by that, instead of receiving civic encouragement, some of those ball teams ought to be gathered up in a patrol wagon by the police. There ought to be some way of relieving baseball from this disgrace. Small boys swarm around these free and exciting matches—they admire the swagger of the coming phenom, who pitches, and they think they must adopt his bad language if they would be like him. These small boys look in, yell loudly, curse hard, and feel big. It ought to be stopped. Every lover of baseball should do something to improve the language that envelops the game as it is played on the corner lots. The police should make a direct and systematic effort to spread the knowledge that as a baseball match is a public performance the language of the ball field must be fit for publication. It is the free game on the vacant lot that is the worst, but even in these games the umpire should have and use the power to put a player out of the game for profane or indecent language. The "rooters" are usually hero-worshippers, who can be controlled by the word and example of the players.

Large as are the crowds attracted to the games on the vacant lands all over the city, we are sure these crowds would be doubled if people feel that they were not lending countenance to rowdyism of conduct and language. As local leagues increase in number the standard of play and the whole atmosphere of the game improves. But the leaders in these organizations should insist more than ever on purifying the atmosphere of the diamond.

Senator Gillmor's Sudden Death.

St. John, N.B., April 14.—A telegram from Mattawanakeg last night sent by Superintendent Osborne of the C.P.R., who is on board the C.P.R. express for Montreal, tells of the sudden death of Senator A. H. Gillmor of St. George, N.B., who was a passenger on his way to Ottawa to take his seat in the Senate of Canada. He died suddenly in his berth, heart failure being the cause. Hon. Arthur Hill Gillmor was born at St. George, N.B., in 1824.

Romance Spoiled.

Maud—I feel so sorry for poor Lillian. She and Reggie had it all planned to elope, and now they have to give it up.

Jack—What is the trouble?

Maud—She can't persuade her stingy old papa to give them the money to carry it out.—Kansas City Journal.

JOE BOYLE IN JUNEAU.

How the Erstwhile Woodstock, Ont., Man Became the Most Popular Man in the Far North.

The glory of Dawson City has departed, so far as romance goes, and the man from Dawson is glad and proud to boast of the fact. Like the respectable citizen who has been a gay blade in his youth, the man from Dawson will tell of the hot times of '98 and '99. But to-day he and his town are uninterestingly respectable. Age has brought wisdom to both, but age has not killed memory, says Day by Day in The News, Toronto.

In 1898 there was a very grand cabin in Dawson, owned by a man who is well-known in Ontario—Joe Boyle, once of Woodstock, afterwards of London, Melbourne, New York, and various widely separated cities. Joe Boyle and his brother Charley, the horseman, have been rolling stones, but each has gathered moss.

Had Brains for Two.

The story of the way Joe went to Dawson and the adventures he had on the journey, would make the average novelist sorrowfully admit that actualities put imagination out of business, so to speak. In '96 Joe Boyle was out on the Pacific Coast, whither he had returned from Australia after having had in the Antipodes "an unsuccessful promenade," as our French friends would put it. With Boyle had come from Australia Frank Slavin, in his prime a second-rate heavyweight pugilist, who had never become a topnotcher owing to too much good nature and a reluctance to adhere to the rules of strict training. Slavin had been a placer miner in Australia before he entered the prize ring, and when the rush to the gold fields of the Yukon began he and Boyle decided to go thither. Neither of them had more than a few dollars, but Boyle had brains for two. He had a good education, a taking manner, and a physique that would have helped him had he, like his friend, gone in for bruising. Even as an amateur Boyle was a mighty handy man with his fists.

A Case of Alaska.

There they were, these two adventurers, stalled in Seattle with hardly enough money to keep them for a week or so, or to pay for a deck passage to Juneau, Alaska. The business man of the twain soon made up his mind. It was a case of "Alaska," and the tickets were bought. Five days later, with perhaps ten dollars left, they and their scanty belongings arrived at Juneau, and the next thing was to get more cash. Boyle looked around, and thought he saw a chance of making a stake. He went to the proprietor of the only hall in the town and hired it. He and his friend Slavin, the world-famed pugilist, would, he announced, give a red hot boxing exhibition in the hall, and no gentleman who considered himself to be an up-to-date sport would stay away. Tickets five dollars. There was a printing office in the town, and by the afternoon of the fight a hundred or so had been sold. Slavin and Boyle saw their way to Dawson.

Quick Change of Program.

But things were not quite so rosy as they appeared. The territory of Alaska is governed direct from Washington, and the officer in command of the army post at Juneau was a strict constructionist. He had been instructed to allow no disorderliness in the town, and he considered a boxing match to be disorderly. The opening of the performance was due. The hour arrived, and with it the commandant and a file of men. Addressing the crowd, the representative of the Government announced that he was going to permit no fighting, either glove or bare fist. The miners "booed," but there was no moving that warrior.

Boyle, however, walked out to the front of the stage and addressed the roomful of rough fellows. "Gentlemen," he said, "you have all heard what the commandant says. I didn't know that there was any regulation against boxing in this camp, or I wouldn't have sold you the tickets. It is clear that there can be no exhibition, but I see a piano in that corner, and if you will kindly excuse me a few minutes, Mr. Slavin will give an exhibition of bag-punching. After that, it will be up to me and the piano. And I beg to state that, if any gentleman desires to have his money back, he can get it."

The Miners Sat Tight.

The Boyle dived behind the skimpy scenery, and got out of the tights he had donned for the boxing show, and into his street clothes. The miners sat tight and watched Slavin smite the bag. In a few minutes, Boyle emerged from the impromptu dressing room, rolled the piano to the footlights, and sat down. The surprised crowd found that they had met with them in the stalwart young fellow with the clean-cut visage, an entertainer that kept them laughing and applauding from the moment he touched the first key. Slavin was as surprised as any of the others.

Boyle as a Monologue Artist.

Boyle had never told him that he knew a note; yet here was Boyle, singing songs in a full, rich baritone, telling stories that sent the Argonauts and sailors into fits and generally behaving like a sub-Arctic Grossmith. Slavin smiled placidly; lit his pipe, and went down and joined the audience. He knew that Dawson was a go. Along about eleven o'clock Boyle, who had been giving a monologue for about an hour and a-half, announced that the show was over, but the audience would not have it that way by any means. They protested that they were ready to pay another five dollars each, but they wanted more songs, more stories, more music. Boyle, beaming, assured them that he was honored by their appreciation, but that he and his partner would not accept another cent. Then he went on for twenty minutes or so, and when the lights went out, he was the most popular man in Juneau.

Adventures of Old Books.

The vicissitudes of second-hand books is a fascinating study. It has often been written upon, but new instances of the ups and downs of old volumes are continually turning up, says The Leisure Hour. There are many stories of old and rare volumes, and Mr. Salkfield of Cadham road tells some which will bear repeating. Some years ago this bookseller was commissioned by an Austrian library to purchase a book bearing upon the family history of the Emperor of Austria, which was to be sold by auction. They put a limit of £50, which they subsequently raised to £100, and just before the sale they bade him buy it at any price. The day of the sale came, the lot was put up, Mr. Salkeld made a bid of one shilling, and for a shilling it was knocked down to him! "How was this?" I asked. There had been a dispute about the lot before, two bidders both claimed to have bought it; and it was while almost all the tongues were wagging over this little episode that this valuable book was sold be public auction for twelve pence. "You did not get much commission out of that," I said, tentatively. He smiled, and intimated that the purchasers made it well worth his while. The risks that books run may be seen by the following examples: A valuable volume—first edition of Sir J. Elliott's "The Governor"—a small octavo book, had been brought out for a customer to inspect. Though containing the autograph of Lord Cecil o, Elizabethan fame, it was not sold. Some days afterwards Mr. Salkeld was looking over the boxes of old books outside his shop, when lo! in a sixpenny box he espied the precious volume. For some days it had been picked up and put down again, and all the while the handlers of the same unwittingly missed the opportunity of getting for 24 farthings what afterwards went for £4. It had probably been carelessly laid on a sixpenny heap, and so was taken out with the lot.

An O'Connell Token.

T. H. Squire, Mount Brydges, Ontario, recently wrote to The Globe, regarding the proposed sale of the Hill of Tara, and the statement that the last important gathering on the Hill was in 1843, when at a gigantic meeting Daniel O'Connell urged the repeal of the union. "I have a coin in my possession," he says, "that bears what I and others always believed to be the image of O'Connell and his harp. On one side is his head only, and on the other his harp and the date 1830. Now if this coin was struck by Daniel O'Connell, I fail to understand how the big gathering you mention took place, for I always understood that O'Connell was only at the head for a very short time."

The token, for that is a better word than coin, might well have been issued to mark the accession of O'Connell, to the leadership of the Catholic emancipation party. Grattan died in 1820, and from that time until his death in May, 1847, O'Connell was the greatest force in Ireland. At the Tara meeting it was estimated that close upon a million people were present, or one in nine of the population of Ireland.

THE METROPOLE

144 Hunter St. 'Phone 150.

DR. J. A. MORGAN,

CORNER GEORGE AND MURRAY STREETS. TELEPHONE 405.

MR. GAMEY'S RECOLLECTION DECIDEDLY INDISTINCT.

Unable to Give Important Dates and Details in Bribery Case.

CANNOT IDENTIFY EITHER MYERS OR CHASE.

Does not Definitely Remember Day he saw Mr. Stratton—Only Seeking Evidence—Deliberately Destroyed the Only Document in Which he Asserts a Money Consideration was Mentioned.

Toronto, April 15.—Under the rigid cross-examination of Mr. F. B. Johnston, the carefully constructed statement which Mr. R. R. Gamey presented in the House and aimed to repeat in the witness box, was considerably modified, and he developed a great mistiness in dates not being able to fix the date upon which, as he alleges, the most important event—a turning point of his life—the fate of a Government being involved, he received the money he says he did receive as the price of his support.

After being pressed by Mr. Johnston for a long time Mr. Gamey's reply was:

"I can't swear which day it was."

Under cross-examination it was brought out that Mr. Gamey on many occasions, previous to the date on which he says he was approached, and to several persons he made known his friendliness to the Government, expressed his admiration for Premier Ross and disparagement of Mr. Whitney, and generally created the impression that he intended to support the Government.

Mr. Gamey's claims as to the amount of patronage he exercised were considerably impaired. The evidence on cross-examination shows that in the case of one or two appointments, which he is said to have recommended, the appointees were Liberals, and the persons, proper persons to be appointed, and would have been appointed without Mr. Gamey's "assistance." The other claims he made for patronage consist of applications for appointments, road grants, mining leases, etc, which were not acted upon.

Mr. Gamey was also defective in recollection of most important matters.

In his statement he said that it was Mr. Myers, Mr. Stratton's secretary, who Gamey asserts left an envelope containing money in the smoking room of the Buildings. He changed this, and said it was a Mr. Chase who left the parcel.

Under cross-examination he was confronted in court with both of these gentlemen, and could not recognize either as the person who left the parcel containing money, which Mr. Gamey alleges was left.

In his statement in the house Mr. Gamey said that he told only one person of the particulars of his alleged bribery plot.

Under cross-examination he admits that he told four or five others — only one of many examples of disorepancies between Mr. Gamey's statement in the House, his evidence in the witness box, and the admissions wrung out of him in cross-examination.

In regard to the draft agreements which Mr. Gamey said he had with the Sullivans in regard to selling himself — he swore he destroyed it —and with it the only documentary evidence, according to his showing, in which money consideration was mentioned.

Altogether Mr. Gamey under the fire of cross-examination had to, or at least did, materially revise his former statements.

The Royal Commission for the investigation of the Gamey charges resumed work yesterday morning. Among those present were Messrs. John Lee, M.P.P., J. W. St. John, M.P.P., Andrew Pattullo, M.P.P., and Samuel Russell, M.P.P. Frank Sullivan was also on hand as a witness, and attracted considerable attention as he moved around.

Mr. Johnston continued his cross-examination of Mr. Gamey, the first question being in regard to the first day the witness had been in Mr. Stratton's office. The witness thought it was on the 10th September.

"The day you were introduced to him?"

"Most likely."

"Don't guess, please," said the lawyer, we want facts. Was that the day?"

A Question of Dates.

Mr. Gamey said it was the day. "I was there about three-quarters of an hour," continued the witness, in answer co Mr. Johnston's varied questions. "Of course it might be more, but I should say we were there from three-quarters of an hour to an hour. We went into the office at 10 a.m., but Mr. Stratton was not in at the time. Sullivan and I walked about the offices for a time and we met Mr. Stratton about 10.20, or perhaps 10.30."

(Continued on 3rd page.)

Anno 1903

Modish Silks

With a Characteristic Style About Them—

Most of these "smart" Silks came from France and Switzerland, and are beautiful examples of the manufacturer's art in silk weaving.

Silks suitable for street wear, receptions or the dressiest of functions. Some are inexpensive—some are not for swell creations—are not often classed with cheaper goods.

DESCRIPTIONS OF A FEW:

Fancy Raised Stripes on plain Taffeta grounds, the stripes resembling the worked effects of the fine huckabacks to-day. In colours of gold, sky and rose, per yard..... .75

"Brocatelle Two Tones"—throwing out a silvery sheen, in capital colourings of Oxford blue grey, cadet white, pearl and brown Taffetas. Patterns sweetly dainty. Marked to sell at, per yard..... .95

Eolienne Stripes—a soft finished, admirable wearing silk, with shamrock self coloured ground, and bright neat stripe, in sage, brown, grey, navy and Oxford, marked, per yard.. .95

Shirt Waist Stripes on white taffeta grounds, with taffeta and satin duchesse, 3 inch stripes of red and navy, alternating with the white in each case. New—distinctly new, per yard.. 1.00

Neat Floral Stripe in plain taffeta grounds of black and brown, intermixed with self eolienne stripes. Blouse lengths only, per yard..... 1.25

Oxford and Royal Warps, with white weft, with polka dot and white double stripes. Stunning silks to wear with Oxford or navy walking skirts. Special, per yard..... 1.25

Chameleon Eolienne Silks—in the most unique Paisley patterns, with brown, navy and green predominating. Smart silks for smart dressers, per yard..... 1.50

Satin Duchesse Crepe Chameleons, showing an index into the mighty powers of the Swiss weavers. An assuredly good silk to wear and gloriously rich style in grey and castor. The subdued richness of these silks we should like you to see, per yard..... 2.50

Plain Silks

Of Rare Value

BLACK PEAU DE SOIES

Which appeal to us as the best wearing silk possible. The appearance is all that could be desired. The wear-resisting non-creasing qualities exceptional.

Black Peau de Soie, fair weight, strong warp and weft, and a bright finish. Special value, per yard..... .75

Black Peau de Soie, heavier weight, beautiful rich finish. A capital Blousing Silk. Regular value $1,00, our "own" store's syndicate price, per yard..... .88

Black Peau de Soie, with a lovely sombre richness that will tempt any lady into an "ever wanted" black silk dress, per yard..... 1.00

Black Peau de Soie of a satiny finish and soft richness, with a feel of wear endurance, per yard..... 1.25

Coloured Peau de Soie with the same advantage of wear as their black sisters, — will appeal strongly to "faint hearted" silk expenders, who have some time or other found other silks not just what they expected in the wear. Raise your hopes. We fearlessly recommend this silk. It comes in all the "looked-for" shades. Absolutely trustworthy, per yard..... .85

Coloured Taffetas—soft finished and new colourings. A full range of shades—suitable for shirt waists, summer dresses, tab collars, linings, etc. Worth 75c to 85c yard, for..... .59

Black Taffetas—We can introduce to you a special line at a special price, with over a thousand yard guarantee of quality. Suitable for linings—blouse or dresses, per yard..... .50

Another Taffeta of the same family, with a bit more weight and a more lustrous sheen, at, per yard..... .65

Still Another—a grade better still, per yard..... .75

Round Thread Glace—made of smooth, carefully-selected threads. The brightest silk we know of, and what we believe to be satisfactory wearing, per yard..... 1.00

Japan Taffetas in a full range of shades and black and white, 23 inches wide, per yard..... .25

Japan Taffetas in a good range of colours, suitable for blouses, summer dresses, fancy work, etc., 27 inches wide, per yard..... .50

Black Japan Taffeta, heavy weight, one yard wide, per yard..... .75

Plain Florentines—a confirmed "wear-resister", with a brightness envied by many much higher priced silks. Comes in full range of colours and black. The 60c quality, per yard..... .50

A LIGHT SENTENCE.

John Wesley Stevens, the Young Man who was Arrested at Tweed.

Belleville Ontario.

The trial of the young man, John Wesley Stevens, who was arrested on a charge of attempting to hold up the operator at the Tweed station, Mr. Leo Murphy, came up to-day for sentence. On the charge of disguising himself the prisoner was sentenced to the common jail for thirty days, the sentence to date from the first of April. On the other charge, that of pointing fire arms, he was given a nine months' suspended sentence in the Central Prison.

COUNTY POLICE COURT.

Case Against Alva Lawrence for Bigamy was Dismissed.

At the County Police Court yesterday which was held at Havelock before County Police Magistrate Edmison, Alva Lawrence was charged with bigamy. During the course of the evidence the two marriages were proved against the accused, but it transpired that Lawrence's first wife left him some thirteen years ago and he (the accused) had no knowledge whether she was alive or dead.

After all the evidence had been heard the County Police Magistrate [illegible] the case.

[illegible] Magistrate Edmison [illegible] to-morrow to hold a Court there.

Miss Alice Bailey, of Atlanta, Ga., tells how she was permanently cured of inflammation of the ovaries, escaped surgeon's knife, by taking Lydia E. Pinkham's Vegetable Compound.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it **inflammation of the ovaries**, and proposed an operation.

"I felt so weak and sick that I felt sure that I could not survive the ordeal. The following week I read an advertisement in the paper of **Lydia E. Pinkham's Vegetable Compound** in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, and in the end I was cured by it. I had gained eighteen pounds and was in excellent health." — Miss ALICE BAILEY, 50 North Boulevard, Atlanta, Ga. — *$5000 forfeit if original of above letter proving genuineness cannot be produced.*

The symptoms of inflammation and disease of the ovaries are a dull throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with occasional shooting pains. The region of pain sometimes shows some swelling.

London (England) office—168 Fleet street, E C., Central Press Agency Limited, Special Agents.

WEDNESDAY, APRIL 15, 1903.

TRANSPORTATION COMMISSION.

The Importance of the Problem it is Called to Deal With.

The composition of the commission on the transportation question is now amply confirmed and could not well be improved upon. There is no man in the Dominion who has a more practical knowledge of the subject than the chairman, Sir William Van Horne, and it may be considered a fortunate circumstance that he has consented to act. Mr. John Bertram is one of those rarely shrewd and clear sighted men who have a positive talent for digesting and generalising upon a large mass of facts and conditions. His position as the head of a ship-building firm has made him familiar with the problems presented by the lakes, canals and other water channels with which Canada is so richly endowed. Mr. Kennedy is not so well known in Ontario, but his daily vocation has undoubtedly familiarized his mind with the ocean port aspect of the inquiry. Such a commission should be able to elicit a valuable body of testimony.

How great the problem is becoming may be inferred from the figures which Hon. Mr. Patterson, the Minister of Customs, recently laid before Parliament, and they are well worth careful attention, for it is safe to prophesy that no feature of internal commerce will show more remarkable annual growth than this.

The total grain shipments from the undermentioned ports during the season of navigation were as follows:

	1901. Bush.	1902. Bush.
Port Arthur	709,032	6,801,209
Fort William	13,356,168	29,400,653

Particulars of grain shipments from Port Arthur during the following seasons of navigation:

	1901. Bush.	1902. Bush.
To		
Parry Sound		34,000
Meaford		329,053
Collingwood	45,601	
Point Edward	55,919	
Sarnia		56,540
Kingston	272,255	730,338
Goderich	134,682	382,578
Montreal	45,814	229,133
Midland	36,061	1,821,454
Owen Sound	50,111	362,357
Depot Harbour	35,000	458,989
Total to Can. ports	665,444	4,955,023
To		
Buffalo	8,612	1,690,916
Port Huron	35,576	155,270
	109,032	6,801,209

Particulars of grain shipments from Fort William during the following seasons of navigation:

	1901. Bush.	1902. Bush.
To		
Midland	2,160,090	6,710,898
Parry Sound	42,000	
Depot Harbour	636,000	3,354,823
Owen Sound	1,809,136	1,089,994
Meaford	160,000	322,553
Goderich	1,179,182	1,866,782
Sarnia	678,090	636,468
Kingston	2,450,670	3,995,532
Montreal	118,000	100,000
Collingwood		81,000
Total to Can. ports	9,181,978	18,096,575
To		
Buffalo	4,674,190	10,343,819
Port Huron		960,753
	13,856,168	29,400,653

The most striking fact in the statistics is the enormous increase in the shipments from Port Arthur, due partly to the opening of the Rainy River Railway, which has its elevators at Port Arthur. But the most satisfactory feature of it is that so large a proportion of it went to Canadian ports rather than to Buffalo. If it grows at a corresponding rate in the next few years, and there is every likelihood that it will, it is certain to become one of the vastest factors in the transportation problem, and from the commission we expect to get an answer as to how it will be handled.

THE SINGING ARC LAMP.

A Further Triumph of Science.

At the Toronto University conversazione, one of the most interesting entertainments provided was the singing arc lamp, the properties of which are not yet thoroughly understood. Everyone is familiar with the buzzing in the telephone, caused by a passing trolley car. A German, named Simon, of Frankfort, investigated the matter and in 1897 invented the singing lamp. A gramaphone in a distant room is attached to the telephone, and the wire brought to the room where the lamp is placed. The wires of the telephone and lamp are wound tightly around a single core. The induction is so complete that instead of the hissing and sputtering at the junction of the carbons in the lamp, the sound from the gramaphone is distinctly heard. This lamp, which belongs to the School of Science, is the first in Canada, having arrived a couple of months ago.

FROM PETERBOROUGH'S MINING DISTRICT.

An Interesting Budget From Cordova.

The Football Club Will Join the Midland League—Personal Mention.

The death occurred on Monday, March 6th, of Mrs. Chas. Keene, who fell a victim to pneumonia. She bore a long illness cheerfully and leaves to mourn her demise a husband and infant child. Her mortal remains were laid to rest in the Rockdale cemetery on Wednesday, 8th of March. The funeral service was conducted by Rev. Thos. W. Goodwill, in the Presbyterian church.

The illness is reported off Mrs. Wm Steinburg, an old resident of this vicinity.

Cordova's public school teachers are out of town for their Easter holidays. Miss Weir is at her home in Lakehurst and Miss Edwards at Peterborough.

Miss Norah Cook, who has been very ill during the past winter, is now recovering under the care of a Toronto specialist.

Mr. Robert Cole and family of Methuen are removing to this town.

The birth of a son and heir to Mr. and Mrs. W. E. Young is noted. Mother and babe are progressing favourably.

Miss Ethel Stephenson of Madoc, is visiting friends in Cordova.

Misses May and Bessie Peters left on Monday for Toronto, to accept business positions. Their many friends regret their departure.

Miss Jessie Laing of Bowmanville, is spending Easter in town, the guest of her sister, Mrs. Geo. D. Hardy.

Early closing is to be the rule here this summer, the merchants having made an agreement to that effect.

A Boys' Brigade has been organized here and has more than fifty members. The boys take to the drill like a duck to water and are enthusiastic young soldiers. They are also forming football and baseball clubs.

Special Easter services were held in the Cordova churches last Sunday, and were well attended, especially the Presbyterian evening service, the large church being filled to the doors. The choirs of both churches had prepared special music, which was well rendered.

The Association Football Club of Cordova was reorganized at a meeting last Saturday evening. It was decided to enter a team in the new Midland League. This decision evoked considerable enthusiasm and Cordova is out for the championship. The club is strong financially, and is assured of good support. Last year's members are nearly all on hand and some good new blood is available to make the line up first class. The following are the officers: Hon. Patron, D. G. Kerr, Esq.; Hon. President, Rev. T. W. Goodwill; Hon. Vice-Presidents, W. E. Young and R. W. Miller; President, G. D. Hardy; Vice, M. R. Anderson; Sec.-Treasurer, T. McLaughlin; Captain, E. B. Clarke, (unanimously re-elected); Executive Committee, the Captain, Secretary-Treasurer and Messrs. Hardy, T. Graham, and Dr. Glendenning; Mascot, Delbert McConnell.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 3

A VENERABLE RESIDENT OF SMITH PASSES AWAY.

Mrs. Alex Preston, of Lakefield, Dies in Toronto, Aged 91 Years.

In the death of Mrs. Alexander Preston, who died in Toronto on Tuesday, March 31, at the ripe age of 91 years, the Township of Smith has lost its oldest resident and Lakefield a lady whose recollections went back to days long anterior to any who now live within its bounds. Mrs. Preston had been a resident of the Township of Smith for over seventy years, having settled here in the early part of 1833 with her husband, the late Alexander Preston. Her maiden name was Jessie Walkingshaw. She was born in the County of Northumberland, England, in 1812, but moved with her parents at an early age to Swinton in Berwickshire. In 1833 she was married to Mr. Alexander Preston, the ceremony being performed the night before they sailed for Canada. Settling first in Lakefield, whither Mr. Preston had been sent to take charge of the interests of Mr. Harriott, who built the first mill in this village, the young couple resided in a house on the foundations of which the stable owned by Mr. John Dinwoodie now stands. Lakefield was not at that time as accessible to the outside side world as it is at present. There was no bridge across the river, and in order to get to the opposite side persons had to travel up as far as Hague's Point, whence they were ferried over in a boat owned by a Mr. Bird. After living a year in Lakefield, Mr. and Mrs. Preston moved to the Township of Smith, where Mr. Preston cleared the farm which is now owned by their grandson, Mr. Wm. Adams, Jr. Mrs. Preston had outlived all her family, her husband having died some thirty years ago, and her sons and daughters at various periods since that time. Four grandchildren survive her, Mrs. Doole, at present residing in Toronto, Mr. Williams Adams, Jr., of the township of Smith; Misses Mary Ann and Isabel Adams, of the same place, and Mr. William Elder, of Toronto. In closing this notice of an estimable and venerable character, it is worthy of remark that Mr. Alexander Preston, the husband of the deceased lady, was the means of opening the first Presbyterian church in Lakefield, in conjunction with the late Mr. Casement and the late Mr. John Wallace. Mr. and Mrs. Preston were lifelong adherents of that church, of which for many years Mr. Preston was an honoured elder.

IN THE SPRING.

Nature Teaches a Lesson That Tired Exhausted Men and Women Should Follow.

The spring is the season when nature prepares for summer. All the trees and plants are filled with new sap to build and brace them up to withstand the coming hot season. Without new sap in the spring a plant would wither and die beneath the midsummer sun. It is the same with men and women. All physicians are agreed that everyone needs a fresh supply of new blood in the spring. Without the new blood you would be as helpless in the summer as a tree without sap.

What you need at this season is a tonic to give you new blood, and the very best tonic medical science has discovered is Dr. Williams' Pink Pills. Every pill makes new, rich, red blood, braces the nerves and overcomes all weakness, headaches, backaches, indigestion, loss of appetite, skin eruptions and other troubles so common in spring. This is an established fact, proved by thousands in every part of the world.

Miss A. M. Tuckey, Oxdrift, Ont., says:—"I do not know what would have become of me had it not been for Dr. Williams' Pink Pills. My blood seemed to have turned to water and I was troubled with dizziness, headaches and nervous prostration. I got so weak that I could hardly go about, and notwithstanding that I was constantly doctoring I got no relief until I began using Dr. Williams' Pink Pills. They completely cured me and have given me back all my old-time health and strength."

What these pills have done for Miss Tuckey and thousands of others they will do for you. They will make you bright, vigorous and strong. Don't take a substitute nor any of the "just as good as" medicines which some dealers push because of a larger profit. See that the full name "Dr. Williams' Pink Pills for Pale People" is found on the wrapper around every box. If in doubt send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be mailed at 50 cents a box or six boxes for $2.50.

IN MEMORIAM.

In loving remembrance of Mary Madonna Coughlin, who died February 15, 1903, aged 9 years:

Death has called another loved one,
Left another vacant chair;
Sent another bud to blossom,
Within Heaven's garden fair.

Dear, dear Mary thou hast left us,
And your face we see no more,
But you are happy with the angels,
On that bright and golden shore,

You have gone to meet your mother,
On that bright eternal shore;
Oh! may we who now are mourning
Meet you there to part no more.

We are sad and we are lonely,
For we greatly miss you now,
We little thought that you could leave us,
Until God called you to the Heavenly Home.

Oh! we miss you in your class,
Where your face was often seen,
But now we know you are sleeping,
Where the grass is growing green.

Yes, dear schoolmate, we are waiting,
Watching for the time to come,
When we will all meet together,
In God's great and Heavenly home.

You sleep a sleep that knows no waking,
You have left this world of care,
With God's care, love and goodness,
We all hope to see you there.

"SCHOOLMATES."

Many young ladies who were supposed to be going into decline have been restored to health and vigour by the use of Miller's Compound Iron Pills. Sold by all druggists.

Chamberlain's Cough Remedy

This preparation is intended especially for coughs, colds, croup, whooping cough and influenza and has become famous for its cures of these diseases over a large part of the civilized world.

It can always be depended upon and is pleasant to take.

It not only cures colds and influenza, (grip) but counteracts any tendency toward pneumonia.

It contains no opium or other harmful substance and may be given to a baby as confidently as to an adult.

SPRING TONIC.

As the Spring time approaches every person requires a **GOOD TONIC and BLOOD PURIFIER.**

MADILL SARSAPARILLA COMPOUND
Tonic and Blood Purifier

This Preparation acts on the liver and kidneys, invigorates the digestive organs and removes that tired languid feeling.

BUSY HOUSEWIVES.

Pe-ru-na a Prompt and Permanent Cure for Nervousness.

MRS. LULU LARMER.

Mrs. Lulu Larmer, Stoughton, Wis., says:

"For two years I suffered with nervous trouble and stomach disorders until it seemed that there was nothing to me but a bundle of nerves.

"I was very irritable, could not sleep, rest or compose myself, and was certainly unfit to take care of a household.

"I took nerve tonics and pills without benefit. When I began taking Peruna I grew steadily better, my nerves grew stronger, my rest was no longer fitful, and to-day I consider myself in perfect health and strength.

"My recovery was slow but sure, but I persevered and was rewarded by perfect health."—Mrs. Lulu Larmer.

Mrs. Anna B. Fleharty, recent Superintendent of the W. C. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University at Lincoln, Neb.

In a letter written from 401 Sixty-seventh street, W., Chicago, Ill., she says:

"I would not be without Peruna for ten times its cost."—Mrs. Anna B. Fleharty.

"Summer Catarrh," a book written by Dr. Hartman on the subject of the nervous disturbances peculiar to summer, sent free to any address by The Peruna Medicine Co., Columbus, Ohio.

HOUSE OF COMMONS.

Redistribution Bill Read a Second Time—Sir Oliver Mowat's Case.

Ottawa, April 15.—In the House yesterday a number of bills were read a first time.

Mr. Maclean brought up the case of Sir Oliver Mowat again, and Sir Wilfrid Laurier said the Government would not feel called upon to appoint his successor until Sir Oliver himself called for his release.

After an all-day debate, the Redistribution Bill was given a second reading and referred to a select committe of the House.

TAPS FROM THE WIRES.

The Hague.—The strike situation has improved.

Hawkesbury. — The Hawkesbury strike has been settled.

Toronto.—The condition of Sir Oliver Mowat has taken no turn for the better.

Toronto.—The Ontario Library Association continued its session in the Canadian Institute Tuesday. Officers were elected.

Montreal.—J. W. Leonard, superintendent of the Canadian Pacific Railway at Winnipeg, is to succeed Thomas Tait as manager of transportation.

Windsor.—At 7.15 Tuesday morning the Canadian Bridge Co.'s plant in Walkerville resumed operations with 250 men at work. Only the machinists have held out. They number ten.

James White of Ottawa has been appointed Inspector of Immigration to see that the incoming settlers are provided with proper accommodation and treatment during their progress across the continent.

Toronto.—The Court of Appeal at Osgoode Hall was engaged all day Tuesday on the hearing of the appeal of Andrew Miscampbell against the judgment of the Election Court voiding his return as a member of the Ontario Legislature. The argument was not concluded.

New York.—Early Tuesday morning a scrub-woman noticed a barrel on East 11th street, near the docks, from which was hanging a man's coat soaked with blood. In the barrel was found the body of an Italian, still warm, with his throat cut. The victim had 18 stab wounds and had been tortured.

London.—Russia will demand from the Porte an indemnity of $250,000 for the family of M. Stcherbina, the Russian Consul, who was assassinated at Mitrovitza; that a chapel be built on the scene of the murder and that the Turkish Government shall send into Old Servia 200,000 troops, to maintain order.

Toronto.—A large gathering of prominent educationists from all parts of the province are in attendance at the 42nd annual meeting of the Ontario Educational Association. In the evening D. M. Gordon, M. A., D. D., principal of Queen's University, Kingston, spoke on "The Goodly Fellowship of Teachers." Hon. Richard Harcourt also addressed the gathering.

An Aching Back.

Is the first indication of kidney disease, and should be taken as a signal of danger—a warning to use Dr. Chase's Kidney-Liver Pills while yet there is time to avoid the dreadful pains and certain fatality of this terrible disease. There is no guess work, no experimenting when you use this prescription. It brings relief in a remarkable short time, and because of its combined action of liver and kidneys, cures complicated cases which cannot be reached by any ordinary treatment.

GAMEY'S RECOLLECTIONS DECIDEDLY INDISTINCT

(Continued From 1st Page.)

"Oh, yes," said Mr. Johnston, "ten minutes, more or less, is neither here nor there with a man like you."

Mr. Gamey said to the best of his recollection he had met Mr. Stratton at 10.30. He continued: "I likely stayed until 11.30, and it might have been 12 o'clock. I left the office and did not see Mr. Stratton again that day. On the next day I went up again, about 10.30. Frank Sullivan was with me, I could not say where I met Sullivan—perhaps at the Walker House."

He never expected any reward for this, nor that he was to be a Minister, and never said so to anyone. He saw Mr. Stratton on that day about 11.30, and left him about 12 o'clock, having been with him only fifteen or twenty minutes.

You left Mr. Stratton at twelve o'clock? A.—I say about that; I don't say I left him at twelve o'clock exactly.

The Chancellor—That is on the 10th.

Mr. Johnston—No, my Lord, the second day.

The Only Two Occasions.

Q.—Those two occasions are the only occasions you saw him in September. Is that right? A.—Those are the only two occasions I know of.

Q.—You saw him on the two days, one after the other, consecutively? A.—Yes.

Q.—No doubt about it? A.—No doubt about it.

Q.—Now, it was, of course, the second day that you got the money, according to your story? A.—Yes.

Mr. Johnston then read from Mr. Gamey's statement in the House to the effect that he and Sullivan went to Mr. Stratton's office first on September 9th, and afterwards, on September 10th, went again to his office, when he got the money, and he left for home on September 11th. He insisted that the statement to the House was substantially correct because it said the first interview was "about" September 9th.

Q.—In your statement you say "It was the day before"—no matter what day that was—that you got the money. Never mind the 9th; begin at the other end? A.—I did not say in my statement that I got the money the day before I left for home. I said about the 9th I went into Stratton's office. I tell you now if I went into Stratton's office the first time on the 10th, then I got the money on the 11th.

Q.—I see you stated in your statement that you left for home on Thursday, the 11th, and that is true? A.—That is true.

Q.—And you stated in your statement that it was the day before that that you got the money? A.—I did not state that in my statement. I stated that if I went in there about the 9th, I got the money on the 10th and went home on the 11th; and if I change my statement and find that I went in on the 10th, then I got the money on the 11th and went home on the 11th. I went home on the 11th.

Denies That He Was Bought.

Q.—Had you ever been bought before? A.—I was not bought then.

Q.—Were you ever attempted to be bought before? A.—I was not bought then.

Q.—I asked, were you ever attempted to be bought before? A.—No.

Q.—That is quite right. Now your statement says, "We came to the conclusion that I should go on and get some evidence that we could prove it how far they would go, and whatever we did would be told on the floor of the House, and absolutely no one would know before." What do you say to that; that was your solemn statement in your declaration; what do you say to that? A.—Just those that we told it to was—

Q.—You swore that you never changed your mind; that you and McGregor were the only two people to know? A.—Yes.

Q.—Now, I ask you—"Whatever we did would be told on the floor of the House and absolutely no one would know before"—you told four or five people besides McGregor? A.—Yes.

Q.—When did you change you mind to tell others besides McGregor? A.—I did not change my mind.

Q.—Why did you write that in your statement? A.—I meant that in a general way.

Q.—Will you swear on your oath that this is in a general way—"Whatever we did" would be told on the floor of the House, and absolutely no one would know before." You did not mean what you wrote there? A.—I meant that, but I meant that in a general way—not telling it around—to be confined to those who knew about it.

Q.—Is that what you meant—that when you wrote in your own house "absolutely no one would know before," you meant by that that McGregor and you should know, and four or five others? A.—Well, I meant that McGregor was the only one of the association that should know, and that I complied with it in a general way. There may be others.

Job For Mr. Gamey's Brother.

Q.—You spoke to Mr. Stratton and wanted your brother appointed to the Crown Lands Department? A.—I believe I did; to be appointed next spring.

Q.—Did you write to him about it? A.—I just spoke to Mr. Stratton about it myself, personally; I told him I might ask later on to have my brother appointed.

Q.—You were not going to have him appointed before the following summer? A.—I was not going to have him appointed by Stratton at all. If I wanted to deal with Stratton and get any more evidence from him and get that much closer to him, I might ask for the appointment before the House met.

Q.—When did you see Mr. Stratton about your brother? A.—I think it was on the 13th of January.

Trying to Trap Premier Ross.

Q.—Now, another matter before I deal with some correspondence here. Why did your son sign the letter for you of the 27th October? A.—Because I asked him.

Q.—Why did you do that? A.—Simply because I wanted to see if they would refer to that letter.

Q.—Why would that make them refer to that letter? A.—Well, if the signature was not the same as the other, the Premier might write me about it.

Q.—You knew the Premier had the letter? A.—I knew he would get it.

Q.—And you were trying to trap the old man? You wanted to get a letter— A.—I wanted to get—

Q.—You were trying to trap the old man by getting an answer to yours with a false signature? A.—You might call it that.

Q.—That signature that was put there was intended to convey to his mind a forgery? A.—You can call it that.

Q.—Will it be right if I call it that? A.—It doesn't make any difference to me.

Q.—You did it, you and your son conspired together for that purpose? A.—He didn't know anything about it.

Q.—Did he ever sign a letter for you before? A.—No, sir.

Q.—How old is he? A.—16.

Great Training For Son.

Q.—A young lad—good training? A.—He is trained all right.

Q.—Then as far as the letters are concerned there was nothing written in the letters for the purpose of carrying out your scheme? A.—No. I do not know that there was anything wrong with them. I signed them as a part of the scheme.

Q.—And you did not sign the letter, and the letter was not asked from you for any other purpose excepting as part of the scheme? A.—It was asked from me after the protest was withdrawn so as to show that there was no deal on.

Q.—Was it given on account of the protest alone? I want to pin you down to that if I can. A.—No, sir, I won't say it was; it was part of the whole arrangement.

Q.—We will know by and by from gentlemen we can believe just as well as we can you where it was given and how, and it is important for me to have no dispute about what you are saying now.

The Chancellor—Well, he says it was given as a part of the whole arrangement.

Q.—Now then there was another appointment made up there—Mr. Murray?

The Chancellor—What for?

Mr. Johnston—Treasurer of the criminal justice accounts for the island.

A.—I don't know anything about it.

Q.—They made that without reference to you? A.—Yes.

Q.—On January 13th you write—"Would you kindly appoint Charles C. Platt issuer of marriage licenses for Gore Bay, as it would seem to be necessary to have another appointment." Is that the Charles C. Platt that you confided in? A.—Yes.

Q.—He was not appointed. A.—No, sir.

Mr. Gamey Rebuked.

Questioned as to the truth or falsity of his letter to Mr. Stratton, in which he said "Well, there is a row on," and "I doubt very much if I could pass muster," Mr. Gamey said it was part of the scheme. Asked if it were true or false, he said: "You can call it what you like."

Chief Justice Falconbridge here rebuked the witness, saying the point was not what Mr. Johnston called it; it's what he called it. "We told you that before," added the Chief Justice.

Q.—"A meeting of our Executive for the riding is called for February 16th to consider the question." Is that true? A.—Yes.

Q.—And "I doubt very much if I can pass muster there; in fact, it looks as if they will ask for my resignation." Is that true—was it true? A.—It looked like it.

Q.—"I doubt very much if I can pass muster there." Was that true? A.—No; that was not true. I knew that I could pass muster.

Q.—That was false? A.—Yes, that was false.

Q.—It was a lie? A.—It was a part of the arrangement, that was all.

The Chancellor—Be satisfied with false.

Q.—What was the strongest card to play? To resign and run as an independent member? A.—I was writing in that letter to see what answer they would give me in regard to it.

Q.—I am asking you what was the strongest card to play? Was it that you were to resign and run as an independent and give the Government an independent support, and the Government not to put up a candidate? Was that the proposition you were making to Stratton on the 7th day of January, 1903? A.—You might read it that way.

Q.—Again you are violating the rule their Lordships laid down? A.—Yes, it reads that way.

The Chancellor—Q.—Did you intend it to be read that way. A.—Yes.

Trying to Draw Stratton.

Mr. Johnston—Q.—You intended that Mr. Stratton should advise your resignation, and that you run as a member for the House, independent? A.—It was just to see what he would say.

After some further questioning:

Chief Justice Falconbridge — I think he has answered that pretty well. He didn't care in what direction the answer came as long as he got a letter from Stratton.

Mr. Johnston—Q.—Was any other appointment made except the two that you have given us here, on your recommendation, directly or indirectly? A.—Those were the only two that were made.

He recommended, on Dec. 24, 1902, $3,200 for colonization roads in Manitoulin, which he regarded as reasonable and proper at that time. A petition for part of the grant was dated October, but was not forwarded by him to the Government until Dec. 24. He would have recommended all these road grants whether he had been bribed or not. "They need all the money they can get," added Mr Gamey. On Jan. 31 he sent a list of road grants, including the former, and some new

"Bargains"

What is wrong when a shoe said to be worth six dollars is offered for $2.98?

If it were worth six dollars wouldn't the dealer want six dollars for it? Wouldn't he be entitled to it?

"Bargain" is often only a polite word in shoedom for one of three things, either the shoe is stale in style, flawed or injured—or perhaps the six dollar "value" is merely a pleasant vagary or a dealer's dream.

"Slater" shoe prices and values are *fixed*. If a "Slater" shoe becomes stale or flawed it *disappears* to come up with an *unknown* brand maybe as a "marked down bargain" in stores where the fixed price principle is not recognized.

"The Slater Shoe"

Made in Canada 40 Years.
For Men and Women, $3.50 and $5.00.
For Boys, $2.50 and $3.00.
Sold in 15 "Slater" Stores and 200 Agencies.

PETERBOROUGH RANGERS HELD WEEKLY DRILL.

The Orders That Were Issued Last Night—Splendid Turn Out.

The regular weekly drill of the 57th Regiment, Peterborough Rangers, took place last night, there being a large number of men in attendance. Many recruits were sworn in and altogether the turn-out was most encouraging. Squad drill was the order of the drill.

At the conclusion of the drill the following orders were read:—

Headquarters, Peterborough.
April 14, 1903.

Orders by Lieut.-Col. J. W. Miller, commanding 57th Regiment, Peterborough Rangers.

No. 1, Detail of duty for week ending April 21st, 1903, Officer for the week, Capt. Clegg; next for duty Capt. Bennett.

No. 2. The following are taken on the strength of the Regiment, E Co, Ptes G N Foster, H J Langton, and H Langton; H Co, Ptes H C Armstrong, W H Cavanagh, W P Asselstine, W R Moore, W G Ferguson, A Pearson, J C McPherson, J E Sullivan, J Sweeney, A B McFarlane, W C Trew, G L Johnston, M S Fraser, W R Henders, W G Thurston, W G Sanderson, M D Kennedy.

No. 3. The commanding officer has been pleased to make the following promotions. A Co, to be Sergt, Corp G T Browne; to be Corp provisionally, Pte J Giles; C Co, to be Colour Sergt, Sergt Trussler; to be Sergt, Sergt Murphy; to be Corporal provisionally, Pte Succee, D Co, to be Colour Sergeant, Sergt E Best; vice Sergt Cotterell resigned; to be Sergeants, Corps L Hall and F Collins and Pte Watson provisionally; to be Corporals provisionally, Ptes Lee Thompson and Selby; E Co, to be Sergeants provisionally, Corp D Manley, vice Sergt R Howland discharged at his own request; to be Corporal, Pte F Plummer vice Davidson left limits, and Pte Rosenburg provisionally vice F Allison deceased; H Co, to be Colour Sergeants provisionally, H Ayers and H Hartley; to be Corporals provisionally, W H Cavanagh, R Cameron and H Armstrong.

By order,
D. WALKER, Capt.,
Adjutant.

WEDDING BELLS.

Nuptials of Miss Edith Hubbs and Mr. John G. Cummings.

The residence of Mr. C. E. Hubbs of Ashburnham, was the scene of a very pretty but quiet wedding last night, the contracting parties being Miss Edith Hubbs and Mr. John G. Cummings, formerly of town, but who has lately been surveying in the Kootenay District. Only the very intimate friends were present at the ceremony, which was performed by Rev. J. P. Wilson, the pastor of the George street Methodist church.

The happy couple will next week leave for Fort Steele, B.C., where they will reside.

Owing to a recent bereavement in the family of the bride the wedding was of a very quiet nature.

DISCUSSED IMPORTANT MATTERS.

Largely Attended Meeting of Board of Trade.

RESOLUTION WAS ADOPTED.

But the Board Was Very Non-Committal.

The Standing Committees for the Year — Other Matters Discussed.

By far the largest and most enthusiastic meeting of the Peterborough Board of Trade that has assembled in some time took place last night in the Town Council Chamber, when the matter of the street railway franchise and the street lighting tenders were thoroughly discussed, and many of the old arguments, pro and con, were used by the various speakers. Other matters of interest were discussed, correspondence was disposed of and the slate generally cleared of "unfinished business."

The chair was occupied by Mr. D. Hughes-Charles and amongst those in attendance were,—Messrs. G. M. Rogor, Mayor; J. P. McDonald, John Carnegie, D. W. Dumble, A. Stevenson, C. Fessenden, R. E. Wood, M. A. Morrison, E. J. Toker, J. Shook, T. A. S. Hay, Wm. Davidson, Thos. Barrie, T. E. Bradburn, A. Brown, —. Kearns, Adam Hall, H. Adams, Jas. Edgcumbe, W. G. Ferguson, T. F. Matthews, —. Doan, V. Eastwood, Wm. Might, Robt. McWhinnie, H. Rush, W. H. Bradburn, Dickson Hall, J. D. Craig, Alex Gibson, A. H. Stratton, R. M. Dennistoun, Robert Fair, F. D. Kerr, R. M. Hamilton, W. H. Meldrum, A. W. Cressman, and a great many others.

The secretary read the following report of the Special Committee to strike the Standing Committee:—

To the President and Members of the Peterborough Board of Trade:—

Gentlemen,—We, the undersigned, beg to report, that in accordance with a request made by the President at the last annual meeting, held 3rd March, 1903, we have selected the following members to act on the council of the Board and have also struck the standing committees for the ensuing year, thus:—

Council.— Messrs. R. M. Hamilton, V.P., Chairman, D. W. Dumble, T. E. Bradburn, John Carnegie, Hampden Burnham, P. Campbell, R. M. Dennistoun, W. G. Morrow, H. C. Rogers, T. A. S. Hay, W. H. Meldrum, E. G. Patterson, T. F. Matthews, E.A. Peck and R. E. Wood.

Manufacturer's Committee.— Messrs. J. W. Garvin, Chairman, H. C. Rogers, T.A.S. Hay, T. Barrie, B. F. Ackerman, E. J. Toker, C. B. McAllister, E. G. Patterson, R. M. Roy, W. E. Conway.

Mercantile Committee.—Messrs. John Nugent, Chairman, Adam Hall, D. Davidson, S. D. Hall, A. H. Cressman, W. H. Bradburn, E. J. Sutcliffe, R. McWhinnie.

Municipal Committee.—Messrs. M. A. Morrison, Chairman, C. Fessenden, M. L. Henry, Wm. Scott, John Crane, F. H. Dobbin, D. O'Connell, Wm. Rudkins, W. A. Stratton.

Railways and Canals.—Messrs. D. W. Dumble, Chairman, T. E. Bradburn, John Carnegie, R. M. Dennistoun, C. F. McGill, W. H. Jeffs, W. H. Meldrum, D. H. Moore, D. Walker, A. Stevenson, J. H. McClellan, E. A. Peck.

Arbitration Committee.—Messrs. P. Campbell, Chairman, H. LeBrun, E. B. Edwards, A. E. Dixon, E. J. Toker, W. F. Nelson, W. E. Conway, Macfarlane Wilson.

All of which is respectfully submitted.
D. W. DUMBLE,
W. E. BRADBURN,
HAMPDEN BURNHAM.

Peterborough, Ont., March 25, 1903.

A considerable amount of correspondence was taken up and referred to a committee consisting of Messrs. T. E. Bradburn, Peter Campbell and E. A. Peck to deal with and answer if thought desirable.

The President asked if it would be well to lower the membership fee. He had been told that some thought the $2 fee was too high. If a one dollar fee would get more members he would be glad to see such action taken.

Mr. Dumble thought that if they could get as much money at $1 and double the membership he would like to see the fee lowered.

Mr. Arthur Stevenson asked how many members there was on the Board, and was told that there were about 43.

Mr. John Carnegie thought that it would be wise to lower the fee if they could double the membership.

The Secretary said in reply to a question from Mr. T. E. Bradburn, that he had never heard any objection to a $2 fee.

Mr. Adam Hall felt that it was too much to ask the Secretary to go around and endeavouring to get new members, but Mr. Hughes-Charles, the President, thought that the President and Vice-Presidents should not be asked to solicit members. If the right spirit prevailed the citizens would deem it an honour to belong to the Board. In other towns they have to apply for admission.

The matter was finally referred to a committee.

Mr. D. W. Dumble brought up the matter of having Peterborough made a port to which baggage could be shipped to direct from the United States and other foreign countries. The meeting was generally in favour of the move and the following resolution was adopted:

"That the Minister of Customs be requested to make Peterborough a port to which baggage can be checked in bond. The large American summer traffic to the Kawartha Lakes, near Peterborough calls for like facilities being given in this respect to Peterborough that are given to Gravenhurst and Muskoka wharfs, and that the importance of Peterborough calls for this facility being extended to the entire year."

Mr. Toker introduced the matter of the excessive rates of fire insurance on George street in Peterborough in

(Continued on page 8.)

JUDGE WILKINSON DEAD.

He was Found Lifeless in His Bath Room.

(Special to the Examiner.)

Napanee, April 15. — W. H. Wilkinson, county judge, was found dead in the bath room of his residence this morning. Mr. Wilkinson, who had been county judge for about thirty years, appeared to be in his usual health when going into the bath room. It is supposed that death was caused by the shock of the cold water. He was born in Kingston in 1838, and first studied law in the office of the late Sir John A. Macdonald. The deceased leaves a widow but no children.

PETERBOROUGH BOOMING.

It is not an unhealthy boom that Peterborough is enjoying at present, but a good steady substantial growth, backed by the fact that her natural resources place her in a position to offer to manufacturers far in excess of any other town in Canada.

We are also securing a large share of this boom, as our facilities for securing the choicest meats and handling them in the most up-to-date manner are equal to those of any city dealers in Canada.

We have looked forward to this period of good times in Peterborough, and prepared ourselves for the handling of increased business which we are now enjoying.

Remember the CHOICEST EASTER MEATS AT UNCHANGED PRICES.

KENNEDY'S MEAT MARKET,
Phone 275. 340 George street.

MARRIED.

CUMMINGS—HUBBS.—On the 14th of April, 1903, at the residence of the bride's father, by the Rev. J. P. Wilson, B. A., John George Cummings, Provincial Land Surveyor, of East Kooteny, B.C., formerly of Peterborough, to Edith Mary, only daughter of C. E. Hubbs, of Ashburnham.

Foot it Up

See if it pays to buy shoddy shoes. Figure the discomfort, the lack of neat appearance, then ask yourself if would not have been better to buy **The GEO. A. SLATER SHOES for Men and Women.**

J. T. Stenson

George Street, Near Simcoe.

Let the Prices Speak!

They explain why Wall Paper buying is so brisk at the Peterborough Bookstore. What is worth emphasizing is, that in the patterns we quote so low to-day there is a large variety to choose from.

And the stock—in quantity alone, if mere bulk is of interest, we have the largest we have ever shown, and that's saying much:—

Gilt Wall Paper..... .5
Grounded Wall Papers... .4
Grounded Glimmer Wall Paper..... .7 and .8
Heavy Gilt Wall Papers (imported). .10 and .12 1/2
Heavy Embossed American Gilt Wall Papers..... .15
Richer Imported Novelties—Orientals, in Tapestry, Scroll and Burlap .25 to .60

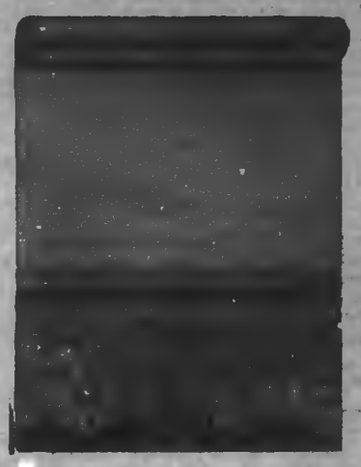
WINDOW SHADES.

Come and test our prices—that's what surprises the visitor.

Strong Window Shades, mounted on improved self-acting fixtures— .25 and .35

Pretty Window Shades, in new designs, completely mounted.. .40 and .60

Elaborate Window Shades, fitted with best spring rollers, etc— .75 and .90



Whoever has walls and ceilings to cover this spring could not possibly do better than visit our Wall Paper Department. Our supply of Window Shades is also worthy of your inspection, and is in keeping with the excellence of our stock in all other departments.

PETERBOROUGH'S HOUSEFURNISHING STORE.

25,000 Yards. 25,000 Yards.

Twenty-Five Thousand Yards Of Floor Coverings

Floor Coverings of all classes, grades and varieties, in larger profusion and greater quantity than ever before.

Wednesday, April 15th,

We open the Spring Campaign in Carpets, Oilcloths, Linoleums, Curtains, and Window Hangings, and in fact everthing that goes to furnish a home.

Never in the Store's history have we had such a vast bulk of Floor Coverings, Window Hangings and Draperies. Never had we such an infinite variety—never have we gone so far to make this a Housefurnisher's Store without parallel. At the same time, do not for one moment imagine that mere bulk has been the object in the gathering of this stock. Come here and see the goods. They will tell a different story to that. Our Carpets and Hangings are exclusive, and the best values ever offered to a PETERBOROUGH CITIZEN.

BASKETBALL.

What proved to be a close as well as an interesting game was that of Ottawa Y.M.C.A. against the local Harriers last night in the Y.M.C.A. gymnasium. The game started about nine o'clock, and was a most friendly one throughout. Peterborough scored first, and hopes were built castles high on a victory. The game at half time stood 8—5 in favour of Peterborough, which was not a sufficient lead to hold the game, as Ottawas are strong to finish. In the second half Ottawa started off with a rush and scored in about two minutes, and by converting a foul the score was a tie. Ottawa scored twice, makin a lead of four. Dobbin scored a clean basket from centre and Campbell converted a foul, leaving Ottawa only one ahead. No more scoring was done until time was called, when score read 12—11 in favour of Ottawa.

Before the game several Ottawa boys gave an exhibition on the flying rings, which was heartily applauded.

The Intermediates at half time, gave an exhibition of German horse work with music accompaniment.

The Ottawa boys were banquetted at the close of the game along with the Harriers, when pleasant reminiscences of the game were reviewed. The Capital City boys left on the midnight after expressing in loud terms, the cordial and friendly treatment they received at the hands of the local Association.

CANOEING.

A meeting of the Trent Valley Canoe Club will be held this evening in the Y.M.C.A. parlours at 8.15 o'clock. As several matters of importance will be brought up a large attendance of members and those wishing to join the club is urgently requested.

SOCIAL AND PERSONAL.

Mr. Bernard Dench has returned to town after visiting friends in Windsor.

Mr. A. W. Wilson yesterday returned from visiting his parents at Barrie.

Mr. L. W. Bain returned to town last night after spending a few days in the city.

Mr. George Thurston and Mr. A. White of town, spent Easter with their parents at Bobcaygeon.

Miss Addie Scott has returned from Toronto, and will be at home to her friends on Monday afternoon.

Miss Ida Kincaid, of Bethany, returned home yesterday after spending a few days with friends in town.

Miss Carney, trained nurse, has returned to town from Norwood, where she has been for the past few weeks.

The marriage took place last night of Miss Marion Best, daughter of Mr. Henry Best, alderman, to Dr. W. H. Manning, dentist.

Miss Armstrong, of Messrs. Robt. Fair & Co., was in Toronto yesterday making further purchases for the millinery department.

Messrs. J. J. Hartley and Jas. Stevenson are in Toronto to-day attending the convention of the Provincial Association of School Trustees.

The many friends in Peterborough of Mr. A. F. Choate, of Warsaw, will be pleased to know that he has recovered from an attack of small-pox.

Mrs. McAllister and Mrs. Sanderson leave to-morrow for Toronto to attend the concerts under the direction of Sir Arthur Mackenzie, in Massey Hall.

Rev. E. Russell of Millbrook, will preach on Sunday in the Murray street Baptist church. He supplied that pulpit very acceptably during the month of August two years ago.

Rev. J. Bastow, left this morning for New York City, and will return next Monday midnight. He will preach at Nepperhan avenue Baptist church, Yonkers, N. Y., where he was earnestly invited to preach on Easter Sunday.

Over 10,000 rolls of the lowest priced Papers in Peterborough—grounded colours, at 4 and 5 cents; golds at 5, 6, 7, 8 and 10c; French stripes, satins and silk effects at 10, 12c and 15c a roll, at Sailsbury's. Also Window Blinds with Hartshorn roller, complete, 23c.

GENERALLY SPEAKING

PLENTIFUL MUD is the consequence of several hours drizzling rain, but the street authorities are taking prompt action in dealing with it. The street scraper is being used to good advantage. But there is a radical defect in dealing with our streets. Take Hunter street for instance. The drainage upon the south side especially, is not only defective but non-existent, between Bethune and Aylmer streets and between Aylmer street and the creek. After a heavy rain little lakes of water several inches deep accumulate and stand for some time till the water settles down undermining the the foundation of the roadway and promoting the cutting of the surface by heavy wheels. Whether as a consequence or a coincidence Hunter street is one of the worst and roughest streets of the business portion of the town—especially bad in the vicinity of the Grand Trunk Railway crossing. Another defect in treatment is exemplified in this street. A depression or hole in the street develops and instead of being immediately treated it is left to grow deeper day by day. Similar conditions arising from neglect, pit the street with holes and the road bed is destroyed. In the old countries they have splendid roads which are secured and kept good simply by making and keeping them good. The roads are carefully watched and the slightest depression is immediately filled with a shovelful or two of broken metal kept convenient. In consequence the roads are kept in perpetual repair and are a perpetual delight to travel on. If the same plan were followed in regard to our streets they would be much better.

* * *

ANOTHER CAUSE of rough streets is the frequent openings for sewer or water services. These are often unavoidable, but care can be taken to see that these openings are properly tamped and filled so that the street is placed "in the same condition it was found." But many of these openings in well-constructed streets could be avoided. In the past we have, at great cost, built a certain line of *street*, and next season it has been ripped up to lay a line of water works or sewer piping. Now that the town has both sewer and water mains under its control the wholesale opening of the streets can be guarded against. If, in the progress of sewer construction or water pipe laying, services are laid to the street line of lots, the breaking up of the streets, when subsequent connection comes to be made, will be avoided. If this plan is not practicable in regard to water mains, it certainly is in regard to sewers. The initial cost will be greater, but it will be true economy in the end. After constructing a good stretch of street it will not be destroyed by excavating for connections.

* * *

THE STREET LIGHTING question does not seem to be of easy solution. The situation was fairly reflected by Mayor Roger's remarks at the Board of Trade meeting last night. He pointed out that the council was embarrassed owing to the contingent questions the two propositions involved, and the desire of the council to be fair to both tenders and the town. The idea of making a thorough investigation before coming to a decision, is commendable. The desire of the council to arrive at what it will cost the town to furnish its own light, so as to fix a basis upon which to estimate the relative value of the tenders made, seems to be good business.

* * *

THE GOOD NAME of the town is a most important matter. Its good name would doubtless be enhanced by the possession of a well conducted street railway, as well as by a good sanitary system, and beautiful streets, parks and general surroundings. Peterborough has a good name already for business enterprise, and all this sort of thing, as well as a good name for hospitality. This applies especially to visiting competitors in sports. Whether in curling, cricket, hockey, Rugby, lacrosse, basketball or other games, visiting teams are always royally treated, and honourable competition is set up by teams. Toronto has an undesirable notoriety for breaking sporting engagements. Time after time, arrangements made by Toronto teams with Peterborough, have been broken, without notice or apology, and visiting teams to that city are not always well treated. This spirit seems to be confined to no particular sport. The spirit of what Hamilton calls Hogtown, comes to the surface — the trail of the serpent is over them all. For instance, the visit of the local Y.M.C.A. basketball team to Toronto on Easter Monday—the visitors were hooted and hustled, and actually stoned by hoodlums — unconnected with the Y.M.C.A., however —when they were leaving the place where the game was played. When the West-End team at New Year's came to Peterborough, they were treated with the greatest kindness, both before and after the game, having been banqueted in a very handsome manner. The same kind treatment was given to the Ottawa basket ball team which defeated the locals last night. A delightful hour was spent in a banquet put up by the local boys at Long's palm parlour. That's the way Peterborough always treats its visiting guests.

NEWS NUGGETS.

—There will be no service at St. Luke's to-night.

—The Charlotte street church choir will rehearse to-night.

—The discourse given last night in St. Andrew's Sunday School was indeed a star lecture.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 190.

—All Saint's choir will practice this evening at 7.45 o'clock sharp. A large attendance is urgently requested.

—The formal spring opening of Mr. A. W. Cressman's clothing department, which has been re-modelled, enlarged and re-stocked, will take place on Thursday evening next. There will be an orchestra in attendance.

AN ENTERTAINMENT

Was Given Last Night by the Murray Street Mission Band.

The Murray street Baptist Mission Band gave a most excellent entertainment last night in the Sunday school room of their church, there being a large number of persons present. Mrs. Bastow very gracefully presided over the meeting.

The programme was divided into two parts, and home made candies were servved during the intermission.

The programme was as follows:

PART I.

Opening Hymn.....
Chorus, "The First Easter".....
Members of the Band
Recitation.....Hattie Lee
Song, "Pussy Willow"...Primary Class
Address.....Miss Annie Walton
Song, "If I were a Sunbeam".....
Miss E. Miller
Chairman's remarks.....

PART II.

Missionary exercises.....
Members of the Band
Recitation.....Francis Routley
Mother Goose.....Tiny Tots
Recitation.....Miss Olive Yelland
Song, "Easter Lilies"...Primary Class
Recitation, "Two Pictures".....
Miss Annie Whelem
Recitation.....Miss Dolly Jones
Recitation.....Miss Gladys Yelland
Song, "Easter Lessons".....
Members of the Band

At the conclusion the members of the Band presented Mrs. J. K. Martin, their president, with a certificate of life membership for foreign missions, and indeed so successful was the entertainment that enough money was raised to present Miss Ella Cochrane with a life membership certificate for home missions.

The programme was an excellent one, and the evening was most enjoyable.

T. A. S. HOCKEY BOYS WERE ENTERTAINED

By Mr. W. J. Overend Last Night—A Pleasant Evening.

Mr. W. J. Overend, last night, very hospitably entertained the T. A. S. Hockey team, champions of the Trent Valley League for the season 1903. There were present only the members of the champion team and two or three specially invited guests. The boys partook of a sumptuous dinner after which a few short speeches were made and songs were rendered. The boys all spoke enthusiastically of the kindness of Mr. Overend towards them and the interest he had shown in the team during the past season. The tables were handsomely decorated with the Club colours and a neat little menu card will serve as apleasant remembrance of a highly onjoyable evening.

The Fraser Mission Band of St. Paul's Church, will present the 'Story of Kardoo," a service of song, on Thursday evening, April 16th, at 8 o'clock, in the Sabbath School Room of the church. Tickets 15c.

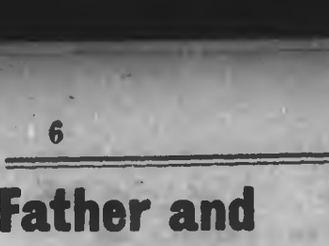
Father and Daughter

OURED BY

Munyon's Rheumatism Cure.

Charles Harradine, Esq., and His Daughter Florence Completely Cured of Painful Rheumatism.

The People Are Impressed With the Wonderful Power of This Remedy to Cure Rheumatism—It Demonstrates Its Value Quickly and Cures to Stay Cured



"To relieve suffering and scatter health is my greatest happiness."—MUNYON.

I do not care at what stage of the disease your rheumatism may be—if it is far advanced and chronic, or if it is only a few months' standing, my Rheumatic Specific will cure it quickly and for all time. It neutralizes the acid in the blood, eradicates the poison from the system, and cures the malady permanently. The interest that has been taken in my Rheumatism Cure by the people of Canada is solely and entirely due to the fact that it cures rheumatism. If it were otherwise, I would expect the sale of my remedies to be prohibited by law."—Munyon.

WHAT THE FATHER SAYS.

"I have had rheumatism in my hand and arm for several years, and suffered great pain. At times my hand would get quite numb, and I would have no feeling in it. Then it would stiffen up and I could not shut it. After I had taken Munyon's Rheumatism Cure a short time I noticed great improvement. I am now completely cured, and have no more rheumatic pains." Mr. Charles Harradine, 288 Parliament street, Toronto, Dec. 22nd, 1902.

WHAT THE DAUGHTER SAYS.

"I have had Rheumatism of a severe form in my knee. I could not bend it at times, and I suffered great pain. Munyon's Rheumatism Cure has cured me, and I am now entirely well." Miss Florence Harradine, 288 Parliament street Toronto, Dec. 22nd, 1902.

MUNYON'S REMEDIES.

Munyon's Cold Cure prevents pneumonia, and breaks up a cold in a few hours. Price 25c.

Munyon's Rheumatism Cure cures Rheumatism permanently. Price 25c; at all druggists.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cough Cure stops coughs, night sweats, allays soreness and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins or groin and all forms of kidney disease. Price 25c.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Female Remedies are a boon to all women.

Munyon's Vitalizer restores lost power to weak men. Price $1.

FREE MEDICAL ADVICE.

Personal letters addressed to Prof. Munyon, Philadelphia, U.S.A., containing details of sickness, will be answered promptly and free advice as to treatment will be given. YD

GAMEY'S RECOLLECTION DECIDEDLY INDISTINCT.

Continued from third page.

ones, aggregating $5,700. He regarded all the items as deserving. The only reply he got from Mr. Latchford was that the list was pretty large, and that some of the items should be eliminated.

After a Timber License.

He applied for and secured 152 acres for mining in the township of McGregor, and paid for it. There was no intention there of entrapping anyone. It could have been secured by anyone else in the same way. Another application for timber lands went through in the regular way.

The first man in Toronto, aside from the Sullivans, whom he told about this scheme was J. M. Might, of Toronto, the latter part of August. The first member of the House was Mr. Smythe on Jan. 7. He never told other members until he spoke in the House. He showed the $1,500 to Mr. Crossin, after its receipt, but did not tell him the story, and thought he did not tell anyone else of Toronto except Mr. Might.

Dissatisfaction With Whitney.

Mr. Gamey declared that he ran last May as a straight Conservative candidate, and had never, prior to August 7, when negotiations opened, stated that he would support the Ross Government.

Q.—And you will not swear that you never told anybody that you intended to give the Ross Government an independent support; that Whitney you had no use for; that Ross's policy was the right policy, and Whitney did not understand his position; that you never said it before the seventh of August? A.—Yes, I will swear I never said it prior to the 7th of August.

Q.—No matter how many swear that you did? A.—I might have found fault with Whitney and given some praise to Ross, but I never said I would support the Ross Government before the 7th of August.

Q.—Did you say to people at the Walker House during the Exhibition week, men that you had never seen in your life before, volunteer the information and give them the information that you intended to support the Liberal Government and that you had no use for Whitney? A.—No, sir, I did not; people that I had never seen before I did not.

Q.—People that you had not seen until that occasion? A.—I might have expressed dissatisfaction with Mr. Whitney, but I did not tell them I was going to support the Ross Government.

Spoiling His Career.

Witness admitted having discussed the matter with Dr. Struthers at the Walker House during the second week of the Exhibition, and the latter, though a Liberal, tried to dissuade him from spoiling his career by becoming a turncoat. Struthers was an old friend and had twigged it that something was afoot by seeing him around with the Sullivans. He had always, he alleged, spoken highly of Ross as a Liberal.

He also admitted having discussed the establishment of a custom smelting company, with Mr. Conmee, M.P.P., in June last. He denied, however, that he had promised to support the Government if one were established. What he had said was, that he was in favor of any step for the development of New Ontario. He discussed a customs smelter at Sudbury with Mr. Conmee in August, and said that Mr. Whitney did not have the grasp of the mining question he should have. He never said during his campaign that he would support the Government.

He denied that he had spoken to Mr. G. F. Marter in June last about giving the Government an independent support. What had happened was this. Mr. Marter had come to him in January, after the bye-elections in the three Norths, and had said, "Mr. Gamey, you ought to support the Government," and seemed anxious that he should do so.

He admitted saying, in effect, to Mr. Sims at Gore Bay, on Feb. 27, that those who were kicking about his conduct knew very well during the campaign that if the Ross Government were returned he would have to support it to get justice for Manitoulin. But up to August 7th he never told anyone that he would support the Government. On Feb. 27 the circumstances were very different.

Contradictory Statements.

Regarding the conversation with Capt. Sullivan at Allandale, Mr. Johnston brought out three apparently contradictory statements. In the House Mr. Gamey in his statement said that Capt. Sullivan recommended him to resign. In the direct examination he told Mr. Blake that Capt. Sullivan did not recommend any course. In cross-examination to Mr. Johnston he did not remember whether the Captain recommended any course or not, but said that the lawyer was trying to put words into his mouth. The first talk of money he said was on August 7, outside of the Walker House, and Frank Sullivan offered to get him $5,000 for which he was not asking. He did not repudiate the offer. He did not get angry.

At this point the court adjourned for luncheon.

THE AFTERNOON SESSION.

Mr. Gamey's Statement Regarding R. A. Grant, Considered.

At the afternoon session Mr. Johnston took up Mr. Gamey's statement that he met Mr. R. A. Grant in Captain Sullivan's room at the Walker House to discuss the "stock proposition." The witness refused to swear exactly as to time. To the best of his recollection the meeting occurred on Tuesday, August 12. The interview was very brief. Witness testified to many meetings with the Sullivans. He saw them nearly every time he came to Toronto, and the deal was discussed.

Q.—During all this period you never resented at all?

A.—No!

The McGregor Island deal he testified came up at the latter end of August. He would not swear just when the arrangement that Frank Sullivan was to get half of the payment of money. This was part of the general deal, embracing the timber and other transactions, and they were to go shares on everything. He could not swear on what day this agreement was reached.

"At that time you had no evidence in writing except Jones' letters?"

"There had been an agreement drawn up on the twenty-sixth. The agreement to go shares was reached later."

Gamey swore that he had been convinced that Frank Sullivan was acting for the Government, and the only reason he had for thinking that Stratton was the Minister in charge of it was what Capt. Sullivan told him. The latter said he had gone to Mr. Gibson first and that the latter turned him over to Stratton.

"Wrote it Wrong."

In the House Gamey stated that on August 12, after Grant left the room, the agreement to share was made. The witness corrected this statement to-day by declaring that he "wrote it wrong." The agreement made that day was to go shares as to the timber on McGregor Island, which afterwards fell through.

Witness would not swear positively when the draft agreements were destroyed. These were destroyed because he was satisfied that they had been shown to some member of the Government and had served their purpose.

"You had the only incriminating evidence against Frank Sullivan in your possession?"

"Yes."

"And yet you destroyed it?"

"I did so to retain their confidence."

Q.—You destroyed the evidence before you got a cent of money?

A.—Yes, it was the only way to retain the confidence of the Sullivans, and without them there would have been no money paid.

Q.—You made no objection to destroying it?

A.—Not that I recollect.

Detective For Conservative Party.

Q.—You were the detective of the Conservative party, and yet you destroyed the only evidence?

A.—I hadn't anything from the Cabinet.

Q.—You didn't photograph or copy the agreement?

A.—I expected to have it longer and to make a copy of it. I did not expect to be asked to destroy it so soon.

He saw Frank Sullivan nearly every day after the destruction of the agreements. The next thing to be done was to get the money from the Government. It was between the 7th and 10th of August that the arrangement to get the $5,000 through an alleged timber deal was arranged. About the end of the month the timber deal was dropped as impracticable.

The color of the envelope Mr. Stratton took out of his pocket on the 11th of September was white, and it was about ten inches long. Mr. Stratton said everything was arranged and to go down to the smoking-room. He believed, from what had taken place, that there was money in the envelope. He was not positive that Frank Sullivan was in the room at the time, but he was near at hand. He was possibly in the corridor or he might have stepped into the ante-room.

Mr. Johnston said he would not take that answer. He would have something positive. "Was Frank Sullivan in the room?" Witness replied: "I don't know; I believe he was or in the corridor."

The money, Gamey explained, was taken by Mr. Stratton out of his inside breast pocket, and in taking it out, Mr. Stratton said he was sorry to keep witness waiting so long. He was standing up at the time.

Myers or Chase?

He didn't see the man plain enough to distinguish him. He was looking out of the window as he came in. If he had been asked at the time who the man was, he would have said it was Mr. Meyers himself. To the Court he said he knew Mr. Meyers to see him. He would not say that he ever knew Chase, whom, he stated at first, had come into the room with the parcel. He had made the statement in the first place that it was Chase, because Frank Sullivan told him it was Chase. He thought all along it was Meyers who brought the parcel to the room. He could give no reason why Stratton did not give him the room alone. Stratton could have money in his room, while in his done so, if he wanted.

Q.—But instead of that he sends it through two or three different hands? A.—Some one's hand anyway.

Q.—Perhaps two? A.—Yes.

Q.—With Frank Sullivan present? A.—Yes.

Q.—Sends it to a room at the other end of the building practically? A.—Yes.

Q.—Goes through all this publicity when he could have handed you the parcel direct in the room if he had wanted to? A.—If he had wanted to, so far as I know he could have done so.

Q.—It struck you it was a pretty easy mark at that time? A.—It didn't strike me.

Q.—You were looking for evidence; you were playing the spy upon the Government—the detective? A.—Yes.

Betrayer of Men.

Q.—You were betraying the men you were professing to be friendly to? A.—Yes.

Q.—Of the villain? A.—Yes.

Q.—And you are proud of it? A.—So you say.

Q.—Are you proud of it? A.—I don't know.

Q.—Are you not proud of it? A.—I am not telling you whether I am or not.

Q.—I ask you are your proud of it? A.—I refuse to answer.

Q.—Quite right. A.—It is none of your business whether I am proud of it.

Q.—And the lieing and deception that you used towards Mr. Stratton you feel justified in having adopted? A.—We are not trying my justification just now, we will let the country try that. You are not trying to justify me at all.

Q.—Did you feel that you were justified in that course of lieing, deception and trickery? A.—I am leaving my case in the country's hands.

Q.—You refuse to answer that? A. I am telling you I am leaving that to the country to justify or condemn; you have nothing to do with it.

Mr. Johnston—I happen to be one of the country, that is all.

Mr. Blake—A very small part.

Mr. Johnston—Not as big, of course, as my learned friend.

Thought He Recognized Him.

At this juncture, Mr. Myers, who occupied a seat in the corner of the room, was asked to stand up for identification. The witness said he thought he recognized him as the man who brought the parcel to him and Frank Sullivan.

Witness next drew a plan of the entrance to the room, and where he was standing at the time.

Having got the money, he left the building, went for his dinner, went to Eaton's, and in the evening went to the theatre. The next he saw of Frank Sullivan was on October 3 or 4. Nothing took place then about money matters; he had wired him and had met him in regard to his election petition simply. Around October 20 he was in Toronto two or three days, and saw Stratton about the rumors of him going to support the Government.

Mr. Gamey said he went up to see Mr. Stratton on his own account on the 22nd or 23rd of October, on which occasion Mr. Myers took him downstairs to the ground floor in the west end of the building, so as to be away from Stratton's office. Mr. Myers could say just what room it was.

"Mr. Myers can't tell me what room it was. That is just the difficulty," said Mr. Johnston.

He was in the room alone, except when talking to Mr. Stratton, who came in saying he had a message from the Premier that it was better not to publish anything at that time.

On the 4th of November he wrote, trying to borrow $2,000, as stated in the letter, his intention being to get whatever evidence against the Government he could. He did not know what he would have done if the money had been sent him with notes repayable after the session.

The Judas Act.

"You were willing to take the thirty pieces of silver wherever you could get it?" inquired counsel.

"The evidence, whether it was silver or not," said the witness.

"And were willing to take the Judas money and spend it in your business?"

"Yes, and willing to put it up when necessary."

Continuing with regard to the letter asking a loan of $2,000, witness testified that it was concocted as part of the scheme.

Q.—You were willing to lie to entrap a man into a crime?

A.—The country will justify me.

The Chancellor—The witness has stated his position several times.

Mr. Gamey further said that he would have acted in accordance with Mr. Stratton's reply, if he had received one. As he did not get one he could not say what he would have done.

Mr. Johnston apparently laid the foundation for future evidence by asking Mr. Gamey to say on oath whether during his interview of January 18th with Mr. Stratton two men were not present throughout. Gamey said Myers was in and out several times, and Dr. Chamberlain came in once for a moment or two, but unless they were hidden, no one was present throughout the interview.

Could Not Recognize Either.

Mr. Johnston—Is Mr. Chase here?

Mr. Charles H. Chase came forward, and stood near the witness box. Mr. Elgin C. Myers was also asked to stand up.

Mr. Johnston—Which of these two gentlemen did you see in the smoking room? A.—I do not recognize either of the men.

The Chancellor—You cannot tell whether either of these two men brought that parcel in? It may have been some other man? A.—I simply say Sullivan told me it was Chase. My recollection is that it was Mr. Myers. These men know themselves which brought it in.

Mr. Johnston—They say it is false, if you want to know what they say. This closed the day's session.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Dr. WOOD'S NORWAY PINE SYRUP

Cures COUGHS, COLDS, BRONCHITIS HOARSENESS and all THROAT AND LUNG TROUBLES. Miss Florence I. Mailman, New Germany, N.S., writes:—I had a cold which left me with a very bad cough. I was afraid I was going into consumption. I was advised to try DR. WOOD'S NORWAY PINE SYRUP. I had little faith in it, but before I had taken one bottle I began to feel better, and after the second I felt as well as ever. My cough has completely disappeared.

PORT OF SPAIN.

Why Canada Has an Interest in the Recent Rising.

Three years ago the Government at Ottawa negotiated a little commercial treaty with the Government of the Island of Trinidad, southernmost of the British West Indies. From the island there came to Canada two members of the Legislature, Messrs. Fenwick and McCarthy, the latter gentleman Commissioner of Customs. The treaty was never ratified by the Government of the island, fear of United States reprisals impelling the Administration to drop the instrument, but, as a result of the visit of the two envoys, and the earnest work of Mr. Edgar Tripp, the Canadian commercial representative at Port of Spain, the Capital of Trinidad, our trade with the island has greatly increased.

Recently the cable told us that there has been a serious rising in Port of Spain, the people having rebelled against a new system of water taxes. The police fired on the mob, killing several.

Messrs. Fenwick and McCarthy, when in Ottawa, had plenty of interesting information to give about the population of the island. Only twenty per cent. are whites, the majority of the remainder being negroes and half castes.

The negroes are descended from a particularly blood-thirsty and lazy African tribe, some thousands of whose members were brought to America two hundred years ago. They were found to be useless as slaves, and when emancipation came, and they were given their plantations on the island, they became the terror of the whites. In the towns they are kept under by police, but in the districts inhabited solely by themselves, according to Mr. Fenwick, it is dangerous for a white man to travel without escort. They will not work and all the labor on the cocoa and coffee plantations and in the orange groves is performed by East Indians, who are thoroughly tractable and industrious.

Doubtless the rioters referred to in the cablegram were some of Mr. Fenwick's friends, the negroes. He told of valuable estates that had been abandoned because of the constant danger from the blacks. As they number about eighty thousand, they cannot be put down by force, and the best the whites can hope for is that the negroes will keep to their own part of the island.

Commoners Phrenologically.

A phrenologist after a visit to the galleries of the House of Commons at Ottawa, would go away a wiser man—perhaps a sadder. He would look down on all sorts and conditions of heads—shiny bald pates, bald pates not shiny; hair of all shades and shady hair. Of the latter class there is only one sample. It is adjustable and is intended to conceal the bald truth from phrenologists in the galleries and elsewhere. It is supplied at a price to those who consider the galleries in life, and to those who are susceptible to colds.

There are little heads and big heads, thin heads and fat heads. Some depressed and others swollen. On some the bumps are plainly marked. These bumps indicate a political career. The Redistribution Bill will bring more bumps, says The Toronto Telegram's correspondent. There are heads on which the hair is parted with precision, others on which the hair is parted with axes. Some heads have hair which is not parted. These heads indicate political independence.

The view of some of the heads in the House is obscured by hats. There is a tall, glossy silk hat, which conceals the attic of the Minister of Marine and Fisheries, by far the leading hat in the House. Men have wondered whether this hat is ever deposed.

Also there is a round soft brown irregular hat, hailing from Guysboro. This hat is the poor relation to another brown hat, not quite so brown and less irregular, which appears on Sundays. The Guysboro' hat and the Gainsborough hat have nothing in common, except that the Gainsborough hat has no particular shape.

Farrar's Canadian Schoolmate.

Dr. George Murray, of Montreal, the Oxford scholar, poet, and writer for the press, was a college mate and friend of the late Dean Farrar. Farrar, Sir Edwin Arnold and Murray were at King's College, London, together, and competed for the senior classical scholarship. Dr. Murray says: "It is the custom to post the results of these examinations in King's College Hall. I remember that I was so nervous that I decided to funk it and remained at home instead of going down to see who the winner was. I said to my mother, 'I don't think that I shall go down.' While waiting in the house I noticed my friend Farrar coming along with a jaunty step and with a smile of pleasure upon his face. I rushed to the door and said, 'Am I to congratulate you, Farrar?' 'No,' returned my friend, 'I am come to congratulate you.' This incident shows the modesty and the genuine friendship which characterized the late Dean during the whole of his lifetime."

Niagara's Mighty Power.

According to a computation by Mr. Gradewitz, of Frankfort, Germany and Austria together utilize at present 180,000 horse power; Switzerland, about 160,000; Sweden, 200,000, and the United States, 400,000. The total water power available for Sweden is estimated at 2,000,000 horse power, for France at 10,000,000, and the same amount for the mountainous parts of Germany, Austria, Switzerland and Italy. In the United States the Niagara Falls alone could furnish 10,000,000 horse power. The cities of Bozen and Meran, in the valley of the River Etsch, are supplied with power from this river, which costs less than $5 for each horse power, per year; the greatest transmission distance is about nineteen miles. In Germany 400,000 electric motors are at present in use.

Neuralgia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead, and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered Kidneys. The cure is likewise the same—

"He Won't Die

Of consumption" is a remark often made of a fleshy man. The remark expresses the popular recognition of the fact that the sign of consumption is emaciation, loss of flesh. On the other hand, a gain in flesh is a sure sign that wasting diseases are being cured.

Emaciated people with obstinate coughs, bleeding lungs, night-sweats and weakness, have been perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. The several steps of the cure were recorded in ounces and pounds of increasing weight. When there is gain in flesh the wasting disease is being surely cured.

Mr. Will H. Whitmore, of Arkton, Rockingham Co., Va., writes: "Our son contracted a deep cold about the first of July, 1899, and had a terrible cough. We called a doctor and he pronounced it irritation of the bronchial tubes, with asthmatic trouble, and he informed me that my son was liable to die at any time. He told me that if we could keep the bronchial tubes open he might save him; but after treating him several weeks and my son growing worse all the time, I concluded to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I had seen several almost miraculous cures brought about by the use of these medicines, and of course I had wonderful faith in them. He used three bottles of 'Golden Medical Discovery' at home and one vial of the 'Pellets,' and was then well enough to go to West Virginia, taking a supply with him. I am just in receipt of a letter from him from which I quote: 'I am well and hardy and getting very fleshy.'"

The Common Sense Medical Adviser, 1008 large pages is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 50 one-cent stamps for the cloth-bound volume or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

Felt Weak and Nervous.

COULD SCARCELY EAT.

TWO BOXES OF

MILBURN'S HEART and NERVE PILLS

Cured Mrs. Edmond Brown, Inwood, Ont., when she had almost given up hope of ever getting well again.

She writes: "I was so run down that I was not able to do my work, was short of breath, had a sour stomach every night and could scarcely eat. My heart palpitated, I had faint and dizzy spells and felt weak and nervous all the time. My husband got me a box of Milburn's Heart and Nerve Pills but I told him it was no use, that I had given up hope of ever being cured. He however persuaded me to take them and before I had used half the box I began to feel better. Two boxes made a new woman of me and I have been well and have been able to do my work ever since."

Milburn's Heart and Nerve Pills are 50 cts. box, or 3 for $1.25, all dealers or

THE REMNANT LEFT.

Seven Members of the Parliament of Canada, 1858, Yet Living.

A correspondent writes in The Toronto Globe: During the latter part of December, 1857, and January, 1858, a general election of members for the Parliament of Canada, then embracing Canada east and Canada west (Quebec and Ontario), was held, and was of more than usual interest owing to the demand for representation by population and other measures advocated by the Reform party under the leadership of Mr. Geo. Brown. There were sixty-five members from Canada east and an equal number from Canada west, the representatives of the latter being, at the termination of the polling, which then lasted during a period of about three weeks, 38 Reformers and 27 Conservatives, Mr. Brown, however, being elected in two constituencies—Toronto and North Oxford—but eventually resigning the latter constituency, Mr. William Macdougall being elected in his stead in May, 1858.

In Canada east the Conservatives were largely in the majority, and their votes, added to their allies in the western Province, gave the existing Macdonald-Cartier Government a substantial majority. Parliament met in Toronto in February, 1858, and of the 65 members from Canada west who were then summoned to meet in deliberation 63, I think, were in attendance, Dr. Church of North Leeds and Grenville having died meanwhile, and North Oxford being without a representative until the following May. Mr. O. R. Gowan was subsequently chosen to succeed Dr. Church. Of the 63 members alluded to I believe only seven are now living, they and their then constituencies being as follows: Peel, J. C. Aikins; London, John Carling; West York, W. P. Howland; North Oxford, Wm. Macdougall; South Ontario, Oliver Mowat; Ottawa, R. W. Scott; South Wellington, D. Stirton.

Of these seven, two were supporters of the Macdonald-Cartier Government and five were opponents. I have written the foregoing purely from memory, but have no doubt that the facts I have stated are correct, and I allude to them solely as interesting reminiscences.

Climate of the Klondike.

Speaking of the climate of the Klondike, Mr. Stupart, director of the Canadian Meteorological Service, recently said: "The average annual mean temperature is about 22 degrees; the mean of the three summer months is about 57 degrees, July being 61 degrees; and the three winter months 16 degrees below zero, with January 23 degrees below. Spring may be said to be open towards the end of April, the last zero temperature of the winter usually occurring about the 5th of this month. May, with an average temperature of 44 degrees, is by no means an unpleasant month, and the 23rd is the average date of the last frost of spring.

Daily observations during five summers indicate that on the average the temperature rises to 70 degrees or higher on 46 days and to 80 degrees or higher on 14 days; 90 degrees was recorded in Dawson in June, 1899, and 95 degrees in July of the same year.

These temperatures with much bright sunshine and an absence of frost during three months, together with the long days of a latitude within a few degrees of the Arctic circle, amply account for the success so far achieved by market gardeners near Dawson in growing a large variety of garden produce, including lettuce, radishes, cabbages, cauliflower, potatoes, and warrant the belief that the hardier cereals might possibly be a successful crop both in parts of the Yukon Territory and in the far Northern districts of the Mackenzie Basin.

CAPTIVE IN LONDON TOWN.

There comes a ghostly space
'Twixt midnight and the dawn,
When from the heart of London Town
The tides of life are drawn.

What time, when spring is due,
The captives dungeoned deep,
Beneath the stones of London Town
Grow troubled in their sleep.

And wake—mint, mallow, dock,
Brambles in bondage sore,
And grasses shut in London Town
A thousand years and more.

Yet, though beneath the stones
They starve, and overhead
The countless feet pace London Town
Of men who hold them dead.

Like Samson, blind and scorned,
In pain their time they bide.
To seize the roots of London Town
And tumble down its pride.

Now well by proof and sign,
By men unheard, unseen,
They know that far from London Town
The woods once more are green.

But theirs is still to wait,
Deaf to the myriad hum,
Beneath the stones of London Town
A spring that needs must come.
—W. G. Cole, in The Spectator.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 30

New Anecdote of Scott.

A new anecdote of Scott comes from The London Morning Post. It was first told by a Scotchman, now long dead.

When a boy he was one day watching some building operations, probably near Abbotsford, when a lame man, bareheaded and with a pen behind his ear, came up. Taking hold of a pail, the lame man turned it over quickly and asked the workmen what he was doing with it. "Whamblin it ower," one of them replied. "Thank you, thank you, my man; that's the very word I've been trying to get all morning!" cried Sir Walter, gratefully, and straightway returned to his desk. "It was the teller of this story," says The London Morning Post, "who, when some years younger, saw in a shop window as he was going to school the new romance of 'Waverley' lying open at the first page. The schoolboy stopped to read it through the glass, and his eager absorption so took the fancy of the bookseller that each day as he passed the pages were turned for him in the shop, and he was thus enabled to read the whole story without touching a leaf of the book."

Who Skated First.

It is very doubtful which race first skated, for traces have been found among prehistoric remains all over northern Europe indicating that the art was practiced by primitive peoples. The Eskimos of the farthest north are also found to be in possession of runners carved from whalebone.

Skating is mentioned by a Danish historian about 1134, and Fitzstephen, in his "History of London," says that in the twelfth century young men fastened the leg bones of animals under their feet by means of thongs in order to slide along the ice. This statement is confirmed by the pair of bone skates of the period now in the British museum. It is likely, however, that these early Londoners got the idea from Holland, probably via Lincolnshire, where skates have been used on the frozen fens from very remote times.

A Good Reason.

She (angrily)—I believe you think more of that nasty old pipe than you do of me, your wife. He (mildly)—Well, my dear, I can keep my pipe from going out.—Melbourne Weekly Times.

A Dear Kiss.

For snatching a kiss in the street from a nursemaid, a young man of Cork has been sent to prison for three months.

DISCUSSED IMPORTANT MATTERS.

(Continued From .. Page.)

view of the very large increase in the earnings of the companies during the past year. The insurance rates had been raised in Peterborough 50 and 60 per cent. in one jump.

Mr. D. W. Dumble supported Mr. Toker's contention.

Mr. Wm. Might thought that the losses to the companies this year in Peterborough would be much greater than last year's losses. The only way for property holders to get over the matter is by patronizing the cheaper companies.

Mr. W. H. Robertson contended that the Board could do nothing to make the insurance companies come down in their rates. The only way to get over the matter was to organize an independent company.

Mr. Adam Hall thought that if Peterborough would maintain a paid fire brigade they could have their class raised.

The matter was finally brought to a head by Mr. Dumble moving, seconded by Mr. John Carnegie, that Messrs. W. H. Meldrum, T. F. Matthews, Robert Fair and E. J. Toker be a committee to look into the matter and report at the next meeting of the Board.

STREET RAILWAY MATTER.

The matter of the street railway was introduced by the following resolution, which was read by the clerk, and which was passed at the regular meeting of Labour Union No. 9240, Outside Workers, held on April 10:

"Resolved,—That the members of Federal Union, No. 9240, Outside Workers, are favourably impressed with the proposition submitted by the Cereal Company for the contract of street lighting and the taking over of the dormant street railway, and strongly recommend the acceptance of the same by the council, as calculated to promote the present and future welfare of the town.

"JOHN McCANN,
"President.

"WM. HENRY,
"Secretary."

Mr. Hughes-Charles said that the meeting was now open for the discussion of the above resolution. He expressed himself as strongly in favour of the operation of the railway, provided the line is extended to outside points.

MR. D. W. DUMBLE SPEAKS.

Mr. D. W. Dumble said that he did not wonder at the council not dealing with the matter off-handed, as it was something that required careful investigation. If they were dealing with the street lighting alone apart from the street railway, the question would be what would, he said, give us the cheapest light that will save us the most money providing, of course the light was equally good. Mr. Dumble then went on to speak of the difference in the quality of the two lights. He did not know which was the better. Speaking as to the resurrection of the street railway, Mr. Dumble said he was strongly in favour of the operation of the line. The railway would be an accommodation to the people, and particularly to those living on the outskirts of the town. It would also be of benefit to the central property in the town. From what he could learn in conversation with people, it was generally felt that the street railway was wanted as an accommodation, but as to whether it would pay or not is a money question to be dealt with later on. At the present time, dealing with the subject in the abstract, he thought that the railway was desirable. He did not look upon the street railway franchise as of any particular value, and in view of the belief that they would take the road he thought that the town might pay something to Messrs. Cox and Stuart to operate it for them. He was not in favour, however, of paying $60 per lamp; that was too much. If they would name a smaller figure, a figure that would be equal to $1000 a year, he would be in favour of giving the contract to them. It is the difference between the two tenders that they want to arrive at, and then they would know what the Cereal Company is asking. He thought that it was a matter that the council should work out and he did not feel that the Board should adopt any resolution in regard to the matter, as they did not know enough as to the details. All they could do was to encourage.

MR. R. E. WOOD.

The next speaker was Mr. R. E. Wood, who began by saying that he did not think the Board was in a position to advise the Council one way or the other in the matter. He favoured getting an expert to assist them in coming to a conclusion in the matter. He had been told that the actual cost of maintaining an arc light, even without the power, was $40 per year. The cost of power per light if placed at $10 per horse power would mean $50 for each light. He had the opinions of some people who ought to be in a position to know whereof they spoke, and if a lamp could not be maintained for less than $50 a year, and the Cereal Company were asking $60 per year per lamp, it meant a bonus to the company for the resurrection of the road of between $6,000 and $7,000. He would gladly pay his extra share towards the maintenance of the road, as he felt that it would be a benefit to all who resided some distance from the centre of the town. He contended, however, that the employment of an expert would be the best way to solve the question.

MR. W. H. MELDRUM.

Mr. W. H. Meldrum held that the whole question before the people was as to how much we are willing to pay for the resurrection of the street railway. From what he had learned from conversations with the citizens of the town it was thought that a 13-year franchise was long enough to give to any company. He reiterated his opposition to giving such a bonus to the street railway as was asked for. He thought it would be much better to give the money towards bringing more manufacturing institutions to town, so that with a larger place the railway would be a paying investment for any company to undertake without a bonus. It was not Senator Cox and Mr. Stuart who would be required to pay the taxes; it was the citizens. Mr. Meldrum once more contended that the two matters should be separated. They should not lead the people to believe that they were paying a certain price for their lighting when in reality they were paying for a street railway. Concerning the difference in the quality of the two lights—that which the Peterborough Light and Power Company were supplying them and that which the Otonabee Power Company would give them, the speaker said that the City of Hamilton had just discarded four hundred of their old lights for the new ones. The City of Detroit was doing the same. Mr. Meldrum intimated that the American Cereal Company placed their order for certain machinery they required with an American firm, when they could have got the same machinery here, and for that reason no special consideration should be shown them although it had been argued by some that special consideration should be extended to them. They had a right, however, to buy their machinery wherever they saw fit.

Mr. D. W. Dumble did not think that the Cereal Company got anything from outside of Peterborough that it was possible to obtain here, all things being equal.

Mr. Vincent Eastwood held that three-quarters of the people of the town wanted the street railway. Regarding Mr. Stuart's interest in Peterborough, Mr. Eastwood said that the American Cereal Company as far as he knew, and from his own personal dealings with them, purchased everything they could in Peterborough, and often did so at a slight disadvantage to themselves.

Alderman Morrison explained that the Council at the present time was engaged in getting whatever information they could. Speaking as to Mr. Wood's suggestion as to an expert, the alderman stated that experts differed very much in their opinions. He and Mayor Roger had paid a visit to Toronto recently for the purpose of obtaining information as to the qualities of the two lights and they had seen the light such as the Otonabee Power Company offer them, at Toronto Junction, and had compared it with the light such as we are using now in Peterborough, and which is in use in Toronto. The light at Toronto Junction is a soft light, but they are only 100 yards apart, while in Toronto the lights are 125 yards apart. Therefore it might require more lights of the new kind. Toronto is sticking to the old light and it is said that it costs more to operate them than it does the new light.

Mr. Meldrum pointed out to Mr. Morrison that the light he was offering was 7.6 power, whilst the Toronto Junction light was only 6.6 power. His was a stronger light.

Mr. E. J. Toker did not think that the Cereal Company's offer to operate the road would amount to any more than a fair bonus, and we could feel certain that anything that Messrs. Cox and Stuart undertook would be a success.

Finally Mr. Dumble moved, seconded by Mr. Wood—

"That the people of the town want the street railway, and that they will support the Council in any reasonable proposition to secure its operation."

The motion was carried.

MAYOR ROGER.

His Worship Mayor Roger, just before the meeting closed, made a few remarks. He said that the council was making careful inquiries in regard to the whole matter of street lighting. Expert evidence is usually unsatisfactory, even as to the merits of the two light. The only way to decide the matter was to have the two lights before them. They had consulted a prominent expert in Toronto, who had been highly recommended to them. He thought that many towns were adopting Mr. Meldrum's light, not because it is a superior light, but because it is a cheaper light to operate. It requires less care. He might say that if the Peterborough Light and Power Company were to put in the closed lamps, such as as Toronto Junction, they would not stand it for a moment, but for the same amount of money they could get a better light. What they wanted to get at was what it would cost to do their own lighting, and then they could determine how much they were really paying to either company.

Mr. T. F. Matthews thought the council should decide what lamps we are to have and then ask for contracts for lighting. As a citizen and a ratepayer, he would vote for a straight bonus for the street railway but he did not know that he would support a joint contract. The street lighting and the railway are two different propositions, and should be taken separately.

The meeting then adjourned.

HAS PASSED AWAY.

Mrs. Jane Ames Succumbs at the Venerable Age of 72 Years.

Peterborough loses an old and highly respected resident in the death of Mrs. Ames, wife of Mr. J. H. Ames of 181 Edinburgh street, which occurred at 4 o'clock this morning. The deceased was 72 years of age and has been ailing for some time. The cause of her demise was pneumonia. The late Mrs. Ames was a member of the Methodist church and was an active worker for that cause. She was greatly beloved by those with whom she came into contact, and made for herself in her old age a very large circle of friends, to whom the news of her death will come as a great shock.

The funeral will take place to-morrow afternoon at 3.30 o'clock from the family residence, 181 Edinburgh street and proceed thence to the Little Lake Cemetery, where the interment will take place.

Exercise Better Than Medicine.

If the man or woman who is doctoring a sluggish liver or a poor digestive system would put aside drugs and try bicycle riding they would soon find that nature's remedy is the best. Fresh air, healthful exercise, new scenes, pleasant companionship, are the only ingredients, but what wonderful potency it has! It is the greatest medicine on earth. Bicycling is a gentle exercise, yet it brings all the principal muscles into play. Another great feature of wheeling is that it takes one out into the open air, the most beneficial way to take exercise.

Monkey Brand Soap removes all stains, rust, dirt or tarnish — but won't wash clothes.

TENDERS.

Will be received by the undersigned up to the twenty-fifth day of April, at twelve o'clock noon, for the erection of a DWELLING HOUSE for the Superintendent of the Little Lake Cemetery Company.

Plans and specifications can be seen at the office of William Blackwell, Architect. No tender necessarily accepted.

W. H. MOORE,
President L.L.C. Co.

'GO AHEAD, MY LORD'

Mr. Gamey Thus Instructs Court in Cross-Fire With Counsel.

MARKED IRRITATION UNDER CROSS-EXAMINATION

Had Been in Witness Box For Over Thirteen Hours.

HE MAKES A NEW CHARGE.

Says That Mr. Stratton Promised Him an Additional Thousand After the First Vote—Also That Sullivan Knew Who Burned the Ballots—Globe Reporter Tells of Obtaining the Interview.

Toronto, April 16.—There was trouble in the air when the Gamey investigation was resumed yesterday morning. Mr. Gamey showed some signs of the strain, mental and physical, of two days in the witness box. This and the persistent efforts of Mr. Johnston to make a break in his story of conspiracy to overthrow the Government evidently irritated him. From the beginning he showed a petulance which hitherto was missing. When Mr. Johnston casually began, "Let us see. Where did we leave off?" Mr. Gamey tartly replied, "I don't know where you left off. Go ahead where you like."

In answer to persistent questioning, he said that from August 7th to March 10th or 11th he generally led Liberals to believe that he would support the Government, and Conservatives that he would not do so. He did not know whether his political life was pleasant last autumn or not, "and it does not matter to you," added Mr. Gamey.

Mr. Johnston reiterated a question as to his course of action several times, and Mr. Gamey appealed to the Chancellor, with the words: "He has asked me that question half a dozen times, my Lord."

Chancellor and Witness.

The Chancellor—You would make certain statements on certain occasions, according to the conditions—— A.—Yes, I have answered it half a dozen times already, my Lord, and he keeps asking me——

The Chancellor—You assent to what I say before you hear what I have to say. Don't be so rash. A.—Go ahead, my Lord.

The Chancellor—I do not want to go ahead. I will not go any further.

Mr. Johnston—Q.—Did you expect the Government to believe you or to deal with you in any way, and accept your statements that you were going to give them support, if at the same time you were making public statements that you were going to support the Conservative party? A simple question? A.—I expected the Government would use their own judgment in that.

Q.—You were at the same time making statements publicly that you were going to support the Conservative party and that Conservatives would be in power? A.—I told you I didn't publish those statements at all. I told you that three or four times.

Q.—Did anybody publish them for you or circulate them in any way? A.—Not that I know of.

Chief Justice Falconbridge—Mr. Gamey, are you using "publish" in the sense of putting it in the newspapers? A.—Or spreading broadcast.

Mr. Johnston—Or in any other way taking means to make it public in any way? A.—I wasn't taking means to make it public at all.

Position After Globe Interview.

Q.—Now what position did you take with your Conservative friends after the interview of The Globe was published, when that became public property? A.—I took the position, with the exception of those who knew it, that I was going to support the Government.

Q.—And your meeting of the Executive was after the publication of the Globe interview? A.—Yes, sir.

Q.—And you were there? A.—Yes, sir.

Q.—Then in order that there may be no doubt about another matter—you saw The Mail and Empire, I suppose, on September, the 11th, containing a report of the Conservative caucus? A.—I won't say that I saw it, I might have seen it.

Q.—Yes, might have. "Robert Gamey, M.P.P. for Manitoulin felt satisfied that the Conservatives throughout the province were satisfied with their leaders, and united and hopeful to a degree."—Mail and Empire of September 11th, 1902, you won't object to that as an authority. Now is that right? A.—It might be correct.

Q.—I am asking you if this is correct—you know what you said? A.—I don't know exactly what I said on the 10th of September, and I venture to say you cannot tell me what you said on the 10th of September in your political speeches.

Q.—I was not making political speeches. A.—No?

Q.—Not on the 10th of September. A.—You were not? I will bet you you cannot tell me the exact words you said on the 10th of September.

Q.—I am not paying my debts with other people's money. A.—Well, I will not——

The Witness Rebuked.

The jagged edges of this retort smote on the feelings of R. R. Gamey, and roused all the slow fury of his nature. If he had waited, the full force of Sir John Boyd's rebuke might have fallen on Mr. Johnston, but Mr. Gamey poured his few words of hot protest right into the midst of Sir John's opening remarks, and brought this rebuke on his own head: "Now, listen to me, witness. You must remember that you are in a court of justice. You have been asked on several occasions to keep quiet when the Court is making a remark."

Chief Justice Falconbridge—"The witness will not allow the Court to expostulate him without interrupting."

The rebuke from the Bench did not greatly subdue the witness as he turned to Mr. Johnston and swerved back for another question, but Sir John Boyd spoke on: "These remarks must not be made in court, Mr. Johnston."

After leaning over and speaking to Chief Justice Falconbridge, Sir John Boyd broke into the proceedings two or three questions further on, speaking in substance as follows:

The Newspapers, Too.

"I cannot help thinking that much of this evidence is addressed to the newspapers and we would be spared these sort of scenes but for the action of the newspapers in relation to the proceedings."

Returning to the interview with Mr. Stratton on January 18th, he said they talked about appointments, the letter to Mr. Ross that was altered, and other matters, but nothing was then said about money. The next meeting was on January 29th by appointment made through Frank Sullivan about 2.15. Mr. McGregor went up from the Walker House with him.

Q.—You and he were conspiring to get some evidence on that occasion I suppose?

The Chancellor—Seeking.

A.—I gave you the information, I was going to see Stratton.

The Globe Interview.

Mr. Stratton was not there. After a short time he met Frank Sullivan in the corridor, and went back. Mr. Johnston took the witness over the matter of The Globe interview and other subjects.

Finally Mr. Stratton gave him a typewritten interview which he wanted signed. He said he would not sign it as it was, but would take it away, make alterations and come back. Frank Sullivan was present all the time, and they went out together. He had some business in another department, and met Frank Sullivan later at the Walker. He saw Mr. McGregor there, and returned alone to the buildings about 6 o'clock and saw Doherty in the Public Works Department. Sullivan came and said they were ready in Mr. Stratton's office. He could not remember where this remark was made or what were the exact words.

In Mr. Stratton's Room.

They entered by Mr. Stratton's private door. Mr. Stratton was sit-

(Continued on 3rd page.)

Anno 1903

Modish Silks

With a Characteristic Style About Them—

Most of these "smart" Silks came from France and Switzerland, and are beautiful examples of the manufacturer's art in silk weaving.

Silks suitable for street wear, receptions or the dressiest of functions. Some are inexpensive—some are not for swell creations—are not often classed with cheaper goods.

DESCRIPTIONS OF A FEW:

Fancy Raised Stripes on plain Taffeta grounds, the stripes resembling the worked effects of the fine huckabacks to-day. In colours of gold, sky and rose, per yard..... .75

"Broctelle Two Tones"—throwing out a silvery sheen, in capital colourings of Oxford blue grey, cadet white, pearl and brown Taffetas. Patterns sweetly dainty. Marked to sell at, per yard..... .95

Eolienne Stripes—a soft finished, admirable wearing silk, with shamrock self coloured ground, and bright neat stripe, in sage, brown, grey, navy and Oxford, marked, per yard .. .95

Shirt Waist Stripes on white taffeta grounds, with taffeta and satin duchesse, 3 inch stripes of red and navy, alternating with the white in each case. New—distinctly new, per yard.. 1.00

Neat Floral Stripe in plain taffeta grounds of black and brown, intermixed with self eolienne stripes. Blouse lengths only, per yard..... 1.25

Oxford and Royal Warps, with white weft, with polka dot and white double stripes. Stunning silks to wear with Oxford or navy walking skirts. Special, per yard..... 1.25

Chameleon Eolienne Silks—in the most unique Paisley patterns, with brown, navy and green predominating. Smart silks for smart dressers, per yard..... 1.50

Satin Duchesse Crepe Chameleons, showing an index into the mighty powers of the Swiss weavers. An assuredly good silk to wear and gloriously rich style in grey and castor. The subdued richness of these silks we should like you to see, per yard..... 2.50

Plain Silks

Of Rare Value

BLACK PEAU DE SOIES

Which appeal to us as the best wearing silk possible. The appearance is all that could be desired. The wear-resisting non-creasing qualities exceptional.

Black Peau de Soie, fair weight, strong warp and weft, and a bright finish. Special value, per yard..... .75

Black Peau de Soie, heavier weight, beautiful rich finish. A capital Blousing Silk. —Regular value $1.00, our "own" store's syndicate price, per yard..... .88

Black Peau de Soie, with a lovely sombre richness that will tempt any lady into an "ever wanted" black silk dress, per yard..... 1.00

Black Peau de Soie of a satiny finish and soft richness, with a feel of wear endurance, per yard..... 1.25

Coloured Peau de Soie with the same advantage of wear as their black sisters, — will appeal strongly to "faint hearted" silk expenders, who have some time or other found other silks not just what they expected in the wear. Raise your hopes. We fearlessly recommend this silk. It comes in all the "looked-for" shades. Absolutely trustworthy, per yard..... .85

Coloured Taffetas—soft finished and new colourings. A full range of shades—suitable for shirt waists, summer dresses, tab collars, linings, etc. Worth 75c to 85c yard, for..... .59

Black Taffetas—We can introduce to you a special line at a special price, with over a thousand yard guarantee of quality. Suitable for linings—blouse or dresses, per yard ..... .50

Another Taffeta of the same family, with a bit more weight and a more lustrous sheen, at, per yard..... .65

Still Another—a grade better still, per yard..... .75

Round Thread Glace—made of smooth, carefully-selected threads. The brightest silk we know of, and what we believe to be satisfactory wearing, per yard..... 1.00

Japan Taffetas in a full range of shades and black and white, 23 inches wide, per yard..... .25

Japan Taffetas in a good range of colours, suitable for blouses, summer dresses, fancy work, etc., 27 inches wide, per yard..... .50

Black Japan Taffeta, heavy weight, one yard wide, per yard..... .75

Plain Florentines—a confirmed "wear-resister", with a brightness envied by many much higher priced silks. Comes in full range of colours and black. The 60c quality, per yard.... .50

MR. FORGET'S THREAT.

(Farmers' Sun.)

Thanks to the preferential tariff English cottons have standing room in Canadain trade, and farmers, the largest consumers, are thus given a show against the cotton combine.

A fixed idea with cotton millionaires is that a combine is no good unless it has the market to itself. Being a device to fence out competition, the thing is not working right if a competitor squeezes in. "Canada ada for the Canadians" is a fancy label on this brand of selfishness.

Canadian cottons sell at prices which are the envy of Yankee and British manufacturers, and the flood of immigrants insures steady demand. Bradstreet's report, April 11th, states that "at Montreal the demand for spring and summer goods is so great that mills and factories are taxed to their utmost."

As the business outlook brightens the combine's fever for bigger profits rises. Hence the attempt last month at working the "private and confidential" scheme on Mr. Fielding. But it did not work, and the combine is now in a desperate mood.

In fact, so desperate is its mood that the Montreal Journal, the paper of Lucien Forget, one of the cotton combine, says the next move will be to cut down the wages of the mill hands—a pretty threat in these piping times of prosperity.

Mr. Arthur Dansereau has been telling the public that Mr. Forget is a resourceful operator on the stock exchange. With all the shrewdness such praise implies, the wily stockbroker may yet have to learn that it is poor tactics to threaten a strong Government.

SOME HAPPENINGS IN THE NORTHERN TOWN.

Personal Mention and Other Happenings of Interest at Lakefield.

(From our own Correspondent.)

Mr. Walker, of Montreal, is a guest at Harborne for Easter.

Miss A. Sherin, of Barrie, is spending her Easter vacation with her parents in the village.

Wm. Doidge, of Peterborough, spent Easter with his parents.

Mr. Stuart Fraser and Mr. Clare Bravender, of Collegiate Institute, Peterborough, are spending their vacation in the village.

Mr. F. A. Kilbourn paid a visit to Toronto for Good Friday.

Dr. Fraser, of Toronto, is visiting with his uncle Dr. D. Fraser, of the village for a few days.

Miss Daubuz, of Peterborough, was in the village visiting friends for Easter.

Miss A. Piper, of Toronto, paid a visit to Lakefield on Saturday renewing old acquaintances.

Mr. and Mrs. Salter, of Toronto, are the guests of Mrs. W. M. Graham.

Rev. John McEwen and his daughter Miss Baxter, of Toronto, are visiting in the village for Easter. Mr. McEwen took charge of the service in the Presbyterian church on Sunday morning.

Miss G. Lillicrop, has returned from Toronto where she has been visiting friends for the past two weeks.

Miss B. Blomfield is home from her college studies for her Easter vacation.

The Misses Mellor, of Peterborough, are visiting friends in the village.

Miss Blanche Graham is home from Havergal College, Toronto, for Easter.

Mr. G. L. Furbush, of Warners, N. Y., was in town on Monday.

Capt. and Mrs. Reynolds, who have been away for the winter, are back to their former residence on Queen street.

The Misses Isbister, of Peterborough, spent a couple of days in the village this week.

Mr. Joe Moffat, accountant in the Trader's Bank here has returned to the village after spending Easter with his parents in Port Hope.

Mr. R. P. Davidson, Manager of Traders' Bank, is spending a few days in Windsor with friends.

SOME VALUABLE HINTS TO SUGAR BEET GROWERS

The Local Company's Agriculturists Give Information.

Farmers and Others Interested in the Industry Should Carefully Peruse This Article.

The following suggestions have been handed the Examiner by the Peterborough Sugar Company's agriculturists, for publication:—

Owing to the fact that the Peterborough Sugar Company have introduced sugar beet growing as an intry amongst our farmers, and the comparative newness of the crop to many, it might be well to draw the attention of such as are entering upon the growing of the sugar beets for the first time, to a few suggestions as to how to procure the best results, as taken from the experiences of those more acquainted with the growing and handling of the crop.

In the first place it has been found that good crops of the beets may be grown under a great variety of conditions, and such being the case, as well as perhaps a want of help at the right time, the best treatment of the beets will in some cases be ignored, and a disappointment is sure to follow.

The Peterborough Sugar Company desire the farmers who have become patrons of the industry to make a success of beet growing, particularly during the initial stages, as necessarily the supply of beets at that period and until the industry is fairly established, is limited, and the returns not so large as when they know more about the crop.

Generally speaking, any soil, and conditions and treatment that suits a crop of any other roots, will suit a crop of sugar beets, but as the beets, like other crops, are known to be partial to certain kinds of soil, cultivation, etc., it might be well to particularize a few of those conditions best suiting for producing a good crop.

Any loamy soil containing fertility to a high degree is best suited to the crop, and the fertility should be got without being overly rich in nitrogen. This is procured by applying manure in the fall or winter, say upon a soil, and a crop of grain taken off the field in the following year. The soil then well prepared in the fall and spring and sowed in sugar beets. While spring manuring does very well for turnips, mangolds or potatoes, yet the straw, grass, roots, etc., tends to cause an excessive spreading of the roots of the beets, which decreases their value for sugar making purposes; and the abundance of nitrogen obtained from freshly applied manure seems to keep the beets growing on through the sugar forming period in the fall. While spring manuring is not deemed advisable, yet a light manuring of wood ashes applied during the summer to the crop has given excellent results.

The land should be deep ploughed in the fall and a shallow cultivation in the spring, such a cultivation as will almost if not entirely destroy any weeds or plant life that may have come over winter from the last year's crop; and particularly is this cultivation necessary as it not only increases the fertility of the soil but because to a great extent the after labour of thinning and hoeing the beet crop is lessened.

The sowing may take place according to conditions, always looking to having the soil right and ready to sprout the seed, as rapidly as possible. About the 20th of May seems to be the time most frequently recommended to sow sugar beets. They are sown about 15 lbs. to the acre in rows running north and south, 18 to 21 inches apart, and on the flat. An ordinary grain seeder of 11 drills will sow four drills at once, about 20 inches apart. The beet seed is of the size of ordinary small peas. It is necessary to have a good even stand of beets and a uniformity of crop.

An important factor both as to tonnage per acre and percentage of sugar or blanks in the rows, causing an uneven size of beet, etc., is the excessive rooty growth which prolongs the life of the beet and hinders its maturing at the proper time. The thinning which is done, as each finds to his advantage, and ought to be to 8 inches apart in the row, is commenced as soon as possible after the appearance of the beet above the soil, and after the scuffler has been put through once or twice.

In the thinning process, which is the slowest work in beet culture, a combination of man and boy, or boys, seems to give the best results. The man blocking two rows at a time with a seven inch turnip hoe and the boys follow him reducing the beets to one in a place. In Germany however the thinning is done entirely by one person who uses a small one-hand hoe, and they do it very rapidly.

When the beets are sown on the flat it is seldom necessary to throw earth up to them to hinder the sun burning, but in case there is a tendency for the beet to come above the ground it pays to turn the shares of an ordinary scuffler outwards and hill the beets up a trifle, as is done with corn. If this is not done it decreases the crop per acre, as the sun-burnt portions of the beet is not of any use for sugar-making purposes, and is better taken off in the field, as it can be there used for feed for cattle or hogs.

No definite time can be set for harvesting the beets. As in all other crops there is a right time and this seems to be governed by the circumstances of the time of sowing, weather, etc. It is always desirable, however, to have the beets fully matured and yet to have them harvested before the rough weather sets in.

The most inexpensive beet-lifter, as well as, probably, the best, is an ordinary walking plow from which the mould board is taken off and a small plate substituted. The share portion of the point is broken off, as this would otherwise cut or break off the root of the beet. This implement is run along each row of beets and they are then easily lifted and topped and thrown in heaps or rows after the manner of harvesting other roots. While in most cases the beets can be delivered directly from the field when harvesting, yet in others it may be necessary to pit at least a portion of the crop, and delivery of the crop extended into the winter.

In this extreme climate it would be next to impossible to keep such a large quantity of beets from freezing and such freezing apparently does not injure the sugar-making properties of the beet, yet a continuation of freezing and thawing out would destroy the beet altogether, as they would, under such circumstances, rot in a very short time. If the beet grower desires to pit his crop, or a portion of it, before delivery, this may be done by selecting an exposed place in the field, where the snow will not drift to any extent; cover with sufficient beet tops to keep the earth from adhering to the beets, and with earth to a depth of 5 or 6 inches. The uncovering of the pit may be made easy by placing a few rails or poles under the tops and earth on one side of the pit, so that after the cover is frozen, a chain can be hitched to the poles and the whole side hauled off at once. Otherwise it will be necessary to use a pick-axe and the cover broken up and thrown off in pieces.

It may be well to state here that the Peterborough Sugar Company will employ competent agriculturalists who will go through the country and by suggestion and practical demonstrations aid in every way all those who become patrons of this industry, in securing for them as great a measure of success as possible. As a remunerative beet crop will tend to increase the acreage in future years to a very great extent.

In conclusion, select, if possible, a well drained, fall-plowed, clayey loam, or other good piece of land; give it a thorough, shallow, spring cultivation right away. Get all the weeds killed before sowing the beets. Weeds are more easily destroyed with a harrow than with a hoe. Sow the seed, plenty of it, not deeper than one inch. Use an ordinary grain drill and drive straight.

Start the scuffler as soon as you see the beets. Thin them before they get the start of you. Scuffle after rain.

Put a reasonable amount of energy and ability into this good paying industry; be one of those patrons who in a few years, when the industry becomes firmly established and of vast importance, as it will be to the community, who can look back with pride and say:—"I helped it along."

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds, and croup, I have ever used in my family. I have not words to express my confidence in this remedy. — Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

BLAIRTON.

(From Our Own Correspondent.)

Fierce March winds have been experienced here this last week.

The roads are in a very bad condition and in some places almost impassable.

There is considerable sickness prevalent in this district among young people, while several old residents have passed away.

The public school, which was in rather a bad state, is being repaired and the grounds laid out in a way more pleasing to the eye than previously. The Methodist church is also undergoing extensive alterations and improvements.

Mr. George Riley leaves here for to take up farming a few miles south, and has the good wishes of his many friends in Blairton.

Mr. J. Fraser, of Norwood, recently held an auction sale of Mr. Robert Cole's stock. The sale was a great success. Mr. Foley, near Norwood, and Mr. J. L. Aunger, of Blairton, purchased every head of cattle, the the latter buying 13 head.

No seeding has as yet been done here.

DEATH FROM POISON.

Medical Records Show that Uric Acid in the Blood is a Swift Agent of Death.

Paine's Celery Compound

The Wonder-Working Spring Medicine is the Only Reliable Blood Purifier.

In the springtime deaths frompoison—uric acid in the blood—are common. This malignant poison which should be expelled by the kidneys, is diffused through the blood, and when allowed to remain in the system, proves fatal. Thousands of men and women around us are now suffering from kidney-poisoned blood. Loss of nerve force, failure of appetite, nausea, constipation, pains in the back and side and depression of spirits, indicate that uric acid is doing its terrible work.

For such a condition in springtime, there is but one sure, tried and unfailing remedy; it is Paine's Celery Compound, which promptly restores the kidneys to health and enables them to perform their functions. With the kidneys in proper condition, there cannot remain the slightest trace of uric acid in the blood. Mr. Frank Balmer, Winnipeg, Man., writes about his wonderful cure as follows:—

"Last year I was so ill that my family almost gave up all hope of my recovery. Kidney complaint, constipation and general weakness had almost wrecked my life. My blood was full of uric acid, and medical men told me my condition was such that they could not give me any decided hope. My wife finally decided to have me use Paine's Celery Compound. The first bottle produced such encouraging results that I continued the use of the compound. After the fourth bottle was used I was almost myself again. Six bottles completely cured me and raised me up again to attend to my daily work. I am satisfied that Paine's Celery Compound saved my life. It is better medicine than the regular doctor can give us in times of sickness. I recommend it."

'GO AHEAD, MY LORD'

(Continued From 1st Page.)

sing at his desk, and having read the interview, said it would do.

Q.—What was said after that? A.—After I gave that to The Globe reporter, who was waiting out in the other room, that he would fix up this money—words to that effect.

Q.—The word "money" was referred to? A.—At that time.

Q.—And he said that in the presence of Frank Sullivan? A.—Frank must have been in there; I believe he was. He went in with me.

Q.—And you came out together? A.—Not only that, but there was a discussion about further money that was to be paid after the first vote.

Q.—Then he said to you he thought that would do? And then he talked about fixing the money matter with you? A.—Yes.

Q.—Was any amount mentioned? A.—I don't think that Mr. Stratton mentioned the amount exactly, not then.

Q.—Had anybody else mentioned the amount? A.—Frank Sullivan had mentioned it when we went out of Stratton's office in the afternoon; he said we could get the payment of a thousand dollars after the interview was signed.

Q.—Then after having said that he would arrange about the money matters, what did you say? A.—I said, all right, I would give the interview to The Globe reporter.

Q.—Did you give the reporter the statement that appeared in The Globe? A.—Yes.

Q.—Having gone out into the anteroom, what did you say? A.—Stratton was there.

Q.—What did you say or do? A.—Frank Sullivan went on ahead of me out into the corridor, and Mr. Stratton shook hands with me and said good-bye, and said, "I have given Frank so many 'fifties,' so many 'twenties,' so many 'tens.'"

Q.—How many? A.—I don't remember how many he said. I remember repeating the words, fifties, twenties, fives—making a thousand in all.

Q.—With The Globe reporter and Myers in the other room, Stratton and you in the corridor, and Frank Sullivan outside; that was the position of the parties? A.—That was the position of the parties.

Asked For the Balance.

Q.—And you were not asking for money at all at that time? A.—Asking Mr. Stratton?

Q.—Yes? A.—No, not that I know of. I might have said to him something during the afternoon, something like, "How about the balance of the money?" because Mr. Stratton distinctly told me that I would get another thousand dollars after the first vote was taken; so that I may have spoken about it.

Q.—In answer to Mr. Blake, and in answer to myself on many occasions, and in your statement in the House, there is not a word given about that; is that new? A.—No, sir; that took place that afternoon.

Later he corrected the word afternoon and replaced it with evening.

Q.—When you got outside, you say what? A.—Frank Sullivan took the envelope out of his pocket and counted the money.

Didn't Show It to McGregor.

He went to the Princess Theatre that night with Mr. McGregor, but did not show him his half of the $1,000 or tell him about it, although they discussed the deal.

Q.—Was it true when you swore a few moments ago that the reason you didn't show it to him (McGregor) was that you hadn't the opportunity? A.—If I had had the opportunity, I think I would have shown it to him, and I didn't have the opportunity, and it didn't occur to me to make the opportunity.

On March 9 he went to the House to see about his seat, and met Frank Sullivan. At his suggestion, they slipped into a side room to escape a Mail reporter, for he did not wish to be seen with Sullivan. They afterwards saw about a seat, but did not speak about that money transaction. They spoke about furture timber and fishery deals, and it was then he made the arrangement to meet at the Crossin piano factory to discuss their affairs the following evening. He assigned as a reason that he thought it better not to be seen together in public, and Sullivan agreed.

In the Piano Factory.

Mr. Johnston took the witness over the interview with Frank Sullivan at the Crossin piano factory on the night of March 10. He described how he assembled the young stenographers early in the evening and drew a plan showing how he arranged the pianos for them to hide behind.

On Mr. Johnston asking the size of the room witness suggested that Mr. Crossin take a measurement during the noon adjournment, which was agreed to.

Gamey testified that only one jet of gas was burning, and he thought that the shutters were closed.

Witness met Sullivan at the door and went upstairs together. Sullivan was there about three-quarters of an hour talking with him about deals past and future. They first spoke about their relations to Stratton and Whitney, and whether the Government needed his support. Sullivan said the Government needed him then as badly as at any other time, spoke of Evanturel, and said several members were sick.

In reply to his question, Sullivan said Stratton was very uneasy and wanted to see him very often about it. In fact, Sullivan said he had gone there almost daily and had no trouble getting into the office. He asked if Myers could be trusted, and Sullivan replied that Myers did not know much about this transaction. He thought it was Myers who brought the parcel with $1,000 to the smoking-room, but Sullivan said it was Chase, and added:— "We don't want to get mixed on that."

The reason Sullivan assigned for agreeing on the story was:

"If Stratton did not do what was right, we could hold him up."

He then asked: "Do you think Stratton will pay the rest of the money?"

Sullivan replied: "He can't help it. He will have to." We have plenty of material to hold Stratton up."

They also spoke about timber transactions and fishing licenses. Sullivan said Noble had paid a rake-off last year for his fishing licenses, and should do so again. They should get several hundred dollars out of him. He also said a western Ontario man was willing to pay $1,000 to some one who could get him a timber license. Sullivan said if they made lots of money in this way they could hand the money back to Stratton, because the Government was "hard up" and "needed the money." They spoke about elections, and Sullivan said he could give information that would unseat the "three Norths," and added that if Stratton did not do what was right, he could easily get a scare heading in The World, for he had a confidential friend there. That was the substance of their discussion.

After Statement in the House.

Q.—Did you speak to Sullivan after you made your statement in the House? A.—Yes.

Q.—What conversation took place between you? A.—Conversation something like this: He said to me: "I think you ought to speak to me, he says,"—this was several days after I made the statement—"and I think it is up to you to talk to me, I think you ought to speak to me."

Q.—What did you say? A.—I said—well, I said, "What have you got to say," talked to him in that way, and he said, "Where am I going to be at, it is all right for you to make this statement in the House, and Stratton, you are both in the political game;" then he said, "Where am I going to come out;" he said, "I am the one that is going to suffer for this." For that reason he thought that I should talk to him.

Q.—Did you talk to him? A.—Yes, a few minutes.

Q.—And that is the only talk you have had of any account with him? A.—Of any account.

Who Burnt the Ballots?

Q.—Did you offer to compensate him for his loss? A.—No. I said to him, "You should not be so mad." I said, "Last fall you told me that for $5,000 you would tell us"—he offered to me last fall that he would tell us who burnt the ballots and all about the machine, and all that sort of thing, and I told our lawyer, Mr. Bristol, at the time.

Q.—Did you offer to compensate him for his supposed loss when you had a talk with him? A.—Just that way only. I said to him he had made that reference last fall, and I didn't think he ought to feel so bad, when he offered to sell out for that amount.

Q.—Did you lead him to believe that you would get him the $5,000? A.—No. I told him that I didn't want to persecute him at all or to do anything with him, it wasn't him I was after, it was the Government, Stratton, and I would be very glad to help him in any way I could. I didn't want to persecute him or anything of that kind; it wasn't him I was after; it was Stratton and the Government I was after, it wasn't Frank.

Q.—You would put some money transaction in his way if you could? A.—If I could. All I wanted him to do was to tell the truth in the witness box.

The Conclusion.

He wrote the report of the Conservative Association meeting at Gore Bay which appeared in The Globe of Feb. 17, and gave it to William Stoddard to send. It was a reasonably correct report. The report or summary of what took place in the Crossin piano factory was prepared by one of the young men and given to him in the House. He did not pay the reporters for their work; they volunteered it.

This finished the cross-examination.

RE-EXAMINATION BEGINS.

Counsel For Prosecution Once More Takes Mr. Gamey in Hand.

To Mr. Blake, he said he never looked at the document, but put it in a sealed packet, and had not yet read it. Sullivan complained that neither Liberals nor Conservatives would have anything to do with him. He felt sorry because he used Sullivan as a tool.

Q.—Then I do not understand what you said about his saying he may have got $5,000 for giving certain information as to certain burnt ballots—what ballots? A.—Last fall he said to me that for $5,000 he would tell the Conservative party who burnt the West Elgin ballots in the Parliament Buildings, and all about the machine, who manipulated it, and who spent the money. On this day I said, "You cannot feel very badly," I may say that so far as Frank Sullivan was concerned he never pretended to be such a strong partisan. He said his father had been a strong partisan, but he himself did not care so much.

Q.—Never mind about that. Then you stated that you did not want to hurt him, but that it was the Government or Mr. Stratton. And what was it that you wanted of him, and didn't you make him any offer in respect to that? A.—I didn't make any offer, but I wanted to assure him that so far as he was concerned I was not going to injure him at all, more than the fact that he was connected with this deal.

Q.—What did you want him to do in the matter? A.—Just to tell the plain truth in the witness box, and I told him that so far as I was concerned he had my sympathy and I would do anything I could to prevent any prosecution.

Before adjournment at one o'clock the Chancellor consented to Mr. Blake's proposal to file as secondary evidence the contents of some letters from Gamey to Frank Sullivan, which had been destroyed or mislaid.

The court then adjourned until 2 p.m.

Was First Experience.

In the afternoon, replying to Mr. Blake, Mr. Gamey said this was his first experience in a witness box. He repeated that the reason he destroyed the written agreement signed by Frank Sullivan, the only written evidence of crime, was that he wanted to keep the confidence of the Sullivans, and as a matter of fact the document did not touch anyone but Frank Sullivan, and did not involve the Government. Regarding the timber deal discussed with Frank Sullivan in the Crossin piano factory, from which they would repay that money to the Government, he said that they wanted only one timber limit, but wanted a good one, because if they got one it was not likely they could get another. This finished Mr. Gamey's evidence.

A number of letters were then filed from several parties in relation to appointments, and showing Mr. Gamey's control of patronage. One of them was by Mr. Stratton to Mr. Gibson asking the appointment of Flesher as a J.P. on the recommendation of Mr. Gamey, and then followed a document signed by the Lieutenant-Governor making the appointment.

The Globe Reporter.

Mr. M. O. Hammond, reporter of The Globe, was the next witness, and was examined by Mr. Ritchie. He described the circumstances connected with the interview published in The Globe, in which Mr. Gamey announced his intention to support the Government. He said that in consequence of an intimation from Mr. Stratton on the previous day he called at his office for the purpose of getting an interview. He called first about 11, came back at 2, and

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

Daily Examiner.

THURSDAY, APRIL 16, 1903.

Y. W. C. A.

Miss Reynolds, the World's Secretary of the Young Women's Christian Association, purposes visiting Canada during the latter part of April and May. It is expected that she will spend April 29th and 30th, in the the Peterborough Association. Full particulars, as to public meetings, etc., will be published later.

GREAT HOSIERY SALE.

Watch for Robert Fair & Co's announcement in to-morrow's Examiner of their great sale of Hosiery, starting Saturday morning at 9 o'clock.

25 lbs. Granulated Sugar $1.00.

This is the standard granulated, produced by one of the Ontario Beet Sugar factories, and is as fine in grain as the St. Lawrence granulated. To introduce it we will sell for a short time 25 pounds for $1.00. We also have the Redpath granulated, which is the standard sugar of Canada. Medium brown sugar, 30lbs. $1.00; dark brown sugar, 33lbs. for $1.00. E. F. Mason & Co., 429 George street; branch store, 353 George street, near market. 1d

A Thousand New Books!

Just received at the Peterborough Bookstore, 1000 volumes paper bound books, in "Modern Authors" sizes, published to sell at 25 cents each. We are running them off at less than half price—10 cents — such value for new books being unprecedented. The names of such popular writers as the following ought to make the selling doubly quick — Southworth, Bertha M. Clay, Georgie Sheldon, Fergus, Hume, Doyle, Hope, etc. A. H. Stratton & Co.

Mr. Leary's Enterprise.

Mr. R. H. Leary, Peterborough's wide awake liveryman, has just placed an order with the Campbell Carriage Company, of London, for a handsome rubber tire Victoria and for a rubber tire runabout. Mr. Leary has also ordered from the McLaughlan Carriage Company, of Oshawa, three rubber tire buggies and three steel tire buggies. With this addition to Mr. Leary's already extensive plant the Peterborough public can rely upon the best that can be had with respect to fashionable turn-outs.

Hyslop Bicycles, Sundries and Tires of all makes are now on sale at Metheral's Bicycle Works. The Hyslop is the best this year. Call and let us explain our terms.

PETERBOROUGH BICYCLISTS HAVE BEEN WARNED.

Must Conform Strictly With the Requirements of the Bylaw.

Considerable inconvenience is experienced by pedestrians by cyclists riding on the sidewalks. These latter people may not know that by doing this they are liable to a fine of $50.00. To impress this more fully, the Chief of Police has asked the Examiner to publish the following bylaw.

Bylaw No. 1006, A bylaw for regulating and governing persons using bicycles, passed this third day of December, 1902.

The Corporation of the town of Peterborough by the Council thereof enacts as follows:

1. Every person travelling on any highway in the town of Peterborough on a bicycle shall carry a bell attached to said bicycle which must be sounded in all cases when it is necessary or proper to give notice to others of the approach of the bicycle and shall slacken speed and ring the bell when approaching each cross street.

2. No one shall travel upon the highways of the town of Peterborough on a bicycle at a greater rate of speed than eight miles an hour.

3. This bylaw shall come into force and take effect on January 1st, 1903.

4. Any person who shall be guilty of a breach of any of the provisions of this bylaw shall on conviction thereof be liable to a fine not exceeding $50 and costs, to be levied in case of non-payment thereof, by distress and sale of the goods and chattels of the offender, and in default of sufficient distress, to imprisonment in the common gaol in the county of Peterborough, for any period not exceeding twenty-one days.

HARMONY LODGE.

Matters of Practical Interest are Discussed.

Harmony Lodge, I.O.G.T., is adding variety to their meetings by devoting half an hour at each meeting to the discussion of matters of practical interest. On Tuesday night last, Mr. C. E. Brown, of the Electric Works, read a most interesting and instructive paper on "Wireless Telegraphy," several of the members joining in the discussion. At the next meeting Mr. Geoffrey Pratley will read a paper on "Insurance." Meetings are held on the 2nd and 4th Tuesdays of each month in the Maccabees' Hall, Water street, opposite the Public Library.

390 GEORGE STREET

THE FACTORY SITE

For the Beet Sugar Factory is Being Considered.

Mr. Avila Thomas, Chief Engineer for the National Construction Company, of Detroit, is in town helping the management of the Peterborough Sugar Company to select the most suitable site for their factory. He has carefully inspected the four properties upon which options have been obtained and considers three of them very suitable for the purpose required. Before the matter can be finally settled certain measurements have to be secured and Mr. F. Bartlett has been engaged by Mr. Thomas to make them. The choice of the lot will be decided this week and building operations will be begun without delay.

The National Construction Company are erecting three large factories this year, one of them is at Charlevoix, Mich., another at Mount Pleasant, Mich., and the one at Peterborough.

NEWS NUGGETS.

—The road scraper done good service on Aylmer street, yesterday.

—There will be service at All Saints' church to-night at 8 o'clock.

—St. John's choir will practice to-night at 8 o'clock. A full attendance is requested.

—The brigade turned out in answer to a fire alarm on Antrim street at 4 o'clock.

—The grand illuminated display of Mr. A. W. Cressman's spring goods takes place to-night.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover. 'Phone 190.

The pupils of Notre Dame will give a high class musical entertainment in the T.A.S. rooms to-night.

—The Fraser Mission Band of St. Paul's church will give an entertainment in the Sunday School this evening.

—The Victoria Museum in Inverlea Park, will be open from 2 p.m. until 5 p.m., from now on throughout the summer months.

—The regular meeting of Court Peterborough, No. 29, Canadian Order of Foresters, will be held in their hall, Simcoe street, to-morrow night.

—The Ladies' Aid of Charlotte street Methodist church will hold a sale of useful and fancy articles in the Lecture Hall of that church this evening.

—A public meeting will be held in the Town Hall, Port Hope, on Friday evening for the purpose of considering the establishment of a hospital in that town.

—In the regimental orders published in yesterday's Examiner, the appointment of Mr. R. H. Henderson to be Colour-Sergeant in "H." Company, was inadvertently omitted.

—Considerable excitement, not to say amusement was caused by a horse running away down Hunter street last night in a most leisurely fashion, leaving a rheumatic driver a long distance behind.

—Bicyclists are to be fined $50 if they have no bell on their bicycles. The Health Authorities might as well fine a man for not having an overcoat on when it rains as colds are said to be catching.

—Large quantities of grain are beginning to move over the Midland, and double headers are once more keeping the rails hot. About a dozen grain vessels have already reached Midland from the upper lakes.

—The maskinonge are running and Fishery Overseer Brady is on the lookout for the man with the spear and the gun, says the Lindsay Post. Yesterday he caught three men on East Cross Creek with fish in their possession and the fines they were forced to pay would suffice to start a little private fishpond of their own.

—The Hastings Star says: The thank offering service in the Methodist church on Sunday evening, conducted by members of the W.M.S., was very well attended. Miss Munroe, of Peterborough, who spent ten years in Japan as a missionary, gave an address on her work in that country and an account of the work to be done in our own Northwest among the Galicians.

—The grain season opened at Midland on Sunday with the arrival of two vessels from Chicago—the Midland Queen, carrying 110,000 bushels of wheat, and the Mary Elphicke, an enormous freighter, with 338,000 bushels in her holds. Last year over 15 million bushels of grain were received at Midland, and carried through Peterborough to Montreal; this year it is expected the total will reach 25 millions.

PETERBOROUGH BOOMING.

It is not an unhealthy boom that Peterborough is enjoying at present, but a good steady substantial growth, backed by the fact that her natural resources place her in a position to offer to manufacturers inducements far in excess of any other town in Canada.

We are also securing a large share of this boom, as our facilities for securing the choicest meats and handling them in the most up-to-date manner are equal to those of any city dealers in Canada.

We have looked forward to this period of good times in Peterborough, and prepared ourselves for the handling of increased business which we are now enjoying.

Remember the CHOICEST EASTER MEATS AT UNCHANGED PRICES.

KENNEDY'S MEAT MARKET,

Mr. Superintendent Rogers' Illustrated Lecture.

Splendid Stereoptican Views Will be Presented.

All who are interested in the Trent Valley Canal, and that includes everyone in Peterborough, will be grateful for being reminded that Mr. R. B. Rogers, C.E., Superintending Engineer of the Trent Canal, will repeat his interesting illustrated lecture on the canal in the opera house on Monday evening, April 20th.

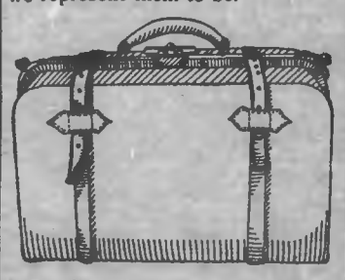
Though the title of the lecture will be "The Waterways of Canada," special and particular attention will be given the Trent Waterway.

Mr. Rogers has added largely to the views to be presented in illustration of his lecture, and the public can be assured of a most interesting treatment of a most important subejct. This lecture, recently delivered in Montreal was received with great favour.

The address will be given under the auspices of the local Board of Trade, and, as there will be no charge for admission, a crowded house should be present. It is to be hoped that we appreciate the importance of the Trent Canal, both in the matter of national transportation interests and in the interests of Peterborough, which will stand to benefit largely by through traffic, and by the reduced charges for freight, both incoming and outgoing. Let this appreciation and interest be shown by a large audience in the opera house on Monday evening, April 20th.

HONEST TRUNKS!

We warrant our Trunks just as we represent them to be.



Special lines of Steamer and Stateroom Trunks, Canvas-covered Trunks, Leather Valises, Club Bags, Gladstone Bags, Telescope Cases, etc.

Best goods sell easily at moderate prices.

J. T. STENSON

Let the Prices Speak!

They explain why Wall Paper buying is so brisk at the Peterborough Bookstore. What is worth emphasizing is, that in the patterns we quote so low to-day there is a large variety to choose from.

And the stock—in quantity alone, if mere bulk is of interest, we have the largest we have ever shown, and that's saying much :—

Gilt Wall Paper... 5
Grounded Wall Papers... .4
Grounded Glimmer Wall Paper..... .7 and .8
Heavy Gilt Wall Papers (imported). .10 and .12 1/2
Heavy Embossed American Gilt Wall Papers..... .15
Richer Imported Novelties—Orientals, in Tapestry, Scroll and Burlap .25 to .60

WINDOW SHADES.

Come and test our prices—that's what surprises the visitor.

Strong Window Shades, mounted on improved self-acting fixtures— .19 and .33

Pretty Window Shades, in new designs, completely mounted.. .40 and .60

Elaborate Window Shades, fitted with best spring rollers, etc— .75 and .90

Whoever has walls and ceilings to cover this spring could not possibly do better than visit our Wall Paper Department. Our supply of Window Shades is also worthy of your inspection, and is in keeping with the excellence of our stock in all other departments.

PETERBOROUGH'S HOUSEFURNISHING STORE.

25,000 Yards. **25,000 Yards.**

Twenty-Five Thousand Yards Of Floor Coverings.

Floor Coverings of all classes, grades and varieties, in larger profusion and greater quantity than ever before.

Wednesday, April 15th,

We open the Spring Campaign in Carpets, Oilcloths, Linoleums, Curtains, and Window Hangings, and in fact everthing that goes to furnish a home.

Never in the Store's history have we had such a vast bulk of Floor Coverings, Window Hangings and Draperies. Never had we such an infinite variety—never have we gone so far to make this a Housefurnisher's Store without parallel. At the same time, do not for one moment imagine that mere bulk has been the object in the gathering of this stock. Come here and see the goods. They will tell a different story to that. Our Carpets and Hangings are exclusive, and the best values ever offered to a PETERBOROUGH CITIZEN.

SIR OLIVER MOWAT'S CRITICAL CONDITION.

Fears that His End is Fast Approaching.

Members of the Family Stay at the Sick Statesman's Bedside.

Toronto, April 16. — Sir Oliver Mowat's condition was very grave at 5 o'clock this morning, and it was feared that the Lieutenant-Governor would die before dawn.

During yesterday the reports as to his condition were of the most encouraging character.

As evening wore on a change for the worse was noticed, and as the symptoms increased in gravity the physicians, Drs. J. A. Temple and A. Primrose, were summoned. Upon their arrival at 11.30 it was seen at once that the condition of Sir Oliver was such as to cause anxiety for the outcome. An hour later the family were summoned and gathered in Government House.

By 2 o'clock all the members of the family had reached Government House. The anxious watchers seemed to realize that the end was near. All that was known was that his Honor appeared in much physical distress.

The members of Sir Oliver Mowat's family, all of whom are in attendance at Government House, are: Sheriff Mowat, Mr. Arthur, Mrs. C. R. W. Biggar, Mrs. Thos. Langton and Miss Mowat.

Toronto, Ont., April 16.—1.15 p.m.—There has been little or no change in Sir Oliver Mowat's condition up to this hour. The doctors in attendance on the distinguished patient have issued no bulletins since 12.30 a.m., from which fact it is understood that they are only waiting for the end. No members of the family have left the house since midnight.

AT LECH'S

JUST WHAT YOU WANT.

THAT EASTER HAT

"The best Hat Values are at Lech's." We borrow that phrase from customers, who know the merit of our offerings.

In Lech's Hats there are not only style, but first-rate quality. The new shapes are becoming to the average young man. Nobbiest English and American Spring Blocks, wide, medium or narrow brims, mediums or high crowns.

SOME PRETTY VIEWS

Of Peterborough in a Booklet Issued by Messrs. A. H. Stratton & Co.

Messrs. A. H. Stratton & Co., have issued a spring announcement in the shape of a booklet. The booklet is entitled "Peterborough," and has a number of very handsome views of the town. The publication is in truth a work of art, and all who see it will doubless admit it as such. The following excellent views are shown: Bird's eye view of Peterborough; George street looking north from Charlotte street, Water street, the Lift Lock, Central School, Victoria Park and Court House, Y. M. C. A. Building, and last, but certainly not least, a beautiful view of Mr. A. H. Stratton's store.

SOCIAL AND PERSONAL.

The County Police Magistrate is in Keene to-day holding a court in that village.

Misses Flo and Josie Dunsford returned to Lindsay yesterday after spending Easter in town.

Mrs. H. W. Gray and Miss Reid have returned to town after spending the Easter holidays in Toronto.

Mr. S. Nelson, of Lakefield, has returned from London, where he has been visiting his son, W. J. Nelson.

Mrs. Macfarlane Wilson will be at home hereafter at 292 London street, on the first three Tuesdays of the month.

Mr. J. S. Livingstone, County Councillor of Smith's Falls, is spending the Easter holidays with his cousin, Jas. McCreary, Walton street.

Mr. H. R. H. Bryan of Toronto Medical College has returned to Toronto, after spending Easter at the home of Mr. and Mrs. H. M. Moore, 77 Homewood avenue.

Mr. and Mrs. Killin-Keough sang at Port Hope Opera House last night to the largest audience of the season. Miss Maud Brown, of town, acted as soloist and accompaniste.

How to Ward off an Attack of Rheumatism.

"For years, when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie Macdonald, of Man, Logan County, West Virginia. "I tried everything with no relief, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment. For sale by all druggists.

THE FIRST MEETING

Of the Season of the Campbellford Cheese Board.

The first meeting of the Campbellford Cheese Board was held on Tuesday. Only two buyers were present, Messrs. Whitton and Bailey. Owing to the buyers having purchased the output of the factories for April no cheese were boarded. On motion the Board adjourned till Tuesday May 19th at 10 a.m. Mr. James Thompson, of Madoc, is the inspector for the district and will begin his work on May 1st.

DR. MARSH'S MOST INTERESTING LECTURE

Entitled "Other Worlds Than Ours."

There was a Large Attendance in St. Andrew's Sunday School.

In spite of the very bad weather on Tuesday night, a very large number of people assembled in St. Andrew's Sunday school, to hear the lecture on "Other Worlds than Ours," which was given by Dr. Marsh, D.Sc., of Hamilton.

The lecture, which lasted for about two hours, was a most interesting and instructive one, and the learned doctor, for two hours held his audience almost spell-bound by relating to them something of the mysteries of the other worlds which are all around us, worlds which are visible, and yet so far away that even with the most powerful astronomical instruments cannot be brought within hundreds of miles of mother earth.

The lecture throughout was illustrated with many excellent lime-light illustrations of moon, sun, planets and stars.

In commencing what was more of an address than a lecture, Dr. Marsh said that he would omit as many technical terms as possible, and only use the most common every-day expressions in order that the many young people present might intelligently follow the whole of his discourse.

Talking of being born under such and such a star as being lucky or the contrary, was ridiculed; the lecturer said that the stars were so far away to be born under one was practically to be born under all. Then as to fortune telling by stars, he said that if there is truth in telling of fortunes by the lines of the hand then there might be truth to be derived from the stars. It is a prevalent idea with many people that the moon controls or affects the weather. This is not so. The moon merely controls the tides.

The lecturer then dealt with the mysteries of the sun and moon, and explained in a very clear and concise manner by means of mechanical slides what happens when either of these are wholly or partly eclipsed. In talking of the planets Dr. Marsh said he had reason to believe that Jupiter was not inhabited; it had not sufficiently cooled, and was yet in a luminous condition. Mars, which is very similar to our own earth, might be inhabited, but he could not say; he however thought that most astronomers would answer in the negative. Saturn, however, it is known by the use of the spectroscope, was not inhabited. Some magnificent views were shown of Venus and Mercury in crescent shape, and a large number of views of different sections of the moon. Some of these were on a immense scale and every little protuberance could be distinctly seen as well as the fissures on the surface. Some magnificent views of nebulae and sections of the sky prolific in stars were thrown on the screen, and could not help but cause feelings of awe and admiration of the works of Him who made all things.

In closing his address Dr. Marsh gave a few facts on meteors, stating that on the evenings of the 21st or 22nd of this month, if the sky was clear, meteors would probably be seen shooting eastward.

At the close of a very powerful lecture a hearty vote of thanks was given to Dr. Marsh. Rev. J. G. Potter occupied the chair.

Admission, 25 cents; tickets on sale at Mr. Jas. Lynch's and at Mr. C. B. Routley's.

MR. SAMUAL WELSH COMMITTED RASH ACT.

Took His own Life at Toronto on Monday.

The Body Remained Unidentified for Some Time. His Home was in Hastings.

The many friends in Peterborough of Samuel Welsh, of Hastings will regret very much to learn of his sad end, which occurred in Toronto on Monday. The young man met death at his own hand and for a day or more the body was unidentified. The late Mr. Welsh was well and popularly known in Peterborough, having been a prominent member of the Hastings Lacrosse team and played here last summer. He had also attended Business College in Peterborough. He was the son of Mr. John Welsh, the proprietor of the Hastings tannery. Mr. Welsh was in town last night on his way to Toronto to bring the remains of his son to Hastings for interment.

The unfortunate young man has for some time been acting in a strange manner, it is said. He went to Toronto on Tuesday of this week to accept the position of traveller for a wholesale house. Concerning the deceased's death the Toronto Globe yesterday said:—

Mounted Constable Guthrie yesterday afternoon found a young man about 26 years of age in a dying condition close to the lake shore entrance to High Park. Drs. Temple, Griffiths and Eadie, who happened to be passing at the time, diagnosed the case as one of carbolic acid poisoning and administered restoratives, but without avail. The body was taken to the morgue, where it now awaits identification.

About 4 o'clock, or one hour prior to the death of the man, the policeman saw him acting strangely in the park and concluded that he was under the influence of liquor. There was nothing on the body that would serve to identify the remains. Inside the hat was a sterling silver plate bearing the initials "S.V.W.," and in the pockets of the clothing were two five-dollar bills, a small prayer book with a cross on the outside and a railway ticket to Hastings. A bottle containing carbolic acid and bearing the label of J. A. Mitchell's drug store, 809 King street west, was found close to the body in High Park. Mr. Mitchell was spoken to last night, and he said that a young man answering the description of deceased had purchased carbolic acid at his store yesterday morning. The man referred to gave the name of James Mackenzie, and said he lived at 40 Lippincott street. Miss Agnes Clark, the owner of the house, explained to a reporter that she had rented her place to a man named Mackenzie about three years ago. The man was then about 22 years of age, and worked for the Coban Manufacturing Company. A member of the Cobban firm stated that he had no knowledge of anybody by the name of Mackenzie working for the company within the past five years.

Coroner J. H. McConnell has issued a warrant for an inquest to be held to-day. Detective Verney has charge of the case.

The T.A.S. Lacrosse Club, of town, have forwarded a handsome floral remembrance in the form of a cross.
